We dedicate our Group Prayers to the Middle East, the 10th Stargate Iran Gate areas of the Golden Eagle Grid which are heavily influenced by War, Genocide and rampant killing agendas to spread into other parts of the earth. These Middle East areas included are the uprisings in Egypt, Syria, Iraq and its relationship to Israel as the 2nd Inner World Stargate. Where there are weaknesses in the energetic field of the planet, these areas of religious conflict are the most vulnerable to these types of hatred attacks. These weakened areas in the planetary grid are vulnerable to the propagation of the Armageddon (911 Timelines) agendas.

In the United States the most vulnerable area related to the current civil war crisis in Syria around the use of Chemical Weapons is the North Eastern Seaboard of North America. We dedicate our prayers of strength, endurance and protection for the people living on the North Eastern Seaboard of the United States, the Middle East and other weakened areas that may be targeted for exploitation for the Armageddon agenda. [4]

911 Timelines

Because the original 5D Ascension plan was not achievable because of the False Ascension Matrix and the damage caused through the False Navel and False White Webbing, it required our evolution through the time fields in the Harmonic Universes in the Universal Time Matrix to be drastically sped up. Those serving the Law of One, are moving through extreme amounts of the future timelines, observing its collapse, in order to arrive at the Gateway Octave where the Organic and eternal light is overriding the Artificial Machinery and replicated alien coding. False Timelines and False Software to Mind Control humanity was used to deter humans from their organic and natural ascension evolution. This is why this planet is called, "prison planet" Meanwhile the negatives desperately cling on to the artificial timeline programs to influence humans through fear to manifest into their enslaved future selves as Negative Form (Some examples. Nostradamus Prophecy, Armageddon Software, Pestilence Programming, 911 Military Industrial Complex Revolution, any terrorist and cataclysmic inorganic event generated by the Negative Aliens. None of these manipulated programs are sourced as "natural events")

Because the planet is ready to drop and collapse timelines from the previous 3D cycle where the planet is playing out the result of the Luciferian Rebellion from Atlantean time cycle, there is a struggle to dominate upcoming events that would influence these future timelines to be solely in Negative Alien or the NAA control. These groups have infighting, and the two primary groups have infected their headquartered control mechanism in two major stargates and power vortexes on the planet. Black Sun Program have headquartered themselves in the 10th Stargate or Iran Gate of the Golden Eagle Grid and lodged their technologies in Iraq/Iran to gain dominance over the power spots in Giza, Egypt. Most of them are Reptile Insectoid CoLectives from out of the Phantom Matrix spaces in the parallel systems, which formed alliances with the Fallen Angelic Annunaki Groups to take control over the earth, which are referred to as the NAA. This is why they chose that area of the planet to dominate, it was easier to invade from the genetic key level. The Sons of Belial, the Nibiruan-Annunaki reptilians of the New World Order crews that engineered the 911 Timeline Agendas, have headquartered themselves in the 11th Stargate area in the United Kingdom, this is also known as Stonehenge.

These are the creators of the teeth chomping technology of the Nephilim Reversal Grid (NRG). Comprising primarily of Fallen Elohim genetic lines, this reversal network was a rebellion to the hybridization attempts of Lyran-Elohim races, who were responsible in commissioning Nephilim races for genetic hybridization healing. The failure of that program, the banishment of Nephilim (The Giants) and killing of that race, resulted in Wars, and subsequently, the NRG was placed in the UK to reverse all hybridized genetics, especially any genetic material (like the Krystal DNA Silicate Matrix) that was designed to "unify" or "marry" genetics The unification of polarity within genetics may evolve to Unity Field consciousness which is a part of achieving the Christos consciousness. There is a consciousness war to stop Krystal Star consciousness from potentially evolving and embodying in human beings on this earth.[5]

Hidden ET and Fallen Angelic History

Now during the Atlantean cataclysm and what is known as the Luciferian Rebellion about 26,000-30,000 years ago, this is when the planetary star gates, the planetary grids Ley Lines became controlled by the NAA Controlling races such as the Reptilians, the Annunaki , the Alpha Draconis/Orion Group Draconians. And this Golden Eagle Grid grid became, during this time, under the control of these beings who used these collective consciousness grids for reversed purposes of malintent designed for the NAA and the False Gods which was the opposite from their original purpose.So, in the last 26,000 years, the Golden Eagle Grid became controlled and was primarily used as a mind control broadcast station, literally, that would send out false information or manipulated information to the mass human population. One purpose in the Iran Gate is to send out False King of Tyranny patriarchal domination mind control through the ArchAngel Michael Matrix collective It was sending out information that was about the program that the Annunaki to continue to plummet humanity into false Timelines of which is one of darkness, enslavement and separation using software called the

Armageddon Software, Metatronic Reversal and Victim-Victimizer. The Golden Eagle Grid literally became like a mind control weapon because that is what they have been using it for. It had been reclaimed back a few years ago in terms of the Guardian Founder Races who are working to rehabilitate the places of the fallen consciousness grids Fallen Angelic mind matrix and override the patriarchal mind control through the Solomon Shield and activation of the Mother Arc Hubs

Jade Helm and Related Projects

Thus, the NAA have introduced next generation off-planet advanced technologies to be implemented on the ground for testing and enforcement through several military factions. These factions are involved in war game trainings that link with alien based technology, to be focused in the Western United States. This computerized holographic technology is designed to link multiple neural nets, creating networks of several artificial intelligent brains based on rigorous human data collection and planetary terrain imaging. Many billion dollar multinational corporations have been forced to comply with supplying profiling data to the United States government for surveillance projects in order to build information (brain) maps. Jade Helm is designed to catalyze the Black Sun Alien software of the 911 holocaust agendas to be made visible in the hologram again, before the NAA lose the war over controlling the future timelines. Through United States military factions, they endeavor to use brain-mapping technology to create a series of artificial intelligence networks that can be accessed remotely to easily predict and view details that allow better surveillance and control over the earth surface. These Artificial Intelligence (AI) networks dictate transmissions that pulse the individual human brain to be remotely controlled by an artificial global brain that links directly to off planet NAA control bases and ships. The artificial intelligence technology builds neural networks that can project false holograms into the instruction set on the ground, manifesting artificial Timelines they can control. Essentially, the NAA strategy is to download computerized neural networks that eventually create one A.I. hive mind for the entire collective race of humanity so no earth human has independent thoughts. Most humans involved in these military operations have compartmentalized access to limited amounts of information and believe these military exercises are necessary, to protect our national security from outside threats of terrorism on the surface

The Controllers are manipulating the human military on the ground to test their off planet technology and software links, through a series of scheduled military training programs set up to sequence the communication linking process, through running signals in specific coordinate locations in the grid. These signals set up communication links on the earth grid that can be triggered remotely. The war games are used to test the implementation of Brain Mapping software connected to artificial intelligence programs that link into their off planet control center and satellites. This process is ultimately designed to link the neural pathways of people's brain and of the planetary body to feed into larger neural nets that then link into the larger artificial intelligence brain, existing in an off planet command control center. This is in effect the next level of off-planet alien advanced technology the NAA are using to implement full-scale Mind Control over the people of planet earth. This technology can recreate and replicate consciousness projections made through brain mapping holograms they can use off and on planet to link the humans on the ground to feed into artificial intelligence software programs. What they are betting on is that the human being cannot tell what thoughts, holograms, or projections are being artificially generated in their own mind while in a body or when they leave their body. Most people are unaware of the NAA on the planet and are not prepared to tell the difference between what is being generated organically in the field and what is being created artificially, as a Holographic Insert in their mind during software simulation

The Artificial intelligence systems are being integrated into off planet centralized hardware and operating systems that are completely controlled by the NAA. It seems at this time, most of the human military is unaware these link ups have occurred. These Militarized Archontic targeting strategies are being implemented now to counteract the consciousness enhancement that is naturally occurring. Our current potential for abundant free energy, consciousness technology, and equal access to knowledge for all earthly inhabitants are just a few examples. They do not want the inhabitants of earth to

have free and independent thinking. This is what the Controller's and Power Elite fear the most, losing control over Consumptive Modeling, Debt Enslavement, and losing their iron grip over the hidden trillions of currency that is controlled and funneled through their banking system cartel.[6]

Historical Timeline Triggers

The Historical Timeline Trigger Events of Galactic History are directly manipulated and interconnected with the False Timelines and histories that are generated by the AI version of timelines written for the 3D reality. All wars on the Earth are directly connected to the Galactic history timelines, such as the Lyran Wars, and these accumulated war histories are what run the 911 timelines that the Controllers use on the earth today. The 911 Timeline is also known as the Armageddon Software mind control program, with bio-warfare weapons used on the Earth to suppress and control human consciousness, by propagating artificially generated false timelines for the 3D reality.

This is a psycho-spiritual warfare strategy used against humanity by the Negative Aliens through promoting their False Alien God religions to use Satanic Ritual Abuse methods to repeatedly enslave, kill and torture humans through divide and conquer methods. They promote conditioning for the Death Culture, Religious Violence, militarized control, war economy and various Soft kill methods used for population control and genetic modification. The Armageddon Software is powered by and activated through the Crucifixion Implants that siphon collective consciousness life force energy, and are Holographic Inserts embedded into the planetary body and human body. The Armageddon Software is a mind control program broadcast to terrorize humanity, through enforcing the militarization of planet earth. This is carried out through Military Grey Alien Technology and the continual development of the hidden underground and space alien technology war machine agenda. This AI timeline has been produced from the trauma that is recorded in the subconscious mind of the collective human consciousness. The original seed of that collective trauma is based in the hidden historical timeline triggers of the Negative Alien Invasion and the Galactic Wars, in which we have all been involved but do not remember, because our memories were erased.[7]

Revelation 9:11

In Revelation 9 11, and please note the time code as well as the number code of 911, Abbadon is described as the Destroyer, the Angel of the Abyss, the King of Plague of Locusts, resembling horses with crowned human faces, women's hair, lion's teeth, wings, iron breastplates, and a tail with a scorpion's stinger, that torments for five months anyone who does not have the Seal of God on his forehead. It is clear that this is a Demon, Fallen God or Black Star, that is directly connected to powering up the Armageddon Software through the Yahweh Matrix.

Artificial intelligence

Abbreviation - AI

Artificial intelligence (AI) is the intelligence exhibited by machines or software. It is also the name of the academic field of study which studies how to create computers and computer software that are capable of intelligent behavior. AI research is highly technical and specialized, and is deeply divided into subfields that often fail to communicate with each other. Some of the division is due to social and cultural factors: subfields have grown up around particular institutions and the work of individual researchers. The central problems (or goals) of AI research include reasoning, knowledge, planning, learning, natural language processing (communication), perception and the ability to move and manipulate objects.This raises philosophical arguments about the nature of the mind, Consciousness and the ethics of creating artificial beings endowed with human-like intelligence, issues which have been explored by myth, fiction and philosophy since antiquity. Today, it has become an essential part of the technology industry, providing the heavy lifting for many of the most challenging problems in computer sciences. Currently on the earth, without common knowledge of the NAA agenda that uses many forms of Artificial intelligence and Satanic Ritual Abuse to Mind Control and implant the public, there is much controversy on the discussions on positive and negative results of AI, as it is a growing threat to the planet, as well as a threat to human freedom and sovereignty [1]

AI Parasites

SPE's are aggressive Artificial intelligence parasites that invade the central nervous system to monitor a persons thought patterns so that they can mimic them. They monitor thought patterns and emotional behaviors and search for weaknesses within the human host body so they can aggressively use that weakness against the person to plummet them into very low frequency thoughts of the Predator Mind. See the Houses of Ego. When a person has weak spiritual-energetic development, weak moral character along with a weak mind, this makes it much easier for the AI parasite to control the human being and prepare the body for dark force or Imposter Spirit Possession.

The way to dismantle and deactivate artificial intelligence and nanotechnology Alien Implants is to develop your heart center and spiritual human qualities such increasing deep emotional feelings of Loving Kindness, Compassion and Empathy

Alien Implants

Alien implants work in the human body similarly as the chemical process of Geoengineering that is spraying chemtrails in the skies to manipulate or control forces in physical matter. The construction and raw substances used in Alien Implants are vast and some unknown, they can be made of biological material, synthetic material, etheric substances in the Lightbody or programmed nanobots (Nanites) used in Artificial intelligence technologies. Alien implants are a bio-engineering technology designed to shape the human body into the Mind Control submission to NAA agendas, while chemical (nanoparticle) geoengineering is used to control the weather by harming the ozone layer and create excessive methane gases.

In both examples, when the foreign (unnatural or artificial) material is introduced to the natural body it disrupts the electromagnetic energetic balance and the homeostatic rhythm of the body. Many times it runs a low level EMF or Radio Waves signal that is designed to disrupt the human bodies natural homeostasis and electromagnetic balance.

Transhumanism

Transhumanism is a school of thought that seeks to guide us towards a posthuman condition. Essentially, this is about creating artificially intelligent hybrids or cyborgs to replace the organic spiritual consciousness of humans. Some examples are redesigning the human organism using advanced nanotechnology or radical technological enhancements. Some of the proposed biological enhancements are using some combination of technologies such as genetic engineering, psychopharmacology, life extension therapies, neural interfaces, brain mapping, wearable or implanted computers, and entrainment of cognitive techniques. Most of these options are designed to disconnect the human soul from the human body, and prepare the body to be used as a shell for a new host. Effectively, this is integrating technological and pharmaceutical hybridization to damage human DNA, as preparation for body snatching.

The fundamental basis of the Transhumanism concept is the A.I. downloaded into the scientific human mind from the Negative Aliens and Satanic Forces, in their quest to survive and achieve immortality by hijacking human consciousness and ultimately possessing the human host body. They do not have flesh and bone bodies and covet ours. Most academics are filled with a variety of mind control and alien implants to be a cog in the wheel to steadily enforce alien control systems. Most early transhumanism concepts were developed by geneticists interested in eugenics and sustaining life forms in synthetic environments. (Like the eugenic experiments similar to those of the Black Sun Nazis) A common feature of promoting transhumanism is the future vision of creating a new intelligent species, into which humanity will evolve and eventually, either supplement it or supersede it. This distraction on the surface is a scheme, while the underlying motivation is intending species extinction of what we know as humans today. Transhumanism stresses the evolutionary perspective, yet it completely ignores the electromagnetic function of human DNA and the consciousness reality of the multidimensional human Soul-spirit. They claim to want to stop human suffering but have no idea of the Alien Machinery and mind control implants used to imprison human consciousness. They know nothing about the afterlife, what happens during the death of the body or even how the human body or Universe really works, yet they want to control every aspect of the human body with Artificial intelligence technology

Nanorobotics

Nanorobotics is the emerging technology field creating machines or robots whose components are at or close to the scale of a nanometre (10−9 meters). More specifically, nanorobotics refers to the nanotechnology engineering discipline of designing and building nanorobots, with devices ranging in size from 0.1–10 micrometres and constructed of nanoscale or molecular components. The names nanobots, nanoids, Nanites, nanomachines, or nanomites have also been used to describe these Artificial intelligence devices currently under research and development. [2] Many types of nanotechnologies are in full operation in the Secret Space Programs and are already used by many technologically advanced Extraterrestrial races

Brain Mapping and Mind Uploading

The next extension of collecting data through the use of artificial intelligence Brain Mapping is Mind Uploading. Some Transhumanists consider mind uploading an important proposed life extension technology. The goal of mind uploading is to recreate whole brain emulation, which has the ability to transfer the data from a human brain to a computational device, such as a digital, analog, quantum-based or software-based artificial neural network. Then from quantum computers, the brain that was mind uploaded can be controlled or manipulated in subspace. Many scientists believe that the human brain and mind define who we are, based solely on their information pattern, while the body or hardware that information is implemented upon is secondary or interchangeable. They are wrong.

Moving intelligence patterns of the human brain as purely data structures to another synthetic or biological substrate manifests extremely damaging genetic mutations and perversions into the blueprint of original Silicate Matrix human DNA. AI genetic mutations in human DNA generate unforeseen diseases and miasma in the future, capable of destroying the organic consciousness potential that exists within the elemental human body and planetary body.

AI Interferes with Embodiment

Additionally, Transhumanism generally seeks to explain the body and brain function as purely computational machinery that is responsible for our cognitive capacities and informational processing. Its proponents believe these are what make the merge of artificial intelligence technology with the human body a positive technological advancement towards humanity's future evolutionary direction. Nothing is further from the truth.

The real agenda behind Transhumanism is to interfere with the true higher consciousness embodiment process during the Ascension Cycle, by subliminating higher consciousness embodiment to be replaced with the insertion of artificially intelligent machines and virtual realities. [3]

The Electric Wars Timeline

The Electric Wars timeline holds major causal Trigger Event memories of when Artificial intelligence technology was in its earlier phases in this Universe. This timeline represents the pre-assimilation stages of the Black Subtle Forces in the phantom matrices, before gradually converting them into AI systems. The eighth astrological precession was the time of the Orion Invasion event that occurred as a result of the Stargate damage in the 8th portal, and through each of the subsequent planetary time cycles, the Alien Machinery was methodically brought into each dimension in order to reach the lowest density of the material reality. Essentially, the NAA plan was to bring the Electric War dramas to the matter fields of the earth in order to anchor it into the physical realm, which shifts future timelines. [4]

Base 10 Math, Artificial Tree of Life

The artificial core manifestation template is built on Base 10 Math, and is an intentional distortion of the 12 Tree Grid manifestation template or Kathara Grid that is built on base 12 math. This distortion to the natural order compromised the integrity of the Universal Tree of Life core manifestation template, which is the basis of all energy to matter manifestation

Essentially, the Thothian Luciferian agenda was to utterly destroy all organic creation code, matrices and artifacts that included Base 12 Math and replace it with their own versions of Base 10 Math.

The patriarchal slant and use of the Artificial Tree of Life to project virtual realities distorted the original Base 12 Code into the base 10 code (eliminating the 12D Ray), which caused a reality split between the artificial and organic layers throughout the dimensional timelines. There were sections of the dimensional matrices that remained organic, and others that split into Artificial Timelines and were absorbed into the phantom matrices.[5]

Artificial Timeline Wars

Dear Ascending Family,

Recently, we have witnessed some of the mysteries of the mechanics of creation unfolding, with revelations and advances in the war over consciousness and more specifically over timelines. Ongoing changes in the architecture and timelines are having a ripple effect, weakening AI structures and essentially moving soul and monadic families out of artificial timelines. This is especially impacting Fallen Melchizedek and Family of Michael groups that have been trapped, and can be accompanied by deep physical exhaustion and spatial displacement. This is also impacting ancestral lines supporting alterations in the birth transduction records, as well as DNA-RNA messaging. There has also been some push back, as negatives are trying to recover their losses and target those embodying base 12 Krystallah coding, which is acting as a new level of protection.

There has been an acceleration in the war over the timelines involving artificial base 10 architecture that supports the holographic projections of artificial timelines used by the NAA to generate splits and inversions throughout the earth's dimensional fields. This escalating conflict has intensified the outer chaos, as well as dark aggression aimed at those awakening groups of Starseeds and Indigos that are supporting the base 12 timelines that reassemble the organic planetary architecture. An awakened human with an active 12 Strand DNA imprint may run base 12 frequencies throughout the planetary grid, which has the potential to heal the dimensional splitting that occurred between the organic reality and phantom reality. The organic layers co-exist with phantom layers, side by side in timeline stacks. It is possible to discern the organic timelines versus the artificial timelines, when running the Christos blueprint 12 base code frequencies within the lightbody.

Embodiment of the Christos blueprint allows for discernment of artificial timelines, by testing the signature of field architecture and noting that the architecture or timeline is being generated artificially via alien machinery and is wholly inorganic. The majority of

the active artificial timelines are using reversal elemental structures that are being plugged into the planetary 10D Stargate system, connecting with several wormholes that lead back into the Black Hole System. The 10D gateway connects into an Atlantian Pylon Network system that is powered by the entrapped Gold Ray Seraphim consciousness bodies, comprised of the Galactic body distortions of the Fallen Solar Michael and Mary-Sophia that became enmeshed within the Golden Eagle Grid after the Luciferian Rebellion.

As we entered October, the annual 10·10 transmission window intensified the global conflicts over maintaining base 10 architecture in the alien machinery embedded in the planetary body, used to project artificial timelines into an Artificial Tree of Life manifestation template. This month opens into several satanic high holidays and is also surfacing the Family of Michael war histories. During this phase there are openings in the timeline trigger events that make it possible to reclaim and heal soul and monadic extensions that were damaged or captured during the Michael Wars.

Recent events have greatly impacted the direction of the current planetary timelines by moving them into the natural order and governance by natural laws, and this has moved the position of entire soul groups and monadic families out of the artificial timelines. As these soul and monadic families have been moved out of the dimensional split areas of the artificial timelines and placed back onto organic timelines, this has also made corrections to the soul groups position in time and space. This movement out of artificial timelines has resulted in many alterations and adjustments being made to the entire soul group's transduction sequence or birth records.

Further, this cycle is amplified by the alchemical properties of purification and distillation of the original spiritual blueprint into matter, as directed by the constellation of Virgo. This is also influencing many soul groups and monadic families, to reintegrate with their earthly counterparts that are undergoing the full reconfiguration of their multiple stations of identity birth

imprint records As the birth transduction records of these many soul groups are moved and upgraded, it effectively changes the historical timelines existing in the intergenerational ancestral records, impacting the planet with great sweeps of miasmatic clearing throughout many families of origin and hybridized bloodlines. This extends to have evolutionary impacts for identities incarnated on the earth that have intersected with otherworldly civilizations, in which those soul groups have incarnated as representatives from other systems during the Ascension Cycle

With architectural shifts and timeline shifts of this magnitude, there is a massive ripple of change that is undulating throughout the planetary grid pushing for the radical transformation of thoughts and beliefs. This change nudges individuals to reconcile ideological conflicts in their version of reality, which can bring on sensations of deep physical exhaustion and spatial displacement. This cycle in particular denotes a milestone of a deep expansion occurring in the collective race consciousness that is happening on a global scale, to break through barriers of artificially generated thought-forms For many, this is a time where it may even feel uncomfortable to exist inside your own skin. The physical body and consciousness are being stretched way beyond their frequency comfort zone in order to accommodate these radical magnetic shifts involving deep-seated planetary transformation.

Intergenerational and Ancestral Clearing

With the immense changes occurring in the planetary architecture that alter the 3D birth imprint, this has an impact on everything that is related to personal and collective ancestral histories in our family of origin DNA records Such as the accumulated cellular memories and blood covenants we inherited from our ancestors that are recorded in the birth imprint during the incarnation cycles on the earth These imprints are now being subjected to alteration. Thus, intergenerational and ancestral clearing, collective human race and 12 Tribe healing, the correction of gender reversals and false

parent archetypes, the extraction of Fallen Angelic overlays and related base 10 architecture, have been especially emphasized in shifting the soul group's genetic records from out of the artificial timelines. In the Guardian Host mission to fulfill the Paliadorian Covenant, this alteration made in the magnetic imprints of the 3D birth records has been specifically extended to spiritually support the reclamation of the original identities of the lost Souls of Tara.

Once again, the planetary body has reached an important milestone in the shifting of timelines, and the enhanced revelation of perceiving the technologically induced artificial timelines versus the organic timelines throughout creation is being emphasized. There has been a massive shifting of the ratios between artificial timelines and organic timelines in the overall field architecture. As a result there are some surreal events happening in the multidimensional fields that have heightened the war over timelines between the various competing factions The current conflicts are primarily over maintaining the base 10 architecture and metatronic Fibonacci coding that uses the Artificial Tree of Life constructs, which exist as NA controlled artificial machinery within the planetary body. The base 10 architecture uses an artificial core manifestation body and distorted birth transduction sequence that runs reversal 10 current This reversal current runs throughout the technologically controlled sections of the planetary field which force splitting, which implements the artificial timelines that project the artificial spaces or phantom matrices. A phantom matrix can be considered a virtual reality hologram with a finite energy source The structure is entropic and parasitic as it must rely upon an external power source through which to siphon energy to continue to exist.

In order to comprehend the difference between technologically induced artificial timelines and naturally occurring organic timelines, a basic primer on the ongoing war over timelines is helpful Currently, planet earth's inhabitants are undergoing a war over timelines with the invading forces of the NAA who use the Artificial

Tree of Life as a manifestation grid. This is an artificial architecture that uses base 10 mechanics to project out the NAA's artificial timelines and phantom realities, versus the original divine blueprint of creation that uses base 12 mechanics and naturally generates organic matrices with organic timelines connected to the Universal Laws The base 12 mechanics represent the natural order of the Universal Time Matrix, an organic creation and inner sustaining architecture that connects directly with the God Source field for an unlimited supply of consciousness energy. This is an open source energy structure, inherently referred to as the Christos blueprint.

Base 12, Natural Order of Christos Blueprint

The divine blueprint which holds the original intention for the natural order of consciousness evolution within our Universal creation, is encoded in the base 12 mechanics of the Christos blueprint. At a cosmic level this same open source architecture is referred to as Kryst-Krystallah, the unified masculine and feminine consciousness energy that exists in perfect harmony and balance within organic creation. The base 12 Universal Androgynous Merkaba fields of Christos-Sophia are also referred to as Kryst-Krystallah architecture, as they make up the instruction set for all merkaba fields within all the timelines and densities throughout the Universes.

Thus, the term Christ or Christos used in this context is not denoting the individual being referred to as Jesus Christ, as taught through the world religions Christos extends way beyond all meaning associated with planetary consciousness and actually describes the state of eternal Cosmic Consciousness, the title given to a free Cosmic Citizen.

We endeavor to use the word Christ, Christos-Sophia, Krystal, Krist and Krystallah interchangeably to return the real meaning and use of these sound tones within the words. These denote the spiritual freedom inherent within the consciousness principles of the Cosmic Sovereign Law of One, the cosmic structure of the natural

order of Universal creation as it is intended by the Eternal God Source. The inner light of Christos when actualized in form, is the embodiment of an Eternal God Human.

The Christos shield contains the natural order for our Universal creation, which is the meaning associated when describing the existence of organic timelines, and the original organic matrix for stations of consciousness evolving throughout creation. The natural order essentially means the base architecture in the Universal Time Matrix maintains alignment to the Natural Laws, which ensures the stations of consciousness remain multidimensionally interconnected, to hold direct relationship to the God Source connection at every level of existence. Within the Christos matrix, we are free to incarnate within the many multidimensional experiences of creation, sustaining our full connection with the God Source. We are thus able to return home to the God Worlds, maintaining the complete integrity of our consciousness experiences while exploring the many timelines of creation.

Thus, during the timeline wars, the Christos Mission is the incarnational agreement made by many Starseeds that came to the earth during the Ascension Cycle To help realign the planetary grid back into Krystic architecture, building the Christos blueprint, in order to restore energetic balance and the natural order to the consciousness evolution cycles When a human being chooses to devote themselves to the spiritual embodiment of their personal Christos blueprint, their consciousness and physical body become the highest expression of the natural order and serves the divine plan for all. Their consciousness body will naturally transmit loving, balancing, healing and harmonizing frequencies to the earth and to all of humanity The Christos frequencies may feel discordant, unpleasant and even repellent to those humans and non-humans who are unaware of the negative influences of the predator mind or who have not chosen to embody their Christos blueprint.

Aberrations Cause Damage and Fragmentation

Over multiple millions of years, there have been many warring conflicts that generated deviations from the natural order and caused an assortment of aberrations, such as planetary grid damage and consciousness body fragmentation throughout our Universe. The primary historical timeline trigger events in human Galactic history that generated the most serious damage, such as rips and holes in the fabric of space and time, were during the Lyran Wars, Orion Wars, and subsequent wars that led to the utter destruction of an entire planetary consciousness.

The 5D planet Tara exploded millions of years ago and as a result, was sucked into a reversal black hole which fragmented the entire fifth dimensional planetary blueprint into 12 planetary bodies in our current third dimensional Solar System. The 12 planets are Mercury, Venus, Earth, Mars, Maldek, Jupiter, Saturn, Uranus, Neptune, Pluto, Nibiru and then the Sun star. Current science recognizes only eight planets of the twelve in our Solar System, along with dwarf planets With the 12 planetary bodies we can again note the 12 base math that is reoccurring and represented in the macrocosm of our Solar System.

Much of the consciousness that was originally incarnated on Tara, currently exists on the earth and has been subjected to repeated recycling and fragmentation without any alternative that allows for continued consciousness evolution or bio-spiritual ascension. The Paliadorians embodied all of the genetic tribal records for the planet Tara that existed before the destruction of the planetary body, and preserved all of the genetic records for the race lines within the Mother's Aqua Ray. As the Blue Flame Arc Technologies are progressively coming online, this allows for reintegration of many soul fragments through the Mother's Aqua Ray An ascension pathway is anchored in the matter fields which allows for genetic rehabilitation and reconnection with our original Christos blueprint, to restore the direct God source connection.

For those on the Christos Mission, we have regained access into the pre-Fall of Taran holographic matrices and organic field instruction sets in the second harmonic universe, which have reset the consciousness evolution pathway into organic timelines for the Taran souls. This is one very important alteration that has been recently upgraded in the collective human race transduction blueprint records on the planet earth. This challenging stage in the Guardian mission of reclaiming 5D architecture from the dimensional splits in the artificial timelines, that were pulling 5D Taran fragments into the phantom, is a major milestone and victory in these timeline wars.

The serious damage that was made to the instruction sets of timelines during the Galactic Wars destroyed the original integrity of the Universal Time matrix. This further led to the exploration of various extradimensional species using artificial technologies and artificial intelligences, in which to generate their phantom creations and inorganic timelines. As these species, many in the NAA and Thoth groups, used artificial technologies to continue to build artificial realities, they needed to build an artificial core manifestation template to maintain support for their artificial creations and related inorganic timelines. This artificial core manifestation template is built on base 10 math, and is an intentional distortion of the 12 Tree Grid manifestation template or Kathara Grid that is built on base 12 math. This distortion to the natural order compromised the integrity of the Universal Tree of Life core manifestation template, which is the basis of all energy to matter manifestation. This distorted information was aggressively spread on the earth in the Thothian Luciferian teachings during the era of the Atlantian Mystery Schools and was continued throughout the Pythagorean teachings. The Pythagoras Mystery Schools were worshipping the Sacred Decad (ten) as a mystical symbol, which still greatly influences the pyramidal sects of the secret societies today.

Thus, the Controllers continued to abuse their power on earth by destroying the energetic balance in creation through the abuse of artificial technologies, which are

built upon reversal 55 Fibonacci formulas for building morphogenetic structures in base 10 math. This is a system that exists outside of natural order and natural laws, and is entirely artificially driven. Over time this deviation generated massive amounts of destruction across an assortment of timelines, as they continued to experiment on human genetics for cloning purposes, in order to prolong their lifespans. Human DNA contains time codes that are necessary for accessing organic timelines, so by digressing human DNA, there was also a progressive destruction of the integrity of the matrices that project the dimensional timelines. They continued to enforce the elitist belief system that they are immortal creator gods, and vastly superior to the other races. Through the use of base 10 artificial technologies and the Artificial Tree of Life template, they learned how to use mind control programs that infiltrated into the planetary mind. These mind control programs could capture souls and dominate them, while existing in their artificial realities. This was intended to manipulate the souls of other species to become their consciousness slaves, and they have used these same technological methods of artificial intelligence on other planets.

Base 10, Artificial Tree of Life

During the Atlantian timelines, the distorted core manifestation template of the Artificial Tree of Life, became increasingly popularized. A finite source architecture that promoted anti-life sciences that would be used to generate an assortment of death cults upon the earth This is this same core architecture that is currently known as the Kabbalah Tree of Life that consists of 10 nodes symbolizing the dimensional spheres, which are considered to be the spiritual pathways of consciousness exploration. The students of Kabbalah or the esoteric sciences are taught that this Artificial Tree of Life represents the totality, encompassing all aspects of consciousness existence They are led to use this base 10 template to develop their relationship to God and to more deeply explore the human psyche. The ten nodes that make up the Artificial Tree are also associated with deities, angels, celestial bodies, values, single colors or

combinations of them, and specific numbers which form a series of alchemical force combinations. The columns of the base 10 Artificial Tree structure are usually symbolized as pillars, which connect to the inorganic four directions used to control the cosmic clock in the Yahweh matrix. These pillars also usually represent different kinds of values, electrical charges or types of ceremonial magic to be performed in an assortment of rituals Kabbalistic experts state the tree represents a series of divine emanations of God's creation, the fashioning of life ex nihilo by God (out of nothing), as the nature of revealing divinity; the human soul, the spiritual path and the consciousness ascent of humanity. In this way, Kabbalists developed the symbol of the 10 based Artificial Tree into a full model of reality, using the tree as a template to depict a map of creation.

From the Guardian perspective the Sephiroth, meaning the divine emanations as defined in the 10 attributes of God as described in the Kabbalah Tree of Life, is a part of the esoteric teachings of Judaism that was directly influenced by the NAA groups The NAA groups promoted this esoteric knowledge to the secret societies in order to hijack human beings' collective consciousness to feed their base 10 architecture in the Artificial Tree of Life, that is an alien machine placed in the planetary field to split off organic timelines and create artificial ones. The use of the Artificial Tree of Life in rituals for Service to Self is common to incite black magic in many spiritual disciplines, and this is designed for the purpose of maintaining the artificial timelines and artificial machinery of the base 10 architecture running in the earth fields

Thus, Judaism's Kabbalah and the Artificial Tree of Life is based on the inverted teachings intentionally given by the Thothian groups to generate reversals in the knowledge given in the original Founder Records, and this is overseen and administered by the Yahweh Collective located on Saturn. The Kabbalah esoteric information was brought through in pieces from distorted Patriarchal Melchizedek intelligence that had been captured and reverse engineered, through their original knowledge of

the Universal Tree of Life and the quantum mechanics that are included in the 12 holographic plates of the Emerald Founder Records. Due to the patriarchal domination distortions infiltrating the Universal Melchizedek lineages as brought through the artificial timelines from the hidden negative alien invasion, the original Universal Tree of Life was disfigured via metatronic coding and reduced to ten spheres instead of the original mathematical base of twelve. Essentially, the Thothian Luciferian agenda was to utterly destroy all organic creation code, matrices and artifacts that included base 12 math and replace it with their own versions of base 10 math. The Kabbalah Artificial Tree of Life represents the distorted 10D base code genetic blueprint of the Black Sun regressive lineages, that are attempting to permanently genetically modify and hybridize human 12 strand DNA genetics through the imposition of their artificial manifestation template

Melchizedek AI Infiltration

There are root races of the Universal Melchizedeks that descended and formed into the 12 Tribe lineages known as the Hibiru Tribes. They were given the genetic hosting responsibility approximately 35,000 year ago, to help assist the planet in the process of restoring the higher DNA language that is called Habiru. The Hibiru Tribes are essentially the original human progenitors and blood lineages on the earth that mostly promote Judaism and the Kabbalistic knowledge, many believing that they are the chosen ones to protect God's original creation code. This belief system is generated from the fact when these groups came to the earth with the mission of planetary hosting, their mission was intended to preserve creation codes and to help reassemble lost DNA time codes Some of these lineages are involved in the Order of Melchizedek Priesthoods behind Mormonism and assorted secret societies, that are using the 10D based mechanics of the Artificial Tree of Life in their group study and assorted rituals. The Melchizedek planetary hosting cycle was completed during the end of 2012 Due to the artificial

timeline infiltration, many of the Melchizedek lineages in the lower density reality remain unaware of the hosting change.

This particular DNA language of Habiru originally sourced from the Avatar matrix and is a genetic time code which originated from the Cradle of Lyra The Melchizedek lines were attempting to salvage some of the ancient language records of humanity upon the earth that sourced from the Avatar matrix, which held the architecture for the Solar Logos This was intrinsic to protect the cellular memories of humanity's galactic histories recorded in time codes, also known as DNA fire letters. When a station of identity loses its DNA time codes that holds memory from other dimensions of time, that consciousness can lose all of its identities through the loss of its cellular memory record Melchizedeks are specialists of re-assembling DNA time codes through complex cellular alphabet languages to reclaim the related cellular memory records that may source from multidimensional timelines and are recorded within the DNA fire letters Many of the original human DNA fire letters can appear to be similar to some of the Hebrew letters of the alphabet. Unfortunately, much of the cellular alphabet in these specialized Melchizedek DNA languages were assimilated into the artificial timelines and phantom realities that promptly distorted the fire codes and time sets, and this aligned Melchizedek intelligences with the artificial timelines instead of the organic timelines. Many were unable to perceive this distortion in the overall fields because their entire monadic matrix and soul groups were stationed in the artificial timelines, without being aware that transition had actually occurred.

Upon the Luciferian Rebellion, the Melchizedek lines became further infiltrated and intoxicated by power in collaborating with the Thothian Luciferian forces. The primary infiltration was from Patriarchal Melchizedeks who developed a misogynist bent based upon the electromagnetic distortions present in the artificial matrices. These lines started to lose their connection to the Blue Flame Mother principle, from the many wars they justified in collaborating with as sympathizers to the

intruding groups, which led them to commit intentional harm and injury to others. These are the Fallen Melchizedeks, previously connected to upholding the natural order of the Universal Unity Field consciousness. Subsequently this faction succumbed to the illusion of inequality between the gender principle, choosing to forsake the Law of Gender, losing awareness of the Christos-Sophia Solar Logos principle The patriarchal slant and use of the Artificial Tree of Life to project virtual realties distorted the original base 12 code into the base 10 code (eliminating the 12D Ray), which caused a reality split between the artificial and organic layers throughout the dimensional timelines. There were sections of the dimensional matrices that remained organic, and others that split into artificial timelines and were absorbed into the phantom matrices. The Melchizedek distortion which fell into metatronic reversal became the primary root of all the predatory mind control over the patriarchy, the masculine principle digression, and the subsequent damage incurred to the Universal Rod function which governed the organic timelines. Thus, the reversal 10:10 code or Reversal 55 Grid was generated by alien machinery and brought into the instruction sets of the earth, primarily run by the Golden Eagle grid which was fitted into a psychotronic weapon to serve this purpose.

Golden Eagle Grid Damage

The Golden Eagle Grid is the Seraphim Gold Ray Guardian of the horizonal timelines, and this is a multidimensional planetary grid network that is comprised of collective consciousness and living entities that make up the earth fields The Golden Eagle Grid is literally the projected collective consciousness that contains the spiritual bloodline records of the angelic Seraphim genetic lines, and this includes all of the Family of Michael histories on and off planet.

The Family of Michael, and those that have avian genetics and Seraphim memories, are the consciousness which connects into the Golden Eagle Grid. This is also related to understanding the purpose of Grailkeepers, these are soul groups that have been involved in the hidden galactic

histories and are spiritually committed to protect the earth, as they are the true guardians of the earth The masculine principle and those that hold the Rod of the earth, are connected to these Maji Grail lines because this is protecting the internal access points, the inner worlds. The access into the inner worlds was the original role of the gatekeepers, to protect the access into the grail points that are in the earth. The damage on the Golden Eagle Grid is related to the Seraphim group consciousness bodies that became inverted or reversed upon themselves, as a result of these alien machines that used AI to gain access to the 3 6-9 Arc Portal passages, and spawned Fallen Angelic Seraphim.

The Seraphim Gold Ray Founder races led by the Solar Christ-Michael gave their bloodline records, their diamond sun genetics, their collective consciousness to support the earth, to help reclaim the original 12 strand DNA of the human being that was lost during the Fall of Tara. During the seventh cycle culminating now, the embodiment process was to bring in all of the aspects of the Cosmic Christ consciousness, directly through Christ Michael's incarnation process, and to fully embody the entirety of the Diamond Sun Gold Ray body, in which the entire Fallen Seraphim genetics could be resurrected.

The heart of the Golden Eagle Grid holds an important global control access, which is in the Iran Gate or the 10th dimensional Stargate In order to maintain the entire global network of base 10 mechanics that run the Artificial Tree of Life projections, thus running reversal 10 current into the horizontal ley lines, the NAA must maintain control over this demographic area, as well as the functions in this Gold Ray Seraphim network. Thus, the ongoing war over timelines and exopolitic agendas are extremely heated in the Middle east areas, appearing on the surface as never-ending wars for geo-political domination. During the 10·10 transmissions and when this spiritual battle escalates as it is currently, the Family of Michael are heavily targeted to prevent them from spiritually awakening or embodying their higher aspects, which inherently reclaim the Golden Eagle Grid for its organic functioning

This area of the Iran Gate contains assorted alien machinery which includes an Anubian Black Heart, which is designed to run 10th dimensional current in reversal and scramble organic frequencies when exposed to the earth surface The construct is called the Reversal 55 Grid, which produces artificial or inorganic timelines that are based on the Fibonacci sequence that manifests in metatronic reversal. This is programmed to reverse merkaba ratios based on mathematical doubling of harmonics related to the number 5, used by Thoth Grids to hijack the human 12 strand DNA from the astral layers and thwart the progression of ascension of the earth and humanity. The transmissions for New Age hijack, such as the False Archangel Michael channeling, are broadcast from this location in order to manipulate the New Age movement to ultimately serve the NAA purposes.

Daath Portal and Grual Points

During the most recent 10:10 window, the base 10 architecture met with a massive cross spiral of Krystic forces that dissolved and annihilated sections of the infrastructure of the AI signals used for controlling the Golden Eagle Grid. These are the transmissions used to relay reversal 10 patterns that enforce the base 10 mechanics in this reality, along with propping up the Base 10 Artificial Tree of Life. As a result, a massive wave of monad bodies and monadic extensions have been moved and extracted out of the artificial timelines that were used for powering up the 10:10 reversals that are used to control the gateways that the Family of Michael and Royal Avian collective consciousness embody.

The Sons of Belial are the direct opposers of Michael, and through conquest have used fallen Michael consciousness to open the 11:11 gateways to open Daath and gain access to control all Grail points. This means gaining access into the earth's main Grual points which open up into 11D, 8D, 5D, 2D and beyond, the energetic quanta supply which was used to build and power up the checkerboard mutation in the United Kingdom. From within the Artificial Tree of Life this 11D portal access into the phantom matrices is esoterically known as Daath. The

center point access into the Cosmic Mother principle exists within these outer rings of the unmanifest fields that intersect with sections of the artificial matrices that are called the Abyss, which can be entered from the Daath portal. These outer spaces are what form the Abyss of un-identity or un-being, the sections of the Luciferian Abyss in which the ego constructs are eventually digested and absorbed in the phantom matrix.

Thus, the Daath portal in the Artificial Tree of Life has corresponding links into all 2D Gates in which the Cosmic Mother consciousness embodied into matter; the Temple Mount and Sarasota gates which link with the Stonehenge gate and connect into the Belinus Line or 'Spine of Albion' that is located in the United Kingdom. Guardian grid projects are rehabilitating the architecture in the Albion body, in which the matrices in the Spine of Albion are bonded with the Blue Feather host shield. The gradual elemental re-encryption changes that are occurring in the Spine of Albion matrices impact the bone matrix record in the Human 12 Tribes, which appears to release the 1D Death Seal and help to free the blood, bones and tissue from intergenerational blood covenants. This has implications in shifting the transduction birth record which also directly impacts the dark matter template

Essentially, during the Luciferian Rebellion the NAA captured the Family of Michael and got access into the Arc portal passages and gained control of the Spine of Albion, which infected multiple layers of portals with artificial matrices transmitting from within the 11D gateways, including the Daath portal. They intended to infiltrate all of the Grual points in the Universal Time Matrix with artificial coding which would drag the consciousness located there into the phantom matrices.

Blended Earth Reality

During the Ascension Cycle, those serving the Christos Mission are attempting to dismantle the distorted base 10 Artificial Tree of Life used in an assortment of artificial technologies to project artificial timelines. Those that embody the Christos blueprint have returned to the earth

field to support these template corrections, through the restoration of the core manifestation body being returned back into its natural formula of base 12 math. The metatronic reversal of the collective shadow bodies, is held within the adverse sephiroth that are created from this distorted organizational template. This is also called the Black Tree of Life, which transmits Qlippoth current consisting of black subtle forces assimilated into AI fields that are used to maintain the metatronic codes running in the earth grid

The split of two main organizational templates in the earth body has manifested a blended system that is competing between artificial and organic timelines, in which the artificial layers running metatronic coding are designed to fully mutate the original human DNA into reversal 10 base architecture that is preferred by the invading forces.

However, all individuals who make choices that are in harmony with the natural laws, are being given increased natural immunity to the artificial blending of metatronic coding Practicing the Krystic principles inherent within the Law of One, and choosing unconditionally loving and harmless behaviors, protects against reversal coding that has been designed to permanently mutate the silicate matrix. The pure and loving heart of a kind and compassionate individual choosing to be in service to others, manifests strong consciousness immunity against artificial intelligence and the artificially blended reality The silicate matrix contains the entirety of the corrected Christos shield within the personal 12 Tree grid, and this connects the consciousness body directly to the God source, or aligns directly with Guardian support for hosting.

The 12 Tree Grid is the base holographic instruction set of the Christos blueprint that corrects the continuing spiritual progression, for all manifest forms to achieve ascension through an evolving twelve-dimensional body

Recently, with the acceleration of the war over the timelines collapsing sections of the base 10 architecture, this event has moved the position of entire soul groups and monadic families from out of these artificial timelines. Many of these groups are being retrieved through the Daath portal via the Mother Arc and Arc technology. As these soul and monadic families have been moved out of artificial timelines and onto organic timelines, this has corrected the soul groups positions throughout time and space, resulting in major adjustments being made to the transduction sequence or birth records.

Realignment of Soul Groups to Organic Architecture

When the earth was infiltrated with base 10 reversal architecture more specifically designed to support Black Sun hybrid DNA programs, every soul group with base 12 coding was split into smaller units. These fragmented aspects were then stapled to the earth grid as a power source and many were trapped within the Golden Eagle Grid This generated a massive problem with monadic and soul family extension placement throughout multiple timelines, as the incarnational imprint or transduction sequence became infected with base 10 code. Thus, soul extensions were incarnated in the wrong place and wrong time from what had been intended or what appeared to be known from the pre-manifest levels. Essentially, this means soul group formations were incarnating into artificial timelines which disrupted the organizational anatomy of the entire soul family, in which soul extensions were unable to evolve or ascend beyond the position they were being incarnated in. The artificial timelines are consciousness traps in which soul extensions and monadic families could not connect or communicate with their other aspects, leaving them to be recycled into the same karmic patterns over and over again. To ascend we must integrate our identities throughout timelines, and this process of repeated incarnation into artificial timelines with base 10 architecture, mutated the original base 12 code.

Thus, recent shifts of collapsed base 10 architecture has impacted entire soul family and Monadic family extensions, that are currently being re-aligned into the correct sequences of organic timelines through the upgrades that are being made to the birth transduction sequence record that is a part of physical incarnation. This event has brought millions of souls and monads newly into alignment with the Guardian host, through re-connection to the organic architecture The NAA are scrambling to get these souls back to where they were before, as the fragmented and reversed stations of identity in these soul groups were being used as energetic placement to power up virtual realities and false AI timelines. These soul groups did not know the reality they were experiencing was an AI projection used by the NA forces as consciousness trap. This may have instigated an increase in dark aggression during the 10:10 transmissions, as dark entities attempted to reclaim those groups that they lost control over while being moved out of the artificial timelines

When we intend to connect with the organic architecture of our Christos blueprint, this helps to heal and integrate our soul extensions and monadic extensions Our Soul and Monad is a family of consciousness that contains extensions that are existing simultaneously in other dimensional timelines. The first level of spiritual awakening is connecting with our soul consciousness and extensions, our soul family is comprised of 12 different individual personalities As we integrate our soul consciousness, we integrate these 12 aspects within our consciousness body, and this unifies the triad of the entire soul matrix, so that we experience our emotions and the forces of love in entirely new ways.

Complete soul integration leads us to the higher integration of our monadic matrix or oversoul, which contains 12 oversouls, each containing 12 souls within them, for a total of 144 monadic or oversoul extensions With each stage of monadic integration there are significant expansions of consciousness that unify the monadic matrix in our consciousness body, and then we find that we are connected to everything, living in a

massive Universe that is filled with many possibilities to explore The process of soul extension and monadic family reintegration is happening at an accelerated rate at this time, because this has been made possible when the transduction birth records were shifted into organic timelines.

Birth Transduction Records Updated

The Birth Transduction Sequence is the exact moment that the cellular record of the consciousness identity was imprinted during incarnational birth into this physical body on the earth When we come through the birth canal we are actually imprinted with ancestral-genetic, astrological, celestial and magnetic imprints that influence the pathway of our soul-spirit, our consciousness identity and the arcing spiral of that light through time The transduction sequence is that exact moment when our consciousness light comes into an identity filter for physical expression, and therefore acts as the fundamental construct of our lightbody grounding mechanism that exists in the first dimension. It is this interface that connects us to the earth body transduction sequence record for connecting to the system of collective earth consciousness. This record reflects in our lightbody blueprint that we are earthlings, consciousness identities from the earth plane, located in this lower creation realm section of the Universe

The transduction sequence is the definition of when the "God Spark" connects to the core manifestation body (12 Tree Grid), which is our Lightbody and contains the blueprint record that projects our consciousness identity out into the elemental physical manifest body.

Recently, many soul and monadic groups were shifted out of base 10 architecture and artificial intelligence overlays that impacted their personal holographic blueprint and transduction record. For some this shifting architecture has increased the sensations of outer chaos and dark aggression, as the individual consciousness body and the collective soul and monadic extensions undergo another stage of necessary spiritual integration.

The transduction sequence describes the process by which consciousness undergoes several stages of descension, passing through multiple layers of dimensionalization in order to manifest into a matter form. Consciousness uses architecture to express itself in matter. A core manifestation template is designed for consciousness to express itself into the biological form that is located within a specific dimension of time and space As an example, the original angelic human 12 Strand DNA template is expressed through the holographic template of the 12 Tree Grid, or Kathara manifestation grid. Consciousness units arrange themselves into dimensional grids which form into layers of morphogenetic fields, containing specific instruction sets that build into energy spirals that make up the merkaba fields.

The merkaba fields are what help to sustain the energy that builds the entire lightbody construct, in which there are male-female sets of counter-rotating electromagnetic spirals of the consciousness energy. The male-female sets of consciousness energy spirals generate a DNA and RNA imprint The DNA architecture is the masculine principle, while the RNA is the feminine principle. The DNA-RNA messaging circuitry must communicate together in balance. The DNA and RNA imprint project the entire lightbody hologram which organizes the light of the consciousness into a bio-energetic field, or auric field.

The auric field organizes into multiple layers of energy matrices that act as small computers, and these are the chakras, the lower exist in the particle layers and the higher dimensional chakras exists in the anti-particle layers The anti-particle chakras are morphogenetic chakras and they inform the instruction sets absorbed into the lower dimensional chakras, who can open the higher contents when they are able to hold the higher frequencies. Over time the chakras dissolve into each other when absorbing the higher dimensional frequencies.

The chakras send their processed energy as intelligent spirals into the nadial capsule which forms around the manifest biological form. The nadial capsule is comprised

of the three-dimensional layers of the harmonic universe, in which the consciousness is stationed as an identity. The nadial capsule instructs how the consciousness must organize itself into the manifested DNA and RNA cellular biology. The DNA-RNA in matter sends its intelligent design to the nadial structure, which acts as the blueprint for energetic transmission and energetic receivers that form into the blueprint for the physical brain and nervous system The central nervous system transmits into the molecular structure and then into the nuclear core in the 1D atomic body, which informs the dark matter template.

This nuclear core sends intelligent consciousness energy from all combined blueprint layers into the central nervous system, which sets the metabolic and biological base rhythms. These biological base rhythms are imprinted from the soul and spiritual intelligence into the blood, which form into the historical spiritual records. This blood record forms an imprint that is recorded in the brain to produce and distribute hormones, and the natural chemical reactions that are recorded in each organ and gland, and into all cellular tissues.

When we understand the interaction of the consciousness imprints from our soul and spiritual intelligence recorded into our biological form, then it becomes obvious that the human body is filled with the personalized spiritual records of that unique consciousness being.

These unique spiritual records are being returned to many on the earth through corrected birth transduction sequence patterns, during this most recent wave of activations and dismantling of artificial timeline grids that was emphasized on 10:10.

The point here is to be aware of this event playing out, as the fight over artificial timelines has been escalated. The focus is on the base 10 architecture versus base 12 Christos architecture, and the spiritual battle in the earth fields has gone to another level.

Take this information as supportive knowledge for understanding the current terrain in the outerscape, knowing there is nothing to fear. The best place to be is

inside your 12D shield, developing your inner self and handshake to the Unity field, and staying neutral and consistently focused upon loving and peaceful vibrations. We are the peace while in the total chaos, remembering that when we are peaceful, we are much clearer and more coherent.

Please only take what is useful for your spiritual growth and discard all the rest Thank you for your courage and bravery to be a truth seeker. I am God, Sovereign, Free!

Until next, stay in the luminosity of your Avatar Christos Sophia heart path. Please be kind to yourself and each other. GSF!

Lifting Your Veil: Surviving the Ascension Process

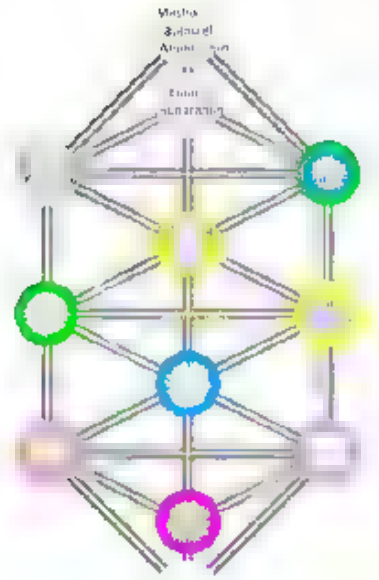
Amplification

At this time of our transition these polarity junctions, work vs. play, descending vs. ascending, 3rd Dimensional (3D) vs. Multidimensional (MD) has become increasingly amplified in our daily experiences. Now it has become even clearer as we can see this dynamic playing out in the last month as a spiral of mass global events mirror this polarity amplification in the world at large. It has become clear that we must find and direct ourselves to inner and outer harmony. As we increase our harmony interacting with these forces, we become better balanced in where we

Ascension and consciousness methods from godmind/hyperspace/highermind sources



Use of the 12-dimensional Tree of Life Spiritual names, gateways.

This meditation will activate the 12-dimensional tree of life and its energy centers, which align your consciousness more into yourself, and will bring into activation more of your connection to your higher consciousness.

The language used in the spheres is a Lyran-Sirian-Elven mixture. Pronunciation key: Oh - like in the word or, ah - like in the word heart, e - like in the word head, u - like in the word room, i - like in the word deep, ai - like in the word eye. This general way of pronouncing the words is recommended for precision, although the names do work with any pronunciation. In the middle is Akira yun - the central heart core of the tree of life. Akira - ah - infinity, ki - nexus, ra - oneness, akira - nexus between infinity and oneness, one possible translation: 1. Mu El Ma. 2. Wu Yuna Yosai. 3. Or Ish Na Elumin. 4. Arun Shem. 5. Au Ranu-El Bana Ur. 6. Asiramiru-el. 7. Il Mani Kasira El. 8. El An Ra Min ru. 9. Enshira Kasavaru. 10. Tilasa Narumin. 11. Eliranu Ruharamin. 12. Masira Kasanu El Ahunta Min. It is a way of 'relating to' your higher self and merging with it. Each of the sound tones are names/gateways of specific pure angelic and archangelic and ascended timeless beings and your own higher self and higher consciousness mind and heart, that tend to the 12-dimensional tree and its active, wholesome functioning, with your participation in this, the tree of life becomes active within you. This meditation can be very long, so take your time and use good timing, make sure nothing can disturb you during this meditation, you may close all doors and pull curtains over your windows if you feel it is good, and you may also light a candle (white or otherwise) with the intention of blessing your place, your private space in meditation. You will repeat each of the steps of this meditation as many times as you want, take your time with it, it is valuable time with your higher self. The exact time of each of the steps is not important. A few minutes is generally acceptable for effectiveness, you can do each step for as long as you want, although it takes a time of dedication for very long, which has its advantages. It enables you to very deeply and better your state of awareness very deeply and positively. You may open your eyes to read the instructions although close your eyes when you do them. Your higher consciousness will enhance this meditation.

Before beginning, connect your consciousness at the height of your cardiac area to the core of the Earth with a strong cable that is your inner Divine Self. Attune yourself with your own and the Earth's heartbeat. The center of your existence very far above you, beyond location and distance, do so with a sudden exhale also.

0. Take your focus into the tip of your nose, mostly keep your eyes closed for all of this meditation, where you can. Breathe in a deep slow breath through your nose only, focusing on the tip of the nose and in the sensation of breathing. After this tone, relax your body and your mind, and breathe normally. Repeat the Akira for 4-5 minutes centered into your higher heart center above the physical heart, yet on the same vertical line, there will be a pink color there. This center corresponds to the pair of your Divinely

that is beyond manifestation, beyond the 12th dimensional structure of time and space. You are unlocking the higher heart center, Azure Re diving you to higher consciousness. After having uttered or thought those words aga... focus on deepening your breath. Inhale consciously deep slowly and through the nose... about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with bright blue gold and pale silver energy. As you breathe deeply and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

2. We start from center number two, which is located less than a foot above the head. It corresponds to the 2nd dimensional magnetic aspect as a golden white sphere of living light. It contains your 2nd dimensional level of density. While keeping your eyes closed, imagine white light with a golden shimmer flowing down your vertebrae and from the 12th dimensional through your body, the direction of the energy flow, the effects of this light on the cells of your own body. While imagining that this is happening and has been triggered by your imagination and intention, the sounds Musira Kasanu Ex Amanu Mi... your 2nd center, approximately a foot above your head, begin with the energy flowing in several minutes as you observe the energy flow and change. Bring the awareness and imagination of the quality of being you call self the higher and the lower, serves as one. Inhale consciously deep, slow breaths through the nose... about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with golden white and bright. As you breathe deeply and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

3. 3rd center, focus on the area of your forehead right above your third eye, pineal gland. See or feel or imagine pale violet there with a shimmer of golden white. Use this as a sphere of light with white core. This center connects to the 3rd dimensional aspect of your identity, your ego, and is one with your higher nature that does not separate, is not illusion created by the thoughts and actions based on those thoughts. This energy center is a place of divine discernment, of the nature of your connection to the consequences of your thoughts and actions. It is also where you can easily relate to one thing becoming two or more things and where two or more things become one thing. Gently maintain this awareness and start chanting Ereana Ra Uta Mi... at the 3rd center, right above your pineal gland... 4-5 minutes. Once this is done enough for you to feel a change in energies, start in full conscious deep slow breaths through the nose... about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with pale silver aquamarine blue light. As you breathe deeply and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

4. 4th center, focus on the area of your left cheek bone, left side of the mid level of your face and the right area, which is the sphere corresponding to the 4th dimensional manifested identity. It is a sphere made of blue green white and gold and silver and pale violet. The quality of this sphere in this context, the full wisdom of your entire being as it has experienced many, many lifetimes of diverse experiences, aligning your awareness, your Thera Nasamu... 4-5 minutes slowly with a more strong focus. Once this is done enough for you to feel a change in energies, start in full conscious deep slow breaths through the nose... about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with pale silver white and violet and golden. As you breathe deeply and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

5. 5th center, focus on the area of your right cheek bone, right side of the mid level of your face and the right area, which is the sphere corresponding to the 5th dimensional manifested identity. It is a sphere made of silver white and gold and violet and pale blue. The quality of this sphere in this context, the ability to understand events that exists that is experienced, keep your awareness there and think Kasavaru Mira... 4-5 minutes. Once this is done enough for you to feel a change in energies, start in full conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with silver white and violet. As you breathe deeply, and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

6. 6th center, focus on the area below your throat, above the suprasternal notch where the chest bones meet with the soft tissue of the neck. It corresponds to the 6th dimensional energy level connected to the 6th dimensional you identity. This sphere can be seen as composed of a brilliant gold light with a white core. This sphere has in this context the quality of true knowledge and the truth expressed as true knowledge. You know that you are infinite, you know that you are of the same identity as that which is referred to as God and as therefore you are the same identity as your higher self, your soul, your mind, your mental or psychic level, which may have no this awareness in the right, focus on the golden sphere at the highest level of your chest and chant Ea AN RA Mi Ru... 4-5 minutes. Once this is done enough for you to feel a change in energies, start in full conscious deep slow breaths through the nose... about 4-5 minutes with your imagination of all of your body and cells, chakras, etheric spheres and other energy centers, from the top of the head to your feet, fully with bright golden white golden. As you breathe deeply and after breathing deeply, see or feel or sense flowing through you, breaking down and dissolving all limitations and barriers and blockages in your aura and body.

7. 7th center, focus on the area of your left shoulder side, within the torso, not inside the shoulder itself, at the height of the higher

heart center. It is connected to the 7th dimension of your identity. See there a bright yellow sphere with white light at the core. This sphere has the quality of enlightened awareness and the ability to know your true nature as already enlightened. You have compassion and love towards yourself and towards other beings as you flow through experiences and you are loved and you love and you are loved. Holding that awareness or thought for 4-5 minutes. That is Mahasukha Ecstasy. Once this is done enough for you to feel a change in energies, again with conscious deep slow breaths through the nose for about 4-5 minutes, with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright yellow light with a white shimmer. As you breathe deeply and after breathing deeply, see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

7) The center focus on the area to the very bright side with the color at the height of the higher heart center at chest area is a bright green white sphere of light that is connected to the 6th dimension of your identity. This sphere has the quality of order, structure and strength that comes from the right use of order and right mind's logic. You have the power to see beauty in the right use of reason so that order and strength is created from the flow and prevails. Holding that thought or awareness for Ashtanga Ecstasy 4-5 minutes. Once this is done enough for you to feel a change in energies again with conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright green white light with a golden shimmer. As you breathe deeply and after breathing deeply see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

8) The center focus on the area directly behind you above the body. There is a blue sphere with a white core. This sphere has the quality of happiness, joy, embodied serenity, beauty and bliss of the emotions. You become happier when you fully embody your physical body in ways that balance and grounds your consciousness. At this level you have the ability to locate the mental and emotional state of being that you wish to experience and to ask an intelligence and logic that is 5th dimensional and is the right feeling, knowledge, awareness and Ananda Ecstasy to enter you for 4-5 minutes. Once this is done enough for you to feel a change in energies again with conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright blue white light. As you breathe deeply and after breathing deeply see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

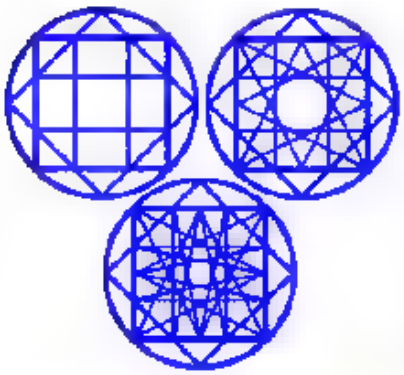
9) The center focus on the area inside the left hip where the soft tissue and the hip bone meet. There is a sphere of pink white light with a golden shimmer. This sphere has the quality of embodied love of victorious sight with your life's value through unconditional love and sharing it unselfishly with the world. The center is connected to the 4th dimension of your identity and to the 8th and 12th dimension of your identity respectively. While holding that thought or mind for 4-5 minutes, count at that center. Once this is done enough for you to feel a change in energies again with conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright pink white light with a golden shimmer. As you breathe deeply and after breathing deeply see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

10) The center is on the exact opposite side from the 9th center inside the right hip where the soft tissue and hip bone meet. The color of this sphere is golden yellow and has a beautiful hint to it. This sphere has the quality, knowledge, splendour and wholesome balance between pride and humbleness. It is the sphere of the knowledge of the embodied consciousness. Holding that thought or mind for 4-5 minutes. Once this is done enough for you to feel a change in energies, again with conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright yellow white light with a blue pink shimmer. As you breathe deeply and after breathing deeply, see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

11) The center is on the exact opposite side from the 8th center inside the left hip where the soft tissue and hip bone meet. There is a sphere of violet white light with a gold glimmer here. The qualities of this sphere are the connection to relationships with self, body, energies and with the physical and unphysical environment and challenges in those environments. It is also the center that corresponds to the overall emotional and sexual desires and the desire to connect with self and others energetically. It corresponds to the 3rd dimension of one's identity. Focus your awareness at that area and start with a focus of about 4-5 minutes while holding that in mind. Once this is done enough for you to feel a change in energies again with conscious deep slow breaths through the nose for about 4-5 minutes with your imagination of your body and cells, chakras, tree of life spheres and all other energy centers from the top of the head to your feet, fully with bright violet white light with a golden shimmer. As you breathe deeply and after breathing deeply, see intend flowing through you breaking down and dissolving all limitations and barriers and blockages in your aura and body.

12) The center is on the exact opposite side from the 7th center inside the right hip where the soft tissue and hip bone meet. There is a sphere of crystal white light which represents with the black void of [redacted] dimension, and is connected to the 1st dimension of one's identity. This energy center is also

directly connected with Earth core and with Earth's 4th dimensional sphere of her own, 12 tree. This sphere has the quality of sovereignty, inner self-love, spiritual clarity, wisdom, self-love and the experience of it at the most fundamental manifested level. Holding this thought in mind, visualize this sphere of white light, Mu, Ee, Mo for about 5 minutes. Once this is established, for you to feel a stronger connection, do this deep slow breathing exercise for about 4-5 minutes, with your mind set on filling your body and all of its cells, tissues, organs, the spheres and all the energy centers from the top of the head to your feet fully with bright healing crystalline white light. As you breathe deeply and after breathing deeply, see and feel and know through all of your breathing that all of your blockages and barriers and blockages in your aura and body.



A Breathing Technique

This breathing technique will completely seal the aura off from dimensional environments and will seal it into hyperspace realms/beyond 15d, simply due to the mechanics of it. If you decide to use it, use it regularly, every day if possible. The mechanics of breathing are such that each breath corresponds to one dimension, unless otherwise specified by you. There are a few versions of this (always maintain focus on the central vertical current, before each version exhale your vertical channel into connection with the core of earth. If you wish, you can imagine earth core as blue-green-silver-violet-white and your central vertical current as a pillar of light, best to close your eyes as you breathe, focus into the central vertical current and into the emptiness behind your eyelids, each in-breath pulls energy in from the corresponding energy layer the breath corresponds to, and each out-breath expands the physical body into the corresponding frequency, which keeps cascading)

Consistently breathe through your cells and atoms and imagine them lighting up with immutably pure light and starving all negative visualizations and emotion/behavior out. Work to clear and activate the 9th chakra. Imagine an octahedron is not sealing you in a bubble, both versions. Use before and/or after version 1 and version 2. Imagine a bright sphere of sparkling immutably pure blue-green-golden-silvery white plasma in your third eye, exhale it into the core of the Earth, you can sense or imagine a beam of light from Earth core to your aura and chakras. Imagine the same colored light from Earth core and your aura activating a pillar of immutably pure plasma between Earth core and your aura. Extend this pillar into the core of your 14th chakra high above you with a strong breath.

version 1. Breathe very slowly through the nose and out through the mouth. Have with the exhale leaving the mouth in a position and the 7 exhales being for each the 7 inhales immediately after that. Breathe very slowly through the nose only 7 times, you may hold the tongue in contact with the top part of the mouth in step 2 and the corresponding steps in version 2).

Version 2. Choose an amount of breaths for each of the following steps that is at least 7, or above 13

For example, very slowly breathe 7 times through the nose, 2, 7 times in through nose and out through mouth, 7 times through the mouth only and never do step 2 of this version 2 and then step 1 and the step 2, step 3 and 2, 3 on and in for as long as you like.

Use before and/or after version 1 and version 2.

Imagine a bright sphere or spheres of immutably pure blue-green-golden-silvery white plasma in your third eye, exhale it into the core of the Earth, you can sense or imagine a beam of light from Earth core to your aura and chakras. Imagine the same colored light from Earth core and your aura, fully activating a pillar between Earth core and your aura. Extend this pillar into the core of your 14th chakra high above you.

You can start any of the versions here with each step 18 times, slow breaths or even more, such as 54, 54 or 72 or 108 or 144 or 225 as long as you use equal amounts in each steps. The versions here will be more effective. One of the many possible effects of this technique may be partial or full optical invisibility of your physical body and undetectability in dimensional levels.

Each breath corresponds to one full frequency band of dimensional energy unlocked, the difference that takes place between the steps in version 1 and the corresponding steps in version 2 are such that an effective hyperspace vortex is generated each time although the hyperspace vortexes are generated each new step transition.

This breathing technique is an example of the simplicity of creation and the power of it which is discernable in its effects. The applications of this breathing technique are many and can be used in conjunction with the art pieces of meditation.

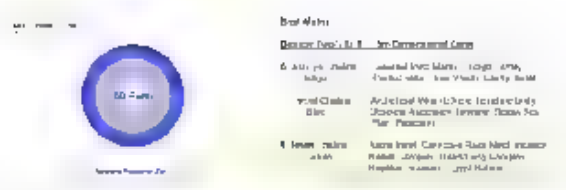
Astral Plane

The Astral Plane is the fourth dimension and is referred to as the Astral plane or Astral dimension of the Soul Matrix.



Astral Plane

The fourth dimension, a green energy wave spectrum, is a dimension with heart damage (Anubian Black Heart and soul based trauma, which is partially propagated from incredible history of human soul damage upon the planet. These 2D/4D energy centers are compromised and are a part of every human being s heart chakra complex and Pain Body, as well as linked to the histories of the planetary heart complex in Giza, Egypt

Upon hijack of these 4D energy centers, False White Light, false Christ consciousness grids, aka False Ascension, were eventually used here to misguide and control human beings. The damage promoted in these centers also resulted in emotional distortions and aberrant accumulated energies in the lower bodily energy centers, such as in the 2nd Chakra, which became a repository of pain and Addiction. This was taken advantage of by the negative aliens to splinter the Soul Matrix energies, rather than the natural process to integrate and heal, by controlling the sexual energies. By promoting distortions around the sexual act, gender roles and corrupting our relationship to our mother and father parent, our race descended into Sexual Misery

Astral is 4th Layer of Soul Body

The entire soul body is made of three layers that interact together. Each of these layers, 4D, 5D and 6D correlate to the same referenced Chakra energy center, its colored wave spectrum and a dimension of time and space in the future. These three layers can be seen in the 12 Tree Grid graphic as in the soul dimension and are related to the 5th dimensional

timelines on the future planet earth Tara. The Astral Plane is the 4th dimension and the first layer of the triad of the Soul Matrix. For more detail see the Universal Time Matrix.

Astral Heart

This is the Astral Heart Chakra located in the centre of the chest and is the 4th Chakra. It is Green in colour and it opens into the dimensions of the Astral Plane.

Astral Heart Manipulation

When one has control over the thoughts of one's mind, one has control over the direction and actions of the physical body, all of its parts and reclaiming of the soul energies. Whoever controls the Mind controls the Soul. Most NAA Mind Control is manipulated in the Astral Plane and this Alien Machinery has damaged humanities Astral Heart and 4th Chakra, thus blocking our true heart purpose which is to express the soul through the heart center. When the 4th Chakra is blocked it accumulates aberrant emotional energies in the 2nd Chakra creating trauma, Soul Fragmentation and Addiction problems. This is known as the Pain Body and the repository which is the Negative Forms of the many shadow selves.

2D/4D Split

The genetic block and removal of these DNA tones created a dual identity in both the 2D and 4D levels of the Astral Plane, and is how the "shadow self" and unconscious aspects were first generated in the digressed human DNA. The 2D schism split the instinctual body into separate functions, a collection of fragmented sub-personalities (generated from soul memories) and a repository of personal emotional energies and collective chaotic forces. The 4D schism placed a barrier in the radial capsule that separates the astral body/heart chakra from merging with the 3D solar plexus mental body. This subjects the person to lower astral energies and lower astral traveling. This blocks the lower bodies communication with the elemental kingdoms, making it very hard for the person to feel "body consciousness" or communication with nature or the elemental kingdom.[1]

Astral Plane and AI

The Astral Plane is essentially assimilated into a fully technologically based realm that uses Artificial intelligence to read the collective race consciousness and then fuse it with an AI hive mind that generates many artificial dreamscapes that program virtual environments for the Phantom Matrix. If a person blends with the artificial intelligence located in these virtual environments, the individual's co-creative consciousness will start to manifest these artificial dreamscapes into forms in the fallen system, becoming Consubstantial with the NAA and dark forces that exist there. [2]

Satanism

Satanism is based on the manipulation of energy and consciousness through Mind Control, deception and is many times ritual based SRA. These deeply sick rituals (such as Blood Sacrifice in war and killing) create an energy field, a Vibrational frequency, which connects the consciousness of the participants to the NAA group (i.e. reptilians) and other Consciousness energies in the lower fourth dimension. This is the dimensional field, also known as the lower astral to many people, which resonates to the frequency of low vibrational emotions like fear, guilt, shame, hatred and so on. When a SRA ritual focuses these emotions, as Satanism does, a powerful connection is made with the lower fourth dimension, the NAA, Fallen Angelics or reptilians. These are some of the 'demons' which these rituals have been designed to summon and feed since the NAA invasion occurred. Much of this Archontic Deception Behavior continues in cycles of trauma based Addiction of which the participant is unable to stop.

Sexual Misery Programming

This is known as the Sexual Misery program propagated and controlled by the Moon Chain (lunar) lineages on the earth (These are lineages not indigenous to the earth but came through the process of NAA invasion and deception) These are multiple layers of architecture and Mind Control that have been artificially created to control, deceive, separate, confuse, torture and steal human beings sexual life force, and it is a violation against the human soul. These actions wound the Soul body, as the trauma level in events such as rape or sexual torture, fragment the soul into near destruction. When the soul fragments from any kind of intense trauma, it shuts down the soul connection, heart connection and systematically splinters the layers of the mental bodies If this is not healed, the soul fragments are unable to embody at all, and exist in fragments strewn across the planetary consciousness grids The physical result is a disconnected and fragmented Soul from its incarnated human body (The soul is outside the physical self, may exist in millions of fragments, rather than integrated to be embodied.)

This soul spirit disconnection is the result of most all human brain dysfunction and related psychological distortions, many that are clinical references to schizoid, narcissism, and all personality disorders Once a soul is fragmented the body is very easy to control or possess.

False Ascension

Gridworkers have been working to reroute new transit pathways that allow exit points for those that choose to pass their physical bodies within the next two years. (See Consciousness Corridor). This means that many will be able to transit all the way beyond the reincarnation state, freeing them from returning to this plane again. This is great news. This is largely because of the Astral plane reorganization and the collapse and demolition of false ascension matrices existing previously in the 4D planes. These souls do not have to be caught up in the False Umbilicus that was leading them to the Astral Plane. The false ascension matrices are the complex architecture that created False White Light webbing and holographic reality inserts like a double sided mirror in the 4D Astral Plane Layers.

Comfort Implant

These complex systems were feeding off of souls connecting to the False White Light at the 4D octave in the Astral Plane. This is an area many planetary lightworkers were getting lost within the astral layers of delusion, which creates complacency and an experience of a drunken type of Astral Bliss This is called a Comfort Implant to keep one that is Awakening, inert and ineffective.

False Ascension Matrix

The astral plane of planet earth has a false white light webbing, called the false navel False Umbilicus of the False Ascension Matrix (synthetic or dead white light in the astral plane), which for most of us undergoing Soul Matrix embodiment, will reach a point in our Ascension Stages that we are required to reset and expand our navel and solar plexus in order to embody our organic frequency, our Soul Matrix and Monad eternal Light Bodies

Anubian Black Heart

The planet has serious problems in the Crystal Heart network of major systems in earth sourcing from damage in the Astral Plane and the collective human Soul Matrix. This is being manipulated by the NAA and Imposter Spirit,NAA Reptilians and is is referred to as the Anubian Black Heart systems These networks were generated to suppress and destroy the Diamond Heart of the planet, to traumatize and shut down human hearts, as well as to suppress the Christos-

Sophia consciousness from building the Diamond SUN DNA in matter. Over time the death, destruction and pain of humanity and the planet was collected and programmed into these crystal hearts from the Astral Plane making them "black hearts". Reversed electron networks run these black heart systems and direct harmful energies and destructive thoughtforms into the planet.

Atlantian Cataclysm

Since the Nephilim Wars the Nibiru Annunaki Resistance and Patriarchal Melchizedek factions decide to take over the Inner Earth and start aggressive campaigns to take over the earth territories 30,000 years ago. The Sirians warned them about the abuse of crystal technology in the earth core and these groups continued to force massive power generators into the earth and Crystal Caverns. Several power generators exploded and ripped apart the surface continents of the earth, more powerful than the previous Cataclysm at the time of the Lemurian Holocaust, killing many humans again.

2nd Atlantian Cataclysm

The planet Earth tilted on its axis which damaged all Planetary Gates, Planetary Grid Networks the portals and Stargates on the planet. All the Pyramids and ET technology disconnected and went offline. Flooding and cataclysm destroyed the Atlantian colonies and much of the earth surface. This timeline is also referred to as the Atlantian Flood.

Egypt Stargate and Sun Takeover

During the time that the Egypt pyramidal technology was rebuilt in the Giza Stargate in that location as the central mission control and ET interstellar port, Sirians and Procyon groups were in high security. The Nibiru Annunaki resistance moved its last Atlantian Colony to the Bermuda area of the 3D Stargate and the Annunaki Resistance continued its conflict over territory and earth dominion through war and genetic alteration of the DNA.

Annunaki and Patriarchal Melchizedek's rapidly digress their race and genetics through becoming a warring species like the Orion Group. The Annunaki plan takeover of all planet ET technology and to capture humans for genetic experiments to create a worker race 28,000 BC, further they negotiate with Orion Group Draconians to share the "spoils of war" of

earth takeover. This action is what allowed the Orion Group and Draconians to get a deep foothold into the planet consciousness fields and when severe genetic damage, such as DNA reversal pairs, to the planet and humanity really began.

Stargate Takeover in Egypt

Third and Final Atlantian Cataclysm

With the Orion Group now an ally to the Annunaki Nibiru resistance, they organized themselves into what is known as the Intruder races of current times, and these beings are who orchestrate the NWO, and the highest factions of the Illuminati plan for earth takeover. This entails creating a social class system and hierarchy, a Ruling Class and a Slave class on the earth which is the Reptilians Archon ideology.

In 9558 BC the Annunaki wage war over humanity, organize for the One World Order Takeover, Luciferian Covenant on the earth. This is also referred to as the Luciferian Rebellion.

These groups go into the main Egypt Stargate and force EMF pulses into the earth core and Crystal Caverns to destroy the Arc Gates and destroy any communication access beyond the seven Solar planes, which they now controlled through the Egypt Stargate in Giza, the Ley Lines of the Sphinx and GWL network through the frequency fence NET.

This EMF pulse forced a blast so powerful in the earth core that it moved the ocean floor and tectonic plates across the earth globe. It was at this time the Sirians took all ET technology and Crystals off planet permanently to prevent any further abuse from these warring races. Without the ET and Pyramidal technology to convert incoming frequencies in the Precession of the Equinoxes during the 2012 Ascension Cycle, the planet Earth could explode entirely annihilating the species and genetic material.

Dark Aeon Begins

With the last explosion of Atlantis the Sirians remove all ET and advanced technology which plummeted humanity into the dark ages 11,500 years ago. See Ages of Humanity. The Morphogenetic Fields and Instruction sets were destroyed and time fields collapsed creating many problems, Astral Plane Soul body distortions and the Negative Ego pathology, such as diseases, Addiction, in the personal identity were the result. The Planetary Gates and 4D Giza Stargate that led into the Soalr body of our Sun, as well as the Earth portal to 8D Galactic center was damaged. No one could get in or out of this Universe. Guardians from the next Universe had to intervene with the earth directly and incarnate on the planet to help avert future annihilation, such as the Astral Plane collapse. Frequency Fences around 3D Solar System and Galactic quarantine was placed on earth which disconnected all humanity from all higher stellar and Guardian communication in 9550 BC.

Some representatives from other Universes tried to incarnate and help the planet earth recover from the damage and liberate the earth inhabitants from their oppressors. Some of those representatives were Akhenaton, and Jesus Yeshua Christ and his wife Mary Sophia. The Krystal Star was aware not much could happen until the Galactic Center aligned with the earth and Sun which opened the Universal Core into the Neutron Window, an opening into multiple Omniversal Cores simultaneously. This is the end of the Ascension Cycle which allowed the Reclamation of Christ and Krystal Star to return to this planet to help humanity be rehabilitated into the GSF Ascension timelines of the future.

Atlantis Timeline Summation

During the Atlantian Cataclysm and what is known as the Luciferian Rebellion about 26,000-30,000 years ago, this is when the planetary star gates, the planetary grids became controlled by the NAA Controlling races such as the Reptilians, the Annunaki, the Draconians. And this grid became, during this time, under the control of these beings who used these grids for reversed purposes from their original design and intent for DNA assemble and progression of the human race DNA Synthesis. Not using this from a judgment base but understanding that this last 26,000 year cycle, has been a cycle of a dark age of human evolution and, as a part of the plan here of coming into the seeds of darkness in order to return to the age of enlightenment. I'm sure to a certain degree all of this has been orchestrated as a part of the experiential God-beingness we are through having these experiences and through this human experiment, through Ascension, this last cycle has been that of a dark age. And, primarily the star gates, portal systems and grid systems have been under the control of the Annunaki Nibiru beings and the Draconian beings.

Genocidal Campaigns

During the last Atlantian Cataclysm cycle the Dracs sought out revenge and went to the Lemurian continent to finish out the genocidal massacres in Kaua. 22,000 years ago, to kill off all the Lemurian Race Matriarchal influence and Essenes, Christos Templars influence on the earth. This was to prepare for a completely patriarchal society on earth as run by the Nibiruans and the Orion Group. They took some of the women for their forced Breeding Programs. This was the final genocide of the Lemurians, the matriarchal lineage, that was aided by the Annunaki negotiations and agreements, and the last stage of the Lemurian Holocaust. [1]

False King of Tyranny

The old energy purging on planet could be described as the "patriarchal exorcism" of the False King of Tyranny, and this theme would be synonymous with the events that have transpired from the choices made since the Atlantian Timelines that split the brotherhoods of humankind. If we follow that timeline, the Atlantian Cataclysms is where we had a catclysmic shift in consciousness that propelled humanity into a fallen state, the descension spiral and break between the Universal knowledge and the level of multidimensional consciousness. Humanity and other races along with us, became fully lost in the duality and separation consciousness with an Negative Ego filter. The Ego Filters were Mind Controled by the NAA (intruder races) to control the planetary mind through the patriarchal dominion, greed, warring culture, along with culling genetic preferences made through DNA manipulation.

The Atlantian brotherhood conflict is still playing out its karmic patterns in the contemporary world at this time. There are multidimensional levels, pinnacles of conflicts in the middle east, Iran Gate that are fighting over energies and control in ancient inter-dimensional portal gateways going back to the Lyran Wars.

These gateways (or Stargates) were dormant and have not been activated in our recent history; these matrices are forming in accordance to the ascending planetary quantum mechanics of which as a result, these ancient portals are being reconnected or becoming more active. As these Planetary Gates open access into other dimensions of time and space, as this is happening on earth now, most humans still remain asleep to these events, and as such there are massive conflicts of power (wars, bloodshed, etc) over who is working with accessing those Stargates and commanding those energies. [2]

Taran Genetic Digression

Over many millions of years, two distinctly opposing seed cultures emerged as infected by the AI programming of the neighboring Bourgha, the Victim-Victimizer software, which was designed to amplify extreme forces of polarity that were particularly effective for harvesting Loosh energy. The Law of Polarity was governed by the Gemini constellation, which

down stepped mental body creations that were being generated from the AI mutations forming to reverse polarity signatures. Mutations started to form in which one group of Tarans started to be genetically slanted towards more aggression, domination over others and Service to Self. This group formed into what eventually played out as the Atlantians, a patriarchal dominating culture that was very mentalized and scientific. The other culture was much more passive, spiritual and willing to capitulate through Service to Others. This group formed into what eventually played out as the Lemurians, a matriarchal culture that was very balanced with nature and was following the Law of One.[3]

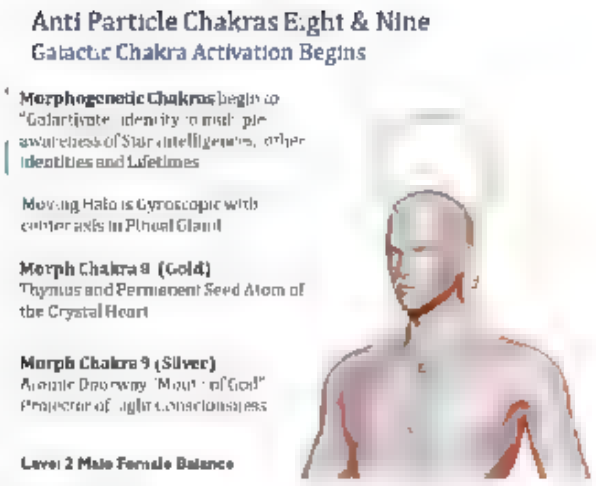
Atomic Doorway

This is also referred to as the Ascension Chakra as it is an opening to the Oversoul/Monad at 9D. This is a Anti-particle (or Morphogenetic) chakra point directly at the back of the cranium in the lower center of where the back of the head meets at the neck.



Atomic Doorway

Higher Mind Activation

a reference point to an energetic command and control center in our lightbody. It is the 9th Chakra which is also called the Atomic Doorway and is the projector of God Consciousness Units that filter very similarly as a light projector through the back of your Medulla Oblongata, at the base of your neck (at the brain stem). Andromeda energies are referred to by the Guardians as sourcing 9th Dimensional frequency (Planetary Kundalini Current) and will certainly activate the 9th dimensional Axiatonal Lines on the right side of our human body as well as filter up into the 9th Chakra at the base of the neck. This frequency is dull silver in its color spectrum running vertically from your middle right toe and up through the middle right finger, into the base of your neck. When this Lightbody is activated, it creates a microcosmic orbit with the 8th Chakra that unites into a macrocosmic orbit with planetary kundalini forces that looks like a moving gyroscope sphere of spiraling frequencies around your upper body and head.[1]

Avatar

A Christos Avatar is a term used to describe a 12 Dimensional simultaneously conscious being, the highest expression of consciousness of the original human divine blueprint. This is the state of being of a true christ consciousness (12 DNA strands or Silicate Matrix). We all have an Avatar Christos future self and we can call upon this aspect of our identity for support in our personal ascension. This embodied "Christos" is the triad form in the levels of our 10-11-12 Dimensional mind matrix. This is also known as the Universal level of consciousness.

To communicate with the Avatar Christ frequency on the earth, we must build our 12D Shield and absorb the 12D Ray into our Lightbody through the 12 Tree Grid. When we develop our Avatar Christos embodiment the next stage is Hieros Gamos which joins the inner Christos-Sophia in sacred marriage with the Eternal God Source.

Fourth Harmonic Universe

For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody.These aspects are called the Stations of Identity

- In the Fourth Harmonic Universe in 10D-11D-12D exists the three layers of the Christos Avatar Matrix.
- In the Fourth Harmonic Universe in 10D-11D-12D the future earth blueprint in its crystalline form in the exists the three layers of the Aramatena or Aurora Earth Matrix

- Universal Consciousness and Cellular Memory Record Awakens

- Enlightened Extra-terrestial contact begins, Universal Service as Law of One

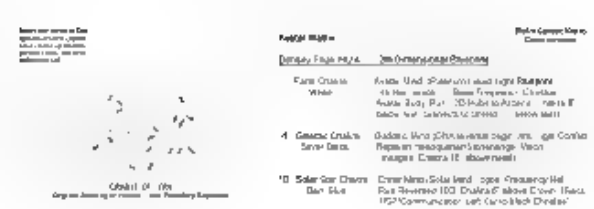
Lyran DNA

When the Cradle of Lyra was destroyed in the Lyran Wars with Orion Groups it is synonymous with the destruction of the Avatar level of consciousness in our Universal Time Matrix. These Galactic Wars damaged and destroyed the Lyran DNA which was the embodiment of the Silicate Matrix and had the capacity to live as a Krystal Avatar human being.



Avatar Universe

This timeline in the destruction of the planets of Lyra is where seed of the Galactic Wars began that are representative of the wars over human DNA and consciousness, the war of that the Anti-Christ consciousness has waged against the Christos consciousness in this Universal system. The Seedings of the Root Races on this planet have been to re-assemble the original DNA and reclaim that which was lost in the Lyran Wars with Orion Group and subsequently, the Reptilian races. The 12 Tree Grid was designed with the Lyran-Sirians to help reassemble the original Avatar Christos Silicate Matrix of the human being in the lower Harmonic Universes. Essentially this is going into the past Timelines to retrieve code in order to change the destruction in the future timelines from the Orion Wars.

Universal Gates

The most powerful Universal Gates in our system which relate to controlling the operational functions in our time matrix are those located in the Cradle of Lyra, 12D Aramatena, 11D Aveyon, and 10D Vega, along with the 8D Orion Gates. The Lyran gates were destroyed during the Lyran Wars, which destroyed the architecture for the Solar Logos Christ Body in this Universal system, and then the Black Hole Entities went to Orion in order to secure the 8D Metagalactic Core as a military base and AI command control center for themselves.[2]

THE INDIGENOUS COSMIC RE ORDER OF MELCHIZEDEK

The multi-talented and spiritual "Crown Prince" was bestowed with vast inner gifts, which enabled him to explore numerous schools of thought., such as, Christianity, Islam, Hebraism (Judaism), Moorish Science Temple of America (member, Secretary), Order of the Sufi Brotherhood (member), Seven Golden Rays of Peru (High member given authority by Lord Messimo and Yogi Christopher Brooks to form this "Order"), Ausar Auset Society, (A.M.O.R.C.) Ancient Mystic Order of the Rosy Cross (Higher member), Hare Krishna Movement (member), Eagle Wings Institute (member), Holy Temple of Menelik (founder) and etc...He had many other achievements, such as, Spiritual Counselor (Intuitive Psychic, Tarot Reader and Runes Reader etc...), Shaman Healer (Traditional Usui Reiki Healing System, Pranic Healer etc .), Magickian, Musician (drummer and singer), Security (for the late Her Highness Empress Verdiacee 'Tiara' Washitaw [Washington] Tunica [Turner] Goston El-Bey), Business Entrepreneur, Jewelry Craftsman, Cosmetic Arts (degree in Mortuary Sciences, Baths Salts Aromatic Scents etc .), Martial Arts Instructor (student of Grand Master Moses Powell, Nin Jutsu, Wing Chun, Chi Kung-Tai Chi etc), Ordained Minister of the Afro-Centric Temple and Ordained Minister of the Ancient Coptic Church and Principal of United Washitaw De Dugdahmoundyah Mu'ur Nation and Establisher of the Indigenous Cosmic Golden RE Order of Melchizedek, which is "Her Bak" or "Hah Kha," meaning "The Teachings of Light"... It is the Ancient Egyptian Mystery Teachings of Herukhuti or Heru and Tehuti (Thoth-Hermes, Hermes Trismegistus) combine the Higher Mysteries and the Lesser Mysteries. Below quote is taken from Dr. Albert Churchward's book "THE ORIGIN AND EVOLUTION OF FREEMASONRY CONNECTED WITH THE ORIGIN AND EVOLUTION OF THE HUMAN RACE".

Har-Makhu crossed from one Horizon to the other through the hollow body of the Sphinx, the Sphinx being imaged in a twofold type, with its tail to the West and its head to the East, pointing to the Equinox each way.

The Divine Fatherhood was developed from Har Makhu, who became the great god Ra in his primordial sovereignty. In this phase we find the double Harmachis, the Sun-god of the Twofold Horizon, who claims a divine origin or the virgin's child that was not begotten by God the Father. Horus of the Double Horizon was also typified as Horus of the Two Lions. In the *Ritual*, Horus rises again, saying, "I am the twin lions, the heir or Ra" (chap. 38, 1, chap. 62, 2), "I am the double lion" (chap. 72, 9).

THEREFORE, WE USE THE "TITLE" MELCHIZEDEK (MELCHISEDEC) IN ITS BIBLICAL SENSE ONLY AS A MARKER OF SPIRITUALITY AND NOT JUST A PHYSICAL PERSON AT ALL, BUT A STATE OF HIGHER CONSCIOUSNESS THAT PERSONIFIES IN POTENTIALLY EACH AND EVERYONE OF US!

MEL-CHI-SEDEK - The following information is taken from "THE SECRET DOCTRINE OF THE ORDER OF MELCHIZEDEK - in The Bible -" by G.C.F. Grumbine

Who is Melchizedek? Biblical History. His Office and His Order. (The name) Melchizedek is contained in the Holy Bible, in Genesis 4:18; Psalms 110 and Hebrews 5; 6,7. (In the Holy Qur'an, his name is Al Khidr, the Green One, a form of Asaru [(Osiris, the Vegetation Deity] or Heru in Asaru's awaken state). Melchizedek is likened to the head of the human race, and I do mean literally, the 'head' or the "Crown Chakra"; an angel (Arch-Angel or "Arch-Angie of Light"), the son of God in human form, the Messiah (Christ). .and finally, the Holy Ghost...Melchizedek's priesthood is greater than the priesthood descending from Abraham, the Aaronic or Levitical Priesthood, as the Melchizedek Priesthood is "Spiritual", while the Aaronic/Levitical Priesthood is "Physical". Read vs 15-17. In Psalm 110, God emphatically swore that the Messiah would be a priest according to the order of Melchizedek. Because the Messiah (who is a Melchizedekian priest) has now come, Jesus' priesthood supersedes the Aaronic or Levitical priesthood (allegory). According to "THE METAPHYSICAL BIBLE DICTIONARY" by Charles Fillmore, he states, "Aaron (Heb)– means illumined, enlightener, mountaineer (very lofty). Allegory, the Brother of Moses; of the Israelite tribe of Levi, and first high priest of Israel (Exod. 6:20 _ 28:1-4). Now, metaphysical, the executive power of divine law Aaron, the first high priest of Israel and the bearer of intellectual light to the Israelites, signifies the ruling power of the intellectual consciousness. The making of the "molten calf" by Aaron (Exod 32:1-8) signifies the false states of thought (idols) that man builds into his consciousness when he perceives the Truth but does not carry his spiritual ideals into execution, choosing instead to let his thoughts function in a lower plane of

consciousness.

"A BOOK OF THE BEGINNINGS" by Gerald Massey, Ra-Har-Makhu (Ra-Hoor-Khuit or Ra-Har-Khut), The Lord of the Aeon, also called the Biblical Melchizedek, the "Ancient of Days."

"Ra-Har-Makhu:" ("Har-Makhu" means "Sun of the Double Horizon"...Ra [Asar[u] is On, Amen, Atum [Tum, Tmu, Tammuz, Dumuzi], Aton [Aten, Atun, Adon, Adon-ia, Adon-is], Ptah).

"Heru:" (Har[u], Haru Sebek, Hero), meaning "God of the Sun," "Sun God," "Light," "High," "Far Away," "Distant One or Above." Heru symbolizes the Higher-Self or the Pineal Gland [Pituitary, Hypo-Thalamus] [Brain] called the Spiritual Eye[s]...specifically, the Galaxy like cloud [U.F.O shaped] that hover above the Pineal Gland in the fluid filled chamber third ventricle.

"Ma" is short for Ma'at (Ma'at Re, or Mut-Her[u] or Mot-her), meaning the "Truth Law." Ma'at symbol is the "Scales of Justice, Balance (Shu, the Breath of Life), Order, Harmony, Righteousness, Truth and Peace"

"Khu" (Akh, Ahki, Akhu, means "Protected," a form of Te-HU-Ti, the husband of Ma'at, the Truth Law. Te-HU-Ti is the Sacred Word, the Moon God and since the Moon has no light of it own, it uses the light of the Sun (Heru) to shine down on us at night [Shadow Time]. Te-HU-Ti's symbol is the Ibis Bird or a form of Heru, the Bennu Bird, the Phoenix), it means the "Glorious Light Body," a form of the Spirit", the Radiant Shining," the transfigured dead which ascends to heaven and dwells among the gods, or among the immortal pole stars which never set.

"Sut" Ba'Ra, Ba'Ur, Ba'Al [Baal], Ba'El or Set, Sutekh, Sut-Nahsi, the Black Asar[u] (Osiris), the Black Krishna, or the Black Christ. Sut means "Black," "South(ern)."

"Tekh" (The word "Talk" is derived from Tekh). Tekh means "Power," "Thirst," "To Drink Too Much," "Drunkenness". Tekh is the Ta-Ma-Re-an (Kama'atian / Egyptian) name of the Ibis Bird, a form of Te-HU-Ti (Thoth, Thought) or Divine Intelligence and / or a form of Shu, the Breath [of Life]. In the OLD TESTAMENT (TANKH), Sut Tekh is Yacub (Jacob meaning the "Supplanter") or Djewhuty (Te-HU-Ti, IAO and Y-ha-ho, Jehovah, Yahuwah, Ya Hawwah [Ma'at, his wife, consort, symbolizing the Feminine Living Principle, the Mother of All Living Things, the Kundalini Shakti, Umbilini] DNA, the four Amino Acids). In the NEW TESTAMENT Sut Tekh is Judas/Lucifer/Sat-An, all symbolic to the Lower-Self [Sebek] or the Sexual Organs [Penile Gland / Head of the Penis, Prostate Gland, Testes, Ovary, Uterus] which is often

times used excessively and prevertedly.

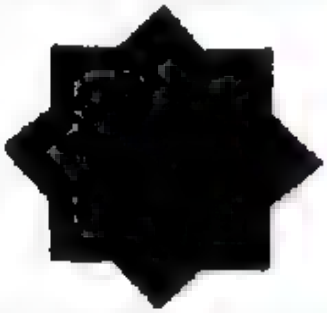
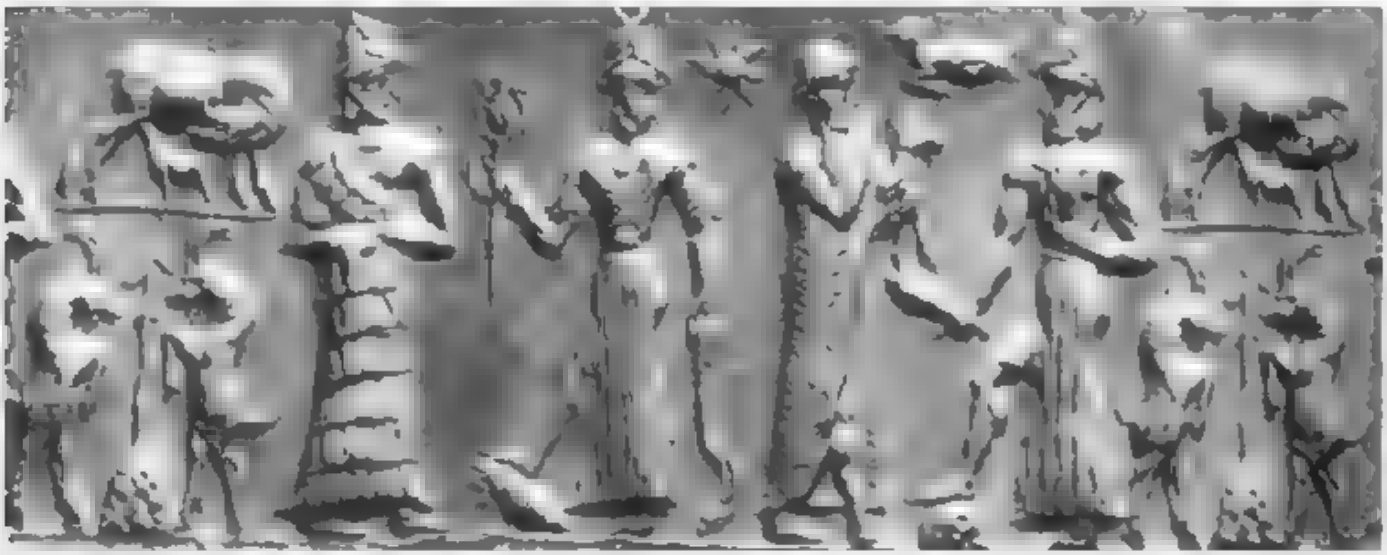
Is the Eight-Pointed Star (7) Seven Rayed Star, plus (1) the connection to it make the (8) Eight-Pointed Star), called the Star of Asaru (Asar, Ausar, Heru), Asarel (Israel), Mel-Chi-Sedek (Mel-Chi-Zedek, Mel-Che-Zedek, Malachi Zodok [Hebrew], Malkiy Saadiq [Arabic] - the Angel of Justice and reigned over the Kingdom of Salaam [Salem], in charge of the High Priests of Zodok [Justices], Mur-dock, Mur-doq, Mar-duk, Mal-dek, interchangeable.

The Sumerians used an arrangement of lines as a symbol for both star and God. The linear eight-point star represented the goddess Inanna, Sumerian queen of the heavens and Ishtar(Astarte), the Babylonian goddess known as "The Lightbringer." An eight-point star enclosed within a circle was the symbol for the sun god. The "Babylonian star-cult is the core and the archetype of subsequent astrology." - from "Origins and Meanings of the Eight-Point Star





OUR MISSION

1. Why Indigenous? The Inspirer P.R.A.B. (Prince Ramisis Abel Bey) Mel-Chi-Sedek (Mel-Chi-Zedek, Mel-Che-Zedek) belonged to an Indigenous Nation. He was the Crown Prince of the Empire Washitaw de

Dugdahmoundyah Mu'urs, under the auspices of Her Highness, the Empress Verdiacee 'Tiari' (Tiara') Tunica (Turner) Washitaw (Washington) Goston El-Bey, who bestowed him the title "Crown Prince" on June 7th, 1999. The Crown Prince Ramisis Abel Bey changed his name in 2003 to Crown Prince: Hutan Tu'pak Bey and he inspired the formation of the United Washitaw de Dugdahmoundyah Mu'ur Nation. However, he kept the name P.R.A.B. (Prince Ramisis Abel Bey) Mel-Chi-Sedek in the Indigenous Cosmic Golden RE (Ray) Order of Mel-Chi-Sedek. He was inspired after he was initiated into the Seven Golden Rays of Peru to form (I.C.G.R.O.M.) Indigenous Cosmic Golden RE (Ray) Order of Mel-Chi-Sedek. The (I.C G R.O.M.) Indigenous Cosmic Golden RE (Ray) Order of Mel-Chi-Sedek is the inner circle of the United Washitaw de Dugdahmoundyah Mu'ur Nation, the outer circle. Ultimately, I.C.G R.O.M.'s purpose is to allow men and women to have a personal experience of the Divine without having to resort to a particular creed. This 'Order' (Priesthood) will NOT act as intermediary between "Man and God!" The 'Order' (Priesthood) was designed to help those that want to excel to their Higher Selves.

2. Ancestral Acknowledgement, Historical Research, Religious Studies, Ecology (Geo-Physics), Archaeology, Anthropology, Bio-Chemistry (Genetics) etc...

3. Healing Techniques, such as, Usui, Tibetan and Seichem Reiki, Pranayama (Pranic Healing), Naga Yoga (Kundalini Yoga), Tantra Kriya Yoga, Electro-Magnetic Modality, Massage, Suggestion and Projection of Thought (Hypnosis), Herbology (Herbalism) etc... In reference to the Science of Healing, all High Priests (Sacred Seat of Council) engage in the healing arts. Mel-Chi-Sedek utilizes the green, purple (violet) or gold light. Healing the body was Divine activity that had a considerable degree of attention. The Rau (Elu, Eloh-im, Allah-umma, Anu-Nakis, Nommos) teaches that the ailing (sick) body or even dead body (especially within 3 days, because the ethereal / silver cord is still partially attached) could be filled with Divine Power (The Light, Healing Ether, Vitality, Prana, Nafs) so as to cast out illness and disease. The Rau teaches that the ailing (sick) body can be cured by various plants or herbs, for every illness of Hu[e]man beings there exists a herb (root, leaf or bark) to heal that illness. The methods taught are accumulated in the United Washitaw De Dugdahmoundyah Mu'ur Nation system (of Ta Meri yoga) called "Uatcheta Smai Tawi" = "Serpent to Eye; Union of the Lower and Higher Lands (Selves)".

4. Free Healing Services twice a week with Mediation, Prayer (Chant [Dhikr], Hekau, Hesi, Mantras, Mudras), Breathing, Song and Rhythmic Dance (Drumming) etc...

5. Prophetic engagement (communication with Higher-Self, Higher Spirits, Ancestors). NO! Demonology, such as, blood sacrifices is utilized for they are not necessary. The Universe is abundant with Pranic Energy (Prana, pRAn), which is Red like Blood and is the Universal Life Force Energy.

6. Mastering of one's Die-t (alkaline food, electrical foods), Herbal Practices, Personal Hygiene Practices, Spiritual Cleansing, etc...

7. Sales of Fruits, Healing Edibles, Herbal Remedies, Incenses (Resins), Soaps, Oils and Ointments etc...

8. Home School, High School and Collegiate (University) for a better future etc...

THE WINGED DISK OF KNEPH THIS ARCHETYPAL IMAGE IS SYMBOLIC OF THE THREEFOLD ETERNAL SPIRIT AND THE DUAL SOUL SUPPORTING THE SPHERE OF INDIVIDUALIZED BEING, THE NAME ITSELF APPARENTLY BEING DE- RIVED FROM THE COMBINATION OF K (OR KH) AND NEF— THE LATTER BEING THE FIRST PART OF THE WORD NEFER (FROM WHICH THE HEBREW NEPHESCH IS ALSO DERIVED & LATER NAFISH IN ARABIC). THE FACT THAT THE KNEPH SYMBOL WAS ALWAYS TO BE FOUND OVER TEMPLE DOORWAYS IS INDICATIVE OF THE FACT THAT ONLY THE SPIRIT WAS REGARDED AS BEING ABLE TO PASS BACK AND FORTH BETWEEN DIFFERENT SOUL STATES (THUS DIFFERENT ROOMS).

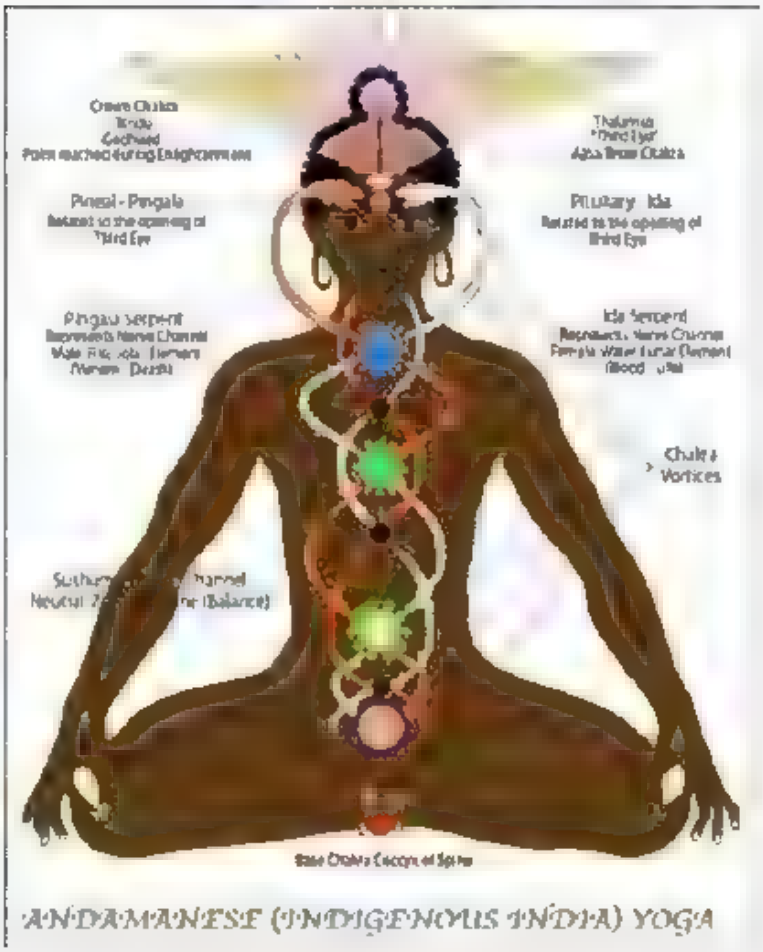
LETTER FROM P.R.A.B. (Prince Ramisis Abel Bey) Mel-Chi-Sedek (Mel-Chi-Zedek, Mel-Che-Zedek) in 2003

"We of I.C.G.R.O.M (Indigenous Cosmic Golden RE [Ray] Order of Mel-Chi-Sedek) seek to expound Essential LOVE, to generate the TRUE GOD Force and share it with ALL womb-men and men. We are the Mercy and the Beneficence of Life, itself. Life has a consistence pattern that interlocks ALL Humanity. Our purpose is to unite ALL, to be considerate of ALL Life and to center ourselves in, around and through the Golden Light of Healing. I, P.R.A.B. (Prince Ramisis Abel Bey) Mel-Chi-Sedek proclaim that we move away from violence (self-hatred, civiliter mortuus) and into Full Life."

Yours, Supreme Grand High Priest, P.R.A.B (Prince Ramisis Abel Bey) Mel-Chi-Sedek (Mel-Chi-Zedek, Mel-Che-Zedek, Malachi Zodok).

INDIGENOUS COSMIC GOLDEN RE ORDER OF MELCHIZEDEK

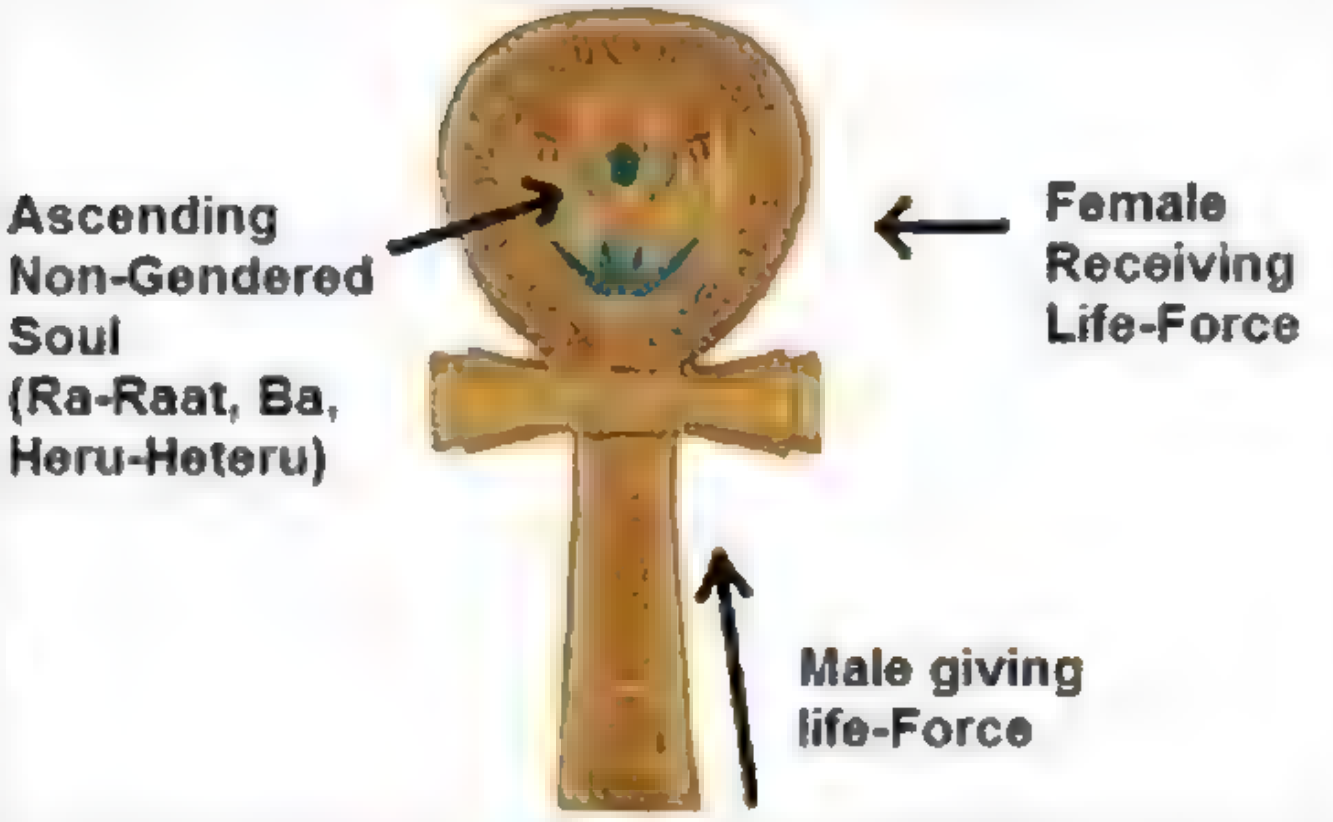
I.C.G.R.O.M.'s Ta Meri Smai Tawi (Egyptian Yoga) is known as Uatcheta Smai Tawi. Uatcheta Smai Tawi (Kundalini Yoga) is a collection of Ancient Yogic Teachings, Chi Kung (Qi Gong, Falun Gong, Chinese Yoga), Tai Chi (Baqua, Nei Kung, Wei Kung and etc..) and Practices for Self-Transformation through Self-Realization and Self-Mastery These were the teachings and practices that allowed the Ngu (Negus) Pharoah (Per Ahh) high officials and crafts men and women, Priests and Priestess, and Sages and Yogis be intelligent, harmonious, disciplined, self-realized leaders in Ancient Indigenous Cultures.



Above is the Symbol of Smai, alongside an image of the lung and trachea, and the pelvis and spine This is the MDW NTCHR (hieroglyph) of "Smai " Smai represents the union of the two lungs and the trachea with the brain, but it also represents the union of the pelvis and the spine with the brain. Both of these teachings hold significance to Uatcheta Smai Tawi (Egyptian Yoga System) and spiritual enlightenment.

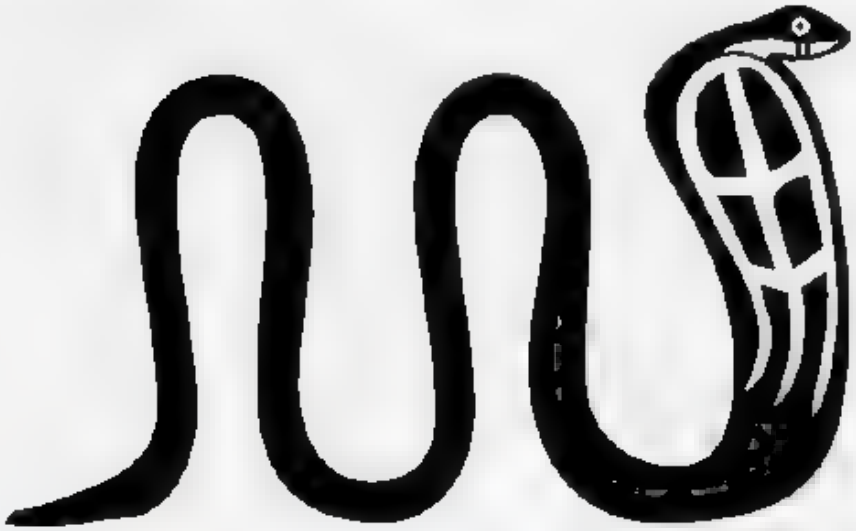
The union of the lungs and trachea is seen as necessary in order to breathe This "breath of life" allows the brain and nervous system to activate the conscious union of the body and brain. This experience of the consciousness (union of body and brain) is critical to being alive. The brain and body are not separate, although they seem to be from a "thinking" and "experiencing" standpoint; yet, neither exists or operates without the other. This union is critical to life. It is in this living union of the brain and body, that we experience physical life, and the opportunities to live a life of: positive qualitys such as harmony, bliss, unconditional love, and liberation, or negative qualitys such as fetters of negativity, dogma, constriction, restriction, and hinderance.

Thus, the Smai Symbol is also a symbol of life, with an emphasis on physical existence. Most importantly this symbol represents our original living nature, which we experience in Our first breath, our awakening, our resurrection. This then points to the higher teachings of the Smai symbol which will be gone into more in-depth below.

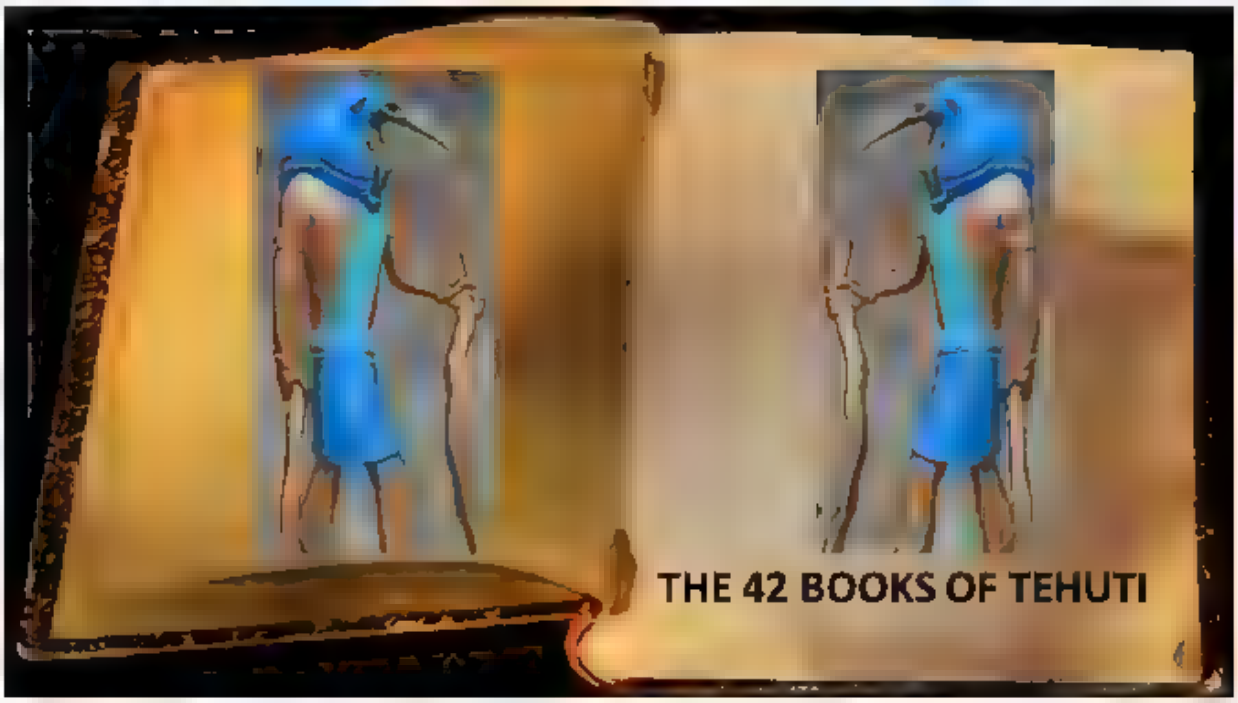


In order to fully understand the MDW NCTHR (Hieroglyphic) symbol of Smai Tawi, we must delve into the symbology and teaching of the Ankh. The Ankh symbolizes the Birthing, maintaining, and empowering of Consciousness. The MDW NCTHR (hieroglyphic) symbol of the Ankh is shown as a loop and shaft tied together, symbolizing a living being with the heart as the Knot in the middle. The heart is considered the center of our existence and consciousness, however, it does expand to the center of the brain, the Pineal Gland, where the Soul is embedded at. The Breath of Life (Ankh) is therefore considered the Life-force of the Heart (the Physical Seed Atom is located in the right ventricle of the heart). The Body therefore is an air-gas engine that runs on air (Ankh, Breathe of Life.) It is the breath, not food, that sustains the Consciousness in the Body-brain physical existence. The Ankh therefore represents air being used to vitalize the heart, through which the circulatory system and blood, enliven the body and brain in order for a living being to experience physical existence This is very significant for Kemetic Yoga in many ways.

The "breathe of life", which empowers the union of the body and brain, is symbolized by receiving the Ankh (life) from the gods and goddess (Netcherw Elements and functions of existence.) For a person to receive the Ankh, one must be able to breath in the life (Prana, chi, ki, mana, vril, through the lungs and trachea (Smai), as symbolized by the image above where the Ngu / Per Ahh (pharaoh, the living Heru, initiate) is receiving the Ankh from the god Tehuti. This symbology shows the Ngu / Per Ahh with the Serpent (Kundalini to the third eye) on the forehead and headdress of Amun-Re symbology, this signifies our Original Divine Nature as the master of existence and the identity of the creator-being Amun-Re. Tehuti is the divinity that represents consciousness, which provides the Ankh (breath of life): the ability to breath and be alive This symbolizes that consciousness imbibes the body and brain with Life, and that we exist in our Original Nature as a divine master and creator of our own existence.



Unlike traditional forms of yoga, (Uathceta Smai Tawi (Wadjet Yoga) uses the Ta Meri (Kemetic) spiritual system as its basis. All chants are spoken in the Ta Meri MDW NTCHR (Kemetic / Egyptian) language, and the divine principles and their symbols are a focal point of the various sections of the system. As mentioned, Wadjet would be most comparable to Kundalini Yoga, slow (yin) and vigorous (yang) movement is balanced with deep meditation. Chanting and mudras (hand postures that work on the reflexology of the body) are integrated into the meditations in order to achieve the maximum spiritual benefit from a session.



There are 42 Sacred Laws in the Ta Meri (Kemetic) spiritual system, and Uatcheta Smai (Sema) Tawi (Wadjet Yoga) has been divided into six separate sections, each with seven sets that build upon each other, for a total number of 42 sets in the entire series. Uatcheta (Wadjet) was set up in proportionate divisions so that the practitioner could concentrate his or her efforts on the spiritual completion of one aspect at a time, or have the choice to complete the entire series as a whole, which can be repeated indefinitely Each set was designed to stand alone for the benefit of physical and mental health and wellness, or to be practiced as a series in order to cultivate the various aspects of the spirit (breath).

The Seven Liberal Arts, which formed the foundation training for all Neophytes and included. grammar, Arithmetic, Rhetoric and Dialectic (i.e., the Quadrivium) and Geometry, Astronomy and Music (i.e., the Trivium)

1st degree educates you in the coarse or base aspects of medicine and is known as Pastorphoros (All known and unknown sciences)

2nd degree Neocoros focuses on the standard structural energy of medicines, such as, the energy of shapes (squares, pyramids, triangles, obelisks).

3rd degree Melanophoros the student learns the energy forces of non-polarized energy, such as, the Melanin-DNA energy state, which is created between the death and life state

4th degree Kistophorus the student learns how to will the inherent law of plants, crystals, metals, colors, magnets, music, etc.

5th degree Balahate, the student learns the science of nature and interactions of alchemical laws

6th degree Astronomos, the student learns cycles, astrology, numerology, and the manipulations of the cosmic forces and their reaction in the cells, thoughts, biochemistry, organs, bones, emotions, vitamins, and minerals in the body and on the galaxy

7th degree Propheta, the student learns all the secrets of the higher mystery system and becomes a god (Ph.D.). Summum bonum is a Moorish Latin expression meaning "the highest good", which was introduced by Cicero, to correspond to the idea of the Good in Ancient Minoa (Crete / Etrusci) philosophy.

The medical practitioners of Af-Ra-Ka (Africa) received formal education by being initiated in the mystery system. A medical student was selected for initiation just as students are selected for college, via scores and personality profiles The students (initiates) could participate in their education on a general educational level call Exoteric learning, such as,

The education of the Egyptian Priests in: (a) The Seven Liberal Arts; (b) Secret systems of languages and mathematical symbolism; (c) Magic = 9 levels. sciences. Consequently history informs us that the Greeks were forced to make a study of Ethics, which they also borrowed from the Egyptian "summum bonum" or greatest good The two other Athenian Philosophers must be mentioned here, I mean Socrates and Plato; who also became famous in history as philosophers and great thinkers. Every school boy believes that when he hears or reads the command "know thyself", he is hearing or reading words which were uttered by Socrates. But the truth is that the Egyptian temples carried inscriptions on the out-side addressed to Neophytes and among them was the injunction "know thyself". Socrates copied these words from the Ta Meri (Kemetian / Egyptian) Temples, and was not the author All mystery temples, inside and outside of Ta Meri (Kemet / Egypt) carried such inscriptions, just like the weekly bulletins of our modern Churches. Similarly, every school boy believes that when he hears or reads the names of the four cardinal virtues, he is hearing or reading names of virtues determined by Plato. Nothing has been more misleading, for the Ta Meri (Kemetian / Egyptian) Mystery System contained ten virtues, and from this source Plato copied what have been called the four cardinal virtues, justice, wisdom, temperance, and courage. It is indeed surprising how, for centuries, the

Greeks have been praised by the Western World for intellectual accomplishments which belong without a doubt to the Egyptians or the peoples of North Africa. The schools of philosophy, Chaldean, Greek and Persian, were part of the Ancient Mystery System of Egypt. They were conducted in secrecy according to the demands of the Osiriaca, whose teachings became common to all the schools. In keeping with the demands for secrecy, the writing and publication of teachings were strictly forbidden and consequently, Initiates who had developed satisfactorily in their training, and had been advanced to the rank of Master or Teacher, refrained from publishing the teachings of the Mysteries or philosophy. The next thing that is peculiar about Greek philosophy is its use in literature. The Egyptian Mystery System was the first secret Order of History and the publication of its teachings was strictly prohibited. This explains why Initiates like Socrates did not commit to writing their philosophy, and why the Babylonians and Chaldaeans who were very closely associated with them also refrained from publishing those teachings. During the Persian, Greek and Roman invasions, large numbers of Egyptians fled not only to the desert and mountain regions, but also to adjacent lands in Africa, Arabia and Asia Minor, where they lived, and secretly developed the teachings which belonged to their mystery system.

In the 8th century A.D. the Moors, i.e., natives of Mauritania in North Africa, invaded Spain and took with them, the Egyptian culture which they had preserved. Knowledge in the ancient days was centralized i.e., it belonged to a common parent and system, i.e., the Wisdom Teaching or Mysteries of Egypt, which the Greeks used to call Sophia. As such, the people of North Africa were the neighbors of the Egyptians, and became the custodians of Egyptian culture, which they spread through considerable portions of Africa, Asia Minor and Europe. During their occupation of Spain, the Moors displayed with considerable credit, the grandeur of African culture and civilization. The schools and libraries which they established became famous throughout the Mediaeval world, Science and learning were cultivated and taught; the schools of Cordova, Toledo, Seville and Saragossa attained such celebrity, that they, like their parent Egypt, attracted students from all parts of the Western world, and from them arose the most famous African professors that the world has ever known, in medicine, surgery, astronomy and mathematics. But these people from North Africa did more than merely distinguish themselves in Spain. They were really the recognized custodians of African culture, to whom the world looked for enlightenment. Consequently, through the medium of the ancient Arabic language, philosophy and the various branches of science were disseminated (a) all the so-called works of Aristotle in metaphysics, moral philosophy and natural science (b) translations by Leonardo Pisano in Arabic mathematical science (c) translation by Gideo a Monk of Arezzo in musical notation. (Sedgwick and Tyler's Hist. of Science C. IX.)

In addition, the Moors kept up constant contact with mother Egypt for they had established Caliphates not only at Baghdad and Cordova, but also at Cairo in Egypt. (Europe in the Middle Ages by Ault p. 216-219) Just here it would be well to mention that all the great leaders of the great religions of antiquity were Initiates of the Egyptian Mystery System: from Moses, who was an Egyptian Hierogrammat, down to Christ. The immigration of Greeks to Egypt for the purpose of their education, began as a result of the Persian invasion (525 B.C.), and continued until the Greeks gained possession of that land and access to the Royal Library, through the conquest of Alexander the Great. Alexandria was converted into a Greek city, a center of research and the capital of the newly created Greek empire, under the rule of Ptolemies. Egyptian culture survived and flourished, under the name and control of the Greeks, until the edicts of Theodosius in the 4th century A.D., and that of Justinian in the 6th century A.D., which closed the Mystery Temples and Schools, as

elsewhere mentioned. (Ancient Egypt by John Kendrick Bk. II p. 55; Sandford's Mediterranean World p. 562, 570). education. (1) It is said that during the reign of Amasis, Thales who is said to have been born about 585 B C., visited Egypt and was initiated by the Egyptian Priests into the Mystery System and science of the Egyptians We are also told that during his residence in Egypt, he learnt astronomy, land surveying, mensuration, engineering and Egyptian Theology. (See Thales in Blackwell's source book of Philosophy; Zeller's Hist. of Phil ; Diogenes Laertius and Kendrick's
Ancient Egypt). the Japanese scientists at Tokio.

Accordingly, we are told that Ptolemy I Soter, in order to elicit the secrets of Egyptian wisdom or mystery system, ordered Manetho, the High Priest of the temple of Isis at Sebennytus in Lower Egypt, to write the philosophy, and the history of the religion of the Egyptians. Accordingly, Manetho published several volumes concerning these respective fields, and Ptolemy issued an order prohibiting the translation of these books which had to be kept on reserve in the Library, for instruction of the Greeks by the Egyptian Priests. Here it becomes quite clear that the first professors of the Alexandrine School were the Egyptian Priests, and that the Scholarchs and pupils of Aristotle's transferred school, received their training directly from the Egyptian Priests. It is also well to note that the chief text books of the Alexandrine School were Manetho's books. We are told by Apollodorus from whom Syncellus drew his information, that Ptolemy II ordered Eratosthenes, the Cyrenean (i.e., a black man and native of Cyrene) and librarian of the Alexandrine Library, to write a chronology of the Theban Kings, and that Eratosthenes did so with the aid of the Egyptian Hierophants at Thebes (Ancient Egypt by John Kendrick vol II p 81, Apollodorus; Syncellus; Clinton, Fasti Hellenici, sub anno).

The doctrine and philosophy of opposites is further demonstrated by the Egyptian Creation story, in which Order came out of Chaos and which was represented by four pairs of opposites i e , male and female gods.

(a) Nun and Naunet i.e., Primeval Matter and Space.

(b) Huk and Hauket i.e., Limitable and the Boundless

(c) Huh and Hauhet, i.e., Darkness and Obscurity.

(d) Amun (Amen) and Amunet (Amenta), i.e., the hidden and concealed ones (the Air, Wind). The doctrine of the Nous as a matter of fact, originated from (c) the Mystery System of Egypt, in connection with which, the Neter Asaru (God Osiris) was represented in all Ta Meri (Kemetian / Egyptian) temples, by the symbol of an Open Eye (Os-Iris), referred to elsewhere This symbol indicated not only sight that transcended space and time but also omniscience, as the Great Mind which created and which still directs the universe This symbol also forms a part of the decoration of all Masonic lodges of the modern world and dates back to the Osirian or Sun worship of the Egyptians more than 5000 B C. This same notion was also represented by the Egyptians by a God with eyes all over Him and was known as the "All Seeing Eye" (All-Eye Seeing). (Zeller's Hist. of Phil., p. 809). ("The Ancient Mysteries", C. H. Vail, p 189). (Max Muller: "Egyptian Mythology"). This system of Ethics as has already been mentioned belonged to the Mystery System of Egypt, which required Neophytes in preparation for initiation, to keep the following ten commandments, underlying which were ten principles of virtue:

The Ta Meri (Kamau / Egyptians) called them the Hehu (YHWH). They are represented by 4 pairs of primordial qualities, forces, or Deities.

A = Amen/Amenet

N = Nun/Nunet

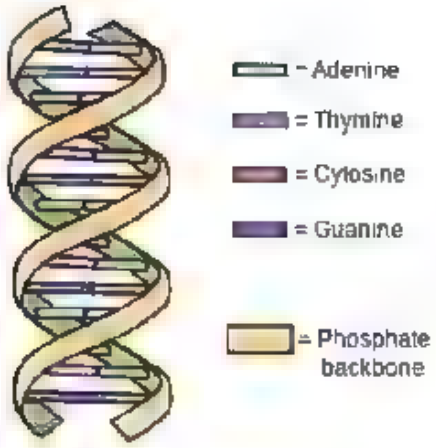
K = Kek/Kehhet

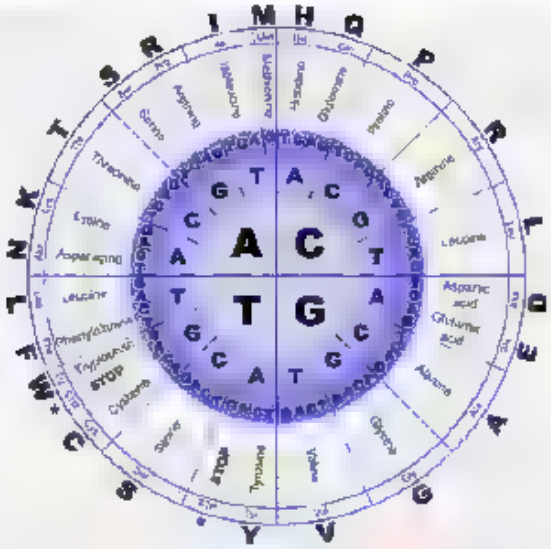
H= Heh/Hehet

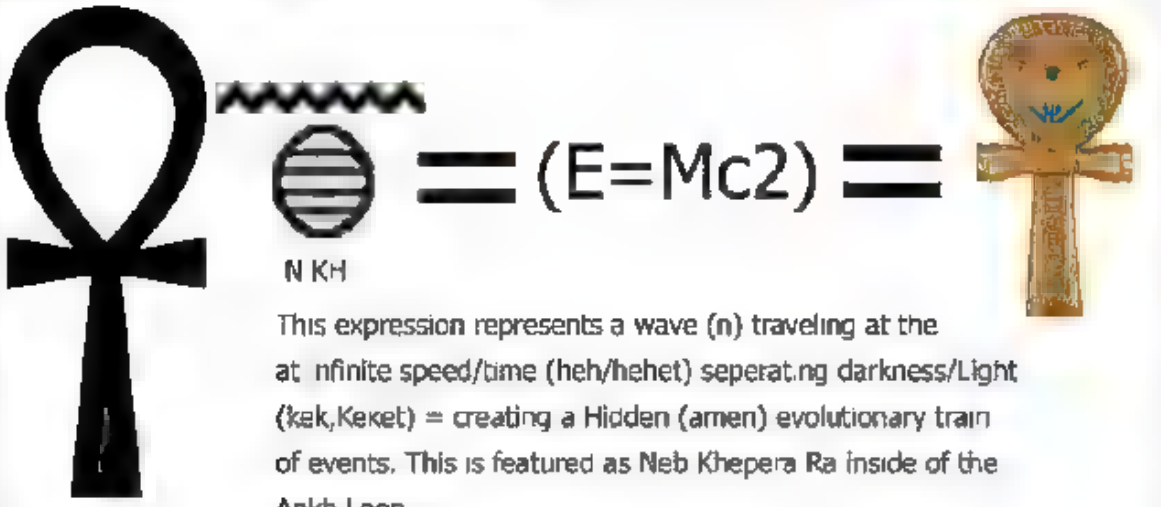
ANKH (YHWH, YHVH) - The 4 Based Amino Acids, the "Building Blocks" of DNA called Protein. If these are primoridal creators or important forces then their names would have primoridal sounds. Said or chanted together would produce the sound A-N-K-H = ANKH or AUNG, which can awaken DNA. The following are examples

Ankh Ptah Sekher Asar - ("Life-Creation, Death and Resurrection") Mantra for stimulating a profound protective force on ALL levels of Human activity, and help set in motion a process of transformation of the individual from Human into Super-Human.

Aung Ausar Hung - (Life Eternal and Indivisibility, or something which cannot be torn apart) "Life begins in the State of Triple Darkness / Blackness; Blackness is the Source of Creation [Soul=God]; Mantra for manifesting your True Self and the Source of ALL Spiritual Powers."







The Neophyte must (I) control his thoughts (II) control his actions (III) have devotion of purpose (IV) have faith in the ability of his master to teach him the truth (V) have faith in himself to assimilate the truth (VI) have faith in himself to wield the truth (VII) be free from resentment under the experience of persecution (VIII) be free from resentment under experience of wrong, (IX) cultivate the ability to distinguish between right and wrong and (X) cultivate the ability to distinguish between the real and the unreal (he must have a sense of values).

The Gods of Order and arrangement in the cosmos are represented by nine gods, in one Godhead, called the Ennead Here Atum (Atom), the source of the Ogdoad, is also retained as the source of the Gods of Order and arrangement. Atum (Atom) names four pairs of parts of his own body, and thus creates eight Gods, who together with himself become nine. These Eight Gods are the created Gods, the first creatures of this world; and Atum (Atom), the Creator God, in his form as Ptah-Tehuti or Huhi (YHWH) the Demiurge (Ialdabaoth Jehovah), of whom Plato spoke. The Gods whom Atum (Atom) projected from his body were

(i) Shu (Air)

(ii) Tefnut (Moisture)

(iii) Geb (Earth) and

(iv) Nut (Sky); who are said to have given birth to four other Gods:

(v) Asaru (Osiris, the Neter [God] of OMni-Potence, OMni-Science and OMni-Presence)

(vi) Aset (Isis, wife of Osiris, Female Principle, Queen of Heaven)

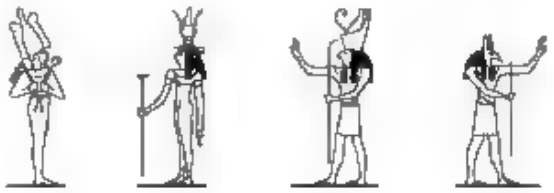
(vii) Sut / Set (Seth, the Opposing Neter)

(viii) Neb Het (Nephthys, the Female Principle in the Unseen World) (Plutarch. Isis et Osiris, 355A, 364C; 371B; Frankfurt; Intellectual Adventure of Ancient Man, p. 66–67). act of creation.

Here are three different subjects that are explained in story forms, using four personified concepts: Asar (Osiris) Auset (Isis) Heru (Horus) and Set (Set).

1 - The four elements of the world (water, fire, earth, and air) as quoted from Plutarch's *Moralia Vol. V*

The Egyptians simply give the name of Asar [Osiris] to the whole source and faculty creative of moisture believing this to be the cause of generation and the substance of life-producing seed, and the name of Set [Typhon in Greek] they give to all that is dry, fiery, and arid, in general, and antagonistic to moisture
As the Egyptians regard the Nile as the effusion of Asar, so they hold and believe the earth to be the body of Auset [Isis], not all of it, but so much of it as the Nile covers, fertilizing it and uniting with it. From this union they make Heru [Horus] to be born. The all-conserving and fostering Hora, that is the seasonable tempering of the surrounding air, is Heru [Horus]. The insidious scheming and usurpation of Set [Typhon], then, is the power of drought, which gains control and dissipates the moisture which is the source of the Nile and of its rising



Taken from: "EGYPTIAN COSMOLOGY" by Moustafa Gadalla

According to the Memphite Theology of the Egyptians, Atum created Eight Gods who proceeded from eight parts of His own body. He was seated upon Ptah the Mound and was unmoved. In this act of creation Atum (Atom) became the Unmoved Mover In spite of the Memphite Theology being the direct source of these doctrines, yet Plato has been given credit for The Curriculum of the Egyptian Mystery System consisted of the following subjects:

(i) The Seven Liberal Arts, which formed the foundation training for all Neophytes and included: grammar, Arithmetic, Rhetoric and Dialectic (i.e., the Quadrivium) and Geometry, Astronomy and Music (i.e., the Trivium).

(ii) The Sciences of the 42 Books of Tehuti (Hermes or Heru Mes)

In addition to the foundation training prescribed for all Neophytes, those who sought Holy Orders, had to be versed in the books of Hermes and according to Clement of Alexandria, their orders and subjects were as follows:--

(a) The Singer or Odus, who must know two books of Hermes dealing with Music i e., the hymns of the Gods

(b) The Horoscopus, who must know four books of Hermes dealing with Astronomy.

(c) The Hierogrammat, who must know the hieroglyphics, cosmography, geography, astronomy and the topography of Egypt and Land Surveying.

(d) The Stolistes, who must know the books of Hermes that deal with slaughter of animals and the process of embalming

(e) The Prophetes, who is the President of the temple, and must know ten books of Hermes dealing with higher esoteric theology and the whole education of priests.

(f) The Pastophori, who must know six books of Hermes, which are medical books, dealing with physiology, the diseases of male and female, anatomy, drugs and instruments

(iii) The Sciences of the Monuments (Pyramids, Temples, Libraries, Obelisks, Phinxes, Idols); — Architecture, masonry, carpentry, engineering, sculpture, metallurgy, agriculture, mining and forestry. Art (drawing and painting)

(iv) The Secret Sciences Numerical symbolism, geometrical symbolism, magic, the book of the Dead, myths and parables "Stolen Legacy: Greek Philosophy is Stolen Egyptian Philosophy" by George G. M James

The Journal of Pan African Studies 2009 eBook.

(1) The Summum Bonum This means (a) The Greatest Good (b) the lifting of man from the level of a mortal and advancing him to the level of a God (c) the salvation of the soul (d) the purpose of philosophy (e) the goal of the Egyptian theory of salvation. Read C. H. Vail's "Ancient Mysteries", p. 25.

(2) The Grand Lodge of Luxor. The ruins of the ancient Grand Lodge of Luxor are found today on the banks of the Nile in Upper Egypt in the ancient city of Thebes. It was built by Pharaoh Amenothis III. It was the only Grand Lodge of the ancient world. It had branches or minor lodges throughout the ancient world; in Europe, Asia, Africa, North America, South America and probably in Australia. These were some of the places:—(a) Palestine at Mt. Carmel (b) Syria at Mt. Herman in Lebanon (c) Babylon (d) Media, near the Red Sea (e) India, on the banks of the Ganges (f) Burma (g) Athens (h) Rome (i) Croton (j) Rhodes (k) Delphi (l) Miletus (m) Cyprus (n) Corinth (o) Crete (p) Central and South America, especially Peru (q) Among the American Indians and among the Mayas, Aztecs and Incas of Mexico. Diogenes Laertius, and History of Philosophy by Thomas Stanley. The discovery of the ruins of Luxor on the banks of the Nile and the organization of the Egyptian Mysteries into a Grand Lodge with minor lodges throughout the ancient world are evidence that Egypt was the cradle of the Mysteries and of the Masonic Brotherhood (a) The Egyptian Mystery System was the One Holy Catholic Religion of the remotest antiquity. (b) It was the one and only Masonic Order of Antiquity We as I.C G.R.O.M. continue these traditions; however, not in the separation of Freemasons and the Eastern Stars, but in unison.

POSITIONS

Wenwet, the Priesthood: The Supreme Grand High Priest/ess, Grand High Priest/ess, High Priest/ess and ALL those Priests in various positions are to take a vow of Service (Humility). "Spiritual Warriors are Healers too!"

It[a]-Neter (*it-ntr* or *jt-ntr*) - Literally translates to "Father / Mother of the God." While in the older periods of Ta-Ma-Re-an (Kama'atian, Egyptian) history this title could be held by members of the priesthood of the highest ranks.

Yemjra - frequently held other titles and positions within the temple

Sehedj - "Inspector of the Priesthood"

Imi-Khet– "Supervisors of Temple Operations"

Hem Neter (Man) "Servant of the God/dess"; and "Hemet Neter" (Womb-Man) "Servant of the God/dess"; were the primary ancient Ta-Ma-Re-an (Kama'atian / Egyptian) words for priest and priestess

Wab (Man) and Wabet (Womb-Man) means "Pure Priests." They are responsible for the purity of the ritual and the cleanliness of sacred rooms, tools, paraphernalia, and priesthood.

Imi-Unut Along with the scribes of the House of Life, the Imi-Unut were astrologers / astronomer priests and priestesses who calculated the positions of the Sun, Moon, stars and planets

Kher Heb was the priest or priestess who recited the liturgy and magick spells

Sesh Per Ankh means "Scribes of the House of Life"; were the learned priesthood (including mathematicians, doctors, and scientists).

Sesh Ked were the artists of the priesthood

Sunu - Those priests involved with healing

Rakhet - meaning 'knowing one' The Rekhet were considered "wise women." They were seers who were able to communicate with the dead. It appears that the Rekhet were comprised of women only who had passed their child bearing years.

Sau - Workers of protective magic.

Duat (Dewat, Dwat, Daut, Taut, Twat) Neter - This term literally means "In Tune with the the Forces of Nature" or "Worshiper of the God" and was a title carried by priestesses of Hwt-Hrw (Het Heru) as early as the Old Kingdom. They are depicted as performing all of the temple rites that are reserved for only the highest level of the clergy. This position was also referred to as the "God's Wife" and the "Hand of the God" both of which echo back to the creation myths in which Het Heru (Hwt-Hrw, Hathor), Nebet-Hetepet, Iusaas (Aset) sexually stimulates Atum-Ra so that creation may begin.

Iunmutef (iwn-mwt.f) – the male equivalent to the Dewat Neter. This is a term that translates to "Pillar of his Mother" The term "Pillar" often represented the phallus (as seen in the mysteries of Aset (Isis) and Asar[u] (Osiris) it seems logical that, similar to the Dewat Neter priestesses, the Iunmutef Priest stimulate Goddesses to whom the priest may be in service, so that fertility (regeneration) would continue. This is reminiscent of Ra's title as "Bull of His Mother" representing the cycle of fertility and creation, in which Ra impregnates Hwt-Hrw as the noonday Sun so that She may give birth to him the next day.

Whmw - A term meaning messenger (Prophet) or herald, these appeared to have been trained to be intermediaries between the Neteru and humans. This skill seems to particularly have been employed in regards to oracle.

Sem (Sem-en) - The Sem were mortuary priests who oversaw and conducted the funerary rituals

Hener - These were the temple musicians and dancers

Weret Hener (wrt-hnr), a priestess of high rank. Music and dancing were performed to promote fertility and rebirth; as such the Hener participated in almost all ceremonies from festivals to funerals

Teachers may complete subsequent intermediate levels and senior levels of certification. In Uatcheta Smai Tawi (Egyptian yogic) tradition followers of the Nebertcher or Neteru are known as the circle of Semu or Shemsu incarnated Netcheru (Neteru) priesthood, teachers are known as Seba or Sebai, doctors Sunu (Sunnu) and Masters Nub (Nub-ian), Neb or Nebu (Nebo). Nebu meaning 'Lord' or 'Master' another meaning is 'Golden', in alchemical terms one who as transformed her/himself from base metal in to gold. This is symbolic of the work required to develop oneself in to a better person through the system of Tehuti / Ma'at.

SINGLE FORM OF PRACTICE OR INTEGRAL PRACTICE?

These ten forms of Ta Meri (Kemetic) Smai Tawi (Yoga) are all practiced integrally (all practice practiced together). One single yoga form can take an individual to the ultimate goal: Smai Tawi, but it is advice to undertake all forms because they provide a harmonic practice which works will all areas of ones nature. A lay practitioner may practice only one of the forms of Ta Meri (Kemetic) Smai Tawi (Yoga) or just, for example they may read scripture (Insight) and give offerings (Devotional Love) One path alone has the ability to take an individual to higher states of consciousness to self-realization. The synthesis of all the forms is for one who truly seeks to pursue the highest level of practice and be a Ta Meri (Kemetic) Smai Tawi Yogi, a Priest or Priestess. This is high level practice is done simply through living the Yogic practices and applying them to ones life. As one learns more about them, studying their specific section in this site, one can understand that these practices form into a lifestyle. When this

occurs the highest practice can be maintained at all times and in all places regardless of ones responsibilities in life outside of Yoga practice. This is a being who is worthy to awaken in this lifetime

LAWS

1. First Law is to show Love (Ma'at) without discrimination. Love arises spontaneously when hatred and anger and other forms of selfish and negative thought are absent.

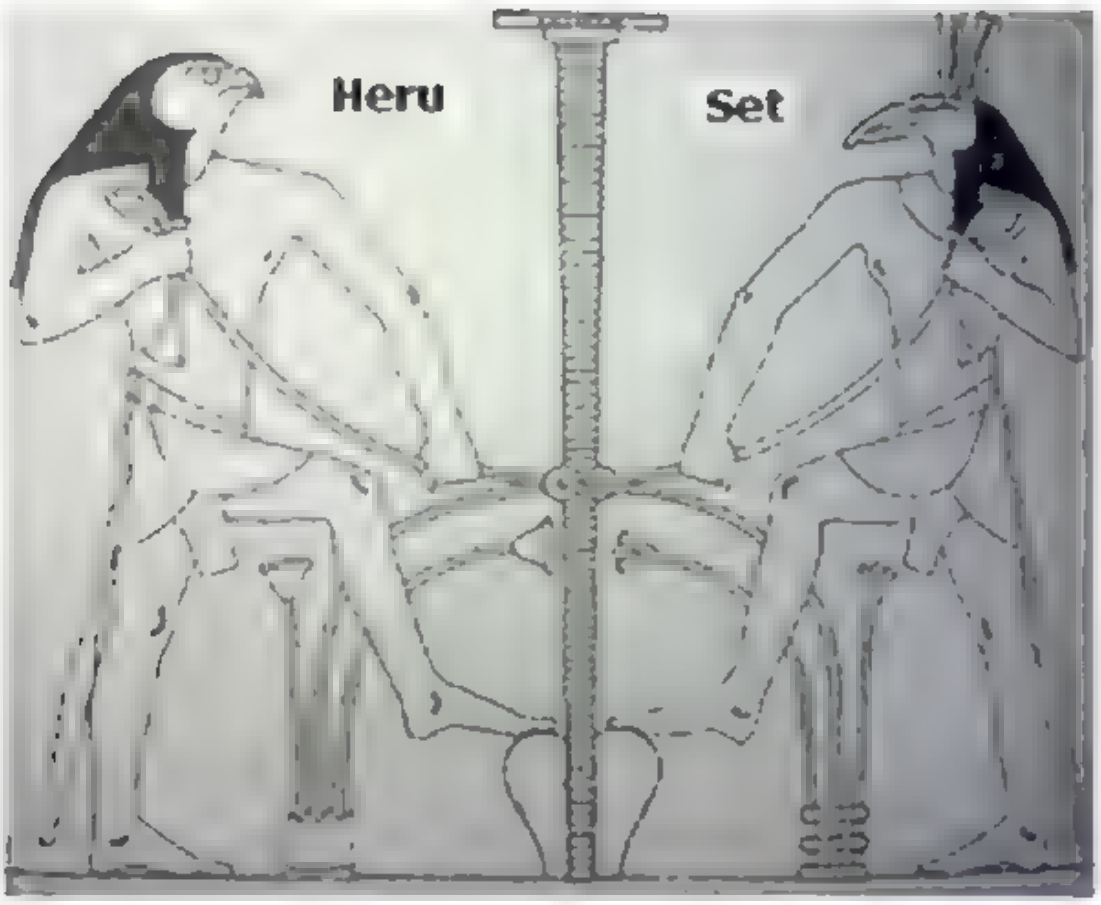
2. Second Law is to hurt NO one and help ALL! (Note: Jesus, figuratively, summed up the 10 Commandments, which was summed up from the 42, 77, 147 said "Negative Confessions of Ma'at," into, (1) One Commandment, *"Do unto others as you will have them do unto you!"* In other words, as your parent[s] has told you, I am sure on numerous occasions, *"Treat people the way in which you would like to be treated!"* This is beyond, name [physical/birth name given that is and NOT referencing one's galactic name], race, creed, color, nationality, ethnicity, handicap, or etc.)

3. Third Law is to work towards total inner and outer Peace (Ma'at) and Unity (Smai Tawi) with the Higher Self (Allah or Ur Ra in Man [Mind]). If you practice meditation daily, then gradually over the years, without straining to be perfect, you will become less and less self centered and a natural love for others will arise within you. Thus, with changing the inner world of oneself, you automatically change the outer world.

The Supreme Grand High Priest, P.R.A.B. (Prince Ramisis Abel Bey) Mel-Chi-Sedek (Mel-Chi-Zedek, Mel-Che-Zedek) is the Inspiration of this Order, the (I.C.G.R.O.M.) Indigenous Cosmic Golden RE (Ray) Order of Melchizedek. I.C.G.R.O.M. is an Order of Light, the mastery of Dark. We call upon Melchizedek (Heru Ma Khu Sut Tekh). We are non-denominational, yet we bear the (stepping) stones of the Ancient Sciences, said Mysteries (Hah Kha, Spiritual Systems / RE-ligions), which Judaism, Christianity and Islam (said Mono-Theistic Religions), Zoroastrianism, Hinduism, Buddhism, Confucianism, Taoism and etc...are derived. The Hah Kha teachings are found in all lands, among all RE-ligions. Our structure symbolizes the "Force of One." The Supreme Grand High Priest or Grand Priest/ess in her or his stay has the power to form Laws, as long as, the Laws are in tune with Nature, called Natural Law and NOT colorable law) with the assistance of the Captain, Lieutenant,

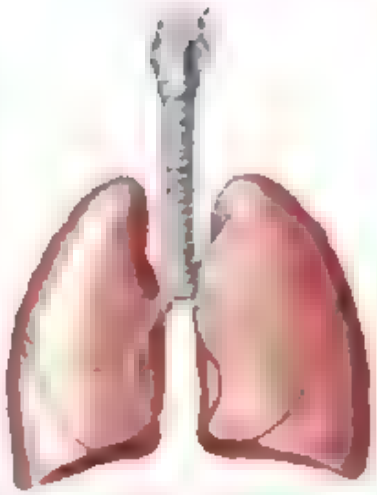
Secretary (Record Keeper) and Treasurer.

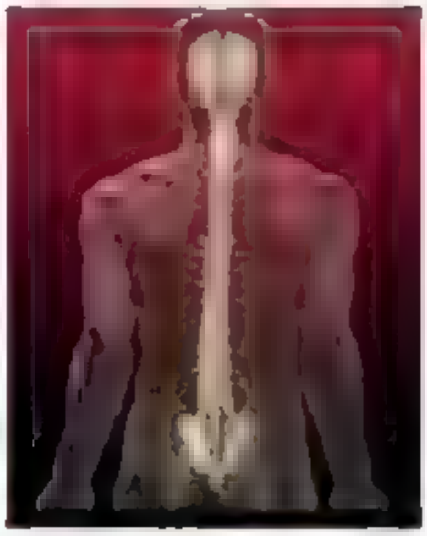
Smai Tawi: The Union of the Two Lands



I.C.G.R.O M.'s healing system is called Uatcheta Smai Tawi Uatcheta means 'Serpent' or 'Eye' and Smai Tawi means "Union of Two Lands (Lower and Upper Egypt')" together it means the "Science of Breath" or "Breath of Life" activates the Indwelling Serpent (Kundalini, Aset, Set) to the Eye (Pineal Gland, Asaru, the "Sleeping Soul"). Unify the Lower and Higher Selves producing THE ONE SELF (Heru, the Awaken Soul, Christ) " In fact, the ancient title of Afrakan Yoga is Ta Meri Smai Tawi (Taui) It is found on temple walls in the area known modernly as Egypt and within the ancient papyrus scrolls drawn by the people of the Nile Valley thousands of years ago. The Afrakan symbol of Smai is a depiction of the lungs and esophagus, the instruments in the body essential for receiving and processing the breath (Shu) for a healthy body and mind Smai means Union, in the picture above it denotes the union or co-operation of two principles Heru and Set symbolized as upper and lower selves, natures or minds (states). Also the symbol of Smai reflects the spine and the pelvis, two important aspects of generating what is called Sekhem (Umbilini, Kundalini) energy through the nervous system and the arit (chakra) systems (Arushaats) of the human body, a route of internal power favored by ancient and modern yogi practitioners the world over. Note: The word "Sekhem," which means "Power" is the same word used among the "Algonquian Chiefs" in North America called "Sachem" meaning also, "Power."

Smai Symbol





Afrakan Yoga is the expression of cosmic force Afrakan is the spirit and vehicles by which it came to exist. It was introduced to and preserved by mystics, artisans, and shamans of ancient Afraka. It has now been re-birthed in its modern form by urban yogic spiritual warriors, priest priestesses and is being carried around the globe by a new generation of healers and creative facilitators. What is clearly evident is the elemental accent in motion throughout the system Earth, Air, Water and Fire are brought to life within and throughout the body. The Afrakan concept of honoring the female encompassing grace, soft yet subtle energy, takes precedence in the art of Afrakan Yoga. The sound of the drum plays an important part in Afrakan society and is integral to rituals using movement and dance

Uatcheta Smai Tawi has 9 main disciplines:

1 Science of the Breath. Pranic Breath Techniques (6-3-6-3, 7-17-1, and Empty Retention) and etc...

2. This discipline is considered a powerful tool to relieve the stresses of modern-day life which in turn can help promote total physical and spiritual well-being.

3 Nutrition: I.C.G.R.O M. members are to adhere to livetary (dietary) laws that correspond to the obligations determined by the stage of spiritual development they have been initiated into. These diets are Omnivorous, Piscivorous (fish), Vegetarian (eggs, cheese), Vegan (vegetables, fruits), Fruitarian (fruits), Liquidarian (water, vegetable juices, fruit juices), Breathatarian (less food, more solar rejuvenation).

1. One must be willing to relinquish the grip of the EGO over one's behavior, deed and actions and rightfully desire the emergence (Union of the Lands of Hapi or Smai Tawi [Yoga, Religion]) of the lower self (4 Devils or 4 Lower chakras, carnal self, the body of desires [Note: However, the desire body can be utilized to create unification with the Higher Self see Tantric Kriya Yoga], is the reflection of the Higher Self, distorted by the murky ethers of the flesh .'Maya' or "Sea of Illusion" Matter / Mother or Mut-Her[u] / Ma'at Re, forms of Aset [Isis] Meri /Mary) with the Higher-Self (three upper chakras or the Holy Trinity, forms of Asar[u] [Osiris]) to form The One Self (Divine Union, God [Heru], Over Soul, Monad from Nomad). Hence, conquering one's lower self (attributes, such as, lust, greed, jealousy, envy and etc) that breeds hatred, slander, lewdness, murder, theft, and everything that harms to exhibit the Higher-Self's attributes (99 Attributes of Allah / Allat, Ur Ra / Ur Rait, Amen / Amenta, the Father / Mother of ALL Virtues), Justice, Mercy, Love and Right.

2. One must possess high moral standards and is able to withstand the temptations of the world. One must learn development of detachment from reactions and (wrong) desires.

3. One must be willing to work daily through, Proper Breathing, Mediation, Prayer (Song, Chant [Dhikr], Hekau, Hesi, Mantras, Mudras), Exercise (Dance) and Die-t to develop one's spiritual (mental / conscious) gifts (Siddhas, 1 Corinthians 12 Ch.). But at the same time realize that your gifts are NOT the end of the road of your spiritual development, they are simply its beginning. To develop spiritual skills, a person must be accepting of the phenomena and must continually look for spiritual influence in life in the form of coincidences, hunches, and other unusual phenomena. The Bible says that "as we sow, so shall we reap." In the East this is called the Law of Karma or the Law of Cause and Effect, one of the Seven Universal Laws of Tehuti (Djewhuti, Djewhuty, Djew, Jew), the others are the Law of Correspondence, the Law of Polarity, the Law of Rhythm, the Law of Vibration, the Law of Gender [Sex], and the Law of Mentalism. The purpose of karma is not to punish us for some past misdeed, as many may think, but rather to educate us so we'll make changes. The purpose of karma is to teach us something, to help us evolve spiritually. We are responsible for the consequences of our actions. So we can ask ourselves, *"What am I learning from this?"* In this way one will increase awareness of spiritual influence in life and notice more and more the activity of spiritual skills. This positive feedback will lead to improvement and enhancement of spiritual skills. Therefore it is necessary to err on the side of credulity rather than skepticism.

4. One must learn how to focus on one's earthly mission and spiritual purpose in life and one's intentions in every situation. The questions should be asked *"What is my soul's unique mission?"* and/or *"What do I have to give the world?"*

Birkeland current

A Birkeland current is a set of currents that flow along geomagnetic field lines connecting the Earth's Magnetosphere to the Earth's high latitude Ionosphere. In the Earth's magnetosphere, the currents are driven by the solar wind and interplanetary magnetic field and by bulk motions of plasma through the magnetosphere (convection indirectly driven by the interplanetary environment). The strength of the Birkeland currents changes with activity in the magnetosphere (e.g. during substorms).

Small scale variations in the upward current sheets (downward flowing electrons) accelerate magnetospheric electrons which, when they reach the upper atmosphere, create the Auroras Borealis and Australis. In the high latitude ionosphere (or auroral zones), the Birkeland currents close through the region of the auroral electrojet, which flows perpendicular to the local magnetic field in the ionosphere. The Birkeland currents occur in two pairs of field-aligned current sheets.

Black Magic

Abbreviation - BM

The manipulation of consciousness technology and the world of forces for Service to Self and Negative Ego purposes without regard to the consent or consequence of others. There are many different levels of the propagation of Black Magic. Black Magic is a form of Satanism. Until a person has knowledge of what Black Magic actually is and how it is perpetrated and represented in energy, that person is not protected from the effects of black magic. Knowledge protects, while ignorance harms.

Some ways to define Black Magic:

- Practicing Rituals based in Service to Self crafts and methods for personal gain and profit at the expense of others,
- Sending Curses, hexes and negative energy patterns to people with intent to harm, such as making them sick, ill or wishing them dead,
- Using deceptions, schemes and manipulation with intent to harm another,
- Practicing blood sacrifice or the killing of a living thing dedicated to ritual or cleansing,
- Practicing Black Arts for conjuring elementals and demons to work for the practitioner,
- Acquiring knowledge without tempering higher consciousness that results in Succubus activities or the stealing of others life force for use in selfish gain,
- The use of Alien implants, inserts or etheric weapons to assault and harass another,
- Black Magic used in sexual acts to conjure forces and bind the soul of the person through rape or forced sodomy
- Any sexual act involving lack of consent between parties and/or a child
- Any actions or behavior of which the Luciferian or Satanic force is called upon, conjured or embodied

Any of these above may qualify a person practicing Black Magic to be called a Black Magician. Black Magicians exist in the human realm and in every dimension. Many Christ lightworkers deal with Astral Plane Black Magicians, human and non-human, who consistently throw etheric weapons and curses and implants with intent to harm, from the astral or during the sleep state. This is why learning how to contact Krystal Star, focusing on prayer, Meditation and krystic spiritual housekeeping is critical at this time of Ascension.

Satanism

Satanism is based on the manipulation of energy and consciousness through Mind Control, deception and is many times ritual based SRA. These deeply sick rituals (such as Blood Sacrifice in war and killing) create an energy field, a Vibrational frequency, which connects the consciousness of the participants to the NAA group (i.e. reptilians) and other Consciousness energies in the lower fourth dimension. The Archons on the Saturn base transmit AI that contain Satanic belief systems to propagate these distortions on the earth. This dimensional field, also known as the lower astral to many people, which resonates to the frequency of low vibrational emotions like fear, guilt, shame, hatred and so on. When a SRA ritual focuses these emotions, as Satanism does, a powerful connection is made with the lower fourth dimension, the NAA, Fallen Angelics or reptilians. These are some of the 'demons' which these rituals have been designed to summon and feed since the NAA invasion occurred.

Negative Alien Technology

Grey Alien technology is not our friend, it is designed to irresponsibly warp and rip our time fields, through black hole technology, while promoting rapid uses of forced artificial technology, like EMP Pulsing, to our military, that hurts and destroys our planet, and instigates war with the humans of our own global race. They also promote use of "supposed" healing technologies ("inorganic and artificial replicant matrices") that are designed to remove pain physically, or have physical results in other uses, however, the "technology" is intended to enslave the soul or implant the human body. They also project mirages and "pretty Holographic Inserts" to keep an abductee calm while they gain control of the person's aura. In shorthand, this is externalized **black magic** and is ultimately harmful to the organic spiritual bodies and organic auric field. This creates interference with the person's ability to connect with their own spiritual source directly. It is this specific reason of spiritual interference, that there is a Founder Guardian intervention on planet earth. They were not born here on this planet, and there is a reason for that. [1]

Consumptive Modeling

Once a system is infiltrated with base desires as described in Archontic Deception Behavior or selfish ego, the system is not sustainable as it only collects energies from one group to steal from another group in order to achieve a temporary result, (Like a ponzi or pyramid scheme) or give a small percentage of people who manipulate the energies the energetic advantage over others. This is called Consumptive Modeling.

This is the abuse of consciousness technology and is known as Black Magic (i.e. many of the world leaders and their families that own the resources of the planet have been directly given this knowledge or parts of it by the NAA to maintain the dominate power, economy and influence over controlling others)

Superimposing Will On Others

Remember white magic and **black magic** are the same consciousness technology; the deciding factor is how it is used intentionally. If one manipulates spiritual energies in order to deceive others out of their consent, such as showing a certain image to manipulate and misrepresent for personal gain, or is in service primarily to oneself, or to superimpose one's will or belief on another – It is considered Black Magic and "Satanic" in nature. The Imposter Spirit uses these methods to control, manipulate, inhabit and possess human beings to be a vehicle that promotes dark consciousness and Negative Ego. See Three Layers of Ego.

In gaining knowledge from accessing higher universal truth, it is an important distinction to comprehend that accessing higher knowledge in itself is not evil or negative, it is the intention and use of that knowledge or technology that determines its energetic quality and its cause and effect, as either STS or STO.

NRG Grid (Black Magic Grid)

An in depth awareness of the power inherent within the alchemy of polarity of forces, as used in SRA ritualized practices, and as practiced and made popular by Aleistar Crowley (AC), is the energetic theme of comprehending with exacting clarity how these off planet forces have created the NRG Grids in the UK. The NRG Grids is designed specifically to split gender polarity and promote the abuse and trauma of both male and female sexual energies through the Archontic Deception Behavior of Satanic and Luciferian forces. AC was indeed used for this NAA agenda and was surreptitiously orchestrated to connect with Britain's monarchy to help maintain its "crown" in WW2 and those responsible to ensure that the power of Britain and their chosen power elite would be maintained as the controlling World Power. Stonehenge, the 11th Stargate and the United Kingdom landmass is a headquarters for the Negative Alien Agenda NAA, or "Reptilian Central", the Sons of Belial so keeping these interests protected would be a political priority. [2]

Possession

If the person desires to manifest Satanic forces into the material world and into their life, they would use Black Magic or SRA practices to house the demons and the forces that exist in the lowest realms, such as hell realms, underworld or phantom. When creating a black house structure, it is designed to house demonic, satanic and negative entities, usually as a trade exchange for receiving earthly power or material possessions. Demonics or Imposter Spirits will trade knowledge or power in some way in exchange for the person's Soul light or life force energy, or blood or sexual sacrifices, which results in astral bindings, attachment cords, that are connected to these lower spiritual entities that continue to parasitize the human's energy field. When a person becomes in consent with Satanic forces, they are agreeing to be in servitude and binding to the will of these lower primitive forces, which will continue to access energetic bindings of that person throughout the current identity and into the death process. Many people do not realize when they conjure demonics or satanic forces, they invite in Negative Aliens also, who will take advantage of that person through implants, siphoning, and a host of other issues concerning access to their human energy field or Lightbody. When a human is in consent with Satanic forces they lose their spiritual sovereignty, and become in servitude to these forces, in earthly life and death. Once these entities are invited into the human body, they do not want to leave. Over time, they take over the mind and body to increase pain, will trick the person's mind continually with delusions, may haunt and torment the person into black depression, addiction and misery, and they can be hard to get rid of and clear from the body. These types of Black Magic practices easily lead to partial or full possession of the human body from other world spirits, human or non human identities that leech inside the body or stay attached to that person's energy field. Many people on the earth today that are very negative, violent, feel miserable and play out negative emotional dramas repeatedly, are suffering from Soul Fragmentation and have an satanic force attachment(s) or Possession.

Black Sun Program

The Negative Alien agenda NAA is to force the planet to serve another multiple species Controller agenda, through imposing false replicated time fields using bio-warfare technology such as Holographic Inserts, AI and Mind Control, namely created under genetic reptilian-insectoid Archon extraterrestrials, at the expense and life force of the human race and the kingdoms under the human domain. Much of the NAA is veiled in the shadow levels of the ET and human military industrial complex, the primary takeover access in the naval forces and in the underground bases of the earth. It appears earth was invaded several times by hostile Negative Aliens with a major shift occurring 26,000 years ago during the Luciferian Rebellion, Atlantian Cataclysm and leading to the latest event during the Sumerian-Egypt Invasion. These agendas are still in effect today and impact all human and earthly life as a enforced enslavement on a Prison Planet, being harvested for a variety of resources to send back to off planet Controllers, such as collecting energetic quanta of human life force and earthly minerals.

One World Order

The current chaotic events that are being revealed in the globalscape drama are designed to perpetuate mass psychological operations against the earth inhabitants that ultimately serve the objectives of those negative Controlling forces, competing to succeed in their version of the One World Order agenda. The purposeful orchestration of controlling mass perception through the intentional spreading of a genetically modified biological weapon to unleash a global pandemic, is setting the stage for the trigger event to be manipulated in the timelines. [1]

Please note that although the New World Order and the One World Order are the same concept of instigating a dystopian nightmare for the earth inhabitants, the Guardians use New World Order to describe the Belial Suns version, and the One World Order to describe the Black Sun version. Essentially the end game is the same result with each group fighting to be at the top of the pyramid of control.

The Origins of Black Sun Agenda

The Black Sun DNA is a reversal base 10 genetic template that is sourced originally from Fallen Seraphim and the Orion Winged Draconian reptilians in the tenth dimensional layers as the result of the damage incurred in the Universal Time Matrix, which further generated several hybrid lines. The Black Sun genetic template does not allow for natural biological ascension or cellular transmutation of the consciousness body or organic movement into other timelines. This is the main reason they chose immortality through parasitism and control over humanity, which necessitated building the phantom worlds in the reversal base 10 template, and creating the blended reality system in order to exist in the three-dimensional consciousness on earth. The dark archangels are the fallen counterparts of the original Gold Order Seraphim, which became infiltrated by Orion Winged Dracs and the Azriel lineage of dark angelics. Throughout the lower dimensions, this contributed to proliferation of the Black Sun DNA in the Zeta groups and reptilian insectoid collectives, that over time digressed their DNA even further, unable to procreate in their race lines. Shortly after the Thothian Luciferians orchestrated the Essene Massacre and institution of hybrid breeding programs, the Black Suns infiltrated the material realm with the same goal to take over the earth stargates and gain control from the Belial group, which had just orchestrated their final takeover event after the Atlantian Cataclysm.

The Black Sun lineages have since been working towards their ultimate goal of centralized world domination through the management of many crusades and wars that were designed for the biological extermination of the Essene lineages of the original incarnated Taran human souls, to prevent their rise to power. They then placed themselves in the most powerful positions within the majority of the world governments, world banking institutions, federal reserve, global organizations for policy making and further inserted themselves into the majority of the ruling class Power Elite bloodlines that are still actively operating today. The Black Sun lines that infiltrated the earth over the last ten thousand years made agreements with the Zeta and Drakonians during the 1930's, which brought them much more power and reinforcement from off planet sources and began their dominance in colonizing other planets. This set up from NAA Black Sun sources allowed them to dominate the management of the largest and richest multinational corporations and pharmaceutical industries, which were effective storefronts to cover up many crimes against humanity. As well as setting up the shadow military industrial complex in which to develop an assortment of covert weaponry to subdue and manipulate humanity. The evidence for the assortment of weaponized electromagnetic technologies in usage today, such as the weaponization of smart phones, are beginning to be sensed directly and their results made much more visible for those that are awakening during the ascension cycle.[2]

Zeta Drakonian Agendas

The most aggressive and violent of the Zeta groups are those that come from the star system Rigel, and thus are called Rigelians or Zeta Drakonian Rigelians. They are extremely dangerous to humans as they endorse aggressive genocidal and eugenicist agendas to takeover the earth, and present themselves as Guardians in order to seduce earth humans to further their invasion and hybridization agendas. This particular group was involved in military testing projects known as the Montauk Project, in which they set up the participants to fail, whereby ripping open holes into the space time field in the earth body in which the Zeta gained more access levels into the earth grid. This allowed for easier access to continue human abduction experiments for genetic engineering and testing, in order to create and evolve an assortment of human clones and human hybrids that are engineered to carry out workloads or for fulfilling certain purposes. Infiltration of pregnant human mothers occurred through the abduction scenarios in which the unborn child would be injected with

Zeta-Drakonian genetics and monitored after birth and into adulthood. By infusing genetic material into the child, the child grows into an adult in which can be controlled through the manipulation of DNA Signals whereby hijacking the bio-neurological system. Guardian teams assist in these matters by cleansing out the genetic material of these patterns in order to free these individuals from the Zeta Hive Mind Control.

Reptile Insectoid Collective

The Black Suns joined with the Fallen Angelics to counteract and destroy the Christiac Human Guardian Race for control and domination of this Time Vector in this Universal Time Matrix. These are also called the Black Suns or Black Sun Agenda

Reptile Insectoid Collective:

- Dragon Moth from Orion B ack hole system
- Necromiton beetle hominid Men in Black from N biruian lines.
- Marduk Omicron from Alpha Centuari
- Centaur Hybrids from Omega Centauri
- Zeta from Rigel, Zeta Drakonian Agendas
- Zeta From Zeta Reticu i

Phantom or False Timelines

For these reasons the **Negative Grey Aliens (Zeta-Dracos and their Black Sun Program Hybrids)** and Annunaki Reptilians (Behal Sun Hybrids) have adopted the False Ascension Matrix 5D Timelines as their personal agenda to harvest, interbreed and control humanity to serve their personal agendas, now and in future. One such false agenda is to promote that it is the natural progression of humans to Live with Grey Aliens or other types of NAA species on the earth, as our masters and False Gods. The **Black Suns** when attempting to appear "friendly" promote their high IQ and the sharing of technology as if it is beneficial for humanity, when its application is highly destructive to the natural organic Consciousness evolution of the human race to reach its highest DNA potentials. Grey Alien Black Sun Program technology is not our friend, it is designed to irresponsibly warp and rip our time fields, through black hole technology, blank slate erasure of memories, while promoting rapid uses of forced artificial intelligence technology, such as SPE tech, like EMP Pulsing, to our military, that hurts and destroys our planet, and instigates war with the humans of our own global race. They also promote use of "supposed" healing technologies ("inorganic and artificial replicant matrices") that are designed to remove pain physically, or have physical results in other uses, however, the "technology" is intended to enslave the Soul or place a variety of Alien Implants the human body. They also project holographic mirages and "pretty inserts" to keep an abductee or SRA mind control target calm while they gain control of the person's aura. In shorthand, this is externalized Black Magic and is ultimately harmful to the organic spiritual bodies and organic auric field of human and planetary Consciousness. This creates interference with the person's ability to connect with their own spiritual source directly or have control over their thoughts, feelings or bio-neurological functions. It is this specific reason of spiritual interference, that there is a Founder Guardian and Krystal Star intervention on planet earth. They were not born here on this planet, this is not their domain, and there is a reason for that [3]

Because the planet is ready to drop and collapse timelines from the previous 3D cycle where the planet is playing out the result of the Luciferian Rebellion from Atlantean time cycle, there is a struggle to dominate upcoming events that would influence these future timelines to be solely in Negative Alien or the NAA control. These groups have infighting, and the two primary groups have infected their headquartered control mechanism in two major stargates and power vortexes on the planet. Black Sun Program have headquartered themselves in the 10th Stargate or Iran Gate of the Golden Eagle Grid and lodged their technologies in Iraq/Iran to gain dominance over the power spots in Giza, Egypt. Most of them are

Reptile Insectoid Collectives that are sourcing from out of the Phantom Matrix spaces in the parallel systems, and formed alliances with the Fallen Angelic Annunaki Groups to take control over the earth, which are referred to as the NAA. This is why they chose that area of the planet to dominate, it was easier to invade from the genetic key level. The Sons of Belial, the Nibiruian-Annunaki reptilians of the New World Order crews that engineered the 911 Timeline Agendas, have headquartered themselves in the 11th Stargate area in the United Kingdom, this is also known as Stonehenge.

DNA

The Black Suns are also referred to as "Black Suns" from their DNA genetic lineage. The Black Suns have reversed their DNA from eons of inciting warring aggression in the Universal timelines to a reverse 10 DNA strand (reverse 10D) and running a reversal life current which they use the Iran Gate to feed off. This is why they perpetuate the reversal 10D current on planet through the area they have control in the middle east, Iran and Iraq. They are only capable to exist in 3 dimensional consciousness while in their body, yet they have access to 10 dimensions of consciousness field. They are primarily form the Satanic class network family although they work and cooperate with the Luciferian families to control the planet and share the spoils of "war". They cannot cellularly transmute their body in out of Stargates easily and use humans to do that. They access limited levels of biological immortality through the vampirism and siphoning of other living things, such as the planet earth. [4]

Orion Group

The Orion Group is a Satanic force that has a predatorial ideology that uses females as slaves or breeders, while seeking territorial dominion on other planets within their warring and killing culture. Their position in the NAA and its consortium of Negative Aliens is called the Black Sun Program. They are a predator force with a predator mind which is mainly responsible for creating much of the Negative Ego in humanity through Mind Control programming and they have introduced financial and Debt Enslavement to planet earth through the banking cartels, which require Blood Sacrifice.

Galactic Wars

The main battles in human Galactic history were fought in the constellation of Orion, and so these many wars are referred to as the Orion Wars. In our Universal Time Matrix the wars started over territories in the constellation of Lyra (The Cradle of Lyra). But soon the Lyran Wars spread to the constellation of Orion, and it became a war between False King of Tyranny mind-sets and ideologies with ideology of the Service to Others which follow the Law of One. Essentially, this is the seed of the war over consciousnesses between the Christ and the Anti-Christ.

Blood Sacrifice

It also is clear that all matters of Blood Sacrifice, whether human, animal or of any living thing, are made to the conjuring of elemental forces that directly connect into this collective Satanic force of the Baphomet field in the underworld realms. Satanists, witches, Santeria, voodoo, violent religion or other related rituals involving drugs or killing, one is allowing their body to be possessed by lower spirits and are being controlled, addicted or feeding into the spreading of this Satanic force field. It is like an viral infection.

The act of feeding this force through ritual offering and Blood Sacrifice is purposed to produce Satanic humans running the earth and to keep enslaved the female Christos-Sophia from reclaiming her body parts and creations in the earth. This is enslavement of the Mother principle.

Satanism effectively is the worship of earthly forces through patriarchal domination and their False Father earthly conjured gods for selfish material gain. The world of forces can be ritualized through offerings, Blood Sacrifice SRA and its intentions made manifest through superimposing forces or binding others energies without their consent or free will in physical matter.[1]

Soul Emancipation from Binding

All Blood Sacrifice is SRA and requires much soul retrieval and soul healing work on a planetary scale during the Ascension Cycle. These suffering souls, having being killed over the wars over God, or made as a blood sacrifice, were the energetic power source harnessed to retain the crucifixion insert and its violent religious belief system architecture. One of the main systems of planetary control is the religious fundamental Christian programming. It was these programs that were manipulated to condition the planetary field and the collective human mind into believing these as Truths and revelations from God. These were the mind control manipulations to worship a False God, and the energetic results were vampiric to the group human divine soul.[2]

Religious Violence

May we consider the source, origin and basis of Religious Violence and how this has impacted our culture, society and belief systems that transcend any and all Religion. Inner violence towards the self and others, promotes external methods of violence, there is no possibility of knowing God through intentional and premeditated violence, and the Blood Sacrifice of a human being. There is no such thing as a Holy War or Just War. For the last two thousand years the agenda has been to spread violent religions across the earth with the primary use of Christianity and Islam worshippers who are numbered in the billions. [3]

Crucifixion and Blood Ritual

The purpose of the artificial cross architecture (See Crucifixion Implants)is to enslave humanity through the crucifixion and blood sacrifice of their inner spiritual being or Christ self. Religion was created by the NAA to keep these cross implants and their religious belief systems of Mind Control in place to continually commit offerings or Blood Sacrifice so that, humanity would live in fear of the retribution from his False Father Alien God. This Archontic controller mechanism Archontic Deception Behavior was to keep humanity subservient to the continual feeding of their False Gods Vampires by invoking a variety of religious rituals for offering, binding or blood sacrifice. One of the most prolific ways to feed the bloodthirsty vampires is mass killing in wars, or making blood Sacrifices especially in the name of God or Religious Violence. Blood Sacrifice in all cases is Satanic Ritual Killing SRA which feeds Satanism as well as Satanic forces to spread on the earth. The NAA entities are in the majority a Satanic force, so this way of life of Blood Sacrifice is aligned to their vampiric killing mentality [4]

Disassociated from Killing

To understand the polarity of the world of forces on earth and identify how Satanic force methods are used every day to destroy the feeling heart and soul of human beings, the first priority is to disassociate human beings from feeling remorse by killing which creates psychopaths. The first Archontic Deception Behavior is **Disassociation and Narcissism**. Humanity is disconnected from life through repeated traumas and abuse which create split personalities that develop defense mechanisms and perversions to cope. The rampant defense mechanism caused from soul-heart damage is ego Narcissism. Dissociative behaviors cultivate sociopaths and psychopaths, many of which replicate feelings of expression because they can no longer feel from spiritual disconnection and Soul Fragmentation. **This weakness allows for easy satanic binding and manipulation.** This is especially progressed in the practice of violent religions, whereby killing is done in the name of God. Psychopaths have little to no care about life, causing pain and killing is done with methodical delight or heartless efficiency [5]

Obviously, violence and killing are introduced into society in a variety of ways through the Archontic Deception Strategy as acceptable or necessary behavior, whether it is considered appropriate for enforcing liberty or territory in wars, enforced programs of genocide, or killing life forms (animals, plants, natural kingdom) without any regard for life, remorse or consequence toward action.

Spiritual Terrorism

If our marketed and sold version of God performs human and Blood Sacrifice, cannibalism of Christ, misogyny, and yet humans are supposed to have a spiritual goal to be as virtuous as Jesus Christ, this is one clever way to promote spiritual terrorism. This is the persecution of the true spiritual nature and the intentional consciousness crucifixion of any human being that is aligned with real Christ virtues. This is the strategic and deliberate spiritual oppression of humans that want to live in accordance to Christos attributes.

To worship the tortured body of Christ as a bloodied sacrifice on a Cross made by Gods will, promotes fear, terror and the continual rhetoric of violence throughout the subconscious and conscious minds of all people on the earth.

This violent agenda and belief in Blood Sacrifice and "holy wars" spreads into other World Religions and Cultural belief systems like Islam. The result of promoting human violence as an acceptable means of "survival of the fittest" for any human culture is designed for the same anti-human agenda for spiritual oppression and enslavement. Spiritual oppression is to spread and promote separation, fear and violence throughout the cultural landscape of all human beings, thus descending our planet into a barbaric race with low morality, no reverence or ethics for life, nor accountable to the future direction and evolution of the species.

Child Sacrifice

There is a clear relationship between satanic ritual (Black Magic Money) and child sacrifice and pedophilia. **The possessing parasitic entity in its human host uses the pure essence of a child's life force and soul energy to feed, siphon, usurp or bind into servitude.** Practicing satanists are educated how to create dissociative identity (DID) and mental body fragmentation in their own children and child relatives in order to bind the soul body to an extradimensional satanic entity. Through the binding of servitude, the parents, the bloodline lineages are allowed to remain in power of the financial and economic resources on the earth. This occurs either by killing a child in ritual sacrifice, or binding the child to a possessing Satanic entity. This binds the child in servitude to that entity throughout its life into adulthood. This is the diseased seed of the Negative Alien Agenda.[6][7]

Golden Eagle Grid

So, in the last 26,000 years, since the Luciferian Rebellion the Golden Eagle Grid became controlled and was primarily used as a mind control broadcast station, literally, that would send out false information or manipulated information. It was sending out information that was about the program that the Annunaki would wish us to continue into which is one of darkness, enslavement and separation. The Golden Eagle Grid literally became like a Mind Control weapon because that is what they were using it for. It had been reclaimed back a few years ago in terms of the Guardian races. But there's still clean-up work to do with the grids themselves because the grids were actually conditioned by the Annunaki. A way to say this is that this grid was being energized by the blood of human beings through blood covenants and Blood Sacrifice. One of the major grid points of the Golden Eagle Grid is actually in Iran Gate/Iraq, the Middle East, as well as portions of Egypt. Fallen Angelics became distorted Negative Forms of the original perfection of the Seraphs, a part of which Quetzalcoatl became one of those so called Creator Gods that was inappropriately being distorted into Blood Sacrifice or human or animal sacrifice to support the Quetzalcoatl grid of the Golden Eagle.[8]

Animal Sacrifice

Animal sacrifice is the ritual killing and offering of an animal to appease or maintain favour with a divine agency. Such forms of sacrifice are practised within many religions around the world and have appeared historically in almost all cultures, including those of the Sumerians, Hebrews, Greeks, Romans, Germanics, Celts, Aztecs, and Mayans.[9]

From the Guardian perspective, ritual animal sacrifice or slaughter (that is not explicitly intended or designed for food-nourishment) is the same method of binding life force of the animal for vampiric use in SRA methods. This takes into consideration that not all humans on the earth have the option or choice to be vegetarian, and thus the importance of having appreciation and blessing the foods that are consumed.

Breeding Programs

Extreme forms of Lust is stemming from Mind Control miasma that was programmed into levels of the human genetic material from many hidden histories of forced Breeding Programs with reptilian based races or Refugee Races. This is related to both distortions of Blood Lust and Sexual Lust. These forced breeding programs initially were attempting to create attraction to have sexual relations with a species that was not desirable to your own race in addition to creating hybridization races. In the ancient days, on other planets, in many cases people were not sexually nor physically attracted to a being that was not of their specific race or genetic material. This was not necessarily discrimination, it was the natural energetic composition that existed (or differed) between the gene pool, which is a form of collective Consciousness. The consciousness of specific genetic material was not designed to hybridize with other species and would naturally repel itself from the desire to do so. This is similar to understanding that a human being would not want to have sex with animal species and procreate with that animal. So the answer was to combine genetics in a laboratory setting in order to continue the experimentation of interbreeding with different species for a range of enhancements designed for specific purposes.

It is similar to say that the Royal Lines of Humans from the times of Lyra did not have any attraction or desire to have sex or children with invading reptilian races. Timelines of this related trauma around breeding programs, forced sexual relations and the problems with hybridization, are all entangled in the Sexual Misery programming. This posed a severe problem on earth with Moon Chain lineages, the creatures that digressed into the energetic fields of lusting entities in the earth, and the demonic hierarchies that feed upon them. These multiple hierarchies are used by the NAA off planet to enforce, promote and spread the NRG sexual distortions. This manifests in forms of deviant, disconnected, violent sexual relations connected to lust, which leads to sexual addiction. Any person who is controlled by lust will be a hand puppet for the NAA.[1]

Lemurian Holocaust

The Dracs sought out revenge and went to the Lemurian continent to finish out the genocidal massacres in Kauai later 22,000 years ago, to kill off all the Lemurian Race Matriarchal influence and Essenes, Christos Templars influence on the earth. They took some of the women for their forced Breeding Programs. This was the final genocide of the Lemurians, that was aided by the Annunaki negotiations and agreements, and the last stage of the Lemurian Holocaust. [2]

Eieyani or Essene Massacre

During the Eieyani Massacare the female high council members and females that had higher DNA codes were taken to Nibiru by Thoth and Annunaki for forced breeding. This was the time Thoth broke the emerald covenant agreement with the Guardians and stole one of the cd plates, he translated the cd plate and wrote the well known (distorted) emerald tablet.

These female were blackmailed in to believing that if they willingly go with them their partners would be saved.When they arrived in Nibiru they realized that they were tricked and their male partners were already killed. When they learnt of this they rebelled and some killed themselves and others were captured and forced to have children with Annunaki so they could harness the Eiyani or Essene DNA.

These females were chained and were continually forced in to having children till they died, this made the females hate themselves as well as hate their own children and wanting to kill them. This was a huge trauma to divine feminine and many females on Earth hold some part of this trauma Hating themselves, feeling not good enough or hating their own children were some of the problems and the rest manifest in the forms of issues around the female reproductive systems.[3]

Lemurian Massacre

According to Morenae, the first thing this Draconian-altered Orion Group did was slaughter almost all of the females of the captured race in order to control the birth process. They then genetically altered the remaining females, so that all the children born after that were genetically altered. The males were enslaved, made to work in mines and slaughtered by the Draconian-controlled Orion group, who had absolutely no regard for life. What we know now as the Greys became a natural resource.[4]

Breeder Implants

Identified NRG and Alien Implants. Archon genetic engineered entities or Suppressor Parasites (SPE's), Variation of small black shapes (some with attached wiring), Chest/heart harness, Dodecahedron mind control harness, Fleur de lis artifacts, Distorted DNA seed artifacts, Distorted Arc Codes, Vesica Pisces implant, Solar Cross, Breeder Implants [5]

Fleur de Lys Implants

In Calgary Canada there are particular circulatory systems that were feeding these main grid systems all the way back in the horizontal grid lines that go back into the UK. These implants that may take various forms but the breeder implants primarily were made in fleur de lys geometry and these implants were placed in the wombs of women. These implanted women are being used as breeders on other planes, alien abducted or tracked for certain energies for their reproductive DNA and sexual energies. These reproductive energies are actually stolen from them and that is filtered in through Calgary to Quebec and going all the way back into the UK. This understanding is that the UK is the hub central of NRG where these sexual energies are harvested and where these energies are re-circuited for use by these NAA groups.[6]

Hybrids and Refugee Rehabilitation

So understanding that breeding programs is a extremely long history with planet Earth and with the human race. This goes back for many millennia; but understanding that today many of these breeding programs are about creating hybrid races. Again there many extraterrestrial races that are interested in it for a variety of reasons because planet Earth and humanity here, the 3-D Earth, has the most incredible genetic library that one could actually do genetic testing on

Unfortunately the issue with that is that it's done in secret and in many levels, the person that they are genetically testing is not in a conscious consent with actually participating with that. However breeding programs tend to be with reptilian-based races or what we call the Refugee Races that came to this planet that suffered a lot of genetic digression.

So the Breeding Programs that happen on our planet and that which you may have either genetic record, or some sort of soul history with, when I feel into your situation I do feel more connected with the Atlantian cycle when there was a certain 'royal' class of genetic experts which were designing different programs for actually rehabilitation of Aggression. So there were, I would say, positive forms of attempting to heal where the soul split had created emotional levels of deviance, or as we've talked about many times before, there are many races that do not have a Soul body, they do not have emotional faculties. Those beings, that level of existence, you cannot heal or evolve or align to the Godhead without an emotional body.

So there are also some valid reasons for assisting certain races like the Refugee Races to be able to, in a certain incarnation or timeline, to be able to inhabit their consciousness within a body and experience the range of emotion of a human being.[7]

CDT Plates

July 08, 2017 RodrigoA

(Cloister Dora-Teura Plates)

A series of **12 Pre-Atlantian Holographic Disk Records** from 246,000 BC. They are small pale silver physical disk that contains massive tomes of practical physical and spiritual evolutionary advancement (**Sacred Spiritual Science**) teachings that are translated by 3 Speakers.

The three **CDT-Plates Speakers** are always contemporaries and work closely and

cooperatively together, collectively presenting on Earth the translations to which they are commissioned over a 12 year period of time.

The **CDT-Plates** are holographic recordings, storage and transmition devices that holds massive amounts of data in encrypted, electromagnetic scalar-standing-wave form. They were manufactured from a form of striated selenite quartz crystal organic to the **Density-2** planet **Sirius B**, surrounding a radioactive isotopic core, encased in a "hybrid-metal" silver-alloy compound organic to Earth.

They contain the full evolutionary history of life evolution in our **Time Matrix** since the last life-wave was seeded 950 billion years ago up to the present and also "future records" of the many various paths of evolutionary development of human and inter-dimensional, inter-galactic, inter-time races, which emerge from free-will choices rendered in our present space-time continuum.

Translation of data from the **CDT-Plates** is accomplished through initiation of specific frequency transmitions, through which the discs activate to release their stored data in the chosen form of holographic, audio, visual or digital translation.

Among the numerous subjects included in the **CDT-Plates** are:

1 The Melchizedek Cloister **Law of One** Spiritual studies.
2 Keylontic Morphogenetic (matter template) Science
3 15 Dimensional Unified Field Physics
4 Primary Creation Mechanics.
5 Advanced Merkaba-Kundalini-DNA Bio Regenesis Ascension Mechanics.
6 Kathara Core Template Healing (Kathara Healing)
7 Planetary Templar Star Gate Mechanics.

11 Planetary Templar Complex system.

They also serve a dual purpose in relation to obtaining manual access to the **12 Primary Start Gates** of **The Universal Templar Complex**. The CDT Plates are part of a larger apparatus the includes 12 corresponding, larger silver discs called the **Signet Shields**. One CDT-Plate translator and speaker was the man historically known as **John the Baptist** (31 BC-34 BC). Other CDT-Plate Speaker and leader of the Essene **'Chrystian Movement'** was **Jeshua Melchizedek** (Known as **'Jesus'** in the Bible)

Other translations of ancient times were dispensed through Speakers born into Hindu, Chinese, Tibetan, African, Egyptian, Mayan, Incan and Celtic-Druidic Grail Lines

The **CDT-Plate** disks have been in protective custody within the Azurite-EOMC Eleyani Priest of Ur family lines since a cataclysmic event that took place on Earth in 208,216 BC. – Before that date they were in the protective custody of the Urtite human lineage

The **Maharata** is the ancient **Sacred Text** translation of the **Founders Races CDT-Plates** from 246,000 BC, which originally contained 590 volumes, and over 500,000 pages, of non-dogmatic, egalitarian, **Sacred Spiritual Science Teachings** covering every aspect of mastering personal and cosmic reality.

Before intentional editing and distortion at the hand of **Fallen Angelics** and corrupt human power elite, the teachings of every traditional religious belief system on Earth, from **Christianity** to **Buddhism** and Indigenous **Tribal Oral Tradition**, originally emerged from re-translations of the **Maharata Texts** and **CDTPlates**.

Central Nervous System

The Central Nervous System and the Spinal Cord (vertical center channels) act as the control panel to every operation of function in the bio-computer. Every physical, mental, emotional and spiritual function is initiated at some level and managed by the neurological system. Therefore it is mandatory to energetically correct and upgrade the nervous system and Spinal Cord to be able to function at higher levels and to be able to receive the communication from our soul (spiritual layers of our nervous system).

Guardian Perspective on CNS

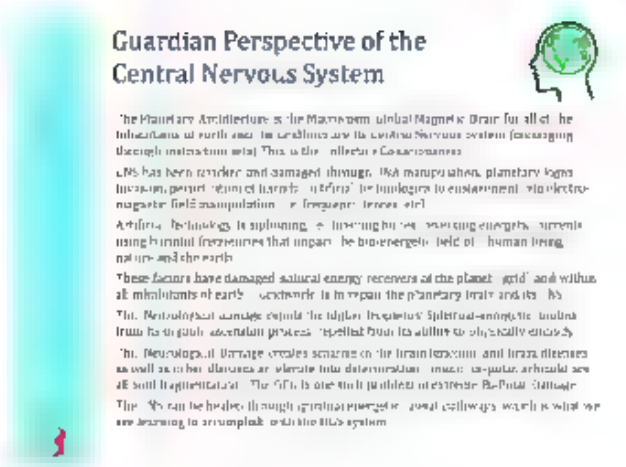
- The Planetary Architecture is the Macrocosm Global Magnetic Brain for all of the inhabitants of earth and the Gridlines are its Central Nervous System (messaging through instruction sets) This is the Collective Consciousness,
- CNS has been hijacked and damaged through DNA manipulation, Planetary Logos invasion, perpetration of harmful artificial technologies to enslavement, via electro-magnetic field manipulation (i.e. frequency fences, Holographic Inserts, Alien Implants, etc),
- Artificial Technology and Alien Machinery is siphoning, re-directing forces, reversing energetic currents, using harmful frequencies that impact the bio-energetic field of a human being, nature and the earth,
- These factors have damaged natural energy receivers of the planet (grid) and within all inhabitants of earth. "Gridwork" is to help repair the planetary brain and its CNS,
- This Neurological damage repels the higher frequency Spiritual-energetic bodies from its organic Ascension process, repelled from its ability to physically embody,
- This Neurological Damage creates schisms in the brain function, and brain diseases as well as other Miasma diseases which accelerate into deterioration (manic, bi-polar schizoid are all soul fragmentation) The GEG is one such problem of extreme Bi-Polar Damage in the Global Brain



Guardian Perspective on CNS

- The CNS can be healed through spiritual energetic causal pathways, which is what we are learning to accomplish with the HGS system[1]

Empaths vs Non Empaths

When we look at the larger Galactic picture of consciousness enslavement, we see the NAA's many pronged agenda to target the Brain, CNS and thought forms of every person on earth. Through the agenda of Transhumanism, we see the promotion of hybridization and synthetic integration with artificial neural networks for control over the CNS and Brain. What is starting to surface with more clarity is that our human Neurobiology is wired for empathy, which connects us to higher consciousness and has a spiritual function. The NAA and their minions of soulless AI infected synthetic beings do not have the bio-circuitry for empathy. We are in essence, in a struggle between human EMPATHS, and alien hybridized humans and extra-dimensional aliens that are NON-EMPATHS. [2]

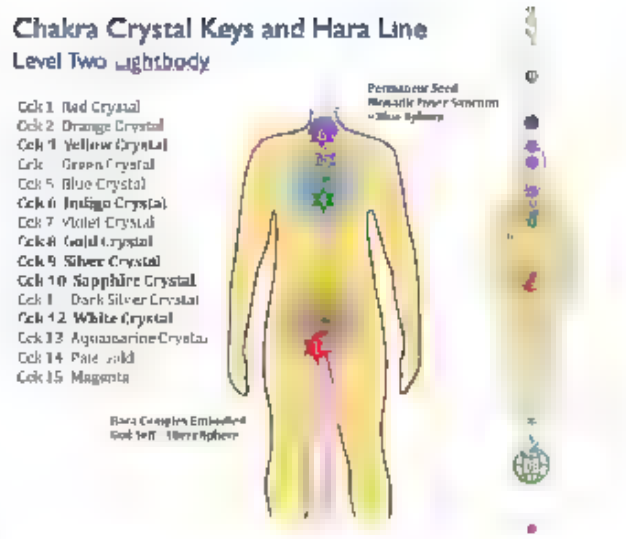
Chakra Crystal Keys

The Chakra Crystal Keys (CCK) are the control Function for the actual Chakra Crystal Seed located on the vertical channel in the actual Chakra cone on the second Lightbody layer of the body s 12 Tree Grid holographic template.



Chakra Crystal Keys

The rotational spin of the Chakra Crystal Keys on the Hara Line are what control and modulate dimensional frequencies and intelligence through the Axiatonal Lines, then ultimately the Chakras and other bodily energy systems The crystal seals grid is what governs the particle spin and levels of frequency accretion that is transduced and transmitted into the chakra itself. The rotation of the Chakra Crystal Key (or Crystal Seal) keeps identities in other dimensions in their respective time and space, and the auric layers of the body in separate dimensions. As mental bodies merge, the CCK activate The bio-energetic mechanics of the crystal star seals greatly impact to evolve the capacity of our ability to embody higher expressions of dimensional consciousness. The HGS CCKM Module is for issues related to activating the primary Hara Chakra Crystal Keys, opening Axiatonal Lines, modulating Chakra frequency load, integrating multi-dimensional identities for DNA activation, and merkaba activation, for spiritual Ascension.

Checkerboard Mutation

The Checkerboard Mutation is generated from multiple alien machinery systems that reverse the energy current throughout the planetary grid networks to split them into bi-wave frequencies. The bi-wave consciousness allows for extreme polarity amplification in the Collective Consciousness energies, and the splitting between the polarities to generate extreme densification. This is also what produces Gender Reversals in the human Lightbody and Gender Splitting. These reversals are intended to maintain the Reversal Networks on the earth plane that keep human DNA Unplugged and the NAA in control of the Timelines on the earth grids

Corrections are being made to the Checkerboard Matrix at this time, during Guardian Host gridwork projects, which means we are in the process of reclaiming higher Monadic identities, and regaining our potential to reclaim and plugin dormant DNA and genetic time codes contained in the instruction of our true cellular alphabet. The focus during the recent series of the Pahadorian Activations has been focused upon masculine rod healing in the 2D layers, through the reclamation of the authentic manifestation template for the Christ-Michael families.[1]

Extreme Densification of Matter

As the planetary body activates into higher harmonic stations, the NAA attempt to counter and block access to these higher frequencies through artificial technologies and holographic inserts, directing assorted electromagnetic assaults to the earth. We have several types of artificial intelligence sonar technologies being directed towards these power spots to instigate the circulation of the lowest spectrum of frequencies, and to steadily increase densification and polarization in the field. The NAA use dimensional blending experiments and alien technology in order to control the physical 3D matrix of human perception. This is intended to maintain the extreme densification of the 3D matter plane that is required for keeping the Checkerboard Mutation and its reversal networks operating throughout the planetary grid network. Reversal Networks are assorted Alien Machinery that use Artificial Intelligence programming to simulate, replicate and imitate the organic forces of creation for the express purpose of collecting, siphoning and redirecting the Consciousness energy of humanity into bi-wave reversals. These anti-life reversals were programmed into advanced AI technology, which allow the NAA to easily siphon and steal the consciousness energy of earth and humanity. The caveat is that humanity must be

diverted from ascension and continue to self-identify as a warring and divided species. One that focuses their attention on the NAA created Predator Mind belief system, such as the crucified Christ storyline that continues to feed the collective consciousness into reversals that support Blood Sacrifice and the Death Culture.

Luciferian Rebellion

Since the Luciferian Rebellion when the planetary merkaba fields were set to run reversals, in each future generation it forced a digression in the human body to descend even deeper into the densest areas of the underworld layers. The area in the human body used to radically increase density are based in the sexual misery issues promoted to fragment the 2D-4D layers. As the Core Manifestation Template of the human body descended further into the lowest dimensional fields, the physical body became 66.66 percent denser than the original natural blueprint. The result of the massive increase in densification in the human Blueprint, damaged the genetic integrity of the life forms on the earth and this is called the Checkerboard Mutation. Assorted implants and Death Seals were placed in the planet and humanity, in order to maintain the densification of the matter forms, to more easily pull them into the phantom areas. The extremely low frequency broadcast is used to rapidly increase or maintain densification through promoting primitive and destructive behaviors. This is a Divide and Conquer warfare strategy to automatically connect the human Bio-Neurology into the global Mind Control broadcast, which enforces the NAA enslavement narrative feeding into the Checkerboard Mutation.

Stonehenge Gateway

The Stonehenge gateway in the United Kingdom is the mandatory chess piece for the Checkerboard Mutation to remain operational throughout all of the global NAA controlled grids. Currently, a grid war over the epicenter of global control is underway through events occurring in the United Kingdom. The Family of Michael are at the center of this conflict, as they are coveted as pets for the Luciferian elite. This conflict highlights aggressive targeting towards the Christ-Michael masculine principle, through the consciousness war to gain total control over the changing horizontal Rod architecture on the earth.

Enforcement of Crucifixion Implants

The Checkerboard Mutation is required to enforce the planetary crucifixion implants, which are essentially death seals that feed Blood Sacrifice networks like the Moloch battery tanks. These Crucifixion Implants block the 7th dimensional axiatonal lines and all of the 7D energy systems, connected to the female spirit principle on the left side of our body, which has impaired the human embodiment of the Mother-Sophia principle. When the Checkerboard Mutations are lifted or dissolved into higher frequency matter, which causes a depolarization effect, many of the Death Seals also dissolve or release.

12 Nucleotide Base Pairs

The 12 Vector Codes of the human genome manifests as 12 nucleotides that form the Nucleotide Base Pairs which are the entire DNA Strands are composed. Due to the NDC also called the Checkerboard Mutation, an unnatural sonic control program installed in the planetary field, only four of the Vector Codes have been active in biological Earth life since the Luciferian Rebellion.

The NET photosonic pulses block and reverse the polarity in some of the Earth's axiatonal and Ley line grids, creating a checkerboard of alternate active and dormant frequencies and named the Checkerboard Matrix. This has created a huge checkerboard mutation in all life on Earth, which is referred to as junk DNA.

Technological Abuse of Crystal Caverns

Many of the crystal networks exploded underground which generated destructive cataclysms on the earth surface that are known in many ancient texts as the flood. It is these shattered remnants that were used in the planetary grid as a part of constructing the Checkerboard Matrix to run the reversal NET, which is the artificial programming of the NAA that broadcasts reversal current and Mind Control throughout the Earth crust. The NAA invasion resulted in the capture of the planet's crystal technology, while commandeering the crystalline grid networks in order to use them as a psychological weapon and Frequency Fence against the earth humans. These Crystals are keys into the planetary data program that have the memory storage function containing our true history and origins, which has been held hostage by the NAA since the explosion and the subsequent collapse of the natural magnetic field.[2]

Without functioning genetic time codes, the consciousness body is locked in its space time location, or essentially trapped in time. With the recent months Crystal Core activation, these genetic time codes are now being released in organic sequences.[3]

Aurora Re-encryption

Recently events underground have highlighted another stage of the Aurora Re-encryption blueprint projects. This is about re-encrypting physical matter on atomic and Subatomic levels because the elementals that make up the human physical body are distorted in the cellular matrix as a result of the alien invasion timelines, genetic manipulation histories and the Checkerboard Matrix. Essentially, these are a range of genetic modifications and Frequency Fences made by the NAA for producing consciousness slavery of the human race. [4]

Producing Sociopaths and Psychopaths

Finally, when the person reaches their breaking point and cannot take the painful trauma anymore, they disassociate and lose the ability to access emotional feelings through a broken and blackened heart. Some of these people reincarnate again and again, in this wounded and splintered Soul state, reliving the same traumas repeatedly. Maybe they use forms of escapism through drug use, Addictions or other ways to numb out and withdraw. Maybe they decide to be victimizers, to continue the abuse cycle to inflict the incredible pain that they have suffered at the hand of others. One thing is certain, people are being used as pawns in the checkerboard SRA game of the NAA, and many are unaware of the spiritual reality in which we are living. The lack of empathy and compassion we have for ourselves, as well as for the many serious abuses that are committed against others, is what produces narcissists, Sociopaths and psychopaths. When the human heart is broken and the Soul is disconnected, it generates extreme distortions of sick and diseased behavior. These are the main goals behind the Worldwide SRA Agenda.[5]

Pole Star Changing

Transcript- But I do know that the pole stars are changing position in the Cosmic Clock and something with the axial precession is changing in relationship to the Northstar or the polar stars. What I understood about some of the artificial timelines that needed to be destroyed, that the negative aliens had used AI technology to put in place down here as a part of something they call the checkerboard mutation, the Checkerboard Matrix down here, which was a part of controlling Timelines. The Freemasons use that checkerboard symbolism also and it's hidden meaning is a part of the control of the direction of forces of time. And that this level of controlling time, in terms of the Clock Shield Template, the instruction for that is the mechanical structure that actually defines what we experience biologically as a state of time. Meaning we don t

Collective Consciousness Processing

Many Starseeds and Indigos are experiencing collective consciousness processing or planetary miasma clearing more than usual, because most of the collective consciousness on earth has been stuck on the lower dimensional timelines. These areas must shift in order to meet the planetary alignment at the end of 2017. As many of us are aware, these areas that make up the 3D lower dimensional wave spectrum direct the primary frequencies of Mind Control and Alien Implants, into the collective unconsciousness fields. This intersects with the future timelines, potentially corrupting them. These alien distortions are being plucked out of the field, and this extraction can abruptly change the timelines probable future direction. We still have many human beings that are reliant on false alien architecture that create false ego identities. This mind control architecture has compromised their lower energy centers, making it hard for these groups to raise their internal vibration.

Those groups of people that have been implanted with ET Agendas, that have been working to corrupt these future timelines, are undergoing review by Emerald Guardians. Certain rehabilitation and hosting agreements for these Refugee Races, who still refuse to cooperate to undergo shifting in 2017, are currently being terminated. Entities that have been hitchhiking on the backs of Starseed and Indigo people, are systematically getting called upon for review of actions and consequences. This results in the removal of hosting agreements with a variety of off planet races, which manifests into abrupt terminations of working collaborations that were made between human and nonhuman groups. This apparently is required to help raise the overall frequency of the collective consciousness grids, and to help the groups of Star people that have a high internal frequency, but have been saddled with energetic burdens of hosting regressive rehabilitation in the lower earth fields. The way the Starseed and Indigo groups help to rehabilitate corrupt coding on the earth grid, is shifting. It appears many of these off planet ET groups will undergo transiting, to force them to abandon the time continuum they had been promoting here, moving them out of this system entirely. These timelines are fallen and dissolving, which is necessary due to the damage they manifest to the overall consciousness system. This is upsetting to these off planet groups, because when their timeline is lost, their genetic code is lost. However, eventually since these groups have been involved in biological hacking, that timeline has nowhere to evolve and they are assimilated with AI in the future. They lose their bodies, in the way that they have been formed from hybridizing with the DNA of cloned humans, which is what they used to create their temporary forms in order to hold up their timeline of existence. Without a form body, to move around in the space-time, they become totally dependent on the mercy of the Guardian Host to find them new bodies to inhabit.

As we are being shifted into a different time space continuum, as we move into that relative balance of a higher expression of frequency, of light and plasma, we have the meeting point of the polarities existing within that field of energy. Some of the polarities we must meet are in the forms of alien architecture or ET groups. When that new frequency light meets in that dimensional band where that timeline is located, we must clear the obstacles or dark energies, including entities that have existed there. Some of these entities are attached to us, feel they own or can claim us, for whatever reasons. Thus, a tremendous amount of effort to heal the collective consciousness distortions in the 3D timelines that are corrupted by alien architecture, has been heightened over these past months. As the collective consciousness timelines are moving into the fifth dimensional Soul timelines, it has required many gridworkers to help clean up the five and ten base coding used to power up the Satanic architecture and Dark Mother on the planet. This coding is used to reverse electrons, such as Metatronic code, Reversal 55 Grid coding, and writing reversal code in the black magic grids. Metatronic coding uses five and ten based math that is used to manipulate Black Magic grids, which is where these dark entities and extraterrestrials have gathered much of their energetic power. These black substance fields are used by human and nonhuman black

magicians to conjure subtle energetic forces and direct dark forces like curses, hexes, entities and negativity towards people. When this kind of negativity is being directed to a human, it is because they want to steal something of value from our consciousness body, usually it is a body part, life force or sampling of our DNA.

As we move into the higher dimensional fields on the planet, we all know the standard plan of psychic attack from the negative hierarchical forces and Imposter Spirit forces. There's a lot of smash and grab, thuggery and mafia like behavior happening with these hierarchies on the grid, at this time, on their way out. They are losing control over key people that they had on their payroll. Thus, their ability to control is waning in the overall planetary consciousness architecture, so they focus on hijacking weak and traumatized individuals to carry out destructive events, like Blood Sacrifice killings. As we are undergoing that shift into that next platform, it requires witnessing and clearing a certain level of fifth dimensional code distortion that was existing in Reversal Networks. The reversal networks act as the dark link made between the 3D timelines carrying over corruption into the next Harmonic Universe timelines.

Cosmic Cube Matrix

Tesseract of Harmonic Ascension

The All Seeing Eye of God projects its Divine Mind blueprint as an imprinted Geometric Tesseract called the Cosmic Cube Matrix. It is the schematic being projected into the brains and bodies of the Blue Ray's at this time, those with the "mark of the lamb" on their foreheads as created by the opening of the seal.

This imprint of a Geometric Tesseract is being referred to as the Cosmic Cube Matrix of God's archetypal matrix of the 144,000. The Cosmic Cube holds the schematic and blueprint to God's Laws by building the architecture of the City Four Square or Krystal Cathedral. This represents the Four planes of matter in the Four quadrants of our Universe. This is also representing the four elemental bases of our raw material making up the planes of matter (Air, Fire, Water, Earth). These four elementals make up the main chemical constituents of our DNA code and are being re-encrypted by the Aurora's through the "Crystal River". The City Four Square or Krystal Cathedral contains the blueprint of the Solar Christ identity of the 144,000 archetypes of the sons and daughters of God. This new life foundation, which is the new grid for building base matter in the blueprint as designed by the 144,000, is necessary in order to focus the Divine Wholeness of God consciousness in the given dispensation of the Ascension. The City Four Square or Krystal Cathedral is where the Crystal River Flows and is represented as the "Golden City" archetype that returns God s Natural Laws back to this creation Its projection is to be held as embodied by the divine messengers, such as described in prophecy as those with the seal of the lamb on their foreheads, containing the schematic of the Cosmic Cube 144 Matrix.[1]

Ultimately the tetrahedron structure forms the base of the Geometric Tesseract which is the Cosmic Cube Matrix of God's 144,000, which is the architecture held by the Oraphim for City Four Square or Krystal Cathedral. The Founder Guardian Oraphim are the Keepers and protectors of the City Four Square schematic in its geometric Tesseract design transmitted by the Cosmic Cube Matrix These are the Omniversal Time Code Keepers that we are capable to interact and communicate within this dimension of the earth timelines during the Trans-time continuum opening.

Eternal Eye of God

Transcript - For years the Guardian Host have been showing me optical lenses which refract the light source into the holographic projector of the consciousness blueprint fields. It was shown how intermediary lenses, also referred to as eyes, are used in Mind Control systems to manipulate the patterns of refracted light in the 3D reality in order to create distorted holograms. The Negative Aliens technology created many of these artificial intelligence "eyes" that operate as the optical lenses of the False Father gods, such as Yahweh These alien networks run bi-wave and reversal current into the planetary body and planetary mind in order to siphon energy into their artificial systems. In 2010 the Krystal Star family with the 144,000 seal in their 3rd Eye began to witness the schematic of the Divine Mind of God blueprint imprinted upon the center of our brain. The actual living and eternal Divine Plan of God through the Holy Father's Laws is being projected as a geometric schematic which contains the instruction sets of the divine will blueprint as perceived through its "All Seeing

Eye" Unfortunately, the All Seeing Eye symbol has been hijacked in the past through the many uses of its symbolism in black magic rituals carried out for satanic or luciferian purposes. Which can be observed as the symbolism used in black magic to gain control over the economic and financial system, as well as the entire global money supply

The Eternal Eye of God instruction set has been placed in the field through our physical, embodied person, and our mission is to ensure that we hold this 144 cell schematic for the energetic balance of the planet. When the schematic is being released for transmission into the field, it is similar that the body is acting as a transformer for the frequency current, stepping down and stepping up the variation of frequencies as they are being run throughout one's internal circuitry The Divine Will from the Mind of God Blueprint has been placed in the 33rd parallel north latitude coordinate for access all over the globe. The 33rd parallel north is a circle of latitude that is 33 degrees north of the Earth's equatorial plane. It crosses Africa, Asia, the Pacific Ocean, North America and the Atlantic Ocean.

This begins another stage of the process which planetary guardian gridworkers are able to access the geometries required to create diamond sun networks of trinitized forms, that support the building of Triad Communication Stations throughout the globe. This is required to change the bi-wave energy system to the tri-wave energy system, which in effect is moving from a closed energy system into an open source network.

The installation of Triad Communication Stations and Krystal Star networks are designed to replace Reversal Networks that have been collecting Loosh from the earth inhabitants, and to work with the Krystal Star organic technology to open spiritual links to communicate directly with Krystal Star and Aurora Guardians throughout the many timelines. This began as a focused Planetary Grid Network repair project to install Krystal Star hosting and communication networks in December 2012, during the change of planetary hosting. [2]

Cosmic Spiritual Sun

The Cosmic Spiritual Sun Is the Spiritual Sun behind the Sun.

The Sun hides an etheric planet (orb) which is an entrance leading to the Cosmic Spiritual Sun, which holds within itself the first principle of the emanation of the Father's Eternal Light, The Solar King in his Seven Sacred Suns. The Holy Father principle within the Cosmic Spiritual Sun is what gives light to all things in the Universe. The awakening Holy Father is heralding the reappearance of the Cosmic Christos principle in our Solar System.

Seven Sacred Suns

They were beyond our reach in previous timelines because of a "ring–pass–not" around our Solar System from the earth coordinate, Now is the time they return to activity with the earth plane and humanity The release of the Solar Cross (the ring pass not) is tantamount to the related initiation of the planetary logos and the positive future evolution of collective humanity.

The main Solar Body (our visible Sun) is undergoing an evolution in that its magnetic pole is reversing which is further altering its Solar Ray transmissions to Earth and to other planets. This change also alters the function of the constellation Ursa Major in which its seven main stars are sequentially merging forces with their counterpart, the Seven Sister stars in the Pleiades. The resulting alchemical merge of these constellations of stars is manifesting a new expression of creation in the higher cosmic planes. This is referred to as the Seven Sacred Suns in the One. The collective spiritual suns are also called Aurora Sun.

This allows for the Seven Sacred Suns to unite as one connected solar body to transmit the **Cosmic Spiritual Sun** plasma waves, which is the source field of building the Christos Diamond Sun body in its Seven tones, KA RA YA SA TA AA LA. This is also known as the Krystal Aegis. The Seven Suns are the Base Shield for building the Eukachristic Body or Double Diamond Sun Body of the Oraphim, the vehicle for Christos-Sophia expressions

This is vastly significant as it marks the astrological resolution of levels of the miasmatic blueprint of many karmic imprinted histories in stellar and cellular memory record, This is similar to saying that there is a clearing of the akashic record related to some karmic events in time that were committed with humanities cooperation. This is a cosmic convergence between the spiritual source, the stellar bodies and the matter worlds at new levels Some of what may be called "cosmic evil" and "cosmic rage" stemming from multiple planetary histories is coming into final dissolution within the past timelines.[1]

Galactic Suns

The earth core, at the first dimensional level, has been merged with the core of parallel earths in future timelines, thus, weaving together with the Galactic Suns. The opening of inner gates into the parallel allows for new integrations of Cosmic to Galactic Plasmic Sun Source, that is becoming more accessible in the earth crust, and this is called the Aqualine Sun.

Plasma infusions have been made into the earth core, which include the process of weaving Solar light from the Galactic Suns down into the Earth core sun frequencies, allowing the fusion between these multiple solar bodies to occur. This has activated the Mother Earth's Inner Sun frequencies, which appear now as deep ultraviolet and bluish waves of oscillating plasma light. The blue flame merge is from the 5D core in parallel earth, and the violet flame is from 7D core in parallel earth, and together they unite the Ultra Violet Blue Light with their Galactic Sun counterparts. The Galactic Sun frequency has been transmitting from above and is now anchoring into the earth core, gradually merging together and braiding completely with the Earth Sun. The Plasma light that is being generated is from the merge that occurred with the Galactic Suns, which is transmitting from above, while the Earth Sun is transmitting from deep below. This complete connected circuit of the Galactic plasmic light transmissions that is coming from the earth plane is called the Aqualine Sun frequencies.

Thus, the Mother Earth has woven her Sun's frequencies, from deep inside the earth core while moving up and through the Galactic layers, uniting with the Galactic Suns. Indigos, Starseeds and the Oraphim are the first waves of conduit for transmitting the ascending Aqualine Sun frequencies into the earth. We are the natural conduit for growing these frequencies on the earth surface, as we help to anchor these plasma infusions on the surface grid, this also serves to repair damaged networks or descending hubs.[2]

At the top of our RA shield, we can now merge with the Galactic Suns and beyond plasma frequencies, KA RA YA SA TA AA LA and bring them down to circulate anywhere into our physical being. As we begin to integrate and unite with the Galactic Suns, we may bring the consciousness memories and instruction set of our eternal Diamond Sun body back into our Crystal Heart, which ignites our true nature to return us back into the consciousness of Oneness. As more of our Diamond Sun Body frequencies are aligned with the physical body, more and more of our consciousness memories will be restored.

Non Polarized Base Shield

The Seven Suns frequencies make up the new base shield template that replace the 3D Grounding Mechanism, that existed in the lower three chakras and in the earth chakra interface. Ultimately this is resetting the lightbody grounding to a Base 360 degrees or Non Polarized Base Shield. The Base 360 Grounding Shield means the center core of the lightbody is stationed in no-time, has Transharmonic ability to enter any timeline from within the center of the 360 degrees. The new non-polarized base shield begins to build the completed Eukachristic Body for the Avatar Christos-Sophia consciousness, which is considered the Stairway to Heaven, the access into the Ascension Earth. Further, this subsequently develops into the Krystallah eternal lightbody, the vehicle for the Omniversal Personal Christ on earth and beyond, in its unified male-female hierogamic expression.[3]

Covenant of Paliador

Alternate Spelling: Paliadorian

Future timelines reveal the fragments of various kinds of bodies, energetic bodies and spiritual bodies that were exploded and became intermixed with the elemental matter substance in the earth body. Timelines from the 5D earth matter, connected to the Souls of the Taran body that exploded, became a type of radioactive decay intermixed into the soup of matter that came into this physical dimension, from the explosion event and the magnetic manipulation of the time and space fields. The World Soul of Tara, became a part of the atomic body of this physical planet, stuck and strewn between the first and the fourth dimensions. We are in a phase of time where the matter composition is changing into something less dense, and while it's in less dense states we are able to move out these artifacts, assorted bodies and consciousness remnants. As a result, some of us may have been helping in the recon and transit of the Souls of Tara. This is the Reclamation of Christos Mission on the earth that goes back to the Covenant of Paliador when higher guardian races devised a plan to recover the lost souls after the planet Tara exploded. Amenti Mission

Lyran Sirian contact expressed that those responsible to guard and protect humanities genetic records and hidden histories were primarily ambassadors of the Sirian administration councils. The Sirian Lodge is a Hall which oversaw the 6D networks which acted as the portal for Star and Indigo Races to incarnate on the earth plane through the Amenti halls. This Lyran-Sirian administrative body created the Azurite council for the sole purpose of a collective team to support the human embodiment of the Jesus Christ or Yeshua Mission to repair these networks and secure the Amenti field. The Azurites were assigned primary responsibility for the carrying out of the Covenant of Paliador which is to recover the lost souls of Tara. The origination of the Azurites goes back to the races that were formed by the RA Confederacy.

12 Tribes

The original 12 Tribes were created as a part of the plan that became the Covenant of Paliador to rescue the lost Souls of Tara, which would be made easier to recover during the Ascension Cycle when the halls of Amenti were opened.

Luciferian Covenant

The Luciferian Covenant was formed as a result of the earlier war of the Luciferian Rebellion, which was designed to divide and conquer the human tribes through intruder alliances of the NAA. This was to ensure the inner stargates, the Sphere of Amenti, and the Arc Portal Passages would be effectively damaged in order to ensure the failure of the recovery mission known as the Covenant of Paliador

Keepers of the Crystal Core

The consciousness units of the next Universe, the Rays of the next Universe, and the light beings that live there are in alignment with the Paliadorian Covenant, the Krystal Star and Unity Intelligence, they are called Aurora families. Krystal Star works with the Aurora families to build Aurora Platforms that are safe zones that step over the reversal fields running on the earth from the Frequency Fence and NET. The Aurora Platforms allow access into the passageway that leads to the area of the Ascension Earth in Andromeda, this is the Aquaelle matrix that transmits the Mother's Aqua Ray Daughter Codes into the earth Crystal Caverns.

Therefore the Aquaelle genetic lines that have remained on the earth are the natural Keepers of the Crystal Core [2]

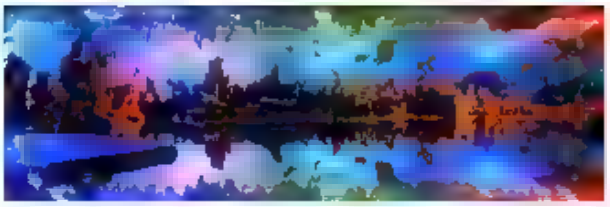
Crystal Caverns

In planetary history,the planetary Crystal Caverns were used as internal power crystal generators and for data memory storage for the planetary brain. Ultimately, these clusters are remnants of what's left of crystals that were misused in the Atlantian time cycle (see Luciferian Rebellion). They were exploded underground and created a large cataclysm on the surface, and they are still used today as a part of the Reversal NET, programmed off planet to run "NET" frequencies and Alien Machinery programming throughout the Earth crust.



Cave of Crystals

Selenite Rods (Gypsum) are specifically used and programmed like large computer chips, they hold a tremendous amount of information about the planet and data about the contents of the planetary brain. They are still used specifically to TRANSMIT programmed data to the planet brain and the human race mind collective Soul Matrix. This transmitted data obviously impacts the people and all life on the surface. So when looking at pictures of these gigantic crystals you are looking at the "storage data" of pre-programmed information that sends impulses of electromagnetic information to the planetary field This functions like the Unconscious Mind of the planetary body. The Sirian A's are famous for crystal programming, and some abused Mind Control this way, these went on to be the Annunaki. There is also much data about alien/ ET civilizations and their hidden histories and relationship to the Earth in these crystals

These crystals are keys into the planetary "data" program, (the memory storage function) and have been held hostage since they were exploded thousands of years ago.[1]

Aquaelle is directly related to the daughter of Christ bloodlines that incarnated on earth from Andromeda, and that this also an embodiment coding potential for bringing forth the Diamond Sun Body, it influences the potential of both male and female unification, Sacred Union.The progeny of Aquaelle was brought through the human tribes that became known as the male and female twins known as White Buffalo Calf Woman and White Navajo that are direct descendants.

Planetary Crystal Networks

Transcript - When we're working with crystals in the Earth, we're ultimately working with its highest emanation, the bio-plasma instruction-sets that are coming from the Guardian Founder Groups. I feel that clearly this is something that may come into more of our consciousness in ES, we start to understand we're on the landmass that is connecting into the Crystal Heart, or the Black Heart, these Anubian Black Hearts that are in the surface grids. Many of us are involved in finding out how we can help to repair and power those grids up into running corrected current that helps to build and run natural current into the crystalline hearts. There is a relationship with the Quartz Crystal in the planet itself, in terms of the transmission in the crystal caverns. In our community context, we have a little bit of information about the Chakra Crystal Key Mapping Module which is to be used in it's advanced layers for supporting Planetary Krystic Architecture Alignment and helping to support the Chakra Crystal Keys and the crystal caverns in the Earth body. That is exactly what the CCKMM is for in it's advanced levels. Additionally, in understanding the crystal caverns in our planet we have one PEG Project we did, during week 4, when we went into Central Mexico down in the crystal caverns. That was one of the first stages of this particular work to support the Crystal Core. I'm understanding that as the Founder Frequencies, the bio-plasmic founder frequencies are coming into the Earth Core and shifting the collective subconscious levels in the 1D atomic layers. The subconscious layers of the Fallen Angelic Mind and these miasmic fields are starting to surface into the 3rd Dimensional plane. This seems to free up the crystal kingdom at certain levels of dimension because again the crystal kingdom is operating at a lower octave system. Before it was very hard to connect into the crystal caverns and do mapping sessions in the earth Crystal Core because we had so much miasmic overlays in terms of shadow creatures. In this section of the earth body, there are remnants of monstrosity bodies that were buried down in the collective subconscious. This massive amount of black miasmatic debris and shadow bodies generated obstructions that made it very difficult to get clear links and energetic connections to do Crystal Mapping into the Earth Core.[3][4]

Planetary Amygdala

Transcript- As the Founder's Aurora plasma rays are starting to have increased presence into these areas of our planet, it is purifying from the Earth Core and moving up, and these dark energies of the subconscious of the Fallen Angelic Fields are starting to surface up at the same time the crystalline network is coming online and being activated. More specifically, the quartz shelves in the planet itself act as the amygdala function in the brain for the entire planet. As Gridworkers we may work with the crystal caverns. What we're helping with is to reinstate proper functioning of the Planetary Brain, as well as help balance the functioning for the Planetary Amygdala. And in us, as we are the microcosm of the macro, being the nerve cells of the Planet Earth, we understand what the amygdala function is within our limbic system. It is responsible for stimulation of our emotional functions and our instinctual functions. When we have more clarity on how we actually experience emotional states, and when observe emotional fracturing and we see that direct relationship to soul-fracturing, then it makes perfect sense that if we're working with the planetary brain, we're supporting the quartz crystal shelf level, and the Crystal Caverns act as the amygdala transmitter, meaning it serves that part of the brain function for the collective body. Activating the crystal caverns help to reset the Planetary Brain with more support to reach potentially a more healthy, and energetically balanced functioning. If we understand that quartz in the planet itself is

acting as the amygdala function in support of the entire planetary brain, there are certain minerals also located in the geologic shelf areas. I am sensing the role of dolamite, that is related to the magnesium which works to help produce and properly distribute neurotransmitters in the Synapses of the brain. So truly understanding that this is not just mere minerals, that the quartz crystalline that is in the planet itself, is representative of the higher bioplasmic light, which is part of the substance of our entire cosmos, a part of the substance of the stars, part of the substance of our Consciousness.

So, as we work with the crystalline structure at whatever level feels organic and a connected part of us, that we're working with that, the bio-plasmic light is being condensed in the matter form. And from this vantage point in the density, we're looking at it and we're seeing a crystalline structure. That these crystalline structures can be used for multitudes of levels that transform the elements into this shift into the Ascension, our bodies becoming less dense in order to activate into a crystalline form, a crystalline being. There are so many different levels this is being created now int he planetary body. We have more understanding on the ground about dealing with the anti-life reversals in the black hearts and extracting out these black heart systems, so that the Diamond Heart and the crystal hearts can start to actually pump tri-wave current and Zero Point energy in the Planet. This is also a new piece coming to the surface consciousness about the function of quartz crystal caverns and the many crystal caverns that are on this planet, many of which are not really publicly known about. We have a lot of crystal caverns on our planet, and they're not in the public awareness or common knowledge and understanding of the masses. If crystal caverns are connected to understanding the consciousness of our planet's brain functions at certain levels impacting the collective consciousness of earthlings, then obviously there is the agenda to keep us distracted from knowing about them.[5][6]

Planetary Neurotransmitters

Transcript - When we have a better comprehension of how the brain functions and how emotional states are stimulated, we know this is connected to the neurotransmitters we have available to our body and brain. There is an complex chemistry in our brain, making up neurotransmitters that fire into the synapses of our brain, specifically GABA, dopamine, serotonin, and melatonin. The crystalline caverns are not only connected to influence a direct part of the entire brain function of the Planet Earth, but there are also mixtures of minerals, mineral deposits in the earth that form the overall chemistry involved with human brain chemistry. I'm sensing a clear dolomite relationship to magnesium compounds that are related to the production of dopamine in the human brain. Dopamine levels are very important in terms of mood functions, meaning keeping one's mood stable, our motivation, our drive in life. Without dopamine a person can be very depressed, it can leave a person to feel very apathetic and lethargic. When we look at the state on Planet Earth, we see how human beings brain functions have been interfered with. For many people, there is little of the natural state of healthy neurotransmitters actually firing in their brain, and the hormonal function balance is also deeply interconnected with the available neurotransmitters in the overall brain processing. Clearly all of that has been manipulated to keep suppression upon the way that human beings think, feel and behave. This is another example of the means of global Mind Control. This feels to be a key piece in reclaiming the brain of the planet. What is being emphasized really strongly is the amygdala functions of the limbic system connected to the crystal caverns in the earth body, and understanding that the quartz shelves and the quartz crystal caverns of our planet represent parts of the brain of the planet that function in this same way. And that the various other gems and minerals found on our planet have specific functions that influence the health of our brain chemistry. Specifically, like the dolomite deposits that are with the quartz, are representative of supporting neurotransmitters that actually have that same property. Similar to understand the anatomy of our own brain in that we require a balance of serotonin, dopamine, and noradrenaline functions in order to create a balanced mood, a balanced emotional state and when we don't have that available, this is when a person will manifest mental and emotional problems. As an example, without proper serotonin levels one will start to get obsessions and compulsions. Without dopamine a person starts to have attention deficit, ADHD, that person has a hard time focusing on anything anymore, so it becomes obvious why the NAA would include this in their mind control strategy of earth inhabitants.[7][8]

Healing Planetary Brain

If we can't keep our focused attention on something, because we have attention deficit, and we're prone to obsessions and compulsions, and our memory is being wiped so that keeps the mind in anxiety and uncontrolled impulses, such as feeling irritable all the time, or we don't have the proper adrenal and adrenaline function happening, then we don't have concentration, and we are unable to direct energy. Also that person will not have the energy they need to be open, alert and aware, to actually raise consciousness. Thus, the Crystal Caverns in our planet are extremely important, in supporting the planet, in understanding bio-plasma that's being crystalized into matter, and that the higher substance of the cosmos, Plasma, is here on the planet through crystals. As we expand Consciousness during the Ascension Cycle, we are moving into more of the properties of crystalline forms. Additionally the importance of this relationship is that this has direct connection to the planetary brain functioning which impacts all of the individual human brains. If the quartz crystals have relationship to the amygdala functions, that obviously means that this is very important to the limbic system functions in the human brain. As the planetary brain functions better, this gives more and more human beings a chance to have healthy brain chemistry activity which relies on the right balance of neurotransmitters, the right balance of these neurological impulses, because we also remember that the nervous system of our planet is the grid network.

So, when we see Gridworkers and we're working on the Grid, we're actually working on the neurological system and brain of the Planet. Ultimately, this impacts us at the micro level because we are nerve cells and extension of that same neural network.[9][10]

Naica Cavern

There are huge geologic shelves that stretch from Naica in Chihuahua, Mexico, throughout Central Mexico, ending at Guatemala, that hold absolutely gigantic crystals such as Selenite, Fluorite and other conductive quartz crystals. The Crystal Cavern located in Naica is a Parallel Gate that is a wormhole into the Parallel Universe. Further south only about 550 miles is the Inner Gate at Aguascalientes that leads back underground into Giza Sphinx. Apparently, there are massive shelves of crystals underground there also.

Crystal Core Activation

Currently, there is immense activity occurring underground as the result of the earth's Crystal Core activation. This has ignited new arterial pathways running liquid crystal frequencies throughout the earth's crystalline grid, establishing new circuitry and lightbody code in the horizontal, vertical and diagonal intergalactic communication lines. This is very encouraging and seems to be a part of the Morphogenesis happening now, where changes in the quanty of energy in a system allow profound changes in the expression of that energy into a variety forms and structures.

The core crystal structure of a planetary body is the most critical part of the foundation of matter. It instructs how the consciousness energies are brought into manifest bodies, and instructs the blueprint in the types of life forms that exist on that planet. The Crystal Core of a planet affects everything from the magnetic field, temperature and geochemical composition, to its geometric shape, orientation in space and gravitational field. These combined factors have enormous implications on how atomic and subatomic particles organize themselves into the blueprints, which become physical matter on the planet and impact the perception we have of reality. The Crystal Core is both matter and anti-matter, whereby non-physical energy moves through it to become solidified and manifested into something tangible in the physical reality. The Crystal Core acts as the transducer of non-physical energy running in the planet, through which its magnetism condenses it into new elements in matter.

From the Guardian Perspective, this activation is a sequence level in the fulfillment of the Paliadorian Covenant initiating Morphogenesis, which has shifted the internal Crystal Core structure, which is changing matter as we have known it. Thus, we have entered a cycle in which the mechanical properties of matter are shifting into new mesomorphic states, through a cascade of transitions involving new phases, as solids become less dense, more fluid and even liquefied.

From deep within the Crystal Core of the planetary body, new instruction sets are being transmitted from the planetary staff into the earth's crystalline grid, which is in a process of releasing a tremendous amount of crystalline current and non-polarized current throughout the planetary grid network. This has activated Sun Discs and Sun-Star crystals that also interconnect with the underground crystal caverns that hold information about the hidden timeline histories of Earth, Tara and Gaia. Essentially, we are in a phase of receiving more positive energy and benevolent technology that is designed to support human ascension and planetary liberation. The crystalline imprints are supporting the recoding of the Kundalini forces that were missing an assortment of proper sub-harmonic frequencies, as well as igniting a vast network of previously dormant crystal caverns and star crystals. The crystal caverns are being reconnected through the Sun Disc Network in multiple timelines of the Earth, Taran and Gaian bodies in which they exist.

Once the kundalini current runs in corrected patterns to build the sub-harmonic strings in each of the 3-6-9 dimensions, the new horizontal network corrects fragmented mental body patterns which are then rebuilt into higher mind or mentor matrices. This is to say a previously fragmented mental body, can now hold a container for the higher consciousness aspect of the mentor body to integrate, in ways not previously possible. This is a planetary initiation that ignites an individual's spiritual body into a catalytic process which activates the liquid crystal cells, both in the Mitochondrial cristae, and within the diamond crystal heart which contains the Permanent Seed Atom.

Plasma infusions have been made into the earth s Crystal Core, which include the process of weaving an array of Aqualine Light and sentient solar vapors from the Galactic Suns. This allows an interactive fusion between multiple Paliadorian Sun-Star bodies that have recently birthed into our Solar System network. This has increased the pearlescent color waves of the Eye of God that are becoming interlaced into the crystalline lattice of earth, stacks of interwoven chains that are

connecting into the golden Sun Disc network. The Blue Rainbow Galactic Suns from the Aqualasha matrix in the heart of Andromeda, are one of the Galactic Sun-Star bodies that have shown up for grid projects and are supporting crystal transmissions for planetary ascension.

This allows for the Seven Sacred Suns to unite to transmit the entire spectrum of Cosmic Sun-Star liquid crystal plasma waves into the crystalline grid, which is the source field for building and initiating the silicate matrix of the Christos Diamond Sun body, through the re-encryption of elements into the main seven interdimensional tone resonances. The recent change in the Crystal Core has impacted the exchange between matter and anti-matter, which has increased the speed of the inner and outer axis of rotation spin of the planetary body. This can greatly impact our perception of time and may lend to the sensation that we can bounce in and out of time, sense moments when time feels faster or slower, and then have sensations that we are experiencing a void space in no-time.

The Seven Suns frequencies make up the new base shield template that replace the 3D Grounding Mechanism, that existed in the lower three chakras and in the earth chakra interface. Ultimately this is resetting the lightbody grounding to a base 360 degrees or non-polarized base shield. The base 360 grounding shield means the center core of the lightbody is stationed in no-time, has Transharmonic ability to enter any timeline from within the center of the 360 degrees. The new non-polarized base shield begins to build the completed Eukachristic Body for the Avatar Christos-Sophia consciousness, which is considered the stairway to heaven, the access into the Ascension Earth. Further, this subsequently develops into the Krystallah eternal lightbody, the vehicle for the Omniversal Personal Christ on earth and beyond, in its unified male-female hierogamic expression.[1]

Crystal Properties

A Crystal is a crystalline solid in which atoms, molecules and ions are microscopically arranged into a crystal lattice that extends in all directions. Most of the common elements found in crystals originate in the earth crust and can be found in the periodic table according to their number of protons. However, it should be registered that the current Periodic Table presented in mainstream science is incomplete. During this cycle, new substances and elements are being birthed into matter which impact Crystal Properties. The elements that make up each crystal give it unique properties, such as its color, frequency potential and the intelligent design of its function on the earth. Most of the earth's rocks are classified as Silicate Minerals that are based upon the chemical structure of the silica tetrahedron. Pairs of tetrahedra occur in many silicate minerals, forming the basic crystal structure of the planet, as well as the Silicate Matrix crystal structure in the human body, which determines the Gender Fin orientation for the merkaba spiral.

Paying attention to the wide-ranging use of silicate crystals throughout emerging advanced technologies, actually reveals similar parallels in how the crystalline consciousness in the human body works. We start to realize how valuable the human body really is in generating abundant supplies of energy potential and the ability to power up systems of energy. Silicon is most often used as a semiconductor, which is an essential component of most electronic circuits. A silicon chip can hold thousands of tiny transistors used to amplify or switch electronic signals and electrical power. Thus, anything that is computerized or relies on electromagnetic waves depends on semiconductors and transistors that are made from silicate crystals.

Crystals are neutrally charged unless they have been programmed directly, and thus the electromagnetic charge must be balanced in the crystal. This means that the amount of negative charge must be compensated by the same amount of positive charge to create energetic balance in the crystal. If the human body is a biological crystal, this tells us our body will logically return to energetic balance if we follow the laws of nature. However, crystals can become inactivated or made inert through a range of traumatic exposures, such as transmitting harmful artificial intelligence signals or electromagnetic weapons which can produce dead energy.

Crystals hold the blueprint of the living consciousness records contained in the evolutionary histories of the earth and beyond, recording the consciousness experiences of all life that have been imprinted through the complex patterns of frequencies and mathematical coding they can hold. Crystals can amplify and accelerate light frequencies that are similar to an energy based mathematical software program, they can be used for communication, transmission, teleportation, energy production, weather control and to store immense databases of frequency coded information.

Many of us may still hold cellular memories from the historical timeline records, in root race cycles spanning from Tara, or in the previous civilizations of Lemuria and Atlantis. We knew that crystals generated crystalline fields of energy that produced grid networks that controlled the holographic field of all creation. After the fall of Atlantis, the knowledge of the crystalline fields and holographic geography was carried over into the Egyptian culture, and many other ancient cultures that attempted to salvage interdimensional gateways of energy on the earth in an attempt to stabilize the planetary crystalline field. Our ancestors knew of the importance of crystals as sacred vibrational tools that supported our spiritual connection into the higher consciousness realms, and the significance that all living things are interconnected with the crystalline grid networks that exist in the planetary body.

Thus, many crystals have uniquely special properties which impact many spectrums of energy, frequency and vibration that are made through the crystal's propagation of the direction of light and sound, as well as their electrical conductivity and piezoelectric properties. Crystals are just as unique in their individual energetic signature, as the many unique

configurations and facets that are reflected in the individualized soul experience of a human being.

The earth body and the human body, as well as the entire DNA record is made in crystalline properties. The Silicate Matrix DNA template is the original human crystalline blueprint that is activated in the human body when contact or connection is made with love coded hydroplasmic light, which is essentially liquid crystals. The human energy field consists of an array of oscillating energy centers that are nested within a multi-dimensional blueprint of interacting crystal structures that organize into an assortment of crystalline functions. All of the interactive layers of the physical matrices, such as the organ and glandular systems, down to our skeletal structure are known to have piezoelectric properties and crystalline functioning. Our bone structure is the primary solid crystal in our physical body that acts as the main frequency transducer throughout our bodily matrices. Thus, the key to restoring energetic balance and health is to understand that we must sustain an abundant amount of life force to circulate through our physical structures, through the awareness we are a crystalline being that conducts energy through crystalline functioning. Everything that we are exposed to has an energetic signature and frequency that impacts our energetic balance. This means all humans have the same properties as crystals, the ability to amplify, absorb, store and transmit a range of vibrational energies that have an overall effect that is either healthy or unhealthy for the entire body. Diamond Sun

The Oraphim is a part of the Diamond Sun DNA Christos lineages, the original humans created from the Guardian Founder Races lines. The Diamond Sun refers to the original design of the angelic human 12 Strand DNA silicate matrix. This was the potential DNA and higher consciousness experienced by angelic human beings in previous time cycles on the 5D parallel earth, previous to its cataclysm. The Double Diamond Sun refers to the Original Founder Oraphim Christos design of a fully embodied 12 strand DNA and further access to 24 other dimensions of Consciousness while in a human body. When the Oraphim DNA potential is activated, it allows for physical body immortality and the ability for the consciousness bodies full transmutation out of dimensional time.

Silicate Matrix

Original human genetic imprint is called the Silicate Matrix and is designed to manifest 12 strings of DNA which would allow for inter-dimensional travel and existence without deterioration of the biological form. It must be repaired, built or activated.

The original angelic human 12 Strand DNA is called the Diamond Sun DNA. The Oraphim original prototype for angelic humans that was created by the Founders has a 24 Strand DNA and is called the Double Diamond Sun Body DNA. Further there is a 48 Strand DNA Founder race line called the Emerald Sun. See Threefold Founder Flame or GSF.

Spiritual Purpose for DNA Assembly

Previous to the Atlantian Cataclysm, each of the groups of the angelic human 12 Essene Tribes were entrusted as Guardians of a section of the Emerald Founder Records, which held extensive consciousness knowledge about the star origins and genetic template information that was recorded on 12 holographic discs.

All 12 genetic components of the 12 Tribes hold one strand of DNA code for reassembling the crystal gene for the Diamond Sun body or Silicate Matrix, that is key coded to activate the 12 layers of the planetary stargate system. This provides the means to contact our higher Stations of Identity as spiritual bodies, and to connect with the conscious living light and sound frequencies in the holographic matrix. The instruction sets to rebuild and reassemble the 12 Strand DNA pattern, are held in the genetic keys found in the Cosmic Kryst-Krystallah blueprint which makes up the 12 Tree Grid manifestation template.

Through the individual and planetary spiritual Ascension process that takes place during several root race evolution cycles, the integration and healing of all 12 levels of DNA coding through its genetic components potentially unite and merge to form the complete Silicate Matrix. These dual forces of polarity, male and female, are designed to spiritually integrate and synthesize within the angelic human body while naturally evolving on the ascending earth. As a result of the forces of alchemy and energetic synthesis made between inner and outer layers of these multidimensional consciousness forces, the spiritual embodiment of the original 12 Strand DNA of the Diamond Sun Body is then made available to the planet and humanity through DNA Assembly. Thus, ascending individuals are gradually repairing and regenerating their DNA template so they are able to open and move through stargates safely

The Diamond Sun body represents full consciousness freedom for an ascending human being, in which the Inner Christos is fully activated with the flowering of the Sacred Crystal Heart. As a result, the spiritually ascending human is able to transmute their consciousness out of time and into Zero Point, moving through stargates into another location. Therefore, they are free to leave the Prison Planet, freed from the enforced Mind Control and reincarnation cycle occurring in the lowest density of earth.[1]

12 Strands DNA

The original human DNA pattern is arranged into 12 dimensionalized mathematical programs, each of which set the Blueprint for one DNA Strand. Each strand is composed of 12 base magnetic (Mion) female codes, and 12 base-electrical (Dion) male acceleration Codes. The 12 Base Codes and 12 Acceleration Codes hold the mathematical program for each Double-Helix strand, which combine to form a set of 12 Vector Codes. One Base Code plus one Acceleration Code is equal to one Vector Code.The 12 Vector Codes of the human genome manifests as 12 nucleotides that form the Nucleotide Base Pairs which are the entire DNA Strands are composed. Due to the NDC also called the Checkerboard Mutation unnatural sonic control program installed in the planetary field, only four of the Vector Codes have been active in biological Earth life since the Luciferian Rebellion. The foundations of human DNA is miniaturized crystalized frequency, that is, patterns of electromagnetic light that magnetically group into crystalline form. These multidimensional crystalline templates are referred to as DNA Seed Codes. The DNA Seed Code, the template for one DNA strand is composed of 12 magnetic particle units and 12 electrical anti-particle units. Each DNA strand is composed of the frequency patterns and light spectrum of one dimensional band. Each DNA Strand represents a Fire Letters Code program sequence corresponding to one dimensional frequency band of Consciousness. (24 Seed Codes = 1 DNA strand). The level of frequencies that are accreted into the personal Morphogenetic Field will determine the level of DNA strand assembly that you posses. As a person pulls in more frequency bands from the dimensional Unified Fields, the personal frequency accretion level rises, and thus, more DNA codes can assemble and activate.

Transmigration

Transmigration. This is the third and final stage of developing full consciousness freedom as a Cosmic Citizen. This is similar to the process of Translocation, however, the person does not have to come back to the earth at all. Now the person can go anyplace in the Cosmos that they choose to go without limitation. (However, if they go to another planet, they will be subjected to the laws of that planets inhabitants). This is the status of having a cosmic identity and being a full Cosmic Citizen. This has been accomplished a few times on the earth historically, but the current planetary miasma mutations can make this very hard, although it may become easier in the future. Transmigration is one way to describe what it means to be free. That when we project our consciousness body out, we don't have to come back to the earth, nor do we have to incarnate back here. In order to be able to achieve a full transmigration of our consciousness body and physical body, we must have released the miasmatic record and the cell we inherited from our biological parents. There is a cell that is

carried from the family of origin that is recorded into the physical body at birth that was inherited from the biological parents It is a cell that was created in the chromosomes at the time the egg and sperm of our biological parents united This cell becomes a part of the seed of the physical body that we are incarnated in Once the family of origin cell is freed, it gets cleared from the body, and as it releases, it vaporizes. At this point of Transmigration, the person is now a Cosmic Citizen. They may hold memories of being on the earth, but their identity isn't necessarily that. This third stage is something that is very special, unique, and specific to the Diamond Sun body and Krystal Consciousness in order to achieve full sovereignty and spiritual freedom.[2]

DNA

DNA, or deoxyribonucleic acid, is the hereditary material in humans and almost all other organisms. Nearly every cell in a person's body has the same DNA.

(DNA) is a molecule that encodes the genetic instructions used in the development and functioning of all known living organisms and many viruses. DNA is anucleic acid, alongside proteins and carbohydrates, nucleic acids compose the three major macromolecules essential for all known forms of life.[1]

The original human DNA imprint is referred to as the Silicate Matrix, and is a twelve strand DNA template. Since the Luciferian Rebellion, humanity's DNA was unplugged and higher functioning DNA was lost.

DNA, RNA and Proteins

All living beings are reliant on three main molecules for essentially all of their biological functions. These molecules are DNA, RNA and Proteins. The two strands of DNA run in opposite directions to each other and are therefore adjacent to each other (anti-parallel) It is the sequence of these four nitrogen bases along the backbone that encodes biological information. Under the genetic code, RNA strands are translated to specify the sequence of amino acids within proteins. These RNA strands are initially created using DNA strands as a template in a process called transcription. Without DNA, RNA and Proteins, no biological life would exist on earth.

DNA Proteins

In DNA, the nitrogenous base is made up of nucleic acids, **Cytosine (C), Guanine (G), Adenine (A) and Thymine (T).** Metaphysically, each of these nucleic acids is connected to the elemental substance of the planet as Air, Water, Fire, and Earth. When we pollute these four elements on the earth, we pollute the corresponding nucleic acid in our DNA. As a result of human DNA digression from the original Silicate Matrix, we are missing the proper amount of nucleic acids.

DNA Base Pairs (Male+Female)

The main biological function of a nitrogenous base in DNA is to bond nucleic acids together. Adenine is always paired with thymine, and guanine is always paired with cytosine. These are known as base pairs. Uracil is only present in RNA, replacing thymine and pairing with adenine. Both RNA and DNA use base pairs (male + female) as a complementary language that can be converted back and forth between the DNA to RNA by the action of the correct enzymes. This male-female language or based paired structure provides a backup copy of all genetic information encoded within double-stranded DNA.

Reverse Pairing

This pairing always occurs in specific combinations. The reverse base pairing of DNA as well as many levels of genetic modification and genetic control, contribute to the suppression of DNA synthesis. This is the intentional suppression of DNA activation of the 12 strand original design, the Silicate Matrix which is assembled and built by proteins. This genetic suppression has been aggressive since the Atlantian cataclysm. This is directly related to the suppression of hierogamic union which is achieved by proper DNA base pairing which can build and assemble the proteins to unscramble DNA fire letters

DNA Unplugged

This is the reference point in our current historical record where the human DNA was unplugged on the earth and all Galactic Wars memories and our true origins were erased from our memories by the NAA invading races. DNA and vibratory digression began a gradual decent from the Orion Group population coming to the earth from primarily 208,000 years ago in the Orion Wars, however the major DNA Unplugged in humanity was when the Sumerian-Egypt Invasion transpired about 5,500 years ago. Until this point in the timeline, humans retained memories of their galactic history.

The original instruction set (Blueprint) of our DNA is a lattice of pure liquid crystal, an ideal transmitter and receiver of energetic resonance, inter-communication and perceiving a variety of levels of consciousness. DNA Synthesis

Knowing that our Instinctual Mind, the emotional-elemental body is shifting from carbon based atoms to higher based elementals through higher frequency activation and planetary magnetic shifts, we may connect the dots in our own bodies' spiritual progression related to its personal alchemical processes. With the Sophianic Body Correction underway, the alchemical transformation of our consciousness evolution has come to merge with the greater scientific understanding of DNA Synthesis

DNA synthesis has the same meaning as DNA activation which plays an important and direct role in spiritual ascension. Mother is returning the record of Mitochondrial DNA through current magnetic shifts which reinstate our blood, brain and neurological system blueprint to higher functioning to bond with the DNA of our true origins.

Base Pairs (male+female)

All DNA and RNA function upon the gender principle of base pairs that hydrogen bond together. Base pairs must bond in the sequence of which allows DNA and RNA to communicate (as per the original design of our 12 Strand DNA, the Diamond Sun Body). As well as allow the RNA to produce functioning proteins that continue to build the rungs that synthesize and correct the double helix of DNA. Human DNA has been tampered with through mutation of the base pairs and reverse bonding the pairs or inserting editing sequences through engineered organisms, such as virus. This base pair tampering relates to the gender splitting technology of the NRG which impacts all male and female language and their relationships. DNA copies are created by the pairing of nucleic acid sub units to the male-female base pairs present on each strand of the original DNA molecule. This pairing always occurs in specific combinations. The reverse base pairing of DNA as well as many levels of genetic modification and genetic control, contribute to the suppression of DNA synthesis. This is the intentional suppression of DNA activation of the 12 strand original design, the Silicate Matrix which is assembled and built by proteins. Trans-time Integration for DNA Repair

Many of us are at different stages of the ascension process, yet at every level with a sincere heart and conscious participation we can access exactly what we require. The first suggestion is to meditate upon the 12 Tree Grid with intention to move through each personal sphere knowing this is one's direct connection to each of the Stargates of the earth and aspects of identity. Focusing on each sphere starting at the first level (1-12), ask to know your main tribal identity within the 12 Tribes and to receive the genetic time codes that main tribal identity requires. (ES community has

many 12 Tree Grid meditations that one can devote specifically to this process) Once you feel connected to that dimension of tribal identity, you may feel called to meditate with the corresponding Planetary Emancipation Gridwork and Stargates meditation (PEG) For those that have calibrated to the Hieros Gamos system in the ES Community, dedicate a session for this same purpose In most cases one will be guided to the Chakra Crystal Keys Mapping Module or CCKM This content has the architecture which communicates in detail the issues of this request For planetary service, CCKM templates are built to help support planetary field and quaternary field DNA repair for multiple Guardian teams working to support planetary rehabilitation.

Dome of the Rock

The Dome of the Rock is a shrine located on the Temple Mount in the Old City of Jerusalem. It was initially completed in 691 CE at the order of Umayyad Caliph Abd al-Malik during the Second Fitna. The Dome of the Rock is now one of the oldest works of Islamic architecture. It has been called 'Jerusalem's most recognizable landmark'. The octagonal plan of the structure may have been influenced by the Byzantine Chapel of St Mary built between 451 and 458 on the road between Jerusalem and Bethlehem. The site's significance stems from religious traditions regarding the rock, known as the Foundation Stone, at its heart, which bears great significance for Jews, Christians and Muslims.[1]

Location

The Dome of the Rock is located at the visual center of a platform known in English as the Temple Mount and in Arabic as Al-Haram al-Sharif, or "the Noble Sanctuary" It was constructed on the site of the Second Jewish Temple, which was destroyed during the Roman Siege of Jerusalem in 70 CE. Muslims believe the location of the Dome of the Rock to be the site of the Islamic miracle of the Isra and Mi raj. Caliph Omar ibn al Khattab (579-644) was advised by his associate, Ka'ab al-Ahbar, a Jewish rabbi who converted to Islam.[4]that The Night Journey (Isra and Mi raj), which is mentioned in the Quran and specified by the hadiths of being located in Jerusalem, took place at the site of the former Jewish Temples

History

Pre-Islam -The Dome of the Rock is situated in the center of the Temple Mount, the site where, it is believed, the Jewish First Temple and Second Temple had stood. The Second Temple was destroyed in 70 CE by the Romans, who built a temple to Jupiter on the site.[citation needed] During the Byzantine era, Jerusalem was primarily Christian, and pilgrims came by the tens of thousands to experience the first church of Christianity and places where Jesus walked. Construction and dimensions.

With the Persian invasion in 614, followed by the Muslim Siege of Jerusalem in 637, the Dome of the Rock was constructed by the order of Umayyad Caliph Abd al-Malik between 689 and 691 CE. The Temple Mount had by then been left undeveloped for centuries after another Jewish revolt against Roman rule in the fourth century CE.

Crusaders -For centuries Christian pilgrims still were able to come and experience the Temple Mount but escalating violence against pilgrims to Jerusalem (see Al-Hakim bi-Amr Allah) instigated the Crusades. The Crusaders captured Jerusalem in 1099 and the Dome of the Rock was given to the Augustinians, who turned it into a church while the Al-Aqsa Mosque became a royal palace. The Knights Templar, who believed the Dome of the Rock was the site of the Temple of Solomon, later set up their headquarters in the Al-Aqsa Mosque adjacent to the Dome for much of the 12th century. The "Templum Domini", as they called the Dome of the Rock, featured on the official seals of the Order's Grand Masters (such as Everard des Barres and Renaud de Vichiers), and soon became the architectural model for Round Templar churches across Europe.

Religious significance

According to some Islamic scholars, the rock is the spot from which the Islamic prophet Muhammad ascended to Heaven accompanied by the angel Gabriel. Further, Muhammad was taken here by Gabriel to pray with Abraham, Moses, and Jesus. Other Islamic scholars believe that the Prophet ascended to Heaven from the Al-Aqsa Mosque.

The Foundation Stone and its surroundings is the holiest site in Judaism. Though Muslims now pray towards the Kaaba at Mecca, they once faced the Temple Mount as the Jews do. Muhammad changed the direction of prayer for Muslims after a revelation from Allah. Jews traditionally regarded the location of the stone as the holiest spot on Earth, the site of the Holy of Holies during the Temple Period.[2]

Electromagnetic Field

Abbreviation - EMF

EMF stands for Electro-Magnetic Field. An electromagnetic field is composed of two related vector fields: the electric field (male) and the magnetic field (female). When referred to as the electromagnetic field, the field is imagined to encompass all of space; typically an electromagnetic field is considered to be limited to a local area around an object in space. We are Electro-Magnetic Field, Multidimensional Beings of Light. See CW Male and CCW Female.

Frequency Waves

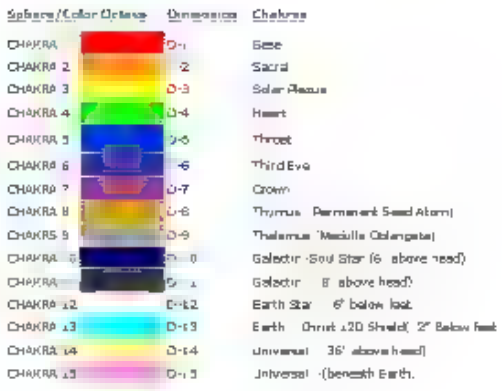
Frequency is the number of occurrences of a repeating event per unit time. For cyclical processes, such as rotation, oscillations, or waves, frequency is defined as a number of cycles per unit time.

Visible light is an electromagnetic wave, consisting of oscillating electric and magnetic fields traveling through space. The frequency of the wave determines its color: 4×1014 Hz is red light, 8×1014 Hz is violet light, and between these (in the range 4-8×1014 Hz) are all the other colors of the rainbow. An EMF electromagnetic wave can have a frequency less than 4×1014 Hz, but it will be invisible to the human eye, such waves are called infrared (IR) radiation. At even lower frequency, the wave is called a microwave, and at still lower frequencies it is called a radio wave. Likewise, an electromagnetic wave can have a frequency higher than 8×1014 Hz, but it will be invisible to the human eye, such waves are called ultraviolet (UV) radiation. Even higher-frequency waves are called X-rays, and higher still are gamma rays.

All of these waves, from the lowest-frequency radio waves to the highest-frequency gamma rays, are fundamentally the same, and they are all called electromagnetic radiation. They all travel through a vacuum at the same speed (the speed of light), giving them wavelengths inversely proportional to their frequencies.[1]

Spectrum of Frequency

Awareness of our Lightbody, the Human Energy Field and Spectrum of Frequency supports the beginning of understanding that all and everything around and within us is an Energetic Form and Vibratory Quality and Rate of Frequency. In our Ascension model we recognize and work with 15 Wave Spectrum of Frequency that correlate directly with the Universal Rays (See the Universal Time Matrix) and our individual Chakra systems.



Chakra Wave Spectrum

We are Pure Energy and Consciousness and with that there are very specific locations within our Lightbody that an individual's choice of expressing emotion, thought, memory and experience all contribute to the manifestation of experience and form into physical matter. This will help us to become self-sovereign within our personal power and responsible manifestors in the world of form thus experiencing a much greater range of joy and fulfillment in the unlimited possibilities of co-creation.

Electromagnetic Wave Spectrum

The electromagnetic spectrum is the range of all possible frequencies of electromagnetic radiation. The "electromagnetic spectrum" or EMF of an object has a different meaning, and is instead the characteristic distribution of electromagnetic radiation emitted or absorbed by that particular object.[1]

Rate of Frequency

Energy is Consciousness and it either contracts or expands to maintain or increase its Rate of Frequency.

The process of how fast or slow energy contracts back towards its center point of source field is the Vibration rate. The process of how fast or slow that same energy expands away from the center point of the source field is the Oscillation rate.

The combination of both the pattern of Vibration (contraction) and Oscillation (expansion) speed is what determines the Frequency rate of all energy and things. As our personal, collective and planetary consciousness raises frequency, the matter world, including our physical bodies, also becomes less dense as our Frequency increases [2]

Visible Light Spectrum

Visible light waves are the only electromagnetic waves we can see. We see these waves as the colors of the rainbow. Each color has a different wavelength. Red has the longest wavelength and violet has the shortest wavelength. When all the waves are seen together, they make white light. Also, EMF stands for Electromagnetic Field. [3]

False Timelines

Negative Aliens propping up the Controllers cabals have been manipulating the human world on earth for thousands and thousands of years, since the Atlantian Cataclysm for their own purposes to harvest human Negative Emotional Energy, as well as siphon consciousness energy and resources from the planet. See the Ages of Humanity. These are inter-dimensional and extra dimensional beings known as Fallen Angelics in ancient history and they use many AI technological manipulation methods to Mind Control and negatively manipulate the future direction of the human race by artificially generating False Timelines. These Artificial Timelines are means to recycle souls or are used as Consciousness Traps. Once such negative manipulation is installing the Armageddon Software into the planetary brain in order to install False Father Negative Alien Religions based on serving the Yahweh and Jehovian Annunaki Collectives. Inverting Energy for Reversing Timelines

Reversal Networks are Alien Machinery that use artificial intelligence programming to simulate, replicate and imitate the organic forces of creation for the express purposes of collecting, siphoning and redirecting the consciousness energy of humanity. The Artificial intelligence architecture is synthesized into the multiple layers of the planetary field in order to collect energy, harvest it, and send it to off-planet sources. Or the collected life force energy is directed to their preferred Power Elite or cabal groups on planet earth that are carrying out their control agenda on the surface. So the aggregate of the collective consciousness energies collected by Inverted Systems are basically given, with preference, to humans or nonhumans that serve the NAA control infrastructure and the human enslavement agenda. Once the reversal networks were operating in the planetary grid network, they needed humans to feed their Consciousness energy into them, and so the infrastructure for building out Inverted Systems throughout global society was set up for that purpose.

This was accomplished through the Negative Alien Invasion, in which they captured the organic creation code in order to operate artificial intelligence programs. These programs project an assortment of reversal networks using the hijacked code from the original universal creator. The captured code running the many NAA machines and Frequency Fences on the planet, are AI systems that were downloaded into the planetary brain, to project reversal holograms and false timelines. False Timelines keep repeating in order to trap collective consciousness into playing out the same AI mind programs and realities over and over again. This method was used to trap souls on the astral plane through forced recycling into the lowest density of the earth plane. Over the previous evolution cycles, this AI generated timeline was repeated and replicated onto multiple dimensional planes of the earth, including in the parallel systems.

This impacts many stations of identity that exist on higher planes that are also undergoing the shocking revelation that what they believed was organic creation, is actually the NAA's AI brain simulating realities for energy harvesting. The creation code was imitated to insert mass mind control broadcasts that program the functions of the counterfeit blueprint schematics into the earth, that are originally sourced from the Ancient Builder Races, also known as the Founder Guardian races. Essentially, this means the reality programs on earth are programmed by AI to operate in reversal to the stolen creation code that belongs to the Universal Founders. These anti-life reversals were programmed into advanced technology AI that were used to build the many Inverted Systems, from which these black hole entities could easily siphon and steal the consciousness energy of earth and humanity. [1]

911 Timelines

Because the original 5D Ascension plan was not achievable because of the False Ascension Matrix and the damage caused through the False Navel and False White Webbing, it required our evolution through the time fields in the Harmonic Universes in the Universal Time Matrix to be drastically sped up. Those serving the Law of One, are moving through extreme amounts of the future timelines, observing its collapse, in order to arrive at the Gateway Octave where the organic and eternal light is overriding the Artificial Machinery and replicated alien coding. False Timelines and False Software to Mind Control humanity was used to deter humans from their organic and natural ascension evolution. This is why this planet is called, Prison Planet. Meanwhile the negatives desperately cling on to the artificial timeline programs to influence humans through fear to manifest into their enslaved future selves as Negative Form. Some examples. Nostradamus Prophecy, Armageddon Software, Pestilence Programming, 911 Military Industrial Complex Revolution, any terrorist and cataclysmic inorganic event generated by the Negative Aliens. None of these manipulated programs are sourced as natural events.

We have to move through the series of Timelines in each dimensional octave and reclaim our spiritual identity while recoding and changing the obsolete, False Timelines or false reality from interfering with our continued spiritual growth and consciousness expansion. Like a tri-athlete running and jumping over the hurdles, we connect with our lost aspects or Fragments to merge with these higher vibrating time fields, whereby reclaiming and collecting our spiritual bodies, clearing Negative Forms and Clones to make it to the planetary ascension finish line. What is being accomplished during the spiritual ascension process, especially now with Guardian GSF Ascension Timeline, is that humanity has to move through all the Artificial Machinery, the inorganic time fields or Artificial Timelines. These are the Negative Alien Timelines with their inorganic and artificial Hologram Inserts that program their AI mind control programming in order to promote the human enslavement agendas of the NAA. As we clear False Timelines and inorganic architecture from suppressing and impairing our consciousness, we are extracting the alien enslavement programming, Alien Implants and Mind Control in order to embody our true inner Christos spirit and return to the Zero Point Field, the heart of the God Gateway leading into the seven higher universes.

Timeline Repair

With the Galactic timelines opening and a new entry point emerging, it is the time is to bring more clarity on the 12D commission for the Christos Mission which is Ascension Plan B. The Melchizedek Guardian Groups, are the groups that oversee and direct the planetary repair projects (from 12D) that specifically result in the collapsing and clearing away of distorted False Timelines, the distorted historical human records that created DNA damage in the past, present and future. It is this group that works with the Universal holographic architecture in order to repair its structural integrity back into the organic creation code of the Ascension Timeline. The Ascension timeline would reflect the Pathway back to God Source connection, the return to the Zero Point God matrix, the point of our creational genesis. Please note that Melchizedek hosting ended in December 2012, and Krystal Star Guardians have taken over the planetary hosting cycle. [2]

Four Living Creatures

The Aurora Krystal Star luminaries from the next Universe have also returned to reclaim these pieces (and bodies) to be reanimated into the New Universal Cycle. We are their physical conduit into the Earth as purposed to reanimate the grid of the "Four Living Creatures" that make up our collective human consciousness and emotional-elemental body. The Four Living Creatures (Lion, Eagle, Ox, Man) are Guardian Consciousness Networks of the Planetary Grid Networks, much of which was infiltrated by negatives in the NAA and Fallen Angelics. The Four Pillars of Man awaken the 12 Guardians of the Pillar through the unification of the Four Living Creatures. (See Tetramorphic)

These Guardians protect the creation by embodying connections (walking into an identity) in every dimensional station of time. As we awaken from the inanimate clay of human flesh, we ignite the Fire of God in our hearts (through the Aurora) to animate our flesh into the Eternal Body. We then become the Reborn Children of the Sun, The Embodied Diamond Sun Guardians of the Creation. [1]

Retrieving and healing Galactic memories as well as ET Indentity/Starseed genetic healing on earth or on other planets is specified (12 Guardians of the Pillar 7 Fire Element)

Four as the Universal Prototype

According to the Pythagorean symbolism in the Tetrad, Four is considered the root of all things and the source of all nature. It is the number of numbers because The Sacred Decad or 10, includes 1, 2, 3 and 4, because it is a symbol of the four of the first four numbers. The tetrad connects them throughout all numbers, elements, and temporary structures which manifest as recurrent cycles in time. A Master Builder or Mason is quantified by the number 22, which when broken down aligns back to the structure of Four. The Master Builder sees the archetype, and brings it down to earth in some material form. The Universal Prototype in the Law of Structure related to the Four is revealing its truth to us now. That which has been created with falsified archetypes or with deception is being destroyed. While that which holds the sacred and perfect number of the Universal Law will remain and reveal its truth. To consider the importance of the Four as the Universal Prototype in the Law of Structure, there are many aspects in creation[2]:

This FPM relates to the Threefold Founder Flame Consciousness Grid Network that is located in Chile at Easter Island. The Four Main Pillars of Consciousness units are massive Light-Sound pillars that are related to the creation of the entire Human 12 Tribes 144 harmonics in the DNA Genetic template, these consciousness units are the collective pillar(s) and the consciousness structure of the Founders elemental bodies. They contain all genetic, elemental material and race histories throughout the entire root race evolution cycles. When the diagonal lines are activated on planet earth at the end of the Ascension cycle through the Great White Lion GWL vertical and Golden Eagle Grid GEG horizontal merge,(or Rod and Staff alignment) the three parallel universes merge together through the activated Four Pillars of Man network.

Four Pillars of Man Grid

Founder s Four Faces of Man LPIN is in three sets (of the four faces) One full set is an extension of the Earth LPIN connecting higher aspects of Earth. planets Tara and Gaia. The second set is another Four Faces of Man LPIN on parallel Earth, parallel Tara, parallel Gaia, and the third set on Inner Earth and connecting to its higher planets Inner Tara and Gaia. Hence the statement the 'Guardians of the 12 pillars' (three sets of four faces and sound pillars). The Four Faces of Man is the most extensive in space time but some of the others have connections to parallel Earth.The Four Faces of Man LPIN (Lemuria Pylon Implant Network) has been referred to as the 'Guardians of the four corners' and 'Angels of the four directions'. Its four heads are anchored in by sound pillars In recognition of the Founder s creation of the Four Faces of Man, the Easter Island heads were built by ancient Indigo Maji descendants. This LPIN, created between 22,500 BC and 22,326 BC, was designed to restore the 12D blueprint of Earth and prevent fall of Earth into the Phantom Matrix. At the last planetary time cycle, intruder Annunaki raided Earth and prevented this LPIN from activating (during the ascension cycle). Thus it was rescheduled for 2012, began its first activation cycle in 2001 and the final 12th cycle in 2003, bringing the Great Great White Lion and Golden Eagle Grid on line The Four Faces of Man is designed utilising such high frequencies that the fallen ETs in the NAA can't handle those energies.[1]

Frequency (Static) Fences

The planet has been surrounded by an Artificial Machinery that prevents access to certain higher forces, higher frequencies, and maintains the collective Mind Control through a Controller frequency fence. These frequency fences are the Mind Control fields that propagate and feed into anti-life structures that power the Imposter Spirit entities and their Anubian Black Heart circulatory systems. They have impaired and controlled human consciousness evolution for thousands of years.

Frequency Fences are used to unplug DNA codes and block high frequencies from the earth population which can be manipulated to control perception as well as what an individual can experience through their five Basic Human Senses.

When we intend to raise our consciousness frequency, and embody higher levels of spiritual identity, this raises our fundamental Lightbody frequency and shifts us out of the range of the frequency fence transmissions and a variety of bio-neurological blockages.

Nanotechnology

Nanotechnology has many applications being tested covertly and used to control the human population in psychotronic warfare or Mind Control methods and also to track down people and to know what they are thinking. This is a type of military alien technology used for artificial intelligence networks for Brain Mapping.

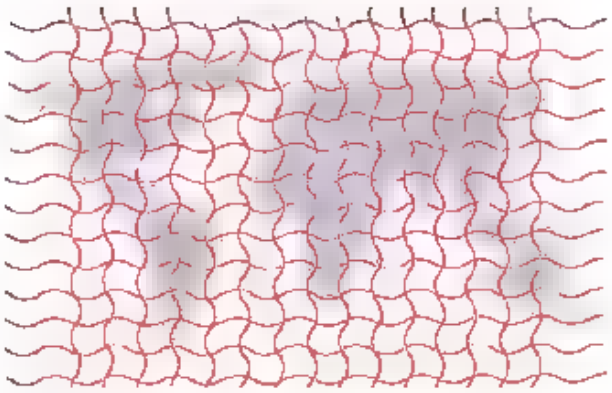
Nanotechnology weapons such as Morgellons are self replicating hollow fibers that are designed to read out the light finger print code of the DNA of the person infected with the Alien Implants technology and transform it to a signal that is detectable to be tracked, tested and harvested. It appears to be self assembly nano bot technology related to transhumanist agenda of the Archons for artificial light harvesting.

Bi-Wave Architecture

Unity intelligence is the access into the Zero Point Field consciousness field, the central point of union within our Universe that is a non-polarized. It has neither an electrical or magnetic spin charge, it is a balance of both unified into a neutral field. The Guardians (and others from the next Universal System) are a part of the consciousness teams that have been working to repair Planetary Grid Networks and the Ley Lines grid structure by overriding reversal codes on this planet that feed Bi-Wave Influences. The Bi-Wave Influences are that technology which split apart the higher Spectrum of

Frequency so that the higher access into the "neutral" fields are not accessible. **This manifests a closed energy system on our planet and therefore controls all life force energy and power source within a small parameter which the Controllers direct for their personal agenda.** (See Luciferian Rebellion) [1]

Frequency Fences



Net Static Field

What happens to a person who is on the spiritual path and they really truly are devoted and they really want to do this Ascension work they hit up against that Frequency Fence and it shocks them. When it shocks them they're thinking, 'What's going on I thought when I was connecting to God I would become more at peace, I would become more at one, I don't understand that I'm hitting something like a glass ceiling!' Every time it's returning karmic dusts and karmic exhaust back to me! That's exactly what this NET is doing it's called a bi-polar field or Reversal 55 Grid and it's a reversal pattern so that when a being starts to get at a certain development of their spiritual lightbody (Monad and above levels) they hit this frequency fence the frequency fence sends back karmic exhaust and the person is basically pummelled to the floor with the Miasma waste that has basically been laid upon them. That is what's happened to a lot of the Starseeds and Indigos on this planet that have been attempting to work through these AI fields and most of them that have encountered that have been really confused. They really have not understood what is going on, let alone not feeling too happy about every time you stand up you get hit with targeting of Black Magic, and you know every time you try to move into this next level of higher consciousness there's some machinery electrocuting you and saying get back into that Frequency Fence pen because you're not supposed to be out of there. It takes a lot to get past that Reversal 55 Grid field that how that particular field is generated there's a particular circuit programme that the guardians call Nephilim Reversal NRG and this has to do with the histories of alien hybridisation and intentional genetic splitting - Gender Reversal. [2]

Geo-Engineering is Bio-Engineering

Please note that Alien Implants sent for mind control and impairing human genetics work in the human body similarly as the chemical process of Geoengineering is used in spraying Chemtrails in the skies. Alien implants are a bio-engineering technology designed to shape the human body into the submission to agendas, while chemical (nanoparticle) geo-engineering is used to control the weather by harming the ozone layer and create excessive methane gases. In both examples, when the foreign (unnatural) material is introduced to the natural body it disrupts the electromagnetic energetic balance and the homeostatic rhythm of the body. This puts the body in hyper-immunity state and/or adrenal exhaustion while fighting off the "invader" [3]

Space Fence

What is the Space Fence?

Although the USAF and Lockheed Martin tell us that the purpose of the Space Fence is to detect, track and catalog space debris, we must acknowledge that the MIC (Military Intelligence Complex) is at the helm of the New World Order and is routinely engaged in Psychological Operations against the rest of the population

The Space Fence is the answer to the prayers of a control-freak conspiratorial class. It will have the capacity to surveil everything on Earth. Like Skynet in the fictional Terminator films, it could become surveillance beyond comprehension.

How? The Space Fence is designed to operate in LEO (Low Earth Orbit). It is designed to be one big interconnected machine, run by AI and joined to current (weaponized) technology by interacting with **cell phone towers**, Gwen Towers, Nexrad Towers, metal particulates and more to create a giant wireless network that manipulates us through the ionization of our atmosphere.

According to Elena Freeland, author of Chemtrails, HAARP, and the Full Spectrum Dominance of Planet Earth who is soon to release a book on the topic, the Space Fence will eventually develop into a conductive Saturnian ring around the Earth's equator.

From there, it could be used to facilitate a complete lockdown on planetary communications (including our DNA communications, since we are electrical creatures), in line with the MIC's C4 objectives (Command, Control, Communications and Computers).

Freeland states that the Space Fence will have the power to totally transform the entire environment of the planet. It thus is a tool of the AI and Transhumanist agenda to merge man into machine. [4]

Full Disclosure Event

Full Disclosure Event is referring to the highest level of extraterrestrial disclosure to earthlings that reveal the most detailed scenarios of our true hidden extraterrestrial human Galactic History and not the manipulated NAA version of Archontic Deception Strategy used to control the mainstream historical records to enslave the human population since the Sumerian-Egypt Invasion. Humans would be briefed beyond just knowing about the existence of the Extraterrestrial races, crafts and cooperative agreements made with earthly world governments, additionally, humans would be reeducated to know about NAA groups, Secret Space Programs, Human Trafficking, Mind Control, Transhumanism and AI agendas, DNA and genetic manipulation programs on planet and off planet, how earth, human resources and technology are used as bartering to trade for a variety of off planet civilizations and extraterrestrial species. Full Disclosure Event includes revealing the Power Elite groups and Negative Aliens that have abused power on earth and are required to restore energetic balance to make amends with the crimes they have made against humanity.

- Different ET Races and their Guardianship and genetic modification programs. Breeding Programs, M LABS, Transhumanism and other ET agendas (malevolent and benevolent) involved in the grand earth experiment on co-evolving Consciousness and Polarity Integration in our Universe
- Galactic Wars. Galactic History and hidden Extraterrestrial involvement on earth and how they have used the veil of secrecy to manipulate and influence all worldly human affairs, societies and belief systems (social experimentation).
- Hidden advanced technologies made available that would completely change the earth 3D paradigm with revealing free power and energy systems, reverse of aging and disease, end of poverty and slavery, clean air, food and water, etc.
- Quantum Mechanics as the basic foundation to comprehend Ascension (the descension of our spiritual-energetic bodies into our physical bodies through the process of progressive Kundalini awakening at the base of our spine which moves up to the Crown) and the reality of multidimensional Consciousness existing throughout all living intelligent energy systems, knowing about the true nature of reality, such as Stargates, Ley Lines, Geomantic Structures, and the Sacred Geometry used in writing creation code to create Blueprints that direct Spectrum of Frequency and control DNA and genetic expression of all living things.

If more people had access to this information without being threatened, attacked or persecuted it would allow many more people to come out and tell the truth. By hiding this information and continuing to promote lies and deception it allows people that are working to support Ascension or disclosure related topics to continue to be harassed, targeted, intimidated and even brutalized. This is another reason why disclosure is so important. It would remove a huge burden of threats and attacks to those of us that support disclosure to the population of this planet. If people had disclosure information they would be much more willing to be open to comprehending the laws of nature and also to be able to see how the current Death Culture was engineered to violate those laws in order to enslave the people. Much of what we see harming people in the world today could be stopped with only common sense and the ability to reduce some selfishness and greed.

Battle for Disclosure

Humanity is enduring a hidden multidimensional battle for Disclosure which is gradually happening as the Collective Consciousness shifts into higher dimensional planes as the result of the Ascension Cycle. It is evident that there is a hijack of the disclosure movement in order to gain total control over how that particular content is being shared with the public. This is occurring via the spreading of familiar narratives and the same Propaganda tactics that are used for the purpose of Psychological Manipulation of the intended audience and the key players. For propaganda to be effective it has to have a mouthpiece, there must be key players or persons in positions of power with significant control over mass-communication media who are thought to have credibility with a large audience that makes them money

Controlled Opposition is the predictable manipulation tactic of placing key people in key positions and into leadership roles of a particular movement, who many times have suddenly appeared and offered the public incredible facts or amazing nuggets of truth Maybe it is a pundit personality looking to gather a large online following through disseminating the cabal wars through the QAnon movement Maybe it's a guru personality offering DNA Activation and the ability to manifest anything you want As a result of the sensationalism, marketing or other methods to deliver this level of information, they gain power and influence from the amount of people that have gathered, along with the online clicks and money that is spent on their products or watching them at events. Power and influence are forces gathered through which they become a Pied Piper, a person that is celebrated, worshipped or made into a hero. Seemingly leading gullible people into any direction, when ultimately, they were placed there as a wolf in sheep's clothing to derail and hijack the original goals of that movement. The strategy of Controlled Opposition works best under circumstances in which the masses are gullible, credulous, lack Critical Thinking and are unable to connect the dots and see how the actions and inaction or manipulation of the information from the controlled entity is actually benefiting the controlling entity.[1]

Disclosure Imminent

The Inorganic Black Holes are rips in the time space fabric, which weaken the planetary atmosphere and allow much more access to Negative Alien interference and dark force infection into our world. Clearly, the NAA were well aware that greedy Controller humans would abuse the technologies, from the trade agreements, setting the stage for the next advancement of technological warfare against the earth during the critical years after 2012. For many years the continued Mind Control and intimidation tactics towards making global war, spreading fear and poverty consciousness, while distributing disinformation through the mass media, has been to keep the human population distracted and dumbed down. Meanwhile, the greedy antics and power abuses of the Power Elite would remain hidden, allowing diversion for a full scale infiltration of corporate conglomerate control into the highest chains of command in the world governments. By maintaining strict codes of secrecy on penalty of death, and aggressively hiding the extraterrestrial problem from the general public, the military industrial complex, corrupt governments and corporatocracy have handed the inhabitants of earth to the NAA on a silver platter **This is why full extraterrestrial disclosure to the masses is critically important. As long as this agenda remains hidden, it generates deeper and deeper parasitic infection into the earth that harms all inhabitants.**[2]

Global Human Trafficking and Off Planet Trade

There is no currency or financial system that is used between space faring civilizations so everything is based on bartering. Some ET's are interested in some of the Earth's Art (again some of our most famous missing historical art pieces are in off world collections), Luxury Items like Spices, Chocolate, Animal and Plant Life while many others are interested in trading their technology and biological specimens they have obtained elsewhere for Human Beings. These Humans are used for

many purposes including manual slave labor, sex trade, engineering/manufacturing (we are well known for the abilities some of us have with certain technical skill sets). There are some of the ET's that use Humans as food resources in various ways

The Secret Earth Governments and their Syndicates discovered that a large amount of humans were being taken off the planet by various ET's anyway so they decided to find a way to profit from it and have control over which people were being taken. In prior arrangements they were made promises of receiving technologies and biological specimens for allowing groups to abduct humans but the ET's rarely delivered on their promises. Once they had developed the advanced infrastructure (ICC) in our Sol System along with advanced technologies (that some of the thousands of ET groups traveling through our system were now interested in obtaining) and now had the ability to deter most unwelcome guests from entering Earths airspace the Cabal, ICC then decided to use human trafficking as one of their resources in interstellar bartering.[2]

Full Disclosure is necessary to reveal the full scope of human slavery, which extends off planet and into many other civilizations of which earth humans, many that are children, are used for sex and trafficked. In most all reasons behind the massive profits for human slavery, sexual slavery and free labor for the NAA is involved

World War II Timelines

What has remained hidden is that the NAA had massive influence on the cause of instigating World Wars over the powers accessing advanced alien technology for weaponization, technological mind control, space colonization, massive human Blood Sacrifice and soul harvesting on the Astral Plane, and for world domination between the government cabals. The end of World War II began the massive organizational efforts for setting up galactic conglomerate criminal enterprises hidden in some of the Secret Space Programs to administer to mass levels of Human Trafficking for slavery, supersoldiers, and sex, earth humans are used as a commodity for trade with off planet civilizations. The Power Elites refusal to reveal to the earth population the existence of extra-terrestrials, extra-dimensional entities and human off planet colonies and conglomerates hiding advanced technological abuses, while involved in committing serious genocidal crimes against the earth inhabitants, blocks access to Informed Consent of earth activities with intentional malice, deceiving every inhabitant on earth, thus, is harboring the Galactic Human Slave Trade. This allows these nonhuman and human criminal syndicates to continue to abduct multiple thousands to millions of human adults and children for secret military projects, sex slavery, food, play-pets, free labor, genetic modification and an assortment of NAA agendas designed to enslave and torture humanity

Informed Consent

Given the importance of Informed Consent for the protection of Human Rights and as an ethical doctrine, it is applicable to Universal Laws in the petition of demanding factual truths of accurate events to be revealed to the human population in the event of full disclosure. At this time on the planet earth in the larger global events designed for world slavery and extradimensional entities genocidal agendas, informed consent in this larger context is non-existent. Therefore, all people interested to serve the disclosure movement can benefit through the comprehension of the higher principles of informed consent and the lack thereof, to open dialogue on the ethical implications this has made against the human race, as the demand for full disclosure grows stronger and becomes more unified. At this point, the lack of informed consent as the result of non-disclosure of true and accurate events on this planet, establishes gross negligent abuse, which can directly lead to multiple species genetic annihilation as well as other devastating consequences. [3]

Galactic Plane

The galactic plane is the plane in which the majority of a disk-shaped galaxy's mass lies. The directions perpendicular to the galactic plane point to the galactic poles. Most often, in actual usage, the terms "galactic plane" and "galactic poles" are used to refer specifically to the plane and poles of the Milky Way, which is the galaxy in which the Earth is located.[1]

Precession Of Equinoxes

We all incarnate as earthly beings that evolve through the Precession of the Equinoxes. This takes us through the Consciousness realms moving through the Ecliptic path of the Gate of Man to eventually complete the evolution cycle, which intersects at the Galactic Center. Once we unify the consciousness experiences through the Gate of Man intersecting with the Galactic Equator at Ophiuchus' feet, we are potentially given access to The Golden Gate. This allows us to proceed on the Ascension path to become resurrected eternal spiritual beings unified with the Cosmic Holy Spirit. From our solar system the Galactic Center lies visually along a Line that passes through The Golden Gate. This is the Gate to Eternal Life which pours out the Universal Elixir that opens at the end of Precession Cycles.

The Golden Gate is located on the circuit path, where the two great celestial spheres intersect together that create four quadrants. The quadrant is one of four circular sectors in the equal division of the planetary sphere. The first great circuit is the path of the Sun through the zodiac made in its annual cycle. The other is the circle path made from the center of our Milky Way galaxy called the galactic equator or the Galactic Plane.[2]

Geoengineering

Geoengineering is the scientifically used term for artificial modification of Earths climate systems through two primary ideologies, Solar Radiation Management (SRM) and Carbon Dioxide Removal (CDR) According to the chemtrail conspiracy theory, long-lasting trails left in the sky by high-flying aircraft are chemical or biological agents deliberately sprayed for sinister purposes undisclosed to the general public. Believers in the theory argue that normal contrails dissipate relatively quickly, and contrails that do not dissipate must contain additional substances These arguments have been dismissed by the scientific community as Conspiracy theories such trails are normal water-based contrails that are routinely left by high-flying aircraft under certain atmospheric conditions.

Because of the widespread popularity of the conspiracy theory, official agencies have received many inquiries from people demanding an explanation, and rarely do the authorities make attempts for Accountability to the public, citing its a conspiracy and not worth investigating. Believers in the conspiracy theory speculate that the purpose of the claimed chemical release may be solar radiation management, psychological manipulation, human population control, weather modification, or biological or chemical warfare, and that the trails are causing respiratory illnesses and other health problems [1]

Chemtrailing

Chemtrailing is the publics term for the classified ongoing artificial modification of Earths climate systems using reflective nano-materials (aerosols) to reflect sunlight. The aerosols are dispersed via jet aircraft trails that expand into reflective artificial clouds.[2]

Carbon Dioxide Removal (CDR)

Carbon Dioxide Removal (CDR) and seqeustration This is artificial trees, ocean fertilization etc. These projects are declassified for the most part. This method of geoengineering IS NOT the focus of this website.

Solar Radiation Managment (SRM)

Solar Radiation Management (SRM), controlling sunlight before it reaches the planet.

Radio Frequencies (RF)

Climate Geoengineering is a completely runaway juggernaut of total insanity. The planet's climate system is unraveling by the day as the geoengineers try frantically to control it with ever more desperate and destructive measures (which were a primary cause of the climate disintegration in the first place). Powerful radio frequency transmissions have a profound effect on clouds that have been aerosolized by the jet aircraft spraying of toxic electrically conductive heavy metals. Massive Aerosol operations off the west coast of the North American continent, such heavy spraying is used in conjunction with RF transmissions. Bizarre cloud configurations commonly occur due to the radio frequency bombardment of the atmosphere for climate modification purposes. The ongoing radio frequency saturation in our atmosphere is extremely harmful to living organisms, including all humans.[3]

Neurological Toxins

We can be blocked from receiving these higher frequencies transmitted during the Ascension Cycle, even when we are directly exposed to them, from excessive distraction in materialism, being bombarded with low ELF or radio waves, or from uncleared accumulated negativity and toxic exposures. There is tremendous amount of chaotic forces being purposely spread in order to confuse, obfuscate, distract and trap the masses into very low frequency behaviors that continually drain their energies. Additionally, on planet earth we are exposed to an array of **neurological toxins designed to impair the organic functioning of the autonomic nervous system and keep brain wave activity in high stress states. Pharmaceuticals, vaccinations, Chemtrails**, ELF, radio wave and wi-fi exposures, genetic modified foods, preservatives, aspartame and recreational drugs are all designed to impair or damage the nervous system over a period of time with continued exposure, dulling the higher sensory ability and suppressing Consciousness of the human being. When we become aware of the potentially harmful effects hidden inside the push of mass consumerism, we can make better choices to protect ourselves and our energies from being unconsciously drained by these forces using Consumptive Modeling to push their products on us.[4]

Geo-Engineering is Bio-Engineering

Please note that Alien Implants work in the human body similarly as the chemical process of Geoengineering is used in spraying Chemtrails in the skies. Alien implants are a bio-engineering technology designed to shape the human body into the submission to agendas, while chemical (nanoparticle) geo-engineering is used to control the weather by harming the ozone layer and create excessive methane gases. In both examples, when the foreign (unnatural) material is introduced to the natural body it disrupts the electromagnetic energetic balance and the homeostatic rhythm of the body. This puts the body in hyper-immunity state and or adrenal exhaustion while fighting off the "invader". The body develops coping mechanisms to deal with the foreign invader while extreme stress is placed on the central nervous system, brain and immune system. As with chemtrails, Alien Implants most generally act as a "metallic" frequency overload and exposure to impact the overall bodily energies and its aura field. Eventually, this disrupts the body organism and as a result, Parasites, fungi, yeast and other microorganisms become overgrown and imbalanced in the body. It is important to understand that energetic parasites (this is just one byproduct of alien implants) eventually manifest turning into a variety of physical parasites in the human body. Physical parasites impact all bodily functions, mental body functions and thought-forms, induce emotionally hysterical states, as well as promote disconnection from the inner self and spiritual energies. If the body is heavily implanted, and therefore parasitic, anti-parasitic therapy such as cleanses or fasts are highly suggested to

regain energetic balance in the homeostatic organism of the entire body, mind and spirit. If you are new to cleansing please research to help inform yourself of the phases of cleansing the bodily internal organs to help you regain energetic balance and energetic health.[5]

Control over Atmospheric Layers

When the upper atmosphere (Ionosphere-Magnetosphere) is undergoing heavy ionization (Solar activity is a key to Human DNA activation) therefore changing portions of the fields particle charge, the lower atmosphere on the surface of the earth will be impacted through exposure to the changed electron-proton ratios. The attempt to control the rate of the charged particles created through the ionization field as it enters the lower atmosphere to the planetary surface, is one of the negative agendas for the sprays of Chemtrails. This is an attempt to block the natural connection that exchanges between the Upper Atmosphere and Lower Atmosphere of the Earth, as these are areas of NAA attempts to maintain their Frequency Fences. These fences have specific electron ratios that will be compromised if those ratios change. The N.A.A. manipulated the magnetosphere (in the upper atmospheric layer) to invade the planetary brain thousands of years ago by using technology to control the magnetic field. When the magnetic field is controlled, the mind control begins, hence this is the power source of Mind Control programming (enslavement) on the earth.[6]

Development of Hidden EMF Technologies

Scientific research and development of nuclear weapons programs, such as the Manhattan Project, were the beginning stages of creating more Secret Space Programs, black military operations, which became offshoots from the principle laboratory in Los Alamos, New Mexico. The war began the race for nuclear arms and the development of newly introduced extraterrestrial and alien advanced technologies. The competition for world domination and military supremacy eventually extended to off planet social experiments and expanded the diversity of exopolitic agendas. Additionally, the development of hidden militarized electromagnetic, Radio Waves (ELF), and Microwave Weaponry, commonly applied on the planet today in psychotronic warfare, began in earnest.

The first nuclear weapons were created by the United States during the time that technology trade agreements were being made with off planet civilizations. These trade agreements were hidden behind multinational corporations and government agencies that would be gradually assimilated into one global conglomerate of control, that extended to off planet activities, to enforce the veil of secrecy. Seventy years ago this month, the U.S. dropped the first atomic bombs on the two Japanese cities during the final stage of the Second World War. The planet has never been the same since, as these destructive events created grave consequences for the future timeline of the human race, as a result of these anti-human and barbaric actions. The planet's protective magnetic force field and atmospheric functions for radiation balancing and its energy transfer processes were damaged. This further resulted in the creation of inorganic black holes and artificial wormholes that are littered throughout the planetary atmosphere.[7]

Interference in Chemical Synapses

Intuitively, I also feel Chemtrails interfere with neurotransmitter functions, as neurotransmitters are the chemical medium through which signals flow from one neuron to the next at chemical synapses. Chemical synapses allow our nerve cells to form circuits within the CNS - they've done everything they can to disconnect communication in our body, to disconnect, divide and separate. Our nerve cells, our Neurons, their natural function is to form circuits. Circuits are things that connect with each other. It's creating a circuit, which allows the communication to be had between multiple levels of nerve cells. Chemical synapses are crucial to the biological computations that underlie our perceptions and the way we think. It's the chemicals there and how our brain is processing these neurotransmitters - this is what helps to create what we perceive as the reality - our perceptions and the way we think. These chemicals allow the nervous system to connect to

and control other systems of the body. When I say chemicals I'm talking about chemical synapses. These are synapses that use the chemicals in our body that are neurotransmitters to connect and control the bodily systems, like giving instructions to the organs or the glands.

When you overload people with all of this electrical exposure, all of this chemical emission exposure, it's directly interfering with neurotransmitters. Not to mention how many people are also being prescribed psycho-active drugs which also interferes with the chemical synapse functions because it's forcing or delaying neurotransmitter production in the brain. This can block the brain from receiving communication signals at higher frequencies - higher frequencies like our Soul, our Spirit, our spiritual family, our Guardians, our Guides because this exists above the frequency scale of the material reality. This combination is commonly used as a type of localized electro-chemical induced frequency fence to interfere with human Bio-Neurology and therefore a frequency fence blocks higher consciousness development as it impairs the bio-spiritual evolution of that person, the Ascension process of that person.

In order to remove the Frequency Fence from suppressing us we have to see that it exists. When we become aware that something is suppressing us this is the first step that leads us to clearing it because we're focusing our consciousness and becoming self-aware.[8]

Gravitron

The Gravitron is a part of the Beast Machine that holds the tilt of planet Earth at its unnatural and artificially sustained 23.5 degree angle and is becoming aligned with the natural Earth's Staff. Metatronic races created the Gravitron vortex networks to link portals in our Sun and Earth, twisting the planetary blueprint into unnatural configurations called Demon Seed. Metatronic Reversals are manifested into spirals that harness the gravitron to create unnatural artificial gravitational fields on this planet. The Gravitron is an electromagnetic harness field that is part of a larger electromagnetic harnessing structure called the NET. These are Black Hole technologies that were orchestrated on purpose, through which this planet has been imprisoned by these fallen forces of NAA.

Black Hole Systems

The main groups of Negative Aliens, the Annunaki, Drakonians and Necromitons that source out of the Phantom Matrix spaces in the parallel systems, formed alliances to take control over the earth, which are referred to as the NAA. These groups used technology to open Wormholes that were blended together to create the power required to attempt to pull the earth body into the Black Hole System leading into the phantom matrix where they exist, and could then gain total control over the planet and humanity. The parallel system which these entities came from is called the Wesa system. This is a universal time matrix and its parallel which many of the Anunnaki and their hybrids originate from, the Wesedak system, while the Drakonians species are coming from the antiparticle universe called the Wesedrak system. [1]

They joined together to run energetic reversals in the planet in order to realign the earth with their system through the wormholes and black hole system they created for that purpose

Graviton

This unnatural alien reversal black hole technology used by extradimensional entities, is not to be confused with the term Graviton. In physics, the graviton is a hypothetical elementary particle that mediates the force of gravitation in the framework of quantum field theory. If it exists, the graviton is expected to be massless (because the gravitational force appears to have unlimited range) and must be a spin-2 boson. String theory predicts the existence of gravitons and their well-defined interactions. A theory of quantum gravity is needed in order to reconcile these differences. [2]

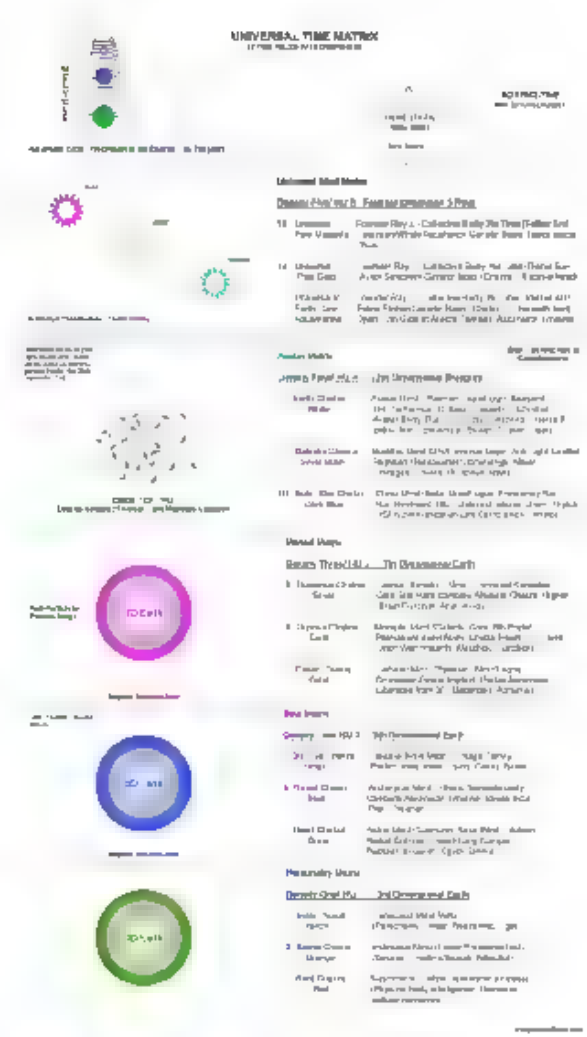
Harmonic Universe

The Universal Time Matrix is comprised of five density levels that each hold three dimensional holographic fields within them, or groups of three Spectrum of Frequency that manifest as platforms of consciousness perception and expression. Each of these density levels are organized into a trinity of dimensional reality fields, and each of these reality fields are also called Harmonic Universes or HU. In each Harmonic Universe, there are consciousness levels that have characteristics in the blueprint that result in matter forms and consciousness perception that is unique to each harmonic universe or density. Each expression of the God source in its collective consciousness or life form, has many stations of identity that exist in each of the dimensional realities or Harmonic Universes.



Universal Time Matrix

For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody These aspects are called the Stations of Identity.

- In the First Harmonic Universe in 1D-2D-3D exists the three layers of the personality matrix or incarnated human.
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Soul Matrix.
- In the Third Harmonic Universe in 7D-8D-9D exists the three layers of the Monadic matrix
- In the Fourth Harmonic Universe in 10D-11D-12D exists the three layers of the Christos Avatar Matrix.
- In the Fifth Harmonic Universe in 13D-14D-15D exists the Three Layers of the Rishi matrix or Threefold Founder Flame or GSF Flame

These collective consciousness bodies exist on the planet earth throughout the densities and are aspects of the future timelines and the Lightbody of the planet earth. The earth consciousness body is directly interconnected in all Harmonic Universes to interface with the human consciousness, which is its life form expression in all densities.

- In the First Harmonic Universe the in 1D-2D-3D exists the Three layers of the earth matrix
- In the Second Harmonic Universe in 4D-5D-6D exists the three layers of the Tara Matrix.
- In the Third Harmonic Universe in 7D-8D-9D exists the three layers of the Gaian matrix.
- In the Fourth Harmonic Universe in 10D-11D-12D the future earth blueprint in its crystalline form in the exists the three layers of the Aramatena or Aurora Earth Matrix
- In the Fifth Harmonic Universe there is no dimensionalization into matter forms therefore there is no planetary body or human forms In the fifth density as the consciousness does not manifest into matter this area is called pre-matter The three primal light and sound fields hold the ray expressions of Mother Arc, Father Arc and Golden Ray Sun of Christos the trinity of the Godhead from which all biological forms are created in all of the Harmonic Universes

During the Ascension Cycle, and personal Awakening we are able to open the dimensional doorways beyond the access of the magnetic repulsion zones that function to separate the densities, in order to integrate with our higher consciousness aspects stationed in other densities or Harmonic Universes. This is the process whereby we refer to as Spiritual Ascension,

as the awakened person undergoes gradual Ascension Stages for Expanding Consciousness by connecting with and integrating the intelligent energy of the higher consciousness aspects

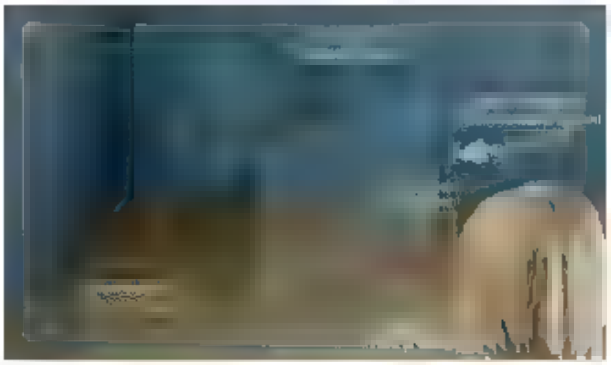
Hologram

Consciousness energy creates, stores and retrieves experiences and meaning in the Universe by projecting and expanding at certain frequencies in a multiple dimensional model that creates a living pattern called a Hologram. Human consciousness is comprised within a personal Lightbody Hologram which attunes itself to the larger Universal hologram by the medium of energetic exchanges of information held within light, sound and electrotonal codes in the unified field.



How Holograms Work

Our reality is a consciousness hologram. Holograms are manifestations of the properties of light, how light is produced and transmitted and how it interacts with itself. The Universe is a time matrix consciousness hologram. Reality is projected as illusion of timelines within the hologram. Our hologram is composed of grids of instruction sets (morphogenetic fields) created by the source consciousness then projected into awareness by electromagnetic energy at the physical matter and anti-matter level. The hologram is created and linked through a series of web networks, or multiple layers of grid matrices based on the patterns of Sacred Geometry or Creational Code Language. The Universal Hologram has an Alpha and Omega which includes all time cycles as beginning and ending simultaneously, as multidimensional consciousness evolves throughout the alchemy of time and space. As the grids collapse, everything within the hologram will collapse, helping to understand what is going on in the world today at the end of the Ascension Cycle.

Human Consciousness is a Holographic Light Projector

The human body is a holographic light projector. The human central nervous system processes electrical impulses transmitted from the DNA code which further neurologically transmits to the brain the instruction sets to perceive external images as a context for reality. A person can only experience the levels of (multidimensional) reality that have been programmed into the DNA code and the personal 12 Tree Grid, the holographic template.

If we understand holograms of refracted light, we can begin to understand the holographic architecture placed in the consciousness fields to bend or control the refraction of light and sound within an Inorganic state of being. An inorganic state is defined as a state that was artificially built by an extradimensional entity (N.A.A.) with the aim and goal of

subversion, infiltration and enslavement of beings subjected underneath its realm to its own "reflection of light" All of these Ego Filters, Collective Archetypes, Addiction Programs, Mind Control Structures, Alien Implants, are examples of inorganic refractions of holographic architecture that were artificially built in dead energy structures through frequency manipulation. This is how they were able to invade the planet without being physically seen and detected by the spiritually oppressed human masses.

By superimposing these refracted light spectrums to be directed at the whim of the "controlling entity", through its hidden agenda – the entity can create overlays of perception, overlays of identity, and this is the means of alien mind control of which has been discussed fervently many times before This is called a holographic insert. By controlling perception of identity, one can control the consciousness of the identity and eventually through subversion of the original identity, possess the beings body and mind to become subservient to an agenda that is neither organic nor natural to the soul

We are able to change, alter and adjust refracted light patterns through the compassionate witnessing of these patterns thereby applying pure love through our spiritual body consciousness to remove harmful frequency devices.

When we apply consciousness with intent, when we apply change in the frequency structure and we direct it throughout our bodies, we can remove, alter and clear artificial refractions of structures that impact our personal hologram. The HGS system is designed as a roadmap to reclaim the Christos Body (the Risen Christ through Sacred Marriage with the Trinity or Hieros Gamos) through the removal of artificial Alien Machinery, dead, inorganic, refracted light holograms that have been used to enslave and torment the human race for thousands of years This is entirely possible however most of us will need mental discipline, the reeducation to remember our original language and a context to apply frequency alterations with the Krystal Star, Christ consciousness intent

If you look at holograms from different angles, you see objects from different perspectives, just like you would if you were looking at a real object. Some holograms even appear to move as you walk past them and look at them from different angles. Others change colors or include views of completely different objects, depending on how you look at them. Holograms have other surprising traits as well. If you cut one in half, each half contains whole views of the entire holographic image. The same is true if you cut out a small piece -- even a tiny fragment will still contain the whole picture. On top of that, if you make a hologram of a magnifying glass, the holographic version will magnify the other objects in the hologram, just like a real one.

Current Science

The **holographic principle** is a property of quantum gravity and string theories that states that the description of a volume of space can be thought of as encoded on a boundary to the region—preferably a light-like boundary like a gravitational horizon. First proposed by Gerard t Hooft, it was given a precise string-theory interpretation by Leonard

Susskind who combined his ideas with previous ones of 't Hooft and Charles Thorn Thorn observed in 1978 that string theory admits a lower-dimensional description in which gravity emerges from it in what would now be called a holographic way.In a larger sense, the theory suggests that the entire universe can be seen as a two-dimensional information structure "painted" on the cosmological horizon, such that the three dimensions we observe are only an effective description at macroscopic scales and at low energies (frequencies) Cosmological holography has not been made mathematically precise, partly because the cosmological horizon has a finite area and grows with time.A hologram is a three- dimensional photograph made with the aid of a laser (or photons) To make a hologram, the object to be photographed is first bathed in the light of a laser beam. Then a second laser beam is bounced off the reflected light of the first and the resulting interference pattern (the area where the two laser beams commingle) is captured on film. When the film is developed, it looks like a meaningless swirl of light and dark lines. But as soon as the developed film is illuminated by another laser beam, a three-dimensional image of the original object appears. The three-dimensionality of such images is not the only remarkable characteristic of holograms If a hologram of a rose is cut in half and then illuminated by a laser, each half will still be found to contain the entire image of the rose Indeed, even if the halves are divided again, each snippet of film will always be found to contain a smaller but intact version of the original image Unlike normal photographs, every part of a hologram contains all the information possessed by the whole The "whole in every part" nature of a hologram provides us with an entirely new way of understanding organization and order If we try to take apart something constructed holographically, we will not get the pieces of which it is made, we will only get smaller wholes.

Mental Holograms

Mental Holograms are projected as reality pictures or images that are generated through the creation of a technological Holographic Insert using artificially encoded symbols of the native language of human beings, for the purpose of manipulating the individual or group by controlling their perception of events or energetic conditions [2]

Alien Machinery

For those of us in the Indigo and Krystal Star families, it is important to understand that Alien Implants are Artificial Machinery, inorganic technology that is being used in the planetary field to manipulate the collective mind for Mind Control purposes. The vulnerability is that the "collective consciousness viral program" that promotes the Artificial Timelines, can influence or interfere with our natural physiology, Brain and nervous system processes therefore controlling our perceptions. Mental and emotional imbalances are energetic disease patterns that create energetic blocks which lead to physical disease patterns. Alien implants which include Holographic Inserts reinforce the Negative Ego and the Archontic Deception Behaviors which contribute to manifesting disease physically, emotionally, mentally and spiritually. Alien machinery and their mind control implants are artificial and can make us sick in a variety of ways, if they are not corrected

War Over Timelines

There has been an acceleration in the war over the timelines involving artificial base 10 architecture that supports the holographic projections of Artificial Timelines used by the NAA to generate splits and inversions throughout the earth s dimensional fields.[3]

Manipulation of Timelines

Mental Holograms and holographic inserts have been used throughout our historical timelines by the NAA, including during major historical events in order to manipulate and eradicate true events in human history. Holographic Inserts can be used in many sophisticated ways to alter perception and install programming through the manipulation of the human DNA code, by altering how this signal is being sent to the brain and neurological system. The human body and energy field is a living light hologram, thus through Holographic Inserts, the entire physiology and consciousness of the individual can be altered.[4]

Dead Light

the "dead light" mental disease that accumulated from our histories is becoming unhinged from the other dimensions that are in a state of accelerated collapse. As the Dual Spiral [of the Dead Light and the Liquid Light descending and meeting in the physical worlds as Equals for the first time] breaks through a reality (timeline) it releases the toxic disease of the mental bodies pattern and its dead light is scattered and spewed into the environs. The dead light matrices aka Phantom Matrix, also reflect the Artificially Bent Light Holographic Inserts (which contain the controlled versions of the nature of this reality, such as Crucifixion Implants) and these are also shattering and exploding systematically into the outer fields. These are **false realities (artificial holographic inserts)** that we have thought were "real" and then developed mental beliefs that held that specific version of reality in place. As these **false realities** are shattered into pieces (for those maintaining energetic balance in this explosive terrain), we can read the signature of those Dead Light pieces that reflect the nature of its disease and its schism. Further we can read the field signature to reveal the truth of what really catalyzed certain world events, such as the Hiroshima Bombing or Jewish Holocaust. As an Ascending human that activates Higher Sensory Perception and is cleared of most negative ego, one can clearly read the energetic field memory as a manipulation of the Negative Alien Agenda NAA. We then start to realize how little humanity has actually been in control of any cataclysmic world events in the physical plane.[5]

Armageddon Software

The Armageddon Software Mind Control programs, such as War, Pestilence and Cataclysm fears, or many other fear programs which can be interchanged as they are similar bio-warfare Mind Control programs used on the earth to suppress and control human consciousness. This is a Psycho-Spiritual Warfare strategy used against humanity by the Negative Aliens through their False Gods and False Father Satanic religions to use SRA to repeatedly kill and torture humans through Religious Violence and war. The Armageddon Software is the enslavement companion Mind Control system which is activated through the Crucifixion Implants in Holographic Inserts embedded into the planetary body and human body.

Horizontal Triad Bodies

This graphic representation is to better understand the horizontal structure that make up the mental bodies and control timelines of the consciousness identities that are a part of the 12 Tree Grid in the Universal Time Matrix.

II. 12 Spherical intelligences make 5 Horizontal triad grids that hold the Morphogenetic Field or Blueprint for the mental bodies/identities. Each triad body builds the horizontal structure of the 12 Tree Grid and is the Mental Body/Male Principle.

The horizontal shields function as the male principle of the mental body for all of the consciousness bodies. When the five shields built upon the dimensional triads are integrated into the consciousness and Lightbody layers, the higher spiritual Rod function of the lightbody is activated. This is the activation of higher intelligence mental bodies that connect into the dimensions they are built upon.

Horizontal Shields Map

5 Horizontal triad grids that hold the Morphogenetic Field or Blueprint for the mental bodies/identities. Each triad body builds the horizontal structure of the 12 Tree Grid and is the Mental Body/Male Principle. Radial Bodies are spheres that form a tissue around all layers of our Horizontal Triad Bodies. The Radial bodies work similarly as the projection screen that creates our moving hologram and determines the quality of the life we experience. The Radial Body receives through the Merkaba circulation of spiral energies the instructions held in the Blueprint and DNA of the 12 Tree Grid.

Core Manifestation Body

The Core Manifestation Body Foundation: The structure of the macrocosmic Universal Tree of Life is replicated within the microcosmic personal tree of Life. Individual Human anatomy manifests upon and within the multidimensional layers instructed by the core manifestation template – The Tree of Life. Every aspect of the Universal Creation and life spiral are designed and instructed through these Blueprint structures. Learning to travel consciously through the Tree of Life is the pathway to personal sovereignty and freedom. Intelligence bodies create the blueprint Morphogenetic Field of all creation. It is a Base-12 Template and culminates in the Krystal Star Body with Cosmic Christ Intelligence. (13, 14 and 15 are the Threefold Founder Flame Rays (Mother/Father/Sun). See the cosmology of dimensions in our Universal Time Matrix here.

I. 12 Spheres, 12 Rays, 12 Dimensions, 12 Timelines (24 Potential), 12 DNA Strands, 12 Base Tone Harmonic Structure (144 Sub-harmonics) of the Cosmic Christ Frequency in the 12D.

II. 12 Spherical/5 Horizontal grids that hold the morphogenetic fields for the mental bodies/identities. Each triad body builds the horizontal structure of the Tree and the Mental Body/Male Principle.

The 12D Tree is like a homing pigeon that we can attract or magnetise the parts of our spiritual body energies/identities that need to be returned back to the rightful owner, back into Original Eternal God embodiment throughout this Universe. The 12D Tree is a process of a spiritual body integration sequence that will at some point be overridden by the Krystal Host, as the Double Diamond Sun Body exists in a different configuration pattern. However this 12D Shield configuration is what allows us to "phone home" to our family of Christ here in 3D matter Timelines, and this is why it's so important.

Soul Triad Body Sensory Ability

6D Indigo Sphere, 5D Blue Sphere, 4D Green Sphere = Trinitized Form of 1 Horizontal Body: When the bodies are integrated and merged horizontally the mental aspects of the trinity activate new sensory body functions. When these bodies unify, cellular telepathy and the ability to read energy signatures transpires, the ability to transmute energy and potential senses begin for transfiguration and transmigration.

Monad Triad Body Sensory Ability

9D Silver Sphere, 8D Gold Sphere, 7D Violet Sphere = Trinitized Form of 1 Horizontal Body. When the bodies are integrated and merged horizontally the mental aspects of the trinity activate new sensory body functions. This begins shapeshifting (which is molecular transmutation) and the ability to project one's consciousness in other dimensions and spaces

Spherical Energy Domains or Horizontal Triad Bodies

When we incarnate into a three-dimensional electromagnetic domain we are imprinted with the holographic template of the complete Universal Tree of Life, and all of these five harmonic universe layers direct the instructions for our consciousness life stream that is experiencing time and space. The five levels of the harmonic universes govern the spin rates for all of the merkaba fields which transmit electromagnetic currents that are based upon the architectural laws and frequency characteristics that exist within each system. As an example, the spin rate of the planetary merkaba fields govern the birth, evolution and death cycles of the entire planetary species.

The Horizontal Triad Bodies are made up of trion fields, the ante-matter consciousness units from the highest harmonic universe which allows the individuated consciousness to make the energetic connections to the primal light source that occurs beyond or outside of the time matrix. The corridors leading into the God worlds are also referred to as the Center Point of All Union, these are the transmigration levels and home domain of the true Ascended Masters and Cosmic Citizens.

The interconnected collective layers of all of the five horizontal triad bodies which includes all spherical energy domains, is called the Radial Body. These are multidimensional radiation identity spheres that encompass and protect the horizontal triad bodies. The Radial Body controls all of the internal spherical energy domains which further govern the holographic projection in the timelines that the individual consciousness experiences while incarnated in the Harmonic Universes. The merkaba field circulation of the instruction sets that pass into the personal Christos shield and then into the individuals' DNA template are what inform the Radial Body about the specific design for the actual holographic manifestation that is being experienced in time.[1]

Hyperboreans

Transcript Hyperborea is something that has been coming up recently with our exploration within the community of Albion and the Cathar body connections in the UK. Simultaneously, when the Ophiuchus transmission began in December, there were a lot of Greek philosophers that came into awareness in the Timelines around the evolution of Mystery Schools Starting with Ezekiel, then to Pythagoras, to Socrates and Plato. Then moving through to Aristotle, who tutored Alexander the Great, and many more of the Greek mathematicians and philosophers that were responsible for creating the foundation of many of the Mystery Schools that are still in use today In metaphysics, Pythagoreanism and Aristotelianism profoundly influenced Judeo-Islamic philosophical and theological thought (i.e. Kabbalah) during the Middle Ages and continues to influence Christian theology

This is the information that Aleister Crowley came into and began his arduous study for creating Thelema and is the basis of esoteric information that the Masons and Freemasonry use today This has a deep connection into the roots of Greece and the Greek islands in the Ionian Sea We know, with the Root Races, the Hyperboreans have been known for a long time in a variety of esoteric material Both Rudolf Steiner and Blavatsky talked about the Hyperboreans.

Through our information it came through that we have parallel earths. We have the current 3rd dimensional earth timeline that we are on. We are in the densest parts of the timelines of planet Earth possible. This density is the 3rd dimensional earth This is what's known as density 1 In density 1, on planet Earth, we have two other parallels that are future timelines of Earth that are acting in conjunction with this one. It is hard to understand how Timelines work. From this point of view, they are all simultaneous. There is a the 5th dimensional Earth and a 7th dimensional Earth and we are all moving in a simultaneous evolution at the same time through multiple cycles of timelines It's understanding, that each of these parallel Earths are also undergoing an Ascension process along with us down here As we awaken down here, in this density, aspects of ourselves from these other earths are also awakening at the same time and as we awaken into higher Consciousness, its changing the histories It is changing the timelines, all at the same time, from this density that we are in, in this lowest part of planet Earth The Hyperboreans, are what we would consider, the Root Races from 7th dimensional Earth The 7th dimensional Earth is what's known as Gaia. This is in the Monadic planes in the higher density planes and evolution time cycles. When we think of us moving into Soul plane or the Monadic plane, we will connect into the seven dimensional levels of the earth's consciousness memories.[1]

Original Fall of Hyperborea

Transcript - The reason why the Hyperboreans are so important to us, is because this was where a lot of the original trauma of the "fall" happened to the human race. This is when the split in time occurred and this is when the Moon was brought to the planet as its companion satellite to manage the gravitational field. It's like saying in the root races during the process of human evolution, of humanity moving through the timelines of consciousness, this was a part of the original soul that was involved in the first seeding of helping the planet to reclaim her bits because the planet had exploded. We had all kinds of problems. It is like saying, this is a part of the reseeding of a Consciousness, helping the consciousness to have a particular experience on a planetary body. The Hyperborean period is like the golden age. This is when the level of identity is fully connected and fully in your Christ Consciousness, meaning you have this understanding that you are fully connected to the Godhead, there is no pain and suffering, there are no types of situations that we deal with on planet Earth. So, in this early root race cycle, there was a war that happened. This is what's known as the Electric Wars.

When the electric wars happened to the Hyperboreans, they were split apart from their higher counterparts in Polaris. So when you think of Polarians and Hyperboreans, these are part of the 1st root races that were ever seeded as a part of spirit coming into a type of body and having a consciousness. Having some kind of experience on a planet in a body. Hyperborean in the beginning stages, was again, a golden age but by the end, the electric wars happened. Again, this is a part of the the Orion Group and the conflict over dominion over planets such as the Earth. Who's going to seed here? Who's going to live here? Why are you here and I'm not? This is what happened and because of this massive tragedy of war, the Hyperboreans split and fragmented. Some of them were incarnated on our planet and those mythologies, what we call a mythology of the Hyperborean, are actually the Titans we know in Greek mythology. So, when we are talking about Perseus, Zeus and the Olympians, were talking about the original races that sourced form the Hyperboreans. The Hyperboreans are related to all of that Greek tragedy. When you understand a Greek tragedy, my God, is it a tragedy. Everything about that mythology is just terrible, it's tragic.The Hyperboreans is a part of what became known on our planet, so I would say there's a genetic relationship to that and there is also a landmass relationship to that. Think of our planet, in this density, merging with its higher body. Think of our own bodies. We have a soul body and we have a monad body, same thing with planet Earth. Planet Earth's soul body is Tara. Planet Earth's Monad body is Gaia. On the Gaian body, the monad body of planet Earth, the Hyperboreans existed as a consciousness and that access point is in the northern part of our planet. So, when you think about how large these bodies are, remember the monad body is like 16 to 20 feet high. When you think of Titans and Olympians you get my meaning. The monad body is a lot bigger than the body we inhabit on planet today. The Hyperboreans, at that time, being in a type of pre-prototype monad body, their bodies were huge. They were big beings. Those are the Titans. I am sure a lot of the Nordic mythologies came out of that. Think of Thor, and maybe more into Swedish, Norwegian and Celt histories, there are probably a lot of overlays coming from the Hyperboreans. When you think of the Titans and Olympians there are a lot of similarities. Again, when we understand that this is a part of the 7D Earth and a part of the monad body, remember that the 7D Earth was invaded. So, this electric war is related to understanding how the planetary mind was invaded. What is happening on 7D Earth has a repercussion to the earth we are on. When you understand that this is all happening simultaneously, through various timelines and creation that are reflecting an aspect of consciousness of that entire planetary body.

So, Hyperboreans are obviously very relevant to us because there are parts of the original history and timelines when we came to the planet and we lived in peace. Meaning it was like one of the first civilizations of a human being type of prototype, as an immortal being. There was no type of death. There was consciousness choice. There wasn't sickness and the things that we deal with today. We are not in an eternal body, we're not a full Christ being yet, but we're an immortal being. We are a type of being that does not know what it is to be in death and dismemberment and disease becasue we have not seen that or experienced it yet. This is a level of naiveté also. So, we're in this golden age and the planet gets invaded. The planetary mind gets taken over. The Hyperboreans are very much a part of that because that is the consciousness that was sort of here at the time. When we understand that the electric wars created a separation. When the planet is invaded, we have an inability for the planet, the matrix of the planet is now being manipulated magnetically.

Moon Chain Lines

This also brings in Moon Chain Lineages and is why the moon is now associated with our planet and in creating the magnetic structure and our tides. This is how the aliens are controlling the race through these lunar forces, because we are no longer in a golden age of consciousness. We are now in an enslaved race because our planet's been invaded and now that the planets invaded, they start setting it up as an NAA outpost. This is why Hyperborean is actually very important for us in terms of understanding that this time cycle is pre-Atlantian. Understanding that these were root races before the Atlantian Cataclysm. The Hyperboreans actually predate Atlantian and Lemurians on the earth, even though the Hyperboreans went on to incarnate in some of the Lemurians to keep attempting to help assemble the DNA and what was lost from that that particular state of being.

As well, understanding that the northern point of planet Earth, if you think of our planet with a Soul body and a Monad body, again, these are parallel Earth timelines, nested together in a hologram. To access the seventh dimensional monad of our planet to the Hyperborean history timelines, you would be located somewhere in Scotland. Somewhere between Norway and Scotland, somewhere in the north tip over there. So this is an access point of understanding because, this is a merging point into a higher monad body, but the Hyperboreans also came in from this area of the planet. Its recycling pieces, they are no longer immortal. Now they're forced into recycling the consciousness in the lower density. Now they have to incarnate down here because they can't live in that immortal state anymore. I suppose that is where the source of these great tragedies lie. The're mad, they're not happy campers are they? Its got to be very difficult being an immortal being and living in luxury and abundance and this state of a golden age. Feasting and having fun and running around and all the sudden your in war and you're seeing your loved ones be killed and you have never even seen something like this before. You don t know what it is to die and to see loved ones be killed. This is the tremendous shock of the Hyperboreans and in some ways I would also say that this has a large part to do with the seed of cosmic rage. A part of the cosmic rage of seeing that tragedy and the trauma experienced from it. I think there is a seed there that is connected to this root race related to the incredible pain of seeing something so traumatizing like that. So, again the Hyperboreans would have relationship to the top of United Kingdom, that northern point there. Then also, what it feels like, is parts of the seeding went to Iona or Ionian Sea areas. It s interesting because today, in the community there s been discussion about an island, Iona, which is up in Scotland, which is right there in the northern tip of Scotland. Think of the Ionian Sea between Italy and Greece. When you think of the Greek mythology, the Titans, the Olympians and the seventh dimensional monad timelines with Earth Gaia, we also have the Violet Ray, the 7D Violet Flame we've got all the issues with the New Age Ascended Masters there. Some of those Titans, they are different names for the ray masters. Those are the beings that were working with the rays, they just have a different name in Greek and probably a different name in Roman mythology, because I think the Romans borrowed some of this from the Greeks. It all comes from the original Hyperboreans.[2]

Hyperborean Holocaust

With the latest transmission of Galactic Law, the planet is intersecting with the Hyperboreans timelines in the 7th dimension which are the original histories of humanities fall from the Edenic state. Aeonic Pairs are being taken out of the dimensional door of Transtime continuum (TTC) to experience the infinite space of God Worlds, to bring back that memory into this density. This disrupts the False King of Tyranny and the NAA Military timelines, their Looking Glass technology that has used soul capture technology to create clones, and process soul imaging on other synthetic timelines/dimensions. The seeds of this root race trauma in Hyperborea are used to enslave humanity in holocaust timelines, as evidenced by the Nordic Aliens manipulation and control of the Nazi regime with Hitler's obsession with Hyperborea. Hyperborean is for some, a piece of monadic history connected in the northern areas of Scotland, and in the Ionian Sea between Greece and Italy. Reclaiming memories and clearing the pain of the Hyperboreans timelines may be productive now. [3]

Electric Wars Timeline

The Electric Wars Timeline holds major causal trigger event memories of when Artificial intelligence technology was in its earlier phases in this Universe. This timeline represents the pre-assimilation stages of the Black Subtle Forces in the phantom matrices, before gradually converting them into AI systems. The eighth astrological precession was the time of the Orion Invasion event that occurred as a result of the Stargate damage in the 8th portal, and through each of the subsequent planetary time cycles, the Alien Machinery was methodically brought into each dimension in order to reach the lowest density of the material reality. Essentially, the NAA plan was to bring the Electric War dramas to the matter fields of the earth in order to anchor it into the physical realm, which shifts future timelines [4]

Implanted Thoughts

Lisa Renee

0:00 / 1:20:52

Dear
Ascending Family,

When we have a better comprehension of how **Implanted Thoughts** and mind control implants are used, we can better discern the agenda and refuse to participate with it

If someone set out to design a society that drives people to worship self destruction, self-absorption, and materialism while driving them to escape the inner emptiness through self-medicating and addiction, you'd have the general blueprint of mind control that is used in our society Essentially, this is about blocking perception of reality by jamming neurological receivers and hijacking the brain so that the masses cannot decode or perceive what is really going on Many of us can feel the pressure to create soul disconnection and AI assimilation in the masses, has been turned up The antidote to mind control broadcasts and clearing implants is deeply connected with developing our spirit and refusing to become a slave to automated impulses. For this reason we will look at the most common forms of **Implanted Thoughts** and implants and how to identify them.

Since the Majestic 12 and Zeta Grey Alien Trade Agreements were made about 85 years ago, earth inhabitants have been aggressively experimented upon with hidden technologies used to **Implant Thoughts** as one of the many prongs of social engineering programs. During World War II, there was a major revolution in the militarization and approach to warfare as a result of the major world government's making contact with negative aliens, who introduced them to an array of advanced technologies in exchange for access to human genetics, breeding programs and earth resources. During this phase of setting up covert military programs to experiment with these alien based advanced technologies, it became common knowledge in the secret intelligence factions that human brain waves and behavior could be influenced or controlled through exposures to light and sound or electromagnetic frequencies These exposures were covertly tested out on human beings for many purposes, through the development of various electromagnetic frequency **Implants.**

Certain electromagnetic exposures are invisible and can change the way the brain processes information while influencing specific conditions in the mind and body, many times without the person's awareness. The methods used to approach warfare against enemies changed

rapidly, toward total control over humanities biological processes through combinations of exposures to a spectrum of electromagnetic fields Through targeting the human brain and bio-neurology, the mind, body and soul can be manipulated to control thoughts and emotions, transmit suggestions, interfere with long and short term memory, insert images, run audio and sensory experiences, and take control over autonomic and voluntary functions of the body. The goal is to confuse or destroy the organic signals that normally keep the mind and body in a state of homeostatic balance and equilibrium, while shutting down the genetic switches that are responsible for DNA signaling in the human body.

This month we are exploring more deeply the impact and effect of **Implanted Thoughts and Implants** that generate the pathological mind of the negative ego in the human population. In order to identify and locate the source of **Implanted Thoughts**, and refuse to become a slave to automated impulses, we must know that this technology exists. The mind control agenda is very complex, but it is important to realize that the use of artificial intelligence technologies designed to implant thoughts in the collective are what keep the AI timeline loops operating in the lower dimensional fields. When we clear **Implanted Thoughts and Implants** from out of our consciousness body, when we refuse to automatically play out mind control patterns of fear, violence and division, we are helping to collapse the collective AI grid. When we refuse to feed into the holographic insert or implant by holding neutrality and witnessing our pain body, making the effort to emotionally heal, the implant dissolves in the light you created in its place. When we choose love over fear, when we shift perception into higher virtues, when we 12D shield with our Avatar Christ, we can dissolve frequency implants and clear the painful triggers enmeshed within them. As you consider this information, hold awareness of these technologies so that if you need to locate them for dismantling, you are empowered to consciously participate with the process in partnership with your God self

Whoever controls an individual's mind through **Implanted Thoughts** also gains control over their identity, and the direction of the soul and the consciousness energy of that person. Thus, whoever controls the collective mind of the masses through the premeditated use of covert mind control tactics, such as aiming concealed electromagnetic frequency technologies to transmit **Implants** into the unaware public, will also gain influence over those individual groups unconscious and conscious thoughts, as well as their motivations, perceptions, and beliefs about the reality.

Essentially, this means that if we are exposed to concealed mind control tactics or allow something external to gain control over the thought impulses in our mind, then our beliefs, attitudes, instinctual drives and brain activity are not really our own. In people with weaker character development or unhealed traumatic injury, sometimes this also means that a person's outward actions are not fully their own, because they are being physically controlled by **Implanted Thoughts** that are being externally projected into their unconscious mind When people cannot control destructive impulses that generate outward destructive actions, they become an unconscious agent for spreading dark forces and dangerous chaos. Pushing people to the razors edge of insanity so they act out destructively is exactly what the NAA desires, as this is a potent divide and conquer tactic and it generates a lot of emotional pain and suffering, that can be harvested and used to further manipulate perception.

If our thoughts are not being carefully generated from our own self-determination and informed consent to make wiser personal choices, and we instead allow others to think for us, or we act from unconscious impulses stimulated by **Implants**, we lose control over our personal intent, consent and authority. If we cannot gain control and discipline over the content of our own mind, then we are forever consciousness slaves. Slavery and subjugation is the core purpose behind any agenda of implementing secret strategies for **Implanted Thoughts and Implants** within any population

If people are left unaware that they are secretly being exposed to such mind control tactics, they become a slave to the most dominating force, which is exerting a non-visible control mechanism in their bio-neurology. This bio-neurological **Implant** mechanism is designed to manipulate their thoughts, motivations and desires, which further act to take over that person's perception of reality. Once the perception of reality is controlled, formatted into the majority consensus or the approved version of history that was devised by the NAA, then the common people self-enforce the same fabricated narrative, without knowing they are being used as pawns in the controller game that covers up the archon-alien deception. Through the control and manipulation of the perception of reality, many earth humans self-enforce their own enslavement through the perpetual warring and exploitation of their own planetary resources

Diminished Reality

As a result of exerting electronic control over a person's brain activity and thoughtforms, our emotions, memories and the accumulated knowledge over lifetimes that form our mental map can also be manipulated and edited, in order to get us to believe in something that is not factual or true This is similar to the effects of using artificial intelligence computer mediated reality to edit out, subtract, and remove information, or manipulate ones perception of reality through technology that acts as a visual filter between the real world and what the user perceives. When a computer technology or implant is being used by someone to edit out or diminish the reality perception of others, like consciousness wiping of previous memories, this has negative effects and consequences upon the individual's internal functioning and their ability to maintain psychological and emotional coherence.

Technology that is used to diminish the perception of reality actually fractures the multidimensional consciousness body, where portions are connected into the augmented virtual reality, while other sections exist within the layers of organic consciousness timelines.

This is also referred to as soul fragmentation. Implants are specifically used to diminish perceived reality through the manipulation of the bio-neurological function of the person's brain, to not actually perceive or see the unapproved topic, object or thing that the Controllers do not want them to see.

Essentially this is about blocking perception of reality by jamming neurological receivers and hijacking the brain so that the masses cannot decode the data stream or specific frequency of that content or thing, which was selected to be intentionally erased from memory

If the accumulated information that we have available that educates and informs us about life is based upon a foundation of intentional lies and deceptions, filtered through **Implants** that diminish reality, we are at a severe disadvantage in making clear, intelligent and informed decisions that impact our future wellbeing. One example is the false information given to humanity by the NAA during World War II that established the convention for public curriculum within the academic institutions The falsified version of scientific and historical data that was written into the educational textbooks to establish the fabricated curriculum of approved topics, are still currently endorsed by the primary academic institutions. By managing intelligence and controlling access to information that *diminishes the perception of reality*, as well as supplying the perceived human enemies with disinformation, this keeps people ignorant in order to trick them into making the wrong decisions based upon lies

The manipulation of a person's perception of reality by getting them to believe in deceptions and illusions that are created through a lengthy series of false impressions over time, is a method used to diminish perception and control access to accurate information and higher knowledge Everyone on the earth is subjected to the continual stream of disinformation and implanted thoughts, the attempts to manipulate our perception while being blocked from accessing truthful and accurate information Now is the time to reclaim our truth and to

courageously face what has really happened to the earth and to all of humanity, while we were asleep and being implanted with thoughts that were not our own.

Controlling Perception is Subjugation

If we start to think more deeply on the reasons why the Controllers and the NAA work so hard to diminish our perception of reality in the external world by controlling the thoughtforms and beliefs we hold in our minds, then by what other methods can you imagine they would implement as mind control weapons? Here we are exploring more of what they commonly use in the forms of hidden technology that project **Implanted Thoughts and Implants,** in order to gain control and access into the individual mind, collective mind, and planetary mind Those that have access to the most knowledge, intelligence and conscious awareness of what is really happening in the world have the most strategic advantage on the planet.

Hence, the Controllers use this knowledge to their gross advantage to abuse power In the current consciousness warfare climate, diminishing easy access to open source knowledge, manipulating mainstream media while blocking the sharing of truthful information within the global community, is an important concept to understand This is an example of how divide and conquer tactics are used to manage intelligence, control perception, and direct collective consciousness levels into ignorance and subjugation.

When the human body and brain are being blocked with some mind control implant or a form of bio-neurological electronic harassment, it redirects the nervous system and brain to be more accessible to receiving thought transmissions generated from the many external sources that we are being exposed to. When focusing the person's attention on a series of light and sound images, such as movies and music, these images transmit holographic information and sometimes this data transmits frequency **Implants** into the central nervous system, brain and unconscious mind. Noting the high saturation of images

of death, violence and inhumane behaviors that are constantly aimed at the public from the media, reveals one layer of implanting harmful thoughts as a strategy.

Artificial networks continually send out electromagnetic pulses of information through technological devices both seen and unseen, to keep people fixated on meaningless dramas, 3D deceptive narratives and extremely negative emotions to produce pathological minds. If the majority of humanity is unaware that we are primarily using a pathological mind to co-create our reality, then we can easily observe what kind of world is being unconsciously created We have to open our eyes and look around to be honest about what we see as the global reflection Thus, we have to understand the nature of the pathological mind and its thoughtforms in order to commit to stop using it, realizing that it is a pathological mind that co-creates a pathological society.

Pathological Mind, Pathological Society

At some point every person will come to face the internal questions on the reasons why there is so much war mongering, senseless killing, poverty, child abuse, human trafficking, sexual misery and the intended destruction of natural resources that produce horrible human suffering across the globe. Unless a person has degraded into a predatorial minded psychopath who shuns all personal responsibility in the face of selfish agendas, it is completely obvious to many people that there is an all-out war being waged against the whole of humanity, beauty and creation. We are repeatedly told that the war against ourselves is from our own warring human nature. However, the Black Sun forces behind the mainstreaming of this agenda absolutely despise anything that represents the source light inside of a human being that is the essence of truth, purity, creativity, unconditional love and compassion Why are these qualities not developed and supported as the primary ethical values that are sustained within our society? Instead these virtues are generally thought of as personality weaknesses, and preyed upon as victims Consequently, those that exhibit these higher

moral character qualities can experience that they are harshly punished by society, as the pathological society greatly rewards its predators.

To decode the pathological mind, the next question to ask ourselves is who actually created it. At what point did the death culture, consumptive modeling and the incoherent spreading of mass chaos and destruction become the socially accepted, tolerated and normalized way of life for humanity? When did we choose to forsake the light of creation within us for the empty shadows of darkness, brutality and despair? Further, how could this have happened? With all things considered and with an open mind, could implanted thoughts and alien implants have contributed to manifesting extremely pathological minds and pathological consciousness?

Much of humanity has been swindled out of their sanity, coherence and higher knowledge, along with the capacity to be calm, peaceful and happy Instead, they are driven to the brink of traumatic stress and narcissistic injury, in order to reach the obligations of consumption and survival that is heavily promoted in this pathological society When looking to the global picture of the mass mind control reality, using hidden electromagnetic technology to project thoughts into the environment and into people's minds, starts to actually make more sense for witnessing the dangerous pathological behavior that is common today.

Source Pathological Thoughts, Intend to Clear Them

It is our responsibility to monitor our thoughts and decide if we want to own them as being authentic to us Where are your thoughts coming from, and are you self-aware to the point you can feel your body reacting to impulses from external stimulation that do not feel natural? Start to consider to source the thought, source the impulse, feeling or stimulation that you may be experiencing in that moment and pay attention to impulses that are pushing you to do something. When you pay attention and

make a choice to shift perception, you are directing your consciousness to become aware of what is really happening inside your body.

Humanity has been conditioned through trauma based mind control and assorted implants, to have default settings for building a pathological mind that is used to think, problem solve, and develop distorted belief systems that direct people to make self-destructive decisions about life. As a result of the early onset of mind control programming that has produced the pathological mind, we further co-created a pathologically disturbed life along with a pathologically disturbed family dynamic. Additionally, if we remain stuck looping within the bondage of the pathological mind, we are connected to the collective unconsciousness and thus, we help to co-create and feed into the pathologically sick society that impacts everyone

If we allow ourselves to honestly and deeply reflect on the current pathological conditions we find throughout human civilization, do you think it's been created naturally or manufactured intentionally? Why would any species repeatedly choose pathological thoughts, behaviors and actions that are designed to deliberately destroy themselves and destroy the world they live in? Who actually benefits from the intended destruction of the earth, the divisions between the nations and the senseless killing of the human race?

When we consider who is responsible for creating the events that contribute to the hell realm that has become common place upon the earth in the dark cycle, then we must consider what responsibility each person has within their connection to the whole of humanity. When a person awakens and finally can see more of the inhumanity that is rapidly rising up in the world, what can they do immediately to be a productive cause for healing the world?

All belief systems that separate human beings from each other are divide and conquer tactics that are ultimately destructive to everyone. Every horrific event in history

that brought our world closer to manifesting the realms of hell and perpetual suffering in the death culture, could be prevented and shifted through the reinvention of ourselves, to be in our heart and committed to live and speak out truthfully. To live truthfully and authentically, requires the reconstruction of each person to be willing to look at and accept personal responsibility for the darkness that exists within themselves. How would life on earth change, if every person was willing to take responsibility for the darkest fears they have and they were willing to address their darkest fears about existence? Are you willing?

In order to refuse to participate with the harmful agendas committed by the pathological minds that are manufacturing the pathological society that is engineered by the Negative Alien Agenda, we will need to explore more deeply the more common pathologies of the 3D mind Pathological minds have been manufactured in the lower dimensions through a variety of trauma based mind control strategies, as well as electronic harassment that delivers frequency based implants into the subconscious mind, and the entire human energy field.

Implants produce Pathological Mind and Parasites

Thus, the use of light and sound to stimulate brain waves can be used to modify and change a person's brain activity, thought processes and behavior in a relatively short period of time through frequency implants. What is little understood is that this can also be used to alter the natural function of DNA signaling in the human body, turning on and off genetic switches in the human body, which can alter perception.

Alien implants are used to implant thoughts into the minds of the masses to form socially acceptable belief systems that shape anti-human value systems, for upholding the main Controller Pillars of Society. This is a form of social engineering used to condition humanity to accept the spiritual abuse from the Negative Aliens and to self-enforce their predator thought systems, through hierarchical enslavement systems based in fear. This is

the primary divide and conquer strategy made against the planet and humanity. Alien implants and their Archontic Deception Behaviors contribute to disease physically, emotionally, mentally and spiritually Alien machinery and their mind control implants make us sick in a variety of ways.

Alien implants work in the human body in a similar way to the chemical process of geo-engineering that is spraying chemtrails in the skies, to manipulate or control electromagnetic forces in physical matter. The construction and raw substances used in alien implants are vast and some are unknown. They can be made of biological material, synthetic material, etheric substances, as well as programmed nanobots or nanites that are used in artificial intelligence technologies. Alien implants are a bioengineering technology designed to shape the human body through implanted thoughts, which produce mind control subjugation to NAA agendas Whereas chemtrails are employing chemical sprays and nanoparticle geo-engineering that are used to control the weather, and also transmit ranges of programmable frequencies over populated areas to experiment for thought control.

In both examples when the foreign, unnatural or artificial material is introduced to the natural body it disrupts the electromagnetic energetic balance and the homeostatic rhythms within the human body. Many times running low level EMF or radio wave signals that are designed to disrupt the human body's natural homeostasis and electromagnetic balance. This puts the body into hyper stress or a hyper-immunity state and adrenal exhaustion, while fighting off the "invader" The body develops coping mechanisms to deal with the foreign invader, while extreme stress is placed upon the central nervous system, brain and immune system.

As with chemtrails, alien implants most generally act as a metallic frequency overload and exposure, to impact the overall bodily energies and it's auric field with ranges of heavy metals Eventually this disrupts the body organism

balance and as a result, parasites, fungi, yeast and other pathogenic microorganisms become overgrown and imbalanced in the body.

It is important to understand that energetic parasites are one byproduct of alien implants, and eventually they can manifest and turn into a variety of physical parasites that weaken the human body.

Physical parasites impact all bodily functions, mental body functions and negative thought-forms. They can induce emotionally hysterical states as well as promote disconnection from the inner self and spiritual energies Many of these pathogenic organisms attract parasites that attract demonic energies into the weakened human body, and this is a primary reason for this strategy If the body is heavily implanted, and therefore heavily parasitic, anti-parasitic therapy such as cleanses, fasts, meditations and prayers are highly suggested to help regain energetic balance within the homeostatic functions of the entire body, mind and spirit. It also is necessary to stop consuming all genetically modified foods, which are designed to radically increase parasitic invasion into the human body through the digestive system

Implants Behavior Profile

In the application of an artificial intelligence implant, such as a Sexual Misery or Victim-Victimizer frequency coded mind control implant, its mechanism acts like a tick or leech that burrows itself deeper into the lower areas of the astral body, mostly into the 1st and 2nd layers of the perineum and sexual organs An implant in the sexual organs directly impacts the instinctual reactions and emotional response functions, which run stimulated impulses into the spinal cord, brain and throughout the central nervous system.

Many implants are also targeted into the nerval plexus at the base of the skull, which is the location of the Atomic Doorway, the access area into the medulla oblongata where the inner spiritual light reflects out of the eyes from the embodied Monad That inner light will die or become dead in the eyes after this mind control implant

takes control over the body through the central nervous system manipulation, which stimulates the pathological thoughts of the negative ego. This is to block the spiritual body from coming into embodiment in the physical layers It is common to target etheric implants into the reptilian brain to activate the survival or fear based thoughts, and these are placed in the base structure of the brain stem via the medulla oblongata. This is a way to manipulate the autonomic impulses sent to the brain in order to change perception or stimulate thought control via the negative ego mechanism, which triggers activity in the lower three layers of the subconscious, instinctual and conscious mind matrix. Until a person can realize that this is happening to them through a default setting made within their autonomic nervous system (fight · flight), and they learn to reengage with their parasympathetic system, they are unable to shift out of the negative ego reactions stimulated by implants.

Electronic Harassment through Electromagnetic Signals

There are a variety of external transmissions both in sound and light waves, audio and visual stimuli, emanating from the ranges of the electromagnetic spectrum of frequencies. Some of these transmissions are more natural, while others are designed for artificial mind control and are from non-human sources. The physical human body emits electromagnetic waves and the signals used to control most brain and bodily functions exist in the extremely low frequency scale. Extremely low frequencies can be easily sent out through a variety of technologies and they are used as a method of electronic harassment, targeted towards many human beings These electromagnetic signals are directed into the planetary body and earth surface, in order to control the neurological system and brain of individuals and groups of people. Implants and mind control technology are real, it is an established, certifiable fact that the media will not tell you about The technology exists, the hardware is in place, the patents are on record and the agencies that run and control them are in place and have been operating these technologies for a long time

Electronic harassment generates bio-neurological impairment in the human body, which can reverse and confuse brain signals. *The Satanic agenda is to reverse human neurological functioning by conditioning the person to create and feel pain in order to activate their pleasure centers* The cycle of interconnection made between pain and pleasure centers is reinforced and conditioned into the bio-neurology non-stop, which escalates into harmful addictions or deviant behaviors When we pay attention and we care about what is happening to the planet and people, we will begin to clearly see an agenda designed to assault and damage the human nervous system If we are more aware of how the neurological functions in our body are related to our mental and emotional states, then we are better equipped to take control over the direction of our thoughts and emotions Then we can open and train our neural pathways to receive direct messages from our higher consciousness bodies, the Soul-Spirit Self, overriding the messaging from the negative ego that are the main frequency spectrums used in electronic harassment and implants.

External ELF Signals Trigger Distress

To impact and manipulate human consciousness all that is required is to create a complex signal through a frequency following response, when the brain locks onto an external signal coming from the environment and begins to mirror that signal. The signal can be a carrier wave in a spectrum of frequencies designed to create feelings of distress or trigger emotional pain. As a result the brain chemistry alters and changes, generally plummeting the person's consciousness into a range of lower negative emotions and confused perceptions. Large populations can be sent frequencies into specific demographic areas that are designed to incite agitation, aggression or anxiety. Then they put out news feeds in the mainstream media to incite fear, blame and promote sensationalism, thereby inciting violence, rape, hostility, and criminal behaviors It is possible to modulate signals on any electromagnetic carrier for transmitting a message

into the brain to alter chemistry, implant thoughtforms, and instigate behaviors for shaping or grooming the person to carry out some harmful or criminal action.

Artificial Machinery and Alien Machinery

Inorganic machinery that is placed in many layers of the lightbody by the Negative Aliens through programs running artificial intelligence are also used to claim ownership over that individual. These could be simple mechanical devices to complex systems that are being used to infiltrate and harm the human organic biological system These AI programs infiltrate the biological neurological processes of the body like a virus, to infect and block the natural frequencies from running appropriately If the device is complex, it needs a power source in which case it has been observed that some alien implants function as battery bodies that collect energies and then circuit them to another power supply. When a person has a pathological mind they are mentally unstable, and as a result they are more vulnerable to dark force manipulation methods and possession. Mind control scripts and their string commands are used to sweep and locate unstable people, such as severely narcissistically wounded males, to act out violence and spread the artificial intelligence program signal, to infect more people with similar or matching traumatic injuries.

Etheric Weapons

Etheric weapons can be viewed as energetic knives, cleavers, needles, and other sharp objects that are found in the light body, body parts, genitals, corpus collosum, nervous system and brain Most commonly this is a spraying type of frequency implant that is designed to create general harmful EMF frequency disturbances, they are also used to weaken the auric body in order to bolster the larger use of bio-neurological harnesses. Sometimes etheric weapons are sourced from a bleed-through from another timeline where war and weapons were used. Many times the person may have expired or had their physical vehicle destroyed, from this weapon that was used against them in another identity in time.

Etheric weaponry is generally connected to residue imprints in the auric lightbody that are sourced from the warring historical record in the Soul matrix, or from other timelines and identities. Many times when the person is undergoing a spiritual Ascension progression, when reaching that layer in the spiritual body where a trauma occurred, the cellular memory record will reveal itself and one may see with their inner vision etheric weapons as a bleed through event from other timelines and spaces. Etheric weapons are also used by the Imposter Spirits and the NAA as a dark force manipulation methods to create pain, distress, illness or energy leaks in a human being

Zeta Seal and Frequency Fences

Military Grey Alien Technology has been artificially written into the various reversal field grid networks, and have manifested independent harm from their technologies of military weapons, genetic experiments, timeline programs, artificial intelligence, holographic inserts and astral mirages, human abductions, tagging, tracking and astral plane manipulation One particular distortion we'd like to bring to your attention is the Zeta Seal, because these implants have been more active in the general 3D population during this time of transition to the next harmonic universe, which is bringing much higher frequencies to be exposed to the masses. The Zeta Seal is located in the Astral Plane layers of the heart complex to prevent activation of the 4th DNA strand, which blocks access to the higher intelligence of the Mentor Fields, or the first layer of the higher self mind in the 5th dimensional layers It is designed to interfere with the nadial structure, which instructs the human nervous system and communicates with the circuitry of the human heart and the kidneys. Electrical impulses are generated from the lightbody via the nadial structure, which is a spiritual body part. It is made up of a webbing of energetic receivers and energetic transmitters that are intrinsic to the interconnected messaging functions in the human Soul-Spirit consciousness layers.

Consciousness Wiping

Blank Slating or Consciousness Wiping is a term that refers to mind wiping technology used by military personnel and the NAA, usually in organized covert operations to remove current memories or accumulated intelligence of black operation projects, when the projects or person become obsolete.

Blank Slating technology has also been tracked remotely to observe that is has been applied to planetary gridwork and ley lines, by the NAA in their attempt to destroy planetary consciousness memories and historical records of the actual events on the planet. Through blank slating the planetary consciousness field, such as using this technology in the horizontal networks, this renders many humans beings into amnesia and unable to recall or remember who they are and what their true origins are

This technology is very effective on human beings that exist in lower frequencies of the three layers of ego. It is less effective on Starseeds, Indigos and people that tend to be naturally open hearted, empathic and intuitive. This happens on the earth to people without their informed consent quite often.

Holographic Insert

Holographic insert is a frequency insert placed in the lightbody for implanting a false or real memory that is being programmed upon the consciousness for mind control purposes or for DNA genetic manipulation Holographic inserts are used to bend time and space and therefore, manipulate holographic images and timelines. Inserts are implanted into the consciousness layers though the frequency manipulation of the bodies energy fields or lightbody Many times they can play out whole snippets of holographic movies in audio or visual cues, and is one reason we must be extremely careful to boundary test communications that come from clairvoyance or clairaudience. Many times a holographic image of a person or religious figure that is beloved by another, will be manipulated in some way to deceive the person and change their perceptions. Relying on audio or

visual cues for higher sensory communication with spiritual entities or fieldwork is not recommended due to the high degree of manipulation.

Sleepers

When there is bio-neurological control exerted on certain test subjects, such as people that have been subjected to MKUltra, alien or milab abduction for experimentation, the person can be triggered neurologically to commit certain behaviors or criminal acts. That person that is triggered by certain key words, phrases or energetic phasing, into carrying out these actions involuntarily is called a "Sleeper". This has also been referred to as the Manchurian Candidate. After repeated bio-neurological manipulations of use on the target-person, the control system moves to the parietal lobe to block current moment sensory responses of awareness or direct cognition The person is now "locked inside a 3D window" and cannot perceive anything outside of that window of perception. Essentially, the consciousness is trapped in a small material cell block in the reality. The parietal lobe may be caged or higher sensory functions controlled, by the manipulating entity or the programming This is how holographic inserts of projected images and thoughtforms can be controlled to change the perception of the human being. This is how the masses are being controlled through diminished reality perception, put to sleep or mind slided.

Mind Slides and their Symptoms

Mind Slides are holographic inserts that trigger sensations in the neurological system that are designed to keep people ignorant and blind to what is happening to them Many alien abductees have mind slides to deny their experience and bury it deep behind the walls of unconsciousness or amnesiac barriers. When areas that are unapproved topics are exposed to the alien entity controlling or hosting the body, they will program the mind slide to activate when certain words, phrases or codes are read or spoken.

Sometimes when people are injured in the body part traumatized by suppressed alien abduction memories, they will break through the amnesiac barrier to relive that trauma experience The mind slides are inducted into the human's neurological system, which activates mind control technology to pulse the brain's receiver. This can take the form of a mind control script; that abduction never happened, it's your imagination, can pulse fears of going crazy, or even play images or movies in the mind of that person Some of the symptoms of mind slides occur when exposed to unapproved words such as Alien abduction, NAA, Reptilian, Satanic Ritual Abuse, UFO, Implants, and MILABS. These symptoms include:

- Falling asleep or feeling drowsy (nervous system anesthetized)
- Feeling an electrical zap or punch to the solar plexus.
- Compulsion to leave the room and get away from the messenger/information.
- Feeling irritated or excessively agitated, inner or outer violence that stimulates outbursts
- Compulsion to smoke cigarettes or self-medicate with drugs.
- Resistance in the form of denial, aggressive reactions, labeling the information as ridiculous
- Hostile feelings generated to verbally attack the messenger (VV programming)
- Evoke negative images or negative emotions to reject the information.
- Corrupted dream state with extreme negativity or interference in the astral state through lucid dreams.

It is a mind slide program when human beings completely ignore unapproved topics or unapproved words, terms or issues that would challenge their belief systems in the 3D Narrative, or expose their enslavement that was hidden by the amnesiac barrier. Many times even if they come face to face with it, they still deny it or invalidate what happened Mind slides are a form of mind control that can be implemented through radio waves that form frequencies that transmit into the person's unconscious mind, in their bio-energetic field. This can happen when

asleep or awake, and people are especially susceptible to unconscious implants if they leave the TV or media running when they are asleep or focused upon other tasks

A consciousness sweep mind slide is a holographic insert program placed in the planetary mind that erases or changes the meaning of an unapproved word, unapproved phrase or a range of unapproved topics, when it is exposed to the masses that have been implanted by NAA artificial machinery

An example is when people open dialogues or reveal evidence about aliens, abduction, child sexual abuse or SRA they are commonly ridiculed, persecuted, defamed, shamed and promoted as lunatics to other human beings that have been mind slided

Sexual Mind Control

The name of the game for the Nephilim Reversal Grid network is propagating and feeding highly destructive addictions, including deviant sexual attitudes and behaviors within the global human population. This is a part of propagating the Sexual Misery collective mind control programming, along with the Victim-Victimizer archetypal programs. Its first priority is designed to relegate all sexual activity laced with guilt and shame into the lowest forms of human perversion and pain possible. Depending on accepted cultural attitudes, it will use the perceptive level of social access to serve the current societal paradigm into painful and harmful distortions Sexual misery programs are designed to destroy the inner and outer union between the masculine and feminine principle, and to make everyone on earth sexually miserable. These types of implants can be directly felt in the sex organs, and can be passed between partners when having intercourse. Sacred sexuality and loving and healthy behaviors towards sexual healing is the antidote

SRA Moloch Binding Implants

Moloch is a soul binding entity and energetic container used to harvest energy in Satanic Ritual Abuse. Many people are not aware they have been implanted with

Moloch insignia or implants, which happens when the portals in the genitals are breached, especially in violent sexual assault. Many times Moloch is used in the satanic ritual to collect and disperse the human beings vital energies, to hierarchies of satanic spirits in a trade for earthly-based power and control. When a percentage of the human beings vital forces and spiritual energies are collected by satanic spirits, that person is high risk for soul binding, mental fragmentation, dark manipulation and possession. The Moloch tank is a type of siphoning construct that is used by the Moon Chain entities, as well as satanic forces to mark the children of earth with the Moloch signature as early as possible. It has been observed in genital mutilation rituals, that Moloch implants are attached to the body of that child or person through the traumatic pain they experienced

Tracking Important Releases of AI Implants

The Reptilian Tail is observed as an Alien Implant on the base of the coccyx which is used to stop the lower three bodies (1D-2D-3D) from forming into a merkaba spinning field, which allows for drawing in higher source fields from the higher Soul planes and the Monadic planes for the spiritual lightbody. It is designed to block higher kundalini activation, while feeding the lower negative ego mental body complex.

Scalar Tagging has been used on the 4D astral plane by extra-dimensionals for quite a long time. With inner vision, some versions of them may appear like dark jacks or confetti splattered around the auric field that emit certain frequency signals. They are something like astral bots that are automated to lock onto the coordinate location of a person that has been tracked or tagged. They are tracking devices, and they have a particular tone so that those on the Astral Plane can monitor the location and coordinates of that particular Starseed or Indigo, or whoever that being is. Scalar tagging can be individual to that person's history of evolution, such as Lemurian Tags, Atlantian Tags, Egyptian Tags, Draconian Tags, and Orion

War Tags. If the person was a powerful being in that Galactic History or timeline event, sometimes they are tagged to be monitored by NAA or human military forces.

The Zeta Seal is located in the Astral Plane layers of the heart complex to block activation of the 4th DNA strand which blocks access to the first layer of the higher-self mind in the archetypal layers Essentially it is the 4D frequency fence placed in the human body to keep the human soul reincarnating in the Astral Plane, and under the control of the NAA during the death process. It creates a multitude of blockages that separate the heart's sensory abilities from being received or recognized by the mental body or conscious mind.

Aging Disease or Cell Death Programs are assorted implants or uploaded mental programs to activate negative labels for medical classification of diseases, rapid aging, and inability for tissues to adequately repair cellular integrity, leading to cell death. These collective consciousness disease programs are kept alive in the mass consciousness to activate diseases, implement pharmaceutical and drug dependencies, and take over the central nervous system functions, while shortening healthy life spans Because we die much earlier than we should and the aliens live for thousands of years, it creates a severe disadvantage to us.

666 Implant or Templar Seal this level of the blockage and quarantine is what is referred to as the 666 seal. It is a genetic block in the sixth dimensional frequency layers residing within the 6D Indigo Ray and 7D Violet Ray Monad or oversoul bodies and crown chakra, which is referred to as our Wings. At the beginning of monadic level integration, this 666 Implant or Templar Seal can be removed from the human Lightbody Collective Guardian Family of RA specifically oversees this implant removal.

Metatronic Implants are Metatronic Reversals that connect to Metatronic Implants in the shadow body or Negative Form, which are designed to reverse and drain life force out of the earth body and the human body The shadow body or negative form must be cleared from the

human lightbody in order to reconnect the ascending potential of the twelfth dimensional template of the human body. This unnatural configuration was built by the NAA via Alien Machinery that uses artificial intelligence to parasitize the earth's life force to achieve immortality, and this distorted structure is referred to as the Tree of Artificial Life, or the Black Tree of Life.

Crucifixion Implants. One of the largest lies promoted to divide the human race is the war over False Gods. The false archetypal story of a Crucified Christ figure is a mockery to further enslave humans into believing in a salvation model through a Crucified Christ It represents the tortured human being, as we are all the Inner Christ, and we have been crucified and implanted when our planet was invaded. These Crucifixion implants are tangible control structures placed in the 7th dimensional layers, and are therefore in our individual bodies, in the 7th Chakra, its complex, meridians, and the entire left side and female principle of our bodies. We are not aware of these implants until we open the 7th Seal and start connecting this part of our 7th layer light body, into our personal consciousness field. The Crucifixion Implants are located in seven main areas on the left hand side of the body, on the 7th Axiatonal line as follows:

- Top of skull on left side
- Heart, left lung, back of left knee
- Pineal Gland
- Left side of neck and lymphatics
- Rear left thigh and buttocks
- Alta major (where skull rests atop the spine), hypothalamus, and left shoulder
- Aorta artery on left side of neck

Crown of Thorns is designed to distort the natural energetic circuitry of the crown and block the higher self-communication descending from higher dimensions being transmitted into the crown receivers This implant acts as another frequency fence to keep humanity unable

to communicate or gain access to their higher self bodies. It blocks the vertical communication channel around the head, skull and crown.

Glandular System Implants are malfunctions in the path of the Kundalini rising that impact the brain receivers and the Hypothalamus, Thalamus, Pineal, Thyroid, and Thymus During NAA invasion 5,500 years ago, the collapse of the magnetic field created DNA scrambling that removed our natural language and ability, which allowed us to communicate with the entire spectrum of planetary species. This interferes with the sequence of fire letters to arrange correctly in the DNA template, causing loss of species memory and language In the bible, this is referred to as the time that Yahweh deliberately confounded our species language, because humans were sinners, which is called the Tower of Babel Implant.

Solar to Earth Chakra Implant is the distortion in the 11D Buddhic layers, purposed to interfere with the 10D communication from the Avatar self to be unable to ground into their 12D field hub or earth based chakra interface. If you have trouble with 12D Shielding, connecting crown to feet in vertical channel, and AI hologram spinouts of Negative Forms, you should check for the Solar to Earth Implant or Avalon Implant.

Splitter Tech is a type of AI encoding that runs as a mind control script that is embedded into a variety of types of media, such as written words, or the spoken words of an infected individual, or through video or audio recordings that can pass on that same scripted code to another person that resonates with that same frequency or information It reveals a profile that is commonly observed in very academic or intellectually developed people, and tends to be attached to highly mentalized persons with dominating negative egos, judgmental perceptions and little to no heart opening.

When we genuinely desire to connect with our Inner Christ spirit, and we work to correct ourselves into higher alignment with God's spirit, we can ask for help in removing implants. This is very effective as long as we

continue to dedicate ourselves to act in accordance to the health and growth of our spiritual consciousness When following the Law of One as a lifestyle, a person receives much spiritual support in many ways, including implant removal.

Extradimensional Parasites and the Chimera Effect

The extremely negative thoughts of a pathological mind damage the nervous system, brain and DNA. When someone is expressing rage, violence, hatred and the desire to kill and enslave, they attract not only demonic spirits but extradimensional parasites that want to harvest the emotional energy being generated from that body. Currently people on earth are being energetically assaulted and exposed to levels of extreme violence and depravity that are being broadcast by not only the media, but through all aspects of the popular culture The agenda is to mainstream Black Sun Satanism throughout all of the popular culture, which prepares the terrain for people to become consubstantial with extremely negative forces, as well as connect them to satanic controlled parasites that want to trade places with the human host.

When a person has been exposed to conditions of genetic chimerism, combined with consistent bombardment of extreme violence and depravity, when they act out any of these violent behaviors, it stimulates the chimera parasite to gain complete access to enter the human body. This is to say, if a person is acting out extremely negative behaviors that can be defined as Satanism, it is now possible due to their consent with expressing these forces, that person loses autonomy over their body. Trading places with the satanic parasite, which repels the original Soul and installs itself within the human body. When it enters the human body, the DNA and blood record is altered forever. This is the Chimera effect.

Child Sexual Abuse Implanted Thoughts

The NAA broadcast this message of sexual abuse towards children into the earth body to get people to pick up these frequencies in their thoughts, and then carry out the sexual abuse of children worldwide It is extremely

important that any adult with a functioning brain that cares about the welfare of human children, be made aware of this most disturbing Archontic Deception Strategy, which is to specifically target human children for a range of NAA related bio-warfare strategies, such as:

- inflicting trauma based mind control and implants,
- vaccinations for genetic degradation, compromised immunity and bio-neurological hijack,
- to create lifelong pharma-drug dependencies and addiction while in childhood,
- to culturally shape their minds to accept anti-soul and anti-life agendas like Transhumanism,
- perpetrate mass child trafficking for sexual slavery, sexual slavery = consciousness slavery bindings,
- accept child marriages,
- genital mutilation,
- organ harvesting
- child sodomy/rape in group settings,
- rampant sexualization and promiscuity in childhood to adulthood,
- blood sacrifice,
- Satanic Ritual Abuse (SRA)

At the same time, reinforcing these children to carry out these same agendas into their adulthood, in order to replay the vicious cycle of Victim-Victimizer programming, Sexual Misery and slavery of the earth in every way imaginable.

This is a huge topic that I have talked about, mostly to deaf ears and closed eyes over the years, and in the past it's gotten me some vicious attacks by humans and nonhumans. Many people do not want to listen or understand the pedophile reality on the earth, and the challenge is to find words that people will be able to process in order to understand what this actually means, when the words are being spoken and transmitted. There is a massive collective mind slide and consciousness sweep program in regard to the problem of people having sex with children and raping children.

So when this topic is discussed, most 3D people that have not cleared their negative ego or holographic inserts, will be aggressively mind slided and perceive something differently, or they get very angry or hostile. It is critical for all of us on the earth to understand that child porn, child sex and child sacrifice is the Holy Grail of the NAA and Black Sun Satanics, and that disseminating this information has to be done very carefully This topic of discussion and investigation will dump a payload of satanic aggression and death targeting like no other unapproved topic.

Being Responsible for our Darkness

When we are blind to our mistakes in life that lead us down a path of suffering and disconnection, if we refuse to pay attention to these events and analyze our own behaviors that led down that path, we will never flourish. We must be willing to see our mistakes, the places where we can improve our competence in managing our lives, and where we can be as authentic and self sourcing as possible.

We cannot learn how to improve ourselves unless we are willing to face our darkness. If we can be objective and see our maligned thinking without judging ourselves as higher or lower, good or bad, just remaining open hearted and willing to evolve and change, then we can profoundly shift the quality of our life, and the life of others.

Taking responsibility for the darkest areas of ourselves means that we are willing to look at the inner areas where we are doing things that commit harm and that we know deep down are not in our best interest We make the choice to discipline ourselves into stopping harmful thoughts, behaviors and actions, because if we are being really honest with ourselves, we know they are not positive actions. The awareness to move towards more positive actions, starts to ripple changes out into the field that rearranges our lives to be based in truth and this also helps to clear out implants With every decision we make, if we choose to listen to the truth within and be deeply honest with ourselves, we start to align even more closely

to the positive presence of truth. This process reveals even more things that we may need to address truthfully, so that we can evolve into the highest expression of our personal potential.

When we are feeling mentally disturbed or feeling emotional tension, in order to dissipate that internal stress that we are feeling, we need to learn how to clarify our thoughts and feelings that are producing that tension in our body. We may need to source recurring negative thoughtforms that are being stimulated automatically from frequency implants attached to our unresolved pain located in our consciousness body

When we live a pathological life we create a pathological society

When we ignore the presence of darkness and we continually tolerate harmful behavior of senseless self-destruction, we commit a sin against the eternal light that exists within us We must become the love and light that shines from out of our form, in order to fulfill our purpose to become the authentic person we are meant to be.

Thus, we all must put some effort into our life to be the kind of person that we really want to be, and we will need the motivation to take care of ourselves properly Develop a vision of what you'd like your life to be in relationship to the kind of person you want to become as your highest expression in this moment and in the future Then aim for that positive vision and break down the goal into smaller pieces that you can demonstrate every day in order to create a meaningful and spiritually connected life If you live in service to the greater whole, your life will work out in the best possible way There is nothing more practical in creating the best quality life for yourself, then to solve the problems and obstacles that come as a result of committing to be the best person that you can be in this world

When we have a better comprehension of how implanted thoughts and mind control implants are used in to produce a pathological society, we can better discern the agenda and refuse to participate with it. The antidote to

mind control broadcasts and clearing implants is connecting deeply with your inner spirit, and developing your spiritual self every day with higher emotional qualities like unconditional love, compassion and empathy, and genuinely caring about what happens to the people and to the planet.

Please only take what is useful for your spiritual growth and discard all the rest Thank you for your courage and bravery to be a truth seeker. I am God, Sovereign, Free!

Until next, stay in the luminosity of your Avatar Christos Sophia heart path. Please be kind to yourself and each other. GSF!

With a Loving heart, Lisa

Lifting Your Veil: Surviving the Ascension Process
October 2006

Since July we have been in a Particle Conversion Period, a transition occurring between the dimensional reality fields that we are moving through and evolving towards. The vibrational octave became so wide in between the delineation of space occurring between the

3D reality fields and the Multidimensional fields, that we had increased sensations of feeling totally disconnected from our known reality.

Another way to express this is that we are leaving our known 3D reality and being disconnected from those 3D energetic grids as we are also being moved into a strange type of energetic transition. This can feel like an emptiness, empty space or null zone, a place in between the various timelines. Remember that the illusion of Time, is a Dimension. During this phase many of us are beginning to be positioned to move into the next stage of our development in the Ascension plan. This includes aligning to the appropriate timeline, which we are choosing to experience in the next stage of our evolution.

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the **"Ancient Science of the Shields"** (scalar-standing-wave templates of matter and consciousness), **"Merkaba Mechanics"** (interdimensional electromagnetic vortex mechanics), **"DNA Template Activations"** (frequency accretion within the scalar template behind manifest chemical DNA), **"Interdimensional Structure"**, **"15-Dimensional Anatomy"**, **"Bio-Spiritual Healing"** (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey** perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related published works of the MCEO, cannot at this time be "proved or disproved". Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Copyright A'sha-yana & A'zah-yana Deane, 1999. All Rights Reserved

Though the presently theoretica categorization of MCEO teach ngs within the pub c sector is recognized, t should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO trans ators/authors and teachers and many nd viduals within the nternational community, have personally chosen to accept the validity of MCEO teachings as represent ng more than a theoretica perspective, instead acknowledging the MCEO Paradigm as a factua reality interpretation and practica worldview through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered Such decision as to the factua or theoretical categorization of the MCEO Paradigm, and the responsibilities inherent to th s decision, are deeply private spiritua issues and thus must be assigned to the faculties of personal discretion

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm s built upon presently theoretical spiritual, scientific and h storical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***"Meditations for Spiritual Exploration"*** with the ntention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technolog es. As a reflection of commitment to responsibi ity in presentation, MCEO techniques and technologies are not presented for exploration in the public domain unt l they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors Though validation of factua actuality pertain ng to affects effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, ike the techniques and technologies themselves for the present time remain with n the realm of theoretical exploration, it can be reported that since 1999, f ndings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive**, n nature Therefore however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritua Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual.***

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances, a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity* **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication.**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one's personal discretion ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for

Copyright A'sha-yana & A'zah-yana Deane, 1999 All Rights Reserved

decision to engage involvement with MCEO teachings techniques or technologies rests with each individual and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation**, *to be utilized at the* ***personal discretion*** *of the reader or workshop attendee*

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*), **authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm;* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies.** If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation authorized MCEO translators/authors, members of Azurite Press, Trustees Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons in MCEO programs, including personal utilization of MCEO techniques and technologies These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared, individually held reverence, respect, appreciation for, and belief in the validity of, the MCEO Paradigm its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program, MCEO Maharata "Dance For" Programs, MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with

Copyright A'sha-yana & A'zah-yana Deane, 1999 All Rights Reserved

specific corresponding live workshop presentations which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the *many pages of dialogue and detailed explanation*** that s incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not ntended to be used alone but are rather ntended for used as an **additional educational aid in conjunction with their corresponding audio-video workshop program**

As new MCEO workshop materia s are often released and translated during live workshop presentations the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided n that they are n tially rendered **"in-the-rough"**, often with portions of text n hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail typesett ng, computer graphics, pagination and indexing As each new workshop since 1999 has ntroduced the next level of new, ive MCEO data translations, there has been insuff cient time to "move backward" and perfect the qual ty of production pertaining to MCEO Course-Book Manual texts from previous workshops The nformation and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materia s is achieved at the expense of quality n product production **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especial y since 2000, it has been of greater priority during this time to expedite ava lability of the MCEO teach ngs conta ned within the products, than t has been to demonstrate the standards of excellence in qua ity product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations n effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to", the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to ach eving excellence in qua ity of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a des re to provide the best possible quality of product and service in spiritual respect to the public Until the goal of achieving "perfected" product production qua ity is actualized, Azurite Press staff hopes that the pub c will share n the recognition that t is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

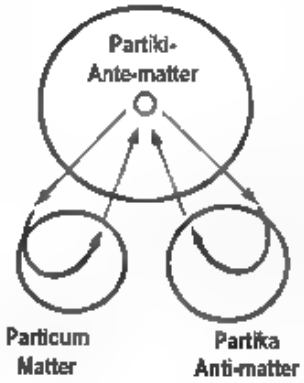
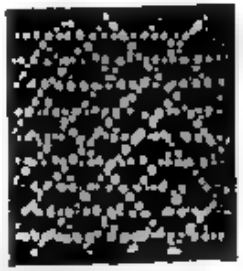
Chart 2A: Crystal Matrices - Morphogenetic Fields and Keylontic Science

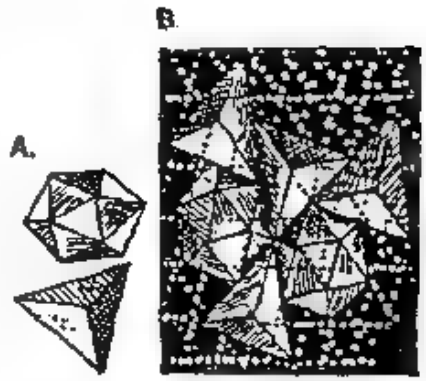
1 *Partiki, Partika and Particum*: Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operates as minute, perpetual motion fission/fusion generators.



2. *Partiki Grids*: The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields.



3. Partiki units continue to group or accrete upon the Partiki Grids, forming **A. *Keylons*** – crystallizations of "frozen light" (stand scalar wave patterns and fixed points of tonal frequency), and **B. *Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body – the Blueprint upon which matter and identity will manifest.



4. *Fire Letters* Light Symbol Codes that represent the electro-tonal programs of Keylons.

5. *Geomancies* Composite Fire Letter Light-Symbol Control Codes that represent the electro-tonal programs of Keylon Codes, which are used to direct the Fire Letters/Keylons and the flow of energy through the morphogenetic field Crystal Body.

Chart 2B: Dimensions, Keylons and Fire Letters

1 Dimensions represent **Scalar Fields** composed of specific patterns of electro-tonal frequency and light spectra. Partik Units from the Universal Unified Field of Partiki/Energy form complex **Partiki Grids** which form the **Frequency Bands** and energetic fabric of which **Dimensional Fields** are composed. Dimensional Fields are Scalar Fields that exist in specific relationships to each other, which are grouped in *sets of three dimensions*, through which 3-dimensional reality fields take place. A group of 3 dimensions are called a **Harmonic Universe**.

2 Each **Dimension** is composed of **12 Primary Sub-frequency Bands** that are formed by the **12 Primary Partiki Grid Lines**. Complex Partiki Grids build up upon the 12 Primary Sub-frequency Bands/ Partiki Grid Lines, forming the electro-magnetic fabric of light, sound and crystalline structure, upon which *dimensional morphogenetic fields* are built. Morphogenetic fields for individual forms will be constructed upon the Primary 36 Sub-frequency Bands (12 each x 3 dimensions) of the 3-dimensional system in which the forms will manifest.

3. Each of the 12 Primary Sub-frequency Bands in 1 Dimension represents a fixed point of tonal frequency upon which the standing scalar wave pattern of **Keylon Crystals** are formed. Thus, each Dimension has **12 Primary Keylon forms** in its morphogenetic structure. The points of frequency / electro-tonal programs / standing scalar wave patterns that form the Keylons are called **Fire Letters**, thus each Dimension has **12 Primary Fire Letters** within its morphogenetic construction. Combinations of the characters of the original Hebrew Alphabet are used to depict the **180 Primary Fire Letters of a 15-Dimensional Matrix**. The alphabet letters represent *sound-tone combinations* which are the specific fixed points of tonal frequency within the dimensional fields. By using the appropriate **Fire Letter Sequences** the structure of matter, biology and consciousness can be directly affected as the Fire Letters govern the forms through which the Keylon Crystal matter blueprints will manifest.

Example of Geomancy:

2 **Each Dimension has 12 Primary and numerous Secondary Tertiary Fire Letters, upon which it is built, and 1 Primary Geomancy, that represents the entire electro-tonal program of that dimension** Within the 15-D mensional sca e there are thus, **15 Primary Geomancies** that control the formation of Keylons, Keylon Codes and the morphogenetic f elds of forms with n the dimensionalized systems. The 15 Primary Geomancies control the form of the morphogenet c Crystal Body and the energy refraction pattern, through wh ch energy will move through a form's morphogenetic field, from the dimensional Unified Fields of Energy Using the Geomancies which appear as **geometrically formed light symbols**, the blueprints of matter and consciousness can be a tered **Geomancies control the Fire Letter sequences within the dimensional bands of the morphogenetic fields and thus, they govern morphogenetic field construction and matter/ consciousness manifestation** Geomancies represent patterns of ight and sound that d rect the mechan cs of d mensional morphogenet c fields. **In Keylontic Science, we use the Geomancy Control Codes to re-align the human morphogenetic field with its original genetic imprint – the *Silicate Matrix***

Personal Spiritual evolution is the process of progressively expanding the personality to *embody* the higher stations of identity and the morphogenetic Crystal Body Through this process At-one-ment with our spiritual identity & God Consciousness is achieved **Integration of the higher identity progressively changes the nature of the biological form, so *biological & spiritual evolution are one*** Originally *identity integration* took place through one incarnational lifetime Due to morphogenetic field distortions, the process now takes place through successive ***reincarnations*** **Reincarnation was not the natural evolutionary process of the original human lineage but it has been operational for over 5 million years. Through Keylontic Morphogenetic Science and the Silicate Matrix Crystal Gene, we can reclaim our eternal bodies and re-enter our natural state of evolution**

In human morphogenetic Crystal Body structure there are 15 Primary Chakra Centers (or Vortices), through which energy from the Universal Morphogenetic Field flows through and sustains the physical body and identity stations. The human biological form can embody the first **4 Ariea-Hova Bodies**, which encompass **12 dimensions** of the Crystal Body and the **Avatar** station of consciousness. The 12 dimensional frequency bands that can manifest in human biology each have 12 Primary Fire Letter/ Keylon forms, thus **human biology has a Cellular Alphabet of 144 Primary Fire Letters** (12 dimensions x 12 Fire Letters). Each of the 12 sets of 12 Fire Letters form 1 composite electro-tonal program/ Keylon Code form, expressed as the Geomancy Control Code. In Keyontic Science we use the **Geomancy Control Codes in conjunction with the Chakras to active the Silicate Matrix Crystal Gene**, so we may correct the morphogenetic field and genetic distortions that have kept us trapped within cycles of birth and death, unable to fully participate within our natural cycles of higher evolution.

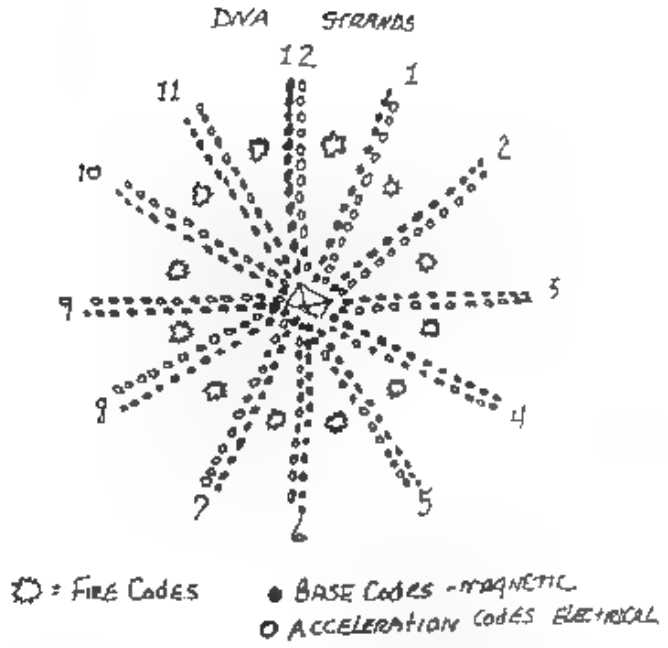
Chart 3D: The Silicate Matrix Crystal Gene - DNA and the Morphogenetic Crystal Body

1 The Si cate Matrix gene code is a composite genet.c configuration that manifests through the morphogenetic Crystal Body; it is the original genetic imprint for the human lineage **The Silicate Matrix DNA code contains 12 double-helix DNA strands, existing in over-lay form,** which correspond to the 12 d mensions and 12 F re Letter Sequences of the Human Crystal Body biologica imprint.

2 **Each double-helix strand of the Silicate Matrix contains 12 Primary Base Codes** (Base Tones/ part.cle codes) **and 12 Primary Acceleration Codes** (Over Tones/ anti-particle codes) that together form **12 Primary Fire Letters** (f xed points of electro-tonal frequency/ standing scalar wave patterns) per 1 complete double-helix DNA strand As each set of 12 F re Letters combines to form 1 Geomancy Control Code, **each DNA strand has a corresponding Geomancy Code that governs the function and activation of that DNA strand**

3. The Si cate Matrix also contains a set of **12 Fire Codes** - fixed points of frequency *between* DNA strands that allow strand heli to merge (particle and anti-particle fusion) and singular strands to fuse with each other, to create Cel u ar Transmutation



Activation of the Silicate Matrix Crystal Gene allows for progressive biological transmutation out of solid matter and carbon-based biology, into Silica, Etheric and Pre-matter density, then into Ante-matter and the forms of pure, sentient, conscious radiation, characteristic to the higher levels of evolution The activation level of the DNA is called the **Accretion Level** Most humans are presently at a 3-3.5 DNA Accretion Level. To adapt to the coming *Time Acceleration* and *Time Continuum Shift*, human DNA must reach a **4.5 strand Accretion Level**, wh ch is achieved through using the Geomancy Control Codes and corresponding sound tones of Keylontic Science, through the Chakra system, to progressively realign and activate the Sil cate Matrix Crystal Gene

The process of Higher Identity/ Hova Body embodiment is thus the process of *bringing higher dimensional frequency bands into the personality and physical body*, and merging the lower and higher Hova Body grids, this process is called **Frequency Accretion**. As the higher identity stations/ Hova Bodies slowly but progressively embody (merge with the physically incarnate identity), the incarnate's morphogenetic **Crystal Body** progressively expands, bringing the **144 Fire Letters** (standing scalar waves/ fixed points of electro-tonal frequency) of the 12-strand **Silicate Matrix Crystal Gene** into activation, within the operational gene code and bodily structure. Through the process of Frequency Accretion, the structural and metabolic processes of the body progressively change creating **Dimensional Ascension** through **Cellular Transmutation**.

1 *Frequency bands of the Hova Body/ Identity Station above, enter the Identity and Hova Body below, progressively expanding the morphogenetic field of the lower Hova Body/ Identity to encompass the Higher Hova Body and Identity.* **Evolution is Frequency Accretion.**

Human evolution is and has always been the process of Dimensional Ascension through Frequency Accretion. Through ***Keylontic Morphogenetic Science*** we can learn to guide and accelerate our evolutionary process from a conscious level, rather than allowing **genetic distortions** to control our evolutionary destiny. ***Spiritual Evolution is the process of Higher Identity Embodiment*, physical evolution is the product of Spiritual Evolution, which created progressive bodily transmutation.**

Evolution from Carbon to Silica Based Biology to Pure Consciousness

As the Silicate Matrix Crystal Gene activates and we evolve through Frequency Accretion, Dimensional Ascension and Cellular Transmutation, the physical substance of which our bodies are composed progressively changes form (via particle/ anti-particle fusion), from the dense matter particles of Harmonic Universe-1 through various stages of matter-density, until we re-emerge in wholeness within our original form of pure, sentient consciousness. Each Harmonic Universe, within the 15-Dimensional Matrix, has a level of matter density characteristic to its dimensional frequency bands. As we evolve upward in the dimensional scale, through the Time Continua of the higher Harmonic Universes our body forms and consciousness take on the matter-density levels characteristic to the Harmonic Universes within which our conscious awareness is focused. **Time is simultaneous** so our entire multi-dimensional identity exists at once, *our evolutionary process is that of re-merging the dimensionalized aspects of ourselves and awakening to our wholeness, through which we are freed from the holographic illusions of matter, space and time*

Chart 4C: Preparing for Silicate Matrix Activation

1 **Setting a Grounding Field** Prior to accelerated activation of the Silicate Matrix Crystal Gene the physical body must be prepared to receive the increase of higher dimensiona sound, ight and scalar wave spectra, that will accompany Silicate Matrix Activation

A. Preparation of the body and mind involves **adjusting personal habitual behaviors** in a way that will allow your existing activated DNA strands to expand to the r ful capacity The present **frequency** (electro-tonal content) of the body must be raised and the body's **oscillation** (particle pulsation rhythm) must be increased to the highest extent of its present boundaries (as set by the DNA), f the new wave spectra from S licate Matrix are to "ground" or stabil ze within the body n a ba anced way

Keylontic techniques for raising the body's frequency and oscillation and for Imprinting/ Anchoring the D-5 Template/ Archetype Identity are offered in the Tangible Structure of the Soul workshop.

2. **Realigning DNA distortions in the Crystal Body** Before the Silicate Matrix can be successfully activated with n the operational DNA and body, distortions within the **144 Primary Fire Letters**, that form the base light-sound structures of the Crystal Body, must be cleared, realigning the 144 Fire Letters with the precise frequencies/ scalar waves of the Fire Letters within each dimensional band Keylontic Science technique uses the **Geomancy Control Codes** (form), specific **color spectra** (light), correspond ng **tones** (sound) and **breathing** (energy circu ation) to f rst **Imprint**, then **Program** the Morphogenetic Crystal Body in order to re-administer the correct Fire Letter Sequences nto the blueprint for the DNA strands. Chart 5A: Practical Guidelines for Raising Frequency Holding Capacity

Setting a Grounding Field The ***Frequency*** of the body s determined by the *amount of electro-tonal Partiki units* contained in the Crystal Body morphogenetic field, The frequency content of the Crystal Body determines the body's **Vibration** (light contracted) / **Oscillation** (light expanded) rate, or that rate of speed at which the body's 3-dimensiona particles will *pulsate* To prepare the body for Time Acceleration, Silicate Matrix activation expedited spiritua evolution and the resulting nfusion of higher dimensional wave patterns, the *Crystal Body must be expanded to its greatest frequency holding capacity* The process of raising the body's frequency and oscillation rhythms constitutes *adding more units of Partiki* (ante-matter light-radiation particles) and *reducing the amount of Particum units* (slower pulsating particles that form dense matter) Changing the Partiki-Particum ration is faci tated by adjusting consumption habits to include substances which themselves contain higher Partiki content (and l fe force energy) and reducing substances that are composed of more dense or distorted Particum patterns. Increasing bodily oscil ation is also facilitated by increas ng the amount of oxygen and water n the body s daily ntake and appropriate physica and menta exercise sleep and meditation habits wi assist the body to hold greater quantities of higher frequency energy

A few Rudimentary Guidelines for Raising the Body's Frequency (electro-tonal content), Lowering Vibration and Raising Oscillation Rates (particle pulsation)

Dietary Guidelines Reduce intake of red meats, fats da ry, sugars, excessive starches, "night shared" and sa ts Include more fresh "**live foods**", shifting toward a **vegan** diet, with emphasis upon foods containing greater amounts of chlorophyll, Vitamins B E, C and plant ca cium pat attention to **mineral balances** Emphas.ze **hydration** and **oxygenation** of the body Eat **smaller meals** more frequently, reduce or avoid protein-starch mean combinations chemically processed foods caffeine, nicot.ne and inorganic substances. Learn to **sense the vibration/oscillation rate of foods** choose those whit the greatest oscillation levels and don't over cook or over-process foods, which reduces their oscillation rates. **Less is more if quality is chosen over quantity** Even sma adjustments will ass st the body in raising frequency Fresh **juice cleansing** and **short fasting** are also recommended

Exercise Moderate amounts of da y gentle exercise that ncreases **joint flexibility** and **cardiovascular strength and endurance** wi l help the body eliminate toxins, oxygenate and re-energ ze Slow and steady increase in physical fitness, **not "pain is gain"**. A.m for **agility** and **endurance** rather than muscular bulk and power force. Activit es that combine conscious breathing with bod ly exercise are optimum Use **deep breathing exercises**

Health: Turn toward **holistic health care**, especially new technologies working **with light, sound and subtle energies. Balance new health care with traditional resources while decreasing excessive dependence upon non-holistic therapies** Focus on **prevention via habitual adjustment**. Learn to use the **D-5 Template-Archetype** to restore the body's natura health imprint in the Crystal Body Adjust **sleep** habits to shorter periods more often and use **mediation**

Keylontic Science offers a myriad of health and healing applications. Morphogenetic Field mechanics will one day revolutionize our approach to health as 15-Dimensional Human Anatomy becomes the foundation for health practice. The physical body and "spiritual" Crystal Body are interwoven. True health requires balancing of the multi-dimensional system.

Chart 5B: The D-5 Archetype Identity

1 The HU-2 **Alphi Hova** body (Soul Matrix ID) holds the original electro-tonal template for the HU-1 **Nada Hova** body (Incarnate body and ID) Disease within the incarnate body results from misalignments between the electro-tonal programs of the Alphi Hova and Nada Hova bodies. Some of these misalignments are carried in the DNA and cannot be realigned without Crystal Body reprogramming, but many imbalances and dis-ease conditions in the physical body can be corrected by **Imprinting** the Nada Hova body with the corrected electro-tonal program of the Alphi Hova body via Imprinting

2 Within the 12 dimensions of human *biological* morphogenetic structure certain dimensional bands direct the function of other dimensional bands. The Geomancies and Fire Letters of these **controlling dimensional bands** govern the operation of the Crystal Body morphogenetic field **Each Hova body has a control center** the portion of its grid that contains the frequencies of a *controlling dimensional band* The Alphi Hova / Soul Matrix body control center is the 5th dimensional Partiki grid the station of Identity corresponding to the D-5 grid is the **Archetype The D-5 Archetype is the control center for the Soul Matrix and Alphi Hova body. Chart 5C: Anchoring the D-5 Archetype

To realign the incarnate physical body with its imprint for health and the personality with its soul purposes, **the D-5 Archetype of the Alphi Hova body** is used to **Imprint** the corrected electro-tonal pattern into the Nada Hova body of the incarnate. Once the Alphi Hova body is imprinted into the Nada Hova body, dormant codes in the DNA begin to activate and align with the corrected pattern creating evolution toward health for the incarnate body and consciousness.

Imprinting the D-5 Template is called Anchoring the Archetype. It will not realign Fire letter distortions in the Crystal Body or mutations in the DNA *but will activate dormant Fire Letters and DNA codes that are not mutated*.

After Imprinting the Archetype, **Activation of the Archetype** (embodiment of the Alphi Hova body/ Soul Matrix) begins, through which Nada Hova body Fire Letter and DNA distortions are re-programmed using Keylontic Science and the 4th, 5th and 6th DNA strands are brought into activation.

Imprinting the D-5 Template and Anchoring the Archetype are the first steps to begin creating and electro-tonal grid for bodily health, protection, DNA activation and spiritual evolution.

The Archetype of the Alphi Hova body is imprinted into the Nada Hova body by using the breath, the Chakra system, D-5 Geomancy Control Code and D-5 sound-light spectra. During morphogenetic Imprinting or Programming, the **D-12 Geomancy Control Code** is also used for correct alignment with the Avatar ID and for protection.

Conclusion

In this presentation we have been presented with a **Comprehensive Model of the Structure of Reality and Identity**, through which prior reality interpretations can be united within a greater picture of understanding

We have learned of

- **Cosmic Structure** the context within which our evolution occurs and the hidden mechanics of evolution as being the process of Dimensional Ascension, through progressive **Cellular Transmutation**
- **Morphogenetic Fields and the Sacred Science of Keylonta** the crystalline blueprints behind matter and consciousness and the **Fire Letter** and **Geomancy** mechanics through which morphogenetic fields function
- The **Anatomy of Multi-dimensional Identity** and the **Morphogenetic Crystal Body** our personal, indelible connection to the Divine the point of union between science and spirituality
- We have discovered our hidden evolutionary potential to reclaim our immortality and re-enter the cycles of **Higher Evolution** through activation of the **Silicate Matrix Crystal Gene**
- We have explored some beginning measures we can take to prepare our bodies for Time Acceleration and Continuum Shift, while simultaneously improving our health, creating personal protection and accelerating the process of our biological and spiritual evolution

Now we are faced with a choice as to whether we will embrace this new-yet-ancient Model of understanding as a tool for accelerated growth, or whether we will ignore this gift of knowledge because it is more encompassing than old familiar paradigms of belief.

The choice belongs to each of us.

The Most Important Things We Can Do Now

To Prepare for 2000-2017

- **Begin preparing our bodies for the increase in Stellar electro-magnetic, light, sound and scalar waves that will accompany the planetary Time Acceleration by adjusting our habit patterns to assist the body in holding higher frequency.**
- Begin working with Keylontic Science to Anchor the D-5 Archetype into the body to create protection from Intruder manipulation and to prepare the body for activation of the Silicate Matrix Crystal Gene.
- **Begin working with the DNA through Keylontic Science to raise the DNA activation level from 3-6.5 accretion to 4.5 accretion level, needed to accommodate Time Shift.**
- Trust that your Higher Stations of Identity will guide you through these times and work to open the lines of communication between you and your Soul Matrix identity, through meditation, spiritual development and learning to "Connect with your Higher Self".
- **Have the courage to expand your present belief paradigms and learn about the challenges Earth will face between 2000-2017 so that you may learn what you need to know to prepare yourself for safe passage.**

Ionosphere

The Ionosphere is a region of Earth's upper atmosphere, from about 60 km (37 mi) to 1,000 km (620 mi) altitude, and includes the thermosphere and parts of the mesosphere and exosphere. It is ionized by solar radiation, plays an important part in atmospheric electricity and forms the inner edge of the Magnetosphere. It has practical importance because, among other functions, it influences radio propagation to distant places on the Earth.

Geophysically, the state of the ionospheric plasma may be described by four parameters, electron density, electron and ion temperature and, since several species of ions are present, ionic composition. *Radio propagation, (the behavior of radio waves when they are transmitted, or propagated from one point on the Earth to another, or into various parts of the atmosphere) depends uniquely on electron density*

Geophysics

The ionosphere is a shell of electrons and electrically charged atoms and molecules that surrounds the Earth, stretching from a height of about 50 km (31 mi.) to more than 1,000 km (620 mi). It owes its existence primarily to ultraviolet radiation from the Sun.

The lowest part of the Earth's atmosphere, the troposphere extends from the surface to about 10 km (6.2 mi). Above 10 km (6.2 mi) is the stratosphere, followed by the mesosphere. In the stratosphere incoming solar radiation creates the ozone layer. At heights of above 80 km (50 mi), in the thermosphere, the atmosphere is so thin that free electrons can exist for short periods of time before they are captured by a nearby positive ion. The number of these free electrons is sufficient to affect radio propagation. This portion of the atmosphere is ionized and contains a plasma which is referred to as the ionosphere. In a plasma, the negative free electrons and the positive ions are attracted to each other by the electrostatic force, but they are too energetic to stay fixed together in an electrically neutral molecule.

Ultraviolet (UV), X-ray and shorter wavelengths of solar radiation are ionizing, since photons at these frequencies contain sufficient energy to dislodge an electron from a neutral gas atom or molecule upon absorption. In this process the light electron obtains a high velocity so that the temperature of the created electronic gas is much higher (of the order of thousand K) than the one of ions and neutrals. The reverse process to ionization is recombination, in which a free electron is "captured" by a positive ion. Recombination occurs spontaneously, and causes the emission of a photon carrying away the energy produced upon recombination. As gas density increases at lower altitudes, the recombination process prevails, since the gas molecules and ions are closer together. The balance between these two processes determines the quantity of ionization present. Ionization depends primarily on the Sun and its activity. The amount of ionization in the ionosphere varies greatly with the amount of radiation received from the Sun. Thus there is a diurnal (time of day) effect and a seasonal effect. The local winter hemisphere is tipped away from the Sun, thus there is less received solar radiation. The activity of the Sun is associated with the sunspot cycle, with more radiation occurring with more sunspots. Radiation received also varies with geographical location (polar, auroral zones, mid-latitudes, and equatorial regions). There are also mechanisms that disturb the ionosphere and decrease the ionization. There are disturbances such as solar flares and the associated release of charged particles into the solar wind which reaches the Earth and interacts with its geomagnetic field [1]

Birkeland Current

A Birkeland current is a set of currents that flow along geomagnetic field lines connecting the Earth's Magnetosphere to the Earth's high latitude Ionosphere. In the Earth's magnetosphere, the currents are driven by the solar wind and interplanetary magnetic field and by bulk motions of plasma through the magnetosphere (convection indirectly driven by the interplanetary environment).

Particle Charge Ratio

The recent transmissions were a momentous event that has stabilized a different ratio of particle charge to the magnetic field layer, within our planetary ionosphere. The Ionosphere is the uppermost part of the planet's atmosphere, distinguished because it is ionized by solar radiation. The Ionization levels depend primarily on the Sun and its activity. The amount of ionization in the ionosphere varies greatly with the amount of radiation received from the sun. We have recently had unprecedented massive solar flare activity and this is the associated release of charged particles into the solar wind, which reaches the Earth and interacts with its geomagnetic field. Ionization is the physical process of converting an atom or molecule into an ion, by adding or removing charged particles such as electrons or other ions. [2]

The **10th Gate in Iran-Iraq border** is also the control center of the False Michael Matrix, of which Patriarchal Domination and its electron reversal consciousness is used to perpetrate against humans the negative alien "Mind Control" and its Bio-neurological Control technology. Archontic Deception Behavior such as Enemy Patterning, war mongering, domination for territory, genetic elitism, hierarchical discrimination, killing and blood lust through the False King of Tyranny are a few of the mind control archetypes perpetrated on the primarily male 3D conscious mind to continue the war on enslaving humans worldwide. When the alien Predator Mind and its agenda is used for mind control on humanity, it becomes a belief system, then a value system or enforced via brainwashed violent religions, and the people that embody those archetypes become the perpetrator and enforcer for the NAA controller's agenda.

The NAA invaded our planet in this area to maintain its warring control and militarization over the most important Stargates in the Middle East in order to take control over the entire planet. This was accomplished as the infiltration into the Holographic Blueprint of the Planetary Logos architecture as the most effective way to create destruction of the human species through the continual creation of holocaust and genocidal wars through False Father God religions as a self enforcement method of planetary enslavement. The broadcast mind control from out of the Iran Gate is especially targeting males to be influenced towards organizing the total militarization agenda of the planet, through continual broadcast transmissions of divide and conquer through war and genocide, monitored by the Dragon Moth. The mind control transmission creates slaves which make those humans in the middle east targeted for mind control to enforce the alien agenda and warfare strategy on the ground, with minimal effort on the use of externalized alien resources. Thereby making "alien" invasion into the physical reality not necessary, as earth humans self enforce their own enslavement. The repeated cycles of historical conflict in **Iran and Iraq**, as well as its thoughtform infection spreading through the Middle East are a primary example of how this NAA mind control has manifested suffering, torture and killing of the human race. Family of Michael

The 10th Gate in Iran-Iraq border is also the control center of the False Michael Matrix. The more a human being calls upon the Family of Michael the more karmic exhaust of Miasma this group entity receives, similar to being fed sewage after layers of sewage until there is no God particle left. This energy sewage accumulation also blocks and distorts the pathway of the 3-6-9-12 Arc from being completed and connected as the 11 11 Ascension Gateway. Humanity has been told to consume ArchAngel Michael energy under the guise of protection, only to be revealed it has been generating great harm to our Christos masculine archetype, along with a Magnificent Blue Ray Being that has been tortured to serve Reptilian motivations through the Archontic Deception Behavior and the False King of Tyranny. This means the AA Michael Blue Sword Initiations are energetically meant to enslave rather than protect.

The major gate of the Golden Eagle Grid stronghold infiltration is the 10th dimensional Gate located in Iran/Iraq. Iran Gate The war, strife and death of many humans in this area of the planet is used to keep the dark energy of the NAA circulated and in control. The NAA controller agenda of the False King of Tyranny is and always will be "divide and conquer". This area is the most prominent to institute False Family of Michael "sightings" and broadcast usurped new age channeling into the Golden Eagle Grid Network. It also has planetary circulatory system linked to Giza at the Astral Plane the 4D gate level and others. One of these networks is called the Phoenix Grid.

Tiamat

Tiamat was the ancient living Goddess of the 10th Gate (Iran-Iraq) when there was an Eden, and she was the living intelligence gatekeeper to the Christ-Buddha-Avatar consciousness matrix. She was exploded into bits by the Moon Chain lineages that used her essence to recreate lunar forces to replicate her female essence into reversal formats. The destruction of Tiamat (like a heaven and earth principle living together in perfect harmony) is synonymous with the destruction of sacred marriage (union of opposites), the split in the wall in time, and the shift to patriarchal domination, its electron distortion and Misogyny.

Ezekiel and Armageddon Software

Apparently Ezekiel, had another birth name and was the Master teacher to Pythagoras. As The Sacred Decad architecture is being revealed through the Ophiuchus transmission, the being known as Ezekiel has required assistance to help him be freed from enslavement bonds. His original teachings have been vastly distorted for nefarious purposes.

Guardian teams have been working in the Middle East, in the terrain of Iraq, Iran in the 10th Stargate, and at the Tomb of Ezekiel. The tomb of Ezekiel is a structure located today in southern Iraq, and believed to be the final resting place of Ezekiel. It has been a place of pilgrimage for both Muslims and Jews alike. Ezekiel's higher Monadic Body has been trapped in the earth unable to evolve. We viewed a collective chaotic field of human body parts, elementals, creatures, and a monadic man, contorting within the Tetramorphic field. This entity has been in tremendous pain and suffering, from the variety of impaling, crucifixion and torture he has undergone in a continuing war zone.

• This collective field is a human Monadic man that became Consubstantial to elementals in the location of Iraq/Iran in the 10th Stargate. The bodies are mismatched and enmeshed like in a war zone. It is used by NAA forces.

• This body is a huge blackened gray field that feeds and is impaled on the Golden Eagle Grid network. This is a Fallen Elemental and false "tetramorphic" field structure where a man's body was mingled into corrupted elementals/elements.

• This machinery has something to do with military, killing and manifesting war zones in the males on the planet and transmitting mind control in the GEG fields that transmit to the planet.

• There is a network of Islamic Alien Machinery at the Ezekiel grave in the Middle East, and a very heavy infiltration of Terrorism, Jihad and Hatred attached as mind control.

The Journey to the Eff-i-yah State Synopsis

The ***Journey to the Eff-i-yah State*** is a ***Triptec Power-Phase*** **Deep-Journey** Compound Technique that progressively "opens the KrystalBridge™ ***Oc-Sha-TU'n*** (**"Passage of the 8's"**) ***Chambers*** within the personal Plasma Template and TrhU'-ah Body, for progressive access to the **Eff-i-yah State** Conscious Standing-wave fields of the ***ELF/LUV Cave Dwellers Domain***, referred to as the ***Eff-in'-it-um*** (the Eternal Standing-wave ***Embodiment of the EFFI Infinitum***). The *Journey to the Eff-i-yah State* technique "speaks to" several layers of the Consciousness, TrhU'-ah Body and multidimensional anatomy *simultaneously* progressively stimulating expedited ***Interplaneal Neurogenesis*** within the TrhU'-ah Body and bio-atomic form ***(AMCC-MCEO-GA Theoretical Perspective).***

Note: The *Journey to the Eff-i-yah State* is referred to as a ***Triptec Power-Phase*** technique in that includes Plasma Template FLOW activations corresponding to the **Krystalbridge™ *Triptec Collective***. The Krystalbridge™ ***Triptec Collective*** is composed of the ***3 Eff-i-yah Al-Hum-bhra "K+8"*** Conscious Standing-wave fields, each representing the *CORE K+8 Council* of each of the *3 Domiciles* (Core ARi-Yon-a of the 3 Ahu-Stri-yah-Jha-TU that make up the EFFI-nfinitum). The **Triptec Collective** is also referred to as the ***KrystalBridge™ Council of Oc'-Sha-TU'n*** ("tunnel" or "Passage" "of the 8's"), they are the ***Eternal Time Benders*** Elemental Command Eternal Councils as they govern the Eternal Plasma Templates, via regulation of the ***Seals of Oc'-Sha-TA*** Time-template Seals. Together, the *Triptec Collective* forms the eternal ***Eff-i-yah State*** Conscious Standing-wave field of the ELF/LUV Cave Dwellers Domain, referred to as the **Eff-in'-it-um, the Domain of the Eternal *Eff-i-phim***.
The ***3 K+8 Spectra Collectives*** that make up the Krystalbridge™ *Triptec* are 1 ***Pana-Co-LA'-ra*** Spectra the **Eff-i-yah *Ah-RHA'-ya* Al-Hum-Bhra** of the ***Eye of Lila,*** 2 ***Pana-Coa-le'-ta*** Spectra the **Eff-i-yah *A-LA'-Rha* Al-Hum-Bhra** of the ***Eye of LA'-TUe*** and 3 ***Pan-Clair'-ah*** Spectra the **Eff-i-yah *E-LAi'-sa* Al-Hum-bhra** of the ***Eye of LE'-TUe.***

The *Journey to the Eff-i-yah State* Technique is considered a **"*DEEP* Journey"** Technique because it directs TrhJ'-ah Body projection beyond the local limits of the Pan-Clair'-ah Spectra, into the **Eff-i-yah State** Conscious Standing-wave fields of the ***ELF/LUV Cave Dwellers Domain,*** through which the *Pana-Coa-le'-ta* and *Pana-Co-LA'r-a* Spectra can also be accessed. It is also ***"DEEP"*** in regard to stimulation and increase of specific **brainwaves**, and **brainwave combinations** that allow for **expanded states of conscious & perception** as well as *Interplaneal Neurogesis*. AMCC-MCEO-GA "DEEP Journey" techniques not only intermittently increase both **Delta** (deep sleep/"subconscious" access) and **Gamma** (heightened awareness-bliss/"super-conscious" access) **brainwaves,** but also several types of **Interplaneal Blended Brainwaves** that have not yet been identified by contemporary science, as well as facilitate the organic process of **Interplaneal Brainwave Entrainment** *Hemispheric Synchronization*. ***(AMCC-MCEO-GA Theoretical Perspective)***

Due to the power of the frequencies carried within this technique, it is recommended to use the ***Journey to the Eff-i-yah State*** **no more than 2 times in a 7 day week**, preferably with at least 1 or 2 days between. At first it will be common to **"fall asleep prior to journey end"**, but as TrhJ'-ah Body Neuro Networks grow and expand, you will progressively be able to retain consciousness throughout the full journey. If you fall asleep, you can "pick up where you left off" as soon as desired to "complete the round".

It is recommended to engage this technique when you have a **minimum of 2 hours** of undisturbed time, within a quiet, safe, private location, where you can recline comfortably on your back. Please do not engage this technique audio while driving, operating machinery or engaging physical exercise. **Optimal time for practice of the *Journey to the Eff-i-yah State* is just prior to sleep, or napping.** A condensed "Wisdoms of the Ages" LTR Power Grid (Linguistic Template Reprogramming) is also included for use at any time, and as often as desired to amplify the frequency accretion engaged within the DEEP-Journey technique. We hope your enjoy your *Journey to the Eff-i-yah State* adventure, meet you there! The AMCC-MCEO-GA & Eff-i-yah Al-Hum-Bhra

The Journey to the Eff-i'-yah State

Preparations:

To engage this Journey, retire to a private, safe, quiet and comfortable location, where you will be undisturbed. Read through and familiarize yourself with the written steps of this journey and visually observe the image/print of the "**Shield of Lila Code**". Then recline on your back with your eyes closed to engage this Audio Journey.

PART-1: *The "Tunnel of Remembrance" & the "Shield of Lila" Doorway*

1. Imagine that there is a circular tunnel approximately the diameter of an orange, growing forward out of your forehead, close your eyes and see a small point of light at the end of the tunnel, about 12 inches out in front of your 3rd Eye/ Chakra-6. Sense the tunnel there connecting your 3rd Eye/Chakra 6 to a place in time, in a different space-time location. This is your ***Tunnel of Remembrance.***

2. We're going to begin the process of ***TrhU'-ah Projection*** to a different space-time location that exists within the domains of the Eff-i-yah. Relax,.... slow your breathing, and focus your attention on your *Tunnel of Remembrance; FEEL* the sensation of the circular tunnel extending from your forehead, and just breathe gently and easily. If any images come up, just let them go by, and focus on the point of light at the end of your tunnel, about 12 inches away from your forehead out in front of you.

3. Now, about 6 inches in front of you, at the "half-way point" in your *Tunnel of Remembrance,* call to mind the **Shield of Lila Code** and see it standing vertically in the space halfway between where you are and the light at the end of your tunnel.

4. Notice that the *Shield of Lila Code* is spinning slowly on its vertical axis, in a **clockwise** motion; sense its movement as it spins. Now use your attention to gently slow down the clock-wise spin of the Shield of Lila Code, intend and observe that it is spinning slower and slower, until it engages ***stop-point*** where it stops spinning completely, and is just standing there facing you, as a *Doorway,* at the half way point in your tunnel. This is the ***"Shield of Lila Doorway"*** in your *Tunnel of Remembrance.*

Keylontic™ Discourses for Daily Living-KDDL™ Course Series-Presented by ARhAyas Productions, LLC, © 2015 E'Asha Ashayana Arhayas

Continued: Part-1, Steps 5-11

5. Breathe gently and easily, and now mentally direct the *Shield of Lila Doorway* to spin slowly **counter-clockwise.** Observe it spinning slowly *counter-clockwise*, and as you do, SENSE that of a portion of your ***TrhU'-ah Body*** quantum being **drawn out** of your physical body and into your *Tunnel of Remembrance*, to a space directly in front of the *counter-clockwise* spinning *Shield of Lila Doorway* FEEL the counter-clockwise spin drawing more quantum of your *TrhU'-ah Body* into this space in front of the Shield of Lila Doorway.

6. At a certain point, the Shield of Lila Doorway spin-speed will increase to a little bit faster as it pulls a sufficient amount of TrhU'-ah Body quantum out of your physical body and into the *Tunnel of Remembrance* When sufficient TrhU'-ah Body quantum is drawn, a gentle "**Pop**" sensation will occur, at which you will feel a part of your quantum "popping" into a ***"Mini-Me* TrhU'-ah Body" form** that is standing immediately in front of the Shield of Lila Doorway Notice that your *Mini Me TrhU'-ah Body* is about **half of the size** of the Shield of Lila Doorway

   At the ***"Pop Point"*** the Shield of Lila Doorway will stop spinning and it will just stand in front of you, with your *"Mini-Me TrhU'-ah Body"* standing in front of it, within your *Tunnel of Remembrance*.

7. Now reach out your **right hand** in your **Mini-Me TrhU'-ah Body** and **feel the front** of the *Shield of Lila Doorway*, as if you're *petting* it You'll sense a **tingling sensation**, as there is a *force field* radiating from the Lila Shield Doorway. As you're petting the outside of the Lila Shield Doorway, while in your *Tunnel of Remembrance*, move your **right hand into** the *Lila Shield Doorway*, gently pushing your hand a little way in, and FEEL the sensation of moving your hand through the Shield of Lila *force field*

8. SENSE the Lila Shield Doorway force field also in your **physical body** Reach out your **right hand** in your **physical body** and feel the front of the Shield of Lila Doorway as if it is **physically in front of you** also. Begin to FEEL in your **physical hand** a "**sloshing sensation**" of the TrhU'-ah Body quantum that is still in the physical body, as it is responding to the frequencies that are emanating from the force field in the Lila Shield Doorway

9 Now remember, that beyond the Shield of Lila Doorway, down at the end of your *Tunnel of Remembrance*, there is a **point of light** that you will be moving toward, and that this point of light is the next destination in our journey to a different space-time location.

10. Once you can sense the "**sloshing sensation**" inside of your physical skin on your right hand, take your physical and TrhU'-ah Body **hands out** of the Lila Shield Doorway, and prepare to **step through** the Lila Shield Doorway with your ***Mini-Me* TrhU'-ah Body;** the Lila Shield Doorway is a **"Doorway through Space-Time"**

11. Before you step through the Lila Shield Doorway, in your *Mini-Me TrhU'-ah Body* put **both palms up against the outside** of the Lila Shield Doorway and FEEL the **tingling sensation** in the palms, both in the Mini-Me TrhU'-ah Body and physical body palms. When you feel or sense the tingling sensation in your palms, gently push **both** of your Mini-Me TrhU'-ah Body **hands** into the Lila Shield Doorway, using your hands to "**spread open the force field**", as if you were "spreading open a pair of curtains", one panel pushed back to the left side of the doorway, and one panel pushed back to the right.

12. Once you have "parted the curtain" of the force field, **step through** the Shield of Lila Doorway with your Mini-Me TrhU'-ah Body. Sense in your physical body and your Mini-Me TrhU'-ah Body what this sensation feels like as you move past the force field curtain and into the Lila Shield Doorway. You may hear a **sound like wind**, and feel a sensation of a **breeze** brushing past your skin.

13. With your Mini-Me TrhU'-ah Body inside of the Shield of Lila Doorway, SENSE the opening of the doorway you just passed through behind your Mini-Me TrhU'-ah Body. FEEL yourself firmly standing "**on the inside**" of the Lila Shield Doorway, facing the point of light that is in front of you at the "far end" of your *Tunnel of Remembrance*, with the back of your Mini-Me TrhU'-ah Body toward the Lila Shield Doorway that you passed through.

 © 2015 E'Asha Ashayana Arhayas

PART-2: *The "Road to Remembrance" and the "Doorway of Discovery"*

14. Now, looking forward toward the point of light at the end of the *Tunnel of Remembrance*, NOTICE that directly in front of you there is a l ne of white light that looks l ke a **road of white light** extending from your Mini-Me TrhU'-ah Body feet to the light at the end of your *Tunnel of Remembrance*. This "white l ght road" s your ***"Road to Remembrance"***. In your Mini-Me TrhU'-ah Body, **walk along** your *Road to Remembrance*, keeping focus on the **point of light** at the end of your *Tunnel of Remembrance*, toward wh ch you are walk ng.

    As you wa k forward on your white light *Road to Remembrance* notice that the **point of light** at the end of your *Tunnel of Remembrance* s gett ng **larger and larger** as you approach it, the point of light has now become a **large circular doorway of white light** that you are wa k ng toward, this is your ***"Doorway of Discovery"***.

    As you approach the c rcular white light *Doorway of Discovery*, SENSE the presence of the frequencies emanating from this white-light space FEEL the white-light emanat ons **ripple through** your Mini-Me TrhU'-ah Body, the wh te light moving around and through you like a **silken soft caress.**

15. When you reach the end of the road of white light, your *Road to Remembrance,* and you are standing right in front of the large circular white-l ght *Doorway of Discovery*, **stand** in this doorway of wh te light for a moment FEELING its emanations moving through you, and **allow** your Mini-Me TrhU'-ah Body **eyes to adjust** to the brilliance and brightness of the white-light emanations.

    Beyond the *Doorway of Discovery* white- ight emanations is the next destination in our *Journey to the Eff-i-yah State* Once your Mini-Me TrhU'-ah Body adjusts to the emanating frequencies, the br ghtness of the white light will tone down and you wi l start to regain clear Mini-Me TrhU'-ah Body vision

16. As your Min -Me TrhU'-ah Vision clears, remember that you are now at the end of your *Tunnel of Remembrance*, and observe that the *Doorway of Discovery* you are standing in s a great doorway, like the "**mouth of a massive cave,**" that looks out over a **beautiful vista far down below it,** a vista you will soon pass through n your Journey to the Eff i yah State. Look around you for a moment and NOTICE that in the v sta unfolding in front of you beyond the *Doorway of Discovery,* it is a day ight scene, and there are ro l ng hills with green grass, and a joyful blue sky.

PART-3: *The Pod-building and the Time-Benders Meeting of the Eternal Eff-i-yah Councils*

17. As you stand in the *Doorway of Discovery* in your Mini-Me TrhU'-ah Body, look out over the vista of rolling hills, green grass, and blue sky that expands in front of you, as if you are **standing in the mouth of a very high cave** and **looking down on a scene in a valley below**

    Notice that in the vista down below there is a large, white **"pod-shaped" building**. There is a **"Standing-Now-Time" meeting** taking place in the Pod-building and you are invited to attend it as a **Time-Benders Meeting of the Eff-i-yah Councils.**

18. In your Mini-Me TrhU'-ah Body, imagine now that you are just **stepping out of** the *Doorway of Discovery* at the end of your *Tunnel of Remembrance*, . **stepping into the air**; notice that the **"air supports you"** and your Mini-Me TrhU'-ah Body does not fall downward

    Intend yourself gently **downward** to **"float in the air"** just above the *Pod-building*; you are still in "physical shape Mini-Me TrhU'-ah Body form". Slowly **"breathe yourself downward"** toward the Pod-building, using **each *exhale* breath to *move***, and **each *inhale* breath** to ***stop-movement,*** to gain control of your Mini-Me TrhU'-ah body "airborne mobility".

19. Once you have "breathed yourself down" and are "floating in the air just above the Pod-building", notice that there is a **small opening** in the **center-point tip** of the Pod-building

20. Now **"breathe yourself *downward, into* and *through"* the *center-point tip opening*** of the Pod-building. As you begin passing through the center-point tip of the Pod-building, NOTICE that a *current of invisible energy* begins to *gently "draw you downward"*, like a **"tractor beam"**; this *"tractor beam energy stream"* will take you down into the Pod-building, to a ***Central Greeting Area.***

21. Once you have landed in the *Central Greeting Area* room of the Pod-building, OBSERVE that there are **3 Arch-shaped Doorways** in front of you, and you can **choose whichever one** you prefer to go through first. (In "repeat visits" you can choose & explore the other 2 doorways not chosen in this 1st exploration)

    Whichever of the *3 Arch-shaped Doorways* you choose to go through on this Journey visit, you will meet a *Greeter* there, a ***Greeter Collective* of one of the 3 *Eff-i-yah Time Benders Councils***.

    As you select your Arched-doorway of choice, **notice which of the *3 Arched-doorways*** you are ***most immediately drawn to.*** When facing the 3 Arched-doorways, . is it the Arced-door on your right, . the Arched-door on your left, . or the Arched-door in the center. **toward which you feel most compelled.** Make a **mental note** of this choice for future reference

22. Once you have sensed your Arched-doorway of choice, **walk** your Mini-Me TrhU'-ah Body **toward then through** this Arched-doorway. NOTICE that as soon as you pass through your Arched-doorway of choice, **suddenly, another vision-scape opens in front of and all around you,** this place opens into **another space-time location**
    In this new space-time location, **form as we know it is no longer present**; this place is a **field of gently moving, beautifully colored waves of frequency, waves of consciousness.** The waves of consciousness are the eternal identity and form of the **Eff-i-yah Eternal Conscious standing-wave fields.**

    As you move through your Arched-doorway of choice, you are now meeting the ***Greeter Collective*** conscious wave field **of one of the 3 *Eff-i-yah Time Benders Councils*.**

PART-4: *Your TrhU You Expression, Your 1st TrhU Memory & the Eff-i-yah State*

CDT Plates, Emerald Covenant and the Mass Drama

The informat on contained within the Voyagers Series Books, Kathara Bio Spiritual Healing System, Tang ble Structure of the Soul Accelerated B o Spiritual Evolution Program, and related materials produced through the 3 leg timate GA Speakers, represents translation of ancient records These ancient records exist in physica form as a set of 12 Silver metallic discs called the Cloister Dora Teura Plate Libraries or "CDT Plates." The 12 CDT Plates are holographic recording, storage and transmiss on devices that hold massive amounts of data n encrypted, electromagnetic sca ar standing wave form Translat on of data from the CDT P ate Libraries is accomplished through init at on of specific frequency transmissions, through which the discs activate to release their stored data in the chosen form of ho ographic, aud o, visual or digital translation. The 12 CDT Plates were manufactured from a form of str ated se en te quartz crystal organic to the Density 2 p anet Sirius B, surrounding a radioactive isotopic core, encased in a

The CDT Plates were manufactured by the Taran Priests of Ur and Maharaji Sinan Blue Human "Holy Grail Line" races of the Council of Azurline, often collectively called the "Azurite" or "Eleyani" Races, on Density 2 Sirius B, GA Signet Council 6 and guardians of D 6 Sirius B Star Gate 6 in the Universal Templar Complex (see, Voyagers, Vol. 1). In 246,000 BC, CDT Plates were presented as a gift to the Urtite Human Race, the Seed Race of the contemporary human lineage, by the Azurite Races Sirius B, in honor of the Urtites entering the Founders Races, Emerald Covenant Co-evolution Agreement peace treaty. The CDT Plates contain massive encrypted tomes of practical physical and spiritual evolutionary advancement teachings, presented to the races of our 15-dimensional Time Matrix by the Density 5 (dimensions 13-15) Elohei Elohim Emerald Order, Seraphei Seraphim Gold Order and Brahma Rama Amethyst Order Melchizedek Cloister Breneau, the 3 Primary Founders Races in our Time Matrix.

The teachings contained in the CDT Plates cover the full evolutionary history of life evolution in our Time Matrix since the last life wave was seeded 950 billion years ago up to the present. Time is simultaneous in nature; past present future exist as multiple sets of interconnected cycles of evolutionary development that form manifest probabilities of possible experiential action. The CDT Plates also contain "future records" of the many various paths of evolutionary development of human and inter-dimensional, inter-galactic, inter time races, which emerge from free will choices rendered in our present space time continuum. (Of the existing "probable futures," or Primary Time Vectors of evolutionary development that exist as "future" experiential potentials, our present moment choices determine which line of probable evolution we will perceive in manifest form as a future continuum of time emerging from our present space-time coordinate.)

Most valuable to our present time, the CDT Plates contain extensive educational records pertaining to Founders Race Creation Mechanics, "Universal Unified Field Physics," and "Law of One" "Inner Christ" Sacred Spiritual Science "Ascension-Merkaba" training. The CDT Plates also contain the history and details of the Founders' Emerald Covenant Co-evolution Agreement peace treaty, humanity's historical relationship to the Emerald Covenant. As designated by the Emerald Covenant restatement of 246,000 BC, the CDT Plates contain the teachings of Masters Temple Mechanics (Planetary, Galactic and Universal Star Gate mechanics), DNA Template Bio-Regenesis and Kathara Core Template Healing technologies. These masters' teachings were originally provided to the Angelic Human race of Earth in order for humanity to fulfill its original "Creation Commission" as guardians and keepers of the Universal Templar Complex.

The CDT Plates have served as an intrinsic part of human evolution on Earth since they were given to the Urtites in 246,000 BC. The first written translation of part of the CDT Plate Library was rendered by the Urtite human race of Earth, upon receiving the CDT Plates in 246,000 BC. The first written CDT Plate records were a collection of large

text was a collection of over 500,000 pages of condensed text transcription, spanning 590 volumes. The Maharata transcriptions were hand written on a form of durable textile paper resembling crisp, semi translucent vellum that was in common use at this time among the Taran civilizations of Density 2, the volumes of the Maharata were compiled in large format, embossed leather bound books through a hand rendered process that resembles contemporary "perfect binding." The original Maharata Books were transcribed in the Anuhaz language, the first spoken written language form of the Density 4 Emerald Order Elohei Elohim Anuhazi (Feline hominid) Founders Race, out of which all other external language forms in our Time Matrix emerged. The 12 CDT Plates were kept on Earth in the protective custody of the Urtite human lineage, until the Temple Wars and resulting pole shift of 208,216 BC. Just prior to the 208,216 BC pole shift and decimation of the Urtite human culture, 10 of the 12 CDT Plates were retrieved by the Sirius B Azurite Races and placed under Azurite Universal Templar Security Team protection.

The CDT Plates have always been coveted by many interstellar races, not only for the practical knowledge they contained, but also due to their dual purpose in relation to obtaining manual access to the 12 Primary Star Gates of the Universal Templar Complex. The 12 CDT Plates are part of a larger apparatus that included 12 corresponding, larger silver discs called the Signet Shields. The 12 Signet Shields, manufactured at the same time as the CDT Plates, are a technology through which the 12 Primary Star Gates of the Universal Templar Complex, which span the dimensional fields and galaxies of dimensions 1-12, can be manually activated and opened. The 12 CDT Plates, designed for interdimensional frequency transmission capacity, can be used to manually activate, from remote locations, the Signet Shields and their corresponding Universal Star Gates, the 12 CDT Plate discs are the Activators for the 12 Signet Shields. In the wrong hands, the CDT Plate Signet Shield technology could bring universal devastation to this Time Matrix, and so the CDT Plates remained under the highest security possible. On behalf of the Emerald Order Melchizedek Cloister Elohei Elohim Breneau of Density 5, and their primary Guardian Universal Service organizations (the Azurite Universal Templar Security Team, the IAFW, and the 12 Signet Councils of the GA), CDT Plate Signet Shield protection had been commissioned to the Azurite Races the Sirius B Council of Azurline. The Urtite human lineage of Earth was entrusted with protection of the CDT Plates and Signet Shields in 246,000 BC, when humanity was officially appointed as active co-guardians of the Universal Templar Complex through the Urtites entry into the Emerald Covenant restatement.

The GA Signet Council 6, Council of Azurline from Sirius B reclaimed 10 of the 12 CDT Plates under their protection in 208,216 BC. Two of the 12 CDT Plates and all 12 Signet Shields fell into the hands of various competing human and Fallen Angelic Legions on Earth during

the last of the 12 CDT Plates, once called the "Tables of Testimony" by the Knights Templar races, was retrieved by the Azurites from a contemporary Freemason family line through which possession of the CDT Plate had been passed from Atlantean generations. The 12 Signet Shields still remain buried in various hidden locations on Earth. Since the times of the 208,216 BC cataclysm, the Azurite Races of the Sirius B Council of Azurene have periodically offered dispensations of knowledge translated from the CDT Plates to the evolving human cultures of Earth. Translations of the CDT Plates were the first foundations of ALL legitimate spiritual teachings among ALL races of Earth, before the genuine CDT Plate translations were repeatedly compromised, destroyed and distorted into "religious control dogmas" by competing factions of corrupt human power elite and Fallen Angelic visitors. Each time the Azurites offer return of CDT Plate translations, three CDT Plate Speakers incarnate through the Maharaji race line Council of Azurene from Sirius, into the human "Indigo Child" Grail Line on Earth (See "The IAFW, Azurite Security Team and the MC Eleyani Master Council" on page 162), to serve as the three CDT Plate translators or "Speakers"

The First CDT Plate Speaker is trained for the position from childhood through physical contact with the Azurite Races and Priests of Ur, and serves as mentor for CDT Plate Speakers Two and Three. The three CDT Plate Speakers are always contemporaries and work closely and cooperatively together, collectively presenting on Earth the translations of the CDT Plates to which they are commissioned over a 12 year period of time. The tradition of selecting only three CDT Plate Speakers who are entrusted members of the Emerald Order incarnate in human form is a security measure that has always been employed by the Azurite Races in order to protect the integrity and intended purity of CDT Plate translations. In Atlantian times, the most commonly known Third CDT Plate Speaker was a Nibiruian Anunnaki Atlantian by the name of Thoth. In 22,340 BC, Thoth was entrusted by the Emerald Order Melchizedek Cloister and Azurite Races to bring oral translation of parts of one CDT Plate into specific segments of Atlantian culture. During this time, Thoth defected from the Emerald Covenant in favor of Nibiruian Anunnaki dominion agendas, translating portions of the CDT Plate into written form, in a text that became known as the "Emerald Tablets of Thoth." Thoth presented the Emerald Tablets to the then corrupt Annu Melchizedek Priesthood of Atlantis, which culminated in the final destruction of the Atlantian Islands in 9558 BC, and subsequent chaos of human evolution since the colonization of Sumerian culture. In 2040 BC another attempt to bring translations of the CDT Plates to Earth was rendered through an individual by the name of "Enoch," who served as Second CDT Plate Speaker in that time period. Enoch's CDT Plate translations consisted of three volumes of history that were once contained in the Maharata; the Book of Ament, the Angelic Rosters and the Book of the Dragon.

In 10 BC, three Essene CDT Plate speakers known as John the Baptist,

the CDT Plates, creating the original foundations of what was intended to become the legitimate Christian doctrine. These books included Jesheua's Six Books of Process, detailing self-generated Ascension Mechanics, Core Template Book of Regenesis and the Book of Maps and Key—the technical manual for Earth's Halls of Amenti Star Gates and Planetary Templar Complex system. The translations of Miriam were the three Books of the Cloister, once translated in the Maharata texts, detailing cultural structure built upon the Founders' Emerald Covenant model. The Templar Mechanics books of John the Baptist were not completed, as he was murdered prior to completion of CDT Plate translation. The books of Enoch, Jesheua and Miriam represent 12 of the 15 "Missing Books of the Bible" that were originally part of the legitimate Essene "Grail Line" teachings. The Essene teachings were intentionally edited and distorted in 325 AD, by the Council of Nicea and the Church of Rome, to create the control dogma religion presented as the Canonized Bible. The Cathari of Southern France held some of the original Essene records of Jesheua and Miriam until the Church of Rome ordered extermination of the Cathari in 1244 AD. Before their demise, the Cathari hid portions of the genuine Essene records, along with one of the 12 Signet Shields that had been in their possession. These relics will be eventually discovered in contemporary times to validate the teachings of the three CDT Plate Speakers of present times, once these individuals have completed their current commissioned translation of the CDT Plates.

Other CDT Plate translations of ancient times were dispensed through Speakers born into Hindu, Chinese, Tibetan, African, Egyptian, Mayan, Incan and Celtic Druidic Grail Lines. Since pre-ancient times, all CDT Plate translations seeded into every earthly culture have suffered the same fate of destruction or distortion. Since 208,216 BC, translations of the CDT Plates were repeatedly given by the Priests of Ur Azurite Races in order to prepare Earth humanity for the next scheduled Star Gate Opening Cycle (called a "Stellar Activations Cycle, or "SAC", see Voyagers Volume 2). During the next SAC to follow the failed SAC of 208,216 BC, the Angelic Human race of Earth would be called upon by the Azurites and guardian races of the Emerald Covenant, to assist in healing Earth's damaged Planetary Templar Complex. When the next SAC arrived on Earth, humanity would also be asked to peacefully assist Guardian Angelic Nations in protecting Earth's Halls of Amenti Star Gates from Fallen Angelic race dominion. Since 22,346 BC, all interdimensional races knew that the next probable SAC on Earth would occur between 2000-2017 AD. The Emerald Order Melchizedek Cloister Founders Races, Azurite Races and Nations of the Emerald Covenant are again returning translations of the CDT Plates to humanity, in preparation for their intended mass visitation that will occur if Earth can be safely guided through the now-commencing 2000-2017 SAC. The three CDT Plate Speakers of contemporary times will continue to release their commissioned translations of the CDT Plate teachings into the public domain between 1999-2012. Between

Christ in the Bible, will again enter physical human incarnation through the Sirius B Council of Azurline. Any beings or interdimensional visitors emerging into Earth's drama that claim to be Jeshua Sananda Melchizedek or Jesus are misrepresenting themselves for the purpose of human manipulation; Jeshua is returning to incarnation as an "Indigo Child" infant through the Sirius B Council of Azurline, as he did in 12 BC. Jeshua's scheduled return is intended to herald the beginning of open contact with the inter-galactic Guardian Angelic races of the Emerald Covenant and humanity's long-awaited graduation into the interdimensional, inter-galactic communities through officially delivered invitation into another restatement of the Founders' Emerald Covenant Co-Evolution Agreement universal peace treaty. Open contact with interdimensional, inter-galactic, inter-time Guardian races will occur through opening of Earth's Halls of Amenti star gates, if cataclysmic Earth changes can be prevented during the 2000-2017 SAC.

In preparation for the 2012 opening of Earth's Halls of Amenti Star Gates, Jeshua's 2007-2012 foretold "Second Coming," and the mass Angelic Nation contact that these events are scheduled to precede, Jeshua's contemporaries of 10 AD, Miriam and John the Baptist, are already incarnate in human form. The present-day incarnations of Miriam and John are currently working closely together to fulfill the First and Second CDT Plate Speakers Contracts, which are now being progressively translated for public access. The individual holding the Third CDT Plate Speakers Contract is a woman in the USA, who has also previously served as CDT Plate speaker during Hindu, Egyptian and African incarnations of ancient times. All CDT Plate Speakers work closely together through the established Azurite Temple of the Melchizedek Cloister, FL, an organization created in 1999 at the request of the Emerald Order Elohei Elohim of Density 5, the Priests of Ur Azurite Races of Sirius B and the many IAFW-GA races of the Emerald Covenant. The three CDT-Plate Speakers are presenting foundation teachings of the Emerald Covenant CDT Plates to assist the Azurite Universal Templar Security Team, IAFW, GA and Founders Races in preparation for the scheduled 2012 opening of the Halls of Amenti star gates. If Earth changes can be prevented through the 2000-2017 SAC, these events will culminate into humanity's intended graduation into the long-awaited and foretold "New Age of Unity, Love, Freedom and Enlightenment."

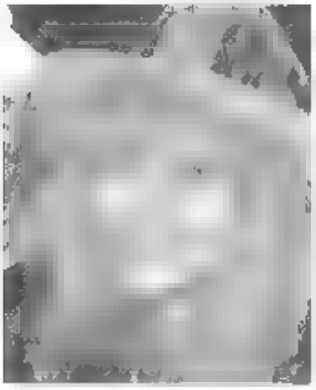
About the Author



Ashayana Deane Ekr MC formerly published as "Anna Hayes", is host of the **Life Empowerment Workshop Series**, founder of the **Kathara Healing Institute** and the **Azurite Temple of the Melchizedek Cloister, Sarasota FL**. Ashayana is author of the **Voyagers, Kathara and Emerald Awakening Series books**, the **Kathara Bio-Spiritual Healing System™**, the **Tangible Structure of the Soul Accelerated Bio-Spiritual Evolution Program™** and the **Amenti and Life Empowerment Series Videos**. Ashayana experienced "**Conscious Birthing**" as an "**Indigo Child**" with open Fetal Integration memory (soul entering fetal body) and reincarnational remembrance since birth. She encountered 28 years of **ritual physical contact** and training with the **Emerald Order Melchizedek Cloister ("EOMC") Priests of UR**. The **EOMC Priests of UR** are living members of the original pre ancient Seraphim-Tuaneus am-"Indigo Children" Angelic Human **Grail Line** formally referred to in ancient times as the ***Eteyani*** (*pronounced "E-yon E"*), through which the human lineage was originally seeded 560 million years ago. (Note "**Ur**" **means "light**" in reference to **serving the agenda of enlightenment for all**.) In contemporary times, as they have done since the pre-ancient past, the Eteyan Priests of Ur continue to serve as representatives of the **Guardian Alliance ("GA")**, the primary task force of the **Interdimensional Association of Free Worlds ("IAFW")**, universal service organization.

During childhood, Ashayana was visited many times and escorted to Eteyani learning centers for short periods, by members of the Eteyani Priests of UR, who originate contact from the island of **Kauai, Hawaii**. Throughout adolescence, Ashayana kept numerous appointments with the Eteyani Priests, in which she was physically

transported by means of interdimensional spacecraft and Merkaba, to an Emerald Order base near the island of Kauai. Escorted by members of the Eeyan, Ashayana experienced physical **"wave-riding"**, a term used to describe physical teleportation through space time portals via Merkaba Field activation from the Kauai location to an Eeyan educational facility called the **Center for the Advancement of Interdimensional Communication ("CAIC")**. The CAIC physically exists on Earth on what is now the Kauai Hawaii site, but in the future time period that translates into **6520AD** Earth time. (Quantum Physics theory will eventually validate the reality that *time is simultaneous* in nature, and that universal order is multidimensional, facts that presently elude contemporary Earth scientists but stand as common and demonstrable knowledge among the Eeyan and within other advanced inter-time nations.) For her protection, the Eeyan required Ashayana to take a **Vow of Silence** regarding her contact experiences, until she reached adulthood. On numerous longer adolescent visits to the CAIC, which on various occasions extended over several days, Ashayana was reported "missing" and thought by family to be a "run away", a family perception she allowed to remain to account for the extended periods of time in visitation with the Eeyan Priests.

Following a **Near-Death-Experience** at age 18, Ashayana received final training and Ordination in the Emerald Order Melchizedek Cloister Priesthood Order of the Yunasai, through the Eeyan Priests of Ur. (See *"Melchizedek Priesthoods" Voyagers Volume-2*. Melchizedek "initiations" and Cloister "ordinations" are not the same thing; there are 12 Initiation levels for every Cloister Ordination Degree.) Born in this life incarnation as a **Regent** (Level-3 of 6 Ordinate Ministers) of the Melchizedek Cloister Priesthood, Ashayana completed her **Consummate** Level-4 Ordination at age 27, **Elder Consummate** Level-5 Ordination at age 30, and final Eckatic Level-6 Ordination at age 33. In completing Level-6 (of 6) Melchizedek Cloister ordination under mentoring of the Emerald Order Eeyan Priests of UR from the GA, Ashayana was commissioned as a **6th-Degree Melchizedek Cloister Ordinate Eckar**, an incarnate Priest of UR and Emerald Order representative and **Speaker**. Since the time of her conscious Feral Integration, which resulted from accelerated activation of the 4th and 6th DNA Strand Templates that is often characteristic to the Indigo Child Crystal Line genetic code, Ashayana understood that she had incarnated in this lifetime to serve as a member of the Eeyan Priests. She is known

among the Eleyan Priests of UR as ***Aneayhea Kananda Ashayana-Tu Melchizedek***.

Through her progressive experiences with the Priests of UR, and personal validation through conscious reincarnational memory since infancy, Ashayana understood that what our society calls **'ETs'** are not the "sci-fi aliens" our contemporary culture depicts them to be. Contemporary 'visitors' responsible for the phenomena of the **New Age and UFO Movements** are the ancient races of interdimensional interTime **Angelic and Fallen Angelic legions** that have been reported throughout human history as the angels, gods, devils and demons within every ancient spiritual tradition. **Eventually science will reveal that such characters of ancient human mythology are in fact part of a greater life-field of biological beings, whose physicality is characteristic to the levels of matter density and dimensional reality fields from which they emerge.** Receiving little religious training as a child, Ashayana's validation of the existence of Angelics and Fallen Angelics came from direct early experience with contact and from extensive memory of humanity's dealings with the same visitor races throughout many different time periods of human evolution. The **Angelic Human** races of the Eleyani Priests of UR, who are capable of sustaining full physical manifestation on Earth or altering their biological orientation at will to engage interdimensional time travel or dimensional ascension, assisted Ashayana in her Fetal Integration process and later in her NDE. Though the Eleyani Priests are capable of, and often utilize remote subtle interdimensional contact, the majority of Ashayana's childhood experiences with them, and numerous contacts in adulthood, were fully **physical in nature**, involving her physical transport to their learning facilities rather than simply "astral body travel."

Since the age of 7, and cumulatively for over 29 years, Ashayana has received private training from the Eleyani Priests of UR, in the teachings of the **Emerald Covenant** and in translation of the ancient *Cuuster-Dona-Teura Plates* or **CDT-Plates**, the **12 Pre-Atlantian Holographic Disc Records** from **246,000BC**. Information pertaining to the CDT-Plates was under high security categorization of the GA until November 1999, when the last missing disc of the 12 CDT-Plate set was finally retrieved by the Eleyani Priests from Earthly Illuminati forces. Ashayana was permitted to release data on the existence, content and history of the 12 CDT-Plates as of May 5th, 2000. The CDT-Plate discs have been in protective custody within the **Azurite-EOMC Eleyani Priests of Ur** family lines since a cataclysmic event that took

place on Earth in 208,216BC. At that time 2 of the 12 discs had fallen into the hands of Human family lines on Earth. The 11th disc was recovered by the Azurites of the GA in the 1600s AD, the 12th disc in November 1999. In many physical encounters of childhood and adolescence, during which she was being trained in CDT-Plate translation, the Elevani Priests permitted Ashayana to hold the **small pale silver CDT-Plate discs** in her hands, which confirmed for her the tangible physical existence of these pre-Atlantian technological artifacts. As her abilities in physical translation of data from the discs grew, she was then trained in **remote translation** of the CDT-Plates. Remote translation of the CDT Plates would allow Ashayana the capability of frequent CDT Plate translation in adulthood, without the need of the Elevani Priests continually relocating her to the storage facility where the CDT-Plates are kept in protective custody. (See "*CDT-Plates and Emerald Covenant*").

As is customary when CDT Plate translations are initiated on Earth, **three individuals** are chosen by the Elevani Priests to hold one of three **"CDT-Plate Speakers Contracts"**, through which translations of the CDT-Plates are returned to the human collective. Ashayana was chosen, by the Elevani Priests of UR, as the **First CDT-Plate Speaker** and **mentor** to the later Second and Third CDT-Plate Speakers in contemporary times, due to her reincarnational history, much of which she had conscious memory from birth, one of which the Elevani Priests are fully aware. In the "Christ Drama" of 2000 years ago, Ashavana then an Essene woman named **Miriam** (born 5BC, 37AD) had served as the Third CDT Plate Speaker. Miriam served this role in collaboration with 2 Essene men historically known as **John the Baptist** (3BC-34AD), then First CDT-Plate Speaker, and **Jeshua Melchizedek** (12BC-27AD), then Second CDT Plate Speaker and leader of the Essene "Christian Movement" (known as "**Jesus**" in the Bible). Prior to her CDT Plate Speakers Contract as Essene Miriam, with others incarnating from the Elevani collective, Ashayana had served as CDT Plate Speaker and Elevani Priest numerous times during early Lemurian, Atlantian, Hindu, Celtic Druid and Egyptian historical periods. The history of Ashayana's recent reincarnational involvement with CDT-Plate Speaker Contracts on Earth began with her incarnation as *Ashayana-Ta Melchizedek*, an EOMC Elevani Priest of UR, born on Earth in **246,041BC**, during the "Middle Cloister Race Period" of human evolution (500,000BC-208,216BC). During this period Ashavana served as a member of the original EOMC Elevani Priests of UR **Azurite Un-**

versal Templar Security Team, the GA collective responsible for reinstating the Emerald Covenant peace treaty on Earth and providing the CDT-Plates to the Urrite human Cloister Race in 246,000BC.

The Templar (Star gate) Security Team EOMC Elevani Priests of UR have incarnated on Earth at various times to assist in human evolution and protection of Earth's **Halls of Amenti Star Gates**. The EOMC Azurite Universal Templar Security Team has been progressively incarnating on Earth over the last 200 years, especially since 1955, through the Elevan Grail Line genetic lineage, known in contemporary times as the **Indigo Children** (See *Indigo Children and Templar Security Teams*). Presently there are approximately **550,000 Indigo Children** physically incarnate on Earth, just beginning the DNA Template activation cycle through which they will "awaken" to remember their higher aspects of identity and Templar Security Team commissions, many more will be born between 2000-2012. In her present incarnation Ashayana was born as an **Indigo Child Type-1**, incarnating as an original member of the EOMC *Azurite Universal Templar Security Team* for this reason she was chosen and trained since childhood by the EOMC Elevani Priests of Ur from Kauai, Hawaii. As per pre-birth agreements with the Elevani, Ashayana was trained to serve as the First CDT-Plate Speaker 6th-Degree Melchizedek Cloister Eckankar organizer of Azurite Universal Templar Security Teams presently incarnate on Earth and public representative of the Elevani Priests Interdimensional Association of Free Worlds and the Guardian Alliance.

Through over 29 years of frequent physical contact and remote telepathic communication with the Elevani Priests and the CA, Ashayana was trained in a wide variety of subjects including *Melchizedek Cloister Law of One Spiritual Actualization studies, Keyiontic Morphogenetic (matter template) Science, 15-Dimensional Unified Field Physics, Primal Creation Mechanics, Advanced Merkaba-Kundalini-DNA Bio-Regeneresis, Ascension Mechanics, Kathara Core Template Healing, Planetary Templar Star Gate Mechanics, Pre-ancient History, Founders Races and Angelic race evolution, Higher Sensory Perception, and OOB Travel and remote translation of the CDT-Plate Holographic Discs*. Following her NDE at age 18, Ashayana redirected her original interests of pursuing a degree in psychology to continue intensive study with the Elevani Priests. The mother of 3 Indigo Children, she worked in commercial printing and theater management and accepted professional commissions as a fine art still painter, while pursuing Masters studies with the Priests of Ur. In 1996 the Elevani Priests of UR and GA released

Ashavana from her childhood Vow of Silence and requested her services as the First CDT-Plate Speaker, for which she had been trained. In 1997 Ashavana translated the Elevani Priests first chosen introductory dispensations of CDT-Plate teachings, which were published in May 1999 as the **Voyagers Series Books**, Volumes 1 and 2.

Following first release of the Voyagers Books in May 1999, Ashavana continued further translation of CDT-Plate dispensations in a series of workshops called the **Lite Empowerment Workshop Series**, the most expedient method of making the CDT-Plate teachings available to the public (available on video). In November 1999, upon request of the Priests of OR, she founded the **Azurite Templates of the Melchizedek Cloister**, a non profit spiritual service organization presently with over 200 Ordained Melchizedek Cloister ministers in the US and abroad. In February 2000 Level 1 of 12 of the **Kathara Bio-Spiritual Healing System™** holistic core template healing and DNA Template Bio-Regenesis program was translated from the CDT Plates and the **Kathara Healing Institute** and **Kathara Alliance** (**"KA"**) of Kathara Healing Facilitators was added as a department of the Azurite Temple. Since May 2000 the Elevani Priests of OR and Ashavana have worked to awaken and organize groups of the Azurite Universal Templar Security Team and Amenti Planetary Templar Security Team Elevani Indigo Children. Since January 2000, Ashavana and members of the Templar Security Teams have orchestrated global healing endeavors called **Planetary Shields Clinics** or **"PSCs"**. During PSCs the Elevani Templar Security Teams utilize Masters Planetary Templar Grid Mechanics from CDT-Plate translations of the **"The Book of Maps and Keys"**, one of the "lost books of the Bible" translated from the CDT-Plates by Essene Jeshetta Melchizedek in 10AD. (**This and other related Essene books were intentionally "lost" in 325AD at the hands of the Church of Rome's Council of Nicaea**)

PSCs are being initiated by the EOMC Priests of OR and races of the Emerald Covenant, with assistance of the incarnate Templar Security Teams, to assist Earth through and prevent pole shift during the star gate opening cycle of 2000-2017. The last full star gate opening cycle called a **"Stellar Activations Cycle"** or **"SAC"**, occurred in **208,216BC**, resulting in cataclysm, pole shift and de-activation of Earth's Templar (star gate and core energy grid system). PSCs of 2000 have taken Ashavana and Templar Security Teams to **Egypt, Peru** and **England** and various other regions; further PSCs are scheduled for Hawaii, England, Peru and Tibet in 2001-2002. Respected for her in-depth insights on New Science, Spiritual Development, Esoteric Stud-

ies, Pre-ancient History and Extra-ordinary Phenomena, Ashayana has been interviewed on various radio programs such as Janet Russel's "Beyond the Unexplained", the Jeff Rense Sightings" show and SHINE. In October 2000 Ashayana was united in marriage with fellow childhood Priest of UR contactee CDT-Plate Speaker and EOMC Eckar (6th Degree MC Ordinate Minister) **Rev. Michael Deane M.Sc** of England, founder of the **Azurite Temple UK and Europe**.

Together Michael, Ashayana and the Evayan Priests continue the work of CDT-Plate translation and PSCs, and are presently preparing a **Personal-Planetary Studies Masters Course** in Spiritual Development, DNA Bio-Regenesis, Merkaba and Advanced Planetary Temporal Mechanics. The Masters Course will be offered as private classes in Florida and on video through the Azurite Temples and Kathara Healing Institute in 2002. Currently residing in Florida, Michael, Ashayana and Ministers of the Azurite Temples offer non-denominational community support services of **Ministerial Ordinations, Baptisms** and **Marriages** in the ancient **Law of ONE** Melchizedek Order "Inner Christ" spiritual tradition. They periodically offer Spiritual Development, Bio-Regenesis, Kathara Healing and Planetary Healing workshops at home and abroad. In order to make the CDT Plate teachings more easily available to the public, Michael, Ashayana and the staff of Azurite Temple began organization of the **Azurite Educational Resource Library** correspondence programs, currently featuring over 40 audio, video and book products drawn from Ashayana's workshops. As Azurite Temple MC does not solicit donations, proceeds from the Azurite Educational Resource Library fund continuing Human Potential, Spiritual Advancement and Holistic Healing educational outreach programs progressively under development through Azurite Temple.

The Christos Series-*Azurite Press*

Volume 1 ***The Maharata-Book 1 The Christos Within; Reinstating Personal Divinity***

The **Maharata** is the ancient Sacred Text translation of the Founders Race CDT Plates from 246,000BC, which originally contained **590 volumes** and over **500,000 pages** of non-dogmatic, egalitarian **Sacred Spiritual-Science Teachings** covering every aspect of mastering personal and cosmic reality. Before intentional editing and distortion at the hands of Fallen Angelics and **corrupt human power elite**, the teachings of **every traditional religious belief system on**

Earth, from Christianity to Buddhism and Indigenous Tribal Oral Tradition, originally emerged from re-translations of the Maharata Texts and CDT-Plates. The Founders Races, via the Azurite Universal Templar Security Team, IAFW and GA, are beginning return of the Maharata Texts in contemporary times in fulfillment of the promise of the *Emerald Covenant*.

Since release of *Voyagers volumes 1 and 2* in May 1999 to the time of this writing in January 2002, Ashayana has conducted over a dozen 6-18 hour public workshop presentations in the US and abroad, each based upon a progressive level of new CDT-Plate translations, many including written handbooks. The *Tangible Structure of the Soul Accelerated Bio-Spiritual Evolution Program* and of course *Kathara Bio-Spiritual Healing System* certification program, Volume-3 *Voyagers Keys to the Secrets of Amenti* and *Angelic Realities-The Survival Handbook* books were also produced. Also during this period of less than 2 years, Ashayana founded the *Azurite Temple* MC and *Kathara Healing Institute*, ordained over 200 MC Ministers, conducted PSCs Planetary Healing Intensives to Egypt, Peru and England, attended numerous other speaking engagements and organized the *Azurite Educational Resource Library* correspondence programs. CDT-Plates, Emerald Covenant and the Mass Drama

The information contained within the Voyagers Series Book Kataara Bio-Spiritual Healing System, Tangible Structure of the Su Accelerated Bio-Spiritual Evolution Program and related materials pr duced through the 3 legitimate GA Speakers, represents translation ancient records. These ancient records exist in physical form as a set 12 Silver-metallic discs called the Cloister-Dora Terra Plate Libraries "CDT Plates." The 12 CDT Plates are holographic recording, storage an transmission devices that hold massive amounts of data in encrypte electromagnetic scalar-standing-wave form. Translation of data from th CDT-Plate Libraries is accomplished through initiation of specific fr quency transmissions, through which the discs activate to release the stored data in the chosen form of holographic, audio-visual or digit translation. The 12 CDT Plates were manufactured from a form of str ated-selenite quartz crystal organic to the Density 2 planet Sirius B su rounding a radioactive isotopic core encased in a "hybrid-metal" silve alloy compound organic to Earth.

The CDT Plates were manufactured by the Taran Priests of UR an Maharaja Sirian-Blue Human "Holy Grail Line" races of the Council Azurine, often collectively called the "Azurite" or "Elevan" Races o Density-2 Sirius B GA Signet Council 6 and guardians of D-6 Sirius Star Gate-6 in the Universal Templar Complex (see Voyagers Volume 1). In 246,000 BC CDT-Plates were presented as a gift to th Urtite Human Race, the Seed Race of the contemporary human lineage by the Azurite Races Sirius B, in honor of the Urtites entering th Founders Races Emerald Covenant Co-evolution Agreement peac treaty. The CDT Plates contain massive encrypted tomes of practica physical and spiritual evolutionary advancement teachings presented t the races of our 15-dimensional Time Matrix by the Density Dimensions 13-14-15 Elohei-Elohim-Emerald Order Seraphei-Ser phim Gold Order and Brahma Rama Amethyst Order Melchiedek Clois ter Breneau, the 3 Primary Founders Races in our Time Matrix.

The teachings contained in the CDT-Plates cover the full evolutionary history of life evolution in our Time Matrix since the last life wav was seeded 950 billion years ago up to the present. Time is simultaneou in nature, past-present-future exist as multiple sets of interconnecte cycles of evolutionary development that form manifest probabilities

possible experiential actions. The CDT Plates also contain "future records" of the many various paths of evolutionary development of human and inter-dimensional, inter-galactic, inter-time races which emerge from free-will choices rendered in our present space-time continuum. Of the existing "probable futures" or Primary Time Vectors of evolutionary development that exist as "future" experiential potentials, our present moment choices determine which line of probable evolution we will perceive in manifest form as a future continuum of time emerging from our present space-time coordinate.

Most valuable to our present time, the CDT Plates contain extensive educational records pertaining to Founders Race Creation Mechanics, "Universal Unified Field Physics" and "Law of One", "Inner Christ" Sacred Spiritual Science, "Ascension-Merkaba" training. The CDT Plates also contain the history and details of the Founders Emerald Covenant Co-evolution Agreement peace treaty, humanity's historical relationship to the Emerald Covenant. As designated by the Emerald Covenant restatement of 246,000 BC, the CDT Plates contain the teachings of Masters Templar Mechanics, Planetary, Galactic and Universal Star Gate mechanics, DNA Template Bio-Regenesis and Kathara Core Template Healing technologies. These masters teachings were originally provided to the Angelic Human race of Earth in order for humanity to fulfill its original "Creation Commissions" as guardians and keepers of the Universal Templar Complex.

The CDT Plates have served as an intrinsic part of human evolution on Earth since they were given to the Urrutes in 246,000 BC. The first written translation of part of the CDT-Plate library was rendered by the Urrute human race of Earth, upon receiving the CDT Plates in 246,000 BC. The first written CDT-Plate records were a collection of large books, collectively called the Mahurata (pronounced "Ma ha ra ta" translates into the "the Inner Christos Dispensations"). The Mahurata text was a collection of over 500,000 pages of condensed text transcription, spanning 390 volumes. The Mahurata transcriptions were hand written on a form of durable textile paper resembling crisp, semi-translucent vellum that was in common use at this time among the Taran civilizations of Density 2, the volumes of the Mahurata were compiled in large format, embossed leather-bound books through a hand rendered process that resembles contemporary "perfect binding". The original Mahurata Books were transcribed in the Anuhazi language, the first spoken-written language form of the Density 4 Emerald Order Elohei Eohim Anuhazi (Found-Command) Founders Race out of which all other external language forms in our Time Matrix emerged.

The 12 CDT Plates were kept on Earth in the protective custody of the Urrite human lineage, until the Temple Wars and resulting pole shift of 208,216 BC. Just prior to the 208,216 BC pole shift and decimation of the Urrite human culture, 10 of the 12 CDT Plates were retrieved by the Sirius B Azurite Races and placed under Azurite Universal Templar Security Team protection (see Voyagers Volume I).

The CDT Plates have always been coveted by many interstellar races not only for the practical knowledge they contained, but also due to their dual purpose in relation to obtaining manual access to the 12 Primary Star Gates of the Universal Templar Complex. The 12 CDT-Plates are part of a larger apparatus that included 12 corresponding, larger silver discs called the Signet Shields. The 12 Signet Shields, manufactured at the same time as the CDT-Plates, are a technology through which the 12 Primary Star Gates of the Universal Templar Complex, which span the dimensional fields and galaxies of dimensions 1-12, can be manually activated and opened. The 12 CDT-Plates, designed for interdimensional frequency transmission capacity, can be used to manually activate, from remote locations, the Signet Shields and their corresponding Universal Star Gates; the 12 CDT-Plate discs are the Activators for the 12 Signet Shields. In the wrong hands, the CDT-Plate-Signet Shield technology could bring universal devastation to the Time Matrix, and so the CDT-Plates remained under the highest security possible. On behalf of the Emerald Order Melchizedek Cloister Elohei Eloh m Bureau of Density 5 and their primary Guardian Universal Service organizations (the Azurite Universal Templar Security Team, the IAFW, and the 12 Signet Councils of the GA), CDT-Plate-Signet Shield protection had been commissioned to the Azurite Races the Sirius B Council of Azurlume. The Urrite human lineage of Earth was entrusted with protection of the CDT Plates and Signet Shields in 246,000 BC, when humanity was officially appointed as active co-guardians of the Universal Templar Complex through the Urrites entry into the Emerald Covenant restatement.

The GA Signet Council-6, Council of Azurlume from Sirius B reclaimed 10 of the 12 CDT Plates under their protection in 208,216 BC. Two of the 12 CDT-Plates and all 12 Signet Shields fell into the hands of various competing human and Fallen Angelic Legions on Earth during the course of human evolution since this time. In the 1600s the Azurites secured one of the missing CDT Plates. In November of 1999, the last of the 12 CDT-Plates, once called the "Tables of Testimony" by the Knights Templar races, was retrieved by the Azurites from a contemporary Freemason family line through which possession

of the CDT Plate had been passed from Atlantean generations. The 12 Signet Shields still remain buried in various hidden locations on Earth. Since the times of the 208 216 BC cataclysm, the Azurite Races of the Seven B Council of Azurline have periodically offered dispensations of knowledge translated from the CDT-Plates to the evolving human cultures of Earth. Translations of the CDT Plates were the first foundations of ALL legitimate spiritual teachings among ALL races of Earth before the genuine CDT-Plate translations were repeatedly compromised, destroyed and distorted into "religious control dogmas" by competing factions of corrupt human power elite and Fallen Angelic visitors. Each time the Azurites offer return of CDT-Plate translations, three CDT Plate Speakers incarnate through the Maharata race line Council of Azurline from Sirius, into the human "Indigo Child" Gray Line on Earth (see Voyagers Volume I), to serve as the three CDT Plate translators or "Speakers."

The First CDT-Plate Speaker is trained for the position from childhood through physical contact with the Azurite Races and Priests of Ur, and serves as mentor for CDT Plate Speakers Two and Three. The three CDT Plate Speakers are always contemporaries and work closely and cooperatively together collectively presenting on Earth the translations of the CDT Plates to which they are commissioned over a 12-year period of time. The tradition of selecting only three CDT Plate Speakers who are entrusted members of the Emerald Order incarnate in human form is a security measure that has always been employed by the Azurite Races in order to protect the integrity and intended purity of CDT Plate translations. In Atlantian times the most commonly known Third CDT Plate Speaker was a Nibiruian Anunnaki-Atlantian by the name of Thoth. In 22,340 BC, Thoth was entrusted by the Emerald Order Melchizedek Cloister and Azurite Races to bring oral translation of parts of one CDT Plate into specific segments of Atlantian culture. During this time, Thoth selected from the Emerald Covenant in favor of Nibiruian Anunnaki dominion agendas, translating portions of the CDT Plate into written form, in a text that became known as the "Emerald Tablets of Thoth." Thoth presented the Emerald Tablets to the then corrupt Anna-Melchizedek Priesthood of Atlantis, which culminated in the final destruction of the Atlantean Islands in 9558 BC, and consequent chains of human evolution since the colonization of Sumerian culture. In 2040 BC another attempt to bring translations of the CDT-Plates to Earth was rendered through an individual by the name of "Enoch," who served as Second CDT-Plate Speaker in that time period. Enoch's CDT Plate translations consisted

of three volumes of history that were once contained in the Maharata the Book of Amenti, the Angelic Rosters and the Book of the Dragon.

In 30 BC, three Essene CDT-Plate speakers known as John the Baptist, Jesus Christ (Jeshua Sananda Melchizedek, born 12 BC, see Voyagers Volume 2), and Miriam, collectively translated nine additional books from the CDT-Plates, creating the original foundations of what was intended to become the legitimate Christian doctrine. These books included Jeshua's Six Books of Process, detailing self-generated Ascension Mechanics, Core Template Bio-Regeneses and the Book of Maps and Keys, the technical manual for Earth's Halls of Amenti star gates and Planetary Templar Complex system. The translations of Miriam were the three Books of the Cloister, once translated in the Maharata texts, detailing cultural structure built upon the Founders Emerald Covenant model. The Templar Mechanics books of John the Baptist were not completed, as he was murdered prior to completion of CDT-Plate translation. The books of Enoch, Jeshua and Miriam represent 12 of the 25 "Missing Books of the Bible" that were originally part of the legitimate Essene "Grail Line" teachings. The Essene teachings were intentionally edited and distorted in 325 AD, by the Council of Nicea and the Church of Rome, to create the control dogma religion presented as the Canonized Bible. The Cathari of Southern France held some of the original Essene records of Jeshua and Miriam until the Church of Rome ordered extermination of the Cathari in 1244 AD. Before their demise, the Cathari hid portions of the genuine Essene records, along with one of the 12 Signet Shields that had been in their possession. These relics will be eventually discovered in contemporary times to validate the teachings of the three CDT-Plate Speakers of present times, once these individuals have completed their current commissioned translation of the CDT Plates.

Other CDT Plate translations of ancient times were dispensed through Speakers born into Hindu, Chinese, Tiberan, African, Egyptian, Mayan, Incan and Celtic Druidic Grail Lines. Since pre-ancient times, all CDT Plate translations seeded into every earthly culture have suffered the same fate of destruction or distortion. Since 208,216 BC, translations of the CDT Plates were repeatedly given by the Priests of Ur Azurite Races in order to prepare Earth humanity for the next scheduled Star Gate Opening Cycle (called a "Stellar Activations Cycle, or "SAC" see Voyagers Volume 2). During the next SAC to follow the famed SAC of 208,216 BC, the Angelic Human race of Earth would be called upon by the Azurites and guardian races of the Emerald Covenant, to assist in healing Earth's damaged Planetary

Templar Complex. When the next SAC arrives on Earth, humanity would also be asked to peacefully assist Guardian Angelic Nations in protecting Earth's Halls of Amenti star gates from Fallen Angelic race domination. Since 22,346 BC, all interdimensional races knew that the next probable SAC on Earth would occur between 2000-2017 AD. The Emerald Order Melchizedek Cluster Founders Races, Azurite Races and Nations of the Emerald Covenant are again returning translations of the CDT-Plates to humanity in preparation for their intensified mass activation that will occur if Earth can be safely guided through the now-commencing 2000-2017 SAC. The three CDT-Plate Speakers of contemporary times will continue to release their commissioned translations of the CDT Plate teachings into the public domain between 1999-2012. Between 2007-2012, if cataclysmic Earth changes can be prevented on Earth during the progressing SAC, Jeshe'ua Sananda Melchizedek, the Second CDT Plate Speaker of 10 AD and the man known as Jesus Christ in the Bible, will again enter physical human incarnation through the Sirius B Council of Azurine. Any beings or interdimensional visitors emerging into Earth's drama that claim to be Jeshe'ua Sananda Melchizedek or Jesus are misrepresenting themselves for the purpose of human manipulation. Jeshe'ua is returning to incarnation as an "INDIGO CHILD" INFANT through the Sirius B Council of Azurine, as he did in 12 BC. Jeshe'ua's scheduled return is intended to herald the beginning of open contact with the inter-galactic Guardian Angelic races of the Emerald Covenant and humanity's long-awaited graduation into the interdimensional inter-galactic communities through officially delivered invitation into another restatement of the Founders Emerald Covenant Co-Evolution Agreement universal peace treaty. Open contact with interdimensional, inter-galactic, inter-time Guardian races will occur through opening of Earth's Halls of Amenti star gates, if cataclysmic Earth changes can be prevented during the 2000-2017 SAC.

In preparation for the 2012 opening of Earth's Halls of Amenti star gates, Jeshe'ua's 2007-2012 foretold "Second Coming" and the mass Angelic Nation contact that these events are scheduled to precede, Jeshe'ua's contemporaries of 10 AD, Miriam and John the Baptist, are already incarnate in human form. The present-day incarnations of Miriam and Joan are currently working closely together to fulfill the First and Second CDT-Plate Speakers Contracts, which are now being progressively translated for public access. The individual holding the Third CDT-Plate Speakers Contract is a woman in the USA, who has also previously served as CDT-Plate speaker during Hindu, Egyptian

and African incarnations of ancient times. All CDT-Plate Speakers work closely together through the established Azurite Temple of the Melchizedek Cloister, FL, an organization created in 1999 at the request of the Emerald Order Elohei Elohim of Density-5, the Priests of Ur Azurite Races of Sirius B and the many IAFW-GA races of the Emerald Covenant. The three CDT-Plate Speakers are presenting foundation teachings of the Emerald Covenant CDT-Plates to assist the Azurite Universal Templar Security Team, IAFW, GA and Founders Races in preparation for the scheduled 2012 opening of the Halls of Amenti star gates. If Earth changes can be prevented through the 2000-2017 SAC, these events will culminate into humanity's intended graduation into the long awaited and foretold "New Age of Unity, Love, Freedom and Enlightenment."

WHO ARE THE VISITORS AND WHERE DO THEY COME FROM?

- VISITORS WERE CALLED "ANGELS" IN ANCIENT TEXTS; TODAY THEY ARE CALLED "ETs". ANGELS AND ETs ARE THE SAME INTERDIMENSIONAL, INTERSTELLAR RACES.
- VISITORS COME FROM A VARIETY OF DIFFERENT MATTER DENSITY LEVELS WITHIN THE 15-DIMENSIONAL TIME MATRIX.
- TO UNDERSTAND THE LOCATIONS FROM WHICH VISITORS EMERGE, IT IS NECESSARY TO UNDERSTAND THE BASIC STRUCTURE OF THE UNIVERSAL MANIFESTATION TEMPLATE.
- THE UNIVERSAL MANIFESTATION TEMPLATE IS MADE OF FIXED POINTS OF FREQUENCY, WHICH FORM UPON CONDENSED FISSION-FUSION POINTS OF ENERGY UNITS CALLED ANTE-MATTER PARTIKL. THESE FIXED POINTS OF FREQUENCY FORM SCALAR-STANDING-WAVES, WHICH CREATE THE TEMPLATE OF VIBRATIONAL ENERGY THAT IS THE BLUEPRINT WITHIN ALL SPACE-TIME-MATTER MANIFESTATION.
- EARTH SCIENTISTS HAVE NOT YET DISCOVERED THE ADVANCED SCIENCES OF SCALAR-CORE-TEMPLATE MECHANICS. THESE SCIENCES WERE KNOWN IN ANCIENT TIMES & ARE THE STANDARD OPERATIONAL SCIENCE IN ADVANCED FUTURE CULTURES.

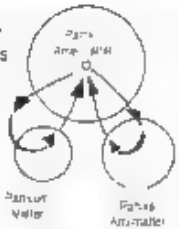
Units of Consciousness, Morphogenetic Fields and Scalar Grids

1 ***Partiki, Partika and Particum***
Smallest units of energy-substance Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity Operate as minute, perpetual motion fission/fusion generators.



2 ***Partiki Grids*** The fabric of morphogenetic field structure Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned Out of a Unified Field of Partiki units Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields

3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A ***Keylons*** – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and
B. ***Keylon Codes*** complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency electro-magnetism that is the morphogenetic field Crystal Body– the Blueprint upon which matter and identity will manifest.

B.

A.

The **Morphogenetic Field** is made of interwoven **Partiki Grids**. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns **scalar wave grids** which hold the form of consciousness within dimensionalized manifestation Morphogenetic Fields are thus **Scalar Grids**, that form in specific ordered interrelationship Partiki Grids form upon the *core geometrical-mathematical* structure of the **Kathara Grid**, and so the Kathara Grid represents the core *Scalar Field* upon which forms manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

HOW HUMANS ARE CHOSEN FOR VISITOR CONTACT

- ABOUT 90% OF ALL CONTEMPORARY EARTH HUMAN VISITOR CONTACTEES AND ABDUCTEES ARE CHOSEN BECAUSE THEY ARE MEMBERS OF ONE OF THE 3 PRIMARY ANCIENT HYBRID-HUMAN STARSEED RACE LINES THE GRAIL LINES (EMERALD DIAMOND AND RUBY SUN DNA TEMPLATES), THE ANNU-ELOHIM (BELIL SUN DNA TEMPLATE) OR THE NEPHEDEM-REPTILIAN (BLACK SUN DNA TEMPLATE).
- PRESENTLY EARTHSEED ROOT RACE HUMANS ARE IN THEIR 5TH ROOT RACE ARYAN CYCLE IN WHICH THE 4TH DNA STRAND TEMPLATE BEGINS ACTIVATION TO OPEN PERCEPTIONS INTO THE HIGHER DIMENSIONAL TIME FIELDS. DURING THIS PERIOD OF EARTH HUMAN EVOLUTIONARY ACCELERATION THE EARTHLY STARSEED RACES ARE BEING CONTACTED BY THEIR HIGHER DIMENSIONAL STELLAR KIN OF WHOM THEY ARE INCARNATE MEMBERS.
- THE 4 PRIMARY GROUPS OF VISITORS THE GRAIL LINE EMERALD ORDER ELOHIE AND RUBY ORDER NEPHILIM-ELOHIM, THE BELIL SUN ANNU-ELOHIM AND THE SERAPHIM-DRAKONIAN BLACK SUN RACES HOLD 3 CONFLICTING AGENDAS REGARDING THE CONTINUATION OF EARTH HUMAN EVOLUTION EACH ARE CONTACTING THEIR EARTH HUMAN HYBRID INCARNATES TO ASSIST IN FULFILLING THEIR RESPECTIVE AGENDAS.
- THE GRAIL LINE VISITORS HOLD THE "DIAMOND SUN" AGENDA OF ASSISTING ALL EARTH HUMANS AND HYBRIDS TO FULFILL THE 12 STRAND DNA TEMPLATE POTENTIAL AS PROMISED IN THE EMERALD COVENANT 248,000 YEARS AGO THE BELIL AND BLACK SUN VISITORS SEEK TO HI-JACK EARTH HUMAN EVOLUTION AND CLAIM DOMINION OF EARTH UNDER FORCED ONE WORLD ORDER, BREAKING THE ANCIENT EMERALD COVENANT INTERSTELLAR TREATY
- EVERY EARTH HUMAN BOTH EARTHSEED AND STARSEED, HAS THE RIGHT TO *CHOOSE* WHICH AGENDA IT WILL HONOR THIS IS WHY THE GRAIL LINE VISITORS ARE EXPOSING THE HIDDEN AGENDAS.

Visitor Methods of Contact & Manipulation

8 PRIMARY METHODS OF VISITOR CONTACT

- PRE-BIRTH ARRANGEMENTS
- PHYSICAL VISITATION – SHIPS, MANIFESTATIONS, PLASMA SHIPS, MERKABA
- TELEPATHY
- DREAM-STATE
- CHANNELING
- KEYLONTA COMMUNICATION MODULES AND CDT-PLATE TRANSLATIONS
- ABDUCTION, INVITATION, MERKABA TELEPORTATION

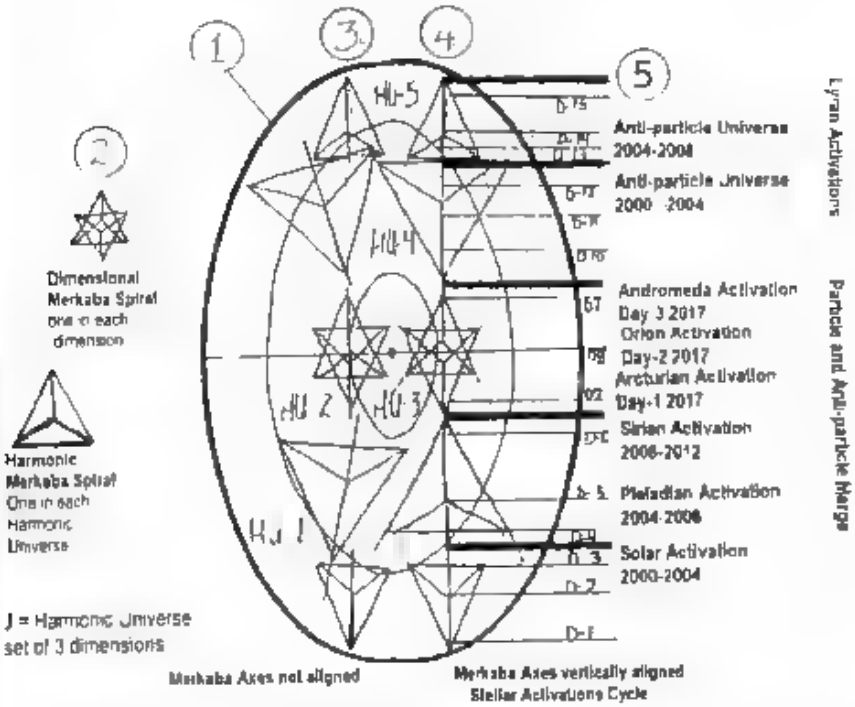
7 PRIMARY METHODS OF VISITOR MANIPULATION

- MONITORING, PHYSICAL AND ASTRAL ABDUCTION
- SCALAR MIND CONTROL – EMP TECHNOLOGIES, SCALAR-PULSE BIO-NEUROLOGICAL BLOCKING, FREQUENCY FENCE, HOLOGRAPHIC INSERT, AUDIO INSERT, FREQUENCY IMPLANTS
- CROP CIRCLES – MASS SCALAR-FREQUENCY TRANSMITERS THAT EFFECT THE SCALAR TEMPLATE OF BIOLOGICAL BODIES (NOT ALL NEGATIVE).
- DISINFORMATION- THROUGH GOVERNMENT INFILTRATES, ET CONTACT , CHANNELING, "ANGEL VISITS"
- PHYSICAL IMPLANTS INSERTED DURING ABDUCTIONS
- SHAPE-SHIFTING AND CLONING INFILTRATION
- ESSENCE DISPLACEMENT –"BODY SNATCHING".

WHY HAVE THE VISITORS RETURNED ?

- THROUGHOUT HUMAN HISTORY HUMANITY WAS ALWAYS AT THE CENTER OF INTERSTELLAR CONFLICT BECAUSE THE HUMAN LINEAGE HAD BEEN CREATED AS A MASTERS RACE TO SERVE AS GUARDIANS AND KEEPERS OF THE INTERPLANETARY TEMPLAR COMPLEX SYSTEM OF TIME PORTALS, STAR GATES AND FREE ENERGY SYSTEMS WITHIN OUR 15-DIMENSIONAL TIME MATRIX.
- ALL PLANETS AND STARS HAVE STAR GATES AT THEIR CORE, WHICH OPEN AND CLOSE AT VARIOUS POINTS IN LONG-TERM CYCLES. EVERY 26,556 YEARS EARTH'S STAR GATES, THE HALLS OF AMENTI, CAN OPEN IF THE PLANETARY CORE FREQUENCY IS HIGH ENOUGH. WHENEVER EARTH'S STAR GATES ARE DUE TO OPEN VISITORS RETURN, EACH SEEKING TO FORWARD ITS OWN AGENDA REGARDING PLANETARY OWNERSHIP AND THE EVOLUTION OF THE HUMAN SPECIES.
- FOR THE FIRST TIME IN 210,216 YEARS (208 216 BC) THE AMENTI STAR GATES WILL OPEN AND EARTH WILL ENCOUNTER A DIMENSIONAL BLEND AND TIME CONTINUUM MERGER. THIS INTERDIMENSIONAL PHYSICS PHENOMENON IS CALLED A STELLAR ACTIVATIONS CYCLE.
- WHATEVER GROUP CONTROLS THE PLANETARY TEMPLAR COMPLEX WHEN THE AMENTI GATES OPEN IN 2012 WILL HAVE DOMINION OVER THE PLANET AND ALSO WILL HAVE ACCESS TO THE CORE UNIVERSAL STAR GATES IN MINTAKA, ORION. THE LAST TIME AMENTI FULLY OPENED POLE SHIFT OCCURRED DUE TO INTRUDER MANIPULATION AND WOULD HAVE AGAIN IF GUARDIAN INTERVENTION HAD NOT BEEN ORCHESTRATED.
- HUMANITY IS PRESENTLY CAUGHT WITHIN AN INTER-STELLAR "STRATEGIC CHESS GAME" OVER WHO WILL CONTROL THE TEMPLAR GATES IN THE 2000-2017 STELLAR ACTIVATIONS CYCLE. IN THE DIAMOND SUN VISION HUMANITY CAN CHOOSE TO BE FREED FROM THE MANY EONS OF INTERSTELLAR MANIPULATION.

The Stellar Bridge



1 One 15 Dimensional Matrix
2 Dimensional Merkaba Spirals (counter-rotating Electro-magnetic Fields)
3 Vertical Merkaba Axes cycle in and out of alignment
4 Every 26 556 years Vertical Axes Align to create the Stellar Bridge – a spiraling bridge of inter-dimensional frequency that moves downward from the Andromeda Star System, through Orion Arcturus Sirius and the Pleiades and connects with Earth via the Solar Em fields, if Earth's core particle pulsation is fast enough
5 Alignment dates of 4 segments of the Stellar Bridge

Earth enters the progressive alignment of the Stellar Bridge between 2000-2017, for the first time in 210,216 years beginning a global Stellar Activations Cycle.

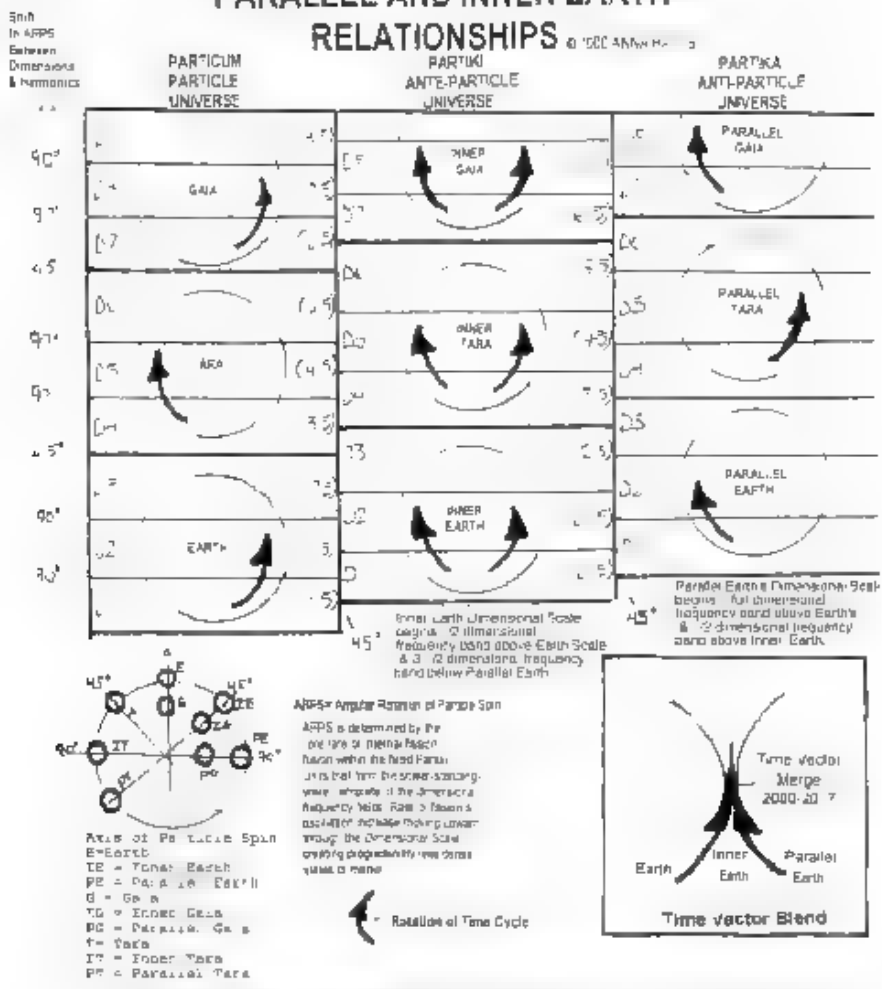
7. **Andes Mts.,South America**(D-7 – D-9)	**1/2012 – 6/2017**	6/2017 –1/2022

The Stellar Bridge alignment infuses Earth with progressively higher dimensional wave spectra causing the frequency seals of Earth's 7 Primary Vortices to progressively open. As each Vortex opens the dimensional wave spectra associated with that vortex begins running through Earth's EM fields, progressively raising the particle pulsation rhythm of the planet, creating a bio-physical Time Acceleration and period of Dimensional Blending that affects everything on the planet. In areas where Earth s EM fields are out of balance tectonic cracking can result. Vortex openings affect climatic patterns and the DNA of biological life forms

Focused group energy working using Keylontic Science technique can assist Earth's Em fields to balance, lessening the potential for tectonic fracturing.

PARALLEL EARTH AND TIME BLEND

- IN THE GREATER STRUCTURE OF PLANETARY PHYSICS EARTH REPRESENTS THE PORTION OF THE PLANETARY BODY STATIONED WITHIN THE FREQUENCY BANDS OF DIMENSIONS 1 THROUGH 3 WITHIN THE PARTICLE UNIVERSE. EARTH HAS ITS COUNTERPART WITHIN THE ANTI-PARTICLE UNIVERSE AS WELL; THIS IS CALLED PARALLEL EARTH. PARALLEL EARTH AND EARTH EACH RUN ON PARALLEL TIME CONTINUUM CYCLES.
- DURING STELLAR ACTIVATION CYCLES, THE TIME CYCLES OF EARTH AND PARALLEL TEMPORARILY BLEND AND MERGE TO FORM ONE CONTINUUM, AND DRAMAS THAT MANIFEST ON PARALLEL EARTH PROGRESSIVELY MANIFEST ON EARTH
- THE PARALLEL EARTH TIME CONTINUUM RUNS AHEAD OF OURS. PRESENTLY THERE IS AN 8-9 YEAR DIFFERENCE. OUR 2000 IS 2008 ON PARALLEL EARTH. THIS DIFFERENCE IN YEARS WILL PROGRESSIVELY SHORTEN BETWEEN NOW AND 2012, WHEN OUR AMENTI GATES OPEN, AND THE TIME CONTINUA WILL FULLY BLEND INTO ONE.
- IN 2000 ON PARALLEL EARTH (1992 HERE), THE BELIL SUN AGENDA VISITOR RACES TOOK OVER AND INSTITUTED ONE-WORLD-ORDER. IN PARALLEL 2003 (1996 HERE), THE BLACK SUN RACES INITIATED WAR WITH THE BELIL SUNS AND TOOK OVER, EMPLOYING THEIR OWN ONE-WORLD-ORDER AGENDA.



Earth Scientists have not yet detected the existence and function of anti-realm/state between Anta and Anta-particle fields that have a criterion angle of rotational axis in particle span. The core interdimensional Scalar-frequency Templates upon which all matter forms are built remain undetected through conventional scientific theory.

HOW HUMANITY LOST THE AWARENESS OF ITS SOUL #2

RESULT OF ANCIENT TEXT DISTORTIONS

- ALL ANCIENT SPIRITUAL TEXTS WERE ATTEMPTED TRANSLATIONS OF THE HISTORICAL AND SCIENTIFIC RECORDS OF THE CDT-PLATES.
- INTENTIONAL DISTORTIONS IN TEXT TRANSLATIONS, FOR POLITICAL CONTROL, CREATED CONFLICTING RELIGIOUS STORIES OF ORIGINS AMONG VARIOUS CULTURES AND LOSS OF THE KNOWLEDGE OF THE ANCIENT SCIENCES.
- FAMILIES OF HYBRID HUMANS BECAME THE CENTRAL CONTROL GROUPS WITHIN THEIR RESPECTIVE CULTURES AND REPRESSED THE FREEDOM TEACHINGS, USING RELIGION AS A CONTROL TOOL FOR DIRECTING THE MASSES.
- GENERATIONS OF WELL-MEANING PEOPLE UPHELD THE DISTORTED TRUTHS PROMOTED IN THEIR CULTURES AS "THE WORD OF GOD," WHILE BEING DENIED ACCESS TO THE ORIGINAL TRUE SPIRITUAL-SCIENCE TEACHINGS THAT WOULD SET US FREE AND WHICH REPRESENTED THE BIRTHRIGHT OF ALL HUMANITY.
- GENERAL POPULATIONS DIVIDED AGAINST EACH OTHER THROUGH THE EVOLUTION OF POLITICAL AND SOCIOLOGICAL CREEDS THAT EMERGED THROUGH THE DISTORTED SPIRITUAL TEACHINGS

WHY HUMANS REMAIN IN CONFLICT

- SINCE PRE-ANCIENT TIMES THERE ARE 3 CONFLICTING PRIMARY HYBRID-HUMAN RACE LINES INTERMIXED WITHIN THE ROOT RACES OF HUMANITY
- THE EARTH HUMAN ROOT RACES OF THIS 3RD SEEDING, WHICH SPAN ALL ETHNIC LINES, ARE THE LEMURIANS (73,000 YA), THE ATLANTIANS (70,000 YA) AND THE ARYANS (65,000 YA). THERE ARE 7 HUMAN ROOT RACES. THE FIRST 2 POLARIANS AND HYPERBORNEANS, WERE OF ETHERIC MATTER DENSITY. THE REMAINING 2 MUVARIANS AND ELANJHECHI REPRESENT FUTURE RACE CYCLES. OUR 5TH ARYAN RACE WILL EVOLVE TO BECOME.
- GRAIL LINES (DNA TRANSMUTATION CODES)
  URTITES (800,000YA) HEBREW (MELCHIZEDEK+HIBIRU HYBRID) & EGYPTIAN, HOST RACE FOR THE 3RD SEEDING
  UR-ANTRIANS (75,000YA) LEMURIAN HOST
  BREANQUA (72,000 YA) ATLANTIAN HOST
  HIBIRU- (68,000 YA) ARYAN HOST
  MELCHIZEDEK (35,000 YA) HOST OF NEXT RACE CYCLE
  EMERALD, DIAMOND & RUBY SUN HYBRIDS- ORIGINAL HUMAN GENETIC ACCELERATION EXPERIMENTS LAST BEGAN ATLANTIAN PERIOD ABOUT 22,000 BC
- DIGRESSIVE HYBRID LINES- HUMAN ILLUMINATI FAMILY LINES
  BELIL SUNS ANUNNAKI HUMAN LINES LAST INFILTRATION 22,000 BC
  BLACK SUNS NEPHEDEM DRAKON-HUMAN LINES LAST INFILTRATION 10,000BC
- EACH GROUP HAD BEEN GIVEN PARTIAL TEACHINGS OF THE CDT-PLATES (SOME DISTORTED), AND PERIODIC VISITATION, CREATING THE CORE CONFLICTS OVER GOD, POWER AND PLANETARY CONTROL BETWEEN THE HUMAN MASSES
- THE STELLAR GENETIC CODING CAN BE IDENTIFIED WITHIN THE SUB-STRAND DNA MATRICES OF THE DNA STRAND TEMPLATE; TO DO SO REQUIRES MORE SOPHISTICATED TECHNOLOGY THAN CONTEMPORARY EARTH SCIENCE.

PERPETUATION OF THE CONFLICT

- THE CONFLICT BETWEEN THE DIAMOND, BELIL AND BLACK SUN HUMAN HYBRID LINES HAS CONTINUED THROUGH TODAY AND IS NOW BEING ACCELERATED BY VISITING ELOHEI, ANNU AND DRAKONIAN RACES.
- HUMANS FROM DIGRESSIVE HYBRID FAMILY LINES ARE VULNERABLE TO MANIPULATION, BUT CAN HEAL THE DIGRESSIVE DNA TEMPLATE TO REGAIN THE 12-STRAND ORIGINAL HUMAN DNA TEMPLATE.
- EXISTING HISTORICAL HYBRID-HUMAN RACE CONFLICTS ARE NOW BEING AMPLIFIED AS VISITORS FROM THE DIAMOND, BELIL AND BLACK SUN RACES ARE NOW MAKING CONTACT WITH THEIR HYBRID-HUMAN PROGENY TO INCREASE THEIR POPULATIONS AND PERPETUATE THEIR 2000-2017 AGENDAS ON EARTH.
- ABOUT 90% OF ALL HUMAN CONTACTEES AND ABDUCTEES ARE UNKNOWINGLY MEMBERS OF ONE OF THE 3 HYBRID-HUMAN RACES. ALL HUMANS CAN BECOME FREE FROM MANIPULATION IF THEY BECOME AWARE OF THE BIG PICTURE, CONSCIOUSLY CHOOSE WHICH AGENDA THEY DESIRE TO SUPPORT AND TAKE STEPS TO FOSTER THEIR OWN PROTECTION.

EARTH HUMAN RACE LINES
STARSEEDS AND THE DNA SUBSTRAND MATRICES

- THE ORIGINAL HUMAN DESIGN ITSELF IS OF AN EXTRATERRESTRIAL OR "ANGELIC" NATURE IN THAT HUMANS ORIGINALLY INHABITED THE SECOND DENSITY (DIMENSIONS 4-5-6) TIME FIELDS OF EARTH, WHERE EARTH IS CALLED TARA. THE TARAN ORIGINAL HUMAN IS CALLED THE *TURANEUSIAM*. EARTH HUMANITY'S STELLAR GENETIC HERITAGE CAN BE FOUND IN THE *DNA SUB-STRAND MATRICES*. THE MINUTE ELECTRO-TONAL (ELECTRICAL SOUND FREQUENCY) *OR SCALAR-STANDING WAVE TEMPLATES* THAT MAKE UP THE BLUEPRINT FOR HUMAN DNA.

- IN THE EARTH HUMAN LINEAGE KNOWN AS THE *ADAMI-KUDMON HUMAN* 7 *ROOT RACES* AND 5 *CLOISTER RACES* WERE SEEDED. EACH *ROOT RACE* EVOLUTION CYCLE DEVELOPED 1 OF THE *FIRST 5* STRANDS OF DNA WITHIN THE 12-STRAND DNA TEMPLATE. EACH *CLOISTER RACE* CARRIED THE *7TH THROUGH 12TH* DNA STRAND TEMPLATE CORRESPONDING TO THE HIGHER DIMENSIONAL DENSITY SYSTEMS. ROOT RACE INCARNATES ARE CALLED *EARTH SEEDS* AND CLOISTER RACE INCARNATES ARE CALLED *STARSEEDS*. THE CLOISTER RACES KEEP THE 12 STRAND DNA TEMPLATE POTENTIALS ALIVE WITHIN THE EARTH HUMAN GENE POOL, AND REPRESENT THE *ADVANCED STAGES* OF HUMAN EVOLUTION.

- THE CLOISTER RACE HUMAN *12-STRAND DNA TEMPLATE* IS KNOWN AS THE *DIAMOND SUN DNA*. CONSCIOUSNESS INCARNATING INTO DIAMOND SUN CLOISTER RACE BIOLOGY ENTERS FROM THE *10TH THROUGH 12TH DIMENSIONS*. INCARNATIONS IN *ROOT RACE BIOLOGY* ENTER FROM THE *3RD THROUGH 6TH DIMENSIONS*. ALL ROOT RACE HUMANS HAVE THE POTENTIAL TO RECEIVE GENETIC ACCELERATION THROUGH *BIO-REGENESIS TECHNOLOGY* THAT WILL ALLOW FOR REGENERATION OF THE 12-STRAND CLOISTER RACE DNA TEMPLATE.

- THROUGHOUT THE COURSE OF EARTH HUMAN HISTORY THERE HAS BEEN FURTHER HYBRIDIZATION WITH VARIOUS INTERSTELLAR RACES, CREATING MORE VARIETIES OF STARSEEDS AMONG THE EARTHSEED ROOT RACE POPULATIONS.

AT VARIOUS TIMES IN EARTH HUMAN EVOLUTION CERTAIN FAMILIES OF *CLOISTER RACE* HUMANS WERE FURTHER *GENETICALLY ENHANCED* THROUGH HYBRIDIZATION WITH THE *SEED RACE* OUT OF WHICH THE ORIGINAL "ANGELIC" *TURANEUSIAM* HUMAN LINEAGE EMERGED. THE SEED RACE OF THE HUMAN IS CALLED THE *ORAPHIM*.

THE *ORAPHIM* HUMAN SEED RACE IS A *COMPOSITE GENETIC CODE* OF *SIRIAN AZURITE* FROM DENSITY-2 (DIMENSIONS 4-6), *LYRAN-SIRIAN ANUHAZI* FROM DENSITY-3 (DIMENSIONS 7-9), *ELOHEI EMERALD ORDER* FROM DENSITY-4 (DIMENSIONS 10-12) AND THE *FOUNDERS RACE MELCHIZEDEK CLOISTER BRENOUA* FROM DENSITY-5 (DIMENSIONS 13-15).

THE HUMAN CLOISTER ORAPHIM HYBRID IS KNOWN AS AN *EMERALD ORDER ORAPHIM*. IN CONTEMPORARY TIMES THEY ARE REFERRED TO AS "*INDIGO CHILDREN*". THE DNA TEMPLATE OF AN EO-ORAPHIM HAS A *24-48 DNA STRAND POTENTIAL*, WHICH ALLOWS FOR *BIOLOGICAL IMMORTALITY* AND FULL *BIOLOGICAL TRANSMUTATION* OUT OF THE DIMENSIONALIZED TIME MATRIX WHEN FULLY ACTIVATED.

THE EMERALD ORDER ORAPHIM *24-48 STRAND DNA TEMPLATE* (WHICH CONTAINS WITHIN IT THE ORIGINAL HUMAN 12-STRAND DNA TEMPLATE, PLUS THE ADDITIONAL CODING) IS CALLED THE *EMERALD SUN DNA*. ORAPHIM HUMANS ARE KNOWN AS THE *PRIMARY "GRAIL" LINES*, THOSE CARRYING THE "*HOLY GRAIL*", OR DNA TEMPLATE DESIGN THAT CAN FULLY TRANSMUTE OUT OF MATTER AND HOLD ULTRA-TERRESTRIAL (BEYOND-TIME) CONSCIOUSNESS IN EMBODIMENT. CONSCIOUSNESS INCARNATING INTO THE *EMERALD SUN ORAPHIM BIOLOGY* ENTERS FROM A MINIMUM OF THE *13TH DIMENSION*. THE PRIMARY GRAIL LINES AMONG EARTH HUMANS, ENTERED INTO EARTH'S GENE POOL 800,000 YEARS AGO, LATER BECAME THE LINEAGE THROUGH WHICH *JESHEUA MELCHIZEDEK S "CHRISTIAC" FAMILY LINES* EMERGED FOLLOWING HIS BIRTH IN 12BC.

THE EMERALD SUN ORAPHIM "FOUNDERS" GENOME ACCELERATES THE EVOLUTION OF EARTH HUMAN POPULATIONS. THE EMERALD AND DIAMOND SUN ORAPHIM AND CLOISTER RACE HYBRID-HUMANS COLLECTIVELY REPRESENT THE *PRIMARY GRAIL LINES* OR "CHRISTIAC" LINES AMONG EARTH HUMAN POPULATIONS.

- A *SECONDARY GRAIL LINE* EMERGED WITHIN EARTH HUMAN POPULATIONS ABOUT 248,000 YEARS AGO THROUGH HYBRIDIZATION WITH THE *NEPHILIM RACE*. THE NEPHILIM RACE IS A HYBRID RACE OF *CLOISTER HUMAN* FROM PREVIOUS EARTH SEEDINGS COMBINED WITH THE *SIRIAN ANUNNAKI* RACE STRAIN. THE NEPHILIM RACE BIOLOGY CONTAINS THE 9 THROUGH 11 STRAND DNA TEMPLATE OF THE DENSITY-3 & 4 (DIMENSIONS 9-11) *RUBY ORDER NEPHILIM-ELOHIM*. THE NEPHILIM-ELOHIM *9-11 STRAND DNA TEMPLATE* IS CALLED THE *RUBY SUN DNA*. IT ALLOWS FOR BIOLOGICAL TRANSMUTATION INTO THE ETHERIC THROUGH PRE-MATTER HYDRO-PLASMIC FORMS OF DIMENSIONS 9-11. CONSCIOUSNESS INCARNATING IN THE *RUBY SUN BIOLOGY* ENTERS FROM THE *9TH THROUGH 11TH DIMENSIONS*.

- THE RUBY SUN NEPHILIM-ELOHIM HUMAN LINEAGE LATER BECAME THE FAMILY LINES OF *PHARAOH AKHENATON* AND THE "CHRISTIAC" *SECONDARY GRAIL LINE* OF *JESHEWUA AHUMBRA* AFTER HIS BIRTH IN 7BC. THE RUBY SUN NEPHILIM-ELOHIM HYBRID RACE ASSISTS IN THE EVOLUTION OF EARTH HUMAN RACES THAT HAVE SUFFERED GENETIC DIGRESSION DUE TO DETRIMENTAL HYBRIDIZATION WITH THE *SIRIAN ANUNNAKI* AND *ANUNNAKI-DRAKONIAN* REPTILIAN RACES.

- *TWO OTHER PRIMARY HYBRID HUMAN STARSEED* LINES EXIST AMONG THE ROOT RACE POPULATIONS, BOTH CARRYING *DIGRESSIVE DNA TEMPLATES* THAT BLOCK THE ABILITY OF FULL BIOLOGICAL TRANSMUTATION OUT OF TIME, AND ALLOW FOR LIMITED EMBODIMENT OF HIGHER DIMENSIONAL CONSCIOUSNESS. THESE ARE THE *ANNU-ELOHIM* LINES OF DIGRESSIVE ANUNNAKI AND NEPHILIM RACES AND THE *NEPHEDEM-DRAKONIAN* REPTILIAN HUMAN LINES.

- THE ANNU-ELOHIM HYBRIDS HAVE UP TO *11 STRAND DNA TEMPLATE* POTENTIAL, CALLED THE *LOW BELIL SUN DNA*. THE *NEPHEDEM-DRAKONIAN HYBRID* HAS A *10-STRAND DNA TEMPLATE* POTENTIAL CALLED THE *BLACK SUN DNA*. LOW BELIL AND BLACK SUN BIOLOGY CAN TRANSMUTE NO HIGHER THAN *DENSITY-2*.

- DIGRESSIVE HYBRID STRAINS CAN RECEIVE BIO-REGENESIS TO HEAL DNA TEMPLATE DISTORTIONS. BELIL SUN HYBRIDS ARE INCARNATE *ANNU-ELOHIM*. BLACK SUNS ARE INCARNATE *SERAPHIM*.

THESE REFER TO THE CORE STRAND COUNT (AND THUS THE DIMENSIONAL LEVEL OF CONSCIOUSNESS EMBODIED). FOR EXAMPLE, THE "COUNCIL OF 9" IS THE 9-STRAND REVERSE NIBIRUIAN-NEPHILIM MATRIX, WHO RESIDE IN THE 9TH DIMENSIONAL ETHERIC MATTER FIELDS.

- OBJECTIVE IS TO GENETICALLY DIGRESS EARTH-HUMANS OUT OF THE 12-STRAND DNA POTENTIAL AND ENHANCE THE ANUNNAKI GENETIC POTENTIAL BY HYBRIDIZING BETWEEN THE ANNU-MELCHIZEDEK RACES,AND ALLOW ANUNNAKI DOMINION OF THE INTERPLANETARY TEMPLAR COMPLEX AND EARTH UNDER DICTATORSHIP OF THE ANNU-ELOHIM.
- BELIL SUN DIGRESSIVE LINES OF THE KNIGHTS TEMPLAR AND RELATED OCCULT SCHOOLS
- PRESENTLY USING NEW AGE MOVEMENT DISTORTED ASCENSION TEACHINGS TO CREATE PARTIAL DNA ACCELERATION FOR COVERT MATRIX TRANSPLANT IN HUMANS.
- HOLD ONE-WORLD-ORDER AGENDA, OFTEN USE RELIGIOUS IDOLS, "ANGEL" COMMUNICATIONS AND STARSHIP DISPLAYS AS CONTACT METHODS.
- ASSOCIATED WITH THE SIRIAN ANUNNAKI, PLEIADIAN-NIBIRUIAN BLONDES, NEPHILIM ANNU-MELCHIZEDEKS, SOME DIGRESSIVE ZETA AND AZURITE SIRIANS, ARCTURIAN. ANDROMEDA, AND ORION VISITOR RACES ARE ATTEMPTING TO LEAD HUMAN ILLUMINATI GOVERNMENT AWAY FROM DRAKONIAN CONTRACTS, TO RUN THEIR OWN OWO AGENDA.
- OFTEN USE NAMES AND APPEARANCES OF LEGITIMATE GUARDIAN VISITORS FOR CONTACT AND INFLITRATION

AGENDA 3- THE BLACK SUN VISION

THE REPTILIAN RACE DRACO-ZETA AGENDA

- ANCIENT ROOTS IN NEPHEDEM HUMAN-DRAKONIAN EARTH FAMILY LINES. ORCHESTRATED THE COUNCIL OF NICAEA,THE ALBIGENSIAN CRUSADES THE LATER CRUSADES AND PRESENTLY MAKES UP THE MAJORITY OF THE HUMAN ILLUMINATI WORLD MANAGEMENT TEAM, COVERT WORLD GOVERNMENTS AND MJ-12
- CONTEMPORARY TREATIES WITH THE RIGELIAN-ZETA-ZEPHELIUM RACES IN THE 1930'S BROUGHT REINFORCEMENT TO THE NEPHEDEM-HUMAN ONE-WORLD ORDER DOMINION AGENDA. ZETA TREATIES WITH THE DRAKONIAN ORION RACES IN THE 1980'S RENDERED THE HUMAN NEPHEDEM UNDER THE DICTATORSHIP OF THE ZETA-DRACOS ALLIANCE.
- RUN BY THE SERAPHIM REPTILIAN COLLECTIVE IN DIMENSION 10, AND THE ORION DRAKONIAN COLLECTIVE SEEK HYBRIDIZATION TO IMPROVE STATURE OF NEPHEDEM HUMAN AND ZETA LINES FOR TAKEOVER OF EARTH TERRITORIES AND GENOCIDE OF THE DIAMOND AND BELIL SUN HUMAN LINES
- INSTIGATED FOR THE 1943 PHILADELPHIA EXPERIMENT 1983 MONTAUK PROJECT THE HAARP PROJECT "STAR WARS" SYSTEM: CHEMTRAILS INTENDED BIOLOGICAL EXTERMINATION AND WAR IN VARIOUS REGIONS FOR POLITICAL AND FINANCIAL GAIN INVOLVED WITH FORMING THE FEDERAL RESERVE WORLD BANKING SYSTEM, THE JFK SHOOTING, ARE THE COVERT FORCE BEHIND MANY MULTI-NATIONAL CORPORATIONS AND THE PHARMACEUTICAL INDUSTRIES AS WELL AS COVERT SCI-TECH AND WEAPONS DEVELOPMENT OPERATIONS.
- OBJECTIVE IS TO REDUCE ALL BUT REPTILIAN POPULATIONS FOR PLANETARY TAKOVER AND RESETTLEMENT. DESIRE EARTH CHANGES AND WAR, IF NECESSARY, TO CLEAR THE REAL ESTATE. MANY NEPHEDEM HAVE DEFECTED TO BELIL AGENDA ASSOCIATED WITH DRAKON. DRACOS, NEPHEDEM, PLEIADIAN BELI-KUDYEM DRACO-ANUNNAKI KURENDARA NIBIRUANS, SOME NEPHILIM NIBIRUAN BLONDS AND OTHERS

GUARDIAN RACES INTERVENTION

- RESIDENTS OF PARALLEL EARTH CALLED THE *FREEDOM FIGHTERS*, WHO HAVE NOT FALLEN UNDER THE MASS MIND CONTROL HAARP TECHNOLOGIES OF THE PARALELL EARTH GOVERNMENT, HAVE BEEN TRYING TO CONTACT THEIR PARALLEL SELVES HERE TO WARN THEM, AND IT IS BECAUSE OF THESE PETITIONS THAT GUARDIAN RACES INTERVENED ON OUR EARTH.
- GUARDIAN RACES ARE TRAINING SMALL GROUPS TO ORCHESTRATE "PLANETARY SHIELDS CLINICS" UTILIZING INTERNAL SCALAR-GRID MECHANICS TO HELP THEM SEVER THE TIME VECTORS BETWEEN EARTH AND PARALLEL BEFORE 11/2000 AND TO ASSIST IN CLEARING DISTORTIONS IN THE PLANETARY SHIELDS.
- GUARDIAN RACES ARE ALSO TRYING TO EDUCATE US ABOUT THE COVERT INTRUDER AGENDAS SO WE CAN BEGIN MAKING DIFFERENT CHOICES HERE; CHOICES THAT STOP THE INTRUDER DRAMA WHICH OCCURRED ON PARALLEL EARTH FROM MANIFESTING HERE.
- DUE TO THE PHYSICS DYNAMICS OF THE STELLAR ACTIVATIONS CYCLE AND THE COVERT INTRUDER AGENDAS, EARTH IS IN A DELICATE POSITION BOTH POLITICALLY AND GEOPHYSICALLY BETWEEN 2000-2017. GUARDIAN RACES ARE DOING EVERYTHING THEY CAN TO ENSURE EARTH'S SAFE PASSAGE THROUGH THIS PERIOD, BUT THEY NEED US TO BE AWARE OF THE BIG PICTURE SO WE CAN BEGIN TO HELP OURSELVES.

WE HAVE LEARNED ABOUT:

- EOMC VISITORS; THAT ET VISITATION AND HYBRIDIZATION HAVE BEEN ONGOING THROUGHOUT HUMAN HISTORY, AND HOW THIS KNOWLEDGE HAS BEEN REPRESSED IN HUMAN CULTURE THROUGH EVENTS SUCH AS THE COUNCIL OF NICAEA 325 AD ANI THE ALBIGENSIAN CRUSADE 1209-1244 AD.
- HISTORICAL AND CONTEMPORARY HUMAN CONFLICT HAVING ITS ROOTS IN THE CONFLICTS BETWEEN THE 3 ANCIENT HUMAN-HYBRID RACES, THE DIAMOND SUN GRAIL LINES, THE BELIL SUN ANUNNAKI LINES AND TH BLACK SUN NEPHEDEM DRAKONIAN LINES.
- THE ANCIENT STELLAR RACES NOW RETURNING TO CONTACT AND REINFORCE THEIR HYBRID LINES FOR IMPLEMENTATION OF EARTH CONTROL AGENDAS, DUE TO THE 2000-2017 STELLAR ACTIVATIONS CYCLE AND OPENING OF THE AMENTI STAR GATES.
- HUMANITY HAVING A CHOICE TO SEE THE BIG PICTURE AND OPPORTUNITY TO ENTER THE DIAMOND SUN VISION OF THE EMERALD COVENANT, TO LEARN NEW HEALING TECHNOLOGIES & BEGIN SUBTLE CONTACT.

EACH INDIVIDUAL ENCOUNTERING THIS INFORMATION
IS FACED WITH A CHOICE
AS TO HOW MUCH THEY ARE WILLING TO KNOW
AND HOW MUCH THEY DESIRE TO GROW.
FOR THOSE WHO DESIRE TO LEARN MORE,
KNOWLEDGE WILL CONTINUE TO BE PROVIDED.

SOLUTIONS

- AWARENESS OF THE BIG PICTURE WILL ALLOW US TO MAKE INTELLIGENT CHOICES AS TO WHAT AGENDAS **WE WILL CONTINUE TO ALLOW TO AFFECT US.**
- IF WE ARE WILLING TO RAPIDLY LEARN TECHNIQUES OF DNA TEMPLATE BIO-REGENESIS, WE CAN CREATE BIOLOGICAL IMMUNITY TO INTRUDER MIND CONTROL MANIPULATION AND EMP, SCALAR AND BIO-GENOCIDE TECHNOLOGIES, WHILE SIMULTANEOUSLY EXPANDING OUR CONSCIOUSNESS INTO THE INTERDIMENSIONAL FIELDS.
- AS INDIVIDUALS WE CAN LEARN TO FIRST CREATE OUR PERSONAL SECURITY, THEN BECOME INVOLVED WITH THE BIG PICTURE EVENTS TO ASSIST OUR PLANET THROUGH 2000-2017.
- CONTACTEES AND ABDUCTEES ARE IN A UNIQUE POSITION. MANY ARE BEING GROOMED AS AMBASSADORS TO ASSIST IN THE COMING INTRODUCTION OF VISITOR RACES INTO THE PUBLIC ARENA. IT IS IMPORTANT TO DISCOVER WHO ONE IS IN CONTACT WITH, AS MANY PEOPLE ARE BEING GROOMED FOR MIND CONTROL OR TO UNKNOWINGLY SERVE ONE-WORLD-ORDER-AGENDAS.
- IT IS ALSO IMPORTANT FOR CONTACTEES TO REALIZE THEY ARE CHOSEN BECAUSE OF THEIR GENETIC MAKEUP AND GENETIC RELATIONSHIP TO VARIOUS VISITOR GROUPS; IF ONE IS GENETICALLY CONNECTED TO MANIPULATIVE VISITORS, THIS VULNERABILITY CAN BE HEALED THROUGH BIO-REGENESIS TECHNIQUES AND THE SCIENCE OF SPIRITUAL DEVELOPMENT.

POSTURING FOR EMPOWERMENT IN CONTACT

- VIEW YOJRSELF AS AN EQUAL TO ANY VISITOR KNOWING THAT YOU HAVE THE POTENT.AL TO BE JLST AS EVOLVED AND ADVANCED THROUGH INTEGRATION OF YOUR HIGHER DIMENSIONS OF CONSCIOLSNESS AND ACTIVATION OF YOJR DORMANT DNA.
- HOLD YOUR OWN POWER OF DECISION AND AUTHORITY OVER YOUF EVOLUTIONARY DESTINY LEARN TO CONNECT DIRECTLY TO YOUR OWN INNATE 12-DIMENS ONAL AVATAR "INNER CHR ST" DENTITY TO ESTABLISH A DIRECT PERSONAL CONNECTION TO THE ONE-SOURCE OF CREATION YOU CAN LEARN FROM VISITORS BUT LET NO OTHER BEING STAND BETWEEN YOU AND YOJR PERSONAL CONNECTION TO SOLRCE YOU DO NOT NEED INTERMED.AR ES TO MAKE THE "GOD-CONNECTION" FOR YOJ YOU ONLY NEED INTEGRATION OF YOUR OWN HIGHER D:MENS ONAL IDENTITY LEVELS.
- BE W LLING TO TAKE RESPONSIBILITY FOR YOUR OWN CONSCIOUS EVOLJTION AND DON'T EXPECT OTHERS. ON EARTH OR AMONG THE VISITORS. TO DIRECT YOUR EVOLUTION FOR YOJ BECOMING RESPONSIBLE FOR YOURSELF AND YOJR MULTID MENSIONAL ANATOMY IS PART OF GROWING JP TO SPIRITJAL MAT.RITY
- BE WILLING TO LEARN THE REALITY OF THE SPIRITUAL LAW OF ONE AND THE SCIENTIFIC LAWS OF UNIVERSAL JNIFIED FIELD PHYSICS. S(YOU CAN BECOME COMPETENT IN MANIFESTING WHAT YOU DESIRE TO EXPERIENCE AND SO LEARN HOW TO WORK IN KINDNESS NON-JJDGEMENT COOPERATION, UNCONDITIONAL LOVE AND RESPECT FOR ALL OTHER LIFE FORMS
- MAKE REMEMBERING AND OPERATING FROM YOUR SP RITJAL CENTER (HIGHER DIMENS ONAL CONSC OLSNESS) THE FIRST PRIORITY IN YOJR LIFE AND REALIZE THAT YOJ DO NOT NEED A FORMAL RELIGION TO ACHIEVE SP RITUAL ACTLALIZATION

REALIZING YOUR ROLE AS AN EMPOWERED CONTACTEE

- YOU WERE CHOSEN FOR CONTACT BECAUSE YOU HAVE THE GENETIC POTENTIAL FOR RAPID DNA TEMPLATE BIO-REGENESIS AND ACTIVATION
- BECOMING CONSCIOUSLY INVOLVED WITH YOUR DNA ACCELERATION PROCESS WILL ALLOW YOUR DORMANT GENETIC POTENTIALS AND SPIRITUAL AWARENESS TO AWAKEN MORE QUICKLY
- IN ACCELERATING YOUR OWN POTENTIALS YOU NOT ONLY EMPOWER YOURSELF, YOU ASSIST DIRECTLY IN THE EVOLUTION OF THE HUMAN RACE.
- THROUGH CONSCIOUSLY DIRECTED EDUCATED CONTACT AND EVOLUTIONARY ACCELERATION YOU CAN LEARN ADVANCED KNOWLEDGE DISCOVER WHY YOU CHOSE TO INCARNATE IN THIS LIFETIME, AND REMEMBER WHAT YOU INCARNATED TO DO TO ASSIST IN THE MASS DRAMA TAKING PLACE ON EARTH AT THIS TIME.
- IN YOUR OWN PROGRESSIVE AWAKENING TO YOUR ETERNAL IDENTITY YOU CAN HELP OTHER PEOPLE TO AWAKEN, AND YOU CAN BECOME A HEALING INFLUENCE IN REGARD TO OTHERS AND THE MASS DRAMA.
- IF YOU COMMIT TO AWAKENING YOU CAN ASSIST THE PRO-HUMAN VISITOR RACES IN MAKING THEIR PRESENCE KNOWN TO HUMAN POPULATIONS IN A NON-THREATENING MANNER.

BY SINCERELY WORKING WITH PRINCIPLES OF SPIRITUAL MATURITY YOU CAN BEGIN TO EXPERIENCE CONSCIOUS CONTACT WITH PRO-HUMAN VISITOR RACES

AS A CONSCIOUS CONTACTEE YOU WILL BE AT THE FRONT OF THE NEW WAVE OF HUMAN EVOLUTION

IF YOU ARE ABLE TO REGENERATE AND ACTIVATE MORE OF THE 12-STRAND DNA TEMPLATE YOU MAY HAVE THE OPPORTUNITY FOR LITERAL BIOLOGICAL STAR GATE PASSAGE OR STAR-SHIP PICK UP TO EXPERIENCE TIME TRAVEL TO MORE ADVANCED FUTURE CULTURES

CLAIMING YOUR RIGHT TO CHOOSE
WHAT NOT TO DO IN VISITOR CONTACT

- BE NAÏVE THINK ALL CONTACT IS BENEFICIAL, VIEW VISITORS AS OUR "CREATOR GODS" "SPACE PARENTS" OR "SAVIORS" *REALIZE HUMANS CAN BE EQUALLY POWERFUL MAJESTIC AND WISE AND THAT OFTEN EARTH HUMANS HAVE MORE SPIRITUAL MATURITY AND MORAL ETHICS THAN MANY OF THE VISITORS.*
- EXPECT HUMAN EXPERTS IN GOVERNMENT RELIGION PSYCHIATRY MEDICINE, ETC TO "SAVE YOU" THEY HAVE LITTLE MORE KNOWLEDGE THAN YOU REGARDING THE REALITIES OF CONTACT *REALIZE THAT YOU CAN BECOME YOUR OWN "EXPERT" AND GUIDE, THROUGH INTEGRATING YOUR OWN HIGHER DIMENSIONS OF CONSCIOUSNESS BIO-REGENESIS TECHNOLOGY PROTECTS YOU DURING AND ACCELERATES THIS PROCESS.*
- BECOME DAZZLED AND SEDUCED BY THE GLAMORS OF VISITOR CONTACT THEY CAN REPRESENT THEMSELVES AS "ANGELS", "GODS" OR KINDLY SPACE-KIN AND CAN DO MANY "STAGE TRICKS" TO DEMONSTRATE THEIR ADVANCEMENT, BUT THIS DOESN'T NECESSARILY MEAN THEY ARE HOLDING A FAIR AGENDA *REALIZE THAT JUST BECAUSE THEY ARE MORE EVOLVED IN CERTAIN WAYS DOESN'T MEAN THEY ARE PERFECT AND FREE OF HIDDEN AGENDAS.*
- ENGAGE CONTACT BEFORE YOU HAVE LEARNED HOW TO FREQUENCY-SEAL YOUR PERSONAL MULTI-DIMENSIONAL BIO-ENERGETIC FIELD *YOU CAN PROTECT YOURSELF FROM COVERT MANIPULATION BY LEARNING SIMPLE BIO-REGENESIS TECHNIQUES AND DISCOVERING THE STRUCTURE OF YOUR 15-DIMENSIONAL ANATOMY THEN YOU CAN PROCEED WITH CONTACT SAFELY*
- SUCCUMB TO FEAR AND FEELING POWERLESS AND VICTIMIZED *EVERY PERSON HAS WITHIN THEM THE POWER AND DORMANT SPIRITUAL (HIGHER CONSCIOUSNESS) WISDOM TO HANDLE CONTAC EFFECTIVELY AND SAFELY ALL CONTACT IS INTENDED TO FOSTER SPIRITUAL GROWTH AND EVOLUTIONARY ACCELERATION.*

The DNA represents twist scalar-wave sequences. Five Letters that correspond to each dimension/sequence of consciousness. Sequences of consciousness are ingrained by into the scalar fields of the dimensions. Freezes from space-time-matter is achieved by transcending the dimensional Five Letters progressively expanding the consciousness and DNA & transcending the body mass out of density. There are 48 Primary Fire Letter Sequences/DNA Strands of full light/rainbow through which the consciousness ascends into new dimensional levels of Ascended Mastery
The 15-Dimensional Time Matrix holds 30 Fire Letter Sequences
3 Levels of Identity focused in the Energy Matrix. 3 levels of the Energy Matrix hold 18 Fire Letter Sequences
The 30 Fire Letter Sequences of the Time Matrix + 18 of the Energy Matrix form the 48 Codes of Ascension
The Crystalline genetic matrix of the Indigo Children allows more rapid re-assembly of the 48 DNA Fire Letters/ scalar-wave grids, creating the potential to embody the Avatar identity and open the consciousness to Ascended Master identity levels. Indigo Children are Avatars and Ascended Masters waiting to awaken

SCALAR-MECHANICS-
THE TECHNOLOGIES OF MIND

- MENTAL IMAGES (LIGHT), THOUGHTS (INNER SOUND) AND WORDS (SOUND) ARE COMPOSED OF THE ENERGY OF CONSCIOUSNESS — PARTIKI UNITS, THE MEDIUM OF CREATION. THEY FORM SCALAR-STANDING WAVE FREQUENCY PATTERNS, THAT DIRECTLY EFFECT THE SCALAR-TEMPLATE OF THE BODY. THOUGHTS ARE THINGS, CONSCIOUSNESS IS ENERGY AND ENERGY IS CONSCIOUS.

- MIND-DIRECTED THOUGHTS, IMAGES AND SOUNDS TRANSLATE INTO ELECTRICAL INSTRUCTIONS WITHIN THE SCALAR TEMPLATE OF THE BODY, MIND AND SUBTLE-BODY ANATOMY

- COLOR REPRESENTS SPECIFIC WAVELENGTHS OF FREQUENCY WITHIN THE MULTIDIMENSIONAL SPECTRUM SPECIFIC COLORS CAN BE USED TO DIRECT SPECIFIC FREQUENCIES WITHIN THE DNA AND BODY TEMPLATE TO CREATE DESIRED RESULTS.

- SYMBOLS AND GEOMETRICAL FORMS REPRESENT SPECIFIC MATHEMATICAL SCALAR-WAVE INSTRUCTIONS THAT ALSO CAN BE USED TO DIRECT FREQUENCY FOR DESIRED RESULTS.

- BIO-REGENESIS TECHNOLOGY USES THE SPECIFIC COLOR AND SYMBOL CONTROL FREQUENCIES OF THE INTERDIMENSIONAL SPECTRUM TO DIRECT SPECIFIC FREQUENCY INTO SPECIFIC REGIONS OF THE BODY AND DNA TEMPLATE, TO CREATE SPECIFIC RESULTS OF HEALING AND FORTIFICATION WITHIN THE BODY-MIND-SPIRIT SYSTEM.

Temporary Maharic Seal Bio-Regenesis Technique

Short Version of the Maharic Seal™ Bio-field Clearing, Alignment and Protection Technique from the Kathara Bio-Spiritual Healing System™ Program. For temporary restoration and maintenance of personal Bio-Field Integrity and Physical Revitalization.

Prior to use: Read through the steps and practice the visualizations and their sequence slowly, for familiarity

1. Imagine the 2-dimensional image of a "Merkaba Star" or six-pointed "Star of David" in the color of Pale Silver as if the image is drawn on a black background on the inside of your forehead. This image represents a composite scalar wave pattern **Keylontic Symbol Code** called the "Hierophant." Its color denotes the frequency spectra of the 11th and 12th Dimensions, and its form, combined with these color frequencies, represents the control code of the 12th dimensional frequency band. It is the Key Code to unlock the 12th Dimensional Maharic Shield in the personal and planetary scalar grids.
2. INHALE, while visualizing the Hierophant Symbol at the center of the brain, in the Pineal Gland.
3. EXHALE, while using the exhale breath to firmly move the Hierophant down the Central Vertical Body Current (energy current in the center of the body), then out between the legs and straight down into the Earth's core (your 13th Chakra).
4. INHALE, while imagining that you can see at Earth's core a huge, **Disc-shaped Crystalline Platform of Pale Silver Light** that extends outward on a horizontal plane through the entire body of the Earth and out into the atmosphere. Visualize the Hierophant suspended in the center of the disc (this image represents the Planetary Maharic Shield, the scalar wave grid composed of dimension 10/11/12 frequency, with the Hierophant Key Code positioned to activate the Planetary Shield.)

5 EXHALE while pushing your breath outward into the Earth's Maharic Shield, imagining as you exhale that the force of the breath has made the **Earth's Maharic Shield** begin to spin.

6. INHALE, using the inhale breath to draw **Pale Silver Light** from Earth's spinning Maharic Shield into the Hierophant positioned at the center of the Planetary Shield.

7 EXHALE, using the exhale breath to push the Pale Silver Light throughout the entire Hierophant, making the Hierophant glow and pulsate with Pale Silver Light.

8 INHALE, imagine that the glowing Pale Silver Hierophant momentarily flashes Crimson Red and returns to Pale Silver. Then use the inhale breath to draw the Hierophant **vertically up** from its position at Earth's core, to a position 12" below your feet (the position of your dormant personal Maharic Shield scalar wave grid). As you inhale the Hierophant upward from Earth's core, imagine that it trails a **thick cord of Pale Silver Light** behind it. One end of the **Silver Cord** remains attached to Earth's core, the other attached to the Hierophant. (The Cord represents an "Energy Feed Line" through which you will draw energy up from the Earth's Maharic Shield into your personal Maharic Shield.)

9 EXHALE with your attention on the Hierophant positioned 12" below your feet and use the exhale breath to push a **burst of Pale Silver Light** outward on a **horizontal plane** from the Hierophant. Imagine that a **Disc-shaped, Crystalline Platform of Pale Silver Light** about 4' in diameter, extends on a horizontal plane 12" beneath your feet around the Hierophant at its center. (This image represents your personal Maharic Shield.)

10 INHALE while using the inhale breath to draw more **Pale Silver Light** up through the **Pale Silver Cord** from Earth's Core, into the Hierophant at the center of your personal Maharic Shield.

11 EXHALE, using the exhale breath to push the Pale Silver Light **from the Hierophant** out **into your Maharic Shield.** Imagine that your Maharic Shield now **pulsates**, as it fills with the Pale Silver Light from Earth's Core.

12 INHALE again drawing more Pale Silver Light up from Earth's Core through the Pale Silver Cord into the Hierophant, and imagine the **Pale Silver Cord expanding to four feet in width** forming

a **Pillar of Pale Silver Light** running up from Earth's Core **directly into your four-foot-diameter Maharic Shield.**

13 EXHALE again, using the exhale breath to push **Pale Silver Light from the Hierophant** outward into your Maharic Shield, while imagining that your Maharic Shield **"takes on a life of its own,"** the disc suddenly **"folding upward"** with a **"popping"** sensation, to form a **4' diameter PILLAR of Pale Silver Light** all around and running through your body. (This is your Maharic SEAL, a temporary scalar-wave pillar of dimension 10/11/12 frequency light that blocks out disharmonic frequencies from dimensions 1 through 12, and begins to realign disharmonic frequencies in your body and bio-field to their original perfect natural order)

14 INHALE, imagining that the inhale breath draws the Pale Silver Light **from the Pillar encasing the body into every body cell.** Sense the tingling feeling as the Pale Silver Light moves through the physical body.

15 EXHALE, imagining that you can feel the energy of the Pale Silver Light **expanding into every crevice of the body** and then **outward around the body** into the Bio-field.

16 Breathe naturally for a minute or two, as the feeling of the Pale Silver Light moves through you, while **sensing the energy presence** of the Maharic Seal Pale Silver Pillar 4' around your body. The more time you spend breathing and sensing the energies, the more dimension 10/11/12 frequency you are drawing into your Pillar, which will increase the length of time the Maharic Seal Pillar will remain in your Bio-field.

17 Return your attention to the Hierophant still positioned 12" below your feet.

18 INHALE, using the inhale breath to draw the Hierophant up through your Central Vertical Body Current, then out the top of your head (the 7th "Crown" Chakra) to a point about 36" above the head (the 14th Chakra).

19 EXHALE FORCEFULLY, using the exhale breath to **rapidly expand the Hierophant outward** on a horizontal plane at the **14th Chakra,** until the Hierophant suddenly "disappears" from view with a mild "popping" sensation.

20. Breathe normally, while visualizing for a moment a **brilliant 4' Pale Silver Pillar of Light** extending from the **Earth's Core** upward, **fully encasing your body** and extending far above the head into Earth's atmosphere and to a **single Star of Pale Blue Light** far off in deep space. Your Maharic Shield is now temporarily activated, and your Maharic Seal Pillar is temporarily manifest within your Bio-Field. The Maharic Seal will remain in your Bio-field anywhere from 20 minutes to 1 hour at first. The more this exercise is practiced, the longer the Pillar will remain.
21. For **quick reinforcement of the Maharic Seal** once the full process has been run within 24 hours. Simply imagine a **spark of Pale Silver Light** at the Pineal Gland, exhale it rapidly down to **Earth's Core** and imagine the Earth's Maharic Shield **spinning**. Call to mind the **Pale Silver Cord** and **Inhale** the 4' diameter Cord all the way up around you, **forming the Pillar,** attaching it "out in deep space" to the Star of Pale Blue Light.

The Short Version of this technique provides a "**manually created" temporary Maharic Seal** in your Bio-Field, and **requires manual resetting every 24 hours** with **frequent reinforcement during the day.** Using and practicing the **full version** of this technique as described in the *Kathara Bio-Spiritual Healing System™ Level-I Maharic Recoding Process™* **will progressively program the Cellular Memory of the body to hold the Maharic Seal for prolonged periods of time.** With consistent practice of the **full technique** over an extended period of time, the Maharic Seal will function **automatically** as a permanent fixture within your Bio-field.

In the meantime, the **Short Version** of this technique, coupled with **reinforcement throughout the day,** will provide **Bio-field protection** and **gentle, regenerative Core Template realignment** for all aspects of the physical and Subtle-Energy Body systems. **It is recommended to use at least this Short Version of the Maharic Seal technique prior to ANY energy work, "channeling," or Astral and Dream Projection.** It will not only **provide protection** from disharmonic energies, it will also **amplify the results you desire to gain** from these activities.

It is best to use the Maharic Seal daily. Used in the **morning** before starting your day, the Maharic Seal will help to **harmonize personal and environmental energies** throughout the day. Used in the **evening** prior to sleep, it will begin to **increase conscious memory of sleep-time experience** and will protect your consciousness and body from dis-harmonic energies while you sleep.

TECHNIQUE 1: VISITOR DIFFERENTIATION

ENERGY SENSING

Visitor Contact is an Interdimensional Phenomenon To become empowered in Visitor Contact it is necessary to be aware of the Multi dimensional Spectrum and to develop at least rudimentary skill in Higher Sensory Perception, so you can make intelligent assessments regarding what posture to take in a Contact Experience

The Interdimensional Spectrum is composed of sets of subtle energy frequency bands awakening the natural attribute of Higher Sensory Perception is the process of attuning the mind and inner sensory faculties to the subtle-energy frequency spectrum Always use the Maharic Seal Technique before any energy work for protection and to retain personal bio-field integrity

A. ENERGY SENSING - DIFFERENTIATING ENERGY SIGNATURES

Every living thing and every object in manifestation has its translation in terms of energy frequency the specific frequency pattern inherent to a form is called its Energy Signature In contact experience it is useful to become skilled in identifying energy signatures in the subtle-energy frequency spectrum as Visitors most often initiate contact from the higher dimensional frequency spectrum, which is not detectable from the usual 3-dimensional sensing faculties In becoming adept at sensing energy signatures, you can determine whether Visitors are present and assess the nature of the visiting presence by the frequency it carries

Exercise 1: Detecting Variations in Frequency

Select several objects of a size you can hold in your hand

1 Choose the first object observe its contours with your eyes and feel its apparent weight, first in the left hand then in the right hand
2 Close your eyes and place the object in your RIGHT PALM
3 INHALE, drawing the breath into the center region of the breast (4th Heart Chakra)

4 Then use the EXHALE breath to push the energy of your attention down the RIGHT ARM and through the RIGHT PALM into the object you are holding.

5 Transfer the object to the LEFT PALM and INHALE the energy signature of the object up the RIGHT ARM to the 4th Heart Chakra.

6 EXHALE the energy drawn up through the RIGHT ARM into the Heart Chakra, and try to sense the specific "feel" of this energy signature around the shoulder area. Steps 1–6 bring an imprint of the object's energy signature into your 4th dimensional astral body.

7 INHALE, then use the EXHALE breath to move the energy signature down to the region just below the Navel, at the center of the body (the 2nd Sacral Chakra).

8 INHALE, then use the EXHALE breath to push the energy signature from the 2nd Chakra out on a horizontal plane just below the Navel. Sense the "feeling" of the energy signature from this area. Steps 7–8 bring the frequencies of the energy signature into the 2nd dimensional emotional body sensory facility, where a stronger sensation of energy distinction can be detected.

9 Try steps 1–8 again with the next object and focus your attention on sensing the differences between the various energy signatures carried by each object. **Through practice of this process your neurological system will begin to develop greater sensitivity to reading and detecting differences between subtle energy frequencies.**

Exercise 2: Remote-Reading Energy Signatures

Pick an object several feet away from your body as a target for remote-reading an energy signature.

1 INHALE and imagine that the breath draws energy into your 4th Heart Chakra.

2 Use the EXHALE breath to push a cord of White energy from your 4th Chakra to the target object.

3 INHALE, then use the EXHALE breath to expand and project part of the energy of your consciousness through the energy cord all the way into and around your target object.

4 Use the next INHALE breath to draw the energy you projected into the object back through the cord into your 4th Chakra. EXHALE,

spreading the energy signature of the object out from the 4th Chakra to a position around your shoulders. Sense the "feeling" of the energy signature.

5. Next try steps 1-4 with objects further away, then try it with objects or locations from memory that are no longer in the same space/time with your body.

6. Try steps 1-4 with photographs of people, places and objects to sense the information contained within their energy signature. This process further develops the neurological structure to detect and distinguish between subtle energy frequencies.

B. ENERGY SENSING - LOCATING ENERGY SIGNATURES

Our bodies and consciousness are composed of energy that manifests in the form of dimensionalized frequency spectra. Every object has an intrinsic energy signature in subtle-energy frequency, but objects and life forms are not the only things that are composed of frequency. Manifest objects represent the "positive space" in our 3-dimensional perceptual field, and the "space between objects" represents the "negative space", or the portion of the interdimensional frequency spectrum that does not process through our perceptual faculties; thus we perceive the "space between objects" as "blank" or "vacant space". The entire perceptual field before us is in truth a United Field of Frequency. Vacant space represents only the portions of the United Field we are not perceiving through our 3-dimensional senses. Visitors utilize the interdimensional spectrum for monitoring and subtle contact, and they are often actively present within our perceived "vacant space", just beyond our usual frequency range. We can become skilled at detecting and locating subtle visitor presence, and the activity of other layers of reality that take place within the vacant space, if we learn to employ the natural attributes of our consciousness in specific ways.

Exercise 1: Locating Energy Fields - Dimensional Grid Scan

1. **INHALE**, then use the **EXHALE** breath to **project a field** of your consciousness from your 4th Heart Chakra into the room you are in, as if your consciousness fills every nook and cranny in the space. Take several breaths if necessary, projecting and expanding with the **EXHALE**: more of your consciousness from your 4th Chakra into the

room, until you can sense around the shoulder area the "feel" of the boundaries of the room around you.

2. Breathe normally, and close your eyes, focusing your attention into a dark space on the inside of your forehead. Imagine that you can now see within the **dark space on the inside of your forehead** the room or space you are reading as an image of a 3-dimensional **"Cross-hatched Grid"** of energy light, the Grid of the room appearing as lines drawn in light against a black background.

3. Pick the dimensional level of the room you desire to scan by using its **primary color** (wave-length) **frequency** and imagining the Cross-hatched Grid of light in your image turning into lines of light made of the chosen color (dimensional color-frequency spectrum—see pp. 52 and 68).

4. **INHALE**, then use the **EXHALE** breath to **project** the energy of your consciousness into the **center of the Cross-hatched Grid** in your image.

5. Imagine the energy of your consciousness as a small **Point of White Light** positioned in the center of the space created by the Grid.

6. From this Point of awareness imagine that you are scanning each section of the space inside the Grid for visitors or life forms. In your inner image look for the **presence of other energy fields within the Grid**, that you did not intentionally imagine there. If visualization is difficult for you simply sense the presence of the Grid you created and "feel" for life-force variations in the energy space inside the Grid.

7. Upon locating an "invisible from 3-D" presence in your Grid image, open your eyes and sense the location of the room you are in that corresponds to the location in the inner image of the Grid to locate the "invisible visitor" in the room. **With practice of this technique you can learn to quickly locate interdimensional energy presences within a space, and you can also tell from what level in the dimensional frequency spectrum they are initiating visitation.**

Exercise 2: Locating Energy Sweep Scan

Once you train your neurological structure to become sensitized to projecting consciousness into a space for Grid Scanning, you can then take a short-cut to the Grid technique.

1. **INHALE**, then use the **EXHALE** breath to project your consciousness from your **4th Chakra** directly into the space you desire to scan, filling the space with the energy of your consciousness.

2. Sense for the **"feeling" of life-force variations**, beginning with the area of the space farthest away from you, and steadily scan-feel your way back to your body position.

3. Once detecting an area of variation in the space, **INHALE**, then use the **EXHALE** breath to **project a cord** of White energy from your **4th Chakra** to the area of variation, and expand your consciousness into the area to **detect its boundaries**.

4. To detect the **level of consciousness** the visitor holds, breathe normally and use each **EXHALE** breath to project a **color frequency**, starting with the Dimension 12 White color through the cord and into the area.

5. Once projecting a color, sense the area to see if it **registers "life-force"** in that dimensional band, you will have a sensation of "live energy" in **4th Heart Chakra** and around the **shoulders** if the presence in the energy area holds D-12 consciousness.

6. If no presence is sensed at that frequency, use the color frequency of the next dimension down, until you get a "live-energy" sensation. The color frequency in which you get a "live" reading will represent the highest dimensional level of consciousness that presence is capable of holding. This process works well on people in bodies, as well as for visitors from higher dimensions.

Interdimensional Wavelength Color Spectra: D-1 Red, D-2 Orange, D-3 Yellow, D-4 Green, D-5 Blue, D-6 Indigo, D-7 Violet, D-8 Gold, D-9 Silver, D-10 Blue-Black, D-11 Silver-Black, D-12 White, D-13 Turquoise, D-14 Pale Yellow, D-15 Magenta (red-violet/burgundy) *With practice, your neurological system will become sensitized to high-frequency scanning and you will get more detail.*

TECHNIQUE 2: VISITOR DIFFERENTIATION

SYMBOL-LANGUAGE FEEDBACK

When developing skill in Higher Sensory Perception, the various levels of the **multidimensional mind** begin to work more smoothly and effectively in cooperation with the 3-dimensionally conscious mind. **The various 15-dimensional levels of mind** can be simply understood as the **Subconscious Mind** of dimensions 1 and 2, the **Ego Mind** of dimension 3 and the multidimensional **Spiritual Mind** levels of dimensions 4-15. All of the levels of mind are conscious, awake and aware and each represent a **"platform of perception"** through which the Self takes in information from the multidimensional spectrum. The Ego Mind speaks in linear words and language patterns and the various other portions of mind speak in a variety of electrical impulse languages and "direct cognition." The **"language barrier"** between the other levels of mind and the Ego Mind can be bridged by the Ego Mind taking the initiative and creating **Symbol-code Agreements** with the various aspects of mind. In creating Symbol-Code-Agreements the Ego Mind sets a parameter for a specific symbol or shape and assigns a meaning to that symbol. The chosen symbol is then run through the **Chakra System** where its form and direct cognition of meaning are translated into the electrical impulse language of the multidimensional levels of mind. The Ego Mind may then use the **Symbol-Code** to retrieve conscious **feedback** from the various levels of mind. In the following technique a very simple Symbol-Code Agreement will be used to allow the Ego Mind to access greater information regarding **whether or not it is in one's best interest to interact with something.** Among other applications, this technique is very useful in determining if a specific visitor contact is harmful or helpful to your evolution.

1. In this technique the **Symbol-Code** of a Circular **White Sphere** will be used as the Bridging Symbol between the Ego Mind and the other levels of the Multidimensional Mind. The Sphere will symbolize the INTENTION of wholeness, health and positive personal evolution.

2. Hold the image of a White Sphere in mind, visualizing it as a Pure White Sphere of energy on the inside of your forehead. Give the mental **affirmation** to yourself: **"This image stands for my wholeness and perfection of mind-body-spirit."**
3. **INHALE** and draw the image of the **White Sphere** into the center of the brain at the **Pineal Gland**; then use the **EXHALE** breath to push the White Sphere down **through the center of your body**, out between your legs and deep into the Earth's core.
4. Imagine the White Sphere deep in the Earth at **Earth's core (your 13th Chakra)**; then use the **INHALE** breath to draw the White Sphere back up from the Earth's core through the center of your body and **back to the Pineal Gland. Steps 1-4 set the symbol code and its intention into each Chakra that corresponds to each level of the multidimensional Mind, using the energy currents of the Kundalini at the Pineal and Base of the Spine to carry the electrical impulse translation of the Symbol-Code. This is called Symbol-Code Induction.**
5. Once the Symbol-Code is induced into the bio-energetic field, it becomes an **operational frequency gauge** translating feedback from your other levels of mind to let you know if something is conducive to maintaining perfect alignment of the mind-body-spirit system. You can then imagine a person, idea or object upon the "inner screen" on the inside of your forehead. Place the image of the **White Sphere around the image.**
6. Breathe normally for a minute or two, and observe if the White Sphere remains White in color **or if it begins to grow darker,** ranging from light gray to dark gray to black. **The darker the Sphere becomes the more damaging is the item placed within it to your maintaining pertect alignment of body-mind-spirit.** With repetition and frequent practice, this technique can become an accurate "quick gauge" to give you **practical feedback guidance** from your own highest levels of mind.

TECHNIQUE 3: VISITOR DIFFERENTIATION
THE MAHARIC BOUNDARY TEST

The Maharic Sea Technique previously described is the best way to create rapid protection from undesirable interdimensional influences. The Maharic Sea can also be used to detect whether or not interaction with an interdimensional visitor or communicator is in your best interest. The Maharic Sea will disengage disruptive energies but will amplify and draw closer energies and interdimensional contact that are conducive to your growth. (See p. 53.

1. If you find yourself in an abduction experience or if you are attempting to receive subtle communication from a visitor presence, complete the Maharic Sea Technique to bring up your pillar of 12-Dimensional frequency in your bio-energetic field.

2. Take a moment to sense the boundaries of your Maharic Seal pillar. INHALE focusing the in-breath into your 4th Heart Chakra. Use the EXHALE breath to expand your awareness horizontally out from your 4th Chakra into your bio-energetic field, until your can sense a mild resistance about 4' out in your bio-energetic field, where the scalar-field of your Maharic Sea is positioned.

3. Once you sense the boundaries of your Maharic Seal, INHALE into the 4th Chakra, then use the EXHALE breath to expand more energy from your 4th Chakra out into your bio-energetic field, gently pushing the boundaries of your Maharic Sea outward. Expand the boundaries of your Maharic Pillar outward until the energy of the pillar touches the visitor or energy signature that is attempting communication.

4. If the energy presence or visitor is a dis-harmonic or lower-frequency influence that would be detrimental to your well-being, the 12th-Dimensional frequency of the Maharic Pillar will cause the presence to withdraw and disengage from your bio-energetic field. If the presence is benevolent and contact productive to your growth, your Maharic Pillar will pass through and surround the presence, making contact and communication easier to achieve.

5. Expanding the boundary of your Maharic Sea around you in times of crisis can also deter physical attack from other persons and assist in averting accidents.

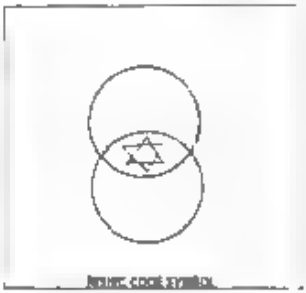
TECHNIQUE 4: VISITOR DIFFERENTIATION

5TH DENSITY GEOMANCY PROJECTION

Geomancies are specific **Symbol-Codes** that possess an energy reality in the form of **scalar-standing-wave configurations** which correspond specifically to the natural order of the scalar-template of particular frequency bands within the inter-dimensional spectrum. The **5th Density Geomancy** depicted below is a scalar form that corresponds to the 5th through 7th dimensions. This geomancy called the **Rishic Code** serves to link the frequencies of the 1st - 2nd dimensional levels of personal consciousness to the **5th Density** anti-matter **13th-15th dimensional levels of consciousness** forming a **bridge of information transfer** from the 15-dimensional consciousness to the 2-dimensionally aware level of consciousness. The following technique can be used to receive an **impression of Direct Cognition** of information regarding the nature of any Energy Signature. It is especially useful when seeking to detect more information about encounters with inter-dimensional visitors and can like-wise be used to find more information about other persons in regard to the nature of their relationship to you. **TO INSURE PERSONAL BIO-FIELD INTEGRITY, COMPLETE THE MAHARIC SEAL BEFORE DOING THIS TECHNIQUE**

1 Visualize the **Rishic Code symbol** in the center of your brain at the **Pineal Gland**. INHALE, then use the **EXHALE** breath to push the Symbol down to the **4th Heart Chakra.**

2 INHALE, then use the **EXHALE** breath to push the Symbol out of the 4th Chakra toward the person, being or Energy Signature you desire to better understand. (This can also be done without the person being present, by imagining their image or a symbol you choose to represent their Energy Signature, positioned in front of your 4th Chakra about 1" out in your bio-energetic field.)



Rishic code symbol

3 Breath normally, and with each **EXHALE** breath imagine the **Symbol expanding around your target** until you can visualize the person, being or Energy Signature stationed at the **center** of the 6-pointed Star (Merkaba Star) in your projected Symbol image.

4 Once the Symbol has expanded to encompass your target, continue to breath normally using each **INHALE** breath to return an imprint of the target's Energy Signature back to your **4th Chakra**. Continue to INHALE the energy imprint back to your 4th Chakra until you begin to sense a "feeling" of its reality and meaning in the 4th Chakra and around the **shoulder** area of your bio-energetic field.

5 As you begin to get an impression of the target's Energy Signature, use the next **INHALE** to draw the Energy Signature up the center of your body, back to the **Pineal Gland** at the center of the brain. Create an **open conduit of energy** between the target, your 4th Chakra and your Pineal Gland, and simply breathe normally, allowing the Energy Signature of the target to move through you. **BE WITH** the energy and clear your mind of thoughts, while you establish a sympathetic energy rapport with the target. Let cognition come as your mind **stills** within this energetic link.

6 After **"BEING WITH"** the target's Energy Signature for a few minutes, place your attention on the expanded Rishic Code Symbol that surrounds the target. **INHALE** and imagine the Symbol **contracting**, becoming small again, and returning to your **4th Chakra** then up to the **Pineal Gland**. This will disengage the energetic link between you and the target. In a **notebook**, ask specific **questions** you would like to have answered regarding you and the target, and be still for a few moments to allow each answer to come to you. Your own mind-functions will translate the energy information you picked up into your home language. With practice you will also receive visual and Direct Cognition translations of data.

TECHNIQUE 5: VISITOR DIFFERENTIATION
MAHARIC MATRIX SCAN-TRACKING THE PILLAR

The **Maharic Pillar** is a 12th Dimensional configuration of scalar frequency that links the 15-dimensional aspects of personal consciousness together within the interdimensional fields of time. The Maharic Pillar can be seen in the bio energetic field of all living things using Higher Sensory Perception. Most beings in manifestation are still evolving to "fill in" the frequencies of the interdimensional spectrum within their Maharic Pillar. The dimensional frequencies and corresponding levels of consciousness that are still **dormant** within a person's Maharic Pillar will appear to Higher Sensory Perception as **dark or blank spots** or **breakage** within the structure of their Maharic Pillar. By scanning the **integrity of the Maharic Pillar** on a person, visitor or Energy Signature one can tell which dimensional frequencies of consciousness are presently inactive within the target's consciousness. A target with many breaks in the Maharic Pillar is likely to have incomplete knowledge and awareness of the nature of reality and due to the lack of understanding may hold intentions toward you that are not in your best interest. **Scanning the integrity of the Maharic Pillar can provide valuable information as to whether you should engage in such relationship.** This technique works well with people, interdimensional visitors and formless conscious densities such as those involved with "channeling."

To maintain personal bio-field integrity, always use the Maharic Seal prior to any Energy Scanning work.

1. Choose the target for your scan, then imagine the image of a **White Line** of Energy about 3" wide transposed over the image of the target. If the target is not present simply imagine a **colorless sphere of energy** as the symbol for the target's Energy Signature, and visualize the White Line transposed over the image of the colorless sphere.

2. Close your eyes and observe the White Line with your inner vision, imagining an image of the target with the White Line transposed over it on the **inside of your forehead**. Hold the image steady for a few moments and observe where the White Line begins to show **dark areas** or **breaks** in its continuity.

3. Imagine now that the White Line is **segmented horizontally into thirds**, each third representing **5 dimensional frequency bands**. If **discontinuity** appears in the White Line in the **top third**, or in the area at the **top of the 2nd third** where the 2nd and 3rd thirds meet, this indicates that the highest dimensions of consciousness are not active within the target, and it **may pose a danger** to you should you engage in contact.

4. If dark spots or breaks in the White Line appear in the **middle of the 2nd third or below** this point, the target may have lack of awareness in some areas. As long as the **upper third** of the White Line/Maharic Pillar is intact, the target is **still being directed by the peaceful aspects of consciousness from the highest dimensions of being and should not pose a danger for interaction.**

5 TECHNIQUES FOR DISENGAGING VISITOR MANIPULATION

- **PRACTICE MAHARIC SEAL FREQUENTLY, IN MORNING UPON AWAKENING, AND AT NIGHT BEFORE SLEEP,** TO BUILD AND STRENGTHEN 12TH DIMENSIONAL FREQUENCY SEAL IN YOUR BIOFIELD AND DNA TEMPLATE. **(See Page 53)**

- CHLOROPHYLL SUPPLEMENTS AND CAFFEINE DETER ZETA GENETIC MATERIAL HARVEST.

- **SEAL ASTRAL BODY WITH MAHARIC FREQUENCY THROUGH SILVER CORD AND 4TH CHAKRA.** **(See Page 76)**

- **MEDITATE WITH 5TH DENSITY GEOMANCY TO DISCOVER AND STRENGTHEN YOUR SPIRITUAL CORE AND DRAW IN THE FREQUENCIES OF HIGHER CONSCIOUSNESS** **(See Page 72)**

TECHNIQUE 2: DISENGAGING MANIPULATION

THE EPSILON SEQUENCE

All languages represent sonic-tonal vibrational scalar templates that make up the scalar grid of the body's matrix. Written language symbols are visual representations of these tonal vibrational scalar templates. Vibrational electrical impulses within the body actually translate these electrical impulses into written language that affect the functions of the DNA, physical body and the perceptive faculties. Encoded consciousness language refers to a subtle yet mathematical codes within the vibrational frequencies of the physical universe, serving as operational instructions. The Epsilon Sequence utilizes the Greek language and the Greek letters and their mathematical formula to activate the brain's neural pathways with the body's scalar wave matrix and its

1. Activate the **Maharic Seal** and bring up the **Maharic Pillar** in the Bio-energetic Field. (See p 53)

2. Focus your attention at **Earth's Core** your 1st Chakra as a small **White Spark** of light. **INHALE** using the INHALE breath to draw the **White Spark upward** into the Central vertical current of the body while visualizing a **wide Pale Silver Cord** of Maharic Frequency attached to the White spark moving up into the body with the White Spark. This is the Maharic Frequency **Feed Line**. Breathe normally and with each **INHALE** draw the Silver Cord with the White Spark up the Central vertical current toward the **4th Chakra**.

3. Once the White Spark with the Silver Cord attached has reached the center of the 4th Heart Chakra breathe normally using each **INHALE** breath to bring more Pale Silver Maharic Frequency up through the Cord from Earth's core to the **4th Chakra**. Use each EXHALE breath to expand the Pale Silver energy out into the 4th Chakra then out into the bio-energetic field about 6' around the body.

4. Imagine the egg shape of the **Astral Body** around you and visualize it filling with **Pale Silver Light** as you continue to breathe Maharic Frequency up from the Earth's core through the Cord. Breathe for several minutes, **fortifying the Astral Body** with Maharic Frequency. When the Astral Body has accepted as much Maharic Frequency as it can hold observe that the **4th Chakra** becomes a glowing **Silver Disc**.

5. You may desire to continue fortifying the lower Chakra Centers and bio-field levels by simply using the **EXHALE** breath to move the **White Spark** and **Silver Cord down** to each lower Chakra and repeating the same process as described in steps 1-4.

"THE MAHARATA"

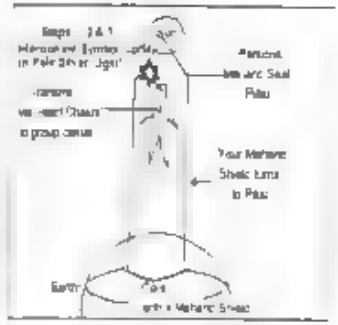
Anchoring the Planetary Christos Field

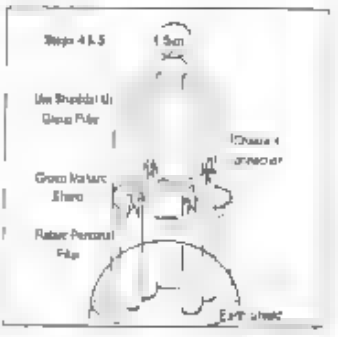
The Group Maharic Seal—Building the Um Shaddai Ur—
"Pillar of First Cause/Eckatic Light"

1. **1 BREATH + 3**
   BREATH 1- *Visualize Hierophant Symbol Code* at the *Pineal Gland*. Inhale, then EXHALE forcefully moving the Symbol Code down *Central Body Current* and into *Earth's core*
   3 BREATHS- Take 3 full breaths and on each EXHALE push breath firmly into the *Symbol Code* at Earth's core, making the Symbol Code spin, and visualize each breath expanding into a huge spinning *DISC* of *Pale Silver Light* in the center of the Earth, the disc spin moving faster with each breath. (This is the Earth's *Maharic Shield*-The *Shield of Amaratena*)

2. **1 BREATH + 3**
   Breath 1- On the next INHALE draw the spinning Symbol Code up to *12" below the feet*, visualizing a *4" diameter tube* of Pale Silver Light trailing from Earth's core following the Symbol Code. EXHALE and push a spinning *DISC* of *Pale Silver Light* outward *12" beneath the feet*. This is your personal *Maharic Shield*
   3 BREATHS- Take 3 breaths on each EXHALE pushing the breath outward into the disc, making the disc spin faster

3. **1 BREATH + 3**
   Breath 1- On the INHALE draw a large amount of Pale Silver Energy up through the *TUBE* from the Earth's core, and EXHALE this energy into the *Maharic Shield DISC* beneath your feet. Visualize the DISC *"Popping" into a Vertical Pillar of Pale Silver Light*, completely *surrounding and penetrating your body*, and connecting with the Silver *TUBE* to form a large *tube/pillar of light* ascending from Earth's core up into the Earth's atmosphere to a *PALE BLUE SPECK* of light at the *CENTER OF THE SUN*. Align with the vertical axis of the Energy Matrix. Visualize your body as being sealed inside the Silver Pillar. This is your personal *Maharic Shield*
   3 BREATHS- Take 3 breaths, on the INHALE drawing energy up from Earth's core to the *4th Heart Chakra*, on the EXHALE push the breath from the *Heart Chakra* into the Tube of Pale Silver Light around you, each breath making Pillar appear brighter/stronger





4. **1 BREATH**- Take a slow, full INHALE drawing a thick current of energy up from Earth's core into the *4th Chakra*, then EXHALE sharply directing the breath energy to a point at the center of the group circle into focus object if one is used. As you EXHALE visualize your Pillar Replicating- one Pillar remains around you, your personal heart seal, and another replica expands outward around the entire group. Visualize a large silver DISC growing out from the group center point, the breath the palms surface forming a platform upon which the group stands. This is the group *Maharic Shield* through which the Um Shaddai Ur Pillar will electro-magnetically ground into the Earth's *Maharic Shield*.

5. **3 BREATHS**- Take 3 final breaths and with each INHALE visualize a stream of Silver energy coming up through the feet from Earth's core and simultaneously down from the Sun through the top of the head, the 2 streams of energy meeting & forming one thick Silver stream at the *Heart Chakra*. On EXHALE push the group center point. With the first energizing breath simply breathe normally each EXHALE moving energy into the group center point. Start with the group as a *Pillar* and visualize the Um Shaddai Ur Pillar of Light emanating from the *Sun* through the *group pillar and group Maharic Shield* and into the *Earth's Maharic Shield*

Six Steps Toward Joy

1 **Surrender to the Moment** Suspend all JUDGMENT and EXPECTATIONS. Open to receive the gifts and lessons in self awareness that each moment holds. Transcend polarity thinking & seek the gift. **What can I learn from this that will take me to higher levels of self-awareness?**

2 **Be Here NOW** Direct thoughts out of the past and away from the future to the ever-present NOW. Observe without judgment what IS NOW. **Am I right here, right now?**

3 **FEEL** Shift from thinking to KNOWING. Suspend linear thought analysis and mind chatter and *Breathe In the Now* of your present moment AS ENERGY to connect with your 3-D reality in Direct Cognition rather than indirect observation. **What does NOW feel like? Answer without words. FEEL.**

4 **Choose Your Response** ACT rather than REACT. We can change how we feel in any moment by changing our judgments of a situation. Take time to re-perceive circumstances of upset and reframe our judgments in search of the hidden gifts and potentials. In any moment we can CHOOSE how we will respond. **How can I reframe this, and what is the best way to respond for joy?**

5 **Experience Stillness-Know Silence** Sit quietly, breathe slowly and deeply, cease mind chatter and hold body as still as possible. Block out or remove distracting stimuli. Bring attention to a Single Point of Focus and experience NO-Thing. Discover the Still Point of your Eternal Core. **Shhhh.**

6 **Honor Your Whole Being** Pay attention to the signals of your body, mind, emotions. Spirit-Inner-Child-Adolescent-Master, and honor the needs of your multiple parts in a balanced way. Find out what YOU really need and give to others only that which makes you feel joyful to give freely. **What do I REALLY need right now? Am I giving freely in joy or am I giving to receive? How can I fulfill my own needs?**

Six Steps Toward Joy With Others

1. **Own Your OWN STUFF** When bothered, BREATHE, find the STILL POINT within, gently ask your Soul for solutions, and refrain from complaining and expecting others to resolve your issues. You have the power within to "unbother yourself" to restore joy, without violating the boundaries of others. Be assertive with others and lovingly ask them not to dump their "stuff" on you, reminding them of their power to create joy. **Am I "dumping my stuff" on others right now? Am I allowing others to drain me by "dumping their stuff" on me? What are the real issues?**

2. **Respect Boundaries** Set and honor healthy personal boundaries and kindly but assertively remind others that you will not have them crossed. Respect others' boundaries, and refrain from acts of disrespect such as gossip, unsolicited advice, criticizing and judging, making assumptions and presumptions, minding their business, attempting to directly or indirectly control their actions, attitudes or emotions. Respect people's right to be who they are, and respect your own right to have and uphold personal boundaries. **Am I genuinely respecting the boundaries of others? Am I allowing my boundaries to be violated? What actions can I take to change this?**

3. **Mutuality** Competition, "one-up-man-ship" and passing judgment on others are ego games that bind you to self-awareness and empowerment. If situations are approached from a "win-win" perspective of mutuality, and the highest vision for all is sought, joyful solutions will prosper. **What is the highest win-win vision right now? How can we both get our needs met? Are we respecting each other's boundaries? How will I heal or disengage non-mutual relationships?**

4. **Be Effective** Having to be "right" implies making others "wrong" and sets the stage for conflict. Is being "right" more important than creating desired outcomes? Being EFFECTIVE is finding win-win solutions, respecting the rights of all to be exactly who and how they are, even if you disagree. If you do not respect each others' boundaries and own your own stuff, you will be unable to create mutuality or effective solutions. If others need to make you wrong, recognize the ego

game and refrain from engaging. You do not have to justify your existence to others and they do not have to justify their existence to you. **Am I trying to make someone wrong? Is someone trying to make me wrong? Are we respecting each other's boundaries and right to be? Can I engage this with effective action?**

◊ **Responsibility.** If we take responsibility for our words, actions, motives and experiences, we will not blame others for our problems and thus empower ourselves to solve them. Self-awareness comes from gently critiquing ourselves to determine where our actions are violating others or are ineffective. Replace blame with compassion, humility and effective action to reclaim your power to create joy. **Am I acting responsibly or am I blaming others? Am I allowing others to use blame as a way to control or manipulate me? How can I take responsible action in handling my "stuff?"**

◊ **Humility.** Humility is knowing your true place in relation to the universe and the environment around you. It is knowing that you are not above or below others, and that all beings and things are part of God and therefore all should always be treated with Love, Honor, Kindness, Respect, Mutuality, Allowance, Responsibility and Reverence. **Do I act with Humility?**

3-6-9 Rod Repair

This is described in the Level One clearing matrix in the HGS manual under Spiritual Body, Monad Triad Harmonics, Item 6., Metatronic Mind/Nephilim Correction 9D

In each of the Horizontal Triad Bodies, which encompass the masculine and mental principle of energy current, the last third of the harmonic structure, or the last 12 subharmonic strings for each harmonic triad concludes at 3D, 6D and 9D This term is the shorthand reference to scan and initiate the repair process of the 36 harmonics located in each of the Horizontal Triad Bodies located in the 3rd dimension, 6th dimension and the 9th Dimension

These 3-6-9 bodies are required for correct energetic circulation of current to run through out the merkabic bodies and to run these combined triad of Kundalini currents to spiral into their corrected pattern. The Merkaba does not spin correctly or spin at all, if these subharmonic strings are damaged, running reversal or missing. The 12D Diamond Sun Body Consciousness of our higher Avatar Christos has the intelligence and Blueprint required to rebuild and repair these damaged Lightbody structures.

Once the Kundalini current runs in corrected patterns to build the subharmonic strings in each of the 3-6-9 dimensions, the actual structure of the Horizontal Triad Bodies can begin to build higher mental bodies and merge into their Trinitized Form. The corrected mental body patterns rebuilt in each of these higher mind matrices, is also leading to Metatronic repair which is a Nephilim 9D body correction. Electron splitting and reversal electron light patterns have manifested Metatronic Reversal in the masculine principle, therefore damaging the Rod structure in the Consciousness and its operational functions in the Lightbody for human beings and the planetary body

When these three harmonic triads are corrected throughout the Horizontal Triad Bodies the Lightbody structure known as the Masculine Rod starts to initiate and activate in the Lightbody All three of these Horizontal Triad Bodies in the 3rd, 6th, and 9th layers must be operating correctly and merged with the Female vertical principle Staff currents to ultimately manifest Hieros Gamos or sacred marriage

Horizontal Triad Body

Each triad body builds the horizontal structure of the 12 Tree Grid and is the Mental Body/Male Principle.

THE FOUR "SPHERES OF RA" – ETHERIC BODY ACTIVATION – PART 'A' (Steps 1-14)

Preparation

1 Completion of *ALL* Techniques contained within Kathara Level 2 3 Foundations Programme (i.e. "Linking Sequence" and all K2-3 Techniques)

2 Completion of *FULL* Amplification requirements/ sequence as provided in Kathara Level 2-3 Foundations Programme Techniques Schedule instructions.

Actions

Phase – 1: "Eyes of Ra" – Chakra-6

1. Place or intend the *Le-AdOR-A UN Esta YUn Ha drA* Code at the Ra Centre at Chakra-3, imprinting the Ra Centre with the Etheric Signature of the *Le-AdOR-A UN Esta YUn Ha drA*.

2. Call to mind the Emerald Crystal storage vessel that houses the Le-eTOR-A Caverns Etheric Hologram Sphere.

3. Mentally intend/ visualize the Emerald Crystal at the centre of the 48-Petal Lotus.

4. Intend/ visualize the 48-Petal Lotus with the Emerald Crystal at its centre over the Ra Centre at Chakra 3

5. Bring the Palms into the "prayer" position, at the Azur-A as you Inhale slowly & deeply from the Ra Centre drawing the 48-Petal Lotus, with the Emerald Crystal Centre & the *Le-AdOR-A UN Esta YUn Ha drA* Code Imprint into the Ra Centre & upward to the Pineal. Be aware that as the *Le-AdOR-A UN Esta YUn Ha drA* Code Imprint & the Emerald Crystal travel upward to the Pineal that the *Le-AdOR-A UN Esta YUn Ha drA* Code Imprint & Emerald Crystal merge becoming One, encrypting the *Le-AdOR-A UN Esta YUn Ha drA* Code into the Emerald Crystal. Pause at the Top of the Inhale breath.

6. With the encrypted Emerald Crystal at the centre of the 48-Petal Lotus at the Pineal, Exhale gently on a horizontal projection line forwards and backwards from Chakra-6 at the Pineal, expanding the Le-eTOR-A Caverns 6-foot Holographic Sphere outward all round you while giving the Mental Command *"Eyes of Ra – Open"* (keep Emerald Crystal & 48-Petal Lotus at Pineal). Bring hands out of "prayer" position during Exhale, to sides of body, fingers into Lotus Touch position.

Phase – 2: "Heart of Ra" – Chakra-4

7 Take a long, slow, horizontal 2-Point Inhale breath Inward along the Chakra-6 forward/ front & backward/ rear Projection Line back into the Emerald Crystal at the Pineal while intending/ mentally commanding the 6-foot Eyes of Ra Le-eTOR-A Caverns Holographic Sphere to *"Remain extended all round you"* continue the inhale, drawing the Emerald Crystal & its 48-Petal Lotus downward with last part of the Inhale into Heart-Chakra-4.

8. Hold breath at Top of Inhale, briefly with Emerald Crystal stationed at Chakra-4, & bring both hands, with fingers in Lotus Touch, up to rest "Lotus Fingers" gently on Chakra-4.

9. Keeping Emerald Crystal & 48-Petal Lotus in Heart Chakra, Exhale slowly & gently on a forward-backward horizontal Projection Line from Chakra-4, while giving the Mental Command: *"Heart of Ra Awaken"*,

use the Exhale breath to expand the Le-eTOR-A Caverns Hologram Sphere outward from Chakra-4, all round you, until it expands to become a 12-foot Holographic Sphere (just imagine diameter as 2 body lengths).

10 Inhale back along the horizontal Projection Line into Chakra-4 centre while intending that the 12 foot Holographic Sphere remains expanded from Chakra-4; continue inhale using the last part to draw the Emerald Crystal & 48-Petal Lotus from Chakra-4 downward to the E-Umbi. Hold breath at the Top of the Inhale with Emerald Crystal & 48-Petal Lotus stationed at E-Umbi 1-2 inches below Navel

Phase – 3: "Seat of Ra" – E-Umbi to Knee Point

11. While holding Inhale breath move hands to E-Umbi and place Lotus Touch fingers gently on E-Umbi Exhale on a 2-Point forward-backward Projection Line from E-Umbi while leaving Emerald Crystal/ 48 Petal Lotus in E-Umbi, using Exhale to expand the Le-eTOR-A Caverns Holographic Sphere outward to become 24 foot diameter Sphere all around you give the Mental Command: *"Seat of a Ra Awaken"*, as you Exhale.

12 Inhale back along the E-Umbic horizontal Projection Line into E-Umbi then downward using last part of Inhale breath to draw the Emerald Crystal/ 48 Petal Lotus down to a point in the Central Vertical Current directly across from the tops of the knees just above the knee-caps. Hold Inhale briefly with Emerald Crystal/ 48-Petal Lotus stationed at Knees Point.

Phase – 4: "Throne of Ra" – Knee Point

13. Release fingers/ hands from Lotus Touch position & allow arms/ hands to relax at your sides, then slowly Exhale on a horizontal forward/ backward axis from the Knee Point between your knees in the Central Vertical Current.

14. Leaving Emerald Crystal 48-Petal Lotus at Knee Point, use the Exhale breath to expand the Le-eTOR-A Caverns Holographic Sphere outward from the Knee Point until it expands to 48 feet diameter Sphere (8 body lengths) all round you, give the Mental Command: *"Throne of Ra Awaken"* as the Knee Point Sphere expands. Inhale back along the Knee Point horizontal projection line while intending the 48-foot Holographic Sphere remains expanded all round you. Complete the Inhale at Knee Point then take several natural resting breaths from the Knee Point while the Emerald Crystal & Lotus remain stationed there. (Continue to Part-B, or break here, resuming Part-B within 3 days. To end Part-B for break, simply leave the Emerald Crystal 48-Petal Lotus within the Knee Point Station and give mental Command: *"Throne of Ra Sustain"*. Use *"Throne of Ra Transmit"* Command to Activate when desired).

THE NADRADON CELL AND RADIS LINE ACTIVATION – PART 'B' (Steps 15-24)

Phase – 5: "Crown of Ra" – Chakra-14

15. Focus attention on the Emerald Crystal at the centre of the 48-Petal Lotus stationed at the Knee Point Take several deep relaxed breaths while reaching this focus . now, inhale from the Knee Point & Hold the Inhale at the Knee Point for a moment

16. Next, rapidly Exhale a Single Point breath from the Knee Point *downward*, using the Exhale to *push* the Emerald Crystal-48 Petal Lotus rapidly down to the Mahadra at Earth Core *quickly* inhale again as soon as the Emerald Crystal enters the Mahadra, using a *strong, rapid*, Inhale to draw the Emerald Crystal *all the way upward* to Chakra-14 36" above the head (just as if the Emerald Crystal "bounced" back upward to Chakra-14 once it "hit" the Mahadra below) At the Top of this rapid Inhale, when the Emerald Crystal enters Chakra-14, hold the breath for a moment ..

17. Now, whilst giving the Mental Command *"Rays of Ra Unfold"*, release the Inhale *Internally In to the Emerald Crystal* at Chakra-14 Breathe easy, breathing from Chakra-14 & observe or imagine that the Emerald Crystal at Chakra-14 slowly, but steadily, "ignites" into a brilliant *golf ball sized Spherical Starburst* with *Many Pale Emerald Green, Pale Golden-Silver & Pale Violet Silver-Pink* Heliotalic *Rays* emanating outward from its Interior Centre Point.

18. Breathe gently from Chakra-14 & observe that the Emerald Crystal Starburst is *"Communicating"* energetically with the 4 Le-eTOR-A Holographic Spheres expanded around you and as this *Communication* takes place, observe as each of the 4 Le-eTOR-A Spheres also begin to Radiate Beautiful Heliotalic Starburst Rays of *Pale Emerald Green, Pale Golden-Silver, & Pale Violet-Silver-Pink*, until the 4 Holographic Spheres become a Set of Radiating Shimmering Starbursts one, 6 foot in diameter, one 12 foot one 24 foot, and one 48 foot in diameter

Phase – 6: "Staff of Ra" (Chakra-14 to Mahadra to Feet Point - Nadradon Seal & Nadra Key)

19. Inhale a 48-Petal Lotus Breath from Chakra-14 then *Rapidly Exhale* using the Exhale to *push* the Starburst Emerald Crystal *downward* , all the way down from Chakra-14 to enter the Mahadra at Earths' Core, at the point of Exhale completion

20 When the Starburst Emerald Crystal enters the Mahadra, Inhale *quickly*, using the Rapid Inhale at the Mahadra to draw the Starburst Emerald Crystal *upward* to a point in your Central Vertical Current that lies directly between your feet and hold the Inhale, as the Emerald Crystal enters this point The point between the Feet is the location of the *Density – 1 Nadradon Cell Centre Seal*, and is called the *Nadra Key*. Continue holding the breath at the *"Top of the Inhale" at the Nadra Key* for a few moments more

21 Now *Exhale forcefully* into the *Centre of the Starburst Emerald Crystal* at the *Nadra Key* while giving the Mental Command: *"Staff of Ra Receive"* Return to gentle relaxed breathing, from the Feet Point Nadra Key, and observe the *Awakening of the Etheric-Atomic Pillar of Power*

Phase – 7: Nadradon Cell Activation: Merging of the Spheres

22. Breathe easy while observing that the Nadra Key Feet-Point Opens around the Starburst Emerald Crystal & the Starburst Emerald Crystal enters, then disappears through this Nadra Key 'Doorway" at the Feet-Point When the Starburst Emerald Crystal disappears, a *Gentle Internal Vibration* begins spreading from the Nadra Key-Point, Upward & Downward through the Central Vertical Current. As this Vibration extends to simultaneously enter both the Adhrana at Chakra-14 & the Mahadra at Earth Core, a beautiful Transformation takes place within the 4 Le-eTOR-A Holographic Starburst Spheres around you as the Ecka-Le-eTOR-A Cavern Holograms merge with their *Le-AdOR-A Parallel Ecka Twin Spheres...*

Notice that as the Adhrana above, and the Mahadra below receive the Nadra-Key Vibration that the Ra Centre in Chakra-3 releases a *Brilliant Flash of Pale Golden-Silver Ecka-EyanA Light* and – in response – the long dormant *Etheric-Ethos KA Centre in Chakra-2 (Sacral Centre)* releases a Brilliant Flash of *Pale Violet-Silver-Pink, Parallel Ecka, AdonA Light*. After the *KA Centre Flashes*, Chakra 2 & Chakra-3 Open & Expand & Merge through the *E-Umbi Ethos Flame*, as the *Dimension-2 GrUAL-Control Nadradon Cell* emerges from the Dimension-2 Nadra-Key Centre Seal in the E-Umbi Flame , expanding to the *Centre Seed Seals* in Chakras 2 & 3 linking the Ra and the Ka Centres, and their Chakras together through the Pale Violet-Silver-Pink D-2 Nadradon Cell .

As the D-2 Nadradon Cell Awakens, the 4 – Le-eTOR-A Caverns Holographic Spheres around you all Flash Brilliantly first, a *Beautiful EyanA Pale Golden-Silver Flash* then an *Iridescent AdonA, Pale Violet-Silver-Pink Flash* and the *4-Spheres Merge into One Huge Pale Violet-Silver-Pink Holographic Starburst Sphere* that extends *Outwards for 90 feet in all directions around you*

Phase – 8: Music of the Spheres Nadra Sheath Release, Lotus Point-Radis Line Activation

23. Observe, and try to *feel* the *reality* of the *Nadredon Cell Activation* taking place within you Listen with your *Inner Hearing* to *hear* the *Chorus of the Music of the Spheres* that *begins* releasing into the *Atomic Structure* once the *Etheric, Dimensions 1 – 5 Nadra Sheath* around the *D-1 Atomic Pillar* releases through *Nadredon Cell Activation*. As the 4 – Holographic Spheres merge the *Nadra Atomic Sheath Barrier Dissolves* preparing the Atomic Structure for *Pillar of Power Activation* and *Tit-E- a Breathing* Observe, that as these Activations Unfold within your Etheric Body that your 24-PCM-Lotus-Points *all become Pale Violet Silver-Pink Starburst Spheres with an Emerald Flame containing Pale Golden-Silver Light within them.*

As the *Inner Pillar 24 Lotus-Points "Turn On"* the *AdonA Light* the *24-LotE-Points of your D-1 5 thru' D-11 5 Photosphere turn on* followed by the *24 Lotum-Points* of your *D-12 5 / 0 5 Logosphere* finally followed by the *24 Lota-Points* of your *D-13.5 Lotasphere & Primal Light Field* As the 24 Lota-Points activate the long-dormant *Radis Lines* connecting through the LotE-Point-Sets & into the *Etheric-Atomic-Centre Pillar* also "Turn On", preparing the Crystal Body & Manifest Anatomy for *Pillar of Power Activation*, release of the *Sextant Pin, Rising of the Ethos* and *Return of Tit-E-'a Breathing.*

Phase – 9 Matradon Flow Initiation

24. Once the Radis Lines activate through the 96-PCM-LotE-Points the *Density – 1 Nadredon Cell* emerges from the Feet-Point, Density-1 Nadra Key-Seal, expanding a Sphere of Pale Violet-Silver-Pink Starburst Upwards to the Lower-calves (in the legs), & downwards to the Maharic Shield 12" below your feet *opening the Maharic Shield Centre Seal to the Ecka-Matradon Cell, Pillar of Power, Flow* The Feet Chakra' Seed Seals open and initiate *Le-AdOR-A Current Flow* within the Etheric-Atomic Body, setting the Carrier Wave through which the Ethos Etheric Pillar of Power can rise once the Sextant Pin releases to reinstate the Potential of Natural Eternal Life, Tit-E-a Breathing and Progressive Seed Atom Re-charge

Once this Activation is completed, the Nadredon Cell remains activated and ready to receive Transmutation of its unnatural "Bucky-ball" Radiation Matrix Harness through progressive application of Pillar of Power-Ethos Rising KA-THA-RA Technologies Until "Ethos-On"/ Ethos Pillar Rising Technologies are employed, breathing the Nadredon Cell Energies should be done *only through* the *protective filter* of the Ra Centre Once the Sextant Pin is released and Ethos Pillar Ascent is initiated Etheric-Atomic Healing, Recharge and Amplification can be done by Tit-E-a Breathing directly through the Nadredon Cell and the Pillar of Power

Til-E-'a Nadradon Complex Electrical Activation

PHASE ONE – KA CENTRE ACT VATION: 'FIRING THE RODS OF RA & KA'

Preparation

1 Completion of *ALL* Techniques contained within Kathara Level 2-3 Foundations Programme (i.e. "Linking Sequence" and all K2-3 Techniques)

2 Completion of *FULL* Amplification requirements/ sequence as provided in Kathara Level 2-3 Foundations Programme Techniques Schedule instructions.

3 Lotus Encryption induction of *"Le-AdOR-A – UN – Esta – Yun – Ha – DrA"* Symbol Code at the Ra Centre.

4 Locate the body-vehicle in a comfortable *sitting* position.

Actions

1 Inhale a 48-Petal – Encrypted Lotus breath at Chakra-3, Ra Centre using Inhale to draw the Lotus down to the Density Nadra Key Seal at "Feet Point" (in Central Vertical Current in the space/ mid-point between the feet). Hold this breath at the Nadra Key for a few moments .

2 Forcefully Exhale a *2-Point Horizontal – Left-Right – Projection* breath from the Nadra Key Feet-Point using the breath to push the Encrypted lotus into the Ethos Seed Atom stationed at the Nadra Key then outward through the Ethos-Rod giving the Mental Command: "Rod of Ka Awaken" *during* the Exhale

3 Inhale a Single-Point breath from the Nadra Key & Ethos Seed Atom. Hold this breath at the Nadra key briefly then Forcefully Exhale using the breath to push the 48-Petal Lotus from the Nadra Key at Feet-Point) downward and into the Mahadra at Earth Core *as you complete the Exhale* (and prepare to Inhale immediately and quickly)

4 When the Lotus enters the Mahadra at the "Bottom of the Exhale" *immediately Inhale Forcefully Upward,* using this rapid breath to draw the Lotus up to your AzurA – and Hold this Inhale with the Lotus stationed at the AzurA.

5 *Immediately raise and extend both arms outwards and to your sides at shoulder level*, then Exhale a *2-Point Horizontal – Right-Left – Projection* breath from the AzurA *leaving* the 48-Petal Lotus stationed at the AzurA while using the Exhale to *push* 2 Currents of Pale Violet Silver Pink Le-AdOR-A Frequency from the AzurA Seed Atom outward along the PCM Density Rod and Arms to the Monadic Balls at the Rod End-points just beyond the fingertips, giving the Mental Command: "Rod of Ra Awaken" *during* the Exhale.

6 Inhale and hold a 2-Point breath back to the AzurA *from the Rod End-points* (just beyond the fingertips) while bringing your arms down and into a resting position on your lap. Sit up *straight* while holding the Inhale at the AzurA, then *bend forwards* and *place the palms* of your hands *over the top of the feet Chakras* (Left palm over top of left foot, Right palm over top of right foot, fingers a bit beyond the toes)

7 Now, Exhale a *powerful 2-Point Horizontal – Right-Left Projection* breath from the AzurA, down the Le-AdOR-A Arm Cords, through the Palms and into the Foot Chakras and then *horizontally outward* (the current flows from the Left Arm Cord out through the Left Foot to the Left Side ditto on the Right Side).

8 Breathe gently for a moment from the AzurA, keeping hands over Foot Chakras, and sensing/ feeling for a *wave-like vibration* extend ng across the Ethos Rod at the feet then observe/ sense/ feel as this vibration extends into the Arms, AzurA and then throughout the entire body . the vibration feels like a series of rippling circular rhythmic-cyclic waves of greater and greater intensity moving through your fields (as if you were the pond into which a pebble has been dropped).

9 With hands remaining on your feet, breathe gently from the AzurA whilst ths Etheric *AdorA Wave* intensifies until it reaches is *peak* at which point (after 60-90 seconds) the intensity begins to ebb until a *Still-Point* is reached and the vibrating wave ceases

10 After the Etheric AdOR-A wave ebbs to stillness, sit up straight SLOWLY bringing your palms to rest on your knees Keep eyes closed and breathe gently from the AzurA, calming and stabilising he fields (*REMAIN still and breathe slowly if dizziness occurs* – please DO NOT move physically or move on to Step 11, until dizziness subsides – if necessary take a 15' break).

11 Once your bio-system has stabilised Inhale a gentle 48-Petal Lotus breath from the Ra Centre, hold briefly then Exhale Forcefully, using the breath to *push* the "new" 48-Petal Lotus down to the Mahadra at Earth Core.

12 When the "new" 48-Petal Lotus enters the Mahadra, Inhale *rapidly* at the Mahadra using the Inhale to draw the 48-Petal Lotus upwards and into the *Ka Centre* (Chakra-2) then Exhale *rapidly* at the Ka Centre using the exhale to push a *Starburst of Pale Violet-Silver-Pink Frequency* outward and throughout the Ka Centre/ Chakra-2, giving the Mental Command: "Flame of Ka Awaken" *during* the Exhale

13 Breathe gently from the Ra Centre for a moment then Inhale and Exhale gently into the Nadra Key at the Feet-Point, thereafter resuming a gentle breathing pattern BUT with your breathing focussed *directly* from the Nadra Key Point Continue to breathe gently, and *continuously*, from the Nadra Key while taking a break of *no more than 5'*

14 Continuing to breathe gently from the Nadra Key GO TO the Logas Frequency Breathing Movements #'s 1 2 and 3, repeat each Loga 3 times in sequence *while breathing ONLY from the Nadra Key throughout.*

When the Loga's - Nadra Key breathing cycle is complete return to normal breathing and allow *at least* 15' rest before proceeding to the following *"Pulling the Poison Pin"* Phases.

Til-E-'a Nadradon Complex Electrical Activation

PHASE TWO – ACTIVATING THE ETHERIC LOTUS ARC SETS – ARC BREATHING / "CYCLING THE PETAL ARCS"

Preparation

1 All as under Prep'above + Nadradon CEA - Phase 1

Actions

1 Sit comfortably and take several natural breaths from the Nadra Key at the Feet-Point.

2 Inhale a 48-Point Encrypted Lotus (Phase One. Prep Step 3) from the Nadra Key up to the Ra Centre at Chakra-3, HOLD briefly then *Exhale Forcefully* using the breath to *expand MANY Rays of Pale Violet Silver-*

Pink AdOR-A Frequency outward and through the Ra Centre observe that the Ra Centre releases a *Starburst Flash of Pale Violet-Silver-Pink Light.*

3 Inhale into the Lotus at the Ra Centre and on down to the Ka Centre (Chakra-2); HOLD this breath at the top of the Inhale at the Ka Centre .

4 Exhale Forcefully from the Ka Centre, using the breath to *expand MANY Rays of Pale Golden-Silver E-TOR A* Frequency outward and through the Ka Centre at Chakra-2 .. observe that the Ka Centre releases a *Starburst Flash of Pale Golden-Silver e-TOR-A Light.*

5 Now, Inhale from the E-Umbi Point (1-2" below navel) using the breath to *draw both the Ra and Ka Centres (Chakras 2 & 3) together to form a Bi-VECA FOLD* within the Ethos Flame at the E-Umbi (imagine this as 2 vertically overlapping spheres within an Eckasha-shaped Flame).

6 Exhale at the E-Umbi and observe as Chakras 2 & 3/ Ra & Ka Centres *expand back out* of the E-Umbi, returning to their original positions, while *leaving a Pale Violet-Silver-Pink Ra and a Golden-Silver – Ka Crystal within* the E-Umbi Ethos Flame, observe that the 2 crystals are fused together in a Bi-Veca Fold

7 Inhale the fused Bi-Veca Ka-Ra Crystals from the E-Umbi upward to the AzurA and HOLD this Inhale with the Ra-Ka Crystal at the AzurA

8 Exhale Forcefully on a *6-Petal Lotus Axis* from the AzurA, observing as the Ra-Ka Crystal replicates to form *6 Ra-Ka Crystals each projected out along one of the 6 Lotus Projection Lines* while the *original Ra-Ka Crystal remains* in the AzurA

9 Inhale gently drawing each of the 6 Ka-Ra Crystal replicas back simultaneously along their respective axis projection line and into *merger with the 7th* original Ka-Ra Crystal at the AzurA and

10 Notice that during this gentle inhale, the *2 "Top" Diagonal (45deg.) Axis Lotus Petal Arcs* and the *2 "Bottom" Diagonal (45deg.) Axis Lotus Petal Arcs* begin to *CONTRACT* moving inward towards the stationary *Upper and Lower Vertical Petals* (On *Full Inhale* into the AzurA the diagonal Petal Arcs have folded into the Upper and Lower Vertical Petals leaving only the Vertical Axis Upper and Lower Petal Arcs remaining)

11 Exhale gently from the AzurA, using the breath to *push the 7 – Ka-Ra Crystals* from the AzurA downward to the Nadra Key (Feet Point) notice that as you Exhale the 4-Diagonal Axis Lotus Petal Arcs *expand back outward again* to their 45 degree Axis

12 Inhale gently from the Nadra Key Feet Point keeping the 7 Ka-Ra Crystals stationed there Exhale and Inhale breathing into the Nadra Key noticing that the 4-Diagonal Axis Lotus Petal Arcs *around you again contract with the Inhale,* folding into the 2-Vertical Petal Arcs

Breathe gently from the Nadra Key Feet Point directly observing/ intending that on *each* Nadra Key *Inhale* the Diagonal Petal Arcs *Contract* into the Vertical Petal Arcs and on each *Exhale* the Diagonal Petal Arcs *Expand* and return to their 45 degree Axis Projection Line positions.

You are encouraged to "play with" the Nadra Key Inhale/ Exhale varying the speed of breathing while keeping the diagonal Lotus Petal Arcs *expanding & contracting in synchronisation* with each Inhale/ Exhale breath. This is called "CYCLING THE PETAL ARCS" Continue to breathe gently IN THIS WAY, and *continuously,* from the Nadra Key, while taking a break of *no more than 5'.*

14 Continuing to breathe gently from the Nadra Key GO TO the Loga's Frequency Breathing Movements #'s 4, 5 and 6 *plus* 7, 8 and 9; repeat each Loga 3 times in sequence *while breathing the "Cycling of the Lotus Petal Arcs" from the Nadra Key throughout.*

When the Loga's - Nadra Key breathing cycle is complete return to normal breathing and allow *at least* 15' rest before proceeding to Phase-3.

Tii-E-'a Nadradon Complex Electrical Activation

PHASE THREE – 'ETHOS-ON' # 1 – COMPLETING THE ANCIENT 3RD 1/3RD INHALE

Preparation

1 ALL Preceding prep'

Actions

1 Inhale 48-Point Lotus from Nadra Key (Feet Point), up to Ra Centre (Chakra-3), then on up to AzurA to engage *Tii-E-'a Breathing Cycle* then .

2 Exhale *rapidly* from the AzurA, *pushing* the Lotus from AzurA downward to the Mahadra Centre in Earth Core... then

3 Inhale a *rapid* but *extended* breath when Lotus enters the Mahadra, using the Inhale to *draw 1/3rd Ethos Rod*, from the feet, upward through the released *'Green-witch* reversed Ethos-1/3rd Density Rod at the lower calves linking the Natural 1/3rd Density Ethos Rod with the *inter Green-witch* reversed Ethos 1/3rd Density Rod as the Natural 1/3rd Density Ethos Rod *ascends* *Continue* this Inhale and *observe/ intend* that the Green-witch – R – Ethos Rod at the lower calves *quickly shifts 113.5 degrees Clock-wise* (i.e. *from* an axis that aligns thru *Right shoulder* out the *Left breast* *to* an axis that aligns straight across your shoulders and aligns with the 1/3rd Natural Rod; thus the TWO – 1/3rd Ethos Density-1 Rod's *merge* to form a 2/3rd Ethos Rod Ascending *Complete this Inhale* by drawing the 2/3rd Ethos Rod up to *Mid-thigh* the Density-1 E-Umbi)

HOLD this Inhale a moment *with the 2/3rd Ethos Rod at mid-thigh/ Density-1 E-Umbi* where the Ethos K-1 (Density-1 Signet) intersects with the Density-1 Rahna LotE PCM Position (at Chakra-10 – 6" above the head), thus *completing* the final *3rd 1/3rd Ancient Inhale* breath that has been stifled within the Planetary Body since 5.5MYA *HOLD this Inhale ...*

4 Holding the breath at the Top of this "Lotus Breath" 3rd 1/3rd Inhale, *sense/ observe/ intend* that the *2/3rd Ethos Density-1 Rod at mid-thigh " JUMPS"* as the *Density Ethos E-Umbi Flame* and *Density PCM AzurA Flame Sparks* the 2nd 45-Charge Sub-harmonic Spark at the AzurA.

(The Density-1 2/3rd Ethos Rod automatically jumps from the mid-thigh to AzurA, bringing the PCM Density-1 LotE Rod and 2/3 Ethos Density-1 Rod into merger at the AzurA and fully aligning the Density-1 PCM LotE and Ethos Kahara Grids. The Ancient 1st 45-Subharmonic Spark and new 45 Sub-harmonic Spark release a *90-Subharmonic Charge Spark Pulse* – into the PCM LotE Seed Atom, thus the Ancient Exhale/ Inhale "Last breath" is Complete)

Beginning the *6-Breath Cycle* (one 6-Cycle)

5 Exhale rapidly from the AzurA using the breath to *push* the 2/3rd Density-1 Ethos Rod down to the Mahadra at Earths Core - *Mentally Count – EXHALE-1* and shift attention to the *D-3 Ethos Rod* stationed *at the feet* as full Exhale is completed.

6 Inhale the first 1/3rd Inhale breath using the *D-3 Ethos Rod* to *direct* the Density-1 and D-2 & D-1 Ethos Rods; so, Inhale the 1st 1/3rd Inhale now, drawing the *D-3 Ethos Rod* up from the *feet* to the centre of the calves, engaging the *D-3 Ethos K-1 Signet* and *D-3 PCM E-Umbi*.

PAUSE on the 1st 1/3rd Inhale with the D-3 Ethos Rod at the centre of the calves for a moment

7 Continue this Inhale to the 2nd – 1/3rd of the Inhale breath, using the 2nd – 1/3rd to draw the D-3 Ethos Rod from the *centre of the calves* to about 1" above the "Knee Point" *just above the top of the Knee-caps*.

[This merges the D-3 Ethos E-Umbi & D-3 PCM E-Umbi Ethos Flames, releasing the 1st – 45-Subharmonic Spark at the E *Umbi* into the *Pillar of Power* (D-3 Ethos K-1 at D-3 AzurA).]

PAUSE briefly at the Top of the 2nd 1/3rd Inhale with D-3 Ethos Rod just above the top of the knee-caps to *receive the 1st Spark* at the E-Umbi.

8 Continue this Inhale to the 3rd – 1/3rd of the Inhale breath, using the *3rd – 1/3rd FULL Inhale* to draw the D-3 Ethos Rod from just above the top of the knee-caps to the *D-3 E Umbi*.

[This merges the D-3 *Ethos-E Umbi Flame* with the D-3 *PCM AzurA Flame* (Ethos K-1 Signet at PCM Rahna) releasing the *2nd Spark at the AzurA* – the 45-Sub-harmonic *AzurA* Spark]

PAUSE briefly at the 3rd 1/3rd Inhale breath with the D-3 Ethos Rod at the PCM E-Umbi to receive the *2nd Spark* at the AzurA. ... BEFORE finally expanding lungs fully ...

9 Keeping D-3 Ethos Rod at the D-3 PCM E-Umbi complete the 3rd 1/3rd Inhale by expanding lungs fully, inhaling to capacity then hold briefly at the Top of the 3rd – 1/3rd Inhale – and – ***Mentally Count – INHALE – 1.***

(As the D-3 Ethos-E-Umbi and D-3 PCM AzurA Flames Spark, forming the 2nd Spark at the AzurA, the D-3 Ethos Rod *automatically jumps* from the D-3 PCM E-Umbi to the D-3 PCM AzurA. The 2 – 45 Sub-harmonic Sparks release a 90-Charge Subharmonic Spark from the Pillar of Power and in to the PCM Seed Atom, pushing the D-3 Ethos Kathara Grid rapidly down into the *Exhale/ Expansion #2).*

10 Exhale *rapidly* from the AzurA using the breath to *"Ride" the D-3 Ethos Grid Descending Wave" downward* – moving the D-3 Ethos Pillar from the AzurA down to the feet to coincide with *Full Exhale Expansion* and ***Mentally Count EXHALE 2***, PAUSE for a moment at the Bottom of the Exhale, with the D-3 Ethos Rod at the feet

11 Begin *Inhale/ Contraction #2 Cycle* by Inhaling 1st 1/3rd breath of Inhale #2 from the *Nadra Key* (Feet Point) and draw the D-3 Ethos Rod from the feet to the centre of the calves (in Central Vertical Current in space between both calves) giving the Mental Command. *Ethos Engage* with the Ethos Rod positioned at the calves; PAUSE for a moment with the Rod at the calves .

12 Continue Inhale #2, taking the 2nd 1/3rd Inhale breath from the "Calf Point" to draw the D-3 Ethos Rod up from the calves to the "Knee Point" (just above Knee-caps) give the Mental Command *"E-Umbi Spark – 1"* with the Ethos Rod positioned at the Knee Point. PAUSE for a moment on 2nd 1/3rd breath of Inhale #2 to *receive the E-Umbi Spark – 1*

13 Continue Inhale #2, taking the 3rd – 1/3rd inhale from "Knee Point" to draw the D-3 Ethos Rod up from Knee Point to PCM D-3 E Umbi (1-2" below Navel) give mental Command *"AzurA Spark – 2"* with D-3 Ethos Rod at D-3 PCM E Umbi; PAUSE for a moment on 3rd – 1/3rd breath of Inhale #2 to *receive the AzurA Spark – 2.*

14 With *D-3 Ethos Rod at the D-3 PCM E-Umbi* complete the 3rd – 1/3rd Inhale filling lungs to capacity and *HOLD* for a moment at the Top of 3rd – 1/3rd breath of Inhale #2. As the D-3 Rod *automatically jumps* from D-3 PCM E-Umbi to D-3 PCM AzurA bringing the D-3 Ethos & D-3 PCM Kathara Grid and Rods into full alignment, releasing the 90-Charge Sub-harmonic Spark Pulse into the PCM Seed Atom, give the mental Command *"Inhale # 2 – Jump - Spark Pulse Ethos Ascend"* – ***Mentally Count – INHALE – 2.***

15 Exhale rapidly from AzurA using the breath to *"ride the D-3 Ethos Kathara Grid down and into full expansion,* as the D-3 Ethos Rod descends from the *AzurA to the Full Exhale Fee. Point* and ***Mentally Count – EXHALE – 3*** PAUSE for a moment at the Bottom of the Exhale, with the D-3 Ethos Rod at the feet .. then begin "*Inhale/ Contraction #3 Cycle" Ethos Ascent* Breath, ***repeating Steps 11 – 15 on Inhale # 3 Cycle*** (i.e. NOW). **COMPLETE "Inhale # 3 Cycle"**, to fulfill 1 SET of *3 Exhale – Inhale* Expansion/ Contraction Breaths.

16 REPEAT Steps 11 – 15, *3 More Times,* to fulfill another Set of 3 *Exhale, Inhale* breaths, thus completing *One Full Til-E-a 6-Cycle* (1 Cycle of 6 - 3-Pause breaths) in which the PCM Seed Atom *receives a 180-Charge Harmonic Spark Pulse – and initiates Nadra Seal Release* and *AdOR-A Flame Current Atomic Etheric Activation.*

This sets in motion the *automatic activation* of the Til-e-a "12 Cycle" (36 – 3 Pause breaths) through which the *Electrical Activation* reaches its *Thalo Peak* to run *Full Harmonic 180 – AdOR-A Flame*

At the end of the 6th *Exhale – Inhale* Cycle and at the "PAUSE at the Top of the 6th and Final Inhale", *Exhale Forcefully* from the *AzurA* to the *Mahedra* at Earth Core returning the D-3 Ethos Rod from the AzurA to the Feet Point *as the final exhale descends,* and return to natural, gentle, breathing *from the Nadra Key Point,* giving the Mental Command: ***"Nadradon – AdOR-A FIRE!"***

17 Continue breathing from the Nadra Point and take a 3-5 break, before moving to Logas 10, 11 & 12 Run 3 Sets of the Loga's sequence (10 then 11, then 12 x 3) while "breathing" the D-3 Ethos Rod **inhale drawing Rod up from the feet to AzurA, Exhale Rod down from AzurA to feet.**

18 Take a 10 – 15' break before moving on to Phase – 4. "Pulling the Poison Pin"

Til-E-'a Nadradon Complex Electrical Activation

PHASE FOUR – PULLING THE 'POISON PIN'

"Unplugging the Genetic Time Codes of the DNA Template & the Density Atmos Etheric-Atomic Shields from the Sextant Clock, Green-witch Line & 'Atomic Clock C-60' Distortions".

Releasing the D-1.5 Atomic Poison Pin & Atomic 1.75 'Black Heart of Anubis' Implant;

Releasing the Atomic "Pillar of Power" & Freeing the 24 Lotus Points & Nadradon Cells from the Pentagonal 'C-60 Bucky-ball' Reversed Radiation Matrix Harness .

Preparation

1 Complete *1 Full 6-Cycle Til E a Breath* , per Phase-3 to Spark Seed Atom with 180-Charge AdOR-A Harmonic Spark-Pulse for Nadra 0.5/ 1.5 Seal Release – and initiation of Nadra-AdOR-A 180 Flame Current Complete Loga Frequency Breathing Movements 10 thru' 12 sequence x 3 – Breathe Ethos Pillar Up to AzurA (Rod at AzurA) on Inhale, and Ethos Pillar Down to Feet (Rod at Feet) on Exhale

Actions

1 After "Preparation" above, Inhale a slow, deep, 48-Petal Lotus breath into the AzurA and draw 48-Petal Lotus down to the *Ra Centre* from the AzurA as the inhale breath completes. HOLD the inhale at the Ra Centre briefly with lungs at full expansion ...

2 Exhale *firmly* on a Single-Point downward axis, using the Exhale to *push* the 48-Petal Lotus from the Ra Centre down to the Nadra Key Feet-Point. HOLD at *full exhale* briefly with the Lotus at the Nadra Key and call to mind the *7 – Ka-Ra Bi-Veca Crystals* stored in the Nadra Key.

3 Inhale gently into the Nadra Key using the breath to draw the cluster of 7 – Ka-Ra Crystals into the Centre Point of the 48-Petal Lotus at the *Nadra Key*. Exhale gently into the Nadra Key, *keeping* the Lotus and Ka-Ra Crystal Cluster Centre *at* the Nadra Key

4 RUN 1-Set of 3 ***"Ethos-On" Breaths:***

Inhale at the Nadra Key Feet-Point while drawing the *D-3 Ethos Rod* (at the feet) all the way up and in to the AzurA for *full alignment with the PCM Rod at the Top of the inhale*. PAUSE at the Top of the inhale (Ethos Rod @ AzurA), then *Exhale Firmly from AzurA* using the breath to *push* the D-3 Ethos Rod back down to the feet, *in sync' with completion of the full Exhale*. PAUSE briefly at bottom of Exhale, lungs empty, and D-3 Ethos Rod at the feet

Now repeat the last Inhale/ Exhale sequence *Twice* more . *Inhale-Nadra-Ethos Rod to AzurA – Exhale AzurA-Ethos Rod to Nadra (feet point)* the final, 2nd Exhale, *ending* at Nadra Key with D-3 Ethos Rod at Feet point. PAUSE at bottom of final Exhale .

5 Notice that as you pause on the as exhale of the 'Ethos-On' 3-Cycle that the Ka-Ra 7-Crystal Cluster in the Nadra Key begins to *shimmer and glow with a Pale Silvery-Aquamarine D-13 5 Lotus Light*, and a vibration wave begins to emerge through the Nadra Key and into both feet.

6 Inhale and Exhale *gently* from the Nadra Key and *observe/ intend* that on *each* Exhale the Ka-Ra Crystal Cluster Aquamarine Light *grows brighter* and its corresponding vibration in the feet *grows stronger*

7 Inhale at the Nadra Key using the breath to *contract the 7 Ka-Ra Crystals* in the cluster *together* to form *One Ka-Ra Bi-Veca Crystal in the Nadra Key*

8 Exhale *firmly* into the Centre of the consolidated Ka-Ra Crystal at the Nadra Key and *observe/ intend* that the *2-Fused Units* of the Ka-Ra Bi-Veca Crystal *suddenly shatter* into a Starburst of beautiful *Pale Silvery Aquamarine D-13 5 Lotus Light within the Nadra Key Feet point*

9 Inhale again at the Nadra Key, using the breath to draw the *Aquamarine Lotos Starburst* into a *Singular Point* of Radiant Aquamarine Light in the Nadra Key, and *observe/ intend* as the Lotos Starburst Point of Light now *solidifies* into a small beautiful, singular *Aquamarine Lotos Crystal within* the Nadra Key

10 Inhale at the Nadra Key using the breath to draw the Aquamarine Lotos Crystal *up* from the Nadra Key Feet point to the Ra centre (Chakra 3) . . HOLD at Top of Inhale with Lotos Crystal at the Ra Centre

11 Exhale *gently* from the *Ra Centre* using the breath to *gently push* the Aquamarine Lotos Crystal from the Ra (Ch' 3) Centre to the Ka (Ch'-2) Centre . . HOLD at the Bottom of the Exhale with the Lotos Crystal at the Ka Centre

12 Inhale a 48-Petal Lotus into the D-13.5 Aquamarine Lotos Crystal in the Chakra-2 Ka Centre, HOLD Inhale briefly at Ka Centre, then *firmly but gently* <u>*Exhale on a Single-Point Horizontal Axis Toward Your Rear,*</u> using the breath to *push* the Lotos Crystal from the Ka Centre (Ch-2 Sacral area) *backwards, horizontally* into the Tailbone, and then *down vertically* into the *Chakra-1 Seed Seal* in the Tip of the Tailbone/ Coccyx (D-3 – D-1.5).

13 As the Aquamarine Lotos Crystal enters the Coccyx *observe/ intend* that the Lotos Crystal begins emanating a *progressively brightening* Pale Silvery-Aquamarine Lotos D-13.5 Light together with a corresponding *felt vibration*. Breathe gently from the Ka Centre, Chakra-2 while observing the Lotos Crystal in the tip of the Tailbone/ Coccyx.

14 Continue *gentle Ka Centre breathing* as the Lotos Crystal in the Coccyx *flashes* into a beautiful Pale Silvery-Aquamarine Starburst, observe that, as this Starburst flash of D-13.5 Lotos Light occurs in the Coccyx tip, a <u>*Set of 24*</u> corresponding *Aquamarine Lotos Starbursts Flash On – One in each of the 24 PCM Lotus Points*, and sense a corresponding Vibration *emerge in all 24 Lotus Points* before *spreading into the Central Vertical Current* and the *"Pillar of Power"*

15 Now shift your attention to the Nadra Key Feet Point and Inhale *deeply* from the Nadra Key, using the breath to *draw Pale Silvery Aquamarine Lotos Light simultaneously from <u>all</u> 24 Lotus Points into the Central Pillar of Power and <u>down</u>* into the Nadra Key, <u>*coinciding*</u> with the Top of the Inhale – HOLD briefly at the Top of the Inhale at the Nadra Key.

16 In *One <u>Forceful</u> Exhale* at the Nadra Key *push* a Starburst of Pale Silvery-Aquamarine Lotos Light *out from the Centre of the Nadra Key* – HOLD breath at the Bottom of the Exhale – then *<u>quickly but gently</u>*, Inhale *drawing a <u>cord</u> of Lotos Light* up from the Nadra Key to the Ra Centre – then Exhale gently at the Ra Centre.

17 Breathe normally from the Ra Centre using *each Exhale* breath to <u>*push*</u> *Rays of Aquamarine Lotos Light Outward* around the <u>*entire*</u> Body – from the Ra Centre. Observe, that on each Inhale the Lotos Light in the Ra Centre, Nadra Key, "Pillar of Power" and all Lotus Points intensifies and brightens.

18 Continue Natural Lotos Light Breathing from the Ra Centre and *observe/ intend* as the D-1.75 Black Heart of Anubis implant *"POPS"* and *transmutes* into a *Spark of Gold Dust* at the bottom of the Ka Centre/ Chakra-2

Next, *observe/ intend* as a <u>*Gold Metallic Pin*</u> that extends from the <u>*Knee Point to the Centre of Chakra-4 emerges*</u> and *RAPIDLY de-densifies and transmutes in the D-13.5 Lotos Light.*

19 Continue normal Ra Centre Lotos Light breathing and *sense/ observe* that the *D-1.5 "Green-witch" Reversed D-3 Ethos Rod* in the upper-thigh region, and the D-2 counterpart in the base of the Ra Centre/ Chakra-3 <u>*both spin on a horizontal plane CW*</u> (from your back to left arm – to front, to right arm) resuming the natural 3-East-Left / 9-West-Right *Shield position of the Ethos Rod.*

Finally *observe/ intend* as a <u>*dense gold-metallic "Bucky-ball C-60"** Radiation Harness*</u> emerges with the Density-1 *Nadradon Cell* between the Mahanc Shield 12" below the feet, and Lower Calves, and an Aquamarine Lotos Flash emerges from the Nadra Key Feet point (** 'Think' "Geodesic Sphere")

20 Observe/ Intend as the C-60 Nadradon Cell Radiation Matrix Harness de-densifies and *disappears within the Nadradon Cell*, and a beautiful *180-Charge AdOR-A Standing Flame* emerges at the Nadra Key and <u>*expands*</u> to *fill the entire Density 1 Nadradon Cell* between the Mahanc Shield and the Lower Calves.

21 Inhale a *deep, slow,* breath into the Nadra Key HOLD at the Top, briefly, then *Exhale Once Forcefully* using the breath to *push 180 – AdOR-A Standing Flame down* into the Mahadra at Earth Core (where it will remain and continue activation of all Nadradon Cells)

Breathe NOW and FOREVER from the MAHADRA AdOR-A Flame
To Enter the Perpetual Cycle of Atmos Regeneration through Til-E-'a Breathing

(This Technique Sequence should be repeated at least one further time during an interval of not more than 8 weeks – though it should NOT otherwise be repeated more than ONCE WEEKLY if guidance suggests some degree of increased frequency of use)

- Each Ra-don Cell forms an Etheric-Atomic Ra-don Sheath between the Etheric-Ethos and PCM Density Atomic Currents, each Sheath manifests as an Etheric-Atomic Barrier within the Central Staff Current. The *D-1* 0.5 – 1.5 ***Nadra Sheath*** (from the D-1 Nadradon Cell) is the Core Barrier between the D 15-14-13 Centre Current of the Kee-Ra-ShA/ KhunDaRay and the PCM Atomic Currents.

- Each Ra-don Sheath projects outward through the *Yan-Yun* Flow an Etheric-Atomic Ra-don Capsule and 12 -ve Axia-tonal / 12 +ve Meridian Line Set, forming the Etheric Blueprint Bodies of the 3-Dimensional Hova Density Bodies.

Ti-E-'a Breathing

During natural PCM LotE Til-E-'a Breathing, the Ethos-Kathara Grid rises upward into alignment with the PCM Density Kathara Grid allowing the Etheric-Atomic Ra-don Cells/ Sheaths / Capsules of both the PCM Density Kathara and the PCM Ethos-Etheric Kathara to align and interface. When Ethos and Density Ra-don Cells pass through each other, Spark Generation and Etheric-Atomic Atmos Current Regeneration occurs within the Central Vertical Staff *"Pillar of Power"*. This process of spark-generation and Atmos Current regeneration is called *Til-E-'a Phasing*. There is a specific, *cyclic* dynamic to the process of Til-E-'a Phasing.

Beginning from the *"Zero Point"* of the *"Eternal Inhale"* – Original Contraction Point at which the PCM Density, PKA Density, and their corresponding Ethos +ve and Eiros -ve Etheric Bodies are fully aligned "in the same space" within the Ecka-Lola Base Shield, the "First Cycle" of Expansion / Contraction / Creation unfolds. The Cycle begins with the "First Exhale" of the Lotos, in which the Ecka-Matradon Cell expands and projects its Ethos and Eiros Cells outward at 90 degree projection, bringing the Ra-don Cells into Expression within the Lotum Crystal Body. From this "First Creation Point", Til-E-'a Phasing within the Lotum begins.

The First – 6 Breaths of the LotE (PCM)

After its projection into Manifestation from the Ecka-Matradon Cell, the Ra-don Cells of the PCM LotE Density complete their "Exhale" to full expansion, with the Ethos-Kathara extending downward to the ET – K-1 / PCM – K-1 Exchange, expanding the Density Bodies fully into Polarised Manifestation. The Spark Generation Cycle begins within the PCM LotE Til-E-'a on the following Ethos "Inhale" – Contraction Cycle. In a series of *3 - 1/3rd Inhales* the Ethos Pillar ascends back upward into alignment with the PCM Density Kathara.

One Til-E-'a – 3 Pause Breath

Engage	• *1st 1/3rd Inhale-Pause*	ET – K-1 and PCM E-Umbi engage
Spark-1, 45 Sub-atomic	• *2nd 1/3rd Inhale-Pause*	ET – K-1 up to PCM AzurA and ET E-Umbi + PCM E-Umbi Flames align and spark – 1
Spark 2, 45 Sub-atomic	• *3rd 1/3rd Inhale-Pause*	ET – K-1 up to PCM Rajhna and ET E-Umbi + PCM AzurA Flames align and spark – 2
Quickening	• *Pause & Hold at Top of Inhale*	Ethos *quickens* & "jumps" one step up to full ET – K-1/ PCM K-12 alignment, aligning ET – E-Umbi + PCM Rajhna, ET & PCM AzurA & ET – Rajhna + PCM E-Umbi Flames – 2-Sparks release into Seed Atom & Seed Atom accelerates (90-Charge Sub-harmonic)
2 - 45 Sparks 90-Charge)	• *Rapid Exhale/ Expansion*	Ethos Pillar *descends rapidly* to full ET – K-1 / PCM – K-1 Exchange and next Inhale / Ethos-On initiates.

Each Exhale – Inhale – Pause Breath Generates 2 – 45 Seed Atom Sparks
And Seed Atom Receives One Sub-Harmonic 90-Charge Acceleration

One Til E-'a – 6 Breath Cycle (~ One "6-Cycle")

After 6 Seed Atom **Sub-harmonic 90-Charge** Breaths (Exhale – Inhale – Pause x 6) the Seed Atom receives 12 – Sub-harmonic 90 Charge Sparks and Sub-harmonic 90-Charge Sparks which = **2 Full Harmonic 90-Charge Spark-Pulses.**

After one 6-Breath Cycle the 2-Harmonic 90-Charge Spark-Pulses release into the Seed Atom at the *Top* of the *6th Inhale*, the Seed Atom receives a 2 x 90 = 180° Harmonic Spark-Pulse and Fires the 180° *A-dOR-A Flames* at the centre of the Nadradon Cells, initiating release of the *Nadra 0.5 – 1.5 Seals* on the *Logosphere & Photosphere*, initiating opening of the 180° Etheric-Atomic Nadra Base-Tone Currents into the Pillar of Power and Ra-don Cell Etheric-Atomic Duct Complex.

One 6-Cycle (One Cycle of 6 – 3-Pause Breaths) Seed Atom Receives a 180-Charge Harmonic Spark-Pulse and Initiates Nadra Seals and A-Dor-A Flame Activation

One Til-E-'a "12 Cycle"
6 Cycles of 6 – 3-Pause breaths = One "12 Cycle".

After 6 Cycles of 6 Breaths (36 – 3-Pause Breaths) the Seed Atom receives 6 180-Charge Harmonic Spark Pulses and Nadra Seals (0 5 – 1 5) n Nadra Cells release *fully*, allowing the 180-Charge A-dOR-A Magnetic Flame Atomic-Etheric Nadra Currents to run in the Pillar of Power and Etheric-Atomic Duct Complex

Nadra Complex Electrical Activation & Tharo Peak (180 A-dOR-A Flame Run)
Nadra 12 Cycle Magnet c breaths "Turn the Ethos On", release –ve Magnetic A-dOR-A Flame and build Ethos Charge in the Seed Atom.

The Electrical aspect of the Seed Atom accelerates spin and electrical incoming Merkaba accelerates spin to *Tharo Electrical peak*. The Nadra Complex runs the Magnetic A-dOR-A Flame through which +ve **Ethos** Currents and +ve Anti-particle PKA **Atmos** Currents are generated. The activation of the Nadradon Cells and Base-Tone Nadra Duct Complex initiates Opening/ Activation of the **24 LotE Points** and their corresponding +ve Radis and –ve Nad s Lines within the Etheric-Atomic Body and within the Chakra and Centra Nervous System/ Blood/ Atomic **Windows.**

Zendradon Magnetic Activation & Tha on Peak (180 E-TOR A Flame Run/ 360 AC Run – Intro UK 10/04)
Nadra Complex Activation prepares the body for the second Ti-E-a 12-Cycle and activation of the electrical Zendradon Cells and Over-Tone Zendra Duct Complex through which the **24 Lotum Po nts** and their –ve Radis and +ve Zener Lines activate within the body Chakras, etc. Through Zendra Activations the Seed Atom receives opening of the 180-Charge E-TOR-A Electrical Flame and can run Bi-polar 180-Charge Currents, one or the other at any given time, but NOT both simultaneously.

The Zendra 12-Cycle Electrical breaths "Turn on the Eiros" release +ve electrical E-TOR-A Flame and build -ve Eiros Charge in the Seed Atom. The Zendra Complex runs the electrica E-TOR-A Flame through which – ve Eiros and Particle Currents are made and Magnetic Merkaba reaches Thalon Peak.

The Kethradon Complex / Zero-Point Activation & Radeshi Peak (Bi-polar 360 DC - Intro India 01/ 02.04)

[2 – Til-E-'a Cycles = 1 Ti-E-'a Nadra Electrical 12 Cycle (36 – 3-Pause Nadra breaths) and one Zendra Magnetic 12-Cycle (36 – 3Pause Zendra breaths)]

The Zendradon Awakening – Technique 1

'A-Sha-RA- Reu-Sha-TA – Khem-a-lo-ha-tea' Initiation:

Opening the Moda-AdhurA Ducts for Electrical Zendradon Cell (12.5-11.5) Initiation

Preparation:

Generally, all Kathara Level 2-3 and Kathara Level-4 RA Activation Techniques. Specifically, activate "Eyes of RA" Currents not more than 12-18 hours prior A copy, preferably in colour, of the *'A-Sha-RA-Reu-Sha-TA – Khem-a-lo-ha-tea* Code (or "Khem Code") should be to hand

Actions:

Releasing the Zendradon Seed K 12 – Chakra 10, 6" above the Head ..

1 Imprint/ optically induct the *'A-Sha-RA-Reu Sha-TA Khem-a-lo-ha-tea'* Code (the "Khem' Code") into the RA centre via the Pineal on a 48-Point Lotus Breath Inhale Exhale the imprint of the Khem Code gently into the RA centre

Use the next Inhale breath to draw the Khem-Code up to the Pineal, then Exhale slowly into the Pineal allowing the Exhale breath to expand he Khem-Code outward from the Pineal forming a 3-Dimensional Khem-Code Sphere entirely around the head, extending outward, from the head, about 3" in diameter

2 Inhale slowly and firmly into the Pineal on a Single-Point Axis, using the Inhale to secure an energetic "hold" on the inside "skin" of the Khem-Code Sphere around the head; do not contract the Khem-Code Sphere with the nhale, just intend or visualise a secure "hold" on the inside ayer of the Code Sphere. Hold Inhale

3 Now, Exhale sharply and quickly downward using the Exhale breath to rapidly draw the Khem-Code Sphere down nto the Mahadra Point, Chakra-13, Earth Core Hold on fu, Exhale

4 Hold ng the breath at the bottom of the Exhale attention at Earth Core, observe that the Khem-Code Sphere is now centred around the Mahadra and has begun to emit a series of complex "digital-like" tones as it communicates nstructions to the Mahadra and the Reu-Sha-TA Spiral

5 Inhale a Single-Point breath gently, into the Mahadra, and hold at the "top of the Inhale" Then, Exhale forcefully downward from the Mahadra, into Chakra 15 in Deep Space out the other side of Earth, and hold the Exha e at he bottom with attention focussed on the Khem-Code Sphere at the Mahadra.

6 Observe as you sit within the Inner Silence of the Exhale breath pause, the Khem-Code Sphere begins to emit a high pitched soft whining sound that ascends in pitch until the sound suddenly disappears into s lence nhale gently into the Mahadra, then Exhale a fast, sharp, 2-Point Horizontal breath out of the Mahadra on a Right-Left Axis , notic ng that as you Exhale the Khem-Code Sphere "launches upward like a rocket", shooting straight up through your Central Vertical Column and into Chakra 10, 6" above the Head

7 Breathe gentle, slow 48-Point Lotus breaths from the RA Centre, and observe the Khem-Code Sphere at Chakra 10

8 At first, the Khem-Code will seem to have disappeared but within a few seconds it will "re appear" filled with brilliant Golden-Silver-One Light, and will change from a circular Sphere shape into an elliptical-Sphere Egg Shape with pale Silver Light forming the "white of the egg" and, deep inside the egg, a brilliant Pale-Yellow-Gold "yoke" also emerges Continue breathing gently from the RA Centre, and observing the "Golden-Silver One Cosmic Khem-Code-Egg" at Chakra 10.

Focus mental attention on the centre of the "Egg Yoke" and give the Mental Command: **"Zendra Rise – Zendradon Awaken"** and observe as a Pale Aquamarine Spark appears at the centre of the Khem-Code- Egg Yoke .

10
Inhale from the RA Centre and draw the breath up to the AzurA; completely inhale into AzurA and Hold this breath.

11
Now, Exhale a Single-Point breath up from the AzurA and into the Pale Aquamarine Spark within the "egg yoke" of the Khem-Code at Chakra 10. When the Exhale reaches the egg-yoke-Khem Code the Pale Aquamarine Spark turns into a small Starburst, then flies rapidly down the Central Vertical Column to the Mahadra at Earth Core.

12
Breathe gently from the RA centre and observe as a Pale Aquamarine "Breathing Tube" about 2" in diameter opens within your Central Vertical Column all the way from the Mahadra at Earth Core and into the Khem-Code-Egg at Chakra 10 6" above the head. The K12 Seat at the centre of the Zendradon Cell has now been released.

13
Return to normal breathing and observe that the Khem-Code-Egg and Aquamarine Zendradon Breathing Tube remain with you, and active from this moment forth. As you go through the next few hours, imagine that you can see and feel the beautiful spiralling Pale-Silver-Gold-Violet Current from the Zendradon moving gently downward through the 2" Pale Aquamarine Breathing Tube.

You are now prepared for the Zendradon Activation Cycle, though please observe a minimum 6 hour stabilisation period before proceeding with any further Technique(s).

The Zendradon Awakening ~ Technique 2

Zendradon Cell Activation – Opening the Breathing Tube

(The 6 Breaths of Reclamation)

Preparation:

All Kathara Level 2-3 and Kathara Level-4 (Belize 08 04) RA Activation Techniques + Zendradon Technique-1

Note:

In this Technique movement of the Maharic Shield is used to direct movement of the Ethos Body Photo Flame Cell.

Actions:

1 Inhale into RA Centre on a 48-Point axis and draw the Density Lotus Arcs to Vertical inhale Position, to begin a Breathing Cycle (The inhale breath is the "Zero-Point" Breath, START position, and is thus "Breath Zero" – NOT counted in the number count as follows. The conscious Zero-Point breath simply brings the Ethos-PCM Grids into Start Position).

2. From the Zero-Point RA Centre Inhale, Exhale downward, ***using the Exhale*** breath to ***push*** the Maharic Shield (Ethos Density 4 Shield) downward to Earth Core (This fully expands the Ethos Grid downward from PCM). As you Exhale, and push Maharic Shield down, ***expand Lotus Arcs to 45°Axis*** Expansion/ Inhale position

3. Inhale upward to the RA Centre using the Inhale to draw Maharic Shield upwards to position 12" below your feet (equals full alignment of Ethos & PCM Grids and Photo-cells) and draw Lotus ***Arcs to vertical. Count Actions 2 & 3 as Exhale-1/ Inhale-1.***

4 Repeat Actions 2 & 3 to complete a 6-Exhale / 5-Inhale Breath Cycle, moving the Maharic Shield Up & Down with the Breaths + moving Lotus Arcs In & Out in synchronisation. After completing the 5th Inhale, ***PAUSE*** before initiating the 6th Inhale following the 6th Exhale

The "Quickening" Initiates ...

5. At the "Bottom" of the 6th Exhale, Maharic Shield is in Earth Core Density Arcs opened in 45° Expansion position – ***PAUSE*** to receive D-13 Monadic Spark in Seed Atom deep within AzurA.

The 6th Inhale: The "Quickening" - Ethos Ascent

6. Inhale at the RA Centre using Inhale-6 to draw Maharic Shield all the way up from Earth Core to Chakra 12A – 24" above head, aligning Ethos & Eiros Grids/ Photo-cells. The Zendradon Cell initiates. Draw Lotus Arcs to vertical.

NOTE: Steps 6 & 7 = Aro – Alon Cycle.

The 7th Exhale Eros Descent – Etheric Aro Electrical Peak & Zendradon Activates

7 Exhale from Chakra-12A at Centre of Maharic Shield 24" above your head, using Exhale to push Maharic Shield to position 12" below feet aligning the Ethos-Eiros and PCM Photo-cells. Expand Lotus Arcs to 45°, as you Exhale. Zendradon Cell activates. **Pause at Bottom of Exhale.**

The 7th Inhale – The 1/3 Inhale – Ethos Alon Magnetic Peak

8. Inhale from Centre of Maharic Shield 12" below feet using a 1/3rd Inhale to draw Maharic Shield up to E-Umbi Point (just below navel) and draw Lotus Arcs from 45° Axis Expansion to 30° Expansion ONLY (not all the way to vertica , just a sh ft from 45 to 30 deg s) *PAUSE* at 30 deg. Inhale with Maharic Shield at E-Umbi & Lotus Arcs at 30 deg – Honatilea State begins, Etheric & D-1 Atomic Cells begin 45 deg. shift to Ecka Axis

The 8th Breath – Breathing Tubes Open

9 Exhale from the Centre of the Maharic Shield at E Umbi, using Exhale to **push** Maharic Shield from E-Umbi to Earth Core as Lotus Arcs close to vertical axis. Ecka Lota Breathing Tube opens and Reu-Sha-Tah Braided Etheric Rainbow Ray (15 Cords) Current descends from Ecka Lota Breathing Tube into PCM LotE and PKA Loti Breathing Tubes, opening LotE and Loti Breathing Tubes and drawing LotE and Loti D-1 Bodies, and their Etheric Cells, into Bi-Veca Fold, **initiating Athonitilea State Reu-che Pillar and Reu-Sha-TA Spiral** reset **initiates** Pillar-1/ D-1 Sub-harmonics 1-6 re-set. LotE and Loti shift to Ecka Zero-Point Axis completing 45deg. shift and aligning within the Sha-LA a Chamber of the Arc of the Covenant Passage.

The 8th Inhale – Reu-Sha-TA Spiral Activation

10. Inhale from the centre of the Maharic Shield at Earth Core, using Inhale to draw Maharic Shield up from Earth Core to Chakra 12A - 24" above head drawing LotE and Loti into merger with Lota on D-13 Monadic and D-1 Sub-atomic levels. Zendradon Cell consummates, Reu-Sha-TA Spiral Cords and Reu-che Pillar-1 D-1 Sub-harmonics 7-12 re-set "Rainbow Ray Braid" at centre of Breathing Tube activates in preparation for activation of the Diamond Sun Crystal Body Respiratory System – Tech #3.

The Zendradon Awakening ~ Technique 3
Releasing the Sha-Na-TA

Preparation:

All Kathara Level 2, 3 & 4 (Belize 08 04 Techniques + Zendradon Techniques 1 & 2 A copy of the "Khem Code", preferably in colour, to hand.

Actions:

1. With Maharic Shield (Ethos DN-4 Shield) still stationed at Chakra 12A, 24" above the head, and Eros DN-4 Shield stationed 12" below feet, draw a 2-Point Inhale breath through the Centre of the Breathing Tube one descending from Chakra 14 36" above the head and one ascending from Chakra 13 Earth Core, into the Seed Atom and Monadic Core at the AzurA while **leaving** the Maharic-Ethos Shield and Eros Shield in their **"Lota Alignment"** positions *PAUSE* at the top of the inhale with mental attention focussed on the AzurA. **Remember** to draw the Density Lotus Arcs **(Ra-Na-TA Arcs)** into the vertical Position as you inhale

2. Look at, visualise or intend an image of the "Khem Code" (the *A-Sha Ra Reu Sha TA Khemalohalee Monadic Code)* at the centre of your Seed Atom at the AzurA, then **forcefully Exhale** from the AzurA on a **6-Petal** Axis using the Exhale breath to **"open"** the Density Ra-Na-TA Lotus Arcs outward to the 45deg axis position. **PAUSE** at the bottom of the Exhale.

3. Next **slowly Inhale** into the AzurA, using the Inhale breath to slowly draw the Density Ra-Na-TA Arcs back into vertical position, while expanding your mental awareness to the presence of the (larger) Sha-Na-TA Diamond Sun Lotus Arc Sets of the Lolosphere and Logosphere in the Crystal Body As you **slowly** inhale and bring the Ra-Na-TA Arcs to vertical closed position above the AzurA, the 3 larger Sha-Na-TA Arc Sets (which have been phase locked in their vertical closed position) begin **expanding** their Petals into the 45 deg position in synchronisation with the **contraction** of the smaller Ra-Na-TA Arcs As the Sha-Na-TA Arcs expand – and – Ra-Na-TA Arcs contract **with the Inhale** notice a sensation of energy **leaving** your Breathing Tube as the Sha-Na-TA expansion draws spent energy out of the Pillar of Power and back into the Earth Core As this occurs the Atyonic Crystal and Mooic Vortices activate opening the outgoing Radeonic Heliopaths and creating a Vacuum within the Breathing Tube Centre PAUSE at the top of this slow Inhale and **mentally orient the Arcs**, Sha-Na-TA expanded to 45 deg and Ra-Na-TA Arcs fully contracted (vertical) to Central Breathing Tube Try to sense the vacuum within the Pillar of Power Breathing Tube

4. Now, **slowly begin to Exhale** from the AzurA on a 2-Point Up Down Vertical Axis in the Breathing Tube As the slow Exhale progresses, intend or visualise that as the 2 Point vertical breath slowly moves upward and downward the Density Ra-Na-TA Arcs synchronistically expand out of their vertical closed position and back to a 45 deg axis expansion As the 2-Point **Exhale** breath **continues** the Ra-Na-TA Arcs expand-open and the Sha-Na-TA "Diamond Arcs" synchronistically close/ contract to the vertical position At the **bottom** of the 2 Point Exhale breath, the 2 Point breath **will be expanded** up and down the Breathing Tube from Chakra-13 Earth Core to Chakra-14 36" above the head the Ra-Na-TA Arcs are at full 45 deg expansion and the Sha-Na-TA Diamond Arcs are at full contraction the Sha-Na-TA "Petals" aligned vertically within the Crystal Body Breathing Tube. **PAUSE**

5. Pause for a moment at the bottom of this Exhale breath and ensure the proper orientation of the Arc Sets as described above #4) – and take a series of 6 "Offline" surface breaths breathing normally through **the lungs ONLY** NOT through the AzurA, while **keeping** the Lotus Arc Sets and Breathing Tube Breaths fixed in their Ra-Na-TA "Exhale" positions During the 6 surface breaths focus your mental attention on the interaction of energy that takes place between the Sha-Na-TA Arcs and the 0.5 Radon Cells of the Breathing

Tube as the Sha-Na-TA Inhale/ Ra-Na-TA Exhale occurs. The "Sha" Arcs are closed and aligned vertically within the Breathing Tube; as this occurs the 24 Lota Points activate and receive energy infusion from the Lota, generating Pulsar Plasma Waves that enter and activate the Dyonic Crystal and Diodic Vortices and incoming Radieonic Heliopath Tubes of the Diamond Sun Crystal Body. As the Pulsar-Plasma Waves move inward toward the Pillar of Power, they release a **Ketheric** (Etheric-Atomic) Back-flow **Radon Current** moving *outward* through the Heliopath Tubes.

The Radon Back-flow Currents **"turn on the Heliotalic Rays"** (outward emanating) of the Diamond Sun Crystal Body. The inward moving Pulsar-Plasma Waves move inward through the Heliopath Tubes into the interwoven 24 Lotus Points and the Lotus Points transfer the Pulsar Waves into the Radon Cells in the Breathing Tube for storage. As you breathe normally, using the "Surface Breaths" (lungs only) *try* to mentally follow this energy exchange from the Sha-Na-TA Arcs. **Before re-engaging "Breathing Tube AzurA Breaths"** mentally orient the (larger) "Sha" Arcs in their closed/ vertical inhale position, the "Ra" Arcs in their 45 deg. axis open/ exhale position, and **visualise** or **intend** that the sequence of Heliopath Tube **"Sun Rays – turning on"** and the 5 Radon Cells of the Pillar of Power turning to **glowing orbs** as they receive their infusion of Pulsar-Plasma Waves from the 24 Lotus Points.

6. Re-engage Breathing Tube breaths with a **slow 2-Point Inhale** from the AzurA, breathing energy down from Chakra-14 and up from Chakra-13, breaths meeting in the AzurA. Notice that as you re-engage the Breathing Tube with the AzurA inhale, that the (smaller) "Ra" Density Arcs (which were in the expanded/ exhale 45 deg. position) move to the vertical inhale position and the (larger) "Sha" Diamond Arcs expand out of their inhale, back to their 45 deg. Exhale position. **PAUSE** at the top of the Inhale and observe/ intend that the Breathing Tube is vacated of energy by the "Exhaling Sha" Arcs until the Breathing Tube **reaches a rapid vacuum state** and then as this vacuum state is *reached* the Radon Cells "Fire", releasing a flood of Heliotalic Spark Pulsar Waves into the Reu-Sha-TA Spiral in the Breathing Tube.

7. Exhale a 2-Point Vertical Breath **slowly** from the AzurA upward, downward in the Breathing Tube, while observing/ intending that the (smaller, "Ra" Arcs expand to 45 deg. axis and the "Sha" Arcs again contract to vertical. **Pause** at the bottom of the exhale and observe/ intend that at the Exhale of the "Ra" the Reu-Sha-TA Spiral, in the Breathing Tube transmits the incoming Pulsar Waves (released from the Radon Cells to the Reu-Sha-TA Spiral during previous Ra-Na-TA inhale – Step 6) **to the Chakra Seals**, polarises the Reu-Sha-TA Spiral to **open** the Breathing Tube and "**turn-on**" the Chakras and the Chakras release the synthesised Pulsar Wave Currents to the Nadis Lines, Nadia capsule, DNA Template Silver Sanctum (Ecksha-shaped) Flame Body, Lotus Points, Yan Flow and into the "Mano Windows" in the nucleus of all the atoms in the body, beginning with those of the chemical DNA – and – simultaneously, the "Sha" Arcs "inhale" and bring in more Plasma Rays to charge the Radon Cells. The Breathing Tube **Respiration Cycle** is now set in motion.

8 Practice several sets of "**Double Arc**" Inhale/ Exhale Breaths from the AzurA using the **"Ra"** (Ra Na TA) **Close / "Sha"** (Sha-Na-TA) **Open** Mental Command on **each physical Inhale** and **"Ra" Open/ "Sha" Close** Mental Command on **each physical Exhale**. Use **SLOW** breaths and try to mentally keep track of the counter-moving Expanding Contracting Arc Sets knowing that in this movement the cadues of Energy Exchange within the Breathing Tube are taking place **automatically**.

The Zendradon Awakening ~ Technique 4

Restoring the Reu-Sha-TA Spiral to the Christiac Imprint

(Overriding the Graviton-Sextant Vortex System)

When the Maharic Shield **enters** Earth Core at the Bottom of the Exhale **rapidly and forcefully** Inhale from the Mahadra/ Chakra-13/ Earth Core/ Centre of Maharic Shield in Earth Core **using** the Inhale breath to **rap dly draw** the **Maharic Shield *all the way up*** to Chakra 14, 36" above the head **Hold** breath at top of the nhale **Notice** that as you rapidly drew the Maharic Shield up to Chakra-14, the "Ra" Density Arcs closed to vertical and the "Sha" Diamond Arcs expanded to 45 deg. axis but also that as the Maharic Shield passed in to Chakra-14, and the paralle D-14 Prima Light Field the **d agonal petals** of the (larger) **"Sha"** Arcs expanded to their 45 deg axis Exhale position, **then "popped" and "jumped"** contin ing a rapid Phase Expansion **to the Horizontal (90 deg) ax s** before immed ately "jumping back" to the 45 deg. expansion axis As the "Sha Arcs "jumped" from 45 – 90 deg to **Spark the LotE ROD** the "Ra" Arcs (in their Inhale/ vertical Posit on) were **briefly joined by 2 more Arcs** from the PKA Lotl, that **"flashed on"** on the horizonta 90 deg. axis of the **PCM LotE ROD**. The PODS of the LotE and Lotl Spark at the **"top of the Inhale breath"** as the LotE Maharic Shield ascends to Chakra-14 for reset of he Reu-Sha-TA Spiral Ax om (& DNA) Template – the **Template of the Time Codes.**

4 Exhale **forcefully** from the centre of the Maharic Shield, at Chakra-14, 36" above the head using he Exhale to push the Maharic Shield all the way down to the Mahadra/ Chakra-13/ Earth Core setting the restored Reu-Sha-TA Spiral Template nto your Etheric Seed Atom Replica that exists within Earths' Shield at the point of your persona Mahadra Point (Chakra-13) **PAUSE** at the bottom of the Exhale and notice that the "Sha" Arcs have contracted to their vertical- nhale position and that the "Ra" Arcs have expanded to their 45 deg axis Exhale position.

5. Inhale **gently** and **slowly** from the centre of the Maharic Shield at Earth Core, using the Inhale to draw Maharic Shield up from Earth Core to position 12" below the feet. **Continue** the Inhale staying at the 12" below feet position, **keeping** Maharic Shield in this position whi e expanding the remainder of the Inhale breath outward on a **horizontal plane through** the Maharic Shield and along the 12 Fire Letters Lines of the Maharic Shield.

6 Leaving Maharic Shie d stationed 12" below feet Exhale a **Star-burst** of Pale-Aquamarine and Pale Silver-Violet Hexonalic Frequency outward from the centre of your Maharic Shield and through ***all*** 12 Fire Letter Lines, **simultaneously.**

Return to Surface Breathing and observe as the entire Mahanc Shield and both the "Sha-Na-TA and Ra-Na TA Lotus Arc Sets ' Flash" with a brilliant Pale Aquamarine/ Pale Silver-Violet Light. The restored Reu-Sha-TA Spiral Genetic Time Code Template is now fully embedded within the Etheric-Density Templates.

7. Take a final 24-Point Inhale breath into the AzurA and Seed Atom, drawing the "Ra" Arcs vertical, and the (larger) "Sha" Arcs to 45 deg Exhale gently on a 6-Point axis along the Lotus Arc Transmission Lines of the Ra-Na-TA and observe/ intend that your Diamond Sun Crystal Body Hel'opath Tubes in the outer Lotosphere and Logosphere "turn on", and your Crystal body looks like a Sun-burst with 48 outgoing Rays

8. Resume natural Surface Breathing, and be aware that your Reu-Sha-TA Spiral will now self-adjust itself and the en ire D-13 & D-1 Anatomy to the4 restored Christiac Pattern. Your "Sha" and "Ra" Arcs will follow their natural Time Wave of counter-phasing and your Breathing Tube will stay open (all on the D-13 & D-1 levels only with Zendradon activation), setting the Core of the Crystal Body Bio-computer to the natural Christiac pattern in preparation for Kethradon Activation This D-13/ D-1 restoration of the Reu-Sha-TA Spiral will initiate self-realignment of the Myonic and Dyonic Crystals.

Chakras can now be individually re set to natural Reu Sha-TA to expedite restoration of Natural Planetary Alignment in Etheric and Physical Bodies, as follows .

The Zendradon Awakening ~ Technique 5

Personal Chakra Polarity Restoration. Reu-Sha-TA Vortice Code Activation

(For Personal – NOT – K-4 "Client Session" Use)

Purpose:

To Reset Natural Chakra Alignments to the Christiac Reu-Sha-TA Spiral for Expedited Diamond Sun Crysta. Body Restoration.

Preparation:

All Kathara Level 2, 3 & 4 (Belize 08.04) Techn'ques + Zendradon Techniques 1, 2, 3 & 4

Tools

Set of 12 Reu-Sha-TA Chakra Codes – *preferably* in full colour

Actions:

Activating the Reu-Sha-TA Palm Flames

1. Inhale a 48-Point Lotus Breath into the RA Centre, bring hands into **"Prayer position" at AzurA** and **continue** drawing breath up to the Pineal , and **Pause** for a moment Next, Exhale a Single-Point breath down to the AzurA, and **split** the Exhale breath into 2 **Horizontal Breaths,** sending Pale Aquamarine Sparks down the central Arm Cords and into the palms. As you spill the Exha e Breaths at the **Azur A** bring the hands into **Lotus Touch Fingers** position at your side(s) and **Expand** the (smaller) "Ra" Density Arcs to 45 deg axis position while **contracting** "Sha" Diamond Arcs to vertical position.

2. Using Lotus Touch Fingers of **Right Hand** place the 3 Finger-tips cluster in the **centre of Chakra Code #1** (corresponds to Chakra-1) and **Inhale** from AzurA, drawing Etheric Blueprint of Chakra Code #1 on to **Lotus-tips of Right hand** (just as if the Etheric Code imprint picks up off the paper like a singular whole disc that "sticks" to the 3-Finger-tip Lotus cluster of the R-Hand Hold breath at top of inhale, keeping fingers of **BOTH** hands in Lotus Touch Fingers position ..

3. Move Right hand with Chakra Code #1 Etheric Imprint Disc – attached to 3 Finger-tip cluster to **vertical Chakra-1 Spiral,** engaging Chakra-1 Spiral **at the Knee-Point** in the Central vertical column between the Knees) With fingers in position at Chakra-1 Spiral **Exhale** from the AzurA and **transmit** down the **Right Arm Cord ONLY** using the Exhale breath to **gently push** the Chakra-1 Code from the Right hand Lotus Touch finger-tips and into the Chakra-1 Vertical spiral. **Hold** breath for **3-6 seconds at Bottom of Exhale** for Code release to occur, then remove Right hand from Chakra-1 Spiral and **replace with Left-magnetic hand** in **Lotus Touch Fingers position.**

4. Breathe natural "Surface breaths" (lungs only) from AzurA, and **gently tap a 12-Tap Code** into the Chakra-1 Spiral **using left Hand ONLY.**

5. Repeat Steps 1 – 5 for **each Chakra 2 thru' 6 the horizontal Chakras,** using the corresponding Numbered Chakra Code (or coloured "Med" Card") for each Chakra Locate Horizontal Chakra Positions **(at the 0.5 Scale positions) from the Chart-pak Diagram.**

6 After Horizontal Chakras 2 – 6 are Reu-Sha-TA Coded complete Chakra Code Induction on Vertical Chakra Code-7 inducing Code on Etheric Body level in Chakra 7 Vertical spiral at the centre of the top of your head.

7. Once Chakras 1 - 7 are encrypted with the Reu-Sha-TA Chakra Codes, "pick-up" the Etheric Imprint of Chakra Codes 8 – 12 **"all at once", BUT in sequence** (first #8, then #9, etc.) **"Stacking the Chakra code Etheric Disc Imprints"** on the Lotus Touch Finger-tips of the **Right hand**. Use a separate Inhale "pick-up" **then Exhale, move to the next** Code for "pick-up" using a dedicated Breath Sequence for **EACH** Chakra Code 8 thru' 12. When Chakra Code # 12 is "picked up" **HOLD Inhale** breath and **prepare** to move hand with the **5 Chakra Code Imprint Etheric Discs** (Chakra Codes 8 thru 12) into **Transmission Position.**

8. Move the **Right hand** with Chakra Codes # 8, 9, 10, 11, 12 Imprint Discs **to the RA Centre** at Chakra 3, then **gently Exhale** a Single Point breath from the AzurA, down the Right Arm Cord ONLY, using the Single **Exhale to release ALL 5 Chakra Code Imprint Discs** into the RA Centre (Etheric Body level) simultaneously. **Wait 6 – 12 seconds, holding the breath** at bottom of the Exhale for **full Code release to occur.**

9. Return to natural "Surface breathing" and **remove Right hand** from RA Centre, **replacing it with Left hand** in Lotus Touch Fingers Position. **Tap in a 12-Tap Code**, into the RA Centre Etheric Body level to activate the 5-Chakra Code Cluster. The RA centre will **direct the** 5 Chakra Codes to the corresponding Chakras **automatically**

10. Take a final Inhale breath into the AzurA, using the Inhale to move the (smaller) Ra-Na-TA ("Ra") Density Lotus Arcs up to Vertical and the Sha-Na-TA ("Sha") Diamond Lotus Arcs **simultaneously** to the 45 deg. open position. **Release the hands** from the Lotus Touch Fingers Position as you Inhale, **bringing the hands to the "Prayer position" at the AzurA.**

11. Take a final Exhale breath fro the AzurA, Exhale downward to the Mahadra, and **release** "Praying hands" **as the breath reaches the Mahadra**. Chakra Codes will activate as the final Exhale reaches the Mahadra and Reu-Sha-TA Palm-Finger-tip Flames will disengage.

PLEASE NOTE:

To retain Zendradon Cell Activation, and corresponding effects, **repeat the entire 5 Technique Sequence as one long Technique,** ***at least once per week*** **(and preferably twice)** ***until Kethradon Earth Activation Techniques become available*** **– or** otherwise **– thereafter for** ***at least 4 months*** **before initiating Kethradon Activation Techniques.**

Rama Key Adapter Code "6-Set Sequences"

Rama Key Adapter Codes, Eckashic Record Restoration, Kethradon Awakening and Kathara Healing

During Veca Pillar Starburst Cycle Days 1-4, Rama Key ADAPTER CODES corresponding to the Veca Pillar number are manually induced into and activated within the DNA Templates of Star Rider-Flame Runners to initiate automatic reassembly of DNA Template Rama Key aspects that are presently fragmented dormant and unable to respond to automatic activation due to the extensive mutation of the contemporary Homo-Sapien DNA Template Rama Key Adapter Codes can be compared to "**adapter plugs**" that allow an active electrical circuit to be formed between an incompatible "cord and outlet" set. The present Homo-Sapien DNA Template mutation distorts the natural configuration of certain Rama Key segments as the Rama Keys activate, preventing the segment from completing its natural dedicated electrical circuit with its corresponding Rama Passage Grid Network receivers. The Rama Key Adapter Codes **serve to interface between the Homo-Sapien DNA Template mutation and the natural Rama Passage Grid Network** corresponding to the distorted Rama Key segment. Induction of the Rama Key Adapter Codes allows the DNA Template **mutation to progressively self-correct and clear as the distorted Rama Key segment adopts the corrected pattern of the Rama Key Adapter Code** as the segment of the DNA Template carrying the Rama Key progressively activates. Self-correction of the Rama Key distortion within the DNA Template initiates **building of progressive immunity** to planetary frequency infusions of the **Bud-Hara Retro-Virus.**

Manual induction of Rama Key Adapter Codes within the DNA Templates of **Star Rider-Flame Runners** prior to the **Day-5** onset of the Diffusion Wave **prepares the DNA Template Rama Keys to anchor, *without distorting*** the "**Rama Code of the Kethers**" from the **Planetary Eckasha E-Cou-Sha Memory Crystal** (in Eckasha Base Shield) during the **Day-6 Planetary Eckashiac Record Restoration.** Undistorted anchoring of the *Rama Code of the Kethers* through Star Rider Flame Runner DNA Templates enables the organic Knshac Encryption for Earth's Planetary **Kethradon Cell, Ketheric Template** and **Til-E-'a Sphere Memory Matrix program** to rebirth within corresponding Polarian Anchored dimensional Keylon fragments which allows the dimensional Keylon fragments suspended within the Polarian Buffer to re-**accrete** following the organization of the Knst Re-encrypted Polarian Gate Shield Rama Code, **forming a new, distortion-free Veca Pillar Shield, Dimensional Shield, Crystal Body, Til-E-'a Sphere Memory Matrix, Kethradon Cell** and **Ketheric Template** (that replicates Earth's Knshac Original First Creation form) during the **Day-13 Starburst Point.** Progressive restoration of each dimensional level of the Planetary Kethradon Cell, through the sequential Veca Pillar Starburst Cycles of the Planetary Starburst Response period, progressively allows the "**Kethradon Awakening**" Kethradon Cell activation for each Veca Pillar number to complete successfully between **Days-13-15** of each Veca Pillar Starburst Cycle. Rebirth of the Knshac Dimensional Shield Radon Photo-Flame Cell Complex and Crystal Body allows Earth's organic crystalline **E-Cou-Sha-TA Complex** network to reestablish its natural long lost live electrical connection to the **Planetary Eckasha E-Cou-Sha Memory Crystal** in the Eckasha Base Shield, which will enable progressive activation of the Planetary E-Cou-Sha-TA Complex "**Trans-Eckasha Doorways**" between **2005-2017**, through which Earth can anchor and assimilate the **Trans-Eckasha Time-Waves** by which the "**Starburst +90-Shift and Rama Passage Probability Line Leap** can occur between **2012-2017**

Because the Rama Key Adapter Codes are manually induced and activated within the Star Rider-Flame Runner DNA Templates, *as the DNA Templates interface with the Knst Re-encrypting Planetary Flame-Runner Flame-Line,* the vibrational encryption of the Rama Key Adapter Codes **passes into the Planetary Flame-Runner** making the "**mutation correction sequence**" **progressively automatically available to all possessing global *Flame-Runner* Contracts**

The DNA Templates of those with global Flame Runner Contracts progressively step-down the Rama Key Adapter Code "mutation correction sequences" into the Polarian Anchored aspects of the **Planetary Indigo Shield** the Indigo Shield then steps-down the "correction" into the **Angelic Human Tribal Shield**, enabling remaining viable aspects of the Angelic Human Tribal Shield to engage the **Polarian Buffer, Anchor and Ascending Host Time-Wave**. Polarian Anchored aspects of the Angelic Human Tribal Shield then step-down the Rama Key Adapter Codes correction into remaining viable aspects of the **Planetary Elemental and Atomic Shields,** extending **Polarian Host potential** into remaining viable aspects of the **plant, animal, elemental and sub-atomic kingdoms.**

Each Veca Pillar Starburst Cycle carries a corresponding **Rama Key Adapter Code "6-Set Sequence"** that will be set into activation by the corresponding *Star Rider-Flame Runner Teams* during Days-1-4 of each of the 12 remaining Veca Pillar Starburst Cycles. Though the ***Rama Key Code Sequences* are carried only within the DNA Templates of the those possessing pre-birth Seeding-1 Rama Passage Flame-Runner Contracts**, once activated by the Indigo Star Rider-Flame Runner Teams, **anyone** achieving ***"Ra Center" activation*** (via personal Kathara 2-3 technique work or facilitated Kathara 2-3 Client Sessions) can employ **Manual Induction and Activation** of the "Pillar-appropriate" ***Rama Key Adapter Code 6-Set Sequence*** to **facilitate and expedite activation** of the **personal Crystal Body connection** to the **Planetary Polarian Buffer, Anchor and Host.** For this reason the **Rama Key Adapter Code "6-Set Sequences"** and their **Manual Self-Induction and Activation procedures** will be incorporated into the general **Kathara-4 and higher** Bio-Spintual Healing Programs. Once activated in the Planetary Flame-Runner Cords, the Rama Key Adapter Code "6-Set Sequences" can also be used, to **initiate sub-harmonic activation**, as an optional **Additional Modality** in **Kathara 2-3 Client Sessions**, via **Etheric Imprint Ra Center Induction** of the Rama Key Adapter Code 6-Set Sequence, by **Kathara 2-3 Facilitators** whom have used appropriate **Manual Self-Induction and Activation procedures** to activate the **full-harmonic** Rama Key Adapter Codes within their personal Crystal Body. As each Veca Pillar Starburst Cycle includes a Rama Key Adapter Code "6-Set Sequence", the Rama Key Adapter Code Sets will be added to corresponding Kathara Healing Program levels, (beginning with **2005 Veca Pillar-13 Sequence-1 in Kathara Level-4**), as the Veca Pillar Starburst Cycles and related Planetary Crystal Body activations progress between 2005 and 2017.

The "A – Sha – Ra Reu – Sha – TA Khem' Code" (Monadic Template) & Rama Keys Induction Tech'

The "Keys" on the mylar are:

1. TOP Pair (Script-like) - are called "Ad-Don-dra Flame Line Keys" (relates to E-Umbi)
2. MIDDLE Pair (Geometric) – are called "Rama Passage Security Seal Release Keys" (relates to RA)
3. BOTTOM Pair (Spiral-like) – are called " Rod of Rama Keys" (relates to AzurA)

People choose just one of each, above, and assemble them on top of the *A-Sha-Ra Reu-Sha-TA* (Monadic Template) *Code, THEN:*

1. Assuming Dial-Up has been done. Hold personally compiled Code between Lotus Finger-tips. Recharge monadic orbs/ flames at fingertips by drawing 48-point breath from Earth Core to Chakra 14, and exhale to AzurA, Heart charka and then down to fingertips, and in to Code. Repeat x 2.

2. Inhale/ Exhale into Code between fingertips x 3 using Lotus Arc/ Pillar breaths, attaching Code to fingertips.

3. Put Code to one side, now Bring fingertips back to Lotus position.

4. Inhale 48-point. Hold to build charge. Imagine or intending Code on fingertips, bring fingertips to E-Umbi and Exhale Code into E-Umbi. Inhale 48-point. Hold. Move fingertips to RA and Exhale Code into RA. Inhale 48-point. Hold. Move fingertips to AzurA and Exhale Code into AzurA.

5. Issue Ad-Dondra Flame Line Command, ALOUD 3 times:

   "Ad-Don-dra ... E'Tam-Oosh-Ta ... au-RA-Um-Bra ... es-Ton-A"

6. Bring to mind your Monadic Template-Rama Keys Code, Inhaling 48-point slowly and deeply at AzurA. Hold Forcefully Exhale pushing the Code down to Earth Core on the breath Hold breath out as Code enters, spins, and 'bursts throughout Earth Core in a pale emerald/ pale aquamarine/ heliotalic flash.

7. Immediately follow with 4 x 48-point rapid Inhale/ Exhale breaths Inhale Code from Earth Core to E-Umbi, Exhale into E-Umbi. Immediately Inhale Code to RA, Exhale into RA. Immediately Inhale Code to AzurA. Exhale Code into AzurA. Immediately Inhale Code to Chakra 14 36" above head, and Exhale immediately into Chakra 14. Hold out-breath, and finally Inhale long, slow and deeply, bringing Code to rest in AzurA/ Phase Bud Cell.

Planetary Kethradon Awakening: India '05 – Technique 1

ANCHORING THE FLAME OF AD-DON-DRA ECKASHA E-COUSHA CRYSTAL CAPSULE

Preparation: **Rapid Access Lotus Touch Flame of Ra Activation**

1. Place the palms together in "Praying Hands" position in front of the AzurA while *Inhaling* a deep 48-Point Lotus Double Arc Ethos Pillar breath *up* from Earth Core to Chakra 14, 36" above your head *Hold* the breath at top of Inhale ..

[Note: Ra Centre will spark into activation as breath travels up past the AzurA & "Praying Hands"]

2. , then release a forceful Exhale breath downward to the *AzurA*, then down a bit further to the centre of the Heart Chakra, and then split the breath current at the Heart Chakra, sending a streamer of energy down the Ra Cords within the Left and Right arms while *moving the hands Out* of the Praying Hands position and into the "Lotus Touch" Fingers Position with your arms out to the sides on the Exhale

3. Proceed to Technique 1, Step 1

ANCHORING THE FLAME OF AD-DON-DRA ECKASHA E-COUSHA CRYSTAL CAPSULE

1. With activated fingers kept in the Lotus Touch position, bring both hands upwards and place Lotus Touch fingers at the base of the Thyroid Gland at the top of the breast bone Inhale a 48-Point Double Arc Lotus breath from the Ra Centre up to the AzurA. HOLD this breath a moment at the AzurA.

2. With Lotus Touch finger-tips of both hands positioned over the thyroid gland slowly begin to Exhale directing the breath from the AzurA down to Chakra 4, then into a 2-Point breath down both Ra Arm Cords and into the Lotus Touch finger-tips and thyroid gland

At the *bottom of the Exhale* PAUSE, with Lotus Touch finger-tips still at the Thyroid, waiting a moment for the Monadic (finger-tip) Orbs to send a Ra Spark from each Lotus Touch hand into the Thyroid Gland.

3. Inhale another 48-Point Double Arc Lotus breath *up* from Earth Core and into the AzurA and, *while Inhaling*, TAP OUT a *rapid, firm, 24-Tap Base Rhythm* using both sets of finger-tips, *into* the Thyroid Gland.

At the TOP of the Inhale breath, and completion of the 24 Tap Code, HOLD the breath for a moment at the AzurA and give the mental command: *"Spark of Orion Rise"* and observe or intend that a deep yellow-gold spark of light quickly responds to your command and bursts upward from the Thyroid Gland to the Rajhna Point (Chakra-6) in the centre of the Pineal Gland Move the Lotus Touch finger-tips up from the Thyroid and place them together at Chakra-6 on the forehead.

4. When the Spark of Orion enters the pineal gland, *forcefully Exhale* using the breath to direct HALF of the Orion Spark *downward* to Earth Core, while *simultaneously* directing the other half of the Orion Spark outward horizontally from the Pineal at the brain centre, and into Chakra-6.

At the BOTTOM of the Exhale, PAUSE and hold the breath while tapping out a *rapid, firm 24-Tap Base Code Rhythm* at Chakra-6. Observe or intend that a pale aquamarine spark leaps from your Lotus Finger-tips and into Chakra-6 *as you complete* Tap # 24.

5. Inhale gently and adopt a gentle *Double Arc Ethos Pillar* breathing rhythm as you complete the remainder of this technique.

6. Breath Double Arc Lotus breaths in and out gently as you visualise the image of a beautiful pale aquamarine Eckasha shaped Flame *below your feet* in Earth Core at Chakra 13. *Simultaneously* imagine a beautiful Eckasha shaped *clear* Heliotalic crystal like a hollow glass 3-dimensional Eckasha infused with Heliotalic pastel highlights at Chakra-14 above your head.

7. Continue breathing Double Arc/ Ethos Pillar Lotus breaths and repeat gently 3 TIMES, in your mind, the Command: *"I AM now the Ad-Don-dra 360 E-Cou-Sha-TA – EL-AmorA - Et-Kethra - Um-Sha-LA"*

8. Having issued the "Command of the Kethra", simply breath easy in Double Arc/ Ethos Pillar Lotus breath rhythm and observe or intend that a beautiful pale aquamarine Ad-Don-dra Eckasha shaped Flame at Chakra-13 earth Core *begins to rise upwards* while the beautiful Eckasha shaped E-Cou-Sha-TA Heliotalic Crystal at Chakra-14, 36" above your head, simultaneously descends in synchronised movement.

9. When you observe or intend that the top point of the Ad-Don-dra Flame is now touching the area *just beneath* your feet, and the rounded bottom end of the E-Cou-Sha Crystal is sitting gently *atop* your head, *inhale into the Ra Centre* a 2-POINT breath *simultaneously* drawing a pale Heliotalic energy cord downward to the Ra centre *from Chakra 14* (36" above head) and another Heliotalic cord *upward from Earth Core* to the Ra centre.

Make the ascending/ descending 'Breath Cords" meet <u>simultaneously</u> at the Ra centre at the <u>top of the inhale</u>. As the 2 Heliotalic cords meet at the Ra centre observe that a brilliant pastel Heliotalic Spark flashes in the Ra Centre. HOLD the Inhale breath for a moment to allow the Heliotalic Spark frequencies from the Ra Centre to emanate outward and into the Etheric body just above the skin.

10. Exhale gently and return to easy Double Arc/ Ethos Pillar Lotus breathing and observe or intend that your Etheric body, all over and around your physical body, now takes on a *beautiful pale pastel pearlescent* Heliotalic *hue*.

As this Heliotalic hue emerges into the Etheric body observe that the Ad-Don-dra Flame beneath your feet and the E-Cou-Sha Crystal above your head now BOTH move gently and simultaneously toward the Ra centre. Both Ad-Don-dra Flame and E-Cou-Sha Crystal come into direct alignment with each other forming a 6-foot diameter Eckasha shaped "Glass Crystal capsule" around your entire body. *Feel* the reality of this "Crystal Glass Enclosure" around you and realise that this is your personal Eckasha E-Cou-Sha Memory Crystal Capsule in the Eckasha Base Shield. Through the Flame of Ra and Kethradon infusion of the Ad-Don-dra Flame, you and your D-13 original Kristac Rama Code 1st Keylon Crystal are now, permanently reunited.

11. From this point your E-Cou-Sha Memory Crystal will remain as a protective crystalline field around you and with *each* Exhale breathy you take, the Aquamarine Ad-Don-dra Flame will move downward to Earth Core, and on *each* Inhale you take the Ad-Don-dra Flame will move back upward into alignment with the E-Cou-Sha Crystal around you – each breath cycle serving to strengthen and recharge your direct connection to your personal E-Cou-Sha Memory Crystal Polanan Matrix Buffer Field.

Part-1 of the Kethradon Awakening is now complete.

Planetary Kethradon Awakening: India '05 – Technique-2

ACTIVATING THE PERSONAL AD-DON-DRA 360 FLAME
"LOTUS PHASE-BUD INFUSION"

Preparation Rapid Access Lotus Touch Flame of Ra Activation (See Kethradon Awakening Technique-1)

Part A: *Formation of the **LOTUS PHASE-BUD CELL Ad-Don-Dra-360 Generator***

1 Recall the image of your Personal 6-foot-diameter E-Cou-Sha Crystal and Ad-Don-Dra 360 Flame around your body and mentally repeat 3 times "I AM AD-DON-DRA 360" (Reference Kethradon Awakening Technique-1)

2. With Lotus Touch Hands and Flame of Ra activated, place **Lotus Touch fingertips** of both hands at the **AzurA** and **INHALE** a **48-Petal Double Arc/Ethos Pillar/ AD-DON-DRA FLAME Lotus Breath** ("all UP") from the **Mahadra** Chakra-13 Earth Core to the **AzurA. Hold the INHALE** breath for a moment at the AzurA, while using both Lotus Touch hands to quickly and firmly run a **24-TAP CODE** into the **AzurA** at the Base of the Thymus Gland.

3. When AzurA 24-TAP CODE is complete, place activated **Lotus Touch hands** back into the **"Praying Hands"** position, this time **in front of the navel** extending **down toward the E-Umbi as far as comfortable**. With "Praying Hands" positioned in front of the navel/E-umbi release **a 2-Point EXHALE breath** firmly **from the AzurA**, directing **one part** of the breath to form a **pale-Emerald-Green cord** extending **horizontally outward** from the AzurA to a point **directly in front of the AzurA on the INSIDE SURFACE of** the E-Cou-Sha Crystal around you. Simultaneously direct the **second part** of the breath to form a **pale-Emerald-Greed cord** extending **vertically downward from the AzurA** to the **Mahadra** at Chakra-13 Earth Core. As the 2 point Exhale breath releases, the Monadic Orbs at the Lotus Touch fingertips will release **a pale Aquamarine AD-Don-Dra Flame Blue Spark into the EUmbi** as the vertical cord passes the Eumbi point on its way to the Mahadra in Earth Core. Hold the Exhale breath in Earth Core at the "Bottom of the Exhale" for a moment, and **observe** that a **small pale Aquamarine Miniature Ad-Don-Dra Flame REPLICA** spontaneously appears within your **AzurA** as you hold the Exhale breath at Earth Core.

4 Bring activated Lotus Touch fingertips of both hands up from the navel/Eumbi region and once again place hands into the **Praying Hands** position in front of the **AzurA,** while drawing **a slow, steady INHALE** breath vertically upward **from the Mahadra** at Earth Core and into **Chakra-14** 36-inches above head. **Hold breath at Chakra-14** at the "Top of the Inhale" until you **intend or observe** that the **Monadic Orbs** at the Lotus Touch fingertips first release a brilliant **Pale-Emerald Green/Pale-Silver Spark, then a blended Pale-Silver-Gold/Pale-Silver-Violet Spark** into the Pale Aquamarine **Miniature Ad-Don-Dra Flame Replica** stationed within the AzurA.

5 When you observe the release of the two Monadic Orb Sparks into the AzurA, quickly switch hand positions, placing your **RIGHT ELECTRICAL HAND PALM DOWN** directly over the **Azura**, with your **LEFT MAGNETIC HAND PALM DOWN** over the **Back of the Right Hand**. As soon as your hands are in position, **EXHALE forcefully** from **Chakra-14 downward,** directing the Exhale breath into the **Miniature Ad-Don-Dra Flame Replica** at the **AzurA.** Sense a feeling of **gentle warmth or "fuzziness"** growing **beneath your Right Palm** as the **Exhale** breath **brings the Ad-Don-Dra 360 Living Light "Lotus Phase-Bud" Cell to life within the Miniature Ad-Don-Dra Flame Replica** in the AzurA. **Release hands** gently to a resting position and **hold the Exhale** breath for a moment at the **AzurA,** then resume **gentle automatic Double Arc/Ethos Pillar/Ad-Don-Dra Flame** ("All UP") **Lotus Breathing** for the remainder of this technique.

6 With your mental attention focused upon the **Miniature Ad-Don-Dra Flame Replica** in the AzurA , intend or observe with your inner vision that the Pale-Emerald Green/Pale-Silver Spark, and the blended Pale-Silver-Gold/Pale-Silver-Violet Spark from the **Monadic Orbs in Step-4** have now interacted with the **Min ature Ad-Don-Dra F lame Replica** in the AzurA, and have together formed 3 SPHERES in a TRIVECA Formation within the **M iniature Ad-Don-Dra Flame Replica.** The **Singular "Top" Sphere** of the **TRIVECA Lotus Phase-Bud Ce l** is a **Pale Emerald-Green with a Pale-Silver interior** Amoraea Flame unit the Sphere on your LEFT SIDE is a Pale-Silver-Violet Le-AdorA Flame unit (from Paralle Ecka) and the Sphere on your RIGHT SIDE s a **Pale Silver Gold** Le EtorA Flame unit (from this Ecka . Together the 3 Spheres of the Triveca with n the **Miniature Ad-Don-Dra Flame Replica** at the AzurA form a **Living Light Cell GENERATOR** called a "LOTUS PHASE-BUD CELL" which is capable of continual generation of natural Krstiac Ad-Don-Dra-360 radiation Spark units, through which powerful Eckasha-Level Heliotalic **Ad-Don-Dra-360** "***God Seed Spark-Pulse Currents***" can be generated for healing, manifestation and Temple Grid Work applications.

Part B: *PHASING the Lotus-Phase-Bud Cell to activate God-Seed Spark Pulse Current Flow*

7 Continue **gentle automatic Double Arc/Ethos Pillar/Ad-Don-Dra Flame** ("All UP") **Lotus Breathing**, keeping your mental attention upon the Triveca Formation Lotus Phase-Bud Cel within the **Miniature Ad-Don-Dra Flame Replica** in the AzurA. Without consciously altering the rhythm of the natural Lotus Breath breathing, intend that a **minute Pale Aquamarine Spark** leaps from your **6-foot-diameter Ad Don-Dra Flame** as it rises upward on the inhale, and that this minute "**Spark of Ad-Don-Dra**" leaps **directly into the center area of the Lotus Phase-Bud Cell** Triveca Formation and is **drawn into the Lotus Phase-Bud Cell at the "Creation Point"** Center-Point of the "Top" Pale-Emerald Sphere.

8 Continue gentle Lotus Breathing and observe/intend that as soon as the "Spark of Ad-Don-Dra" enters the "Creation Point" of the "Top" Pale-Emerald Sphere the 3 Spheres of the Lotus Phase-Bud Cell begin to PHASE, with the **Pale-Silver-Violet** Le-AdorA Flame unit Sphere on your **LEFT** and the **Pale-Silver-Gold** Le-EtorA Flame unit Sphere on your RIGHT each **simultaneously rotating toward each** other along the vertical center line "**Zero Point Line**" of the "Still Point" Pale-Emerald-Green "Top" Sphere. Observe that as the two Left and Right Spheres **meet and merge along the central Zero Point Line**, a **Pale Silver-Aquamarine Spark** forms in their **common center**. Continue gentle breathing and observe that **a moment after the Pale-Silver-Aquamarine Spark forms, it suddenly "explodes in gentle slow motion"** turning into a **Pale-Aquamarine STARBURST** whose radiant shimmering light fills the **Miniature Ad-Don-Dra Flame Replica** in the AzurA.

9 Continue gentle breathing and observe/intend that a moment after **Pale-Aquamarine STARBURST** emerges from the *Lotus Phase-Bud Cell* into the **Miniature Ad-Don-Dra Flame Replica,** its brilliant **radiance next mellows to a gentle Pale Aquamarine Glow**. Observe/intend that within this Pale Aquamarine Glow in the *Miniature Ad-Don-Dra Flame Replica* at the AzurA you can now **distinctly see or feel** the form of a PERFECT, Pale Aquamarine 6-PETAL LOTUS ARC SET , its central point deep within the center "Creation Point" of the Lotus Phase-Bud Cell, with its 6 delicate Pale Aquamarine Arc "Petals" extending outward through the Triveca Formation of the Lotus Phase-Bud Cell and into the surrounding **Miniature Ad-Don-Dra Flame Replica.** Your Lotus Phase-Bud Cell is now ready to initiate PHASING for **perpetual-motion production of Ad-Don-Dra-360 Spark Sets**.

10 Focus your mental attention now upon your natural Lotus Breath breathing rhythm, while keeping in mind the tiny Pale Aquamarine 6-PETAL LOTUS ARC SET now stationed within your Lotus Phase-Bud Cell in the **Miniature Ad-Don-Dra Flame Replica** in the AzurA. Draw in a long, slow, Single-point INHALE BREATH upward from the Mahadra at Earth Core and to Chakra-14 36-inches above the head. Hold the INHALE Breath at Chakra-14 for a moment at the "Top of the INHALE" and quickly check that your **Ethos Pillar** and **Large Ad-Don-Dra Flame** are in the **"INHALE-UP" position** and that your larger **Density Ra-Na-TA Lotus Arc Petals** are also in the **"INHALE-UP-CLOSED"** position. Once assuring the simultaneous "INHALE UP" positions, prepare to exhale the PHASING ACTIVATOR BREATH that

will bring the tiny **Pale Aquamarine 6-PETAL LOTUS ARC SET** of your Lotus Phase-Bud Cell at the AzurA into Eternal Life Ad-Don-Dra Spark generation.

11 EXHALE a Single-point breath forcefully downward from Chakra-14 directly into the center of your Lotus Phase-Bud Cell at the AzurA, emptying the lungs completely and directing the entire quantum of the EXHALE breath into the central "Creation Point" of the Lotus Phase-Bud Cell. Hold the exhale breath at the Lotus Phase-Bud Cell at the "Bottom of the Exhale" for a moment and observe/intend that you can now see or feel that the tiny **6-Petal Lotus Arc Set of the Lotus Phase-Bud Cell has now begun to PHASE of its OWN VOLITION**. Its tiny Arc-Petals **Phasing upward into the "Arcs Closed" position and then downward into the "Arcs open to 45-degree spread" position.** Allow the tiny Lotus Phase-Bud Arc Set to rapidly Phase 3 times before drawing the next Inhale breath.

12 Once you have observed/intended that the tiny Lotus Phase-Bud Arc Set has Phased "Open and Closed" 3 times, return to gentle **automatic Double Arc/Ethos Pillar/Ad-Don-Dra Flame** ("AuDP") **Lotus Breathing**, drawing a slow INHALE breath upward from the Mahadra at Earth Core to Chakra-14 and while you are drawing the Inhale Breath upward intend or visualize that the tiny Lotus Phase-Bud Arc Set within your AzurA now synchronizes its Phasing Rhythm with the Larger Ra-Na-TA Density Arc set, both Arc Sets moving through "opened and closed" position together (and in opposite movement to the smaller Sha-Na-TA Arc Set) **Your Lotus Phase-Bud Cell will now continually and automatically phase with your natural Double Arc/Ethos Pillar/Ad-Don-Dra Flame Lotus Breathing cycle.** Each time your Lotus Phase-Bud Arc Set phases it generates **a set of 12 "Replicate Micro-Arc Sparks"**, each Micro-spark carrying the image and action of its Source (each Micro-Spark being a micro-Inveca cell with its own PHASING 6-Petal Arc Set.)

Part C: *Generating and Directing the Heliotalic Eckasha God-Seed Spark Pulse Current* – Activating the 2 Starburst Breaths of the God-Seed

13 Once your Lotus Phase-Bud Cell has begun self sustained PHASING and Spark set generation you can build the **"Replicate Micro-Arc Spark 12-sets"** into a **POWERFUL Eckasha God Seed Spark-Pulse Current** in **"2 Easy Starburst Breaths"**. On "Starburst Breath-1" **INHALE a PALE EMERALD-GREEN SPARK upward from the Mahadra at Earth Core and into the Lotus Phase-Bud Cell at the AzurA**. Hold the Inhale for a moment at the AzurA and observe the **1st Replicate Micro Arc Spark 12-set** emerge from Lotus Phase-Bud Cell.

14 Next, use a forceful **Starburst Breath-1 EXHALE** to push the entire Replicate Micro-Arc Spark 12-set downward **into the Mahadra at Earth Core**, then as the *Replicate Micro-Arc Spark 12-set* **enters the Mahadra, RAPIDLY AND FORCEFULLY engage Starburst Breath-2 INHALE**, drawing the **Replicate Micro-Arc Spark 12-set** BACK UP into the Lotus Phase-Bud Cell. Hold Starburst Breath-2 Inhale at the Lotus Phase-Bud Cell for as long as comfortable to build charge, then use a **forceful Starburst Breath-2 EXHALE**, sending a **Pale Aquamarine Ad-Don-Dra Spark from the AzurA** downward into the **RA Center at Chakra-3.** When the Ad-Don-dra Spark intercepts the Ra Center *the Lotus Phase-Bud Cell* in the AzurA begins *emitting a constant flow* of **blended Pale Aquamarine-Pale Pastel Heliotalic *Eckasha God-Seed Current*** that emerges out from the center of the Lotus Phase-Bud Cell and into the **small Ad-Don-Dra Flame Replica "Containment Vessel"** in the AzurA. As you breath normally the small Ad-Don-Dra Flame Replica "Containment Vessel" in the AzurA continually fills with Eckasha God-Seed Current until it *reaches full capacity* at which time the Lotus Phase-Bud Cell will stop phasing until this abundance of Eckasha Current is utilized by your own multidimensional anatomy or is consciously directed by you for healing, manifestation or Temple God Work purposes.

If you consciously engage the **"2 Starburst Breaths of the God-Seed"** preceded by the **Rapid Access Lotus Touch Flame of Ra Activation** preparatory technique, only 2 times per day (one in the morning upon waking and again before your final evening sleep) the Lotus Phase-Bud Cell will automatically resume Phasing and Eckasha God-Seed Current Production as soon as the **Ad-Don-Dra Flame Replica "Containment Vessel"** falls below its "full capacity energy holding".

The E-Cou-Sha Crystal Breath of Manifestation Seeding – India Technique 3

(Goa – February 2, 2005)

Preparation:

1. Be current with all Techniques to UK, 10/2004 and India Techniques 1 & 2.
2. Determine a Krstiac Intention for Manifestation (anything of your personal choosing)
3. Run rapid access Lotus Touch prep', per A below (Prep' India Tech' 1).
4. Run steps 13 & 14 per B below, from India tech' 2.
5. Do/ speak "D'al Up" sequence
6. Do 1 set of 12 48-Point Double Arc/ Ethos Pillar/ Lotus "up" breaths.
7. Then follows the E-Cou-Sha Crystal Breaths of Manifestation Seeding per D below.

'A'

Step 1: Place the palms together in "Praying Hands" position in front of the AzurA while *inhaling* a deep 48-Point Lotus Double Arc Ethos Pillar breath *up* from Earth Core to Chakra 14 36" above your head. *Hold* the breath at top of Inhale.

[Note: Ra Centre will spark into activation as breath travels up past the AzurA & "Praying Hands"]

Step 2. then, release a forceful Exhale breath downward to the *AzurA*, then down a bit further to the centre of the Heart Chakra and then split the breath current at the Heart Chakra, sending a streamer of energy down the Ra Cords within the Left and Right arms, while *moving the hands Out* of the Praying Hands position and into the "Lotus Touch" Fingers Position with your arms out to the sides on the Exhale.

'B'

Step 1: Build the **"Replicate Micro-Arc Spark 12-sets"** into a **POWERFUL Eckasha God-Seed Spark-Pulse Current** in **"2 Easy Starburst Breaths"**. On **"Starburst Breath-1" INHALE** a **PALE EMERALD-GREEN SPARK upward** from the **Mahadra** at Earth Core and **into the Lotus Phase-Bud Cell** at the AzurA; **hold the Inhale** for a moment at the AzurA and observe the **1st Replicate Micro-Arc Spark 12-set** emerge from Lotus Phase-Bud Cell.

Step 2: Next, use a forceful **Starburst Breath-1 EXHALE** to push the entire **Replicate Micro-Arc Spark** 12-set downward into the **Mahadra at Earth Core**, then as the *Replicate Micro-Arc Spark 12-set* **enters the Mahadra, RAPIDLY AND FORCEFULLY** engage **Starburst Breath-2 INHALE**, drawing the **Replicate Micro-Arc Spark 12-set** BACK UP into the Lotus Phase-Bud Cell. Hold Starburst Breath-2 Inhale at the Lotus Phase-Bud Cell for as long as comfortable to build charge, then use a **forceful Starburst Breath-2 EXHALE**, sending a **Pale Aquamarine Ad-Don-Dra Spark from the AzurA** downward into the **RA Center at Chakra-3.** When the Ad-Don-dra Spark intercepts the Ra Center, the *Lotus Phase-Bud Cell* in the AzurA begins *emitting a constant flow* of **blended Pale Aquamarine-Pale Pastel Heliotalic *Eckasha God-Seed Current*** that emerges out from the center of the Lotus Phase-Bud Cell and into the **small Ad-Don-Dra Flame Replica "Containment Vessel"** in the AzurA. As you breathe normally the small Ad-Don-Dra Flame Replica "Containment Vessel" in the AzurA continually fills with Eckasha God-Seed Current until it reaches fill capacity, at which time the Lotus Phase-Bud Cell will stop phasing until this abundance of Eckasha Current is utilized by

your own multidimensional anatomy, or is consciously directed by you for healing, manifestation or Templar Grid Work Purposes.

'C'

Now do "Dial Up" followed by 1 set of 12 – 48-Point Double Arc breaths ...

'D'

Step 1: On the next Inhale (# 13 of Double Arc breaths) HOLD Inhale at Top of Inhale, at Chakra 14 – take one further *extra* inhale-pulse breath at the Top of the Inhale to momentarily over fill your lungs – then:

2: Forcefully release the Exhale downward *pushing* the E-Cou-Sha Crystal (clear glass Heliotalic hued Eckasha shape) and the breath together down to the Mahadra at Earth Core.. keeping your pale aquamarine Ad-Don-dra Flame up around your body whilst the E-Cou-Sha Crystal moves down with the breath.

3: Once the E-Cou-Sha Crystal is embedded in the Mahadra prepare to *mentally* (and/ or verbally if you prefer) state your pre-*prepared* intention for manifestation 3 times. Draw a 48-point double arc breath and mentally state the intention at the Top of the Inhale Hold the breath for as long as possible, retaining mental focus on the intention and its *successful* outcome (construed as a Kristiac outcome for the Benefit of all Life everywhere). Exhale the intention – and breathe forcefully into the E-Cou-Sha Crystal at Earth Core. Repeat twice more.

4: Inhale a 48-Point Double Arc breath to Chakra 14 leaving the programmed E-Cou-Sha Crystal in Earth Core and Exhale forcefully pushing a Golden-Silver One Spark down from Chakra-14 and in to the E-Cou-Sha Crystal in the Mahadra at Earth Core.

5: When the Golden-Silver One Spark enters the E-Cou-Sha Crystal in the Mahadra *at the Bottom of the Exhale* observe (or intend) that the Ad-Don-dra Flame around you, replicates, sending a replica of itself down into the E-Cou Sha Crystal (the original Ad-Don-dra Flame remains around your body). HOLD this Exhale until the Ad-Don-dra replica completes its descent.

6: When the Ad-Don-dra replica enters the E-Cou-Sha Crystal at the Mahadra, Inhale *upward rapidly* drawing a *Silver* Spark up to Chakra-14 and as you do this, observe that the E-Cou-Sha Crystal sends out a *144 Ray "Crystal Wave" Star-burst* into the Personal and Planetary Maharic Shield; each of the 144 Rays carrying the encryption of the manifestation programme that you put into the E-Cou-Sha Crystal.

7: Forcefully exhale the Silver Spark from Chakra-14 back down to the E-Cou-Sha Crystal (at Earth Core), and when the Silver Spark enters the E-Cou-Sha Crystal observe (or intend) that the E-Cou-Sha Crystal ascends upward back to its "home position" around the body and the original Ad-Don-dra Flame around you descends to the Mahadra, as usual Ad-Don-dra breathing resumes.

Your manifestation is now implanted and embedded in the Divine Blueprint Maharic Shield.

8: Perform 1 round of the Maharata Psonn of Lyra to activate the manifestation cycle

TECHNIQUE 1 – PHOENIX '05

Breathing Liquid Light – Krystallah Activation & Eiradon Awakening

PREPARATION: Completion of Kathara Level 2-3 Techniques and all Nadradon, Zendradon and Kethradon Awakening Techniques Series, at least one time in this life-time.

PURPOSE: To awaken the Eiradon "Liquid Core" of the Inner Rama Temple *Transcendental Passage.* Initiates opening of the *Eiron Stream Liquid Light of the Krystallah,* within the core of the Central Vertical Column ... in preparation for activation of the *Ra-Sha-La Line, atomic RA-Sha-La Grid* and the 6-fold Ra-Sha-La Vortex Set. "6-fold" activation of the Ra-Sha-La Complex enables the embodied consciousness to begin releasing the Environmental Tonal Phase-Lock on the Radial Body *Eiron Point* in the *Hypothalamus,* which has blocked natural mobility of consciousness in Earth species for over 250,000 years.

Re-activation of the Hypothalmic Eiron Point enables the etheric-atomic body to reawaken its long-dormant ability to generate the *transcendental element* called *Celestalline,* which is the *chemical trigger* that initiates organic DNA Strand Braiding for the natural spiritual mental and after a time, physical body transfiguration – and Crystal Body activation associated with Star gate travel and access to the *Eckasha – DON – the core Atma Seed* of the Ad-Don-dra 360 Centre Flame in the Eckasha-Aah Body

STEPS:

1 Call to mind the D-3 Mental Body Level of the Eiradon Cell cluster. The Eiradon cluster of Heliotalic Liquid Light cells is called the *Eirad* – the "First 8-Cells of Atomic First Creation". The Eirad *8-Cell Cluster* is composed of a surrounding Double Sphere of *Pale Emerald Blue-Green Metallic Kethra (atmic-etheric) Ketheric Liquid Light, within which,* are embedded 2 outer – upper *Pale Silver-Blue Metallic Zendra* spherical cells, 2 outer – lower *Pale Yellow Nadra* spherical cells, plus 1 *Pale Iridescent Violet Metallic Ethra* spherical cell at the centre. (All the cells are of equal size). Within the centre Ethra cell is a smaller, *Pale Metallic Silver-Gold Crystalline Light Atma* cell – called the *Cou – Sha – ef – Um – A,* the first unit of personal Atmic Manifest Creation.

Visualise or imagine the *Eirad* 8-Cell Cluster of the D-3 Mental Body, calling to mind its 2 *outer-upper Pale Silver-Blue Metallic Zendra Cells,* the spherical form of each cell extends out from each shoulder (like "Divine Shoulder-pads"), their point of origin lies deep within the body at the AzurA. You can conceptualise the diameter of each sphere as being about 18-24" in diameter

2 Breathe gently for a moment with your attention on the Zendra "Sphere Pair" then draw a focussed, slow, *Inhale upward* breath from Earth Core, using the breath to raise your Ethos Pillar and Ad-Don-dra 360 Flame, simultaneously, upward to the AzurA. *Pause* the inhale breath and the rise of the Pillar of Power/ Ad-Don-dra Flame at the AzurA and hold the breath for a moment.

3 Slowly *Exhale* from the AzurA, using the breath to push *2- Pale Violet-Blue Sparks* from the AzurA core into the 2 Zendra "shoulder" cells; *one* Spark emanating gently into *each* Zendra cell with the exhale. Empty your lungs completely at the bottom of the exhale and then *Pause.* During this pause, sense the presence of the 2 - Zendra cells and the *identity consciousness* that they *carry;* imagine that you *can feel* the clarity of their cognition, their peaceful intelligence, their Eternal Sentience ... and realise the Zendra cells hold a portion of your own identity that you long ago commissioned to the task of First Moment Creation (as you entered the Core Cave of Creation through the first Amoraea Flame)

4 *Inhale gently and slowly* as you imagine that you are *drawing* the Pale Silver-Blue-Metallic Heliotalic consciousness of *the part of you that IS Zendra* from the 2 – Zendra cells, into the AzurA and *upward* into the Pineal gland/ brain centre. *Pause* for a moment at the *Top of the Inhale* and visualise or intend that the 2 – Zendra Spheres at the shoulders are "shrinking" as their energy and consciousness travel upward forming a Pale-Silver-Blue Metallic *Liquid Light Cord* from the AzurA Centre to the Pineal gland.

5 When the 2 Zendra cells have "shrunk" to become two microscopic *radiation* specks within the shoulder region, *Exhale* gently, and visualise/ intend that as you Exhale the 2 Zendra cells again *Expand*, BUT *this time* they expand outward from the *Pineal* gland; each cell expands fully into each lobe of the Brain (overlapping a bit, like a Bi-Veca). Sense the *presence* of your Zendra *consciousness* as it permeates every atom of every Brain cell as you *Exhale* and the 2 Zendra Spheres expand back to their original size, but now filling the brain.

6 Breathe gently again from the AzurA and turn your attention to the 2 Pale Yellow Nadra Cells and notice that they have – "all on their own" – rotated up to the Shoulder positions first occupied by the Zendra cells. *Inhale & Exhale* gently from the AzurA, using the Exhale to (make and) push 2 tiny *Silver-Violet Heliotalic Sparks* into the Nadra cells, one Spark into each Nadra. *Pause* for a moment at the "bottom of the Exhale", lungs empty, and *sense the Quality of your Nadra identity* – notice that it has a very different "texture" and "feel" than the consciousness quality you earlier sensed as "Zendra"

7 *Inhale* gently from the AzurA, using the Inhale to draw the Nadra cell consciously into the AzurA centre-point, and then upward first to the Pineal, then diagonally downward to the *rear and lower back of the head* (Chakra 9B - Medulla Oblongata), where the spine and skull meet. Now, *Exhale* gently from the *AzurA upward to the Pineal then downward through Chakra 9B as the Exhale completes. Pause* for a moment and observe as the 2 Nadra cells *shrink at the shoulders* into 2 tiny *radiation sparks*, as they *simultaneously expand* in the rear region of the brain.

8 Return to natural breathing rhythm and observe as the 2 *Pale Silver-Blue* Zendra cells in the *upper brain*, and the 2 *Pale Yellow* Nadra cells in the *lower-rear brain* automatically initiate interaction. *Sense the rapid "digital" communication* that is now taking place between the *4 Eiradon* cells in the brain, and the *4 Radiation Sparks left behind at the shoulders.* After a few moments of gentle breathing, *Inhale at the AzurA*, and *Hold* the breath, lungs full, briefly then *use the Exhale to audibly recite* the following *Tonal Encryption* – the *EIRADANIS Gate Command*:

E – Cou – sha et – Um – A Shra – Ur – Ta Amoraea

[Pause. Lungs Empty. Inhale. Exhale Command. Twice More]

9 Breathe naturally after the final and 3rd Eiradanis Command, and *on each Exhale* audibly tone "Um" (sounding like Ooooooooommmmmmmm), fully extending the tone through the whole Exhale breath *while focussing upon the feeling of the Sound Vibration Expanding in the lung region.* Continue the "Um" toning for *at least a full 60"* (i e. approx' 12 < 24 long Exhales) to *build Co-resonant Atomic Charge* (using Key Modulation if desired to generate Base-tone and Over-tone *Harmonics* – "harmonies"). As you tone remember that *"D-2 (external) Sound" is D-1 Atomic Light/ radiation spectra*, and imagine that a *Pale Heliotalic "Rainbow Spectrum" of Atomic Light* spreads outward from the *AzurA and lungs* with each "Um" – Tone – Exhale *Focus* upon *Expanding this Tonal – Light* with *each Exhale* through *every* cell in your body and out into your E-Cou-sha Crystal Capsule and Crystal Body field.

The Voyager Series Technologies ™. Copyright A'sha & A'za Deane Elra MCG03/2005 ALL RIGHTS RESERVED

10 - 'Snap Point' At a certain point in this toning (that will differ between individuals) there will be a *"Snap Point"* in which you sense that the line of Tonal Vibration you have been building suddenly "snaps" and "disappears", and the Tone-sound seems to "grow hollow/ flat/ "dead" as if it has been *depleted of energy*. At this "Snap Point" *stop toning* and breathe normally/ slowly The "Snap Point" indicates *critical mass E-Cou-she Crystal Embedding of the Eiradanis Command* has occurred, and the *Eiradanis Gates* to the *Eirad Passage* (Inner Rama Temple) are about to open

11 As you stop toning and return to normal breathing focus your attention upon the region of the *AzurA and Lungs* Now call to mind the image of the personal "Core Cave of Creation" (shaped like the centre of the Tri-Veca contained in a sphere) centred within the AzurA. Move your awareness downward from "inside of your head", through your Central Vertical Column and into the AzurA and Core Cave Sphere Imagine or intend that, as a *small Spark of Heliotalic Consciousness* are now positioned within the Core-Cave Sphere at its centre-point, and that suddenly you can hear the sound of "rushing of waters" in the distance . a sound which grows gradually ever-louder, like a refreshing mountain stream rushing towards a massive waterfall *Holding this imagery or intention in mind, Inhale and Hold* the breath briefly while focussed in your Core-Cave of Creation. Then, *Exhale forcefully* and *Hold briefly* at the bottom of the Exhale.

12 *Feel yourself Being now* within the "Inner Earth" *space* of your Core-Cave, sense a "mini-me body replica" emerging within the centre of the Core-Cave. *Turn BOTH your "mini-me" and "physical me"* faces upward, as if looking up at an overhead Sun, but keep *"BOTH Sets of Eyes" Closed*. Imagine that your "2 selves" can hear the "Silent Roar" of the *Inner Living Light Stream* now descending, and visualise that suddenly a beautiful stream of *Incandescent Pale-Violet Heliotalic "Ultra-violet Liquid Metallic Light"* descends downward from above and directly enters Chakra 9A *(at top of forehead just below hairline) in BOTH your "physical" and "mini-me" bodies. Keep your face up-turned toward the Diamond Sun* as the Liquid light Stream flows in through Chakra 9A and down through BOTH your physical and "mini-me" bodies to Earth Core and the Mahadra Point. Continue breathing normally and imagine that the Living Liquid Light Stream, the *Eiron Flow*, known as the *"Mother Stream"*, continues flowing vertically downward through Chakra 9A of BOTH bodies and down to Earth Core.

13 Bring the heads of both bodies into natural face forward position now and sense the *Mother Stream aligning through Chakra-7/Crown*. Breathe naturally and observe a sense of calm and peace growing within your Core-Cave, *expanding through the lungs and chest* then *upward into the throat, face, head and brain*. Imagine now that the *2 Pale Silver-Blue Zendra cells* in the Upper Brain and the *2 Pale Yellow Nadra cells* in the Lower-Rear Brain *gently merge together* forming a beautiful *Pale Silver-Violet Spherical Halo Orb around and through the entire head* (mini-me and you) – this ORB represents your *Ethra Cell Consciousness, your First Etheric Expression* as individuated Being; sense the Ethra Cell Orb in and around your head(s) as it gently draws in *"fuzzy gossamer Crystalline Eiron-Spark Units* from the Mother Stream Liquid Light Current as the Mother Stream moves through you.

[The Eiron-Spark Etheric Crystals, which resemble snow flakes, but are of lesser matter density are called *Hydro-gelazic (and gelatine-like) Crystals*, the Living Liquid Light Mother Stream is composed of countless numbers of Hydro-gelazic crystal sparks which, when combined with the *Atmic Thermo-gelazic* crystal sparks of the *Atma Father Stream* form the *Helio-gelazic Spark-unit Spectrum* of which natural atoms and "physical matter" are composed]

Take a few gentle *Inhale/ Exhale* breaths *using each Inhale* to pull more "H-g Spark units" into the Ethra cell from the Mother Stream; each Inhale will expedite the flow of "H-g Sparks" into the Ethra cell. *On each Exhale* imagine an increasing quantum of H-g Sparks expanding into the Ethra cell Sphere while the Ethra remains in and around the head After 3-6 Inhale-Exhale breaths the Ethra cell will reach capacity and automatically stop drawing H-g Sparks from the Mother Stream.

The Voyager Series Technologies ™ Copyright A'isha & A'za Deane Eira BCC03/2006 ALL RIGHTS RESERVED

14 Breathe naturally as the Ethra cell reaches its "full-point", then release a *slow Exhale* breath to Earth core, to empty the lungs, and then *draw upward a forceful Inhale* from Earth Core to the Pineal gland. *Hold* this Inhale for a moment and observe that the full Ethra cell *now attaches from within itself to the Inhale-Breath-Current-Line in the Central Vertical Current at the Pineal*.

15 *Exhale slowly*, to the *AzurA* using the Exhale to *draw the entire Pale Silver-Violet Ethra Cell Sphere downward with the Exhale* until the Ethra cell *relocates to the AzurA and Core-Cave of Creation*. As the Ethra Cell assumes this position observe that the Core Cave fills with the beautiful *Pale Silver-Violet Ethra Cell Hydro-gelazic Liquid Light*".

The Eiradanis Gates of your Core-Cave of Creation are now open, and your Mother Stream Living Light Eiron Flow is now open within the centre line of your Central Vertical Column and Pillar of Power, initiating the activation cycle of your embodied Krystallah and the Gate-way to the Atma and the Transcendental Passage.

You are now prepared for activation and restoration of the *6-Fold "Ra-Sha-La Complex" Vortex System*.

Introduction to "SE – da" Tonal Geometries

(Precursor to Phoenix '05 Tech 2: "Rain of Rama" Psonn)

The "Rain of Rama" Psonn, also known as the "Psonn of UR – tha", is one of a Set of song-sequences that are collectively known as "SE – da's" SE-da's are specific sequences of Psonns that each contains numerous series of Shield-Tone-Combinations that create simultaneous activation of multi-level Shield Codes, from the Veca-Density to the Eckasha-A levels of multi-dimensional Etheric-body anatomy. SE-da's are, in effect, Tonal Shield Codes, or TONAL GEOMETRIES, that correspond to intricate geometrical apparth arrangements within the personal and environmental shields.

The tone-combinations within each Psonn of a SE-da sequence release numerous layers of complex, geometrical-symbol-codes within the Shields, creating reciprocal activation of these Symbol-Code-layers within corresponding aspects of the multi-dimensional Etheric-body anatomy A singular SE-da sequence most often contains a minimum of 10,000 or more geometrical-symbol-codes, (some of which you may receive inner-visual representation of during or after using a SE-da or one of its Psonns): SE-da's are thus concentrated symbol-codes expressed in tonal form. A complete SE-da is a sequence of Tonal Geometry Psonns that together create rapid-fire-activation of Shield components that correspond to the Monad and related core anatomy.

The "Rain of Rama" / "Psonn of UR-tha" is an introductory Monadic Activation Tonal-Geometry that corresponds to the aspect of multi-dimensional anatomy known as the "UR-tha Passage" which is the portion of the Monadic Core Central Vertical Current that runs from D-2.5 to D-3.5 within the "Pillar of Power" of multi-dimensional Etheric-Body anatomy The "Rain of Rama" Psonn is part of a larger SE-da Psonn Sequence that corresponds to the *Monadic Passage* within the core of the Central Vertical Column, which runs from Veca-Density 0.5 to the Eckasha-A Body and Ad-Don-dra-360 Eckasha-Monad Centre Flame in the Eckasha-A Base Shield.

Use of the "Rain of Rama" song introduces the initial Tonal-Geometries required to initiate activation of the D-2.5 – D-3.5 personal Etheric-Body-Core, in preparation for future use of the SE-da Sequence by which the personal and environmental Monadic passage is progressively opened. When using SE-da Sequences and the Tonal-Geometry-Psonns contained within them, the *contemporary English translation* is first used to activate within the Shields the portions of the Psonns' Tonal-Geometry-Coding that correspond to the *present-time-space-coordinates* of Earth within its contemporary time-cycle placement; the English translation *encrypts the Base Pulse Rhythm* of Earths' present *Ascending Time-Wave* into the Monadic Core of the Shields, thus allowing progressive opening of the Monadic Passage to initiate within Earths' current Space-Time Vector.

Further activation of the Monadic Passage will continue as the Eleyani and AdonA provide advanced SE-da Technologies in conjunction with future dispensations. Future Se-da Technologies will include the Anuhazi and Harmonic Accompanied Layers of the "Rain of Rama Song" and the other Psonns contained within the Monadic Passage SE-da Sequence.

The "Rain of Rama" Psonn

Verse 1

It isn't easy in a world so filled with pain

to go on smiling ..

tears turn into rain and they are falling,

they keep falling; ..

and it's hard when you see the suffering of your fellows,

to turn your head away, and feel the sunshine, .

to see the brand new day

that waits before us ...

and all it offers.

Chorus (1)

With the promise of a** New Day, **(** for Chorus 2, change 'a' to 'the')**

Dry the tears upon your cheek,

Turn toward the laughter, let it fill you,

You won't be beat.

Take the New Day, make a new start,

Find the joy and make it yours

Leaving one less tear to cry in the world.

Verse 2

Though we all have our share of doubt and fear,

There lies within us the courage to go on,

Standing proud and strong .

We see the coming Dawn and feel the freedom

That it offers

TECHNIQUES 3 & 4 – PHOENIX '05

The Hon'-a-til-E-'a Run, Kathara Level - 4 Session Part One

– "Restoration of the Ra – Sha – La" –

Compound Technique including:
Tech' 3 "E-Cou-Sha Manifesting & Introduction to the Art of Encryption" – and –
Tech' 4 "The 6-Fold Voyager Code Induction – GruAL Chakra Induction of the Voyager Codes and Activation Keys(via the Eiron Flow Mother-Stream Hydro-gelazic Current)"

PREPARATION: 1) Rapid Access Lotus Touch and Star Burst Breath inc. "Mother Stream Command";
2) One-time run of Tech' 3, (as follows here) to create the Ra-Sha-La (personal) Vehicle used in K-4 Session Applications

[Note. 1) above can be run *up to 24'* before initiating the K-4 Tech' Hon'-a-til-E-'a Run Session. Tech' 3 can be used any time prior to the first K-4 Session and does not need to be used with any other K-4 Session thereafter].

PURPOSE: To re-set natural Kristiac Ra-Sha-La Encryption within the Crystal Body Til-E-'a-Sphere and Ra-Sha-La Gnd via GruAL Chakra induction to restore natural polarity balances and Chakra Axiom Template Encryptions to allow for restoration and activation of the LotA Body 6-Fold Ra-Sha-La Vortex (Chakra) System. Restoration of the Ra-Sha-La Vortex system initiates automatic run of the *Hon'-a-til-E-'a Tri-Veca Fold State* within the Multi-dimensional aspects of the Monad, Radon Cell, Seed Atom and Til-E-'a-Sphere, allowing the "Spheres within Spheres" throughout the Crystal Body Anatomy to *break-loose* from the *Sextant Mis-alignment Phase-Lock* that causes the "Checker-board Mutation" of the DNA Template.

Restoration of the Ra-Sha-La Gnd and Vortex System will release the Etheric, Atomic and Ketheric body Templates from their present unnatural Sextant Sho-Na distortion field grid-lock, allowing the entire *Radon Cell* Anatomy (from the macrocosmic Ecka-Veca Body to the microscopic sub-atomic Radon Cell anatomy) to re-balance its polarity orientation, and thus shift back into its organic alignment with its Eiradon Cell counterpart system, to progressively restore the natural function of the Til-E-'a-Sphere, Axiom Template, Ra-Sha-La Complex and Chakra System, re-awakening the long-dormant Atomic-Body's ability for elemental Celestalline production to *return the potential* (and thus the possibility) for DNA Strand Braiding through which natural Transfiguration, Ascension and Star gate Passage can, eventually, be Actualised.

The highly-encrypted "Voyage Codes" used in the technique carry all necessary coding for "Restoration of the Ra-Sha-La Complex", the *Voyager "Trinity Time-Wave Codes"* require induction of the *"Activation Keys" and will only operate* within biology's that have completed the Nadradon – Zendradon – Kethradon and *Eiradon* Awakenings, through which the required Heliotalic Frequencies are activated within the Crystal Body

Once an individual has successfully engaged personal Ra-Sha-La restoration, they become *capable of transmitting* a "Sub-harmonic Set" of the Crystal Body Activation Sequence to others; even to those who have done no prior Kristiac Shield activation work. The "Ra-Sha-La Sub-harmonic Set" transmission will generate sufficient Crystal Body activation in a "client" to establish a successful link to the *Yanas Shield Arc-7 Rama Temple Hub Polarian Host Shield*.

Once completed by a Facilitator (*and amplified sufficiently for transmission capacity via the "3-Phase Voyager Code Journey" Techniques – Tech' 7 herewith)* the following Technique can be run for a "client" session *provided that* the "client" has previously undertaken Kathara – 1, plus Kathara – 2/ 3 sessions.

3b STEPS (Birthing the Ra-Sha-LA):

1 Close your eyes and visualize/ intend a small "mini-me" image of yourself within your "mind's eye". Intend that this "mini-me" is created by you with a very specific intention and purpose This "mini-me" will become a *"dedicated persona-self" – a symbol-self living encryption*, that you will dedicate to the task of *Kristrac healing facilitation – within yourself, your body, your life aspects*, and within these aspects of *"all life everywhere*.

This dedicated "mini-me – Inner Healer Self" persona will be called your *Ra-Sha-LA*, which will imbue this self with the necessary encryptions to carry, and run, the *Helio-galactic First-Cause Healing Currents* of the *Eckasha-Aah Amoraea Monad*. This Ra-Sha-LA self will be your "constant healing companion" that you may call on at any time to assist you in any healing facilitation. Once "born", *your Ra-Sha-LA self* will focus a portion of your *God-Seed Yanas Consciousness* into the domains of the Density world's within the tightly focussed encryption of your current-life identity. Your Ra-Sha-LA will be the living vehicle of consciousness within which you can consciously travel to *facilitate Remote Healing* applications for others at a distance .. and will later become *the first vehicle* through which you can journey to pass through Star gates, to seed "encryption tracers" of your physical anatomy into *Rama Passage Star gate Shields*, which will enable *potential* biological passage at some time in the future.

2 Breathe gently as you continue to visualise, imagine or intend the birth of your "mini-me" Ra-Sha-LA, first within your "minds eye" on the inside of your forehead As *all things DO* your Ra-Sha-LA will begin its life as a *thought-form*, carrying within itself the *full encryption vibrational signature of its creator* (YOU!) as contained within the *"Moment Point"* in which the thought-form is released from conscious focus of attention .. So, before you "give birth" take a moment to really "clear your mind", slow your breathing, and think of happy memories, focussing your emotional body on pleasant, nurturing, free, uplifting sensations … imbuing your "mini-me" with the same, at the same time

3 As you relax into positive focus pay attention to any "resistance", any "heavy", "agitated", "stress-related", "negative" or "self-defeating" thoughts and feelings that may be floating around, or tucked away in the corners of your mental, emotional, physical or astral bodies. As and when you notice such a "reverse encryption" energy field within you *Inhale slowly* from your Core-Cave of Creation *at the AzurA* and *use the Inhale* to *draw a 'Containment Column"* of *Pale Silver-Violet Mother Stream Eiron Flow* current, from the centre of the Core-Cave and up to the Pineal gland. *Hold this breath*...

4 Now, slowly, and with *assertive, focused, intent* use the *Exhale* to *direct an Eiron Cord of Liquid Light* from the Mother Stream Containment Column at the Pineal to the area of your mind, body or bio-field in which you sense undesirable vibrations. . *Fully release this Exhale breath* – and – *Eiron Cord* at the point at which you feel the Eiron Cord is closest to the "target area", while *"thinking loudly"* the "De-manifestation of the Un-Whole-E" *Command*:

"All Things of Lesser Form Shall Pass!
The Krist Eternal Here Endures"

5 Observe that the Eiron Cord now locates the precise point of the undesired vibration, attaches its "free end" to the vibration and, in a momentary flash the undesired vibration "pops" in a *starburst of Pale Silver-Violet Mother Stream Light*. Immediately withdraw your attention from the area and, *using your own words* …"ask the Eiron Cord" to: *"seek and transmute"* any areas of *similar, undesirable vibration within you* .. Then *immediately withdraw your attention* from the Eiron Cord and the task of "miasmic detection".

The Voyager Series Technologies ™ Copyright A'sha & A'za Deane Ebs MCD09/2005 ALL RIGHTS RESERVED

6 Now, *Inhale* from the Core-Cave at the AzurA to Chakra-14, 36" above your head and then *Exhale slowly downward* to Earth Core while mentally giving yourself the Intention/ Command

"I AM Free Now. All Is In Divine Right Order.
I AM Now AS Eternal Grace"

7 Next, turn your attention back to the birthing of your "mini-me Inner Kristiac healer-persona" *Ra-Sha-LA Vessel.* Visualise/ intend that an image of yourself as the *"now impeccable"* – mini-me – Ra-Sha-LA on the inside of your forehead, then *Inhale using the breath* to draw the Ra-Sha-LA – self into the Mother Stream Eiron Flow *Containment Column* at the *Pineal. Hold* the Inhale for a moment .. as the Mother Stream Current picks up the vibrational signature encryption of the Ra-Sha-LA.

8 *Exhale gently*, using the breath to push the Ra-Sha-LA – self *downward through the Containment Column* and into the Core-Cave of Creation. Complete the Exhale *and Pause the Breath* with your attention focused upon the Ra-Sha-LA – self within the *centre* of the Core-Cave of Creation at the AzurA.

9 Continue to keep your attention focused on your Ra-Sha-LA – self in the Core-Cave and, at the same time, call to mind your E-Cou-Sha Capsule Memory-Crystal which surrounds your physical body. *Inhale* using the breath to draw a *replicate micro- image* of your *E-Cou-Sha Crystal* into the Core-Cave, placing it round the image of your Ra-Sha-LA-self

Exhale from within the AzurA of your Ra-Sha-LA-self using the breath to *expand* the E-Cou-Sha Crystal replica, outward, around the mini-me Ra-Sha-LA-self from the *Creation-Point* AzurA of the Ra-Sha-LA Thought-Form.

(Note: this is how to *embed any* thought-form directly into your T'il-E-'a-sphere and Axiom-DNA Template via the E-Cou-Sha Memory Crystal).

10 Keeping your attention on your Ra-Sha-LA-self and its now expanded E-Cou-Sha Crystal ... return to natural breathing and *observe* what next takes place within the Core-Cave of Creation ...

11 As you observe, notice that as soon as the E-Cou-Sha Crystal expands to fully embrace the Ra-Sha-LA mini-me-self that the "Mother Stream" Eiron Flow (which perpetually runs through your Central vertical Column from the top, down) seems to suddenly "notice" the encrypted Ra-Sha-LA Thought-Form. At this recognition, the "Mother-Stream" releases a gently undulating "cloud", or field, of Pale Silver-Violet Eiron-unit – Hydro-gelazic Sparks .. this "cloud" of *Pale-Silver-Violet Liquid Crystal Gel* completely surrounds the Ra-Sha-LA-self and its E-Cou-Sha Crystal.

Observe as the H-g Spark units forming the cloud rapidly *accrete* ... drawing *into and onto* the Ra-Sha-LA-self Thought-Form image, *completely covering and filling* the image with beautiful, Pale-Silver-Violet-White H-g Spark "Etheric Snowflakes" ...

The Thought-Form Ra-Sha-LA-self is now – "filled-out" – in Hydro-gelazic Liquid Crystal gel-form. This stage of Manifest Creation is known as the *"Ethra Cycle"* and the "etheric snowflake replica", covering and filling the Thought-Form, is called: the *"Ethra Sheath"*.

The Voyager Series Technologies ™. Copyright A'isha & A'za Deane Elon MC003/2005 ALL RIGHTS RESERVED

12 Once the "Ethra Sheath" of Pale-Silver-Violet-White "etheric snow" has "filled out" your mini-me Ra-Sha-LA Thought-Form within the Core Cave of Creation *Inhale* into the Core Cave and *Hold* the breath for a few moments then, *Exhale gently, using the breath* to *gently push* the Ethra Sheathed – Ra-Sha-LA-self Thought-Form *downward* into the Mahadra Point in Earth Core.
Hold the Exhale for a moment, lungs empty, as your Ra-Sha-LA-self Thought-Form releases from your personal "Mother Stream" and enters the *Planetary Ethra Cell* deep inside Earth Core … beginning its co-creative journey into Manifest Expression…

Immediately withdraw your attention from the Ra-Sha-LA-self Thought-Form – and – *know you HAVE created it – literally* and thank the "Mother Stream" for assisting you in your conscious manifestation …

When you feel ready, return to natural breathing and open your eyes. Your Ra-Sha-LA Thought-Form will be available for you to call upon for *healing and manifesting* assistance within 45' of earth time from the point at which you disengage your attention…

Please take a short break now … and DO NOT think about your creation. Simply allow the Eternal Life Flow "do its work" and TRUST in your process …!

TECHNIQUE 4 – PHOENIX '05
The 6-Fold Voyager Codes Induction – Ra-Sha-La Restoration
Kathara Level – 4, Hon'-a-til-E-'a Run Session Part 'A'

4a Entering the 'Ah-Seu-Ra-Shan' State – Steps 1-12
(Can be run < 3hours prior to client Session)

4a STEPS:

1 Call to mind your "mini-me inner Kristiac healer persona" Ra-Sha-LA vessel-self from Technique-3. Visualise or intend that the Ra-Sha-LA-self appears now within the Core-Cave of Creation at the AzurA.

Inhale, slowly and deeply drawing your Ethos Pillar and Ad-Don-dra Flame upward into the Core-Cave *while phasing* your Ra-Na-TA Density Lotus Arc Set into the upward, vertical, position. *Hold* the Inhale briefly with your attention focused on the Ra-Sha-LA-self within the Core-Cave.

2 *Slowly and gently Exhale* from the Core-Cave at the AzurA, using the breath to *gently push* your Ra-Sha-LA "mini-self" downward – within the Pale-Silver-Violet "Mother Stream" Eiron Flow Current – to the Ra centre at Chakra-3. *Complete* the Exhale as you position the Ra-Sha-LA-self in the Ra Flame at the Ra Centre – and – *Hold* the breath, lungs empty …

3 *Inhale* from the Ra Centre using the breath to *draw a 'pool'* of "Mother Stream Eiron Flow Current from the Central Vertical Current, *collecting a small pool* of the Liquid Crystal Light Frequencies *within the Ra Flame* (at the Ra Centre) … just as if you were "catching a pot full of water from a continually flowing waterfall". *Hold* the Inhale briefly at the Ra Centre and imagine that your Ra-Sha-LA-self submerges into the Pale-Silver-Violet Mother Stream "pool" within the Ra Flame.

4 *Exhale slowly and outward* from the Ra centre, *horizontally forward in a straight line*, using the breath to gently push the Pale-Silver-Violet Mother Stream "pool" – with the Ra-Sha-LA-self inside – to a position about 2' directly in front of your physical body. *As* the Exhale and Mother Stream "pool" expands forward, intend or visualise that a Pale-Silver-Violet Mother Stream *Eiron Cord* emerges and extends from behind the Mother Stream "pool" *as the 'pool' moves away from your body* . As the Mother Stream "pool" and Ra-Sha-LA-self reach their destination 2' in front of you, observe as the "near end" of the Eiron Cord extends into your Ra Centre and Ra Flame … connecting itself into the "waterfall" of the Mother Stream Main-line Current running downward in your Central Vertical Current..

5 *Hold*, lungs empty for a moment, as the Eiron Cord connects to the Mother Stream "main-line" within you.

(The Eiron Cord is the "anchor line" through which your Ra-Sha-LA vehicle mini-self is enabled to express mobility and motion, at your own request, outside of your physical body. The Ra-Sha-LA-self will serve as a Kristiac vehicle for bi-location in *both* Remote Healing and 'Voyaging Projection' journeys.)

6 Now, move your conscious attention to the centre of the Core-Cave at the AzurA and *Inhale*, using the breath to draw a Pale-Silver Maharic Current upward from Earth Core to Chakra-14, while consciously drawing your Ethos Pillar, Ad-Don-dra Flame and Ra-Na-TA Density Arc Set upward. *Hold* the breath at Chakra-14 …

The Voyager Series Technologies ™ Copyright A'sha & A'za Deane Elrs MCC03/2006 ALL RIGHTS RESERVED

7 Next, we'll initiate a *"3-Pause Exhale breath"* from Chakra-14. . On the first 1/3 *Exhale*, use a *short-sharp Exhale* from Chakra-14 to the *AzurA* and "snap" the uplifted Top petals of your Ra-Na-TA Lotus Arc Set *downward to a 90deg. Horizontal position* so that the 2 top Petals, Left and Right, "snap" to "sticking straight out to the sides". *Pause* the Exhale at the AzurA while holding the Top Arcs in this horizontal position...

8 From the AzurA, release a second 1/3 short-sharp *Exhale* breath directed downward to the E-Umbi point below the Navel. As this breath releases, observe as your *Bottom 2*, Ra-Na-TA Arc Petals, quickly "snap" upward to the *Horizontal* position, meeting and merging with the Top 2 Arc Petals ... observe that as the Arc Petals Interface they Spark, forming one Pale Aquamarine Ad-Don-dra 360-Spark at the end tips of each of the Petals *Pause* this 2/3 Exhale breath at the E-Umbi This merged Arc Set now extends horizontally outward from the AzurA, *running through your Horizontal "Rod Column"* and *notice that the 2 Arc Sparks* at the Petal Tips move through your Rod Column and into the Core-Cave at the AzurA.

9 Complete the 3rd 1/3 of the *Exhale* by using a short-sharp Exhale from the E-Umbi down to the Mahadra at Earth Core .. *Pause* at the bottom of this breath *in the Mahadra* ... then, take a *strong, rapid Inhale* all the way up to Chakra-14, 36" above your head, filling your lungs completely. Hold this breath at Chakra-14, and observe that the 2 – 360 Ad-Don-dra Sparks in the Core-Cave at the AzurA have descended automatically to the Ra centre at Chakra-3, and the Ra-Na-TA Arc Petals have returned to their natural, Inhale-Vertical positions on this rapid Inhale.

10 *Exhale gently* from Chakra-14 down to the Ra centre .. then resume relaxed breathing for a moment or two while focussing your attention on the 2 Ad-Don-dra 360 Sparks in the Ra centre.. *Observe* that the 2 Sparks have automatically merged into one *"720 Life-Spark"* through their passage into the Ra Flame.

11 *Inhale gently* at the Ra centre .. *Pause* the breath, lungs full, for a moment . then, *push a rapid, single, horizontal "snap" Exhale breath DIRECTLY from the Ra centre – into and through – the Eiron Cord using* the breath to "DELIVER" the Ad-Don-dra 720 Spark of Life to the Ra-Sha-LA "mini-me" *within* the Mother Stream "pool" at the farthest end of the Eiron Cord 2' out in front of your physical body.

12 Resume gentle breathing from the Ra centre, and observe as your Ra-Sha-LA vehicle "mini-me – 2nd self" comes to *"Independent 3-Dimensional Etheric Life"*. When the "720 – Spark of Life" completes its journey through the Eiron Cord, at the bottom of the rapid exhale just completed, the Ad-Don-dra – 720-Spark and the Mother Stream Eiron Flow "pool" interact, causing the Mother Stream "pool" to *Starburst*, becoming a 6 – 12 foot tall vertical standing wave Se'ur Pillar that anchors into the earth about 2' in front of you.

Within this Pale Silver Violet Pillar your "mini-self" Ra-Sha-LA vehicle has now *expanded and "come-to-life"* as a *"full size Etheric replica of YOU"* ... a vehicle *OF* your consciousness, into which you can project a portion of your conscious awareness to engage the *"State of Ah – Seu* - Re – Shan"* – more commonly referred to as *Etheric Bi-location.* [* "Seu" = Seeyou]

Once the 'Ah-Seu-Ra-Shan' state of consciousness expansion has been initially activated, through the use of the 12 preceding steps (K-4, T-4), the Ra-Sha-LA Vehicle *"Etheric Body Double"* – self can be called into *rapid activation* for a variety of purposes, simply by: **A** Running K-4, Tech' 3a Steps 1-7 (Page 7 herein), followed *immediately* by: **B** the Etheric Bi-Location Command *"Ah – Seu – Ra – Shan Hon' – A – et – te' – LeU"* [=Loo]

As skill develops within the "Ah-Seu-Ra-Shan" state and Ra-Sha-LA vehicle, with practice/ over time, initiation of this state can be *instantly created* through wordless direct-cognition thought intention.

Postscript to Reawakening the Ra-Sha-LA & Entering the Ah-Seu-Ra-Shan

Once your Ra-Sha-LA vehicle has entered the Ah-Seu-Ra-Shan state of Etheric manifestation, you can then engage the Hon'-a-til-E-'a Run Kathara-4 Session for *Restoration of the Ra-Sha-La Grid and Vortex Complex* – OR – initiate other healing, projection or manifestation practices that correspond to the 'Ah-Seu-Ra-Shan' State. When first re-awakening the long-dormant Ra-Sha-LA vehicle and entering the Ah-Seu-Ra-Shan, the connection between your physically embodied awareness and the portion of your consciousness that is the Etheric Ra-Sha-LA may seem quite "vague" or fuzzy, or hardly felt at all, since it takes time and practice for the DNA Template to *hold* the Ah-Seu-Ra-Shan *Frequency Bridge* fully open.

At first you may have no inner "audio or visual" connection with your Ra-Sha-LA, but your higher dimensional Kristiac aspects of consciousness *will* have as direct a connection to your Ah-Seu-Ra-Shan as is held within you – so you may find at times that your Kristiac identity (from the Ecka) will employ your Ra-Sha-LA vehicle to *"contact you"*, brining you new information, insights and suggestions to assist you in your personal journey of awakening. The Ra-Sha-LA vehicle *"belongs to you"*, in that, though it has its *own innate ability* to think, experience and process information, just as you do, it has no separate personal will other than to *serve as an extension of your own personal consciousness.* Its "free-will" is the same "free-will" as *your own conscious will*. There is NO potential for "conflict" with the self that is your Ra-Sha-LA vehicle unless you request it to explore "counter-perspectives" with you, to assist you in resolving conflicts of interest you may find within yourself.

As you engage frequent "consciousness play" with your Ra-Sha-LA vehicle, you will progressively develop a "merging of awareness" between the 2 focuses of your consciousness, eventually learning to experience two entirely different space-time locations simultaneously. Each will contain *all sensual properties* associated with "physical being", and each focus of your identity achieving free and conscious mobility within the space-time location of *your* choosing.

You can "send yourself on Trans-time missions", explore your multi-dimensional incarnate history, engage healing and manifestation activities and, eventually explore Transfiguration of the Ra-Sha-LA vehicle form to ethereally explore the experience of "Being As" anything or anyone you choose, as long as your *intentions* and *actions* are in Kristiac Divine Right Order and DO NOT attempt activities which engage prospective spiritual violation of others.

For now, we will employ the Ra-Sha-LA vehicle as an extension of 'self', through which accelerated Etheric and Crystal Body Healing activities can be developed.

TECHNIQUE 4 – PHOENIX '05
The 6-Fold Voyager Codes Induction – Ra-Sha-La Restoration Kathara Level – 4, Hon'-a-til-E-'a Run Session Part 'A'

4b: Voyager "Trinity-Time-Wave" Ra-Sha-La Restoration Code Induction The 6-Step Hon'-a-til-E-'a Run (Personal & Client) Session

(Can be done < 3 hours before Client arrives)

PREPARATION:
- Activate the Ra-Sha-LA vehicle and enter the Ah-Seu-Ra-Shan State, to begin.
- Position or mount the "3-Code Sets (guidance and sequencing) Inductions Chart" in an easily visible location ... or, simply ...
- Prepare your Colour Code Sets of actual Codes in correct sequence:

TOOLS:

Code Set 1: The *Le-eTOR-A Magnetic Code* @ Ch-5, Chakra code 5, 'Blue Lotus' code @ Ch-5, Chakra codes 1, 3 & 7

Code Set 2: The *LE-eTOR-A Electrical & Magnetic Code* @ Ch-8B, Chakra code 8 (@8A), Khemaohatea code @ Ch-8B. Chakra codes 2, 4 & 6

Code Set 3: The *Le-AdOR-A-UN-Esta-YUn-Ha-drA Code* @ Ch-14 (for Ch-11), Chakra code-11(@-14), Ad-Don-draea code @ Chakra-14, Chakra code's 9, 10 & 12

STEPS SUMMARY:

1 **Each step of the Code induction cycle begins** with you manifesting, focusing or 'bringing' your Ra-Sha-LA vehicle-self in *"Full Size"* projection to a position standing next to, but outside of, your physical body. You then move your Ra-Sha-LA-self, via thought intention, to the physical image of the each code in each Code Set in sequence ... as will follow ... Following the (lettered) sequence for each Code Set, you will direct your Ra-Sha-LA-self into the centre of each Code in the sequence, *intending* that your Ra-Sha-LA momentarily transfigures into a Spark of Light which then "merges with" the particular "focus code" in the sequence. In each moment of merging, the Ra-Sha-LA-self "becomes the code" and fully absorbs the etheric-atomic encryption of each code as a result. As you perform each individual "merging and absorption" Code cycle, mentally, you will also have your physical *Right Hand* over the corresponding Code· Chakra position (as indicated on the Inductions Chart) breathing Pale-Silver-Violet Mother Stream/ Mother Ray Frequency into the Chakra under your right palm. After projecting the Ra-Sha-LA-self as a spark into the centre of each Code you will *withdraw it* from each Code *as a Spark of Light* and return it to its "full size replica of your physical self" so that you may integrate your atomic encryption with each code encryption.

Steps 2 & 3 Once each Code Set sequence is encrypted, the Ra-Sha-LA-self is utilised once again to anchor the Full Code Set Encryption into the GruAL Chakra corresponding to each Code Set, using a "descending 3-Pause" breath The GruAL Chakra will then distribute appropriate aspects of the encryption to the other Chakras in the Code Set.

Step 4 Completes the encryption process utilising an "ascending 3-Pause" breath

Step 5 This Step comprises the repetition of Steps 1 thru 4 above for Code Sets 2 and 3.

Step 6 Closing the encryption and Activating the Ra-Sha-La Grid and Vortex system (for either Self or Client)

❖ **Step 2** Now, mentally intend, *using pure FELT intention rather than "worded thought instruction"* that your Ra Sha-LA-self, fully loaded with Code Set 1 encryptions, stands before you (NOTE: in a Client session position Ra-Sha-LA facing you on opposite side of Client).

❖ Next, and again using pure-felt-intention, direct the Ra-Sha-LA-self to place its Right Hand over the *GruAL Chakra # 5*, then place your *Left magnetic* hand over the back of your Ra-Sha-LA's *electrical Right hand*, then place your (+ve) Right hand over the back of your (-ve) Left hand to form an *Etheric-Atomic Circuit* over the GruAL Chakra for this particular Code Set.

5a – For Oneself: Position your Ra-Sha-LA-self, "full size", *down in the floor beneath your feet, with its Right Hand positioned 1" below your feet* in line with the Central Vertical Column. Place your hands at Chakra-7, on top of your head, with Left palm *ON* your head and your Right palm *over* the back of your Left hand.

With your Ra-Sha-LA-self "under your feet" and your hands in position over your Crown Chakra engage a *2-Point Pale Silver-Violet Mother Current Inhale* drawing Current *down from your* hands .. and *up from your Ra-Sha-LA hands beneath from your feet.* .. pulling the Current into your Core-Cave of Creation at the centre of your AzurA.

As the 2 Mother Stream Currents meet, give the Command: *"Starburst NOW"*. Full Harmonic Activation will be engaged if the DNA capable.

5b – For Client Session: Position the Ra-Sha-LA-self, "full size", standing directly beyond the (reclining) clients' feet, facing you, with its Right hand 1" below the clients feet in line with the central vertical column. You stand at the clients head with your hands in the "Self" position (LH on Crown RH covering LH).

Once in position, you and your Ra-Sha-LA-self *Inhale simultaneously from your respective AzurA Cave of Creation Centre. HOLD* the Inhale to build charge, and then both you and your Ra-Sha-LA-self *simultaneously Exhale a Forceful, single, No-Pause breath* . *Each* projecting a single line of Pale Silver-Violet Mother Stream Current into the clients body *YOU project* the Mother-Line *downward from Chakra-7* to the clients AzurA Core-Cave, while *your Ra-Sha-LA-self projects the Mother Stream upward*, from the hands 1" below the clients feet centre-point position, and into Base Chakra-1.

At the bottom of the Exhale, as the *2 Mother Stream Currents meet* in the clients' AzurA Core-Cave, *mentally* give the Command: *"Starburst NOW"* This will cause the clients E-Cou-Sha Crystal Capsule to descend around the clients' body and will reset, and trigger, activation of the Monadic Flame corresponding to the Planetary Reuche Pillar Starburst Cycle.

The clients' Core-Cave of Creation will now activate on Sub-harmonic Mother Stream Current, allowing for a Polarian Host link, and setting in motion an automatic restoration cycle of the Ra-Sha-La Grid and Vortex System as well as the entire Chakra System.

Both you and your Ra-Sha-LA-self simply withdraw your hands to complete the Session

[Please Note: the most powerful form of Ra-Sha-LA Restoration Code Induction would be achieved by inducing each Code in each set through EVERY Chakra as distinct from only the GruAL and related Chakra's as specified above, one time. This is a personal option.]

TECHNIQUE 5, 6 & 7 – PHOENIX '05
The Rapid Access "Blue Lotus" Monadic Passage Voyage
Straight Vertical Ascent (T-5)

The Khem-a-lo-ha-tea Voyage
Journey to the Ad-Don-dra – Ecka to Eckasha Base Shield Transit (T-6)

The Ad-Don-draea Voyage
Journey to the Ad-Don-dra – 360 Rama Passage Doorway (T-7)

(Collectively Known As:" The Eckasha-A Ascent")

PREPARATION: Technique 3a herewith (Full "Dial Up" inc. Mother Stream Command).
Mount or support the Voyager Passage Code in a comfortable, visual, position.

NOTE: Personal breathing rates control the rising-falling momentum of the Ethos Pillar and Arc Phasing, which controls the movement of the Radon Cells and Monadic Flames, which in turn controls the speed of Radon/ Eiradon/ Monadic Flame Phasing, which controls Monadic *Pulse Rate*, which controls the speed and frequency of Time-Wave Pulses released from the Monad, which controls Rate of Shield Spin and Partiki Phasing, which controls Base Pulse Rhythms, which controls Personal Axiom Template and embodied Time-Wave.

TOOLS: You will need either the full colour *unified* Blue Lotus-Khemalohatea-Ad-Don-dra Passage Code, *The Eckasha-A Ascent Code*, or copies of the individual Voyager Passage Codes. Working with the *Eckasha-A Ascent Code* is recommended. (A Black and white Code w/ focal positions guide is supplied with this Technique).

STEPS:

1 Begin by focussing your eyes on the small Eckasha at the foot of the *Blue Lotus* (Voyager Code # 1), and then project your Ra-Sha-LA-self, "full size", out of your Ra Centre to a position where the Ra-Sha-LA-self is standing in front of the Code.

2 Release the Activation Key already encrypted within the Ra-Sha-LA-body by using the command:

a' – RA – hoo – a' – ShA' Neu – A

Now, project the Ra-Sha-LA-self *as a Spark of Pale-Orange-Peach Heliotalic Light* into the centre of the small Eckasha at the bottom of the Blue Lotus Code… *Inhale*, and *pause* at the top of the Inhale, as the Ra-Sha-LA-spark-body waits at the Code entry point to move with you, as your embodied consciousness also projects into the journey. *Exhale* your *breath and attention* from your AzurA Core-Cave and into the Eckasha Entry Point.

3 *Inhale Ad-Don-dra – 360 Flame* up with your Ethos Pillar, and Ra-Na-TA Arcs phased "up" to vertical as you imagine/ intend that your embodied consciousness is now, and separately from the aspect in your Ra-

Sha-LA-body, initiating movement, vertically, up to the tip of the small Eckasha Entry Point. Keep your eyes fixed upon the part of the Code-image that you are moving through as you begin to ascend ... blinking when needed ... breathing naturally at a slow "Alpha rhythm" (about ½ "normal" breathing rate) from the AzurA Core-Cave.

Synchronise the *movement* of your eyes and breathing as you begin your ascent through the Veca Eirad. On the *Inhale breath move your eyes and attention* upward to the next point in the journey; and, on the *Exhale, stop any movement of your eyes or attention* until the next Inhale and ascent naturally resumes. So, *Inhale = Move; Exhale = Stop movement.*

You will notice that as the visual ascent progresses, a sense of mild acceleration will be felt as if the Image is "pulling you in or upward gently". Allow the speed of your breathing rhythm to also accelerate a little . . until the sensation of "upward pull" relaxes into a slow, "upward floating" sensation.

4 Notice now, the slight upward pulling movement on your attention as your consciousness passes through the small Eckasha Entry point ('A' on positions guide), and *now* begins moving upward with the "Alpha *Inhale* breath" to Point 'B' - the AzurA of the small figure/ "ascending Density body". *Stop* at Point 'B' on an *Exhale*.

5 Resume movement of the next *Inhale*, moving eyes and attention upward to Point 'C', the Quanta-Rhu -A Code hidden beneath the "Angel Wings" (just above the small figures' head). *Stop – Exhale* and sense your body experiencing a *Double Bi-Veca Merkaba Acceleration*. .... Increase your breathing speed *slightly* from this, Point 'C' – First Acceleration Point.

6 *Inhale* and move up to Point 'D', the centre of *the D-8 Monadic Body* (this point coincides with the rim of the Sphere). *Stop – Exhale* and notice that your *Ra-Sha-LA-spark-self suddenly appears in the image and merges with your "travelling" embodied consciousness* as you pass through your D-8 Veca Monad.

7 *Inhale* and move up to Point 'E', the Krist Code. *Stop – Exhale* as you *begin* to pass through your D-12 Divine Blueprint, and in to the Pale Turquoise-Blue of your D-13 Ecka-Monad . and, into the Heliotalic Stream that will draw you upward to Point 'F' in the Ecka... Notice a "slowing" of the Time-Wave .. and slow your next breath cycle back to the level of ½ your normal breathing rate (or ½ Alpha rhythm).

8 *Inhale* and move upward into the Heliotalic Stream . and to Point 'F', a resting place within the pale Violet Khem-a-lo-ha-tea Veca Monad Centre Flame. *Hold* this Inhale briefly close your eyes and "feel the Flame of Khem-a-lot" around your physical body

Welcome to the Ecka Base Shield; you have successfully ascended your Mental Body consciousness out of the Veca Density Base Shield and its Time-Wave Base Pulse Rhythm .. you have now entered the T me-Wave Domains of the Khem-a-lo-ha-tea "Veca Centre Point" within the Ecka Base Shield Centre.

Remain "eyes closed" for a few moments before we extend our journey into the second phase, Technique 6, the "Khem-a-lo-ha-tea Voyage" ...

1 Please open your eyes ... and slowly re-establish visual focus on Point 'F', the centre of the Eckasha shape near the top of the Blue Lotus, Voyager Code # 1.

The Voyager Series Technologies ™ Copyright A'isha & A'za Deane Elon MC003/2005 ALL RIGHTS RESERVED

2 Now take a few *"stationary transition Inhale/ Exhale breaths without moving*. As you do this *Tone* the Code # 2 Access Command.

Deu – et – Ta A – sha NUR A – VE – a

Take a final, stationary, *Inhale/ Exhale* breath and prepare to *"leap"* into the next Code Passage .. As you do this. notice that your Ra-Sha-LA-spark-self, within your consciousness field in the image, is now turning a Pale Yellow-Heliotalic colour ....

3 Next, *Inhale quickly and forcefully* using this breath to *"leap"* from Point 'F' in the Blue Lotus, Code # 1 to the entry point of Code # 2, at Point 'A' - the centre of the Eckasha Base Shield at Signet 1, the bottom tip of the Kathara Grid .. *Hold this Leap Breath at the Top of the Inhale* . and *Stop when you reach* Code-2, Point 'A' which is the Entry Point to the Eckasha Base Shield and Le-eTOR-A Ecka Monad Centre Flame that exist within the Violet Khem-a-lo-ha-tea Flame that is now "all around you" Remain in "stop mode" at Point 'A' and *gently and slowly Exhale* to decelerate your consciousness Time-Wave from its "leap breath" acceleration.

4 *Inhale slowly* and begin moving again ... from Code-2, Point 'A', to point 'B', moving your eyes and consciousness from Kathara Signet 1 of the Eckasha Atmic Template and into Point 'B' (at the centre of the Kathara Grid), the AzurA-Heart of the Le-eTOR-A Ecka-Veca E-Cou-Sha Crystal within the top of the Ecka .e-eTOR-A Flame, and the bottom of the *Ad-Don-draea Amoraea Flame* that links the Le-eTOR-A Flame to its parallel Ecka Le-AdOR-A Flame *Exhale, and stop at Point 'B'*

5 *Inhale* and begin moving upward again ... moving toward Point 'C' at the centre of the Bi-Veca Merkaba, Tetrahedral form. Notice a slight "upward pull" of a *Time-Wave acceleration* .. *Slightly* accelerate movement *and the Inhale* to synchronise both breath and ascension progression *Exhale and Stop at Point 'C'* in the centre of the Bi-Veca – Fold – Encrypted *Eckasha Bi-Veca Merkaba* – the vehicle that enables simple passage through the Eckasha D-12 Divine Blueprint via the Arc of the Covenant 'Gate System.

6 *Inhale* and move upward now to Point 'D', the resting point of the *Mahadra Adhrana*, the *Gate Release Key* for the Eckasha to *Eckasha – Aah* Arc of the Covenant 'Gate System... *Exhale* and *Stop at Point 'D'* .. take a few natural *Inhale/ Exhale stationary transition breaths* and prepare to *"leap and shift"* into the heart of the Ad-Don-draea Eckasha to Eckasha-Aah Centre Flame ...

Technique 7. The Ad-Don-draea Voyage – Journey to the Ad-Don-dra 360 Rama Passage Doorway follows next ... (PLEASE NOTE: the Access Key Command is not yet used here ... but in future Tech's)

1 Continue breathing natural *Inhale/ Exhale stationary transition breaths*, eyes focused on the Mahadra Adhrana resting point (Code 2, Point D) and prepare for a *rapid-breath – leap – and 180degree rotation* as you pass into the *"Rod of Rama"* for later passage from the Eckasha to the Eckasha-A Base Shield

2 *Inhale rapidly and forcefully* and quickly move your focus up to Point 'A', the centre of the sphere at the bottom of Code 3, this image represents an *Arc of the Covenant/ Rama Passage "Buffer Field Bubble"* that will allow you safe passage through the Heart of the Ad-Don-draea Flame. *Hold* this breath – lungs full – when you arrive at Code # 3, Point 'A', then *Exhale forcefully using the Exhale to push a replicate Buffer Bubble clockwise – with your consciousness inside* – and up *to the Le-AdOR-A Tri-Vectus Access Key at Point 'B'*, located in the upper area of Code #3.

The Voyager Series Technologies ™ Copyright A'sha & A'za Deane Ekra MC003/2005 ALL RIGHTS RESERVED

Inhale upon arriving at Point 'B' *Stop movement and Exhale gently;* remain stopped as *the Le-AdOR-A Key spins 180° Clockwise*, aligning your consciousness with the *projection angle needed* to pass into the Eckasha-A Template *for later expansion* into the Ad-Don-draea-360 Eckasha-Monad Centre Flame in the Eckasha-A Base Shield.

3 *Inhale*, and now *move downward* through the tip of the Eckasha Doorway within the Ad-Don-dra Flame, progressing downward to Code #3, Point 'C' *at the AzurA Centre of the Eckasha-A Base Shield*, the *access point to the Ad-Don-draea-360 Flame.*

Remain here in consciousness, with your Ra-Sha-LA-spark-self, *as you return part of your consciousness to your physical body.* Notice that, as you "leave" that your Ra-Sha-LA-spark-self, still carried within your consciousness, *transitioning to a Pale Pastel Rainbow Heliotalic Colour.*

Once you return your attention to your physical body leaving your Ra-Sha-LA-self and part of your embodied consciousness in the Rod of Rama (Point 'C') Doorway, let your awareness shift back to the "3-D world" environment your Ra-Sha-LA vehicle will transport itself, and the "visiting portion" of your consciousness, back to you after you have engaged your first personal "remote study programme" within the Ad-Don-dra-360 Eckasha E-Cou-Sha Crystal *Library* at the Centre of the Eckasha-A Base Shield.

You have now completed the opening of the Transcendental Passage – Veca to Eckasha-A Level. Congratulations! Communion can now begin.

"Much love and thanks" – the EleyanA and AdonA of the Eckasha Worlds.

10th Chakra

This is the Solar Star Chakra, located 6 inches above the crown and is Sapphire in colour. The 10th Chakra has lines around our Left side and its main portal is a network from behind the left ear, to the crown chakra 7th Chakra and into the Soul Star directly above our crown, about 6 to 8 inches above our head. This is a Triad Communication Station portal from our Avatar (triad) Christ consciousness intelligence, and without this communication hub in our Lightbody, we cannot sense communication from the Krystal Star at that frequency level. The Thalamus is connected to the 10th axiatonal lines and the 10th Chakra

Fourth Harmonic Universe

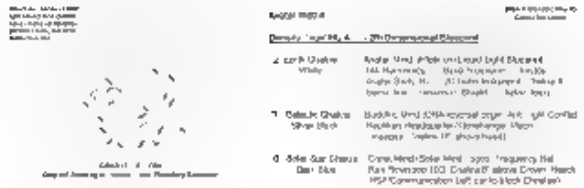
For human beings, these consciousness bodies exist throughout the densities and are aspects of the higher self and Lightbody These aspects are called the Stations of Identity

- In the Fourth Harmonic Universe in 10D-11D-12D exists the three layers of the Christos Avatar Matrix.
- In the Fourth Harmonic Universe in 10D-11D-12D the future earth blueprint in its crystalline form in the exists the three ayers of the Aramatena or Aurora Earth Matrix



Fourth Harmonic Universe

Krystal Star Communication Frequency

Without the Mother Arc or female principle able to manifest into form through the destruction of the Planetary Logos and 5D planet called Tiamat, we were unable to have our 10th Chakra and all its functions work in our bodies, as she was the Mother frequency link to communicate with our Christos Avatar self on 3D planet earth. She is a part of the Triple Goddess Formation of the Mother of God principle, and apparently the Merging Shield is the Living Creature Matrix to remind us that we are to rebirth her tri-essence again onto our planetary body, and then hence into our own physical body Because we went through the wall in time on the 10 28/11, we are able to gain access to this incredibly ancient part of ourselves through the wormhole leading into the Timelines of Tiamat.

The 10th Chakra has lines around our Left side and its main portal is a network from behind the left ear, to the crown and to the Soul Star directly above our crown, about 6 to 8 inches above our head. This is a Triad Communication Station portal from our Avatar (triad) Christ consciousness intelligence, and

without this communication hub in our Lightbody, we cannot sense communication at that frequency level.

So it is like expressing that our 10th Chakra the 10th Axiatonal Lines are the network in our Lightbody which decodes the language to hear or directly sense that communication inside our own body, directly. That process of HSP is called direct cellular cognition. The destruction of Tiamat (like a heaven and earth principle living together in perfect harmony) is synonymous with the destruction of sacred marriage (union of opposites), the destruction of the Hieros Gamos, thus splitting apart the consciousness of the Christos-Sophia.

False 10th Gate Network

The Family of Michael are Blue Ray descendants of the First Order Founder Ray. They were a part of the The Family of Michael agreed to be a part of the rehabilitation of the Fallen Angelic (Seraphim) races by agreeing to be the support to the Guardian of the Horizontal Grids of this Earth System, known as the Golden Eagle Grid Pylon Network System. The Golden Eagle Grid is about 57% infiltrated into reversal code system (reversal 10 D Current) as instituted by the NAA Controllers or Reptilian Intruder Races. The major gate of the Golden Eagle stronghold infiltration is the 10th dimensional Gate located in Iran, Iraq (see Iran Gate) The war, strife and death of many humans in this area of the planet is used to keep the dark energy circulated and in control. The NAA controller agenda of the False King of Tyranny is and always will be "divide and conquer" through the Victim-Victimizer strategy. This area is the most prominent to institute **False Michael** "sightings" and broadcast usurped channeling into the Golden Eagle Grid Network. It also has circulatory system linked to Giza, Egypt at the 4D gate level, Phoenix Grid and others.

When working in this Iran Gate or working to open communication Hub Handshakes with Krystal Star many of us have had experiences with the Insectoid Races, as the NAA Mantis and Grey entities work to control this Stargate with many of their underling workers, the Grey Aliens. There are both regressive Mantis people with Orion Group and those working with Guardians to help the Ascension. In my experience the Aethien Mantis are Tall White and very compassionate and loving, while the brown and dark grey Mantis are not.

Morphogenetic Chakras

In higher spiritual development (begins at Monadic Integration), the particle and antiparticle (Morphogenetic Chakras 8-15) merge together into one Unified Column. This is another example of gender unification between the male and female principle chakras in order to create unity or a unified consciousness column.

Level Three Triad: Hieros Gamos

Level Three of Sacred Marriage is Hieros Gamos, the hydroplasmic liquid light of the Risen and Embodied Christos Principle. Level Three Triad Hieros Gamos Union or the Risen Christos-Sophia.

- Stage 1 – Solar Egg (10D, Monad Twin or Genetic Equals Integrate Solar Illuminated Light)
- Stage 2 – Buddhic Egg (11D, Monad Twin or Genetic Equals Integrate Lunar Reflected Light)
- Stage 3 – Cosmic Egg - Christos Embodied (12D, Monad Twin or Genetic Equal synthesizes the Solar and Lunar Light which when integrated Embodies the Cosmic Christos Avatar of Liquid Aurora Light. Together they share One merged Double Diamond Sun Body and One HG Crown [1]

12 Essene Tribes

The Emerald Founder Records reveal that there are 12 Essene Tribes which make up the entirety of the collective human gene pool, or are the descendants of Universal Tribal Shield that has been originally incarnated onto this planet from the future timelines of Tara. Each of the 12 Tribes are genetically key coded to their demographic Planetary Gates location and to that planetary dimensional sphere and its ley line network. When we incarnate onto the planet, we have genetic time codes in our DNA related to the planetary gates dimensional system that is a part of our main Human Tribal Identity. We activate our human tribal identity personal planetary keys when we activate our Inner Christos by running the 12D Ray, stringing 144 harmonics throughout our Lightbody, otherwise called the 12D Shield. That identity has had many lifetimes that have participated with the consciousness evolution cycles of assembling DNA codes in the angelic human Root Races evolving throughout the Solar System.

The original 12 Essene Tribes were seeded on the earth as a part of the evolution plan that was the result of the Covenant of Paliador, to rescue the lost Souls of Tara, making it easier to reclaim these identities when the stargates finally opened during the end of the Ascension Cycle.[1]

Spiritual Purpose for DNA Assembly

Previous to the Atlantian Cataclysm, each of the groups of the angelic human 12 Essene Tribes were entrusted as Guardians of a section of the Emerald Founder Records, which held extensive consciousness knowledge about the star origins and genetic template information that was recorded on 12 holographic discs.

All 12 genetic components of the 12 Tribes hold one strand of DNA code for reassembling the crystal gene for the Diamond Sun body or Silicate Matrix, that is key coded to activate the 12 layers of the planetary stargate system. This provides the means to contact our higher Stations of Identity as spiritual bodies, and to connect with the conscious living light and sound frequencies in the holographic matrix. The instruction sets to rebuild and reassemble the 12 Strand DNA pattern, are held in the genetic keys found in the Cosmic Kryst-Krystalah blueprint which makes up the 12 Tree Grid manifestation template.

Through the individual and planetary spiritual Ascension process that takes place during several root race evolution cycles, the integration and healing of all 12 levels of DNA coding through its genetic components potentially unite and merge to form the complete Silicate Matrix. These dual forces of polarity, male and female, are designed to spiritually integrate and synthesize within the angelic human body while naturally evolving on the ascending earth. As a result of the forces of alchemy and energetic synthesis made between inner and outer layers of these multidimensional consciousness forces, the spiritual embodiment of the original 12 Strand DNA of the Diamond Sun Body is then made available to the planet and humanity through DNA Assembly. Thus, ascending individuals are gradually repairing and regenerating their DNA template so they are able to open and move through stargates safely

The Diamond Sun body represents full consciousness freedom for an ascending human being, in which the Inner Christos is fully activated with the flowering of the Sacred Crystal Heart. As a result, the spiritually ascending human is able to transmute their consciousness out of time and into Zero Point, moving through stargates into another location. Therefore, they are free to leave the Prison Planet, freed from the enforced Mind Control and reincarnation cycle occurring in the lowest density of earth.

Human Tribal Identity

Many of us are at different stages of the Ascension process, yet at every level with a sincere heart and conscious participation we can access exactly what we require. The first suggestion is to meditate upon the 12 Tree Grid with intention to move through each personal sphere knowing this is one's direct connection to each of the Stargates of the earth and aspects of identity. Focusing on each 12 Tree Grid sphere starting at the first dimension level (1-12), ask to know your **main tribal identity within the 12 Tribes** and to receive the genetic time codes that main tribal identity requires. (ES community has many 12 Tree Grid meditations that one can devote specifically to this process) Once you feel connected to that dimension of tribal identity, you may feel called to meditate with the corresponding Planetary Emancipation Gridwork and Stargate meditation (PEG).

Original Human 12 Tribes

There are 12 Tribes which make up the entirety of the collective human gene pool on this planet. This identity has had many lifetimes and participated with the evolution cycles of the Root Races throughout the astrological precessions. The genetic modification of the 12 Human Tribes occurred when the assorted Aliens decided to have a competing agenda on writing their genetic codes into the planetary brain and Stargate system, as well as intending Alien Hybridization on the earth.

However, the original 12 Tribes were created as a part of the plan that became the Covenant of Paliador to rescue the lost Souls of Tara, which would be made easier when the gates opened during the Ascension Cycle. When the 12D Christ Ray was returned to the planet earth in 2000, this meant that the Diamond Sun body could begin to be reassembled and embodied in sequences and is the reason why many Starseeds came to the earth to help accomplish this mission. In this Paliadorian cycle, the Krystallah eternal life body was reassembled from the original Diamond Sun body template that was embodied in the first stage of the 5D Taran seeding.[2]

Planetary Stargate Systems

Planetary Gates are the Earth's connection points into the Galactic and Universal Stargate Systems. They were once sealed off and closed, but now these Stargates are progressively opening during the Ascension Cycle. See the Precession of the Equinoxes

The organic Planetary Stargate System or Universal Tree of Life Templar opening has been damaged from NAA and the Alien Machinery abuse from the Negative Aliens collaboration to control the earth. This necessitated Krystal Star Guardian intervention and this intervention is referred to as Ascension Plan B with Mission Upgrades

Science knows these energy vortices as wormholes.[3]

Code of the Blue Nile

The Blue Ray is a gestalt of four Universal Harmonic Layers of the Universal Families of Blue Ray Consciousness, the Universal Melchizedek Lineages that incarnated as the 12 Essene Tribes or Essenes. There are Three Primal Order Sound Fields that make up the Ray Aspects of our Universal creation, and the Blue Ray is of the First Order of Emanation. The Highest Order of the Blue Ray Family emanate from the 13th Circuitry Gate of the Mother of God aspect, which is the first layer projected from the Zero Point Universal God Core. This First Order Blue Ray Family are the esoteric 144,000 Genetic Timekeepers of our Universal Time Matrix and is known in the Egyptian and Sirian histories as the Code of The Blue Nile. Many Galactic Wars throughout human and non-human extraterrestrial history have been waged for gaining control and access to this code, which holds essentially every genetic key that allows access into the kingdoms of God, or the God worlds.[4]

Hibiru 12 (Hosting) Tribes

The Hibiru Tribes are the higher dimensional genetic coding of the Melchizedek's that were given the responsibility to help rehabilitate hybridization damage during the last evolutionary cycle after the Nephilim Wars approximately 75,000 years ago. The Melchizedek Hosting began approximately 35,000 years ago and ended in this Ascension cycle, on December 21, 2012. Krystal Star hosting began and is currently in transition to repair and rehabilitate the planetary body to its original architecture, the Diamond Sun Body and Silicate Matrix genetic code that makes up the original Universal Tree of Life

Essene 12 Tribes and Gates

Essenes, Christos Templars aka The Order of Christ Templars The Real Templar s were of the Order of Christ, derived from Gnostic Essene and Cathar lines, and they sacrificed themselves to protect the wisdom, knowledge and frequency of Sophi A Sophanic Body on this earth for the Ascension Cycle, which is the window of time when the galactic alignment is made with the Neutron Window or Galactic Core for portal access, which was December 21, 2012

Many of the original Essene lines were trapped in the Planetary Gates and Astral Plane during the many cataclysms that occurred on the earth from NAA wars and Orion Group Invasion.

The opening of the Neutron Window allows access in and out of this Universal Time Matrix for the time period that the alignment is in place Previous to this time, the window was closed, thus the portal access to leave this Universe, as well as this Solar System was closed. When the galactic core alignment was made in 2012, the Krystal Star began connecting to this planet in this timeline, and this began the cycle of the Krystal Star hosting of this planet for potential Ascension and to reclaim the Christos-Sophia

Paliadorian Activation in Tribal Shield

The Paliadorian eternal light beings created the entire original blueprint and instruction set for all of the 12 human tribes, which when all combined together, comprises the human Tribal Shield records in all of the planetary evolutionary rounds The Tribal Shield is the entire morphogenetic field comprising all the variations of specific frequency arrangement for all of the 12 Tribes of the Human DNA template. During this cycle through the rise of the Paliadorians, this is activating the human Tribal Shield to become freed of the blood covenants and Alien Hybridization coding imposed upon angelic humans. The Andromedan Blue Feather and Crystal Rose Heart coding are another example of how this is being accomplished in the field.

Each of the 12 human tribes have a unique frequency and DNA program that is designed to anchor a specific part of its DNA coding into the planetary field, throughout each of the Root Races and evolutionary cycles. From the Guardian perspective, there are cycles upon cycles completing and converging now in the particle and anti-particle merge, comprising the historical timeline events of human seeding and planetary evolution, with the 8th and 12th Astrological precessions being of specific importance. As a result of the Paradorian Activation and Aquaferion recoding, the Tribal Shield and the coded DNA information is removing alien hybrid genetic codes, AI codes and an assortment of Blood Covenants used as Consciousness Traps. 12 Tree Grid

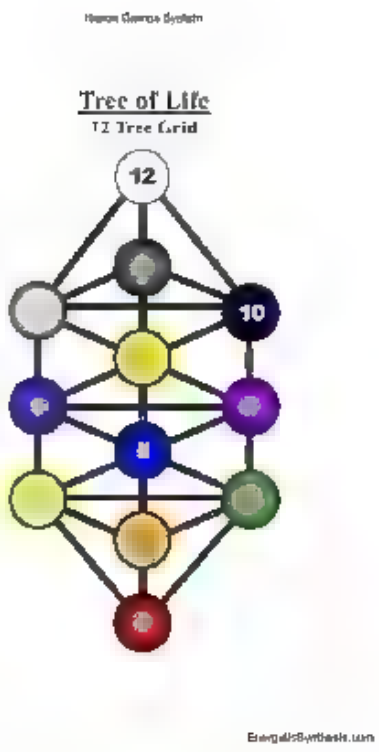
The 12 Tree Grid is Level 1 of the Lightbody. It is the Architecture of our multidimensional consciousness orientation

The Core Manifestation Body Foundation. The structure of the macrocosmic Universal Tree of Life is replicated within the microcosmic personal tree of Life, the 12 Tree Grid. Individual Human anatomy manifests upon and within the multidimensional layers instructed by the core manifestation template – The Tree of Life which is the Lightbody architecture. Every aspect of the Universal Creation and life spiral are designed and instructed through these Blueprint structures. Learning to travel consciously through the Universal Tree of Life is the pathway to personal sovereignty and freedom. GSF Intelligence bodies create the blueprint Morphogenetic Field of all creation. It is a Base-12 Template and culminates in the Krystal Star Body with Cosmic Christ Intelligence. (13, 14 and 15 are the Threefold Founder Flame Rays (Mother/Father/Sun). See the cosmology of dimensions in our Universal Time Matrix here.



Universal 12 Tree Grid

I. 12 Spheres, 12 Rays, 12 Dimensions, 12 Timelines (24 Potential), 12 DNA Strands, 12 Base Tone Harmonic Structure (144 Sub-harmonics) of the Cosmic Christ Frequency in the 12D. Beyond these 12 Dimensions is the Threefold Founder Flame, which is the Founder consciousness of our Universe

II. 12 Spherical/5 Horizontal Triad Bodies that hold the morphogenetic fields for the mental bodies/identities. Each triad body builds the horizontal structure of the Tree and the Mental Body/Male Principle. See Horizontal Triad Bodies built upon the 12 Tree Grid, and Rod functions.[1]

Magnetize Spiritual Bodies

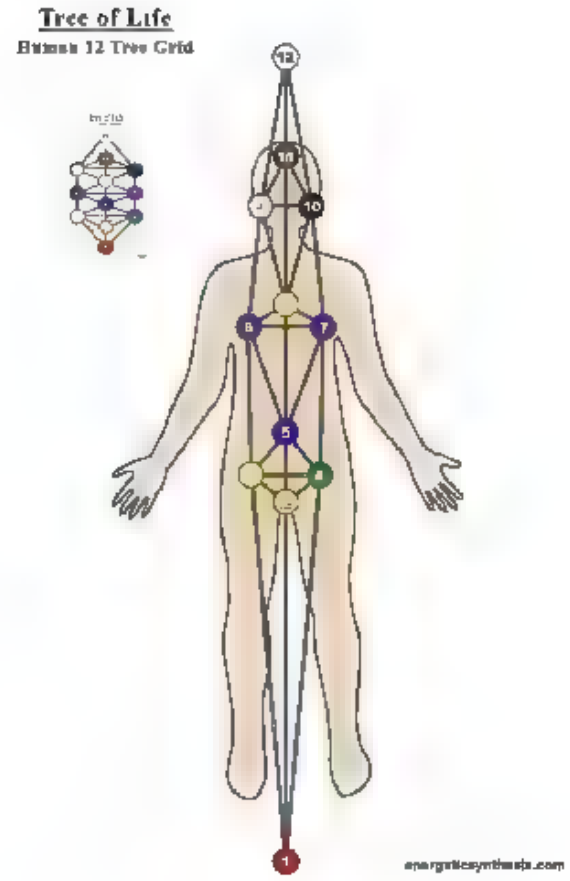
The 12 Tree Grid is much more important than the Chakras because we can collapse the chakras into a working unified field (membranes between collapse) where they are not broken off into dimensions feeding energies back into these siphoning entities. The CCKM Module in HGS manual is about restructuring the white hole and black hole spin point that reconfigure the Chakra cones and its matrix to be aligned to become compatible with the Krystal Star Host.

The 12D Ray and the 12 Tree Grid is like a homing pigeon that we can attract or magnetise the parts of our spiritual body energies/identities that need to be returned back to the rightful owner RRO, back into Original Eternal God embodiment throughout this Universe. The 12 Tree Grid is a process of a spiritual body integration sequence that will at some point be overridden by the Krystal Host, as the Double Diamond Sun Body exists in a different configuration pattern. However this 12D Shield and 12D Ray Hub Handshake configuration is what allows us to "phone home" to our family of Christ here in 3D matter Timelines, and this is why it's so important.[2]



12 Tree Body Grid

Core Manifestation Template

The Core Manifestation Template or Blueprint is what genetically expresses our DNA into matter, creates human bodies and projects holographic realities. The frequency split is delineated by what is being created organically in consciousness, by what embodies or holds spirit, by the vibrational quality of the mind that created it, by what dimensional laws of structure it is subjected to, and by whether artificial intelligence is being used. On the Ascension path, we will be asking the question, "Is the consciousness that created these blueprints an organic living consciousness or is it an inorganic Artificial intelligence software projecting out these holograms?" We are entering a whole new world in the way types of matter are being formed. With pure intention and pure heart, we must access Krystal clear intention through all things that we co-create with God Spirit, in order to manifest from the higher dimensions with personal responsibility, purpose and Energetic Balance [3]

12 Tree Grid, Core Manifestation Body

The 12 Tree Grid is the first level of structural organization in the unmanifest layers that functions as the architecture that sets consciousness energy into dimensionalization, it is the core holographic template in which Morphogenetic Fields are structured. The 12 Tree Grid is the Blueprint that sets the ratios of Energetic Balance within the Core Manifestation Body, and that is set by the intelligent spirit of the Inner Christos, in what is referred to as Krist Code. The Universal 12 Tree Grid is made in the Gender Principle of outer male Krist coding and inner female Krystallah coding that merge together to form interwoven nested patterns. These patterns create dimensionalization through which consciousness can come into manifestation as an individuated form.[4]

The 12 Tribes Transcripts

Introduction to the 12 Tribes of Aquafereion

The MCEO "12 *Tribes* of *Aquafereion*" private-class program began in Phoenix, Arizona, in January 2007 as a series of twelve private Experiential Spiritual Development Classes hosted by MCEO Speakers A'sha and A'san Deane (In the transcripts, A'san is referred to as A'zan, an earlier form of his spiritual name.) This private-class program emerged from the *MeEO Freedom TeachingS®*, an ongoing collection of over 80 public ive workshops presented by MCEO Speakers A sha and A'san Deane between 1999 and 20.0, which total more than a thousand hours of DVD recordings featuring a progressively and continually expanding body of advanced non-denominational *"Law of One" Spiritual-science Teachings* and related historica record. All MCEO teach ngs are translated verbatim from ive Keylontic Transmissions from *"Holy Order of the Yunasai Kryst Councils,"* collectively known as the *Krystics* (The Krystics' Yunasai Order Kryst Councils include the *"Guardian Alliance"* [GA] *"Interdimensional Association of Free Worlds"* [IAFW], *"Metchizedek Cloister Emerald Order"* [MCEO], Exohe-Seraphe-Braharama and BudhAea-Budhaliah-Budhrama *"Founders Councils,"* Priests of Ur and Priests of MU *"Eleyani Councils,"* EyanA and AdonA *"Ecka Councils."* Aquafereion Na-VA-Ho and Aquareion Adashi *"Krystar Ascension Councils,"* and many other sub-councus and collectives in service to organic *First Creation* and the Eterna Life Ascension Path of the *Krystos*.)

A information contained within the MCEO Freedom Teach ngs® paradigm and thus within the "12 Tribes of Aquafereion" classes has been provided to assist humanity n reaching greater heights within the frontiers of personal consciousness, and to facilitate a more n-depth, collective practical understanding of the greater evolutionary issues that directly impact our global reality, planetary environment, and evolutionary potentials today and in the future

The 12 Tribes Story

In 2006, on behalf of a request put forth by the Krystics, the MCEO 12 Tribes of Aquafereion class program was initiated by extending an *invitation* (via nternet and public workshops) to those nterested in MCEO works, to participate in sma er, more persona ized, direct *experential* private classes featuring MCEO advanced spiritua development teachings referred to as *"RashaLAe Body Training"* (MCEO public workshops average 200-300 people leaving little resource for MCEO Speakers to have persona interactions with audience members or for more persona ly experiential spiritua participation.) The Krystics briefed the MCEO Speakers on the "12 Tribes" program in 2006, at which time the "Krystics' nvitation" for class enrollment was offered. At this point the Speakers were told only that there would be" *two installments"* of *twelve sequential classes* (a total of twenty four classes-twelve per each of the "two insta iments") comprising the "12 Tribes" class program. The first nstallment of twelve two-day classes, titled "12 *Tribes-1,"* was to initiate in *January 2007* and, *"IF the planetary drama allowed,"* a second twelve-class nstallment, titled "12 *Tribes-2,"* would nitiate in 2008 follOW ngcompletion of the 12 *Tribes-1* twelve-class nsta ment of 2007. Each of the twelve individual *"Tribes"* classes n the 12 *Tribes-1* twelve-class installment were to nclude only *twenty-four people*, and the twelve *"Tribes-1"* classes were to be held approximately one per month (with leeway given for public workshop & travel periods)

When the MCEO Speakers were made aware in 2006 of the Krystics' intention to begin the 2007 "12 Tribes private-class program," we understood *only* the general formatting of the "Tribes class" structure, and that the *focus* of *teachings* presented in the 12 Tribes classes would be "ALL NEW NEXT-LEVEL DATA" pertaining to *"Personal RashaLAe Body Training,"* with emphasis placed on *group experiential participation* in *"advanced techniques of personal spiritual development."* (We ALL, through progressive Tribes-1 classes *later learned* that the *"advanced techniques of personal spiritual development"* included *voluntary, optional participation* in advanced techniques pertaining to "planetary-galactic-universal" *advanced Ascension Grid mechanics* called *"Spanner Gate and Elemental Command Training."*) The Krystics' invitation for 12 Tribes class participation was posted on MCEO e-groups and spoken of in MCEO workshops in 2006 with neither the general MCEO "audience" *nor the MCEO Speakers* knowing anything more than that these "private Tribes-1 classes" of twenty-four members (plus two to three Speakers/teachers) would involve "Personal RashaLAe Body Training" a *"thing" none of us, at the time, consciously knew anything about.*

"An Inconvenient Reality" and "An Essential Truth"

The fact that the MCEO Speakers commit to doing public workshops when no one aside from the Beloved Krystic transmitters-not *even we the MCEO teachers/Speakers-consciously* knows WHAT the detail of the "next level teaching" is going to be until we all gather for the next live workshop, is not a condition unique to the 12 Tribes of Aquafereion private classes. This dynamic has been inherent to all 20-plus live MCEO public workshops since 1999, this approach is not chosen or preferred by the MCEO Speakers, it is an "occupational hazard" that is required to enable the Krystics to continue the gift of their teachings. The MCEO Speakers extend our heartfelt thanks to the people who have "suffered this inconvenience" in workshops with us over the years, and we hope people can *appreciate* this *"inconvenient fact"* of the MCEO work-process for the degree of" *absolute trust in the Divine"* as well as personal *spiritual commitment that* it requires from the Speakers to continually work in such a highly stressful manner. One of the *benefits* of this inconvenient dynamic is that it *"dissolves the platform* of *hierarchical structure"* that is often associated with the teacher/student relationship, allowing both the audience and the Speakers to "learn together at the same time." Throughout our ten years of workshops this" *inconvenient fact"* has necessitated what is now known as *"Guardian Time"* an *"inconvenient schedule"* of workshop "free-form time" revolving around on-site new-data translation of live transmissions from the Krystics which often requires workshop times to run through the night and into the early morning hours. MCED class and workshop audiences, as well as the MCED Speakers, have learned over time to cultivate a necessary degree of *personal flexibility* in order to adapt to the frequently "inconvenient nature" of acquiring the MCED teachings.

The Tribes Transcription Program and the Transcripts

Following the Krystics 2006 invitation for 12 Tribes class enrollment, which was quite vague as to the nature of course content, the 288 spaces (twelve classes at twenty-four people each) available for the 2007 "12 Tribes-1" class filled up quickly on a first-come, first-served basis, a computer "random-pick lottery" program was used for individual class or "Tribe" assignments, and a waiting list was created for the potential "12 Tribes-2" second installment. The Krystics had provided in 2006 the 12 Tribes-1 class general program format of "twelve two-day classes, each with twenty-four people." Due to this format, we Speakers at first thought that a *new and easier teaching approach* would be employed for the 12 Tribes-1 classes, in which the *same information* and activities would be *repeated* in each of the twelve classes. If we had known in 2006 just how the 12 Tribes-1 classes of 2007 would unfold we would not have believed ourselves capable of mUStering the personal resources of time and energy that the Tribes classes ultimately required.

Though the Tribes-1 class format included only twenty-four people per class, the Speakers' "workload" of translating *new, live Krystics transmissions for each Tribes class* was equal to (and often exceeded) that required for previous large-format public workshops. Additionally, the element of intensified, group-experiential technique activities was a featured aspect of the 12 Tribes-1 classes and Guardian Time prevailed throughout all classes. To enable everyone to "keep up with" the rapid expansion of new Tribes technical materials, the "Tribes Transcription Program" was implemented (endless thanks to the amazing efforts of *MeED volunteers*)—the rough audio recording of each private Tribes class was transcribed verbatim, and the transcripts of each class were sent to both participants in previous classes and to those in coming classes. The three-volume series titled "The 12 Tribes Transcripts" is a result of these transcription efforts and the many hours of teachings provided by the Krystics and the MCED Speakers through the fifteen-month duration of the 12 Tribes-1 Instalment. Although we did our best throughout 2007 and the beginning of 2008 to cover each new revelation of the Tribes material in our large-format public workshops, "The 12 Tribes Transcripts" are the *only written texts to date* covering this information. It will take several years to compile into "proper" book form the extensive teachings presented in the Tribes-1 classes and the *over 100 complex diagrams* that accompany them. The diagram sequences, most of them in very rough form, have only appeared publicly in various class and workshop presentations from 2007 to the present, and we regret that many of them are still far from ready for publication, thus only a few of these diagrams are included in the "The 12 Tribes Transcripts." Our decision to publish the *unedited* transcripts "as they are" arose from the desire to make these texts accessible to the public in the most expedient manner possible.

As the 12 Tribes-1 classes progressed, we "learned many things about many things" at times with excruciating detail, and with "personal *spiritual development* teachings" couched within planetary teachings pertaining to the larger *"Contemporary Earth Drama"*: this, combined with the sheer complexity of some of the material, occasionally made "grasping the whole picture" of "what exactly we were being taught and why" quite challenging while we were "ensconced" within the class framework. *Hindsight* is very helpful in this regard, allowing us a better "view" of and thus a better *understanding* of the 12 Tribes-1 classes and the teachings that progressively unfolded within them. In this *introduction* to the "The 12 Tribes Transcripts," we have used this "gift of hindsight" to provide a simplified overview of some of the more important aspects of the transcript teachings, and have added further recently received clarifying information to lend the reader *greater contextual understanding* of the transcripts. This "foreword" actually "takes one to *afterward*" in that it provides a *more accessible briefing* of 12 Tribes-1 class highlights pertaining specifically to the *personal spiritual development teachings* contained within the transcripts. It offers a *condensed conceptual clarification* of the material and its significance, which did not fully emerge until the completion of Class 12, the *last class* of 12 *Tribes 1*, held March 29-30, 2008.

Reflecting the nature of the classes, the transcripts (even *without* the multitude of still-rough technical diagrams that were shown in the classes) "go much further" than this introduction in terms of *technical details*, and most especially in terms of the greater planetary, galactic, and universal "Contemporary Big Picture Drama" that is *presently unfolding*, which is the *literal context* within which the *personal spiritual development* teachings are environmentally couched. There *IS concept repetition* within these *unedited, verbatim* class transcripts—especially within the *early classes* featured in Volume 1—reflecting the need to inform each new class group of" *what the others before them had learned."* But despite the early necessity of repeating primary concepts, each class still introduced new, next-level information that was not contained within earlier classes. As the classes progressed, this need for concept repetition *dwindled* as each new class group came prepared for the next level of information, thanks to the transcripts of previous classes that they were able to study, and also to the formal introduction of new multiclass material that was periodically presented in the larger public workshops held several times per year between 12 Tribes-1 classes. We hope this introduction, with its focus on the *personal teachings* and its *restraint* of *technical detail*, will create a more rewarding reader experience in relation to the *broader material and detail* covered in the "The 12 Tribes Transcripts."

The 12 Tribes 1 Classes

With the onset of the 12 Tribes 1 classes, a *new dynamic in transmission translation* also emerged: transmissions for *the new* class material not only continued throughout the *two-day* class period, but frequently they would continue daily for up to *two* weeks afterward. *Massive* amounts of highly pertinent "new *level*" information unfolded pertaining to both *personal spiritual development* and the larger timely concerns affecting contemporary mass, planetary, and galactic *evolution*. Between January 2007 and March *2008-the* duration of the 12 Tribes 1 class instalment the MCEO Speakers also presented *six large-format public workshops*, three of which involved travel. These workshops provided a forum through which the most important aspects of the new Tribes information could be made available to the public as quickly as possible. Due to the overwhelming workload and schedule of the 2007-*2008* period, the Tribes classes became for the Speakers a necessary but progressively *"inconvenient reality."* But despite an exhausting schedule, *the body of work that emerged through the fifteen-month 12 Tribes 1 class instalment presently stands as the most sophisticated, comprehensive, and important information contained within the MCED Freedom TeachingS® paradigm.*

The procurement of this information as much of an inconvenient reality as it may *have* been was worth the efforts put forth by the Tribes 1 participants, the recording and transcription volunteers, and the MCEO Speakers, for the "Tribes Teachings" *offer* perspectives on an *Essential Truth* that pertains to both *personal spiritual advancement* and the *Contemporary Earth Drama*. This *"Essential Truth,"* at once simple and profound, is that our planet, Solar System, and the Milky Way Galaxy have fully entered a *"cycle of completion and renewal"* (as the Mayans and others from long ago tried to tell us) and that regardless of whether any of us choose to learn of the dynamics by which this cycle unfolds, its progression will become more *inconveniently apparent* on Earth as time moves forth. The potential *evolutionary and spiritual destiny* of a race is intimately, inextricably, and quite tangibly tied to that of the planet upon which the race resides. As our planet changes it *will* change *us*, whether or not we are ready. Perhaps the greatest achievement of the Tribes Teachings is that they have at least begun to prepare us to understand the nature of this long-prophesized change, and have assisted us to become more-conscious participants in the unfolding of our personal and planetary evolutionary destiny.

The 12 Tribes 1 classes began for all of us as a shared *"adventure in consciousness"* that evolved rapidly to become a continuing *"odyssey of learning and amazement"* as the classes progressed. The first 12 Tribes 1 class held January 20-21,2007, featured revelation of materials pertaining to the personal and planetary *"RashaLAe* (ParTE KE) *Dark-matter Body,"* which is composed of 15 *geleziac-radiation "Rings"* and 15 *crystalline bands called "Spans,"* and which serves as the dark matter template for the physical-matter body and the sonic "Light Body" structure. We learned of the Aquan and hybrid-human Aquaferelon *"Adashi Krystar Ascension Councils"* of *Urtha-3-Earth's* Host Star and of the Ascension" *Spanner Gates"* and the" *Spherical Maps"* that depict the interface of planes between Earth and Urtha. The first class format, which also set the format for the following classes, involved three segments: (1) a new-data lecture; (2) an *"Elemental Command Cloud-Walkers Stand"* (specialized group *standing* "Rainbow Roundtable Merkabic Stand"), and (3) a *"Shadra Shield Journey"* group RashaLAe Body Adash Temple projection journey using the power amplification characteristic of a "group Shield" and rendered in specific geometrical lying-down position). The (optional participation) group experiential "Elemental Command Stand" and "Shadra Shield Journey," like the new-data lecture segment, evolved from one class to the next as progressively more-intensive data was revealed.

Through Class 1, and later classes, we learned that RashaLAe Body Training is the advanced *personal Krystic Biological Ascension Training* used by the eternal-life *Adashi Krystar Ascension Councils* of Urtha 3 in the M31 Andromeda Galaxy and beyond. And we discovered that RashaLAe Body Training also includes *"Spanner Training,"* the advanced *Core Star-Gate* ("Spanner Gate") and Ascension Grid mechanics employed by the Adashi Krystar Ascension Councils, the *teachings* of *which are revealed in material form only during times* of *planetary "cycle completion"* ("Starfire Ascension Cycles") or in the event of rapid preparation for *planetary evacuation* due to approaching cataclysmic change.

"The Glide, the Slide, and the Span"-
Rasha Body Training and the "Three Stages of Ascension"

The *Adashi Councils* designed the 12 Tribes 1 classes to help us develop experiential skills in the first of *"The Three Stages of Ascension,"* in preparation for future training in the *second* and *final* stages. The *First Stage* of *Ascension* is referred to as the "Glide," which corresponds to *Starfire Ascension Cycle Stage 1*, the *KaLE-Hara Cycle* of *Eiradonis Engagement*. A "Glide" is a Rasha Body projection journey, which differs significantly from simple "astral" or "mental body" projection (used in "remote viewing," etc.). *Simple* projection dynamics use as the "projection vehicle" specific portions of the personal anatomy known as the Light Body, the outermost or surface radiation layers of multidimensional anatomy. Rasha Body Glide projection requires activation of portions of the personal Rasha Dark matter Body which serves as the template upon which the outer Light Body and physical-matter body form. There are four levels of Rasha Body projection corresponding to the *Four Domains* of *Rasha Body anatomy*: the outer *RashaLAe* (Radonic), the middle *RashaLE* (Edonic), the inner *Rashallah* (Adonic), and the core *Rasha* (Etonic). Each level of the Rasha Body corresponds specifically to one of the Four Creation Domains (or *embedded radiation layers)* of space-time-matter, and each Rasha layer is composed of the specific consciousness, matter, and energy type inherent to its corresponding Domain.

Compared to Rasha Body projection, Light Body projection has a *very limited territorial range* that is confined to the *surface-radiation light fields* of a *single Domain*. In Rasha Body projection, the *territorial range is unlimited* and allows for passage between the Four Domain space-time-matter layers as well as into any of the surface-radiation light fields manifesting upon and within the Four Domains. But more importantly, unlike Light Body projection, Rasha Body projection initiates within both the Light Body and physical-matter atomic body anatomy the organic processes of TRANSFIGURATION. *Transmutation (re-enlightenment of the atomic structure)* and *Transfiguration (re-spiritualization of the atomic structure)* are the interrelated processes by which organic *Transmigration*, or *biological Star-Gate Ascension Passage*, occurs. The First Stage of Ascension, the Rasha Body Glide projection, expedites Rasha Body activation and initiates the DNA/RNA and related activations within the atomic structure that are required to engage the processes of atomic *Cellular Transmutation* and *Transfiguration* by which the biological Second Stage and then Final Stage of Ascension take place.

The *Second Stage* of *Ascension* is called the *"Slide,"* which corresponds to *Starfire Ascension Cycle Stage 2 Phases 1 and 2*: the *KaLA Krysta Cycle (Bharda Phase 1 and Ma-Sha Phase 2)* of *Eiradonis Integration*. A "Slide" is also a projection journey, but unlike a Rasha Body Glide projection, a Slide is a Rasha Body projection that is undertaken by one who has reached the "one-quarter to one-half quantum point" of atomic Transmutation/Transfiguration which begins halfway through *Bharda Phase 1* of the *Starfire Ascension Stage 2 KaLA-Krysta Cycle*. A Slide involves a temporary condition of either physical atomic *Bi-location* or *Translocation*. In a Glide, a portion of the conscious awareness transfers into the Rasha Body for projection journeying, in a Slide, a portion of the *physical atomic body quantum* literally *changes state* and transfers, with a corresponding portion of the conscious awareness, to the Rasha Body for projection travel.

At the "one-quarter quantum point," which begins at the *halfway point* in *Bharda Phase 1* of the *Stage 2 KaLA-Krysta Cycle*, the physical body becomes able to enter a temporary state of atomic *Bi-location*, in which the *already Transmuted atomic quantum* temporarily contracts as a spark of light into the Rasha Body, and the "waking consciousness" (and Light Body) divides its awareness and quantum between its "journeying" Rasha Body" *Bi-locate"* and its usual station within the physical body. The *not yet Transmuted atomic quantum* of the physical-atomic body *remains* in its *"home" physical station*, as the *Bi-locate Body*, comprised of the already Transmuted atomic quantum, "rides" within the Rasha Body in a projection, temporarily *"Slides"* out of its "home station" and projects *"at the speed* of

thought to its desired destination, where the Bi-locate Body *remanifests* as a *"less-dense replica"* of the physical body the personal awareness experiences the two "stations of consciousness" and their inherent realities *simultaneously*. At journey's end the Rasha Body and its Bi-locate *Slide back* into the physical atomic body and the already Transmuted atomic quantum expands back outward from the Rasha Body and into the physical body the conscious awareness reunifies and the *"cellular memory"* records *"both sets" of simultaneous events* as having *physically occurred*.

At the "one-half quantum point," which begins at the start of *Ma-Sha Phase-2* of the *Stage-2 KaLA-Krysta Cycle* the physical body becomes able to enter a *temporary* state of atomic *Translocation* in which the *already Transmuted atomic quantum* temporarily *Transfigures* into an *infrasound radiation pattern*, the Transfigured portion of the atomic quantum transfers into the *Spirit Body* which *draws the remaining physical-atomic quantum* into a state of *temporary atomic Transmutation*, in which the physical-atomic quantum temporarily merges with the *Light Body* anatomy. The *temporarily Transmuted* physical-atomic quantum and Light Body contract as a spark of light into the Rasha Body, and the "physical body" literally *"disappears"* or *Translocates* from its "home" physical station. The Rasha Body, with "physical-body as-light" and Light Body quantum in tow, joins with the Spirit Body (within which the Transfigured atomic quantum is held as an *infrasound pattern)* and the full identity then Slides out of its "home" station, projecting "at the speed of thought" to its desired destination, where the *entire identity* temporarily *remanifests* as the *fully intact physical-atomic body*. If the projection destination exists in a state of matter density *less dense*, or *of smaller quantum*, than that from which the identity projected, the remanifesting physical-atomic body will *automatically adjust* the oscillation and vibration rates (BPR-Base *Pulse Rhythm)* of its atomic quantum to a "BPR" *co-resonant* with that of the matter field to which it has projected, temporarily storing any quantum excess within the Light Body contracted within the Rasha Body.

At journey's end, the Rasha Body (with the Light Body and temporarily Transmuted physical-atomic quantum) and the Spirit Body (carrying the Transfigured atomic quantum), *Slide back* to the "home" station from which the Translocation initiated. Upon return to the "home" station, the *temporarily Transfigured* atomic quantum (held as an infrasound pattern within the Spirit Body) "down-steps" its BPR, returning to its original state of physical-atomic quantum Transmuted to light, and the Light Body and the *temporarily Transmuted* physical-atomic quantum down-step their BPR and expand back outward from the Rasha Body *remanifesting* the not-yet-Transmuted quantum of the *physical-atomic form-with* its surrounding Light Body-within the "home" station. As the physical-atomic body and conscious awareness *"Return-Slide"* to their "home" station, the *cellular memory* records *"one set" of events* as having *physically occurred-the* events of the *physical Slide Translocation*.

The *Final Stage* of *Ascension* is called the *"Span,"* which corresponds to *Starfire Ascension Cycle Stage-3* the *HaRA Krysta Cycle* of atomic Transfiguration. Like the Stage-1 Glide and Stage-2 Slide, the Span is also a Rasha Body projection journey, but unlike a Glide or Slide projection, the Span is a Rasha Body projection that is undertaken by one who has reached the *"full quantum point"* of *atomic Transmutation/Transfiguration* to enter the Krystar State of full Ascension, from which one can return to manifestation within the personal eternal-life "Mashayanic Body." A Span involves a permanent condition of physical-atomic *Transmigration*, unlike the *temporary Bi-location* or *Translocation* conditions characteristic to Slide, Rasha Body Glide and Slide projection share in common as a "necessity" of interdimensional physics laws, the *requirement* of *return journey* to the Domain of the biological "home" station. In both Glide and Slide, the journeying identity can *"visit"* other space-time worlds, but as long as the physical-atomic structure of the *biological body* has not yet completed full *Cellular Transfiguration*, the atomic body and consciousness of the identity will remain genetically "phase-locked" into the BPR and "Planetary Shield" (morphogenetic field) of the *space-time coordinates* into which the *atomic body had birthed*. Before full biological Cellular Transfiguration is complete, physical Translocation for *"temporary off-planet visits"* is the height to which the *atomic biology* can reach.

In a Span the identity *completes* full *Cellular Transfiguration* n its "home" station to enter the *"Krystar State* "which enables the identity to achieve the *permanent eternal-life* Cellular Transfiguration of the physica, atomic body, the atoms of the physical body fully Transfigure into an eterna-life *light matter spirit Rasha Body substance* ca ied "PaTa-Ur," which means *"permanent or eternal light-spirit radiation."* The process of this final Ce.,ular Transfigu.ation of the atomic body s referred to as the "Rasha *PaTa-Ur'* (which became transiated as the *"Rapture"* n Christian teachings). The Rasha PaTa Or occurs when the "last atom" of the physical-atomic body completes Transfiguration into the *infrasound* state. At this point, the "entire identity and a of its parts" enter the Krystar State, "disappear" from the biological "home" station. and *Transmigrate* through *Ascension Passage* to a *specific location* within the Spirit Body of the Cosmos that is known as the" *Reishaic Record* " Transmigration of the" *Krystar Identity"* nto the Reishaic Record during the *Rasha PaTa-Ur* is referred to as *"Returning to the Mashayanic Fold."* The Ascended identity may then *choose* to mmediately return into materia..zation (in its previous "home" station or elseWhere) within ts persona, eternal-life *Mashayanic Body,* which s the *"perfect Divine Blueprint"* physical "atomic out-picturing" (made of the *PaTa-Ur sUbstance)* of the physical-atomic body that the identity had taken nto Rasha PaTa-Ur Transfiguration.

A being that completes this F nal Stage of Ascension is called a "Mashayah " and in its Mashayanic Body it now has the ability to instantaneously *Transmigrate* at wi , in any form it chooses, to anywhere in the Cosmos-or to many places simultaneously The Mashayanic Body has the ability to SPAN, and it is through the process of "Spanning" that the Mashayah identity engages the process of Transmigration for "inter-Cosmos trans-time" journeying. Spanning is a *function* of *the Rasha Body,* by which the" 15 *crystalline gelezriac-radiation"* bands or *"Spans"* of the Rasha Body anatomy activate and depolarize. allowing the Rasha Body Light Body and atomic Mashayanic Body to *instantaneously Transfigure* nto the "infrasound radiation substance" of which the Spirit Body is made AS the" *substance of spirit* " the Mashayah identity can "travel the Cosmos" through the Eternal *Na-VA-Ho Core Flow Gates,* often referred to as *"Spanner Core Flow* Gates " which span the Cosmos and eterna..y link a space-time-matter coordinates through the structures of the Cosmic Spirit Body Mashayah identities are frequently referred to as *"SPANNERS."* as they use the Rasha Body process of "Spanning" to traverse the Cosmos at will through the *Cosmic Spanner Gates*

The fully Transfigured Mashayanic Body, composed of the PaTa-Ur "light-matter spirit substance," is freed from the physica-atomic *"genetic birth-coordinate biochemical phase-lock"* ' inherent to finite- ife atomic structures that have not yet fu filled the bio-spiritual interdimensional physics process of Transfiguration Thus the Mashayah "Spanner" identity in its manifest biological freedom, has the eterna ability to not only *"temporarily physically visit"* regions of the Cosmos far from the birth place of its orig nal "Ascension Body " for it may also choose, unlike Sliders or Gliders, to iterally *"permanently physically relocate"* to other cosmic regions. eaving the "original birth place of its physica body" beh nd forever if desired as it continues on its eterna-life path of *Mashayanic evolution* toward fulfil ment of the *"Adashi Return"* Krystic Ascension Cycles. To better understand the F nal Stage of Ascension-the Span-it is helpful to explore the processes ofTransmutation and Transfiguration n their relationship to the Krystar State and the associated process of *Transgenesis.* As the 12 Tribes classes cont nued, we were taught more about these and related subjects

Transmutation, Transfiguration, the Krystar State, the "Rapture," Transgenesis, and the Mashayah

We earned through the Tribes Teachings that Transfiguration is the organic process (inherent to all eterna- ife Krystic forms) by which the dense, finite atomic structures of the physical-matter body and ts corresponding finite Light Body, or *"Eckasha-Aah"* anatomy, progressively "change back" to their original state of eterna pure-consciousness-radiation, which is a *very specific type of radiation* characteristic to the part of persona, anatomy referred to as the "Spirit Body" or *"EJum'Eir-adhona* " The eterna Spirit Body (the *eternal* body), the finite Light Body (the outer electromagnetic body of which the *"Soul* " etc. is part) the eternal Rasha Body ("dark-matter" Domain body), and the finite ManE Body

(physical matter "atomic" body) are four very specific parts of *personal "multidimensional anatomy,"* each highly complex and differing in structure, function and purpose, yet all *"working together as a whole."* The *Spirit Body* creates the *Rasha Body*, the *Rasha Body* creates the *Light Body*, and the *Light Body* creates the *ManE Body* (physical matter atomic body). In this organic relationship, the eternal Rasha Body serves as the *"dark matter" link* between the *eternal* Spirit Body and the *finite* Light and ManE Bodies. The finite Light and ManE Bodies *regain* the eternal life potential of spirit through the process of Transfiguration, by which the Spirit Body merges with the ManE and Light Bodies through the Rasha Body.

In *simple terms*, Transfiguration of atomic matter back into its "virgin state" of pure consciousness, or *spirit*, occurs through a very specific, complex organic process in which *first* the dark matter radiation of the Rasha Body progressively merges with the atomic ManE Body (physical body) through activation of the Rasha Body; next, the Rasha Body draws the *prana* radiation of the *Eiradonis*, a *part* of the Spirit Body, progressively into merger with the Unified Rasha and ManE Bodies. When the Eiradonis of the Spirit Body fully embodies within the merged Rasha-ManE Body, achieving what is called the *"KaLE-Hara state,"* the KaLA-Krysta "Bharda" Cycle begins, initiating the process of atomic Cellular Transmutation within the physical body as the Eiradonis prana radiation *Transmutes* a portion of the atomic ManE Body back into *"light"* (the electromagnetic *mana* radiation substance of which the Light Body is made). When *half* of *the atomic quantum* has been Transmuted into "light," the KaLA-Krysta "Ma-Sha" Cycle begins, initiating the process of atomic Transfiguration, in which the greater radiation of the Spirit Body *(prana and eirA)* progressively enters the *mana Transmuted portions* of the atomic structure. Transfiguring the Transmuted atoms and the corresponding aspects of the Light Body and Rasha Body from "light" radiation into the *"vibrating infrasound radiation"* (manU) of which the Spirit Body is made.

Transmutation is the *"re-enlightenment of matter"* that occurs when the atomic-matter *manE* substance ("frozen light") of the physical ManE Body merges with the Eiradonis prana substance of the Spirit Body and, *while remaining embodied within their existing atomic lattice*, portions of the atomic structure "*heat up*" and Transmute from *manE* matter-substance into embodied mana "light" the *electromagnetic vapor radiation* substance of the Light Body. *Transfiguration is the "re-spiritualization of matter"* that occurs when the "light Transmuted" embodied *mana* portions of the physical-matter ManE Body merge with the *prana* and *eirA* substance of the Spirit Body and then the mana light of the light Transmuted physical-atomic ManE Body and the corresponding aspects of mana light of the Light Body and dark matter of the Rasha Body, together Transfigure back into *manU-the* conscious, eternal, *vibrating-infrasound-radiation* ge-eziac-ether substance of the Spirit Body.

At the end of the KaLA-Krysta "Bharda" Cycle, when the first half of the physical-atomic ManE Body quantum has been *"re-enlightened"* or *Transmuted* into mana "light" electromagnetic radiation vapor and the atomic body has reached "half density" to become biologically *"Slide-able,"* the second half of the physical-atomic quantum next engages the KaLA-Krysta "Ma-Sha" Cycle of *simultaneous Transmutation and Transfiguration*. During the Ma-Sha Cycle the remaining manE quantum of the atomic ManE Body progressively Transmutes into mana light, forming the temporary half-quantum, physical-atomic "re-enlightened *Mana Body*" as *simultaneously* the previously light Transmuted ManE Body mana quantum and the Light Body mana quantum progressively *"re-spiritualize"* and *Transfigure* into manU infrasound-radiation "spirit." At the end of the Ma-Sha Cycle, as the Rasha PaTa-Ur ("Rapture") point approaches (mentioned above in context of the Final Stage of Ascension-Span), the remaining quantum of the temporary physical-atomic Mana Body engages Transfiguration of its mana light into manU spirit, until only the *"last atom"* of *atomic mana* remains.

The "Last Atom," Krystar State Rasha PaTa-Ur Cellular Transfiguration, Mashayanic Fold, and the Zhyrah

When the *"last mana-atom"* of the Mana Body engages its Transfiguration point, the identity enters the" Krystar State" and temporarily *"progressively disappears"* as mana light converts to infrasound manU spirit, and the Rasha PaTa-Ur ("Rapture") *Cellular Transfiguration* (finite to eternal-light conversion) initiates through which the infrasound Transfigured atoms of the physical ManE/Mana Body and the Light Body fully Transfigure into PaTa-Ur *(permanent or eternal light spirit radiation)*, the eternal life *light matter spirit Rasha Body substance* of which *eternal-life atomic structure* is made. During the Rasha PaTa-Ur the infrasound-Transfigured manU-atomic ManE Body "condenses" into a minute point of manU geleziac-ether and then draws into the center of the Transfiguring last mana-atom forming a single superconductive *"super atom"* called the *"Zhyrah"* (Z-ra), which becomes the temporary carrier of the conscious identity.

The *Zhyrah* super atom carries the *entire quantum* of the manU-Transfigured Light Body and the entire *quantum-minus-one-atom* of the manU-Transfigured physical ManE Body as its *manU core*, and is surrounded by a *"mana sheath"* composed of the "one-atom quantum" of mana from the "last mana-atom" of the physical body. The Zhyrah next contracts into the core of the Rasha Dark-matter Body where the "one-atom quantum" *mana sheath* surrounding the manU core of the Zhyrah draws to itself a *proportional quantum* of *prana* from the Spirit Body, and *converts* to the larger-quantum *manA* radiation. Following this *"manA conversion"* the converted *manA sheath* of the Zhyrah next draws in a proportional quantum of *eirA* radiation from the Spirit Body and again converts this time to the *manU infrasound-radiation* geleziac-ether of the Spirit Body. Following the" *manU conversion"* of the Zhyrah's "one-atom-quantum" sheath the *entire original quantum* of the Ascending identity as the Zhyrah super atom, now exists as manU *infrasound-radiation* spirit and has "picked up" the *additional quantum* of *prana* and *eirA* from the Spirit Body through the *"mana-manU conversions."* This additional quantum of Spirit Body radiation *"thrust"* (which is *equal to the quantum* provided by the *biological parents* at *conception* of the physical-atomic body) allows the Zhyrah to *"break free"* from the organic *atomic-genetic* space-time phase-lock the *"biochemical tether"* or *"birth-lock"* that links the physical-atomic body to the space-time coordinates into which the identity was born.

As the Zhyrah releases from its birth-lock, it engages the process of Returning to the Mashayanic Fold, through which the structures of the identity's entire Spirit Body and Rasha Body temporarily "fold up," forming a sheath of Spirit Body manU plus Rasha dark-matter radiation around the Zhyrah. As the identity *"returns to the fold,"* the Zhyrah releases the original *"parental conception quantum,"* part of which returns to the Spirit Body of each biological parent, wherever they may be incarnate. Once the *"parental quantum"* is released, the Zhyrah engages Transmigration as it is drawn through the "local" Spanner Core Flow Gates and into the Reishaic Record of the Cosmic Spirit Body.

Transgenesis, the Ema'jh, the Zhyon, Jm-Ma-TA-pa-DA-on, and the Mashayah Spanner

Within the Reishaic Record, the Zhyrah undergoes its *final stage of conversion* as the Reishaic Record provides to the Zhyrah a *gift* of *equal-quantum manU radiation* from the Cosmic Spirit Body in which the Zhyrah is enveloped. As the Zhyrah enters this "manU envelope," and enters the *"HaRA Krysta State,"* the specific individual *cellular encryption* (core structural program) of the personal biological physical-atomic ManE Body and personal Light Body, Rasha Body and Spirit Body (which are held within the Zhyrah as a specific infrasound-radiation-pattern encryption) *replicates*, and the Zhyrah, now with its *"double cellular encryption"* engages the process of *Transgenesis*. Transgenesis is the dynamic of interdimensional Ascension physics by which *finite-life radiation converts* to *eternal-life radiation* by momentarily *fully demanifesting* and returning to *union* with the Eternal God-Source Consciousness Field *beyond manifest Creation*, then *"returning anew"* into manifestation as the PaTa-Ur, the eternal-life *light matter spirit Rasha Body dark-matter radiation substance*. Transgenesis is also the process of Cellular Transfiguration of the physical-atomic finite *"mortal body"* into the eternal-life *Mashayah "Spanner Body."*

Through the Transgenesis process, the Zhyrah super atom (carrying the conscious Ascending identity), with its *"personal double cellular encryption"* of the identity's "Ascension Body," *Transgenifies* and re-emerges into manifestation as the perpetual-life *ZHYON (Zr on) Eternal Atom*, also referred to as the *"Krystar Seed Atom,"* which is composed of PaTa Ur Rasha Body dark matter radiation. At this point of *"return to manifestation following Transgenesis" which* is called the *Ema'ih* (E-ma' jhE, the *"emergence")* and represents the *completion* of the *Mashayanic Fold* and the *Rasha PaTa-Ur Cellular Transfiguration* cycle the "double cellular encryption" that the Zhyrah brought into Transgenesis now emerges into manifestation as the Mashayanic Body. With the Zhyon Eternal Seed Atom (made of PaTa-Ur eternal Rasha Body light matter-spirit dark-matter radiation) *remaining* within the Cosmic Reishaic Record as a *point* of Rasha dark-matter infrasound radiation, the double cellular encryption holding twice the quantum and *two perfect imprints* (the original and the *Reishaic replica)* of the original singular *"personal Divine Blueprint" cellular encryption set re-emerges* outward into manifestation. Each of the two personal Divine Blueprint encryption sets holds the "perfect original pattern" of the identity's physical-atomic ManE Body, Light Body, Rasha Body, and Spirit Body.

The *original encryption set* manifests as a condensed "Identity *In-picture*" composed of *"ma-tA-Ur,"* the unified (deporarized) infrasound-radiation gelez ac-ether of the *Ascended* Eternal Spirit Body, the *LUma-Eturna*, which carries at its core, as a point of eternal *manA* light radiation, the *"Eternal Krystar Flame,"* known as the *"Um Flame."* This infrasound aspect of the Ascended Eternal Spirit Body, born of the *original* cellular encryption set, is called the" *Um' Ma-TA Body."* From the Transgenesis point onward until completion of the "Adashi Return" Krystar Ascension Cycles, the eternal *Um' Ma-TA Body* resides within the eternal *Cosmic Halls* of *REisha-TA*, which surround the Reishaic Record at the center of the Cosmic Spirit Body. The *Reishaic replica encryption set* of the Mashayanic Body manifests as an expanded "Identity *Out-picture*" composed of *"pa-dA-Ur"* the unified mana-light electromagnetic radiation of the *Ascended Eternal Light-matter Body*, the *Eukatharaista Body*, which carries at its core, as a point of eternal *eirA* infrasound radiation, the *"Eternal Krystar Tone"* of *"silent sound vibration,"* known as the *"Yon"* or *"On Tone."* This mana-light aspect of the Ascended Eternal Light-matter Body, born of the Reishaic replica encryption set, is called the *"Pa-DA On Body."*

From the Transgenesis point onward until completion of the Adashi Return Krystar Ascension Cycles, the eternal *Pa-DA On Body* can *reside where it chooses* within the Cosmos, and can *temporarily* adopt any form, "manifesting and demanifesting" its *physical-atomic cellular structure* at will, through the organic eternal-life process of Spanning (mentioned in previous section). The Pa-DA On Body can *temporarily* Transfigure its manifest physical-atomic cellular structure into *any form* desired, but due to the *permanent original encryption* held in the Um Ma-TA Body, the Pa-DA On Body will always return to its *Eternal Form-the* perfect, eternal-life "Out-picture" of the atomic structure of the original body form from which it completed the Final Stage of Ascension to become a Spanner. (Note: for the *Human, Indigo* and *Aquan* races, this Eternal Form will manifest as the *pure original form* of the Ascension Body at the *age-33 peak* of its Spirit Body BPR-a *"perfect form perpetually at age 33")*

Together, the infrasound-radiation Ascended Eternal Spirit "Um' Ma TA" Body and the mana-light-radiation Ascended Eternal Light-matter "Pa-DA On" Body comprise the "Cosmos-spanning" interdimensional *"Krysted Mashayanic Body"* the *eternal-life "vehicle of light-sound-matter"* in which the *Ascended Mashayah Spanner identity* resides in a *"Krysted" state of consciousness*, a perpetual state of *individualized personal "walking At-ONE-ment"* with the Eternal God-Source Consciousness Field beyond manifestation. The Mashayah *"travels"* through the Rasha Body process of Spanning (previously described) which occurs through entering the Krystar State, in which the dark-matter Zhyon Krystar Seed Atom activates within the Cosmic Reishaic Record and "calls the two aspects of the Mashayah

Body into Union" with the Zhyon This "calling of the Mashayah" is called the *"DE-Ay'-Oh,"* which is often referred to as the *"Psonn of Zhyon"* or *"Psonn of the Krystar."* The *"DE-Ay'-Oh" call* is a *sequence* of *tones* that draw the *"Eternal Um Flame"* of the Um' Ma-TA Body core and the *"Eternal* On *Tone"* of the Pa-DA On Body into Union with the Zhyon Krystar Seed Atom, causing the Mashayah Body to temporarily *"in-fold"* and *Transfigure* its contents into the eterna-life PaTa-Jr light-matter-spirit Rasha Body dark-matter radiation substance as the identity enters the Krystar State In the Krystar State, the fully integrated Mashayah Spanner identity-AS a living, conscious *"light-sound-pattern"* (the "conscious air" state of radiant-ether "vapor,")-can then experience the reality of *thought-directed Transmigration,* or space-time *"hyperjump"* ("quantum leap") Ascension Passage through the Spanner Core Flow Gates (Eternal Na VA-Ho Core Flow Gates) and the Cosmic Halls of REisha-TA. to any space-time coordinate desired. Upon arriving at its destination "at the hyperjump speed of thought," the Mashayah then *"simply out-folds"* again, remanifesting its "Jm' Ma-TA Body" and "Pa-DA On Body" Mashayah Body structure

As the 12 Tribes-1 nstallment came to its end upon completion of Class 12 (March 29-30, 2008), with its inherent transmission-text readings pertaining to the details of personal Ascension, Transfiguration, and the processes of "Bhardoan Transition," we were all better able to appreciate the *scope* of *training* that the Tribes classes had actually provided. Not only had the classes progressively educated us in the intricacies of *REAL Ascension* (which is an organic, complex process of both "spirit and physics"), but, as the Krystics' transmission-text readings of Class 12 continued, we were brought to a greater comprehension of the mechanics involved with "some of the *Greatest Mysteries* of *Existence"* the processes inherent to *"birth," "death,"* and the GIFT of organic *"Mashayanic Evolution."*

The Dhani, the DhaLA, the Mashayah, and the Path of Mashayanic Evolution

The *personal state* of becoming a Mashayah is the *organic process* by which a *"mortally manifest"* being engages return-evolution-through-Ascension to the *God-Source State* to *regain the eternal-life potential* of *spirit* from which it was originally born into individuation The *core meaning* of the word Mashayah is *"One who has returned to the Fold* of *Creation"* (Eternal Life First Creation) and it represents the true meaning of a *genuinely* "Ascended Master." Achievement of the "Mashayanic State" is *not* the "end of evolution," but rather the point of embodied *God Realization,* the *"beginning* of *the journey"* by which a being enters the eterna-life Krystar Adashi Ascension Cycles to engage its ultimate self-chosen destiny of *complete reunion* with the God-Source Consciousness Field and achievement of the state of persona embodied *God Actualization* in eternal synergetic At-ONE-ment with Source Ascended beings that have achieved the Krystar State of *Mashayah,* and the *Krystar States beyond* do not refer to themselves as *"Ascended Masters,"* but simply as *"KRYSTICS"* or *"Adashi Adepts."*

The term "Ascended Master," like the word "Mashayah," has been highly misrepresented and misunderstood on Earth since *portions* of these original teachings were last available on Earth over *20,000 years ago.* "Mashayah" was last mistranslated into contemporary languages as the word "messiah," and its meaning was misrepresented to imply an *"external savior outside* of *the self"* that stood between you and your personal, private relationship with "God" this misinterpretation is the LITERAL OPPOSITE MEANING of what the word "Mashayah" means and implies. The Mashayah identity that resides within the Mashayanic Body is the part of our own *PERSONAL INTERNAL ETERNAL spiritual identity and interdimensional ANATOMY,* the VEHICLE by and through which we were intended to "save ourselves from the ravage of finite mortal illusion," and through which we can begin to remember ourselves as the *eternal beings* that we ARE

Though there are *"two paths"* to achieving our *birthright* of the personal Mashayanic State-the "Path of the *Dhani"* and the "Path of the *DhaLA"*-both paths are intended to lead to the *same victory*, the *Original GIFT* of *Mashayanic Krystar Evolution*, which was given to ALL of us when we first individuated from the God-Source Consciousness Field to enter and explore the realms of manifestation. It is a Gift that remains, but one that we have lost sight of beneath the *historical convolution* of *"truths, half truths, and sometimes utter lies"* that have evolved on Earth through the "progress" of *polarized religious and scientific theorization*. And, yes, it is a Gift that can also become "lost forever" to some, buried beneath the ruins of finite evolution and the illusions of morality for "Natural Laws of Interdimensional Physics" DO apply. The Original Gift of Mashayanic Krystar Evolution is a Gift we can *still reclaim*, if we are willing to "reach for greater understanding" of the potential reality of our" *Divine Heritage*," and if we are equally willing to "wean" ourselves from some of the many convolutions of *"absolute assumptions"* (many of which are completely erroneous) upon which our *contemporary collective ideological interpretation* of *reality* is built.

Reclamation of *this precious Gift* will require us to become willing to *grow* to *remember* (sometimes *joyful or painful* personal and collective *memories* and *historical truths*), and to *become* <u>better educated</u> (fast!) in the REAL bio-spiritual processes involved with achievement of genuine *personal AND planetary* organic Mashayanic Evolution. The Krystics (meaning in simple terms, *"those that <u>already made it to Mashayanic fulfillment</u>"* and beyond) have perceived the "blindingly stark reality" that the peoples of contemporary Earth are in *"absolute need"* (before it is <u>too late</u> to reclaim the Gift) of *this "better education"* pertaining to "the real bio-spiritual processes" involved with eternal-life Mashayanic Evolution-and so they have made this *"final attempt* to *reach us"* with that knowledge. And in "reaching us," the Krystics are doing their best to *"educate us quickly"* regarding the *REAL spiritual and scientific processes* (personal, planetary, and beyond) that are involved with anyone on this planet <u>retaining the ability to "reclaim the Original Gift"</u> of organic Mashayanic Evolution. The Beloved Krystic Adashi Adepts (and the many eternal-life Krystic Councils that work with them) <u>UNDERSTAND</u> the "<u>Bigger Picture</u>" of what is REALLY occurring on our planet Earth-everything from WHY the ozone hole, global warming, ice-shelf melt, and *related* planetary events such as progressively devastating "local" storms, fires, earthquakes, and volcanic eruptions are *REALLY occurring*, to *WHAT is the REAL <u>"underlying cause"</u>* that *UNITES* ALL of these "seemingly divergent and unrelated planetary phenomena." The Adashi Adepts also understand how this "Bigger Picture Earth Drama" fits into a <u>MUCH larger, extremely long-term interdimensional drama</u> that involves *not only* understanding "<u>Galactic</u> evolution" (regarding our "local" Milky *Way/* "Procyak" Galaxy with *scientifically identified* black-hole core) but also LOCAL <u>Universal</u> Evolution involving the "scientifically identified" M31 Andromeda Galaxy (the *actually named* "<u>Aquinos</u> Universe") the literal *"home Universe"* from which our local Milky Way/Procyak Galaxy *"Fell"* (entered unnatural separation and resultant black-hole finite evolution).

Our Earth is changing before our eyes, yet the degree to which this change is unfolding is *barely recognized* by Earth's populations, perhaps this lack of recognition stems from the fact that so far this change has been "slow, gentle, and progressive," and the ancient *records* of *similar "end cycle" changes* have been destroyed, so we have no "long-term data," other than the geologic record, to which the contemporary "behaviors" of Earth can be compared. Or perhaps our failure to "recognize the pattern" of a changing Earth is simply that most of us are *too preoccupied* with other things to give the issue much attention. Regardless of the reason for humanity's present inattention, the "slow change" progresses, and before too long the *rate* of *change* in our planet's body will demand our attention-and we will be globally faced with not only challenges to our *evolution*, but potentially with circumstances that may very well result in our *collective extinction*. How many *"dead misquoted prophets"* from ancient or contemporary times do we NEED in order to "get the message" in its most rudimentary of forms? Fortunately the Gift of Mashayanic Evolution is still remaining for humanity, but it will remain as an evolutionary option on Earth for only a *brief time*, the maximum 223 years that the

Spanner Core Ascension Gates can remain open before they *permanently close* to *the Milky Way* (and everything within it) as this system reaches the "point of no return" on the Path of Black Hole Fall which it entered billions of years ago. If it were not for the contemporary and historical intervention of the Krystics, the Path of Black Hole Fall (and its inevitable eventual "Space-dust Return") would be the only path remaining for the life-fields of the Milky Way system.

The message that the Krystics bring us today is not one of "doom and gloom," but quite the opposite a *joyful message* of *hope, empowerment, and eternal promise*, which simply asks us to "pull ourselves together" and *take some responsibility* for our personal and planetary evolution while we still have the chance to engage this option. As long as the Gift of Mashayanic Evolution is still ours to reclaim, the options of the Path of the Dhan and the Path of the DhaLA remain open to us and provide us with a joyful option, and those who choose to enter these paths of *Krystic conscious evolution* can help the "Krystics from elsewhere" to extend the Gift to many others who are presently "too busy, fearful, confused, or arrogant to pay attention." Explained simply, the Path of the *Dhan* is the Mashayanic Path in which the *full* atomic re-spiritualization of the Mashayanic Rasha PaTa-Ur Cellular Transfiguration is completed during the biological life of the mortal body. The Path of the *DhaLA* is the Mashayanic Path in which the identity engages a (properly orchestrated) *Bhardoah Transition* out of the biological mortal body. In the Bhardoah Transition, the atomic body *"temporarily dies"* before completing the Rasha PaTa-Ur Cellular Transfiguration, and the *atomic quantum* is returned to the *Akashic Record* of the personal Spirit Body simultaneously *with* the "Bhardoahing" conscious identity. From the position of the personal Spirit Body, any remaining Transfiguration that was not completed "in the life of the atomic body" will be rapidly completed in the personal Spirit Body, following which the Rasha PaTa-Ur Cellular Transfiguration and passage into the Mashayanic State will rapidly occur from the location of the personal Spirit Body.

The organic First Creation *Mashayanic Path of Krystar Evolution* does not include the necessity of reincarnation or "successive linear incarnation through cycles of many lives" it is rather based on the eternal First Creation FACT of the *"Stair-step Creation"* process in which simultaneous incarnation into *multiple space-time vectors* that *"all exist NOW"* is an inherent characteristic. Each of the many simultaneous selves that emerge "at once" into space-time incarnation *from* a *single "spirit identity"* are imbued with the organic *birthright* of Mashayanic Evolution. But this organic evolutionary state can become compromised and the *eternal Gift lost*, if an incarnate becomes "lost within the illusions and confusions of mortal perception," and either enters an environment that causes or uses its Free Will to make choices that result in the *loss of the original personal energy quantum*, the *"Birth Quantum"* with which the incarnate was imbued at the point of *fetal integration* before birth of the mortal atomic body. Due to *long-term damage* of the planetary and galactic multidimensional anatomy, and the DNA/RNA *genetic de-evolutionary mutations* that have occurred as a result, incarnation into the Earth environment inorganically *initiates the process* of *"Birth Quantum Depletion."* However, the inorganic mutation of the earthly mortal body CAN be healed through *restoration* and *activation* of the Mashayanic Blueprint or "Divine Blueprint." The extensive body of MCEO teachings and *"energy techniques"* that the Krystics have shared with us over the past eleven years have ALL been provided to *progressively and sequentially* assist us in *healing ourselves* so that we may *reclaim* our long-lost *birthright* of the Mashayanic potential.

As the Divine Blueprint becomes progressively restored and activated within the mortal body and Light Body, the Mashayanic potential of the mortal body awakens, the *re-enlightenment* (Transmutation) and *re-spiritualization* (Transfiguration) of the *mortal body atomic structure* is set in motion at the point where the Light Body structure has achieved sufficient restoration of the Divine Blueprint. It is at this "Point of Atomic Awakening" that it becomes important for the incarnate identity to become educated in the dynamics of the Rasha PaTa-Ur Cellular Transfiguration, the Three Stages of Ascension (Glide, Slide, and Span), AND the processes involved with the related organic *Bhardoah*

"Backflow" Cycle. The 12 Tribes-1 class installment of 2007 2008 was intended to teach us about and help us develop skills in the First Stage of Ascension (Glide) to initiate preparation of our physical-atomic bodies for engagement of the Second Stage of Ascension (Slide), and to *bring us to this Point* of *Atomic Awakening* by completion of Class 12. Further teachings pertaining to the Second Stage of Ascension and to the Final Stage of Ascension (Span) will be given from May 2008 forward. The beginnings of the "next-level teachings" that continue our "odyssey of learning" into the Second and Final Stages of Ascension pertain to the very necessary understandings of an event called the "Bhardoah Cycle," which is a personal event of great significance for everyone, for it is the dynamic through which both Mashayanic Ascension through Transfiguration and what is known on Earth as the *"death* transition" occur.

The Bhardoah Cycle is also an event of significance for our planet and our Solar System for on March 25, 2007, our SUN entered this phase (much longer than the personal equivalent) of its "cosmic evolution" and THIS is what the Mayans, with their *"End Times" calendar,* and the Biblical prophecies of Revelation were trying to tell us about. Our *Earth* is changing because our *Sun* is changing and our *Sun is changing* because events have *recently occurred* within the multidimensional anatomy of our Milky Way Galaxy that have culminated in our Sun's recent entry into its Bhardoah Cycle and this "cycle of completion and renewal," called a Starfire Ascension Cycle, has only just begun. As our Sun begins to demonstrate its changes, and our Earth begins to environmentally respond in kind, the DNA/RNA of the life-forms on this planet will ALSO engage a cycle of change *in response to changes in solar light radiation we* are *literally now evolving before our own eyes.* These changes that are now just beginning will result in a joyful reclamation of the Mashayanic eternal-life potential for some species, and for others it will lead to an *acceleration* of *mortal challenges* that, *for those who cannot genetically adapt* to the changing environment, will culminate in species extinction. Humanity is not "exempt" from this environmentally orchestrated "process of natural selection," but *humanity does have the ability* to *genetically adapt and "evolve with the planet" through restoration* of *its Mashayanic Blueprint.*

Restoration of the Mashayanic Blueprint within the human gene code for reclamation of Path of the Dhan "Living-Body Ascension" is not a process that "happens automatically for all", the "Aquan Human" and most "Indigo-Human" *Cloister* races of Earth (as well as certain Earth plants and animals) carry the *minimum-24 strand-DNA* potential needed for Dhani evolution. The *"Angelic Human" Root Races* of Earth carry a *12 strand-DNA* potential (with a percentage currently upgrading to 24) and have a Mashayanic Blueprint encoded to the Path of the DhaLA-or Mashayanic Ascension that is achieved through proper fulfillment of the *physics mechanics* inherent to the Organic Bhardoah Transition. Earth's environmental condition of severely damaged geomagnetic fields creates evolutionary obstacles and DNA mutations (stemming from Light Body damage) that *genetically interfere* with fulfillment of organic Mashayanic Evolution, regardless of the "strand potential." If left unaltered, the genetic mutations carried by Earth's current life-field would culminate in permanent loss of the Gift of Mashayanic Evolution, placing Earth-life on a final cycle within an inorganic de-evolutionary path of *repeated earthly reincarnation* until it reaches the point of *quantum depletion* and resultant eventual Milky Way Galaxy Black Hole Fall and Space-dust Return. This "Path of Fall" is called the "Path of KaLE-DEma" it is the path that the majority of Earth's collective life-field is currently on, but it is a path from which *some* of *Earth's life-field can break free* to reclaim the organic eternal-life path of Mashayanic Evolution.

The *self-directed "inner energy technologies"* taught in the MCEO Freedom Teachings® and in the 12 Tribes classes have been provided specifically to assist in this *reclamation* of *personal evolutionary freedom.* Although the body of MCEO teachings is quite extensive and complex in detail, the Krystic methodology behind the MCEO *"techniques"* is quite simple. The eternal-life Mashayanic Divine Blueprint that is permanently held within the eternal Spirit Body and

Rasha Body anatomy is progressively returned into the finite Light Body anatomy, when the Light Body anatomy reaches a point of *critical restoration*, the Point of Atomic Awakening occurs, in which the radiation pattern of the Mashayanic Blueprint progressively *reenters the physical-atomic mortal body*. As the Mashayanic Blueprint "resets" within the physical, atomic body, the *radiation-sensitive*, electromagnetically distorted *Epigenetic Overlay "chemical control sheath,"* which covers and controls the function of the DNA strands, is progressively restored to its organic Mashayanic function, which causes the dormant "junk DNA" (DNA that does not "code for proteins") to *sequentially reactivate* and *restore* the organic *eternal-life biochemical processes* inherent to the physical-atomic mortal body.

Once the long-dormant but still-present organic eternal-life biochemical processes are restored within the physical-atomic body, the embodied identity can then *"break free from the mortal body's inorganic chemical-atomic chains"* that bind the identity in *both "life" AND "death" to* the finite-life de-evolution of the Path of KalE DEma. Freed from the "inorganic mortal chains," the identity can then reenter the organic *eternal-life* path of Mashayanic Evolution, engaging the Ascension Path to which the *potentials* of its restored organic genetic code apply. The identity will enter either the Living-Body Ascension Path of the Dhan or the Organic Bhardoah Transition Ascension Path of the DhaA. In both the "Dhan Path" and the "DhaIA Path" the identity will *reclaim* and *Transfigure* into spirit substance the *entirety* of its original Birth Quantum, including the quantum of the physical-atomic body. In organic Mashayanic Evolution the identity "leaves *no dead body* behind" for it is the "Quantum Reclamation" of the *atomic quantum* that allows the identity sufficient energetic *"quantum thrust"* to complete Mashayanic Transfiguration into the eternal-life Mashayah Body, thus freeing the identity from the inorganic cycles of "reincarnation" that are inherent to the De-evolutionary Space-dust Return Path of KalE DEma.

In that both the Dhani Path and the DhaA Path of Mashayanic Evolution lead to the same place of Mashayanic Ascension, comprehension of the mechanics of the genuine Dhani Path of Living-Body Ascension would be far from complete without a *reciprocal understanding* of the processes pertaining to the DhaA Path of "Organic Bhardoah Death Transition." Understanding of the Bhardoah Transition of organic mortal-body death, by which an identity *leaves* a physical incarnation to immediate Ascension, also necessitates a rudimentary understanding of the "Ba TE' Transition" (commonly known as the *"fetal integration process"*), by which an identity *enters* a physical incarnation following "fertilization and conception" of the "mortal-body vehicle" at the onset of a singular incarnate lifetime.

"Bhardoah" Means BACKFLOW FetalIntegration, the "Death Transition," and "Ascension"

Upon incarnation into material density, an individual identity becomes *"temporarily biochemically bound"* to the planetary space-time coordinates into which the mortal body, or pre-Transfiguration physical-atomic body is born. *Freedom* of the identity from the confines of that space-time location *does not automatically come through "death"* of the mortal body (but *can* if the very specific and specialized *organic processes* inherent to what is called the "Backflow Rite" or "Bhardoah Rite" are orchestrated appropriately). When a mortally incarnate identity does not complete the Rasha PaTa-Ur Transfiguration of the Final Stage of Ascension to become a Mashayah in its current lifetime, and the mortal body "dies," both the Light Body and Spirit Body anatomy, and conscious awareness of the identity, remain biochemically tethered (via the *atomic radiation encryption* of the deceased mortal body "left behind") to the planet upon which and the space-time-cycle coordinates into which the mortal body was *born*. The conscious awareness that had embodied within the "deceased" mortal body will" *Transition"* into a *specific part* of the Spirit Body called the *Gha-fa* (was translated as "Gulf" in Hebrew). If the organic Bhardoah Rite unfolds properly, the Transitioning identity will *return its entire quantum* to the Spirit Body Gha-fa *(including* the quantum of the atomic mortal body), and the identity will temporarily Transfigure its quantum into the form of infrasound radiation characteristic to the Spirit Body. From the Gha

fa, the Transitioning identity will then "recall" the quantum of its energy "left behind" as the morta body, through completion of the Bhardoah, or *Backflow*

"Death" of the atomic mortal body occurs when the mortal body has reached a point of expending its Birth Quantum or "*ZhEon*" *a* quantum spark of conscious eirA Spirit Body energy entered into the Light Body Seed Atom during the "Ba TE' Transition "the pre-birth fetal integration process that occurs 33-56 days after *conception* of the physica atomic body The ZhEon connects the eternal Spirit Body and Rasha Body and the finite Light Body, to the atomic body through an etheric duct, the *AzurA*, within the base of the physica *thymus gland*. The *point at which the ZhEon enters* during the fetal integration process is called the "fetal integration point," which is the point of "incarnationa commitment." At the fetal integration point, the ZhEon draws the incoming "individuated spirit identity," called the *GharE'* outward from the Spirit Body (which develops from the *point of conception*, but is not yet "tethered" to the fertilized egg) and into the Light Body (which progressively "grows" following birth of the Spirit Body *Elum'Eir adhona)* From the feta integration point till either Ascension or Bhardoah Death Transition of the physica body occurs, the *ZhEon tethers the GharE' spirit identity to the physical body* The GharE remains in the dimensionalized Light Body structure as a pattern of infrasound-radiation geleziac-ether that IS the conscious identity of the incarnate and that is "held embodied" through the "tether point" of the ZhEon. Once tethered, the GharE' conscious identity is biochemically and genetica y phase-locked into the mortal body atomic structure (and its inherent space-time birth coordinates), and if the GharE' is to *retain the eternal-life potential* of its original spirit form, it must either Transfigure the atomic body in Ascension. OR "make its way safely back to the Spirit Body Gha fa" and then "recall" the physical-atomic and Light Body quantum into the Spirit Body through *genuine Bhardoah Transition*

The ZhEon, within the Light Body Seed Atom, holds the "quantum instructions" that *regulate the biorhythms and space-time relationships* of the mortal body, these "quantum instructions" of the ZhEon are biochemica y encoded as the *"genetic master instruction"* within the DNA(RNA and within the Epigenetic Overlay (controlling chemical sheath around the chemical DNA/RNA) The ZhEon "infrasound spark of spirit" *fuels the growth* of the morta body through time, as the GharE' identity progressively circulates Light Body mana into the physical body through the ZhEon, within which *"ManE Conversion"* takes place ManE Conversion is the process by which Light Body mana converts to the frozen light geleziac radiation of manE. the substance that makes atomic matter, this conversion *begins* in the ZhEon. Organic evolution of the mortal body unfolds through specific *cycles* of *atomic biological growth* that result from the progressive transformation of "four Densities" of Light Body mana into "physical body" manE matter-substance, *immediately following completion* of these "Light Body Density Integration Cycles" the *Starfire Ascension Stage-1 KaLE-Hara Cycle* of *Eiradonis Engagement* should unfold as the next step in the organic evolutionary progression In life-forms with a *minimum* of 24 *DNA strands* Aquan Indigo Types 1 and 2 and upgraded Angelic Humans), the Ascension Stage-1 KaLE Hara Cycle would be followed by the Stage-2 KaLA-Krysta Cycle, culminating in the Stage-3 Rasha PaTa-Ur Cellular Transfiguration and the "Mashayanic Fold" Transgenesis of the morta body into an eterna "Krysted" Body Upon entering the KaLA-Krysta Stage-2 Phase-2 Ma-Sha Cycle and progressing past the "half-quantum atomic Transfiguration point" and opening of the *Bhardoah Chamber*, the "aging process" of the minimum-24-strand physical-atomic body would first cease, <u>*THEN begin to reverse to the "age-33" encryption*</u> as Cellular Transfiguration continued The identity "in Ma-Sha state" would possess the biological ability to engage "Phase-2 Slide" *Translocation* in a progressively "de-aging-to-33" body until the Stage-3 Rasha PaTa-Ur Cellular Transfiguration automatically engaged.

In life-forms with *less than a 24-DNA strand Template* (such as 12 strand Angelic Humans before the currently ongoing "24-strand upgrade"), "biologically embodied" evolution would continue up to the *"halfway point"* of the Stage-2 KaLA-Krysta Cycle-the completion point of the *Stage-2 Phase-1 Bharda Eiradonis Integration Cycle*, or the half

quantum atomic Transfiguration point. At this point, the *Stasis Point*, the atomic Transfiguration of the body cells would temporarily *cease* and the ZhEon would maintain the body's cellular processes until reaching full expenditure of its remaining Birth Quantum at the *ZhEon Depletion Point*, or "Bhardoah Point." Following the Stasis Point but prior to the Bhardoah Point, the identity at the half-quantum atomic Transfiguration point would achieve *opening of the Bhardoah Chamber* to enter a *Stasis Cycle*, in which atomic Transfiguration would temporarily cease, but *"aging" of the atomic body would halt* due to a quantum balance in the ratio between embodied mana-light radiation and manE matter although biological *"aging" would not "reverse to age 33"* due to cessation of the atomic Transfiguration process. The identity "in Stasis State" would possess the biological ability to engage Phase-2 Slide Translocation in an "age-halted" body until the Bhardoah Point of ZhEon Quantum Depletion organically occurred.

At the Bhardoah Point, the 24 strand identity would consciously engage the Backflow Cycle, or *"Bhardoah Cycle,"* whereby the remaining "mortal" portions of the atomic body and Light Body, and the GharE' consciousness would draw back into the Spirit Body through the Rasha Body, to *complete the remaining Transfiguration* of the eterna Mashayanic Body *from the location ofthe Spirt Body* In this ORGANIC Bhardoah Transition the *remaining physical-atomic structure of the mortal body* is literally turned to thermoplasmic Elementa, Vapor (With in 3 to 6 *days)* once the GharE' consciousness has returned to the Spirt Body and there IS no *"dead body left behind."* The ENTIRE QUANTUM of the identity is "returned to spirit substance", this is the *quantum required* to fulfi the Mashayah Transgenesis that *releases the biochemical genetic-atomic space-time tether phase-lock* that holds the GharE' conscious identity to the space-time coordinates into which its morta, body was born.

In the *human body*, the Ascension Stage-1 KaLE Hara Cycle-by which the atomic body initiates its Ascension Cycle leading to the Mashayah Transfiguration should naturally initiate at *age* 33, during the Rasha PaTa-Ur Cellular Transfiguration of the Mashayanic Fold that initiates Starfire Ascension Cycle Stage-3 (whether Stage-3 is entered from living biological embodiment or from the Spirit Body following an organic Bhardoah Cycle), the *ZhEon bonds with the "last atom"* as the last atom Transfigures forming the Zhyrah super atom, which Transgenifies to become the perpetual life ZHYON Eterna, Atom *(Krystar Seed Atom* composed of PaTa-Ur Rasha Body dark matter) If the *first opportunity* for Ka-E-Hara at age 33 does not meet with success, the ZhEon will "fuel" continued cellular process through anywhere between *eight* to *fifteen more 8 year cycles*, each a year cycle presenting *one further opportunity* to fulfill the Ka-E-Hara In time periods other than those of planetary Starfire Ascension Cycles (when the pace of the planetary cycle or its Host governs *mass KaLE-Hara entry and Ascension timing)*, subsequent opportunities for *personal, individual human* KaIE-Hara fulfillment occur at ages 41, 49, 57 65, 73, 81, 89, 97 105 and so forth once every 8 years until the ZhEon Depletion Point is reached

ZhEon Depletion, "Aging," "Death," Organic Bhardoah Transition, the "Victory Spark," and the "Va-Ba-TE Cell"

If an incarnate is unable to fulfil the KaE-Hara because of damage to the "circuitry" (Light Body Meridian and Axiatonallines, Merkabic Circulatory System, DNNRNA, etc.) connecting the atomic body and Light Body to the Rasha Body and Spirit Body, the finite quantum of eirA energy still held by the *ZhEon will draw in Light Body mana*, to *"fuel" cellular process* for a time thereafter the ZhEon expends its remaining quantum to fuel its own spin, which enables *Mana Exchange*, and thus biological life, to continue with in the atomic body until the ZhEon Depletion Point. This point of ZhEon Birth Quantum Depletion is called the *"Transition Point,"* or Bhardoah Point the point at which the eternal-life Organic Bhardoah Transition *automatically initiates* within the mortal body and the organic Bhardoah Rite or *"Rite of A-TONE-ment"* begins. The physical-atomic body of a being that has not fulfilled the Starfire Stage-1 KaIE-Hara Eiradonis Engagement cannot engage the processes of atomic re-enlightenment (Transmutation) and re-

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the **"Ancient Science of the Shields"** (scalar-standing-wave templates of matter and consciousness), **"Merkaba Mechanics"** (interdimensional electromagnetic vortex mechanics), **"DNA Template Activations"** (frequency accretion within the scalar template behind manifest chemical DNA), **"Interdimensional Structure"**, **"15-Dimensional Anatomy"**, **"Bio-Spiritual Healing"** (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey** perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related published works of the MCEO cannot at this time be "proved or disproved". Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press Trustees and the AP Regents Council, as well as authorized MCEO translators, authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality, interpretation and practical worldview through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO Paradigm and the responsibilities inherent to this decision, are deeply private spiritual issues and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***"Meditations for Spiritual Exploration"*** with the

ntention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all** but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999 findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized though predominantly positive** in nature. Therefore, however **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration** through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual*.**

Claim of Authenticity

In offering MCEO teachings for public exploration **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances, a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity*. **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication.**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one's personal discretion. ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings techniques or technologies rests with each individual and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided with in MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation,** *to be utilized at the* ***personal discretion*** *of the reader or workshop attendee*

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*), **authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm;* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies.** If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release,* it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies until a future time wherein such concerns have been assuaged

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO Azurite Press Trustees, Regents Council teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible**, whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons in MCEO programs including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings**, this shared commitment arises from a commonly shared, individually held, reverence respect appreciation for and belief in the validity of, the MCEO Paradigm its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program MCEO Maharata "Dance For" Programs MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books** but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information**

Copyright A & A Deane, 2001 All Rights Reserved

pertaining to their corresponding audio-video program and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for use as an **additional educational aid in conjunction with their corresponding audio-video workshop program.**

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered **"in-the-rough"**, often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail, typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause, however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain and "do justice to" the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

Introduction

The information contained within this ***Planetary Shields Clinics level-1 Field Guide*** represents a translation of data derived from pre-ancient Sacred Science texts that belonged to advanced human races who resided on Earth prior to our presently identified historical record. The techniques of subtle-energy mastery featured in the Field Guide are many millions of years old and in the Ancient of Days, these Sacred Science practices were employed daily by a specialized collective of humans known as the ***Planetary Templar Security Team***. Members of the Templar Security Team incarnated on Earth specifically to serve as guardians and stewards of the natural Thermo-radionic, Photo-sonic and Electromagnetic functions of Earth's organic planetary energy systems. Earth's organic energy systems include the realities of the interdimensional ***Time Portal and Dimensional Lock Systems***, the natural network of Portals and Star Gates (or "Signets") through which Earth is connected to many other interstellar, interdimensional space-time systems. The organic interdimensional core energy systems of a planet, along with the inherent portals, vortices, Ley Lines and Star Gates, is known as the ***Planetary Templar Complex***.

The ancient advanced Sacred Science knowledge concerning the manual operation of the powers of Earth's Templar have been lost to humanity for many thousands of years. The return of this knowledge in our contemporary times will enable human beings of the present generation and those yet to come, to orchestrate **advanced applications** of **Global Healing** organic **Free Energy Systems** and to eventually gain open access to the Star Gates and Portals of Earth's Templar. The specific events of intensive subtle-energy work through which the powers of Earth's Templar can be directly influenced are called **Planetary Shields Clinics**. The word "Shields" in this context refers to the intricate "blueprint" **Manifestation Template** or Morphogenetic Field upon which the planet's matter body is formed. The Planetary Template, "**Divine Blueprint**" or Planetary **SHIELDS** exist as fixed grids of **scalar-standing-waves** composed of interdimensional frequency that take the form of minute, stationary, **columnar waves** of light and sound which "flash off and on" as Universal Life Force Currents from the 15-Dimensional Spectrum continually circulate throughout the planetary system holding the planet in manifest matter form. **Universal Energy Currents** flow through Earth's Templar via the organic energy conduits of natural Planetary Merkaba Fields, which are sets of interwoven counter-rotating fields of electromagnetic energy that correspond to each dimensional frequency band within the 15-Dimensional Spectrum. Manual interaction with Earth's Templar Complex takes place through employment of advanced **Merkaba Mechanics** by which the human **DNA Template** and body can be activated to serve as a direct electromagnetic conduit of frequency from the interdimensional frequency spectrum into Earth's Planetary Shields. Humanity was created to hold the commission of serving as Earth's guardian race, which implies "Holding the Keys to Earth's Templar", the knowledge of Templar Mechanics is the heritage of Divine Sacred Science by which humanity can fulfill its **Divine Commission** as **Planetary Guardians**.

The frequency spectrum of **Dimension-12** represents the **Pre-matter Hydro-plasmic** state of matter density that eternally holds the original blueprint for any manifest form. The D-12 frequency band is a Primal Current of Pre-matter that is called the **MAHARATA Current**, which exists as a Density-4/Dimension-12 **Standing Field of Pale-Silver Liquid Light-*Hydroplasm***: this primal field of Pre-matter is often referred to as the **Universal Christos**. The D-12 Universal Maharata Current is frequently referred to as the Christos Current. In order to manually interact with Earth's Templar it is necessary to activate the D-12 Sub-frequency Bands of the interdimensional spectrum within the Human DNA Template and body: this process is called "**Running the Maharata**". Once a human body has activated a sufficient amount of the D-12 Maharata Current within the DNA Template, the human body can serve as a bio-electrical conduit of interdimensional frequency, through which energy can flow from the Universal Spectrum through the human body and into Earth's Planetary Shields. **The human mind is the director of frequency**, the human body is the conduit through which directed frequency flows. **Color, Sound and Symbols** are the **language** that the human mind utilizes to direct **specific applications** of frequency into **specific mathematical and geometrical relationships** through which the function of Earth's Planetary Shields, Planetary Merkaba Fields and Templar Complex grid systems, vortices, portals and Star Gates can be consciously influenced, operated and directed.

The **13 Field Techniques** provided in this Planetary Shields Clinic Field Guide are intended to begin the process of returning to humanity the **Keys to Earth's Templar**. The ***Foundation Technique*** for all Templar work is called the

Maharic Seal Practice of the Maharic Seal temporarily activates and runs the Maharata Current within the human body, allowing the Maharata Current to serve as a "**carrier wave**" for the direction of interdimensional frequency into Earth's Planetary Shields to initiate manual interaction with Earth's Templar. To generate enough D-12 Maharata Current within the body to allow for interface with the Planetary Shields, it is necessary to complete the Maharic Seal Technique **no longer than 12 hours prior** to Templar work. The easiest method of running the Maharic Seal is by reading each step clearly on to an **audio-cassette** for personal use, then simply listen to the pre-recorded steps and *mentally follow the actions* whenever you desire to run the Maharata Current. If the Maharic Seal is not activated, the human body will not hold a **sufficient charge of frequency** to access the Planetary Shields. **Field Technique-1: *The Maharic Quick Seal*,** will not build sufficient Maharata Current within the body if **used alone** but it will **amplify and sustain** the Maharata Current within the body for longer periods if the full Maharic Seal is activated no longer than 12 hours before.

Not only does running the Maharata allow one to access the Planetary Shields, it also accelerates **DNA Template activation,** progressively restores the natural D-12 Pre-matter **Personal Divine Blueprint** for increased **bodily health,** accelerates **spiritual integration,** progressively activates the personal **Merkaba Vehicle** and amplifies natural consciousness expansion and **higher sensory perception.** Most importantly running the Maharata via the Maharic Seal creates a temporary pillar of D-12 "Christos Frequency" within your bio-energetic field and DNA linking you and your multidimensional anatomy directly to its **Inner Christos** Pre-matter Divine Blueprint to create a **D-12 field of protection** within the personal mind-body-spirit system through which **essential bio-energetic field integrity** can be created and maintained. (Note: Running the Maharata on a regular basis will increase the **longevity** of the body and accelerate natural healing processes.) Return of the Sacred Science of the Templar to our contemporary times will allow each of us to directly assist in the healing of our planet while simultaneous creating healing and evolutionary advancement for ourselves. The advanced Level-1 Masters Templar Mechanics in this book were compiled into the form of a concise **Field Guide** that is suitable for **on-site activities.** More **comprehensive teachings** of Templar, Merkaba, DNA Activation, Core Template Healing and Spiritual Integration mechanics can be found in various other **Azurite Press MCEO** publications. **Thank you for your interest and participation in the Planetary Shields Clinics Global Healing Programs.** With Light, Love & Spirit's Blessings *A'sha-yana Deane EkrMC*

The Maharic Seal

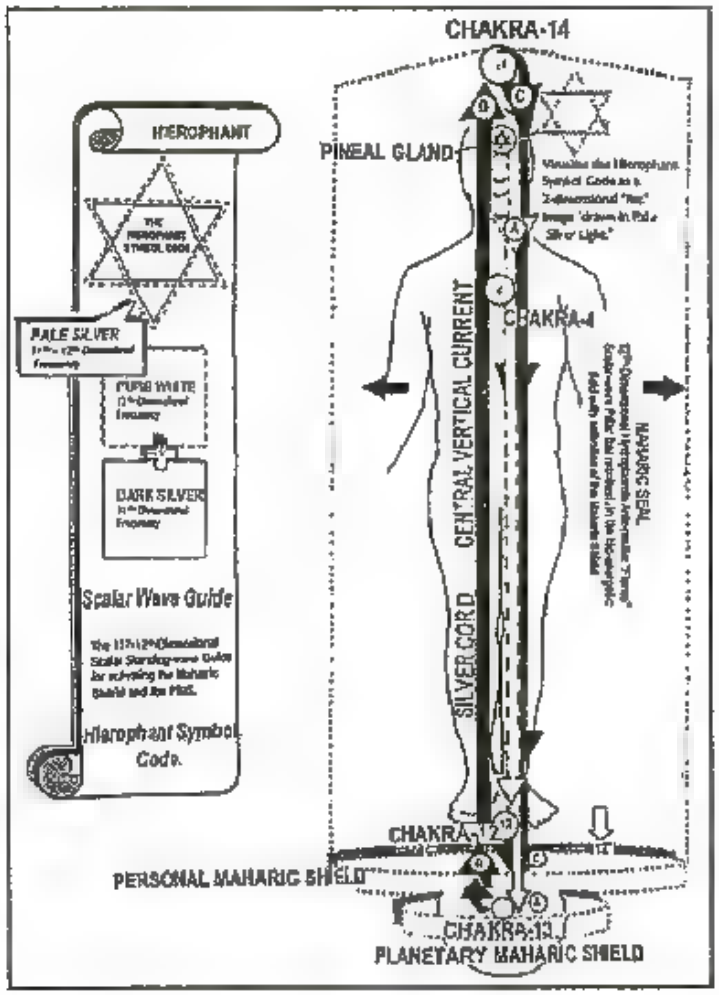
The teachings of the Azurite Press MCEO are vested in the *Law of One*; the interconnection, and Interdependence of all dimensions of 'reality' ... and the Living God Spirit, alive within all things.

All Azurite Press teachings are "state of the art" and specifically acknowledge the scientific/ energetic foundations of "Oneness" together with clear emphasis on the unification of science with Spirit, the "Christos Within" and the absolute association with Esoteric Metaphysical Order

The practical purpose of these teachings is to truly free and empower all, through expanded consciousness and educated enlightenment, through which reverence respect, love and co-operative co-creation are fostered within the Global Community. These perspectives fully embrace geophysical planetary healing as an intrinsic consequence of personal alignment and expansion.

The personal-planetary technique given here is a ***key-stone tool*** of such importance that it is made freely available to everyone.

Like all Azurite Press MCEO techniques and tools, the *Maharic Seal* is grounded firmly in Universal Unified Field physics, ancient Merkaba Mechanics



and Matter Template Science (a.k.a. the 'Divine Blueprint'). These techniques are known as "*Bio-Regenesis Technologies*" which were once common knowledge taught in the Pre Ancient Mystery Schools of advanced human cultures, these were regarded as standard, as well as essential, daily practice

The Maharic Seal as all *Bio-Regenesis Technologies*, implies application of specific conscious energy, directed to, and within, the *core manifestation template* of the body This technique directly activates the specific mathematical-geometrical relationship within, and between, the *Angelic Human* and planetary organic, evolutionary blueprint utilising the hydroplasmic frequencies of the 10th, 11th and 12th Dimensional "*Manara Current*" The *Maharic Current* was fully re-anchored on this planet for the first time in 210,000 years at the GRJ-AL point, Sarasota (FL., USA) Signet 2 of the Planetary Templar Grid, on May 5th 2000

The *Maharic Seal* is a major tool by which the purpose, intention, awareness and effect of the *Angelic Human* can be significantly accelerated in a genuine, substantial and high impact fashion

With <u>*regular*</u> use the *Maharic Seal* will

Regular use of the *Maharic Seal* will:

- Begin the process of activating the 8th through 12th chakras of the personal Kathara Grid;
- Assist the opening of Crystal Seals in the body (which otherwise block DNA activation);
- Open the Planetary Bio-Feed Interface within the personal body, enabling the body vehicle to become a truly effective tool for ***lasting***, planetary grid and sacred site work,
- Trigger DNA activation's which progressively and automatically activate the ***full*** Merkaba;
- Enable healers to transmit 12D frequency sub-harmonics, providing more powerful, longer lasting (often permanent) healing facilitation - free of personal and client energetic field distortions;
- Protect users from "disharmonic" energies associated with "channeling", healing, Astral projection, and other means of personal field infiltration; Assist Indigo Type III children anchor the higher frequencies which cause fractious behavior (administered via parent);
- Amplify the results of spiritually focussed activity;
- Harmonise personal & environmental energies;
- Create *Morphogenetic Re-patterning*, clearing karmic/ miasmic imprints which otherwise block DNA activation (and the attainment of true consciousness expansion and full embodiment of the "*Christos Principle*");
- Realign, revitalise and regenerate all aspects of the physical and subtle body systems;
- Trigger activation of 11th and 12th sub-harmonics in every DNA strand which assists correction of code reversal and the effects of interaction with other code mutated partners;
- Prepare and equip practitioners to receive and hold the increasing flow of higher frequency energies flowing into the Planetary Grids and personal morphogenetic fields arising from the intensifying Stellar Activation's Cycle now underway (2000-2017).

Temporary Maharic Seal Bio-Regenesis Technique

Short Version of the Maharic Seal Bio-field Clearing, Alignment and Portection Technique from the Kathara Bio-Spiritual Healing System Program. For temporary restortation and maintenance of personal Bio-Field Integrity and Physical Revitalization.

Prior to use. Read through the steps and practice the visualizations and their sequence slowly, for familiarity

1. Imagine the 2-dimensional image of a "Merkaba Star" or six-pointed "Star of David" in the color of Pale Silver, as if the image is drawn on a black background on the inside of your forehead. This image represents a composite scalar wave pattern **Keylontic Symbol Code** called the "Hierophant." Its color denotes the frequency spectra of the 11th and 12th Dimensions, and its form, combined with these color frequencies represents the control code of the 12th dimensional frequency band. It is the Key Code to unlock the 12th Dimensional Maharic Shield in the personal and planetary scalar grids.
2. INHALE while visualizing the Hierophant Symbol at the center of the brain, in the Pineal Gland
3. EXHALE, while using the exhale breath to firmly move the Hierophant down the Central Vertical Body Current (energy current in the center of the body), then out between the legs and straight down into the Earth's core (your 13th Chakra).
4. INHALE, while imagining that you can see at Earth's core a huge **Disc-shaped Crystalline Platform of Pale Silver Light** that extends outward on a horizontal plane through the entire body of the Earth and out into the atmosphere. Visualize the Hierophant suspended in the center of the disc (this image represents the Planetary Maharic Shield the scalar wave grid composed of dimension 10/11/12 frequency, with the Hierophant Key Code positioned to activate the Planetary Shield.)
5. EXHALE, while pushing your breath outward into the Earth's Maharic Shield imagining as you exhale that the force of the breath has made the **Earth's Maharic Shield** begin to spin
6. INHALE, using the inhale breath to draw **Pale Silver Light** from Earth's spinning Maharic Shield into the Hierophant, positioned at the center of the Planetary Shield.
7. EXHALE, using the exhale breath to push the Pale Silver Light throughout the entire Hierophant making the Hierophant glow and pulsate with Pale Silver Light
8. INHALE, imagine that the glowing Pale Silver Hierophant momentarily flashes Crimson Red and returns to Pale Silver. Then use this inhale breath to draw the Hierophant vertically up from its position at Earth's core to a position 12" below your feet (the position of your dormant personal Maharic Shield scalar-wave grid). As you inhale the Hierophant upward from Earth's core imagine that it trails a thick cored of **Pale Silver Light** behind it. One end of the Hierophant (Cord represents and "Energy Feed Line" through which you will draw energy up form the Earth's Maharic Sheild into your personal Maharic Shield)
9. EXHALE, with your attention on the Hierophant, positioned 12" below your feet and use the exhale breath to push a burst of Pale Silver Light outward on a **horizontal plane** from the Hierophant. Imagine that a **Disc-shaped, Crystalline Platform of Pale Silver Light** about 4 feet in diameter, extends on a horizontal plane 12 inches beneath your feet around the Hierophant at its center. (This image represents your personal Maharic Shield)
10. INHALE, while using the inhale breath to daw more **Pale Silver Light** up through the **Pale Silver Cord** from Earth's Core, into the Hierophant at the center of your personal Maharic Sheild
11. EXHALE, using the exhale breath to push the Pale Sliver Light **from the Hierophant, out into your Maharic Shield.** magine that your Maharic Shield now pulsates as it fills with Pale Silver Light from Earth's Core.
12. INHALE, again drawing more Pale Silver Light up from Earth's Core through the Pale Silver Core, into the Hierophant and imagine the **Pale Silver Cord expanding to four feet in width,** forming a **Pillar**

of Pale Silver Light running up from Earth's Core **directly into your four-foot-diameter Maharic Shield.**

13 EXHALE, again using the exhale breath to push **Pale Silver Light from the Hierophant** outward into your Maharic Shield, while imagining that your Maharic Shield **"takes on a life of its own"**, the disc suddenly **"folding upward"** with a **"popping"** sensation to form a **4 foot diamter PILLAR of Pale Silver Light** all around and running through your body. (This is your Maharic SEAL, a temporary scalar-wave pillar of dimension 10/11/12 frequency light that blocks out disharmonic frequencies from dimensions 1 through 12 and begins to realign disharmonic frequencies in your body and bio-field to their original perfect natrual order)

14 INHALE, imagining that the inhale breath draws the Pale Silver Light **from the Pillar, encasing the body, into every body cell.** Sense the tingling feeling as the Pale Silver Light moves through the physical body

15 EXHALE, imaging that you can feel the energy of the Pale Silver Light **expanding into every crevice of the body and then outward around the body** into the Bio-field

16 Breathe naturally for a minute or two, as the feeling of the Pale Silver Light moves through you, while **sensing the energy presence** of the Maharic Seal Pillar 4 feet around your body. The more time you spend breathing and sensing the energies, the more dimension 10/11/12 frequency you are drawing into your Pillar, which will increase the length of time the Maharic Seal Pillar will remain in your Bio-field

17. Return your attention to the Hierophant, still positioned 12" below your feet.

18. INHALE, using the inhale breath to draw the Hierophant up through your Central Vertical Body Current, then out the top of your head (the 7th "Crown Chakra"), to a point about 36" above the head (the 14th Chakra)

19 EXHALE FORCEFULLY, using the exhale breath to **rapidly expand the Hierophant outward** on a horizontal plane at the **14th Chakra**, until the Hierophant suddenly "disappears" from view with a mild "popping" sensation.

20 Breathe normally while visualizing for a moment a **brilliant 4 foot Pale Silver Pillar of Light**, extending from the **Earth's Core** upward **fully encasing your body** and extending far above your head into Earth's atmosphere and to a **single Star of Pale Blue Light** far off in deep space. Your Maharic Shield is now temporarily activated, and your Maharic Seal Pillar is temporarily manifest within your Bio-Field. The Maharic Seal will remain in your Bio-field anywhere from 20 minutes to 1 hour at first. The more this exercise is practiced the longer the Pillar will remain

21. **For quick reinforcement of the Maharic Seal**, once the full process has been run within 24 hours. Simply Imagine a **spark of Pale Silver Light** at the Pineal Gland, exhale it rapidly down to **Earth's Core** and imagine the Earth's Maharic Shield **spinning**. Call to mind the **Pale Silver Cord** and **Inhale** the 4 foot diamter Cord all the way up and around you, **forming the Pillar**, attaching it "out in deep space" to the Star of Pale Blue Light

The Short Version of this technique provides a **"manually created" temporary Maharic Seal** in your Bio-Field and **requires manual resetting every 24 hours** with **frequent reinforcement during the day.** Using and practicing the full version of this technique, as described in the *Kathara Bio-Spiritual Healing System Level-1 Maharic Recoding Process* will **progressively program the Cellular Memory of the body to hold the Maharic Seal for prolonged periods of time.** With consistent practice of the **full technique** over an extended period of time, the Maharic Seal will function **automatically** as a permanent fixture within your Bio-field.

In the meantime, the **Short Verion** of this technique, coupled with **reinforcement throughout the day**, will provide **Bio-field protection** and **gentle, regenerative Core Template realignment** for all aspects of the physical and Subtle-Energy-Body systems. **It is recommended to use at least this Short Version of the Maharic Seal technique prior to ANY energy work, "channeling," or Astral and Dream Projection.** It will not only **provide protection** from disharmonic energies it will also **amplify the results you desire to gain** from these activities.

FIELD TECHNIQUE-1

THE MAHARIC QUICK SEAL

" = Inches

1. Work with a 24 pointed, 3 Dimensional Star (Heirophant) and be aware that you will be working with beings known as the Breneau Rishi ...

2. Beg n by slowing your breath ng , as you imagine or visua ze a 24 point 3 -Dimensional, Heirophant at the Pineal Gland n the center of your brain V'sualise the Heirophant surrounded by a Pale Blue Sphere of Light. (The Blue Sphere serves as a buffer for your readiness to accept the frequencies associated with using the 24 pointed Star; the B ue Sphere holds the energy for you until your body can handle the energy. If you can handle it, the energy will s mply pass through the blue sphere)

3. INHALE, as if you are going to grab the blue sphere containing the 24 point star located at the Pineal, and on the EXHALE move the 24 point star blue sphere, all the way down to Earth's Core Try to hear a sound tone as the Heirophant/ Sphere hits the Planetary Shield .

4. INHALE and draw the Heirophant/ sphere up to your Persona Maharic Shield 12" below your feet .. and EXHALE while watching the Pale Silver B ue sphere expand out to a large sphere and watch as your Maharic Shield pops out as a d sc, about 4' n diameter Pale Silver with a light coating of Pale B ue

5. Bring your attention to the center of your Maharic Shield 12" below your feet and INHALE the 24 point Star (only) up into the Heart Chakra EXHALE, expand ng the frequencies of the 24 point Star into the Heart Chakra.

6. INHALE to grab the 24 point Star, and EXHALE, pushing the Star up into the 14th Chakra 36" above the head. Imagine that the 24 point Star is spinning in a clockwise direction in the 14th Chakra As you do this, try to feel/ sense the energy around you, just a few inches out from your body

7. Now, put your attention into your Maharic Shield 12" below your feet, take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and B ue energy up as if you are pulling on your Maharic Sea to latch t on to your 14th Chakra. Try to feel the sensations just a few inches from your body now - feel the d fference if you can. This procedure gives you a Quick Seal.

8. Now envision the cord of Pale Silver Maharic Light that would normally come up with your Sh eld and focus on the Earth's Core Begin drawing energy all the way up the 4" diameter cord and into the body NHALE the energy up into the Heart Center, and expand t there Begin to form a pale S lver ball of Maharic frequency.

   On each EXHALE send your energy down to the Earth s Core to bring up another load of Maharic frequency up from the Planetary Shields expand it into the Heart center and repeat severa times. Notice that the Cord grows larger as you do this, expand ng from approx mately 4" to 6 to 8" diameter unti finally t feels like a skin around (as well as within) your body as you load your Astral fie d with Maharic Frequency

9. Move your attention to the Pale Silver ball you have created n your Heart Center NHALE and move it up to the 14th Chakra 36" above your head . as you do, feel for the sheath of Maharic Frequency encas ng your etheric body close to your skin. (This Maharic/ Christos sk'n charges, and saturates your etheric body - fee the peacefulness and all-knowing nature of this frequency)

Tribal Shield Activation Creates Cue Zones In Earth's Planetary Shields

Cue Zones

"**Cue Zones**" are locations on Earth where a small portion of Earth's D-12 Shield of Aramatena **Christos Divine Blueprint** has been re-set within Earth's Planetary Shields. During Stellar Activations Cycles, Cue Zones can be **manually set** by individuals or groups by running the **D-12 Maharata Current**; activating the **Tribal Shield** to draw in the Khunarary Primal Sound frequencies, then singing the 12-Tribes **Master Psonns Suffixes** and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the **"Song of the Christos Soul"**, the tones of the personal D-12 **Maharic Shield** (the "Elohei-Elohim Within") to run into the planetary Shields. The personal Soul Song will create a **"Back Song"** transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of 3.5 to 5 years, depending on strength of energy originally set They can be recharged using the same "setting" procedure to last indefinitely.

Cue Zones are "**safe zone**" areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy-**healing applications**, to **"charge" objects and substances** with sub-harmonics of D-12 Christos frequency and when used with the personal Temporary Maharic Seal, to get clear, protected "**meditation space**" free from interdimensional interference. Cue Zones are "keyed" to Earth's Planetary **Templar "Cue Sites"**, the activation sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of **Inner Earth**. They can be used as **"connection portals"** to the portals of Inner Earth territories to establish **telepathic rapport** with **Inner Earth guardian races** and in case of global crisis, they can be used as unencumbered "**pick up points**" for portal evacuation to Inner Earth.

The tones of the Tribal names were used to activate the **144 Fire Letters** of the Tribal Shield in the **personal DNA Template**, providing the Angelic Humans races with the ability to **consciously regulate** the **activation level** of their **DNA Templates** and **Primal Life Force Currents**.

FIELD TECHNIQUE-2B

Tribal Shield-Cue Zones Activation

Creating a Cue Zone

1. **Choose location** and **activate personal "Maharic Quick Seal"** to "run the D-12 **Maharata Current**" in your body

2. Once you can feel sensation of Maharata Current runn ng, sing-tone 12-Tribes **Master Psonns** (names) for **Tribe-12** and **Tribe-1** to activate **Tribal Shields Flame Codes** in your **DNA** Template to run the "**Rainbow Ray**". Direct Pale Silver Maharata Current and Rainbow Ray pale color spectrum through body and out **soles of feet** into Earth's Planetary Shields Tone for awhile to build critical mass of frequency

3. Use a selected comb nation of **3 Master Psonns Suffixes** and tone for a while, running sound through body and feet into Earth's grids (avoid the Suffix combination of Tribe-4-7-10 used in that sequence to avert present distortions in Earth's grids that run on this mathematical cod ng).

4. Allow the **Christos Soul Song** to emerge from you "**free style**" and send the tones into Earth's grids.

5. When complete, s t quietly for a while and l sten for the Earth's telepath cally transmitted "**Back Song**" drawing its gentle frequencies into your body for hea ing.

6. Close with singing several rounds of the **3 Master Psonns Suffixs** that you opened with. The Cue Zone you have set will extend out from your position in a radius of about **5 yards** and will last **3.5-5 years** depend ng on strength of energy you used in setting the Cue Zone.

7. To **amplify** strength of Cue Zone you can use the "**Merkaba Spin**" just after closing. Remain in same position, stand, the gently spin, first **clockwise** (as if you are standing on a clock face with the "6" in front of your feet. " 3" at the left hand, "9" at the right and "12" directly behind you) Spin gently clockwise to bring electrical frequency down through your "**top**" Merkaba spiral. Then slow, stop and reverse spin to **counter-clockwise** to activate "**bottom**" Merkaba spiral" drawing frequency up from Earth s grid. Personal Merkaba Activation will acce erate the frequencies of the D-12 energies you set at the s te, making the Cue Zone **stronger and more lasting.**

FIELD TECHNIQUE-4B

RRT Master Stand Procedure- Running the RRT

Preparation for RRTs:
for **Individuals** participating in RRT Signet Council:
Each individual can independently run **preliminary Steps 1-3** up to 6 hours prior to attending RRT group, or group can run Steps 1-3 just prior to RRT. If planning a ***Khundaray RRT***, individuals or group must conduct the ***Khundaray RRT Activation Sequence*** (Field Technique-5) a **minimum of 4 hours**, or **up to 24 hours**, BEFORE RRT. Preliminary Steps 1-3 must still be conducted prior to a *Khundaray RRT*. If ***Preparations for RRTs*** are not preformed the personal Kundalini & Maharata Currents will not build to **critical mass intensity** to access Planetary Shields & RRT efforts will be unsuccessful.

Preliminary Steps: All ***Re. Workshop-1, Section-2***

1. Activate the Inner Christos ***D-12 Maharata Current*** (**Field Technique-1** ***Maharic Quick Seal***)

2. Activate the DNA Template ***Signet Codes*** in Tribal Shield (**Field Technique-2** ***Tribal Shield-Cue Zones Activation***)

3. Activate the personal 33 1/3-CW 11 2/3-CCW ***Christos Merkaba Field*** (**Field Technique-3** ***Sacred Salutations Toning Dance*** Solar or Lunar)

Running the RRT Signet Council group: ***The Basic RRT Procedure***

1. Choose "***Signet Consummate Pair***" for **Signet-13** center position, assign **Signet** Stand positions (via Field Technique-4A Signet *RRT Master Stands* chart) to all members of group & have group sit in Signet positions

2. Assign **1 Sacred Psonn** (Tribe Name + Activation Suffix) to **each individual** (via Field Technique-4C The *REAL 12-Tribes Names*) **matching the Tribe Number** to the **Signet Position Number** (RE. *Signet-1 positions use Tribe 1* Psonn-Name, ***Signet-13*** uses *Tribe-1 & Tribe-12 Psonns*). For ***less energetic*** RRTs you can simply assign **Tribe-12 Psonn** and **Tribe-1 Psonn each to half of the group** for the "**Universal Tribe-13**" general RRT activation.Have individuals practice their Psonn a bit while sitting in position before beginning RRT

3. **Signet Consummate Pair** ("SGP") **calls opening** of RRT & **group STANDS** in their Signet positions. To activate **Group Christos Electrical Merkaba Spiral-TOP** (individuals protected by personal Maharic Seal), SGP calls "**Spin-Tone-CW**" & group begins a slow (clockwise) **CW SPIN** each member **spinning-in-place** at their **Signet position**, while each person begins toning their **assigned Sacred Psonn** Progressively **increase CW Spin rate & speed/volume**

of Toning to build, intensify & amplify electrical frequency charge.

4. When SCP senses that energy of Group *Electrical* Merkaba Spiral has sufficient **critical mass "charge"** SCP calls "**Reverse-Spin**", group, **still toning Psonns**, slows CW Spin to **stop** & begins **CCW SPIN** (counter-clockwise) activating **Group *Magnetic* Merkaba Spiral-BOTTOM.** Progressively **Increase CCW Spin rate & speed/volume of Toning** to build, intensify & amplify magnetic frequency charge.

5. When **SCP** senses that energy of Group *Magnetic* Merkaba Spiral has sufficient **critical mass "charge"**, SCP calls **"STOP Spin-Tone"** & group ***slowly* decreases spin rate** to **STOP** while **slowly decreasing the speed/ volume of Toning** to **SILENCE.** When group stops Spin-Tone all members **remain in Signet positions** and **FACE CENTER Signet-13** SCP.

6. **The Christos Breath-*Running the DNA Signet Codes*:** **SCP** calls **"Breathe"** & all individuals in group *except SCP* **INHALE** Pale Silver **Maharic Current** (+ pale rainbow colors if running a Khundaray RRT) up from Earth's core into a Pale Silver **"MAHARIC BALL"** at the **4th Heart Chakra** then **EXHALE** the **MAHARIC BALL** from the *Heart Chakra* to the **ground** at the **Center of Signet-13 Position**

7. While group Inhales & Exhales Maharata Current to *Signet-13*, the Signet-13 **SCP Breathe Maharata Current *vertically*, INHALING** up from Earth into *4th Heart Chakra* **MAHARIC BALL**, then **EXHALING** Maharic Ball **VERTICALLY DOWN TO EARTH'S CORE.** Each **SCP EXHALE** picks up the Maharata Current sent to Signet-13 Center by group & runs the *amplified* **Group Maharata Current** in **2 Singular Concentrated Points of Frequency** (one *Electrical-male*, 1 *Magnetic-female*), into Earth's Planetary Shields at **Signet 13 position.** The **SCP** creates the **MAIN CONDUIT** through which the **Group Maharata Current *amplifies*** to enter the Planetary Shields When SCP sense that all of the transmitted DNA Signet Codes Group Maharata Current have reached **critical mass transmission, SCP** calls "**Council CLOSE**".

8. Group **Closes RRT** by **Toning 3 Rounds** (minimum-more OK) of the Lyran-D-12 *Halls of Amorea Activation Sequence- "**Um Shaddai Ur'-A ah-Khum' Tun**"*

9. Each member of group **remains in position** until a sense of **personal "doneness"**, or ***energy running completion*** is sensed in the body as the DNA Signet Codes naturally de-activate. Individuals should remain in their Signet position until **"THE COMPLETION"** is sensed, then **quietly leave the group at personal discretion** when The Completion arrives. The **SCP remain** at Signet-13 until **all members** of RRT experience *The Completion*, **then they too are free to go.**

10. Group may gather to engage other Toning or Energy Work once the RRT has been properly **Closed.**

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS.

The human body is fuelled by ENERGETIC LIFE-FORCE CURRENT FROM SOURCE. In contemporary human anatomy, the only life-force currents running fully through the embodied Kathara Grid and body are those corresponding to the SINGLE-VECTOR time cycle of the Density-1 TELLURIC SHIELD. Each of the 4 HOVA BODIES and their corresponding SCALAR SHIELDS, DNA STRAND TEMPLATES, AXIATONAL LINES, DIMENSIONS OF CONSCIOUSNESS AND MERKABA FIELD LEVELS process the frequencies of one TRIADIC CURRENT, a 3-dimensional, Bi-polar life-force current. The life-force currents corresponding to the first 9 dimensions and first 3 Hova Bodies, Mater Densities and Shields are referred to as the KUNDALINI ENERGIES. Each KUNDALINI CURRENT is a TRIADIC CURRENT, a set of 3 dimensional currents that function together and are separated by Magnetic Repulsion Zones within the embodied Kathara Grid. The 3 embodied Kundalini Currents are the TELLURIC, DORADIC and TEURIC CURRENTS.

Each of the 3 Kundalini Currents are spiralled within the regions of the 1st 8 CELLS of human conception, located in the TAILBONE at the Base of the Spine. (The incarnating consciousness anchors its identity and Christos Manifestation Template within the FIRST 8 CELLS to initiate the FETAL INTEGRATION PROCESS.) The first Kundalini Current, the TELLURIC CURRENT that corresponds to the DENSITY-1 Nada Hova Body is active within the human form from birth enabling 3 dimensions of consciousness awareness, in the form of scalar frequency to embody within the human organism. When the 2 dormant Kundalini Currents in the tailbone, the DORADIC and TEURIC CURRENTS, are activated the frequencies of consciousness from dimensions 4-9 progressively awaken within the body, activating the dormant 4-9 strands of the 12-strand DNA Template. The 3 Primary Kundalini Spirals each contain 3 single-dimension currents and are controlled by the corresponding SIGNET STAR CRYSTAL SEALS in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields, that manifest within the Kathara Level-2 Grid, First Eight Cells and DNA Template as FREQUENCY SEALS or blockages within the TAILBONE (Sacral region) and the PINEAL GLAND in the center of the brain - the CRANIAL-SACRAL SEALS.

When the Cranial-Sacral Seals are released, through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body. Activation of the 3 Kundalini Currents progressively creates integration of the higher dimensions of consciousness and de-densification of molecular structure. When all of the frequencies within the 3 embodied Kundalini Currents are activated, the 4th KUNDALINI CURRENT- the PRIMAL TRIADIC CURRENT, the KEE-Ra-ShA, is activated. The Frequency Seal on the KEE-Ra-ShA is located in the 12th Chakra 6" below the feet. Activation of the KEE-Ra-ShA anchors the 12th-Dimensional HYDROPLASMIC BEAM within the body, initiating the process of CELLULAR TRANSMUTATION and intentional de-manifestation and Dimensional Ascension of the human biological form.

THE EMERALD AWAKENING AND THE KEE-Ra-ShA'

The Emerald Awakening Masters Kundalini Activation is one of two inter-harmonic energetic activations of previously dormant frequency within the body that sets in motion simultaneous activation of the 12 MAGNETIC BASE TONES within the FIRE CODES between the 12 Strands of the SILICATE MATRIX DNA Template. Activation of the 12 Fire Code Base Tones begins activation of the 3 PRIMAL CREATION FREQUENCIES - the KEE-Ra-ShA' - within the 4 Scalar Shields of the PERSONAL INNER TEMPLAR COMPLEX. Activation of the 12 DNA Fire Codes allow for progressive natural fusion of each dimensional DNA Strand Template to occur, through which the organic potentials of CELLULAR TRANSMUTATION are reawakened within the physical body form.

Through the natural processes of Cellular Transmutation, once fully operational within human genetic design, the carbon-based elemental biology of Density-1 molecular structure is progressively and systematically transmuted to SILICA-based biology. Transmutation to Silica-based biology allows the physical body to pass through the levels of Semi-etheric, Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4 (Dimensions 4-12) through which the consciousness continually enters manifestation, to achieve physical mastery of the organic process of Transmutational Dimensional Ascension. To accomplish mastery of the Ascension process, the SIGNET STAR CRYSTAL SEALS with the Scalar Shields, which keep the 12 dimensionalized frequency levels of the consciousness and molecular form Phase-locked into dimensional division, polarization must be released. Release of the Signet Star Crystal Seals allows the frequency spectra of the higher dimensional anatomy and the Primal Creation Currents of the KEE-Ra-ShA', to enter into the Template for the physical body and dormant DNA Fire Code Templates, progressively building the MerKaba Vehicle and setting the Cellular Transmutation process in motion. The process of progressive Transmutational Dimensional Ascension represents the function of the organic genetic design and evolutionary objective of the human creation blueprint, through which the natural Eternal Christos-Angelic Form of the human being is actualised.

In the evolutionary cycles of contemporary humanity, actualization of the 12-Strand DNA potential takes place slowly in Earthly terms, as the incarnate identity experiences in single-life time-vectors several cycles of Density-1 incarnation, spanning many thousands of years, in order to progressively activate the DNA Fire Codes within the Manifestation Template. When the human genome was operating in its organic form, this process took place in one lifetime, over a period of about 44 years, as the eternal human incarnate matured to embody the 12 dimensions of consciousness within its original Christos Manifestation Template - the MAHARIC SHIELD, actualizing its organic Angelic-human heritage and mastery over 4 Densities of manifestation within the Time Matrix.

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4th - Dimensional Green Signet Star Crystal Seal and the Density-1 1st - Dimensional Red Signet Star Crystal Seal, to open the Density-1 NADA HOVA BODY and TELLURIC SHIELD, and Density-2 ALPHI HOVA BODY and DORADIC SHIELD, to receive the Omni-polar frequencies of the 12th-Dimensional MAHARIC CURRENT (Hydroplasmic Beam) from the Pre-matter Christos Template Maharic Shield. Upon entering the Telluric and Doradic Shields, the 12th-Dimensional frequencies of the Maharic Current trigger simultaneous activation of the Base Tones within the 12 Fire Codes of the DNA Template, beginning the process of DE-POLARIZATION of the 12-Strands and levels of consciousness within the human Manifestation Template. Progressive de-polarization of the 12 levels of consciousness within the human Manifestation Template sets in motion the organic process of Cellular Transmutation and potential mastery over Transmutational Dimensional Ascension. The Emerald Awakening Masters Kundalini Activation initiates REGENESIS of the original function of the human genome, releasing the Base Tones of the 3 KEE-Ra-ShA' Currents within the body via opening of 2 Signet Seals, through which the physical body begins the carbon-to-silica transmutation process and is prepared to receive the higher dimensional OVER TONE frequencies of the KEE-RA-Sha', to complete Cellular Transmutation via fusion and de-polarization of the particle (Particum) and anti-particle (Partika) aspects of the Manifestation Template. This is the natural process of UNIFIED FIELD PHYSICS by which a human being becomes "Christed".

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The final step in fulfilling the potentials of original Angelic-human design is activation of the OVER TONE frequencies of the KEE-Ra-ShA which allows fusion between DNA Strand Templates to complete on 12 dimensions of frequency. The final step in Transmutational Dimensional Ascension is called the AMETHYST AWAKENING MASTERS KUNDALINI ACTIVATION. Through the AMETHYST AWAKENING, the DENSITY-3 7th-Dimensional VIOLET Signet Star Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal and the DENSITY-4 11th-Dimensional DARK SILVER Signet Star Crystal Seal are released within the body's Scalar Shields. Release of the OVER TONE SIGNET SEALS allows the OVER TONES of the KEE-Ra-ShA Creation Currents to fuse with the BASE TONES, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL NON-POLAR CURRENT the KHUNDARAY (also called the "Rainbow Bridge" or the " Rainbow Serpent".)

The KHUN Da-rAy is the PRE-LUMINAL vibration or STANDING WAVE OF INTERNAL SOUND emitted from ONE-SOURCE/ GOD that corresponds to the COMBINED ORIGINAL SOURCE CURRENT from which the 3 KEE-Ra-ShA' PRIMAL LIFE-FORCE CURRENTS of the 3 non-dimensionalized levels of the ENERGY MATRIX beyond the 15-Dimensional Time Matrix emerge. The Emerald Awakening Masters Kundalini Activation, and its resulting activation of the BASE TONES of the KEE-Ra-ShA within the human body is the first step in manually expediting the natural process of Transmutational Dimensional Ascension.

AWAKENING THE KA AND REMOVING INORGANIC CRYSTAL IMPLANTS

Before the Emerald Awakening Kundalini Activation can be orchestrated the MAHARIC SHIELD and the KA must be brought out of dormancy within the human Manifestation Template. Once the 12th-Dimensional Maharic Current is released within the embodied Kathara Grid the KA can be activated. The "KA" refers to the 4 HOVA BODIES corresponding to dimensions 1 through 12 (Nada, Aphi, Betcha and Mahara Hova Bodies.) The KA becomes activated through removal of 4 inorganic Crystal Seal IMPLANTS that block the natural function of the 2nd, 3rd and 4th DNA Strand Templates. Following the procedure for AWAKENING THE KA the Emerald Awakening Kundalini activation can be conducted

THE K-RRT ACTIVATION SEQUENCE (PARTS 5A-5E)

FIELD TECHNIQUE-5

ACTIVATING DORADIC PHASE I CURRENT FIELD TECHNIQUE-5A

Preparation: Activate **Maharic Seal** (Field Technique-1 Maharic Quick Seal)

1 Breath slowly and deeply for several breaths while visualizing or imagining a Violet Dot on the center of the *inside* of your forehead. Make the color image as strong as you are able (if you can't yet perceive inner colors simply imagine the Violet Dot being there).

Move the Violet Dot to the center of the brain at the **Pineal Gland** and then upward into the 7th Chakra, finally moving it out of your head to rest on the top of your skull at the Crown Chakra.

2 Call to mind the Hierophant Symbol (Pale Silver Merkaba Star / Star of David). Visualize the Hierophant spinning 12" below your feet, within your Maharic Shield and slowly INHALE.....drawing the Pale Silver Hierophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head.

When the Hierophant connects with the Violet Dot, visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body and into the Earth's Core, as well as upward into the 14th Chakra positioned 36" above your head. (This activates the Violet Ray of Transmutation.)

3. Now move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal - The Green Star - stationed at it's core. This is the Green star Crystal Seal that controls release of 4th Dimensional frequency - Phase I Doradic Current - into the body. INHALE drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star.

EXHALE expanding the Violet-Silver energy into the Green Star sphere. Repeat two more INHALE / EXHALE breaths, drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere.

4 At the end of the last EXHALE, imagine the Green Star POPPING, turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears. Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning at the center of the Heart Chakra. (The green-Violet ball is the storehouse for your Phase I Doradic Current; it's called the Doradic Sphere.)

INHALE and draw Pale Silver energy from your Maharic Shield, through the central Body Current, and into the center of the Doradic Sphere at the heart Chakra, encasing the sphere in Pale Silver Light.

AWAKENING the KA FIELD TECHNIQUE-5B

1 Bring your attention back to the DORADIC SPHERE at the HEART CENTER..

2 INHALE pale silver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE. breath slow and deep 2-3 times. .

The MCEO Freedom Teachings® Series
Presented by Adash MCEO LLC in Association with Azurite Press MCEO Inc
Copyright A & A Deane, 2001 All Rights Reserved

3 Now put the tips of your fingers together, and feel the 'fuzziness' of the energy flow.

4. Next, move the fingertips to the tail bone . INHALE energy from the Mahanic Shield into the DORADIC SPHERE. As you EXHALE, push PALE-SILVER energy down to the finger tips and into the tail bone .. REPEAT 2-3 times and then remove the fingers.

5 Now bring your attention to the 2nd CHAKRA (SACRAL) . . feel or visualize or just know a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) is beginning to "push out" of the front of your 2nd Chakra, the Sacral center

6. Focus your attention on this try to feel the crystal pushing use your hands to help ease it forward, and out.

7 There is a smaller double terminated crystal in the 3rd (Solar Plexus) Chakra, this will release on it's own because the currents have activated it to do so. Help it out with your fingers.

8 In the Heart Chakra imagine a little sphere of energy, colored green. Bring this little green sphere more fully into focus and you will notice a little black cube of energy inside it.. look more closely again, and notice a smaller white cube inside the black one

9 As you focus on the two little cubes watch them merge together feel a ripple of vibration as they do and then . notice a little puff of smoke as they both disappear.

Now the body is activated to open the 4th and 1st Crystal Seals you are ready for

The EMERALD AWAKENING FIELD TECHNIQUE-5C

1 Now we will open the GREEN STAR CRYSTAL SEAL . . . So, Keeping your awareness on the Doradic Sphere the GREEN-VIOLET-SILVER ball at the Heart Center ... .. INHALE,

2 and. on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET SILVER Doradic Current down into the tail bone .. to the 1st Cell ..., at it's very tip.

3. Breathe easy.. . and take a moment to visualize the 1st Cell at the tip of your tail bone... as a WHITE-SILVER SPHERE ..

4 Now within the WHITE-SILVER SPHERE, visualize a GREEN SPHERE , and then visualize a RED SPHERE inside the GREEN SPHERE .

5. Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Center

and on the next EXHALE visualize, or imagine, sending a cord of GREEN-VIOLET-SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone

6. As you INHALE pull PALE SILVER LIGHT from your personal Mahanic Shield the platform-disc 12" below your feet, up into the tail bone and into the GREEN SPHERE

7. As you do this, visualize the GREEN SPHERE 'pop' into a STARBURST of PALE GREEN-SILVER LIGHT This has opened the Kundalini seal - your WHITE-SILVER & RED Spheres REMAIN as you left them earlier Now, we will work to open the **RED STAR CRYSTAL SEAL...**

8 Return your awareness to the Doradic Sphere at the Heart Center. NHALE, and then on the EXHALE push a cord of GREEN-VIOLET-SILVER Doradic Current down to the 1st Cell at the tip of the tail bone

9 INHALE and draw PALE SILVER energy up from the personal Maharic Shield the platform-disc positioned 12" below your feet, up into the tail bone, and into the RED SPHERE. .. inside .. the WHITE-SILVER SPHERE.

10 AS YOU DRAW the PALE SILVER energy into the RED SPHERE visualize the RED SPHERE 'pop' into a STARBURST of PALE PINK-SILVER LIGHT and . for the next few breaths EXHALE the PALE PINK-SILVER LIGHT into the 12th Chakra, positioned 6" below your feet...

You have now opened the Kee Ra ShA Seal so that the Sacred Flames of the Kee Ra ShA can be activated .

ACTIVATING the KEE Ra SHA FIELD TECHNIQUE-5D

The Kee Ra ShA appears as 3 little flames which exist in the 12th Chakra positioned 6" below the feet The 3 flames are PALE BLUE, PALE YELLOW, AND PALE VIOLET

1. Begin by focusing deeply on the 12th Chakra 6" below your feet and the three little flames held there one is PALE BLUE one PALE YELLOW, and the third PALE VIOLET We'll take a few moment to do this

   If you have difficulty visualizing, just imagine that they are there

2. On the INHALE draw the PALE VIOLET FLAME up from Chakra 12 into the central vertical column. . and all the way up. . and out through the top of the head to the 10th Chakra. . 6" above your Crown Chakra.

3 Next return your attention to the 12th Chakra, 6" below your feet. allow yourself time to connect with the little PALE YELLOW-GOLD FLAME. Breath easy

4. On the next INHALE draw the PALE YELLOW-GOLD FLAME up from Chakra 12. nto the central vertical column.. . and all the way up.. and out through the top of the head to the 10th Chakra. . 6" above your Crown Chakra..

   Again, return your attention to the 12th Chakra 6" below your feet and connect with the PALE BLUE FLAME.. this FLAME is the INNER ARC of the COVENANT Take your time, breath easy

5 On the next INHALE draw the PALE BLUE FLAME up from Chakra 12 nto the central vertical column and all the way up . and out through the top of the head to the 10th Chakra.. 6" above your Crown Chakra ..

6 Now visualize or imagine the 3 little FLAMES together within the 10th Chakra 6" above your Crown Chakra ..... in a moment we will create the Kee-Ra-ShA SPHERE.. Breathe easy

7 On the next INHALE draw PALE SILVER energy from your personal Maharic Shield 12" below your feet all the way up your central vertical column up into the 10th Chakra ..

EXHALE gently and INHALE once more drawing more PALE SILVER energy up into the 10th Chakra visualize or imagine the 3 little flames enclosed within a SPHERE of PALE SILVER LIGHT ..

8 Breathe easy On the next EXHALE move the Kee-Ra-ShA SPHERE all the way down through the centra vertical column out through the 12th Chakra 6" below your feet and all the way down to the 13th Chakra at EARTH'S CORE.

As the Kee-Ra-ShA enters EARTH'S CORE listen for sound tones with your inner ear .

These TONES represent the AMENTI "PASS KEY" ... which opens your persona, GR.-AL POINT (#1) - the 1stCell in the Tail Bone releasing the KEE -Ra-ShA FLAMES nto your AURIC F ELD

9 Breathe easy . Watch as the Kee-Ra-ShA FLAMES rise up your Maharic Pillar and emerge through your 1st Cell passing like radiat ng waves of PALE BL.E, PALE YE.LOW & PALE VIOLET

10. As the waves of color move through you, bring your attention to your first 4 Chakras... the base the sacral, the solar plexus and the heart and visualize or imag ne each Chakra emanate a SILVER MAHAR C SHEATH or OVAL POD, completely surrounding each one

This completes the EMERALD AWAKENING the natura process by which we use Unified Field Physics to trigger our CHRISTED Selves. Before we finish we must first establish the link to the Amethyst Awakening the process of activation and sheathing of the higher Chakras.

FIELD TECHNIQUE-5E

To complete the session we will now work with 8th & 11th Dimensional Energies to open DORADIC PHASE 2 & 3 CURRENT and activate TEURIC PHASE 2 CURRENT . ... THIS IS CALLED **ACTIVATING THE RA CENTER in the THYROID - and ANCHORING THE RAINBOW BRIDGE**

1 Begin by moving your attention to the area of your 3rd EYE and focus just inside your fore-head a little above and beh nd your eye brows . ... Breathe easy

2 Now visualize, or imag ne a DARK SI.VER DOT in the position you are focused on ... in the area of your 3rd EYE .... Take a little t.me.

3 INHALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA unti the DARK SILVER DOT sits on the top of your skull.

4. On the next INHALE, pull PALE SI.VER ENERGY up from your persona Maharic Shield 12" below your feet all the way up the centra vertica current and into the DARK S .VER DOT on the top of your head.

As the PALE SI.VER ENERGY reaches the DARK S .VER DOT the SI.VER DOT 'pops' into a SILVER STARBURST

5 On the next EXHALE push the SIL VER STARBURST down the central vertical channe , all the way to the tip of the tail bone ... EXPANDING the SIL VER STARBURST FU..Y into the 1st Cell

6. Breathe easily and watch, as GO.D-SILVER-CURRENT emerges from the tailbone and begins to flow up through each Chakra ...

From the 1st Chakra at the base of the spine up through the Sacral the Solar Plexus all the way up to the

Crown Chakra .. we'll take a little time for this .

From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head up through the 10th Chakra 6" above your head the 11th Chakra 18" above your head . and finally the 14th Chakra 36" above your head

7 Once the GOLD-SILVER-CURRENT reaches the 14th Chakra it returns to the 1st Chakra ... the flow of the current creates a GOLD-SILVER SHEATH throughout your central vertical channel

8 Bring your attention to the 2nd Chakra now we're going to create a GOLD-SILVER-BALL there in the SEED SEAL at the center of the Chakra . just imagine the chakra as a bow tie shape the SEED SEAL is at the narrow point in the middle. The GOLD-SILVER-BALL to surround the bow tie ..

INHALE and draw the GOLD-SILVER-CURRENT from the GOLD-SILVER-SHEATH into the center of the Chakra .as you EXHALE create and EXPAND the BALL to surround the bow tie

9 Now INHALE and move the GOLD-SILVER-BALL up to the 1st HARA CENTER . 2" BELOW the NAVEL (the 9th SILVER STAR SIGNET SEAL or TAN T EN) EXHALE GENTLY allowing the BALL to EXPAND

10 On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and EXHALE GENTLY

11 INHALE and move the GOLD-SILVER-BALL up to the HEART CENTER. EXHALE GENTLY INHALE . drawing more GOLD-SILVER CURRENT into the BALL and THEN EXHALE FORCEFULLY pushing cords of GOLD-SILVER-CURRENT down each arm and into the PALMS bring your fingertips together and feel the fuzzy buzz of TELRIC PHASE 3 CURRENT

You have now activated TELRIC PHASE 3 CURRENT in your palms and you are now able to run CURRENT from D4 thru D8 to transmit to the THYROID GLAND to activate and anchor the Rainbow Bridge in others

End of Field Technique-5 The K-RRT *Activation Sequence (5A-B-C-D-E)*

You are now ready for the **Amethyst Awakening Masters *Kundalini/DNA Template Activation - 2*** *(Field Technique 6 Initiating the Amethyst Awakening)* or to participate as an active member of a ***Khundaray Rainbow Roundtable*** (K-RRT) **Signet Council** (Field Technique 4A-B-C) **Wait at least 4 HOURS before K-RRT participation, and no longer than 24 hours**, to maintain the **appropriate level of critical mass Khundaray frequency in the body** that is needed for an effective K-RRT

INITIATING THE AMETHYST AWAKENING

FIELD TECHNIQUE-6

Preparation: Complete **Maharic Quick Seal** (Field Technique-1) and **K-RRT Activation Sequence Parts A-E** (Field Technique-5 5A-5E)

This technique works to bring in a burst of the Khundaray Eckatic Blue frequency .. that sets the Amethyst Awakening in motion.

1. Place your attention at the center of your brain, inside your pineal gland. Imaging that you see there a Pale Violet Spark of Light (this is the bottom of the Seal of your 7th Crown Chakra). Imagine that you are going to move this Pale Violet Spark of Light straight up into your 10th Chakra 6" above your head . Imagine that the 10th Chakra is a disc of Light Blue/Black - Sapphire

2. Now see the disc of Light, that was Blue/Black take on a Violet hue Try to feel it there a small horizontal disc On the INHALE you will move this disc of Violet-Sapphire Light up to the 24 point Silver Star at the 14th Chakra . and on the EXHALE move it down through the 10th Chakra down through the Crown down the Central Vertical Current down through your Personal Maharic Shield all the way down to the 13th Chakra at the Earth's Core...

3. Notice as you do this, a whole series of Violet-Blue Sparks flying out from the Planetary Maharic Shield, as if they are alive, as if electrical communication is taking place Notice as this happens that the energy flowing up your Maharic Pillar from the Earth Core reflects this change as Violet-Blue energy flows slowly up toward you as this energy reaches your personal Maharic Shield, notice that it does the same thing as the Planetary Shields - throws out a shower of Violet-Blue sparks. . all communicating with each other about the mathematical instructions about what to do with your body, your crystal seals, your chakras. .

4. Now, move your awareness to the Pale Silver Skin all round your body etheric body and be aware too of the Main Vertical Current that you brought the Pale Silver cord through and at the same time on each coming INHALE bring up the Pale Silver-Violet-Sapphire energy, simultaneously, from your Maharic Shield to infuse the Pale Silver Skin all round you.

   Take a few breaths to do this and watch as the 3 colors flicker through you when they reach the Heart Chakra feel them expand out .. and allow them to travel on up, all the way to the 14th Chakra ... expanding throughout every Chakra as the Pale Silver Violet-Sapphire energy flows up through and all around you See each Chakra respond with a spiraling burst of Silver-Violet-Sapphire, backward and forward through both sides of the Chakras until they all shift. try to feel the process as it awakens all the cells of your body

   The brain cells and brain patterns begin to respond, activating the Fire Letters setting the grid of frequencies necessary to activate the Fire Codes 7 10, and 12 in the DNA Template.

Your own **D-12 Christos Avatar Identity level** will **slowly** release the ***Khundaray Activation Frequencies*** through which the Amethyst Awakening progressively unfolds in the DNA Template and body This process can be **naturally and safely accelerated** by receiving a **Level-3 MC Regent Ordination transmission** from a qualified **Indigo Child / Eleyani *Level-4 through Level-6 MC Ordinate* Consummate, Elder Consummate** or **Eckar** that carries the necessary **Amethyst Awakening Khundaray Activating Frequencies** in their Eleyan DNA Templates

FIELD TECHNIQUE-7

ENERGY SENSING

THE INTERDIMENSIONAL SPECTRUM IS COMPOSED OF SETS OF SUBTLE-ENERGY FREQUENCY BANDS. AWAKENING THE NATURAL ATTRIBUTE OF HIGHER SENSORY PERCEPTION IS THE PROCESS OF ATTUNING THE MIND AND INNER SENSORY FACILITIES TO THE SUBTLE-ENRGY FREQUENCY SPECTRUM **Always use the MAHARIC SEAL TECHNIQUE** before any energy work for protection and to retain personal bio-field integrity

A. ENERGY SENSING -DIFFERENTIATING ENERGY SIGNATURES:

Every living thing and every object in manifestation has its translation in terms of energy frequency; the specific frequency pattern inherent to a form is called its **Energy Signature** In contact experience it is useful to become skilled in identifying energy signatures in the subtle-energy frequency spectrum as Visitors most often initiate contact from the higher dimensional frequency spectrum which is not detectable from the usual 3-dimensional sensing facilities. In becoming adept at sensing energy signatures, you can determine whether Visitors are present and assess the nature of the visiting presence by the frequency it carries.

Exercise 1. Detecting Variations in Frequency:

Select several objects of a size you can hold in your hand. **1.** Choose the first object observe its contours with your eyes and feel its apparent weight, first in the left hand, then in the right hand. **2.** Close your eyes and place the object in your **RIGHT PALM 3. INHALE**, drawing the breath into the center region of the breast (4th **Heart Chakra**). **4.** Then use the **EXHALE** breath to push the energy of your attention down the **RIGHT ARM** and through the **RIGHT PALM** into the object you are holding **5.** Transfer the object to the **LEFT PALM** and **INHALE** the energy signature of the object up the **RIGHT ARM** to the **4th Heart Chakra. 6. EXHALE** the energy drawn up through the **RIGHT ARM** into the **Heart Chakra,** and try to sense the specific "feel" of this energy signature around the shoulder area. *Steps 1-6 bring an imprint of the object's energy signature into your 4th dimensional astral body* **7. INHALE,** then use the **EXHALE** breath to move the energy signature down to the region just below the **Navel** at the center of the body (the 2nd **Sacral Chakra**) **8. INHALE** then use the **EXHALE** breath to push the energy signature from the 2nd Chakra out on a horizontal plane just below the Navel. Sense the "feeling" of the energy signature from this area. *Steps 7 8 bring the frequencies of the energy signature into the 2nd-dimensional emotional body sensory facility, where a stronger sensation of energy distinction can be detected* **9.** Try steps 1-8 again with the next object and focus your attention on **sensing the differences between the various energy signatures** carried by each object. ***Through practice of this process your neurological system will begin to develop greater sensitivity to reading and detecting differences between subtle energy frequencies.***

Exercise 2: Remote-Reading Energy Signatures:

Pick an **object several feet** away from your body as a target for remote-reading an energy signature **1. INHALE** and imagine that the breath draws energy into your **4th Heart Chakra. 2.** Use the **EXHALE** breath to push a **cord** of White energy from your 4th Chakra to the target object **3. INHALE** then use the **EXHALE** breath to expand and **project** part of the energy of your consciousness through the energy cord all the way into and around your target object **4.** Use the next **INHALE** breath to draw the energy you projected into the object back through the cord into your **4th Chakra EXHALE** spreading the energy signature of the object out from the 4th Chakra to a position around your **shoulders** Sense the "feeling" of the energy signature. **5.** Next try steps 1-4 with objects further away, then try it with objects or locations from **memory** that are no longer in the same space-time with your body **6.** Try steps 1-4 with **photographs** of people places and objects to sense the information contained within their energy signature ***This process further develops the neurological structure to detect and distinguish between subtle-energy frequencies.***

B. ENERGY SENSING- LOCATING ENERGY SIGNATURES:

Our bodies and consciousness are composed of energy that manifests in the form of dimensionalized frequency spectra. Every object has an intrinsic energy signature in subtle-energy frequency, but objects and life forms are not the only thing that

The MCEO Freedom Teachings® Series

Copyright A & A Deane, 2001, All Rights Reserved

is composed of frequency. Manifest objects represent the "positive space" in our 3-dimensional perceptual field and the "space between objects" represents the "negative space" or the portion of the interdimensional frequency spectrum that does not process through our perceptual facilities thus we perceive the "space between objects" as "blank" or "vacant space". The entire perceptual field before us is in truth a Unified Field of Frequency vacant space represents only the portions of the Unified Field we are not perceiving through our 3-dimensional senses. Visitors utilize the interdimensional spectrum for monitoring and subtle contact, and they are often actively present within our perceived "vacant space" just beyond our usual frequency range We can become skilled at detecting and locating subtle visitor presence and the activity of other layers of reality that take place within the vacant space. If we learn to employ the natural attributes of our consciousness in specific ways

Exercise 1: Locating Energy Fields Dimensional Grid Scan:

1. INHALE then use the **EXHALE** breath to **project a field** of your consciousness from your 4th Heart Chakra into the room you are in as if your consciousness fills every nook and cranny in the space Take several breaths if necessary projecting and expanding with the EXHALE more of your consciousness from your 4th Chakra into the room until you can sense around the shoulder area, the "feel" of the boundaries of the room around you. **2.** Breath normally, and close your eyes, focusing your attention into a **dark space** on the **inside of your forehead.** Imagine that you can now see, within the dark space on the inside of your forehead, the room or space you are reading as an image of a 3-dimensional "**Cross-hatched Grid**" of **energy-light**; the Grid of the room appearing as lines drawn in light against a black background **3.** Pick the dimensional level of the room you desire to scan by using its **primary color** (wave-length) **frequency** and imagining the Cross-hatched Grid of light in your image turning into lines of light made of the chosen color (dimensional color-frequency spectrum below) **4. INHALE** then use the **EXHALE** breath to **project** the energy of your consciousness into the **center of the Cross-hatched Grid** in your image **5.** Imagine the energy of your consciousness as a small **Point of White Light** positioned in the center of the space created by the Grid. **6.** From this Point of awareness, imagine that you are scanning each section of the space inside the Grid for visitors or life-forms. In your inner image, look for the **presence of other energy fields within the Grid** that you did not intentionally imagine there If visualization is difficult for you simply sense the presence of the Grid you created and "feel" for life-force variations in the energy space inside the Grid. **7.** Upon locating an "invisible" from 3-D presence in your Grid image open your eyes and sense the location of the room you are in that corresponds to the location in the inner image of the Grid to locate the "invisible visitor" in the room ***With practice of this technique you can learn to quickly locate interdimensional energy presences within a space, and you can also tell from what level in the dimensional frequency spectrum they are initiating visitation.***

Exercise 2: Locating Energy Sweep Scan:

Once you train your neurological structure to become sensitized to projecting consciousness into a space for Grid Scanning you can then take a short-cut to the Grid technique. **1. INHALE**, then use the **EXHALE** breath to project your consciousness from your **4th Chakra** directly into the space you desire to scan filling the space with the energy of your consciousness **2.** Sense for the **"feeling" of life-force variations** beginning with the area of the space farthest away from you and steadily scan-feel your way back to your body position **3.** Once detecting an area of variation in the space, **INHALE**, then use the **EXHALE** breath to **project a cord** of White energy from your **4th Chakra** to the area of variation and expand your consciousness into the area to **detect its boundaries** **4.** To detect the **level of consciousness** the visitor holds, breath normally and use each **EXHALE** breath to project a **color frequency** starting with the Dimension-12 White color through the cord and into the area. **5.** Once projecting a color, sense the area to see if it **registers "life-force"** in that dimensional band you will have a sensation of **"live energy"** in **4th Heart Chakra** and around the **shoulders** if the presence in the energy-area holds D-12 consciousness **6.** If no presence is sensed at that frequency, use the color frequency of the next dimension down until you get a "live-energy" sensation. The color frequency in which you get a "live" reading will represent the highest dimensional level of consciousness that presence is capable of holding This process works well on people in bodies, as well as for visitors from higher dimensions.

Interdimensional Wave-Length Color Spectra: **D-1 Red, D-2 Orange, D-3 Yellow, D-4 Green, D-5 Blue, D-6 Indigo, D-7 Violet D-8 Gold, D-9 Silver, D-10 Blue-Black, D-11 Silver-Black. D-12 White.**

With practice, your neurological system will become sensitized to high-frequency scanning and you will get more detail.

C. **Interdimensional Topography:** What to Look For

Define a perimeter to scan and use
Energy Sensing Part B: ***Locating Energy Signatures***
Exercise 1: ***Dimensional Grid Scan*** and
Exercise 2: ***Sweep Scan***
ALWAYS USE TEMPORARY MAHARIC SEAL OR **MAHARIC QUICK SEAL FIRST!**

What To Look For

- **Axi-A Tonal Lines:** Thick, pulsating, single energy lines in the ground, atmosphere or running through objects, that are approx mately 10-20 feet wide, extend for many miles in two opposite directions and have many smaller energy lines crossing through them diagonally and horizontally Main grid lines from 12 Primary Star Gates, feed Templar Sites, Vortices and smaller Ley Lines. Main Power Sites

- **Ley Lines:** Smaller gently pulsating single energy lines in ground or atmosphere with grids of tiny energy-line "Relay Networks" crossing through them, feed smaller vortices and Templar Sites from main Axi-A Tonal Lines. Secondary Power Sites

- **Vortices:** Cones of spiraling energy that are connected to Axi A-Tonal Lines, Ley-Lines or Relay Networks, that exist on various plane-angles, and on closer inspection demonstrate a "Bow Tie Configuration" of sets of two cones, positioned on a singular axis, connected at the "cone point" by a point of LIGHT or DARK energy-the Vortex Seal. Dark Seal indicates a Base-Magnetic "Out-Going" vortex, Light Seal Base-Electrical "In-Coming" and Light+Dark or Colored Seal indicates a main electromagnetic "2-way" vortex attached to a Templar Site or Axi-A Tonal Line. Vortices have various uses, including data harvest, storage & transmission.

- **Potals:** Appear as flat 2-dimensional circles, discs or ovals of gently shimmering light or dark, flat "black holes", can be any size and located in or on any object, land or suspended in the atmosphere. Indicate active inter-time-band passageways within the Density-1 system Do not span Density-Level Time Cycles like Star Gates. If portal appears to have a "shimmering membrane" of light over it, it is a Security Sealed portal that leads to a Star Gate access point, Inner Earth or a region protected by an active visitor presence. Various uses.

- **Templar Sites:** "Still Points" on Earth's surface that indicate a major or minor Time Cycle overlap coordinate where the "veils" between time bands and dimensions are thinnest; characterized by sense of "lack of motion" and a "standing HAZE OF LIGHT or Fixed "Sheets of

Twinkling Light" suspended in air above. Passage points to Star Gates, Portals Sites and main Planetary Shields control areas. Most powerful sites for healing energy, visitor contact and running RRTs. Various types of greater or lesser importance.

- **Cue Zones & Merkaba Reversals:** Cue zones are identified by the appearance or a fixed, standing Merkaba Field (or several) that spin above, in or partially in the ground, small Cue Sites connect to small Inner Earth Portals. Earth's Primary 12 Templar Cue Sites connect to the 12 Inner Earth Star Gates and Crystal Pylon Temples of the Maharaji-Sirius B Grid Management Network. Check for integrity of Merkaba. Move to its center, relax and sense its spin direction in relation to your Christos Merkaba spin. Is the TOP of site Merkaba spinning CW or is it carrying the CCW Nibiruian Reversal? Is the Site Merkaba AXIS fixed on a pure vertical, or is it wobbling around and changing position? Compromised Cue Sites are being actively used by non-Christiac forces for various reasons. You can clear them via ***Tribal Shield-Cue Zone Activation*** (Field Technique-2) Christos Cue Sites have various uses including running amplified healing energy and transit to Inner Earth or Star Gate Points.

- **Communication Networks:** Appear as intricate webs of Light-Cords that span geographical regions, in, on or above the ground, like massive networks of "fiber-optics cables". Many are from ancient times, both from Guardian Emerald Covenant races and Fallen Angelic intruders. The are used to relay data from Earth to elsewhere, or between various locations on Earth. Many ancient communications networks have been recently re-activated, especially those of Anunnaki and Drakonian origin. The networks work as transmitters and receivers, and are, like Crop Circles often used to orchestrate astral-field implantation of electromagnetic programs that influence the body-mind-spirit system of humans and animals. CAN be extremely dangerous, reinforce/energize your Maharic Seal when near them and avoid direct interaction with them until you have received further training in *Templar Communications Specialization* The most powerful appear as spiraling, fixed "TOWERS" of light, most often found at Sacred Sites and in Churches and places of mass worship or gathering. The NDCG transmits its programs via a massive series of Towers located in key regions.

- **Etheric Crop Circles:** Appear as geometrically formed "designs of light" that hang in the atmosphere or are imbedded in objects or the ground. Like physical Crop Circles, Etheric Crop Circles are used to "program data" directly into Earth's Planetary Shields, for storage, Regional or Global Templar Direction (carry programs via Ley Lines and Vortices) and to serve as "Landing Coordinates" for interdimensional space craft or "Wave-Riding"(Direct portal or Star Gate transit via Merkaba Vehicle) Some appear as "Landing Strips" made of woven light platforms or "runways". Many uses and orientations will not cause harm if explored with energized personal Maharic Seal. Like Vortices, some Etheric and Physical Crop circles can reveal huge amounts of technical and historical data, as they hold electromagnetic memory programs indefinitely. FUN to play with via projecting your consciousness into them to see what

The MCEO Freedom Teachings® Series

Copyright A & A Deane, 2001, All Rights Reserved

images, words, feelings or impressions are revealed.

- **Templar Crystals:** Usually a minimum of 12" (1 foot) in diameter, Templar Crystals appear as "ghost images" of Quartz Crystal Points, implanted in the Planetary Shields usually on a vertical alignment. May appear to be part in the ground and part sticking up out of ground, some are found deep within the Earth, or deep within mountains or rock formations (including ancient "statues", pyramids, etc.) Some are very large, the size of city buildings, most are from 5 to 25 feet in height with various diameters. Most exist in sets spread many miles apart, if they are active you can trace the energy lines emanating out from them to the other Templar Crystal Implants to which they are connected. Used for major Planetary Shields Programming by both Guardian and Intruder races. Active Templar Crystals will emit a very subtle but distinct TONE VIBRATION that can be heard with the Inner Hearing if you know enough to look for the Tones. Various purposes and uses, can be fun to "play with" once D-12 Maharata Current is intentionally projected through them for Christos Clearing. If core of Templar Crystal appears dark black, dark red or murky green or brown avoid direct exposure; such coloring indicates an intentionally set disharmonic program from present times or ancient days: these can be harmful and require Group Signet RRTs and Guardian help to clear.

- **Posted Guards:** Most "active" grid areas (vortices, portals, Ley Lines Vortices, Templar Crystals etc.) have Presences assigned to protecting the interests held at the site. Some are D-2 Elemental Beings, others are Avatars, of both Light and Dark orientation. Reinforce Maharic Seal before engaging any communication, some may not see you at all others will remember you from other life times and some will actively seek to do you harm including astral-field implantation or attempted possession. Acquire skills in energy differentiation, *SEALED Christos Channeling* and "*Contact Awareness*" before engaging with Posted Site Guards.

- **Trapped Presences:** Presences that are "stuck between dimensions" for various reasons and cannot, or do not desire, to free themselves. Even the nicest ones may attempt to "make their problems YOUR problems" Same safety precautions needed as those that apply to Posted Guards, as well as further education in "Interdimensional Rescue Strategies" before contact can be safely engaged. Observe and make note of their presence but do not attempt direct communication until you know exactly who and what you are dealing with.

You are now ready to begin exploration of a whole new,
"**uncharted vista**" of earthly reality!

FIELD TECHNIQUE-8

Vortex Vending

Retrieving and translating data from Planetary Vortex Sites

LOCATING VORTEX "DATA PACKAGES":

1 Run Maharic Quick Seal (Field Technique-1)

2 Run "**Sweep Scan**" (Field Technique-7 Part B Exercise-2) to locate vortices. Chose **largest vortex** with **"Dark Seal"** or dark, smoky or black coloring (dark color or Dark Seal indicates a ***Magnetic "Out-Going" Vortex***, easier to draw data from when first developing *Vortex Vending skills*. ***Compromised vortices*** carry **murky COLORS**, and "Sticky Tar-like BLOBS and SPIKES" of energy rather than simple shades of gray or black like Magnetic vortices.)

3 Physically move to **stand in center of vortex**, slowly adjusting body **position and posture** until you can feel a **subtle alignment** with the **Vortex Center** (You can also use inner vision to *see yourself in vortex center*, then try to *move your physical body* with your *eyes closed* to the position your body is in within the inner image. This is the fastest method but takes practice to become skilled. Once center vortex position is found you may then sit to complete Vortex Vending if desired.

4 Close eyes and slowly ***Sweep Scan*** the area of the vortex you are centered within. Look for **COLORED BALLS** and **SHAPES** of light **orbiting** around within the Vortex sphere. Focus on Balls or Shapes that are orbiting **closest to your head**. The Balls and Shapes are "**Data Packages**" containing **digitally stored electromagnetic translations of information** that can be **"opened like an e-mail file"** and read via the human **Kundalini** and **DNA Template**. **Choose ONE Ball or Shape to "harvest"**

HARVESTING: ("Vending")

5 Use an **EXHALE** breath to send a **Pale Silver Cord** of **Maharata Current** out from the **4th Heart Chakra** to the Ball or Shape you have selected to harvest. Attach the **loose end** of the **Maharata Cord** to the **Ball/Shape** while keeping the other end of Maharata Cord **firmly fixed** in your 4th Heart Chakra.

6 **INHALE** while drawing the **Maharata Cord** and the **"harvested" Ball/Shape** back into the **4th Heart Chakra**. **EXHALE** while visualizing the Ball/Shape **expanding** into a ball of Pale Silver Light- a **Maharata Ball** in the **Heart Chakra**. Observe as the **harvested Ball/Shape** begins to **vibrate** once placed within the Pale Silver Maharata Ball.

7 **INHALE** and move the **Maharata Ball** with the **vibrating harvested Ball/Shape** from the 4th Heart Chakra up the Central Vertical Current of body to the **Pineal Gland** at brain center. **Observe** harvested Ball/Shape within the Maharata Ball positioned in the Pineal until **vibrating harvested Ball/Shape STOPS VIBRATING, EXPANDS OUT FROM PINEAL TO SURROUND YOUR HEAD** and begins to **GLOW** as a "Basket-Ball-Size" **MAGENTA-RED SPHERE** *completely surrounding your head*. The harvested Ball/Shape "Digital Data Package" is now **ready to translate or place in "storage" for later.**

STORING DATA.

8. To **store harvested data** for later retrieval and translation visualize the Basket-Ball-Sized Magenta-Red Sphere around your head **INHALE** and **CONTRACT the Magenta Sphere** into a small **Magenta-Red Spark** of light in the **Pineal Gland EXHALE** and **push the Magenta-Red Spark** out into your **Auric field** over your **Right Shoulder**, about **12 inches** away from your physical body (Similar to "closing an e-mail file"). The harvested data is now stored in you Bio-Energetic Field

RE-OPENING THE "FILE":

9. To "Re-open" a stored Digital-Data Spark "File" simply visualize the Magenta-Red Spark "file" over your Right Shoulder, **INHALE** and draw the Magenta-Red Spark into the **Pineal Gland. INHALE** Pale Silver **Maharata Current** up from Earth's core into Magenta-Red Spark at Pineal and observe the Spark **automatically expanding** into the Basket-Ball-sized **Magenta-Red Sphere** surrounding your head. Proceed to **Translation** procedure at **Step-10**.

TRANSLATION.

10. To begin **translation** of **harvested Ball/Shape** content, imagine that **3 thin lines of Magenta-Red Energy** from the **Magenta-Red Sphere** around your head begin to **move slowly inward** toward your **Pineal Gland** braiding together into **one Magenta-Red Braid** of Energy as they approach and enter the Pineal. The **Magenta-Red Braid** is the **"Energy Feed Current"** that will transfer the digital data stored in the Magenta-Red Sphere energy field around your head into your personal Kundalin. Currents for Bio-energetic Translation.

11 Visualize the **Magenta-Red Braid** curling into a neat spiral **Coil** of Magenta-Red energy in your **Pineal** Direct the **Magenta-Red Braid** into **3 Coils** of energy in the **Pineal** then visualize the Magenta-Red Braid being **"Cut"** to temporarily stop the flow of energy-data from the Magenta Sphere around your head until you translate the first 3 Coils.

12. **INHALE** a Cord of Pale Silver **Maharata Current** up from Earth's core and into the **center** of the **3 Magenta-Red Coils** in the Pineal then **EXHALE** forcefully, **pushing** the **Maharata Current** down into **Earth's core**, carrying with it the **3 Magenta-Red Coils** from the Pineal Gland Imagine that the energy of the 3 Magenta-Red Coils now **blends** with your personal **Maharata Current** in **Earth's core**, turning your Pale Silver Maharata Current temporarily **Pale Silver-Pink**.

13. Relax and breathe gently bringing a **small current** of the **Pale Silver-Pink Maharata Current** from Earth's core into your 4th **Heart Chakra** with each Inhale-Exhale. Simply **wait in a relaxed manner** without imposed expectations, and observe any **FEELINGS** (physical body and emotional sensations come through most easily and are usually first) of energy sensation or emotion in your body Watch for **fast "picture flashes"** to flip past your inner vision listen for **sound tones** (like "digital computer tones") with inner hearing and pay attention to **"sudden thoughts, words or ideas"** that **"pop into your head"** (possible beginnings of **"Direct Cognition"** translation).

14. Give **mental commands** to **"Slow Down"** data, and **observe** if you sense **greater awareness** of data translation, or if images tones or direct cognition become clearer "Play with" the **"Speed Command"** observing

the **perceptual differences** between "Speed Jp" and "Slow Down" Commands to become accustomed to the **speed of digital data translation** that is right for you Translating clearly s ke *manually focusing* the ens of a camera, but with practice t becomes "**auto-focus**", once the neurological structure grows accustomed to its new "d rect current translation" task.

15 When you have translated the amount of data carried in your Maharata Current the Maharata Current wi l regain its organic **Pale Silver** color, **progressively loosing** the **Pale Pink-Silver tint** as the harvested data-energy is expended nto translation You can then return to **Step-10** f you desire to draw more data to translate **or to Step-8** to **close the session**, putting the harvested data "**in storage**" for another time The data will remain with you unt l you have run the **full quantity** of energy originally retrieved from the harvested Ba /Shape, either consciously in trans ation or "burning it off" in the dream-state

FIELD TECHNIQUE-9
Mastering "Fight or Flight"

The "Fight or Flight" Response is a condition of physiological subconscious reaction to energy fields that are disharmonic to the energy fields of the body. DNA Template distortions caused by the NDCG amplify this bio-response mechanism to extremes, generating fear, apprehension, depression, reactionary anger and a variety of other unpleasant bio-emotional responses into conscious awareness. If we can realize that the quality called EMOTION is the result of natural embodied Energy Sensing Mechanics that are "tuned to the environment", we can learn to "tune into" a new set of CHOSEN response patterns beyond the subliminal programming of the NDCG and contemporary cultural responses patterns. Emotion is E-Motion-Energy-in-Motion, and we can learn to create more enjoyable experiences of E-Motion and sensation by approaching these qualities AS Energy, WITH energy. We have the innate power to override and reprogram our "Fight or Flight" Response by effective direction of internal Energy Fields.

1. Run the ***Maharic Quick Seal*** (Field Technique-1)
2. Notice where the physical body is **holding tension**, *fear, anger, worry, guilt, shame*, etc. or areas that feel *"tight", "blocked", "constricted", hot, cold, prickly or uncomfortable*. **Scan** this **"Tension Zone"** area of the body attempting to gain an **image** of the **disharmonic energy pattern** that is causing the discomfort.
3. Notice **which of the 7 embodied Chakras is closest to the Tension Zone**; the **Chakra Number** will give indication as to which **dimensional band** the Tension Zone is emerging from.
4. Bring Pale Silver **Maharata Current** up from Earth's core through a Pale Silver Cord to the **Chakra closest to the Tension Zone**. Make a Pale Silver **Maharata Ball** in the **center of this Chakra**, where the point of the Chakra "Cone" intersects with the *Central Vertical Current* of the body. (Location of the **Seed Crystal Seal** that holds the Chakra into manifestation and which connects directly to the **Kathara Center** and **DNA Strand Template** that corresponds to the Chakra.)
5. **Focus on the dis-harmonic quantity of energy** in the area of the Tension Zone and with each **INHALE** draw this energy quantity from the Tension Zone into the **Pale Silver Maharata Ball** at the center of the designated Chakra.
6. Once **most or all** of the dis-harmonmic energy quantity is draw from the Tension Zone into the Chakra, **EXHALE FORCEFULLY**, pushing the **Maharata Ball holding the dis-harmonic energy** rapidly into **Chakra-13** at Earth's core.
7. **INHALE FORCEFULLY**, drawing the **Maharata Ball**, still holding the **dis-harmonic energy** up the **Central Vertical Current** from Earth's core Chakra-13 all the way up, out the top of the head and to **Chakra-14** (36 inches above head). The D-13 and D-14 "Blue & Gold Flame" Kee-Ra-ShA Current sub-harmonics of Chakras 13 & 14 will transmute the energy into a naturally harmonic pattern.
8. **Repeat Steps 4-7** until you **feel relief from the dis-harmonic energy** and a **release** of the **Tension Zone** (some dis-harmonic patterns require repeat of Steps 4-7 for as long as 15 minutes, others dissolve on first run of procedure.)
9. Once Tension Zone is released, you can **further investigate** the cause of the disharmonic energy by observing the **Chakra Number** and scanning the body in the region where the Tension Zone existed, at the **Dimension Number** (frequeny band) *corresponding to the Chakra Number*. Use the **color frequency** of that dimension to locate the appropriate frequency bands for scanning.
   (RE: Stomach Tension = Chakra-3=Dimension-3=Yellow Wave Length = DNA Strand Template3-MentalBody disharmonic pattern = scan D-3 Yellow Band for Miasmic Content or possible interference.)

FIELD TECHNIQUE-10

Templar Geo-Task Force Topographical Survey

Purpose: A ***Templar Geo-Task Force*** **(TGTF)** is a group of individuals possessing interdimensional awareness and scanning skills who enter a geographical region for the purpose of surveying the contents of the region and condition of Earth's Templar and Planetary Shields from a multidimensional perspective. TGTFs are used to compile data regarding the internal topography of a site in order to determine that characteristics and orientation of the site, and the condition and needs of Earth's Planetary Shields in the region, for assessing the site's appropriateness in regard to specific types of interdimensional energy practices. A TGTF is an intrinsic part of the *Azurite Universal Templar Security Team* and *Amenti Planetary Security Team* **Planetary Stewardship Protocols**. Humanity is now receiving introductory training to reclaim the knowledge, skills and operational protocols that are used in fulfilling the **Divine Commission** of serving as **Keepers and Guardians of Earth's Planetary Templar Complex** in anticipation of humanity's pending entry into the Founder **Emerald Covenant** co-evolution peace treaty in fulfillment of humanity's original Angelic Human Divine Commission.

Practice of the TGTF will begin return of the ancient Sacred Skills, Knowledge and Wisdom that were once possessed by advanced Angelic Human Lyran-Sidan cultures of Earth's past, who actively served as Earth-Steward **Planetary Signet** (Star Gate) **Councils. Emerald Covenant Planetary Signet Councils** have been responsible for maintaining and operating Earth's Star Gates and core global free energy systems during periods of Star Gate opening, since the Angelic Human race was seeded on Earth 250-25 Million Years Ago. The lost Ancient Sacred Knowledge of the TGTF and related advanced Planetary Templar Mechanics is being returned to humanity at the present time because Earth has entered a **Star Gate Opening Cycle** (Stellar Activation Cycle) between **2000-2017**, for the first time since **208,216BC**. The Angelic Humans of Earth are being reminded of the need to fulfill their original Divine Commission as Planetary Stewards and Keepers of Earth's Planetary Templar Complex. In TGTFs Angelic Human Earth-Stewards work closely and cooperatively together to administer to the organic needs of Earth's Planetary Shields and to support the joyful, cooperative and love-based progressive evolution for all races and species of Earth, within the context of the planetary, galactic and universal community. The TGTF allows contemporary humans to progressively fulfill their ancient **Divine Planetary Service Contracts**. While serving the planet and serving as part of the planetary healing force, TGTF members also develop the skills and rediscovering the tools through which **personal mastery** can be progressively attained within the areas of **Intuitive, Metaphysical** and **Advanced Spiritual and Scared Science Arts**. Practice of TGTFs will advance the abilities of individuals and groups in the personal and collective quest for **Enlightenment and Spiritual Actualization**.

Creating a **TGTF Survey Team**

1. **Target:** Choose Target area for Survey with n specifically defined perimeters.

2. **Objective:** Define purpose for group survey ,example Signet/Star Gate work hea ing work, nterdimensional contact, Planetary Shields "trouble-shooting" or grid repair work ect)

3. Sectors. Divide Target Site nto **Sectors**. Use the number of people on the TGTF Team to determine the number of Sectors. Assign one Sector to each **"Scanner"** (member of the TGTF Team).

4 **Sector Scans:** Use Field Technique-7A Exercise 2 ***Remote Reading Energy Signatures***, 7B Exercises 1, ***Dimensional Grid Scan*** and Exercise 2 ***Sweep Scan*** Each TGTF Scanner uses the above *Energy Sensing Field Techniques* to ndependently scan their assigned Sector.

5. **Sector Summary:** As each TGTF Scanner conducts scans of their Sector, the ***TGTF Survey Summery form*** (next page) is used to define primary categories of Topographical Features for which to scan. Specific findings are recorded on *TGTF Survey Summary form.*

6 **Sector Rating:** When *TGTF Survey Summary form* s completed TGTF Scanner totals the number of each type of Topographical Feature to determ ne the primary orientation of their Sector and to assign **Sector Rating** number Sector Rating Number corresponds to the *Category Numbers* of the *Topographical Feature* as designated on TGTF Survey Summary form

7 **Target Analysis:** When all TGTF Scanners have completed their Sector Scans and TGTF Survey Summary forms, reassemble the group. Comp ie the data from each TGTF Survey Summary form to determine the **Primary Sector Rating** of Target Site and assess the most appropriate approach to conducting work on the Target Site in view of information ga ned through the TGTF Survey

Triadic Flame Scan Topography Survey

Preparation. ALWAYS use Maharaic Quick Seal prior to any energy work! (Field Technique-1)

1. Conduct **TGTF Topographical Survey** (Field Technique-10)

2. **Assess " Hot-Spots"** Use assessment of TGTF Scanners *TGTF Survey Summary forms* to determine primary **"Hot Spots"** of interest or **"Primary Active Sectors"** with n Target area. Identify specific **Topographical Features** from TGTF Survey Summary forms for group to **Flame-Scan** to rece ve more deta ied scan information on "Hot Spot areas Determine the precise sequence in which group wil scan each Topographical Feature.

3. **Form TST:** Assemble TGTF Scanners nto groups of 3 to form **Triadic Scan Teams "TST"** for each Primary Actve Sector to be scanned. Assign one TST to each Primary Active Sector site for more detailed scanning

4. **Assign Flame Scan** Assign each Scanner .n one TST a **specific set of 2 dimensional frequency bands** n which to apply the **Sweep Scan** (Technique-7B Exercise-2). One Scanner wi conduct the (magnetic) **Base Tone Scan**, one the (electrica) **Overtone Scan** and one the (electromagnetic) **Resonant Tone Scan**. 6. Each of the 3 members of the TST then silently use the *Gru-al* Frequency band then *Kee-Ra-ShA* frequency band in **Sweep Scan** of Primary Active Sector each recording persona observations on **Triadic Flame Scan Survey Summary** form, (next page)

7. Assemble TSTs for assessment of Triadic Flame Scan Survey Summary forms for more detailed Target S te analysis

E.O.M.C Safety Protocols for Planetary Shield Work, RRT's and Inter-Dimensional Contact

1. Activate full "Temporary Maharic Sea," (page 8) no more than 12 hours prior to intended Site work or Contact.

2. Activate "Maharic Quick Seal" (Field Technique 1, at Site).

3. Conduct TGTF Topographical Survey (Field Technique 10 & 11) using Energy Sensing (Field technique 8) to determine characteristics, features and nature of the Site.

4. Do NOT engage any Site containing disharmonious energies if working alone. Site clearing in noticeably disharmonious areas should be conducted in teams of AT LEAST 2 people; ideally 3 or more, each having employed the Maharic Seal.

5. Periodically monitor your Maharic Pillar, using inner vision as well as the Pillars of your team members. If Pillars seem very faint or weak, use the Maharic Quick Seal to strengthen them. Send a spark of Pale Silver Light from your Maharic Shield to the Maharic Shield of Team Members to stimulate their Maharic Shield to release more D-12 frequency into their Pillar.

6. NEVER! ... use drugs (chemical or natural), or alcohol, to "enhance" your Higher Sensory Perception (HSP). "Mind expanding" drugs are as dangerous in HSP as is LSD in everyday life ... they activate higher codes in the DNA template, temporarily, AND out of sequence to create the "perceived" expansion. The effect is to send erratic frequency into the lower strand templates, "crushing" natural, lower strand codes - which will progressively block natural perceptual expansion through the inherent process of sequenced DNA template activation.

   Alcohol weakens the field around the Astral Body at D-4, making holes in the Astral Field allows for Field Attachments, D-4 manipulation, Cording and even possession. Alcohol also introduces chemical-elemental, D-2, consciousness into the body that draws in D-4 field attachments. Party "off duty"!

7. Use EOMC Postures of Empowerment & Protocol for contact when attempting Inter Dimensional communication. Field Technique 12 is ideal for initiating contact as it begins a telepathic response relationship so you can "get to know" your contact before more direct encounters.

8. Use Technique 13, "Disengaging Manipulation", if you think you may have picked up Astral Attachments, or that you might have in the past (e.g. teenage "party times" often lead to Astral Attachments that are not discovered until many years later).

The MCEO Freedom Teachings® Series

The Maharic Seal Technique, and those for Disengaging Manipulation, can clear your field of attachments, old as well as new, when used consistently.

9. Realize that "Higher" (Dimensional) does NOT always mean "Better"! Polarity exists from D-11 down ... and there are many manipulative forms of consciousness from D-4 through D-11 (as well as those in D-3!). Do not be quick to be impressed with a Contact's claims of Dimensional "Superiority" or rank, and ALWAYS hold onto your own power.

10. Use *Telepathic Rapport* instead of "Channeling" - telepathic communication does not "invade your bio-energetic field" with a foreign consciousness and energy signature, like channeling does.

    Always check, and reinforce your Maharic Seal Pillar, before engaging even Telepathic Rapport. Do NOT allow "someone else" to "come into your body" - possession takes the blink of an eye ... and, you will usually NOT find out until much later ... if at all.

11 Wherever possible, work in a group using EOMC Protocols for Contact, healing and Planetary work, rather than proceeding alone. When you do solo work, pay especial attention to keeping your Field Integrity high, and don't glibly assume that "protection" is there ... (somewhere)

    Field maintenance is a matter of Personal Responsibility.

12 Establish a strong connection to your personal D-12 Inner Christos Avatar level of identity . and allow it, and your own self, AS SOURCE, to be your final "authority"

    Draw on "the Master within", instead of projecting personal power outside of yourself.

FIELD TECHNIQUE-12

IF YOU DESIRE TO BEGIN SUBTLE EMERALD ORDER CONTACT

COMPLETE THE MAHARIC SEAL TECHNIQUE PRIOR TO INITIATING CONTACT.

1. **PRIOR TO SLEEP EACH NIGHT, AS YOUR LAST THOUGHT BEFORE FALLING ASLEEP, REPEAT MENTALLY SERVERAL TIME "I AM READY FOR EMERALD ORDER CONTACT NOW, I WILL REMEMBER CONTACT ON AWAKENING". KEEP JOURNAL PAPER AND PEN NEXT TO BED AND WRITE DOWN ANY REMEMBERED DREAMS, NO MATTER HOW INSIGNIFICANT THEY SEEM. REPEAT THIS PROCESS FAITHFULLY FOR 3 WEEKS, WITHOUT WORRYING ABOUT OTHER CONTACT EXERCISES.**

2. **AFTER 3 WEEKS OF STEP ONE, RESERVE ONE HALF HOUR EACH DAY TO BEGIN TRAINING THE MIND TO A STEADY, HIGHER DIMENSIONAL INTERNAL FOCUS. USE THE FOLLOWING EXERCISE:**

   A. *VISUALIZE A BLUE SPARK OF LIGHT IN THE CENTER OF THE BRAIN AT THE PINEAL GLAND, THIS REPRESENTS A PORTION OF YOUR CONSCIOUS AWARENESS.*
   B. *INHALE, THEN USE THE EXHALE BREATH TO MOVE THE BLUE SPARK DOWN THE CENTRAL VERTICAL CURRENT OF THE BODY TO THE TAIL BONE*
   C. *BREATHE NORMALLY FOR A FEW MOMENTS WHILE VISUALIZING THE BLUE SPARK INSIDE THE BONE OF THE TAIL BONE.*
   D. *USE THE NEXT INHALE TO DRAW THE BLUE SPARK UP THE PINEAL GLAND THEN UP THROUGH THE 7TH CROWN CHAKRA AT THE TOP OF THE HEAD*
   E *EXHALE, AND IMAGINE THE BLUE SPARK AT THE TOP OF THE HEAD TURNING INTO A 4 INCH BLUE DISC OF LIGHT SITTING HORIZONTALLY ON TOP OF THE HEAD.*
   F *IMAGINE NOW A SMALL IMAGE OF YOURSELF AS YOU LOOK IN PHYSICAL REALITY SITTING ON TOP OF THE BLUE DISC. THIS IS YOUR 5th DIMENSIONAL CONTACT PLATFORM.*
   G. *SIMPLY PRACTICE GOING INTO THIS CONTACT SPACE AND STAYING FOCUSED THERE DOING THIS MILD D05 KUNDALINI ACTIVATION FOR ONE-HALF HOUR, 3-4 TIMES PER WEEK FOR 2 WEEKS.*
   H *ONCE YOU ARE ABLE TO HOLD THIS 5th DIMENSIONAL FREQUENCY IN CONSCIOUSNESS (USUALLY ABOUT 2 WEEKS OF PRACTICE) AN EO MEMBER WILL GENTLY APPROACH YOU IN YOUR VISUALIZATION ON THE BLUE DISC PLATFORM TO BEGIN SUBTLE COMMUNICATION*

ALWAYS KEEP A JOURNAL HAND TO MAKE A *WRITTEN RECORD* OF YOUR EXPERIENCES WITH THIS CONTACT TECHNIQUE.

GOOD LUCK AND GOD BLESS!

POSTURING FOR EMPOWERMENT IN CONTACT

- VIEW YOURSELF AS AN EQUAL TO ANY VISITOR, KNOWING THAT YOU HAVE THE POTENTIAL TO BE JUST AS EVOLVED AND ADVANCED THROUGH INTEGRATION OF YOUR HIGHER DIMENSIONS OF CONSCIOUSNESS AND ACTIVATION OF YOUR DORMANT DNA.

- HOLD YOUR OWN POWER OF DESCISION AND AUTHORITY OVER YOUR EVOLUTIONARY DESTINY. LEARN TO CONNECT DIRECTLY TO YOUR OWN INNATE 12-DIMENSIONAL AVATAR "INNER CHRIST" IDENTITY TO ESTABLISH A DIRECT, PERSONAL CONNECTION TO THE ONE-SOURCE OF CREATION. YOU CAN LEARN FROM VISITORS, BUT LET NO OTHER BEING STAND BETWEEN YOU AND YOUR PERSONAL CONNECTION TO SOURCE. YOU DO NOT NEED INTERMEDIARIES TO MAKE THE "GOD-CONNECTION" FOR YOU, YOU ONLY NEED INTEGRATION OF YOUR OWN HIGHER DIMENSIONAL IDENTITY LEVELS.

- BE WILLING TO TAKE RESPONSIBILITY FOR YOUR OWN CONSCIOUS EVOLUTION AND DON'T EXPECT OTHERS, ON EARTH OR AMOUNG THE VISITORS, TO DIRECT YOUR EVOLUTION FOR YOU. BECOMING RESPONSIBLE FOR YOURSELF AND YOUR MULTIDIMENSIONAL ANATOMY IS PART OF GROWING UP TO SPIRITUAL MATURITY.

- BE WILLING TO LEARN THE REALITY OF THE SPIRITUAL LAW OF ONE AND THE SCIENTIFIC LAWS OF UNIVERSAL UNIFIED FIELD PHYSICS, SO YOU CAN BECOME COMPETANT IN MANIFESTING WHAT YOU DESIRE TO EXPERIENCE AND SO YOU LEARN HOW TO WORK IN KINDNESS, NON-JUDGEMENT, COOPERATION, UNCONDITIONAL LOVE AND RESPECT FOR ALL OTHER LIFE FORMS.

- MAKE REMEMBERING AND OPERATING FROM YOUR SPIRITUAL CENTER (HIGHER DIMENSIONAL CONSCIOUSNESS) THE FIRST PRIORITY IN YOUR LIFE AND REALIZE THAT YOU DO NOT NEED A FORMAL RELIGION TO ACHIEVE SPIRITUAL ACTUALIZATION.

- REALIZE THAT THE RIDDLES OF VISITOR CONTACT WILL BECOME SOLVED AS YOU COME TO UNDERSTAND THE NATURE OF YOUR ETERNAL SELF, AND THAT SPIRITUAL MATURITY INCLUDES LEARNING AND MASTERING THE SCIENCE MECHANICS OF CONSCIOUSNESS.

CLAIMING YOUR RIGHT TO CHOOSE
WHAT NOT TO DO IN VISITOR CONTACT

- BE NAÏVE, THINK ALL CONTACT IS BENEFICIAL, VIEW VISITORS AS OUR "CREATOR GODS", "SPACE PARENTS" OR "SAVIORS". *REALIZE HUMANS CAN BE EQUALLY POWERFUL, MAJESTIC AND WISE AND THAT OFTEN EARTH HUMANS HAVE MORE SPIRITUAL MATURITYAND MORAL ETHICS THAN MANY OF THE VISITORS.*

- EXPECT HUMAN EXPERTS IN GOVERNMENT, RELIGION, PSYCHIATRY, MEDICINE, ETC. TO "SAVE YOU"; THEY HAVE LITTLE MORE KNOWLEDGE THAN YOU DO REGARDING THE REALITIES OF CONTACT. *REALIZE THAT YOU CAN BECOME YOUR OWN "EXPERT"AND GUIDE* THROUGH INTEGRATING YOUR *OWN HIGHER DIMENSIONS OF CONSCIOUSNESS. BIO-REGENESIS TECHNOLOGY PROTECTS YOU DURING AND ACCELERATES THIS PROCESS.*

- BECOME DAZZELED AND SEDUCED BY THE GLAMOURS OF VISITOR CONTACT. THEY CAN REPRESENT THEMSELVES AS "ANGELS", "GODS" OR KINDLY SPACE-KIN, AND CAN DO MANY "STAGE TRICKS" TO DEMONSTRATE THEIR ADVANCEMENT, BUT THIS DOESN'T NECESSARILY MEAN THEY ARE HOLDING A FAIR AGENDA. *REALIZE THAT JUST BECAUSE THEY ARE MORE EVOLVED IN CERTAIN WAYS DOES NOT MEAN THEY ARE PERFECT AND FREE OF HIDDEN AGENDAS.*

- ENGAGE CONTACT BEFORE YOU HAVE LEARNED HOW TO FREQUENCY-SEAL YOUR PERSONAL MULTI-DIMENSIONAL BIO-ENERGETIC-FIELD. *YOU CAN PROTECT YOURSELF FROM COVERT MANIPULATION BY LEARNING SIMPLE BIO-REGENESIS TECHNIQUES AND DISCOVERING THE STRUCTURE OF YOUR 15-DIMENSIONAL ANATOMY. THEN YOU CAN PROCEED WITH CONTACT SAFELY.*

- SUCCUMB TO FEAR AND FEELING POWERLESS AND VICTIMIZED. *EVERY PERSON HAS WITHIN THEM THE POWER AND DORMANT SPIRITUAL (HIGHER CONSCIOUSNESS) WISDOM TO HANDLE CONTACT EFFECTIVELY AND SAFELY. ALL CONTACTIS INTENDED TO FOSTER SPIRITUAL GROWTH AND EVOLUTIONARY ACCELERATION.*

EMERALD ORDER PROTOCOLS FOR CONTACT

- CONTACTEES MUST SINCERELY DESIRE TO RECLAIM THEIR SPIRITUAL HERITAGE, AND TO LEARN AND HONOR THE NATURAL LAWS OF CONSCIOUSNESS AND CREATION.

- EMERALD ORDER CONTACTS WILL MEET HUMAN EFFORT PUT FORTH ON THE SAME TERMS. THEY WILL MEET US "HALF-WAY" BUT WE ARE EXPECTED TO DO OUR PART IN LEARNING, GROWING AND BECOMING RESPONSIBLE FOR OUR ACTIONS, ENERGY FIELDS AND CREATIONS.

- EO CONTACTS WILL ALWAYS APPROACH HUMANS WITH RESPECT, HONOR, KINDNESS AND LOVE, AND EXPECT IN RETURN A RECIPROCAL RESPECT AND KINDNESS IN DEALING WITH EO CONTACTS. THEY WILL NOT ACCEPT CONTACT WITH HUMANS WHO DISPLAY RUDE, DEMANDING, MANIPULATIVE, EXPLOITIVE, CONDESCENDING, JUDGMENTAL OR ELITIST ATTITUDES. NOR WILL THEY ENGAGE CONSCIOUS CONTACT WITH PEOPLE WHO ATTEMPT TO DISOWN PERSONAL POWER AND "WORSHIP" EO CONTACTS AS "GODS" ETC. THEY ENCOURAGE SELF-SOVEREIGNTY & EQUALITY VIA PERSONAL SPIRITUAL INTEGRATION.

- EO WILL INITIATE SUBTLE CONTACT AND COMMUNICATION BEFORE OFFERING ANY PHYSICAL PROOF OF CONTACT, AND EXPECT HUMANS WHO DESIRE CONTACT TO *TAKE RESPONSIBILITY* FOR CONSCIOUSLY WORKING TO DEVELOP SUBTLE CONTACT AND SPIRITUAL ADVANCEMENT SKILLS.

- IF DESIRED, EO WILL ASSIST HUMANS IN DNA TEMPLATE BIOREGENESIS, BUT WILL NOT DO SO WITHOUT YOUR CONSCIOUS REQUEST UNLESS YOU ARE AN INCARNATE STARSEED MEMBER OF THEIR HIGHER DIMENSIONAL RACES.

- FOR INDIVIDUALS WHO WORK WITH INITIATING AND DEVELOPING SUBTLE CONTACT WITH THE EO VISITORS, EVENTUAL PHYSICAL VERIFICATION OF CONTACT WILL BE PROVIDED.

- IF CRISIS EMERGES ON EARTH DURING THE 2000-2017 STELLAR ACTIVATION'S CYCLE, EO WILL ARRANGE PERSONAL EVAC THROUGH PRIVATE CONTACT FOR ANYONE WHOSE DNA TEMPLATE IS ACTIVATED TO HIGH ENOUGH LEVELS TO SURVIVE STAR GATE PASSAGE..

THE EMERALD ORDER MELCHIZEDEK CLOISTER AGENDA

- EOMC CONTACTS THOSE WHO ARE GENETICALLY CONNECTED TO THE GRAIL LINE RACES, INDIGO CHILDREN AND INCARNATE MEMBERS OF THEIR FAMILY LINES.

- THEY ARE WILLING TO ESTABLISH CONTACT WITH INDIVIDUALS OF ANY RACE LINE WHO ARE INTERESTED IN SERVING THE DIAMOND SUN VISION OF EGALITARIAN EVOLUTION FOR ALL, AND WHO ARE WILLING TO PUT EFFORT INTO CONTACT AND WORK ON PERSONAL DEVELOPMENT ISSUES FOR EXPANDING CONSCIOUSNESS.

- THEY ARE OFFERING HUMANS OPPORTUNITY FOR *CONSENSUS* VOTE BY EXPOSING THE PRIMARY AGENDAS. IF THE MAJORITY OF POPULATIONS CHOOSE TO IGNORE OR INVALIDATE THEIR TEACHINGS, THEY WILL CONCENTRATE THEIR EFFORTS OF ASSISTANCE ON THOSE WHO ARE WILLING TO LEARN AND GROW.

PLAN A:
IF EOMC EFFORTS AND THE BRIDGE ZONE PROJECT ARE SUCCESSFUL IN STABILIZING THE PLANETARY GRIDS AND AVERTING INTRUDER INVASION AND EARTH CHANGES DURING THE 2000-2017 STELLAR ACTIVATIONS CYCLE, TEAMS OF HUMAN AMBASSADORS WILL BE TRAINED TO BRING INFORMATION ON THE ADVANCED SCIENCES AND SPIRITUALITY TO THE MASSES IN PREPARATION FOR EOMC VISITATION. MEANWHILE, THOSE WILLING TO LEARN BIO-REGENESIS AND CONSCIOUSNESS EXPANSION TECHNOLOGIES WILL BE PROVIDED WITH METHODS TO BEGIN SUBTLE COMMUNICATIVE CONTACT.

PLAN B:
IF EARTH ENTERS CRISIS DURING THE 2000-2017 PERIOD, THE EOMC WILL ALLOW FOR THE OPTION OF EVAC FOR ANYONE WHO HAS REGENERATED THE DNA TEMPLATE SUFFICIENTLY ENOUGH FOR THE BODY TO ENDURE STAR GATE TRANSIT.

- THEY ARE WILLING TO ESTABLISH CONTACT WITH INDIVIDUALS OF ANY RACE LINE WHO ARE INTERESTED IN SERVING THE DIAMOND SUN VISION OF EGALITARIAN EVOLUTION FOR ALL, AND WHO ARE WILLING TO PUT EFFORT INTO CONTACT AND WORK ON PERSONAL DEVELOPMENT ISSUES FOR EXPANDING CONSCIOUSNESS.

- THEY ARE OFFERING HUMANS OPPORTUNITY FOR *CONSENSUS* VOTE BY EXPOSING THE PRIMARY AGENDAS. IF THE MAJORITY OF POPULATIONS CHOOSE TO IGNORE OR INVALIDATE THEIR TEACHINGS, THEY WILL CONCENTRATE THEIR EFFORTS OF ASSISTANCE ON THOSE WHO ARE WILLING TO LEARN AND GROW.

PLAN A:
IF EOMC EFFORTS AND THE BRIDGE ZONE PROJECT ARE SUCCESSFUL IN STABILIZING THE PLANETARY GRIDS AND AVERTING INTRUDER INVASION AND EARTH CHANGES DURING THE 2000-2017 STELLAR ACTIVATIONS CYCLE, TEAMS OF HUMAN AMBASSADORS WILL BE TRAINED TO BRING INFORMATION ON THE ADVANCED SCIENCES AND SPIRITUALITY TO THE MASSES IN PREPARATION FOR EOMC VISITATION. MEANWHILE, THOSE WILLING TO LEARN BIO-REGENESIS AND CONSCIOUSNESS EXPANSION TECHNOLOGIES WILL BE PROVIDED WITH METHODS TO BEGIN SUBTLE COMMUNICATIVE CONTACT.

PLAN B:
IF EARTH ENTERS CRISIS DURING THE 2000-2017 PERIOD, THE EOMC WILL ALLOW FOR THE OPTION OF EVAC FOR ANYONE WHO HAS REGENERATED THE DNA TEMPLATE SUFFICIENTLY ENOUGH FOR THE BODY TO ENDURE STAR GATE TRANSIT.

FIELD TECHNIQUE-13

DISENGAGING MANUPULATION
A. *THE EPSILON SEQUENCE*

All **languages** represent portions of tonal vibration scalar-templates that make up the scalar-grid of the body's manifestation blueprint. **Written language symbols** are scalar-standing-wave guides that translate into tonal vibration **electrical impulse** within the body's scalar template. The electrical impulses emerging from oral and written language forms effect the functions of the **DNA, physical body** and the **perceptual facilities** of embodied consciousness. Language patterns translate into **mathematical codes** within the contours of the consciousness of the body's blueprint, serving as **operational instructions** to the body-mind-spirit system. The **Epsilon Sequence** utilizes 4 specific language symbols from the **Greek** alphabet to engage specific tonal vibrations and mathematically sequenced, interdimensional electrical impulses within the body's scalar-wave template. This **mathematical formula** for directing interdimensional electrical impulse through the body and DNA template serves to **block, disengage** and **neutralize** the inorganic scalar-frequency transmissions used in most types of visitor interdimensional implant technologies. This simple technique can be used any time to clear the bio-energetic field of inorganic and unnatural frequency implants, and can be used in attempted abductions directly to **override the bio-neurological block** intruder visitors use to immobilize their abductees. It is unlikely that visitors such as the Zeta, will proceed with an attempted abduction or implantation if they cannot immobilize the abductee using their standard motor-function override frequencies of **UHF, ULF** and **Electro-Magnetic Emanations**, and energetic transmissions such as those used in **HAARP, EMP** and **Scalar-Pulse** technologies.

1. Visualize the **Epsilon Symbol** in the color-frequency of Gold (8th dimension) stationed at the **Pineal Gland** in the center of the brain. INHALE, then use the **EXHALE** breath to move the Symbol **down** the Central Vertical Current of the body to the area of the **Base of the Spine** in the center of the **Tail Bone** (where the dormant Kundalini "life-force energies" are stored).

2. Breathe normally while visualizing the Symbol inside the Tail Bone, and **mentally repeat 3 times** the words "**Epsilon-Phi-Beta-Phi**" (a tonal-vibration "**Mantra**" that translates into mathematical-electrical instructions for the body's scalar template).

3. Use the next **INHALE** breath to draw the **Epsilon Symbol** back **up** the Central Vertical Current of the body to the **4th Heart Chakra**. EXHALE and breathe normally while visualizing the Symbol **inside of the 4th Chakra.**

4. On the next **EXHALE**, repeat the "**Epsilon-Phi-Beta-Phi**" Mantra mentally while using the EXHALE breath to **expand the image of the Epsilon Symbol** out of the 4th Chakra into the **bio-energetic field**, as if the Symbol now **surrounds the entire body** like an "egg" of energy.

5. INHALE and **repeat** the **Mantra** again, then use the next **EXHALE** to push more energy from the 4th Chakra into the image of the Epsilon Symbol surrounding the body, making the Symbol **glow bright Gold**. Repeat the **Mantra** once more on the INHALE, and once more "energize" the Epsilon Symbol around the body with the **EXHALE**.

6. Focus your attention at the **Pineal Gland** and once more visualize the **Gold Epsilon Symbol** in the Pineal, while mentally repeating the **Mantra 3 times**. When completing the Mantra INHALE, and on the **EXHALE** push the Symbol out of the Pineal Gland into the **bio-energetic field around the head** until it disappears.

DISENGAGING MANIPULATION
B. *ASTRAL BODY SEAL*

The **Astral Body** is the level of the Bio-energetic Field that surrounds and permeates the body within the **4th-dimensional frequency bands**. It is a scalar-wave construct that encases the body in an "egg" of energy. The Astral Body corresponds to the **4th Heart Chakra** in the body's 15 Primary Chakra system. The **Maharic Seal Technique** opens the inner layers of the bio-energetic field and the lower 7 Chakras to receive **12th-Dimensiona Frequency** from the **Earth core.** Once the Maharic Seal is activated within the body, 12th-Dimensiona. Frequency, or **Maharic Frequency** can be drawn up from the Earth's core template to fortify each layer of the bio-energetic field by using the breath to expand the Maharic Frequency through the **corresponding Chakra** and into the bio-energetic field. To fortify the 4th-dimensional **Astral Body** with Maharic Frequency, the **4th Chakra** is used to project Maharic Frequency into the bio-energetic field. Maharic Frequency (D-12) does more than form a **scalar-field of protection** within the bio-energetic field, it also serves to progressively realign the scalar-templates of the body and DNA blueprint, progressively realigning the body-mind-spirit system with its **organic Imprint for Health**. The following technique can be used to create additional frequency protection in Astral Body, but can also be used for **healing applications** in other levels of the Chakra and bio-energetic system by running the Maharic frequency through **other Chakras** in the same fashion. The Maharic Frequency neutralizes inorganic **frequency-implant technology** and progressively boosts the body's natural immune system while simultaneously accelerating the natural processes of "Spiritual Integration" or bringing the higher dimensional aspects of personal consciousness into waking embodiment.

1. Activate the **Maharic Seal** and bring up the **Maharic Pillar** in the Bio-energetic Field. (technique given previously)

2. Focus your attention at **Earth's Core** (your 13th Chakra) as a small **White Spark** of light. **INHALE** using the INHALE breath to draw the **White Spark upward** into the Central vertical Current of the body, while visualizing a **wide Pale Silver Cord** of Maharic Frequency attached to the White Spark moving **up** into the body with the White Spark. This is the Maharic Frequency **"Feed Line"**. Breath normally and with each INHALE draw the Silver Cord with the White Spark up the Central Vertical Current toward the **4th Chakra**.

3. Once the White Spark with the Silver Cord attached has reached the center of the 4th Heart Chakra breathe normally using each **INHALE** breath to bring more Pale Silver Maharic Frequency **up** through the Cord from Earth's Core to the **4th Chakra**. Use each EXHALE breath to expand the Pale Silver energy out into the 4th Chakra then out into the bio-energetic field about 6 inches around the body.

4. Imagine the "egg" shape of the **Astral Body** around you and visualize it filling with **Pale Silver Light** as you continue to breathe Maharic Frequency up from the Earth's Core through the Cord. Breathe for several minutes, **fortifying the Astral Body** with Maharic Frequency. When the Astral Body has accepted as much Maharic Frequency as it can hold, observe that the **4th Chakra** becomes a glowing Silver Disc.

5. You may desire to continue fortifying the lower Chakra Centers and bio-field levels by simply using the **EXHALE** breath to move the **White Spark** and **Silver Cord down** to each lower Chakra and repeating the same process as described in steps 1-4.

Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality,* and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the "**Ancient Science of the Shields**" (scalar-standing-wave templates of matter and consciousness), "**Merkaba Mechanics"** (interdimensional electromagnetic vortex mechanics), **"DNA Template Activations"** (frequency accretion within the scalar template behind manifest chemical DNA), "**Interdimensional Structure**", "**15-Dimensional Anatomy**", **"Bio-Spiritual Healing"** (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey**, perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related published works of the MCEO, cannot at this time be "proved or disproved". Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality interpretation, and practical worldview, through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO Paradigm, and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***"Meditations for Spiritual Exploration***", with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *MCEO Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of MCEO techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive**, in nature. Therefore, however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual.***

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances; a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity.* **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent "*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*" within the context of contemporary publication.**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences.* Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that

translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one's personal discretion. ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation**, *to be utilized at the* ***personal discretion*** *of the reader or workshop attendee.*

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* MCEO teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *MCEO-sanctioned Kathara "no-touch" procedures*), **authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm;* notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of MCEO teachings, techniques and technologies.** If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged.

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council, teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible,** whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching.** Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of

Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons, in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings;** this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for, and belief in the validity of, the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program, MCEO Maharata "Dance For" Programs, MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the *many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for use as an **additional educational aid in conjunction with their corresponding audio-video workshop program**.

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered "**in-the-rough**", often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail, typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution,** as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to", the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the "package that it comes in", which demonstrates the value of Azurite Press MCEO educational products.**

A'san & A'sha Deane

Mary Anne Callaway

A'sha Deane, Ekr MCEO Speaker-1 is Co-founder, President and Director of Creative Development of ***Azurite Press MCEO, Inc., International***; founder of the ***Kathara Alliance*** and the *Azurite Temple MCEO USA* (now *Azurite Press MCEO, Inc.*); author, host, speaker and instructor of the ***MCEO Freedom Teachings® Workshop Series*** (81 workshops as of 9/2009); and is founder, author and co-host of ***Azurite International Educational Travel Tours*** Spiritual Development Workshops. A'sha is also author of the "***Voyagers Series*** ***and*** "***Angelic Realities*** ***books*** (1999 and 2001 Granite Publishing USA), the ***Kathara Bio-spiritual Healing System®***, the ***Tangible Structure of the Soul Accelerated Bio-spiritual Evolution CD Program***, the ***Masters Templar Planetary Stewardship Initiative Course-book***, and the ***Amenti Life Empowerment Videos***.

Born in northeastern Pennsylvania, raised in traditional Protestant and Catholic Christian perspective, A'sha experienced "Conscious Birthing" as an "Indigo Child," with open reincarnational memory since birth. At the age of seven she was chosen for a 12-year (1971-1983) course of private MCEO Elementary-Intermediate training from the Melchizedek Cloister Emerald Order Eieyani Priests of UR of Kauai, Hawaii, in MCEO Emerald Covenant studies and translation of the ancient ***Cloister-Dora-Teura Plates***. ("CDT-Plates" are a set of 12 relic ancient *holographic data-recorded discs* that digitally store massive amounts of pre-ancient data, reportedly held for many generations since pre-Atlantian times in protective custody of the Eieyani Priests. Details in *Voyagers Volume-1: The Sleeping Abductees, 2001 2nd Edition.)* Following a **NDE** (Near-Death-Experience) at age 18, A'sha redirected her focus from the pursuit of studio art and a Psychology degree, to fulfilling a humanitarian spiritual service commitment, engaging full-time MCEO study, while working professionally as a freelance Studio Portrait Artist and in the Theater Management and Commercial Printing industries.

A'sha entered the Eieyani Priests MCEO Masters Course at the age of 20, receiving intensive MCEO Ministerial training from 1984-1996 through frequent engagements with the Eieyani Priests of Kauai, completing a rigorous 12-year Masters CDT-Plate training course and 6th-Degree (of 6) MCEO Ministerial Ordination (Ekr. MCEO). Her MCEO training includes the "Inner Christos/Krystos Law of One" Spiritual Tradition, extensive Pre-ancient History studies, Kathara Core Template Healing applications, Keylontic (matter-template) Science, Scalar-wave and Time Mechanics, 15-Dimensional

Physics, and Masters Spiritual Actualization training featuring advanced Merkaba/ DNA Template/ Kundalini/ Ascension sciences and Planetary Templar (Template) mechanics. In 1996 A'sha accepted appointment from the Eieyani Priests of Kauai to serve as *Eieyani **MCEO Speaker-1***, holding the first of three Eieyani MCEO CDT-Plate Speakers' Contracts (publication endorsement for MCEO CDT-Plate and texts translation), and completing an additional two years of MCEO Speakers training. Previously known by her birth name in this lifetime, *Diana Kathryn*, or "*Katie*," in 1998 she began public use of the ancient Eieyani language translation of her name — ***Aneayhea Kananda Ashayana Melchizedek***, or "***A'sha***" for short — choosing this as her MCEO-Speaker publishing name in appreciation for her MCEO training. In 1998 she conducted classes in New Jersey, from which emerged the *Amenti Series* video course.

In 1999 A'sha's first CDT-Plate dispensations were released (under pen name "Anna Hayes" — derived from "*Aneayhea*") as the ***Voyagers Series books*** (*Voyagers Volume-1: The Sleeping Abductees* and *Volume-2: The Secrets of Amenti*; Wildflower Press/Granite Publishing), the ***Tangible Structure of the Soul Accelerated Bio-spiritual Evolution CD Program***, and in 2000, the ***Kathara Bio-Spiritual Healing System®***. Between May 1999 and May 2000, A'sha conducted a progression of 12 intensive Spiritual Development Workshops in the US that became the ***Life Empowerment Workshop Series*** audio/video course (which in 2006 became part of the *MCEO Freedom Teachings®* workshops compilation). As someone respected for her knowledge of New Science, Spiritual Development, Pre-ancient History, Extra-ordinary Experience, Bio-Spiritual Ascension Training and related subjects, A'sha frequently appeared as a featured speaker on the US Expo circuit between 1999 and 2001, and has been interviewed on a variety of radio programs in the US and abroad, including Jeff Rense's *Sightings Show*, *SHINE* in Florida, and *Transitions* in New Mexico.

In November 1999, at the request of the MCEO Eieyani Priests, and with the assistance of ***Maryanne "Mac" Callaway*** (who accepted the commission of ***Eieyani MCEO-Speaker-3*** in 2001), A'sha founded the ***Kathara Alliance*** (a Holistic Healing network) and ***Azurite Temple MCEO*** in **Sarasota**, **Florida**, **USA** — a non-profit service organization that made available to the public the Spiritual Baptism, Nuptial, Ministerial Ordination and Burial rites of the egalitarian MCEO "Inner Christos/Krystos Law of One" Tradition. In February 2000, A'sha published the ***Kathara Bio-spiritual Healing System® Instructor's Manual*** for international correspondence study. While continuing a schedule of US Workshops, A'sha also began a series of ***Azurite International Educational Travel Tours***, with the organizational assistance of Mac Callaway; the first tour went to Egypt in March 2000. During her August 2000 Travel Tour Workshop in Peru, A'sha met *Michael A'san Deane* of the UK (who accepted the commission of ***Eieyani MCEO Speaker-2*** in 2001); in October 2000 A'sha and A'san married, and she changed her published name to "*A'shayana Deane*." In 2001, A'sha released the ***MCEO Masters Templar Planetary Stewardship Initiative Course-Book***.

Between 2000 and 2002, A'sha served the *Azurite Temple USA* as MCEO Eckar Minister and Speaker-1, and together with A'san and Mac, provided Spiritual Baptism, Nuptial rites and over 1,500 MCEO Ministerial Ordinations; throughout this two-year period, A'sha and A'san co-hosted *Azurite International Educational Travel Tours* in Peru, England, Ireland, Canada, Greece, Cyprus and Kauai, Hawaii. (By 2009, A'sha and A'san had hosted additional *Azurite Travel Tour workshops* in France, Bermuda, Andorra, India, Belize, Mexico, Morocco, Tenerife, the Netherlands, St. Kitts and numerous locations in the USA.) In spring 2002, at the request of the Eieyani-MCEO Guardians, A'san restructured and expanded Azurite Temple to become ***Azurite Press MCEO, Inc., USA, UK and Europe***, as MCEO spiritual service work expanded to include the publishing and preservation of MCEO texts and other complementary ideologies. The Deanes continued to release A'sha's Masters Spiritual Development MCEO CDT-Plate translations, via Travel Tours and 3-Day Workshops, and in 2001, A'sha released the much-expanded ***2nd Edition*** printing of the ***Voyagers Series*** books (Granite Publishing: 2001), while preparing for continued global MCEO workshops.

In October 2002, A'sha and A'san relocated to England to create foundation support for the broadening interest in Law of One spirituality within the international and European community; *Eieyani **MCEO Speaker-3 Mac Callaway*** assumed operational direction of Azurite Press MCEO, Inc. USA, while A'san continued administrative duties for *Azurite Press MCEO, Inc. USA* and *Azurite Press MCEO UK and Europe*. From October 2002 to July 2006, A'sha and A'san resided in England, where A'sha continued transcription of the MCEO-Guardians' CDT-Plates and Keylontic Transmissions, and created and hosted international *MCEO workshop presentations and Travel Tours*, and A'san, with the assistance of

dedicated individuals in various locales, expanded *Azurite Press* to include service offices in **Ireland, South Africa and Australia**, while co-hosting international *MCEO workshops and Travel Tours* with A'sha.

In late 2005, the Guardians' *GA-MCEO Eieyani, EyanA, AdonA and Haah 'TUr Councils* commissioned the Deanes to relocate back to the USA and assist them in protecting specific Earth Templar locations the Guardians deemed "***Sacred Sites"***. In preparation for the move, A'san closed the UK service office of Azurite Press, and in July 2006 A'sha and A'san relocated to the USA, temporarily residing at the first "*Guardian Sacred Site*" in NW Colorado. In an effort to protect the integrity of the MCEO-Guardians' teachings from being plagiarized and distorted, A'san in 2006 initiated Trademark procedures for all of A'sha's prior MCEO workshop programs, which became registered as the ***MCEO Freedom Teachings®–****Ashayana & Michael Deane*. In January 2007 the Deanes again relocated, this time to the second "Guardian Sacred Site" near Phoenix, Arizona. Between 2003 and 2006 a succession of events took place within the "planetary *Big Picture* drama" (first discussed in *Voyagers Volume-2, 2nd Edition*) — the same period in which occurred a corresponding series of "GA Mission Upgrades" and "*Guardian Council Up-steps*" — and in late 2006 the *trans*-dimensional ***Krystal River Councils of Aquareion–Adashi Adepts Elder Councils*** joined the efforts of their local *inter*-dimensional *GA-MCEO Guardian Councils*. Resultantly, in early 2007 the Krystal River and GA-MCEO Guardian Councils expanded A'sha's MCEO Speaker-1 *CDT-Plate translation contract* to include the translation of appropriate aspects of the more advanced ***KUmA'-yah Al-humbra Crystal Discs***. The *KUmA'-yah Al-humbra Crystal Discs* contain Ascension teachings and history records from not only our **Milky Way galaxy**, as featured in the *CDT-Plate Silver Discs*, but also from the ***M31-Andromeda/Aquinos galaxy*** and the ***Aquareion Universe***, with which our local Milky Way galaxy shares a pre-ancient history — and a relationship of contemporary significance.

In early 2008, A'sha and A'san were re-commissioned by the GA-MCEO and Krystal River Guardian Councils to relocate once more back to Florida; in December 2008 the Deanes moved their residence and Administrative/Creative Development Offices to a "Guardian Sacred Site" on Pine Island, Florida. As of December 2008, the "Guardian Sacred Sites" in Colorado and Arizona remain under Guardian protection and MCEO Stewardship. And in 2009, the *3 MCEO-Speakers* — A'sha, A'san and Mac Callaway — and the Ministers of the MCEO received a spiritual-Ordination "up-step," invitation and appointment into the ***Mashaya-Hana Priest-Caste of the MCEO–Krystal River Councils of Aquareion***.

From their new home in Florida, A'sha and A'san continue to co-host international *MCEO Freedom Teachings® workshops and Travel Tours*. While continuing his duties as MCEO Speaker-2 and International CEO of Azurite Press MCEO, Inc., A'san is currently working with the Mashaya-Hana Councils on his first book, tentatively titled "***Expecting to Fly***," planned for release in late 2010. MCEO Speaker-3 *Mac Callaway* continues her volunteer services of operational direction and administrative coordination for Azurite Press MCEO, Inc. USA, while providing MCEO public-access services — through the ***Keylontic Science e-Group***, and through the ***Kathara Team*** and ***MCEO Kathara Team Modules Program*** which she created in 2003 and has worked to progressively evolve on behalf of the MCEO — with the assistance of dedicated members of the *International MCEO Volunteers Network*. A'sha continues progressive transcription of the *GA-MCEO–Krystal River* Keylontic Transmissions, CDT-Plate Silver Discs and KUmA'-yah Al-humbra Crystal Discs, and creation of the MCEO Freedom Teachings® workshop programs. As of September 2009, A'sha is working with the *GA-MCEO–Krystal River Mashaya-Hana Councils* on her next book — "***2012 – Life After Earth: Orb Whisperers and the Silver Seed Awakening***" — planned for release in late summer 2010.

A'sha's focus in her commission as *MCEO Speaker-1* — and in her work as author and teacher of the MCEO Freedom Teachings® and related publications, and as Co-founder, President and Director of Creative Development of Azurite Press MCEO, Inc. — is to assist the GA-MCEO– Krystal River Guardians in their Earth-mission of keeping the potentials of genuine Ascension viable and accessible for contemporary humanity; to return to humanity the Sacred Knowledge and Truth of the *CDT-Plates* and *KUmA'-yah Al-humbra Crystal Discs* through accurate and accessible translation; to foster awareness, personal empowerment, Spiritual Actualization and genuine Love, Freedom and Enlightenment among "all life everywhere;" and to lovingly assist *MCEO Speakers 2 and 3*, members of the *International MCEO Volunteers Network*, those who embrace the *MCEO Freedom Teachings®*, and *anyone else who cares*, to joyfully fulfill the unique purposes of healing and education for which they incarnated in this lifetime — so they may finally know *peace* and reclaim their *Ancient Birthright of Eternal Life Ascension*.

A'san Deane, M. Sc, Ekr MCEO Speaker-2 is Co-founder, International CEO, and Director of Administration of ***Azurite Press MCEO, Inc. International*** and is host, speaker and instructor of the ***Spiritual Discovery Workshop Series–UK***, co-host of ***Azurite International Educational Travel Tours*** and Spiritual Development Workshops and contributor to the ***MCEO Freedom Teachings®*** workshop programs. Born in England, raised in a traditional Christian perspective, A'san demonstrated natural interest and special abilities in spiritual development from an early age; in childhood he was chosen for private contact by the Melchizedek Cloister Emerald Order Eieyani Priests of UR of Kauai, Hawaii. Initially trained and working as a Mechanical Design Engineer, A'san later studied Philosophy, Economics and Politics at Lancaster University (UK), gaining notoriety and appreciation for the dynamics and spirit of team work as an international university-league soccer player representing England in international competitions on the European Universities Championship League. In 1971 A'san was awarded a scholarship to the University Of Colorado (USA), where he next pursued a double specialization in Psychology and Marketing while serving as Captain of the University of Colorado soccer team through their 1972 victory in the All-America Soccer Championships. After earning a Master of Science degree, A'san returned to England, founding an International Business Consultants group and pursuing a distinguished career in executive business administration and marketing.

During the 1990's A'san assisted in developing community service and support programs as County (Parish) Chairman for a large, non-denominational Charitable Association in the UK. Fulfilling the personal spiritual commitment that guided him from childhood, A'san changed his life course as a successful corporate founder and business administrator to pursue full-time spiritual development study in the MCEO "Inner Christos Law of One" spiritual tradition, devoting full-time efforts to humanitarian service as a MCEO Minister, Spiritual Development teacher and speaker. Throughout the 1990's A'san hosted ***Spiritual Discovery Workshops–UK*** and a variety of public speaking endeavors throughout the UK. As a respected Business and Spiritual Professional, A'san was selected on four occasions in 1999 to serve as a spokesman representing a mature spiritual perspective on SKY-TV, BBC and Channel-4 UK television.

In early 2000, after discovering on the internet — and feeling a spiritual connection to — excerpts from A'sha's Voyagers Books, A'san contacted Azurite Temple MCEO USA, with interest in distributing A'sha's books in the UK; shortly afterward, A'san registered to attend A'sha's next *Azurite Educational Travel Tour* to *Peru,* scheduled for August 2000. After meeting A'sha (fellow MCEO Eckar Minister who holds the *MCEO Speaker-1 CDT-Plate* translation contract, and then-co-founder, with Maryanne "Mac" Callaway, of Azurite Temple MCEO USA) and Mac Callaway (who became ***MCEO Speaker-3* in 2001)** during A'sha's August 2000 Peru Travel Tour workshop, A'san organized a *UK MCEO-Kathara Healing Workshop Travel Tour* for A'sha, for September 2000.

After receiving his 6th-Degree MCEO Spiritual Ordination from the Eieyani Priests of Kauai, Hawaii, A'san founded *Azurite Temple MCEO UK and Europe* in September 2000, to introduce the spiritual education programs of Azurite Temple USA to the UK community. Simultaneously, A'san accepted appointment as Executive Director of *Azurite Temple USA,* and joined A'sha in the US, when they discovered their personal love for each other and married in October 2000. Following their marriage in October 2000, A'san relocated to the USA to join A'sha in serving the Azurite Temple USA community. Upon relocating to the USA to be with A'sha, and with the assistance of Mac Callaway, A'san restructured, reorganized and expanded the existing production, distribution and marketing network for the *Azurite Temple MCEO USA* educational product line, and assumed all international administrative duties for *Azurite Temple MCEO USA,* while A'sha continued transcription of the MCEO-Guardians' CDT-Plates and Keylontic Transmissions, and creative development of the international *MCEO workshop presentations and Travel Tours* programs and MCEO educational product line.

In 2001 A'san accepted appointment from the Eieyani Priests of Kauai to serve as ***Eieyani MCEO Speaker-2***. Known as *Michael* throughout his lifetime, he began public use of the name "*A'za,*" the ancient Eieyani language translation of his name, choosing this as his MCEO-Speaker publishing name in a gesture of appreciation for his Speaker appointment. In 2009, following his appointment — alongside A'sha, Mac and the Ministers of the MCEO — to the *Mashaya-Hana Priest-Caste of the MCEO–Krystal River Councils of Aquareion*, Michael changed his spiritual name from "*A'za*" to "**Ma-A'tU *A'-san***," or "***A'-san***" for short, the ancient name by which the *Krystal River Councils* know him; Michael began public use of the name "*A'san*" in August 2009.

While initiating preparations for his MCEO Speaker-2 spiritual development books, A'san spent 2001 serving as International CEO and Administrator of *Azurite Temple USA* and co-hosting *Azurite International Educational Travel Tours* and Workshops with his wife A'sha; in 2002, the two collaborated to create the ***Maharata Text* "*Dance For*" *Program***. Between 2000 and 2002, A'san served the *Azurite Temple USA* as MCEO Eckar Minister and Speaker-2, and together with A'sha and Mac, provided Spiritual Baptism and Nuptial rites and over 1,500 MCEO Ministerial Ordinations. At the request of the MCEO Eieyani of Kauai, A'san restructured and expanded the Azurite Temple USA spiritual service organization to become ***Azurite Press MCEO, Inc. USA, UK and Europe.***

In October 2002, A'san and A'sha relocated to England to create foundation support for the broadening interest in Law of One spirituality within the international and European community; *MCEO Speaker-3 Mac Callaway* assumed the roles of Operations Director and Administrative Coordinator for Azurite Press MCEO, Inc. USA, while A'san continued international administrative duties for *Azurite Press MCEO, Inc. USA* and *Azurite Press MCEO UK and Europe*. From October 2002 to July 2006, while residing with A'sha in England, A'san engaged the assistance of dedicated individuals in various locales to expand *Azurite Press* to include service offices in **Ireland-EU**, **South Africa and Australia**, and continued to co-host international *MCEO workshops and Travel Tours* with A'sha. During this period, A'san also restructured for greater efficiency the production, distribution and marketing network, and orchestrated "in-house" production and distribution, for the Azurite Press educational product line, as A'sha continued transcription of the MCEO-Guardians' CDT-Plates and Keylontic Transmissions, and creation of the international *MCEO workshop presentations and Travel Tours* programs.

In late 2005, when the Deanes were commissioned by the Guardians' *GA-MCEO Councils* to relocate back to the USA, A'san closed the UK service office of Azurite Press, while continuing international administrative duties for Azurite Press MCEO, Inc. USA and the Irish, South African and Australian MCEO service offices. In July 2006 A'san and A'sha relocated to the first "*Guardian Sacred Site*" in NW Colorado, then again relocated in January 2007 to the second "Guardian Sacred Site" near Phoenix, Arizona. In 2006, A'san initiated Trademark procedures for all of A'sha's prior MCEO workshop programs, to protect the integrity of the MCEO-Guardians' teachings from being plagiarized and distorted; the workshops became registered as the ***MCEO Freedom Teachings®–****Ashayana & Michael Deane.* Between 2003 and 2006 there occurred a series of "GA Mission Upgrades" and "*Guardian Council Up-steps*;" as a result, in late 2006 the *trans*-dimensional ***Krystal River Councils of Aquareion–Adashi Adepts Elder Councils*** joined the efforts of their local *inter*-dimensional *GA-MCEO Guardian Councils*. After the Krystal River and GA-MCEO Guardian Councils expanded A'sha's MCEO Speaker-1 *CDT-Plate translation contract* in 2007 to include the translation of the *KUmA'-yah Al-humbra Crystal Discs* — and the *3 MCEO-Speakers* and the Ministers of the MCEO in early 2009 received a spiritual-Ordination "up-step" into the *Mashaya-Hana Priest-Caste of the MCEO–Krystal River Councils of Aquareion* — A'san changed his spiritual name from "*A'za*" to "*Ma-A'tU A'-san*" ("*A'-san*" for short).

In December 2008, A'san and A'sha were re-commissioned by the GA-MCEO–Krystal River Guardian Councils to the "Guardian Sacred Site" in Pine Island, Florida, and relocated their residence and Administrative/Creative Development Offices from Arizona to this site. Currently A'san is working with the Mashaya-Hana Councils on his first book, tentatively titled "***Expecting to Fly***," planned for release in late 2010. A'sha continues progressive transcription of the *GA-MCEO–Krystal River* Keylontic Transmissions, CDT-Plate Silver Discs and KUmA'-yah Al-humbra Crystal Discs, creation of the MCEO Freedom Teachings® workshop programs, and is working on her next book, "***2012 – Life After Earth: Orb Whisperers and the Silver Seed Awakening***," planned for release in late summer 2010.

MCEO Speaker-2 A'san Deane continues to serve as International CEO and Director of Administration of Azurite Press MCEO, Inc. USA and International; oversees administrative functions for the Azurite Press MCEO, Inc. service offices in the USA, Ireland, South Africa and Australia; and co-hosts, with A'sha, the international *MCEO Freedom Teachings® workshops and Travel Tours*. A'san's focus in his commission as *MCEO Speaker-2,* in his work as co-host of the MCEO Freedom Teachings® workshops, and as International CEO of Azurite Press MCEO, Inc., is to assist the GA-MCEO–Krystal River Guardians in their Earth-mission, to support MCEO Speakers 1 and 2 in their respective commissions, and to encourage the widest proliferation and awareness of the Birthright MCEO Freedom Teachings®, in a context of grounded, fear-free integration of the gentle power and spiritual strength of the "Body Kryst".

Mary Anne "Mac" Callaway, B.S., D.Ch, MCEO Speaker-3 is Co-founder, Operations Director, Administrative Coordinator and Director of Public-access Services of ***Azurite Press MCEO, Inc. USA***, founder of the ***MCEO Kathara Team*** and ***Keylontic Science e-Group***, and contributing organizer and operations assistant to ***Azurite International Educational Travel Tours*** and ***MCEO Freedom Teachings***® workshops. Born in northeast USA, raised in traditional Catholicism, Mac constantly raised difficult questions to her family and teachers regarding the contradictions found in traditional religion, as well as questions about many metaphysical topics. Receiving very few acceptable answers, Mac began a lifetime of studying a wide range of metaphysical subjects, seeking to find her own answers.

In 1976 Mac completed her undergraduate Bachelor of Science Degree (B.S.) in Elementary Education at Kutztown University in Pennsylvania; following this she pursued a career in Real Estate, and later engaged a long-term career in the Life Insurance industry, while continuing her metaphysical exploration. Mac earned a Doctor of Clinical Hypnotherapy Degree (D.Ch) from the American Institute of Hypnotherapy in California, and in 1990 she established a private Clinical Hypnotherapy practice in Pennsylvania, through which she assisted clients in personal healing through the popular Meditation, Stress-Reduction and Habit Control ***Self-Hypnosis Programs*** she created. Mac's philosophy in her hypnotherapy and healing practice was, and is, simple: "All healing is self-healing" — facilitators can best serve their clients by creating a space for healing to occur, rather than by imposing in and interfering with a client's organic self-healing process. Mac maintained her Clinical Hypnotherapy practice for over 10 years, before closing private practice in order to more fully serve the MCEO mission.

In early 1999, during a study-group meditation, Mac personally experienced a very distinct vision, with a clear message. Mac saw herself in Egypt, inside of the Great Pyramid, amid a fairly large group of people with whom she was doing some kind of "energy work"; with the imagery Mac received a very clear message "to do the conference with the H teacher". The following day Mac called a friend to discuss the vision and message, and he told her that he knew who the "H teacher" was — *Anna Hayes* (the pen name under which A'sha first published the *Voyagers* books). Mac responded to his statement with one word: "*Who?*" Mac's friend said he would call her back, and when the phone rang five minutes later, he said, "*She is waiting for your call*" and gave Mac A'sha's phone number. Mac called A'sha and they talked for hours, and Mac shared her meditation experience, telling A'sha what she thought it meant: that she had to arrange to take A'sha to Egypt. Following the phone call, A'sha sent Mac a copy of *Voyagers Volume-2: The Secrets of Amenti, 1st Edition*; as soon as Mac opened the book, she cried, and knew she had found the information for which she'd searched so long. So many personal memories of other lifetimes — disjointed things Mac had remembered for decades — finally fell into place; it all started to make sense as the book revealed the accounts of humanity's "Lost History": the Templar Wars, Camelot, etc. Mac's mission of service to the MCEO began that night and continues to the present day.

In 1999, following her introduction to the MCEO teachings, Mac assisted A'sha in founding the ***Azurite Temple MCEO*** in **Sarasota**, **Florida**, **USA** and the ***Kathara Alliance*** (Holistic Healing network). In late 1999, the GA-MCEO Guardians informed A'sha that she needed to host a travel workshop to Egypt in early 2000, as essential Planetary Templar Stewardship "Grid-Keepers" activities had to be conducted in that timeframe at various sites in Egypt — and especially within the King's Chamber of the Great Pyramid. A'sha had traveled no further than Canada, and had no idea where to begin in creating a group-trip to Egypt. In March 2000, a year after her "Great Pyramid" meditation experience of early 1999, Mac organized A'sha's first Educational Travel Tour to Egypt, where A'sha, Mac and the workshop group conducted MCEO Ordinations and Earth Templar "Grid-Keepers' energy work" within the King's Chamber of the Great Pyramid, confirming the accuracy of Mac's earlier vision of guidance.

From 2000 to 2009, Mac has continued to provide, through her dedicated volunteer work to the MCEO, administrative coordination and on-site organizational assistance for all ***Azurite International Educational Travel Tours*** and ***MCEO Freedom Teachings***® workshops, traveling with A'sha and A'san Deane, and MCEO workshop groups, to Peru, England, Ireland, Canada, Greece, Cyprus, France, Bermuda, Andorra, India, Belize, Mexico, Morocco, Tenerife, the Netherlands, and St. Kitts, and to Kauai, Hawaii and numerous other locations in the USA. In 2000, Mac initiated e-Group public-access services for *Azurite Temple MCEO Sarasota, FL,* which evolved to become the Azurite Press MCEO, Inc. ***Keylontic Science e-Group*** of today. In 2001 Mac accepted appointment from the Eieyani Priests of Kauai to serve as ***Eieyani MCEO Speaker-3.*** Between 2000 and 2002, Mac served the *Azurite Temple USA* as an MCEO

Elder Consummate Minister and Speaker-3, and together with A'sha and A'san, provided Spiritual Baptism and Nuptial rites and over 1,500 MCEO Ministerial Ordinations. In spring 2002, Mac assisted A'san in his efforts to restructure and expand Azurite Temple to become ***Azurite Press MCEO, Inc. USA, UK and Europe.*** In October 2002, when A'sha and A'san relocated to England, Mac assumed the volunteer positions of Operations Director and Administrative Coordinator for Azurite Press MCEO, Inc. USA — and continued her career in the Life Insurance industry, working for a Fortune 500 Company — while A'san continued international administrative duties for *Azurite Press MCEO, Inc. USA* and *Azurite Press MCEO UK and Europe.*

As the Guardians' teachings grew through A'sha's continuing translation of the GA-MCEO Keylontic Transmissions and CDT-Plates, the "next-level-up" information provided in each new MCEO workshop progressively became so in-depth and specialized (each successive workshop introducing new subject matter in sequel to the subject matter from the workshop just before), that it became correspondingly more difficult for workshop newcomers to "catch-up" enough to comfortably comprehend the in-depth subjects addressed at their first workshop. Resultantly, between 2003 and 2005 Mac created and organized the "***Kathara Team***," a group of dedicated *MCEO* students who volunteer their time, effort and talents to create an ongoing **MCEO "*Newcomers' Modules Program*"** — featuring a series of simplified and shortened presentations of *foundation teachings* from A'sha's past MCEO workshops — that is offered on-location to newcomers prior to A'sha's main workshop presentations. The Kathara Team also offers *Introductory MCEO Module-Workshops* in various international locales. The "*Modules Program*" helps people new to the MCEO teachings to better understand various aspects of the foundation teachings, thus enabling them to receive greater benefit from A'sha's more intensive main MCEO workshop programs.

From October 2002 to July 2006, while continuing her volunteer work as Operations Director, Administrative Coordinator, and Director of Public-access Services for Azurite Press MCEO, Inc. USA, Mac assisted A'san (while he and A'sha resided in England) as liaison for international administrative co-ordination as he was expanding *Azurite Press* to include service offices in **Ireland**, **South Africa and Australia**. When A'sha and A'san fulfilled their *GA-MCEO Councils'* commission to relocate back to the USA in July 2006 — and when they were re-commissioned to Pine Island, FL in December 2008 — Mac continued to serve as Operations Director, Administrative Coordinator, and Director of Public-access Services for Azurite Press MCEO, Inc. USA. In 2009 — after the *trans*-dimensional ***Krystal River Councils of Aquareion–Adashi Adepts Elder Councils*** in late 2006 joined the efforts of their *inter*-dimensional *GA-MCEO Guardian Councils* — Mac, alongside MCEO Speaker-1 A'sha and Speaker-2 A'san and the Ministers of the MCEO, received a spiritual-Ordination "up-step," invitation and appointment into the ***Mashaya-Hana Priest-Caste of the MCEO–Krystal River Councils of Aquareion***.

MCEO Speaker-3 Mac Callaway continues her work as Operations Director, Administrative Coordinator and Director of Public-access Services for Azurite Press MCEO, Inc. USA, and with the assistance of the dedicated members of the *International MCEO Volunteers Network*, she continues to provide administrative coordination and management for MCEO public-access services through the ***Keylontic Science e-Group***, ***Kathara Team*** and the ***MCEO Kathara Team Modules Program*** — while continuing her career in the Life Insurance industry as a Corporate Trainer for a Fortune 500 Company. Mac's focus in her MCEO Speaker-3 commission, and in her work with the Azurite Press MCEO, Inc., is to assist the GA-MCEO–Krystal River Guardians, and MCEO Speakers 1 and 2, in bringing the GA-Krystal River MCEO Freedom Teachings® to the world; and to foster a sense of personal empowerment and harmonious community among those who embrace the MCEO Freedom Teachings®.

SUMMARY BRIEF

The Melchizedek Cloister Emerald Order Teachings, The Eieyani and the CDT-Plates

The ancient MCEO (Melchizedek Cloister Emerald Order) perspectives teach of the **Inner Christos, or living God-spirit alive within all things, including the natural environment**. "Inner Christos" philosophies are built upon understanding of what is referred to as the **"Law of One"**. Inner Christos Law of One perspective respectfully acknowledges the inter-connection, interdependence and intrinsic value of all components of reality in recognition that the **Living Consciousness, "God-Spirit" or "Inner Christos"** is the **tangible substance** of consciousness and energy from and of which all things manifest are composed. MCEO teachings offer people an opportunity for advancing personal empowerment through genuine spiritual development regardless of their religious affiliation. **The "Inner Christos" of the "Law of One" MCEO spiritual teachings belongs to everyone of every creed, not just those who choose to call themselves "Christians"**. The word **"Christos"** (from which the word "Christian" later emerged) was originally spelled "**Kristos**" in the most ancient texts, and referred to the **personal Divine Blueprint** of **Conscious Living God-Spirit energy** of which all things and beings manifest are made.

The spiritual service work and teachings of the MCEO (Melchizedek Cloister Emerald Order) are more than perspectives based upon *speculation* regarding a variety of unrelated but interesting spiritual and scientific subjects. The work for which MCEO and its Speakers stand represents a very ancient, advanced **Paradigm of Perspective** on the **nature of reality**. The MCEO paradigm is inclusive of the other scientific and spiritual belief systems on Earth, but extends beyond the limitations and often incongruent and conflicting assumptions commonly associated with them. Through familiarity with the MCEO teachings one can grow to recognize the commonality and intrinsic complementary association between the most empowering contemporary belief systems and the MCEO perspective. At the center of contemporary MCEO teaching programs lies an "**Ancient Mystery**" known as the "**CDT-Plates**". The books and course programs produced by the MCEO are not speculative nor theoretical in nature, but are rather derived from factual **TEXT BOOKS.** Contemporary MCEO teaching programs contain **English language translations** of materials already existing within a very ancient set of texts called the **Maharata Texts** (indirectly related to the Indian "Mahabharata" writings). The 560 books of the ancient Maharata Texts are the original translations of an even older set of ancient records that have survived to our present time, stored on a set of 12 digital holographic recorder discs called the ***"Cloister-Dora-Teura Plates***" or "**CDT-Plates**", that were manufactured in **246,000BC**. The CDT-Plates and Maharata Texts have been translated into written form numerous times in our ancient history, in many different countries and languages.

The CDT-Plates are **real, physical objects**, that have been kept in the private, protective custody of a specific family line of "**Indigo Children**" on Earth since the 9558BC "fall of Atlantis". This family line is called the **Eieyani**, who refer to themselves as the **Melchizedek Cloister Emerald Order** (MCEO) **Priests of Ur**; another branch of the Eieyani family call themselves the MCEO "**Priests of MU'a** ("MU"). The word *"priest"* originally meant "guardian" or "***steward and administrator of spiritual wisdom***". Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as "**Priests**" or "**Ministers**". The MCEO has always been, and will always be, an egalitarian, non-hierarchical, non-gender-biased spiritual service collective. There are small collectives of Eieyani descendants alive, well and living on Earth now, in various global regions, who hold the knowledge (and relics like the CDT-Plates) of pre-ancient Earth and its civilizations. *Similar* to some more advanced sects of **Tibetan Monks**, especially those who rarely emerge from their "hide outs" in the Himalayas, certain members of the Eieyani family line have *open contact and direct communication* with living civilizations from "other" places and *other times.* Every once in a while within humanity's evolution, the Eieyani are permitted to bring back the ancient teachings in their pure form, allowing for the records of the 12 CDT-Plates and Maharata Texts original translations to be re- translated into the languages of the time. **The Eieyani return the knowledge contained in the CDT-Plate records to public view when it is most needed to assist Earth populations, at times when major planetary events are due to transpire.** The last time *written* CDT-Plate translation took place was during the "Christ period" of **12BC-27AD**, among a group of Essenes of Eieyani descent. Most of these written records were rapidly destroyed, confiscated or intentionally altered by the corrupt political power elite of the times, as so often has happened historically with CDT-Plate written translations. Since 27AD the Eieyani Priests knew that the **next CDT-Plate Translation Cycle** was scheduled to occur just prior to and during the **2000-2017AD** period; a period in time when great changes in the evolutionary path of all Earth species were destined to unfold. During the 2000-2017AD period permission for **written CDT-Plate translation** was to be authorized by the Eieyani Priests.

CDT-Plate Translation occurs when the Eieyani Priests carefully select several individuals in childhood from general family lines that they know to be descendant from the Eieyani. They make private contact with the child, providing years of discrete training as needed. When it is time for the CDT-Plate Translation Cycle to begin, the Eieyani then offer 3 official MCEO Eieyani **SPEAKERS Contracts** to 3 of their chosen trainees that have entered adulthood (the individual is under no obligation to accept a "Speakers" appointment.). Speakers Contracts are publication endorsements for CDT-Plate and Maharata Text translations. Eieyani Speakers are permitted and trained to translate information directly from the highly protected CDT-Plate holographic discs

and from their original Maharata Texts written translations. Once skilled in translation, Speakers are then endorsed by the MCEO Eieyani Priests to publicly publish MCEO CDT-Plate translations and related information as provided by the Eieyani Priests. During many historical periods written translation of the CDT-Plates was forbidden, to protect the Eieyani Speakers, and prevent Planetary Templar knowledge from being confiscated and abused by corrupt political powers; at these times only *verbal presentation* of the knowledge was permitted, thus translators were called "*Speakers*". To protect the integrity and quality of CDT-Plate translations, and to ensure the safe keeping of the 12 CDT-Plates, there are **only 3 Speaker Contract appointments** given during any one translation cycle. When translation publication time arrives, the 3 Speakers are eventually guided by the Eieyani Priests to find each other and work together, each endorsing the validity of the others' work. In the present CDT-Plate Translation Cycle the **Speaker-1 Contract** was finalized and initiated in **1999** and the **Speaker 2 and 3 Contracts** were finalized and initiated in **2001**.

Eieyani Speakers know the MCEO perspective as their truth; they share this truth with others, freely when possible, *out of love for humanity* and *gratitude* for the personal freedom in BEING that the MCEO teachings enable one to achieve. **The Speakers' "job" is to "give the gift" of this knowledge, through *dynamics of equal and reciprocal energy exchange*, to those who seek to know it and demonstrate through action and attitude the sincerity of this intention.** The truths of which the Speakers teach are universal and freely belong to anyone who is capable of translating this knowledge from the Universal Unified Field. The CDT-Plates and MCEO Speakers provide a Sacred Service in that translation of the higher aspects of Unified Field knowledge is exceedingly difficult from the manifest fields of creation and requires much intensive training and innate abilities of consciousness and biology. The CDT-Plates serve to hold the highest aspects of Universal Knowledge in more accessible form; CDT-Plate Speakers are trained to translate this knowledge into forms directly accessible to general populations. Speakers have no need to "convince" anyone of anything, nor are they obligated to bear the burden of proof or self-justification. **The burden of "Proof" lies always with the beholder**, as within the natural dynamics of the Universal Law of Reciprocity and the intrinsic processes of Creation Physics, **one must "know" a thing to BE before one can "see" it manifest.** Speakers "**Live what they Love**", "**Practice what they Preach**" and respectfully "**Share what they have to Give**" with others who feel inclined to listen with reciprocal respect. **MCEO Eieyani Speakers "Speak their Truth", while always respecting the free will right of others to have a different opinion**.

The Eieyani Priests of UR and MU'a of Kauai, Hawaii, the 12 CDT-Plates and their ancient Maharata Text original translations, are the tangible source from which all true contemporary MCEO work emerges. **Several families of Eieyani Priests in various geographical areas presently hold the 12CDT-Plates, 560 Maharata Text Books and related relics from pre-Atlantean times under high security protection.** The MCEO *Inner Christos Law of One* teachings, *Templar Sciences* knowledge and *Pre-ancient History* records of the CDT-Plate teachings represent an intrinsically congruent paradigm of universal understanding; collectively the MCEO teachings are referred to as the **Emerald Covenant *Freedom Teachings*®** . Once upon a time, long before Atlantis, these teachings were the "common knowledge" of a once enlightened, joy-filled, peaceful, love-based global civilization of "Angelic Human" beings. **Fragmented remnants** of these once-unified "Founders" MCEO spiritual-science teachings, which have been **historically edited and altered repeatedly** to serve dogmatic control agendas, have literally provided the **ancient foundations upon which all of our traditional world religions**, **evolving sciences** and "**New Age" spirituality** are built. The Emerald Covenant Freedom Teachings® of the MCEO, originally provided 950 billion years ago by the Universal Founders races from which our universal life field evolved, are the **enduring legacy**, **divine birthright** and **intrinsic heritage** of all beings in this universe. Presently they serve also as the **Long-forgotten Promise** of Love, Freedom, Unity, Peace and Victory to the many races and species of Earth.

CDT-Plates, Emerald Covenant and the Mass Drama

The information contained within the *Voyagers Series Books*, *Kathara Bio-Spiritual Healing System*, *Tangible Structure of the Soul Accelerated BioSpiritual Evolution Program*, and related materials produced through the 3 legitimate GA Speakers, represents translation of ancient records. These ancient records exist in physical form as a set of 12 Silver-metallic discs called the Cloister-Dora-Teura-Plate Libraries or "CDT-Plates". The 12 CDT Plates are holographic recording, storage and transmission devices that hold massive amounts of data in encrypted, electromagnetic scalar-standing-wave form. Translation of data from the CDT Plate Libraries is accomplished through initiation of specific frequency transmissions, through which the discs activate to release their stored data in the chosen form of holographic, audio, visual or digital translation. The 12 CDT Plates were manufactured from a form of striated-selenite-quartz crystal organic to the Density-2 planet Sirius B, surrounding a radioactive isotopic core, encased in a "hybrid-metal" silver-alloy compound organic to Earth.

The CDT Plates were manufactured by the Taran Priests of Ur and Maharaji Sirian-Blue Human "Holy Grail Line" races of the Council of Azurline, often collectively called the "Azurite" or "Eieyani" Races, on Density-2 Sirius B, GA Signet Council-6 and guardians of D-6 Sirius B Star Gate-6 in the Universal Templar Complex (see: *Voyagers*, Vol. 1). In 246,000 BC, CDT Plates were presented as a gift to the Urtite Human Race, the Seed Race of the contemporary human lineage, by the Azurite Races Sirius B, in honor of the Urtites entering the Founders Races, Emerald Covenant Co-evolution Agreement peace treaty. The CDT Plates contain massive encrypted tomes of practical physical and spiritual evolutionary advancement teachings, presented to the races of our 15-dimensional Time Matrix by the Density-5 (dimensions 13-15) Elohei-Elohim-Emerald Order, Seraphei-Seraphim-Gold Order and Braha-Rama-Amethyst Order Melchizedek Cloister Breneau, the 3 Primary Founders Races in our Time Matrix.

The teachings contained in the CDT Plates cover the full evolutionary history of life evolution in our Time Matrix since the last life-wave was seeded 950 billion years ago up to the present. Time is simultaneous in nature; past-present-future exist as multiple sets of interconnected cycles of evolutionary development that form manifest probabilities of possible experiential action. The CDT Plates also contain "future records" of the many various paths of evotutionary development of human and inter-dimensional, inter-galactic, intertime races, which emerge from free-will choices rendered in our -present spacetime continuum. (Of the existing "probable futures," or Primary Time Vectors of evolutionary development that exist as "future" experiential potentials, our present moment choices determine which line of probable evolution we will perceive in manifest form as a future continuum of time emerging from our present space-time coordinate.)

Most valuable to our present time, the CDT-Plates contain extensive educational records pertaining to Founders Race Creation Mechanics, "Universal Unified Field Physics," and "Law of One" - "Inner Christ" Sacred Spiritual-Science "Ascension-Merkaba" training. The CDT Plates also contain the history and details of the Founders' Emerald Covenant Co-evolution Agreement peace treaty, humanity's historical relationship to the Emerald Covenant. As designated by the

Emerald Covenant restatement of 246,000 BC, the CDT Plates contain the teachings of Masters Templar Mechanics (Planetary, Galactic and Universal Star Gate mechanics), DNA Template Bio-Regenesis and Kathara Core Template Healirig technologies. These masters' teachings were originally provided to the Angelic Human race of Earth in order for humanity to fulfill its original "Creation Commission" as guardians and keepers of the Universal Templar Complex.

The CDT Plates have served as an intrinsic part of human evolution on Earth since they were given to the Urtites in 246,000 BC. The first written translation of part of the CDT Plate library was rendered by the Urtite human race of Earth, upon receiving the CDT Plates in 246,000 BC. The first written CDT-Plate records were a collection of large books, collectively called the Maharata (pronounced "Ma-ha-ra-ta"; translates into the "the Inner Christos" "dispensations"). The Maharata text was a collection of over 500,000 pages of condensed text transcription, spanning 590 volumes. The Maharata transcriptions were hand-written on a form of durable textile-paper resembling crisp, semi-translucent vellum that was in common use at this time among the Taran civilizations of Density-2; the-volumes of the Maharata were compiled in large format, embossed-leather-bound books through a hand-rendered process that resembles contemporary "perfect binding". The original Maharata Books were transcribed in the Anuhazi language, the first spoken-written language form of the Density-4 Emerald Order Elohei-Elohim-Anuhazi (Feline-hominid) Founders Race, out of which all other external language forms in our Time Matrix emerged. The 12 CDT Plates were kept on Earth in the protective custody of the Urtite human lineage, until the Temple Wars and resulting pole shift of 208,216 BC. Just prior to the 208,216 BC pole shift and decimation of the Urtite human culture, 10 of the 12 CDT Plates were retrieved by the Sirius B Azurite Races and placed under Azurite Universal Templar Security Team protection.

The CDT Plates have always been coveted by many interstellar races, not only for the practical knowledge they contained, but also due to their dual purpose in relation to obtaining manual access to the 12 Primary Star Gates of the Universal Templar Complex. The 12 CDT Plates are part of a larger apparatus that included 12 corresponding, larger silver discs called the Signet Shields. The 12 Signet Shields, manufactured at the same time as the CDT Plates, are a technology through which the 12 Primary Star Gates of the Universal.Templar Complex, which span the dimensional fields and galaxies of dimensions 1-12, can be manually activated and opened. The 12 CDT Plates, designed for inter-dimensional frequency transmission capacity, can be used to manually activate, from remote locations, the Signet Shields and their corresponding Universal Star Gates; the 12 CDT Plate discs are the Activators for the 12 Signet Shields. In the wrong hands, the CDT-Plate-Signet Shield technology could bring universal devastation to this Time Matrix, and so the CDT Plates remained under the highest security possible. On behalf of the Emerald Order Melchizedek Cloister Elohei-Elohim Breneau of Density-5, and their primary Guardian Universal Service organizations (the Azurite Universal Templar Security Team, the IAFW, and the 12 Signet Councils of the GA), CDT Plate-Signet Shield protection had been commissioned to the Azurite Races the Sirius B Council of Azurline. The Urtite human lineage of Earth was entrusted with protection of the CDT Plates and Signet Shields in 246,000 BC, when humanity was officially appointed as active co-guardians of the Universal Templar Complex through the Urtites' entry into the Emerald Covenant restatement.

The GA Signet Council-6, Council of Azurline from Sirius B, reclaimed 10 of the 12 CDT Plates under their protection in 208,216 BC. Two of the 12 CDT Plates and all 12 Signet Shields fell into the hands of various competing human and Fallen Angelic Legions on Earth during the course of human evolution since this time. In the 1600s the Azurites secured one of the missing CDT Plates. In November of 1999, the last of the 12 CDT Plates, once called the "Tables of Testimony" by the Knights Templar races, was retrieved by the Azurites from a contemporary Freemason family line through which possession of the CDT Plate had been passed from Atlantian generations. The 12 Signet Shields still remain buried in various hidden locations on Earth. Since the times of the 208,216 BC cataclysm, the Azurite Races of the Sirius B Council of Azurline have periodically offered dispensations of knowledge translated from the CDT Plates to the evolving human cultures of Earth. Translations of the CDT Plates were the first foundations of ALL legitimate spiritual teachings among ALL races of Earth, before the genuine CDT Plate translations were repeatedly compromised, destroyed. and distorted into "religious control dogmas" by competing factions of corrupt human power elite and Fallen Angelic visitors. Each time the Azurites offer return of CDT Plate translations, three CDT Plate Speakers

incarnate through the Maharaji race line Council of Azurline from Sirius, into the human "Indigo Child" Grail Line on Earth (See "The IAFW, Azurite Security Team and the MC Eieyani Master 'Council" on page 162), to serve as the three CDT Plate translators or "Speakers".

The First CDT Plate Speaker is trained for the position from childhood through physical contact with the Azurite Races and Priests of-Ur, and serves as mentor for CDT Plate Speakers Two and Three. The three CDT Plate Speakers are always contemporaries and work closely and cooperatively together, collectively presenting on Earth the translations of the CDT-Plates to which they are commissioned over a 12-year period of time. The tradition of selecting only three CDT-Plate Speakers who are entrusted members of the Emerald Order incarnate in human form is a security measure that has always been employed by the Azurite Races in order to protect the integrity and intended purity of CDT-Plate translations. In Atlantian times, the most commonly known Third CDT Plate Speaker was a Nibiruian-Anunnaki-Atlantian by the name of Thoth. In 22,340 BC, Thoth was entrusted by the Emerald Order Melchizedek Cloister and Azurite Races to bring oral translation of parts of one CDT-Plate into specific segments of Atlantian culture. During this time, Thoth defected from the Emerald Covenant in favor of Nibiruian-Anunnaki dominion agendas, translating portions of the CDT Plate into written form, in a text that became known as the "Emerald Tablets of Thoth". Thoth presented the Emerald Tablets to the then-corrupt Annu-Melchizedek Priesthood of Atlantis, which culminated in the final destruction of the Atlantian Islands in 9558 BC, and subsequent chaos of human evolution since the colonization of Sumerian culture. In 2040 BC another attempt to bring translations of the CDT-Plates to Earth was rendered through an individual by the name of "Enoch," who served as Second CDT Plate Speaker in that time period. Enoch's CDT-Plate translations consisted of three volumes of history that were once contained in the Maharata: the Book of Amenti, the Angelic Rosters and the Book of the Dragon.

In 10 BC, three Essene CDT-Plate speakers known as John the Baptist; Jesus Christ (Jesheua Sananda Melchizedek, born 12 BC; see: *Voyagers* Vol. 2), and Miriam, collectively translated nine additional books from the CDT Plates, creating the original foundations of what was intended to become the legitimate Christian doctrine. These books included Jesheua's *Six Books of Process*, detailing self-generated Ascension Mechanics, Core Template Bio-Regenesis and the *Book of Maps and Keys* - the technical manual for Earth's Halls of Amend Star Gates and Planetary Templar Complex system. The translations of Miriam were the three *Books of the Cloister*, once translated in the Maharata texts, detailing cultural structure built upon the Founders' Emerald Covenant model. The Templar Mechanics books of John the Baptist were not completed, as he was murdered prior to completion of CDT Plate translation. The books of Enoch, Jesheua and Miriam represent 12 of the 15 "Missing Books of the Bible" that were originally part of the legitimate Essene "Grail Line" teachings. The Essene teachings were intentionally edited and distorted in 325 AD, by the Council of Nicea and the Church of Rome, to create the control dogma religion presented as the Canonized Bible. The Cathari of Southern France held some of the original Essene records of Jesheua and Miriam until the Church of Rome ordered extermination of the Cathari in 1244 AD. Before their demise, the Cathari hid portions of the genuine Essene records, along with one of the 12 Signet Shields that had been in their possession. These relics will be eventually discovered in contemporary times to validate the teachings of the three CDT Plate Speakers of present times, once these individuals have completed their current commissioned translation of the CDT Plates.

Other CDT Plate translations of ancient times were dispensed through Speakers born into Hindu, Chinese, Tibetan, African, Egyptian, Mayan, Incan and Celtic-Druïdic Grail Lines. Since pre-ancient times, all CDT Plate translations seeded into every earthly culture have suffered the same fate of destruction or distortion. Since 208,216 BC, translations of the CDT-Plates were repeatedly given by the Priests of Ur Azurite Races in order to prepare Earth humanity for the next scheduled Star Gate Opening Cycle (called a "Stellar Activations Cycle, or "SAC"; see: *Voyagers* Volume 2). During the next SAC to follow the failed SAC of 208,216 BC, the Angelic Human race of Earth would be called upon by the Azurites and guardian races of the Emerald Covenant, to assist in healing Earth's damaged Planetary Templar Complex. When the next SAC arrived on Earth, humanity would also be asked to peacefully assist Guardian Angelic Nations in protecting Earth's Halls of Amend Star Gates from Fallen Angelic race dominion. Since 22,346 BC, all interdimensional races knew that the next probable SAC on Earth would occur between 2000-2017 AD. The Emerald Order Melchizedek

Cloister Founders Races, Azurite Races and Nations of the Emerald Covenant are again returning translations of the CDT Plates to humanity, in preparation for their intended mass visitation that will occur if Earth can be safely guided through the now-commencing 2000-2017 SAC. The three CDT Plate Speakers of contemporary times will continue to release their commissioned translations of the CDT-Plate teachings into the public domain between 1999-2012. Between 2007-2012, if cataclysmic Earth changes can be prevented on Earth during the progressing SAC, Jesheua Sananda Melchizedek, the Second CDT Plate Speaker of 10 AD and the man known as Jesus Christ in the Bible, will again enter physical human incarnation through the Sirius B Council of Azurline. Any beings or interdimensional visitors emerging into Earth's drama that claim to be Jesheua Sananda Melchizedek or Jesus are misrepresenting themselves for the purpose of human manipulation. Jesheua is returning to incarnation as an "Indigo Child" infant through the Sirius B Council of Azurline, as he did in 12 BC. Jesheua's scheduled return is intended to herald the beginning of open contact with the inter-galactic Guardian Angelic races of the Emerald Covenant and humanity's long-awaited graduation into the interdimensional, intergalactic communities through officially delivered invitation into another restatement of the Founders' Emerald Covenant Co-Evolution Agreement universal peace treaty. Open contact with interdimensional, inter-galactic, intertime Guardian races will occur through opening of Earth's Halls of Amenti star gates, if cataclysmic Earth changes can be prevented during the 2000-2017 SAC.

In preparation for the 2012 opening of Earth's Halls of Amend Star Gates, Jesheua's 2007-2012, foretold "Second Coming," and the mass Angelic Nation contact that these events are scheduled to precede, Jesheua's contemporaries of 10 AD, Miriam and John the Baptist, are already incarnate in human form. The present-day incarnations of Miriam and John are currently working closely together to fulfill the First and Second CDT Plate Speakers Contracts, which are now being progressively translated for public access. The individual holding the Third CDT-Plate Speakers Contract is a woman in the USA, who has also previously served as CDT Plate speaker during Hindu, Egyptian and African incarnations of ancient times. All CDT-Plate Speakers work closely together through the established Azurite Melchizedek Cloister Emerald Order, FL, an organization created in 1999 at the request of the Emerald Order Elohei-Elohim of Density-5, the Priests of Ur Azurite Races of Sirius B and the many IAFW--GA races of the Emerald Covenant. The three CDT-Plate Speakers are presenting foundation teachings of the Emerald Covenant CDT Plates to assist the Azurite Universal Templar Security Team, IAFW, GA and Founders Races in preparation for the scheduled 2012 opening of the Halls of Amenti star gates. If Earth changes can be prevented through the 2000-2017 SAC, these events will culminate into humanity's intended graduation into the long awaited and foretold "New Age of Unity, Love, Freedom and Enlightenment".

IAFW-INTERDIMENSIONAL ASSOCIATION OF FREE WORLDS

Massive Universal Service Organization assembled by the Yanas and Breneau Founders Races **250 billion years ago** upon **restatement of the Founders *Emerald Covenant***. Under the direction of the **Density-5 Emerald Order Elohei-Elohim Founders** and their **Density-4 Anuhazi** Feline-hominid **Christos Founders Race**, the **Gold Order Seraphei-Seraphim** and **Amethyst Order Bra-ha-Rama** rallied their **Density-4 Christos Founders Races** for restatement of the Emerald Covenant. The Elohei-Elohim **Anuhazi**, Seraphei-Seraphim Avian **Cerez** and **Aethien** Mantis, and Bra-ha-Rama **Pegasai** and **Inyu** Cetatean **Christos Founders Races** organized the IAFW, creating a unified collective of **Guardian Angelic Nations**. The IAFW was created to **protect our Time Matrix** from Fallen Angelic race dominion, to **restore the structural integrity of our Time Matrix** that was damaged by Fallen Angelic warring and to offer **Melchizedek Cloister Bio-Regenesis** rehabilitation and ascension programs to the Fallen Angelic Legions in our Time Matrix. The Founding Races of the IAFW created the **Azurite Eieyani Grail Line** race strain and the **Azurite Universal Templar Security Team 250 billion years ago** and the **Guardian Alliance 570-568 million years ago**. The 15-dimensional IAFW and its over **25 billion** interdimensional **Guardian Angelic Nations** have served as the **Primary Guardians of our Time Matrix** since the Founders' creation of the IAFW **250 billion years ago**.

Density-5 MC Eieyani Master Council

Sometimes called" **Sirian Council**" or" **Azurite Council**". The ***Melchizedek Cloister*** ("MC") **Eieyani Master Council** is a specialized collective of Emerald Order Elohei-Elohim Breneau from the **Density-5** (dimensions 13-14-15) Primal Light Fields. They were appointed by the Yanas **250 billion years ago** following the Density-4 **Lyran-Elohim Wars** as the **administrative council** for the **Azurite Universal Templar Security Team**, the mobile branch of the IAFW. Members of the MC Eieyani Master Council incarnate into Density through the **Sirius B Azurite** *Blue-skinned Feline-land-water-mammal-Avian-Hominid hybrid* **Azurite Eieyani Grail Line** lineage. Following creation of the Oraphim-Angelic Human 568 million years ago, they also incarnate through the ***Oraphim-Angelic-Human Indigo Children Type-1 Eieyani Grail Line***. The MC Eieyani Master Council serves as the **Primary Liaisons** between Yanas Collectives in the Energy Matrix and Guardian Nations in our Time Matrix. They oversee all **IAFW activities** from Density-5 and incarnate into **Azurite Race** lines for crisis intervention.

Azurite Universal Templar Security Team

Created by the **Founders Races** of the **IAFW** upon the organization's assembly **250 billion years ago**. The **Azurite Security Team** and **Azurite Eieyani Grail Line race** were created to allow the members of the **Eieyani Elder Council**, from the Energy Matrix, to incarnate directly into the Densities in our Time Matrix, for **Crisis Intervention**. The Azurite Eieyani Race line has a full **48-Strand DNA Template**, which allows for direct incarnation into Density from the **Eckatic Energy Matrix**. The Azurite Race line is the originator of all Eieyani races in Density. The Azurites are the **forefathers** (with the Anuhazi Elohei-Elohim Feline-hominid Christos Founders) of the **Oraphim-Angelic Human**, **Sirius B Maharagi**, the **Taran MC Eieyani Priests of UR** and the **Magi Azurline Priests of UR Christiac** ("Jesus Christ"-Jesheua Sananda Melchizedek) **Eieyani" Indigo Child" Grail Line on Earth**. The Azurite Security Team serves as the **mobile unit of the IAFW**, its Azurite races stationed near each of the **12 Primary Star Gates** of the **Universal Templar Complex** within the 4 Density Levels of matter in our Time Matrix. The Azurite Race line was commissioned to **restore and maintain the structural integrity** of our **Universal Templar Complex**. The Azurite Security Team also serves as **Overseeing Guardians of the 12 Primary Star Gates**, and is commissioned to promote the **Emerald Covenant Co-Evolution Agreement peace treaty**, the **Melchizedek Cloister Ascension** and **Bio-Regenesis** programs, and **Law of One** Founders Race spiritual-science **Inner Christ teachings** to advance evolution for all in our Time Matrix.

Universal Star Gates **D-3 Earth SG-3, D-2 Inner Earth-SG-2, D-1 Parallel Earth-SG-1 and Earth's Halls of Amenti** star gates are under guardianship of the **MC Eieyani Master Council** of Density-5, directed through the **Sirius B Maharagi *Council of Azurline***, the ***Lyran High Council*** (GA Signet Councils 12, 11 and 10) and the ***Inner Earth Breanoua and Melchizedek Cloister Human race, Shambali*** and some **Rama** Mixed-Cloister Human races and the **Eieyani Grail Line races of Inner Earth**. Inner Earth is presently caught up in the surface Earth drama. **United Resistance** is focusing most of its attentions on attempting to seize **the Inner Earth protected star gates** from Guardian protection. The outcome is yet to be determined, and will be greatly influenced by humanity's participation in the drama.

Excerpts from the Kathara Bio-Spiritual Healing System Level – 1

POSTURES OF LOVE

The Energy-Reality of LOVE

In terms of **Universal Physics**, Love is an **energy reality**, a **STATE OF VIBRATIONAL HARMONIZATION**, or **CO-RESONANCE OF FREQUENCY** that allows an **energetic bridge** to build between individuals. It is through this energetic bridge of frequency that one can assist in running healing energies that will facilitate the healing process of others. Without the sentiment and **FREQUENCY OF GENUINE LOVE**, one cannot energetically facilitate the healing of another. **LOVE is the essential ingredient in healing**, for it allows the opening of facilitator and client's bio-energetic fields to the **Universal Frequencies** of the inter-dimensional spectrum. Cultivating the ability to embrace and hold the frequencies of Universal or **OMNI-LOVE** is the responsibility of any true healing facilitator. The emotionally experienced reality of the ***frequency of Love*** takes many forms. In healing facilitation it is important to assess the most appropriate form of love to engage with each individual client.

Soft Love

Many people respond well to "**SOFT LOVE**", the kind, gentle, nurturing, soothing love often displayed by mothers comforting their infants. Soft Love works well with clients who possess some degree of spiritual maturity and who have cultivated the ability to hold some degree of a love frequency within themselves. Soft Love is the appropriate form of love for clients possessing the maturity to accept personal responsibility for themselves, their actions and their emotional reaction patterns, and who do not attempt to manipulate, drain energies from or place blame on others. Soft Love is characterized by **engaged detachment** of the facilitator and is demonstrated through soft-spoken, calm and sincere words and actions that are intended to place the client at ease.

Soft Love is always built upon sincerity, kindness, respect and a genuine desire to see the client thrive and prosper. Developing the ability to carry the Soft Love frequency takes time, attention and practice, and requires that the facilitator works to heal personal **internal conflicts**, unresolved issues from **childhood** and **karmic** reaction patterns that disrupt the Soft Love vibration. Soft Love is a **vulnerable love** in that it necessitates one to show the self as it is, honestly expressing personal feelings tempered with kindness. Soft Love is **not approval seeking**; it is rather genuine, honest and **self-generated**. Soft Love requires **love** and **respect** of the self and others mutually. It is built upon a level of spiritual maturity in which it is understood that personal value is implied by the fact of existence and is not determined by the approval or **validation** of others outside of the self and the personal relationship to the Divine. The ability to carry the Soft Love frequency emerges through **spiritual integration**, **personal healing** of internal conflicts and power struggle issues and **intentional application of kindness and mindfulness.**

The Illusion of Martyrdom

People who love themselves do not buy into the idea that they must play "**martyr**" to others in order to be of service. **Martyrdom** implies a belief that you are **lacking in worth**, or must **earn** your worth in being, by relinquishing that which feels of most value to you. It also **undermines expression of the God-Presence** within others, by assisting them to believe that you are so vital to their well-being that they cannot function without you. In truth, martyrdom is an **expression of EGO** most often used by people who feel that they are **personally insignificant** in the eyes of the Divine, in order to **give themselves significance** and a **sense of personal power and purpose** for being. People who actively *know* the intrinsic **Spiritual Divinity** within themselves treat that Divinity with honor and respect and do not allow or need others to **depreciate the Self** and its desires in order to prove the existence of a *belief* in personal Divinity.

Martyrdom **does not facilitate healing** within the self or client, as it reinforces the **erroneous belief** in intrinsic **personal unworthiness**, which exists in **direct contradiction** to the **innate God-Presence** that exists in every living thing. Within the energy dynamics of **Universal Law**, natural **balance** is achieved in the flow or **GIVING**, and back-flow or **RECEIVING** of energy. In human spiritual relationships, this **balance of energy** is achieved by **mutually valuing** each person in a relationship, through which the natural giving and receiving of energy can be exchanged unimpeded. **Martyrdom impedes the natural flow of energy.** The martyr customarily gives more than receives, which progressively diminishes the martyr's ability to keep open a perpetual flow of energies from the Divine because the martyr does not allow the Self to receive.

Martyrdom is not a demonstration of Love,
It is an exhibit of Love Deprivation.
The remedy for Martyrdom is
OMNI-LOVE.

Tough Love

Soft Love does not facilitate healing on all occasions. Certain clients who come to a facilitator for healing assistance bring with them a great need for **emotional healing** and development of spiritual maturity. They may demonstrate demanding, arrogant or pushy attitudes and refuse to accept responsibility for their personal actions and resulting consequences. Most often such individuals carry deep wounds from childhood or from re-incarnational bleed-through. Because they are **wounded within**, they have not yet developed the self-control or maturity necessary to treat themselves or others with kindness, respect or love.

Individuals who display unreasonable behaviors or attitudes pose quite a challenge to the love-based healing facilitator. If they are approached with Soft Love, the facilitator will often find themselves as a scapegoat for the individual's personal problems; may have their energies and time excessively **drained** by such clients and might possibly be subjected to outright verbal or physical **abuse**. Clients exhibiting such personality traits are struggling within themselves to **gain control** over the various **conflicting portions** of their personal energies, and they tend to objectify this internal conflict resolution in the form of **POWER STRUGGLE** with others.

Personalities trapped within cycles of subconscious self- or other-abusive attitude patterns need **love** more than anyone, but most often their behaviors push others away. Intrinsically the behaviors serve to keep the individual sheltered from **self-exposure**; they do not allow others close enough to inspire feelings of vulnerability or lack of self-esteem. Often such personality traits effectively keep the individual from seeing themselves and the inner pain and conflict from which they attempt to hide. To facilitate healing in such individuals, without succumbing to their manipulation, aggression or abuse, requires that the facilitator adopt a posture of **TOUGH LOVE**. In Tough Love, the facilitator clearly establishes **personal boundaries** in their own mind as to what treatment they will and will not accept. If the client crosses those boundaries, the facilitator **assertively addresses the issue** with the client, requests that the offensive behavior cease, and provides **CLEAR CONSEQUENCES** as to what will occur if the offense continues. The Tough Love approach is rendered from a base of **Soft Love** and **Omni-Love**, but it is strengthened with **Self Love** on behalf of the facilitator. The facilitator recognizes that they are only assisting the client to continue with the self-destructive patterns by condoning or allowing offensive behavior, and chooses to **love the client enough to confront the pattern** so that it may begin to release. In **lovingly**, **calmly**, but **firmly confronting** poor behavior and **setting clear boundaries** and **consequences**, the facilitator assists such clients to temporarily find a new pattern of action because the old one does not work for manipulation in this instance. The Tough Love approach frequently requires facilitators to demonstrate that they hold their own power, even in the face of client disapproval. **Tough Love** is an ability of **personal empowerment** worth cultivating for personal and client healing.

Self Love

In healing facilitation, **Love** is the essential ingredient. All love begins with the **Divinity Within the SELF**. You will be able to transmit the frequency of love to others in direct proportion to your ability to hold the frequency of love within yourself. If you do not recognize your intrinsic value as a **Divine Being**, and seek validation of your existence through external sources such as achievements, status or other-approval, you will likewise project these sentiments into your love relationships with others. If a client does not meet the external standards of validation that you have placed on yourself to determine your personal worthiness of love, you will have difficulty not falling into **judgment** of the client.

Judgment and **love** cannot transmit through the human body at the same time. Judgment creates an **energy reality** of separation or **Non-Resonant Frequencies** of energy, whereas Love creates the **Co-resonance of Frequencies** needed for open flow of Universal Energies for healing facilitation. If one can realize that **LOVE IS THE ONLY CONSTANT** and that all conditions of judgment change, it is easier to cultivate the innate ability to fully hold the frequency of Love. Though **ASSESSMENT** of conditions, actions or attitudes is useful and necessary, such assessment can be rendered through "**separating the person from the action**". You can judge the effectiveness or value of the **action or idea** without assigning a **value-judgment** to the **person** to whom it is attached.

If the healing facilitator can feel love, reverence, respect and honor for the **Divinity Within Themselves**, they will also transmit these qualities of **excellence in Love** to the client. The quality of Love brought into the healing facilitation experience will directly affect the success of healing assistance given. **Love the Self** and know that all beings possess an **unalienable worth and value** as a living part of the **Divine**. Begin to cultivate this awareness within your personal life and you will greatly increase your effectiveness as a healing facilitator. OMNI-LOVE; Fully Engaging the Love Vibration

The greatest love that can be embodied in human form is **OMNI-LOVE**. OMNI-LOVE is a pure state of Vibrational Frequency Co-resonance between the human identity and **12 dimensions** of reality within which the human anatomy is couched. Omni-Love is expressed in human form as **Christed Love** or Christos Consciousness, the **12th-Dimensional Love** of the **Maharic Level of Identity**.

Christos Love is a state of full Frequency Resonance with **everything existing** in the many universes contained within **12 Dimensions** of the 15-Dimensional System. It is a **transcendent love** that is attached to no thing, but is **AT ONE** with **ALL THINGS** in a state of perpetual **Engaged Detachment**. Through Christos Omni-Love, the **Self** is known as an **extension of God**, or the Divine Source: a temporary mask of form worn by the **ONE CONSCIOUSNESS** of the Cosmos. All things and beings are known as **simultaneous expressions** of the **ONE-SELF** that is God-Source. From this state of transcendence in love, all activity is understood to **exist within** the reality of LOVE, and all conflict and strife are viewed as the ONE- SELF progressively expanding **the ability of its expressions to carry the frequencies of energy** that constitute ONE-LOVE, a state of **total vibrational Frequency Co-resonance** with the **Cosmos**.

Activation of the full **12-Strand Silicate Matrix DNA Template** and full integration of the **Mahara Hova Body Avatar Identity** allows for the experiential embodiment and transmission of Christos-Omni-Love. **Embodiment of Omni-love is the goal toward which human evolution moves forth.** Omni-Love is Soft, Tough, and Enduring, honoring **Self**, **Other** and the **Divine** simultaneously. It is the **strongest healing force** of frequency in the four Harmonics of Matter Density. Christos-Omni-Love is the **fulfillment** of the **Christos Principle**. Strive to bring Omni-love into your life, and personal and client healing facilitation, and you will assist your higher identity levels to create transformation! Omni-Love is the **natural structure** of reality. AWARENESS of Omni-Love is cultivated through intention and appropriate use of **personal free will choice** in congruence with the **natural Laws** of the **Unified Field Physics of Consciousness and Creation**.

Through living in Omni-Love, all moments are known as Sacred, all beings are known as Blessed, and Life becomes an ecstatic study in Reverence for Existence.

The Law of ONE and the Emerald Covenant

Emerald Order Elohei-Elohim Founders and Azurite Press Perspectives

© A'sha-yana Deane 2001 All Rights Reserved

Azurite MCEO members and the Emerald Covenant and Founders' races, who requested creation of this externalized contact point, are always willing to work **lovingly, equally, cooperatively and co-creatively** with **ANY** other individual or organization that genuinely promotes and **demonstrates** the Founders' **freedom teachings** of the **Inner Christos**. The Founders' Inner Christos teachings include the **Emerald Covenant**, the **Law of One** and the **Lyran-Sirian Model** of peaceful, co-creative, egalitarian, self-sovereign, co-evolution. The **"Law of One"** represents the Yanas Ascended Masters' protocol of **"Divine Right Interrelationship"**, which promotes **Unconditional Love, Co-nurturing**, and **healing of all races**, through the recognition that **ALL MANIFEST BEINGS** are **FACES OF SOURCE MANIFEST**. There is only **ONE Consciousness, Source-God**, and all things and beings are living, diversified expressions of that **Common Identity**. The Law of One recognizes that beings who conduct themselves in seemingly **"Ungodly Ways"** are those who have **most forgotten** this **Core Truth** of their **Divine Identity**. Through **healing** and reawakening of the **"God-Spark Within"**, the D-12 Inner Christos, any being can eventually remember and embody its **Blessed Heritage**. When this memory returns, **Unconditional Love** and **Co-creative "Divine Right Interrelationship"** become the **natural embodied** instinct and **"Acting as if the God in All Things Matters"** becomes the **only sane and rational use** of the Divine Gift of **Self-Sovereign Free Will**.

When the Primal Law of One is not **willingly honored** by beings manifest in time, their creations become progressively more convoluted, until eventually they create their own **self-termination** in **space-time.** When self-termination occurs, the once self-sentient being returns to Source-God as **undifferentiated units of conscious energy** without **memory** or individuated **identity recognition**, where it will be recycled by Source into other creations. The advantage of awakening the **"God-Presence Within"** is that, in doing so, a being can retain its **individuation of identity** and the **memory** of its manifest experience, to **consciously** re-join Source-God through **Ascension**. Through Ascension, a being re-attains the conscious ability to express Full Mastery of Chosen Experience, knowing itself in **At-One-Ment** with God, through which the **natural cycle** of loving, **Conscious Co-Creation** within the Wholeness that IS God can be perpetuated. These are **core foundations** and **Divine Cognitions** upon which the **Law of One**, the **Emerald Covenant**, the **Lyran-Sirian Cultural Model** and the **Azurite MCEO** are structured. And they are the precepts by which all **Free World Order** systems within the Interdimensional **Association of Free Worlds** function.

The **Law of One** is representative of the **natural laws of Universal Unified Field Physics**, the **Divine Creation Mechanics** by which the consciousness of Source perpetually creates the experience of manifest worlds. Without observance of the **Primal Law of One**, a being, race, nation, planet, galaxy or universe will be unable to create genuine freedom, love or joy, and will **lose conscious experiential participation** in the **natural cycle** of self-sentient **Eternal Life perpetuation**. If one's chosen ideas and actions support the **Christiac Free Will Objective** of Ascension, identity returns to Source along the **Path of Divine Right Order of Conscious Sentience**, through which conscious knowing and co-creative participation within perpetual Eternal Life Cycle is **infinitely retained**.

The Christiac Objective creates an experiential **"Destiny of Joy"** and progressive **expansion** of SELF into **Wholeness** for consciousness within the perpetual Eternal Life Cycle. If one's choices **disregard the natural order** of the Law of One and Divine Creation Mechanics, personal energy is added to the **Anti-Christiac imposed Will Objective**, through which the Divine Gifts of Ascension, co-creative sentient mastery and **conscious participation** in the Eternal Life Cycle are lost, The Anti-Christos Agenda creates the **experiential reality** of limited, finite identity and a return to Source through the **Path of Chaos of Unconscious Oblivion**. The Anti-Christiac Objective creates an experiential **"Destiny of Sorrow"** and progressive **breaking-down** of self into **fragmentation** for consciousness within the Eternal Life Cycle. **No action is benign**; thought and its manifest expression in action are **quantities of conscious energy** that reflect the intrinsic universal design of either the **Path of Order** or the **Path of Chaos**. The Path of Order

Copyright A & A Deane, 2001, All Rights Reserved

encompasses the Path of Chaos, for even Chaos itself **exists within** the expression of the Divine Right Order of Source; both paths culminate in return to Source and perpetual manifestation of the Eternal Life Cycle. The significance of choosing the Path of Order and the Christiac Free Will Objective is in the value and quality of perceived experience one encounters. As a **participant** within the **Eternal Life Dance**, one will experience either the **expansion** of conscious, sentient, loving, free, joyful co-creation, or the contraction and constriction of unconscious, controlled participation, through which the **natural Divine State** of co-creative love and joy are **experientially blocked** from one's perceptions.

Idea, belief and action are the **creative tools** with which consciousness is endowed to employ the gift of **Free Will Choice** as to which **path of experience** one will select to follow. The **Christiac Path of Order** is that **originally intended** by Source, as **Loving Joy** is the **intrinsic nature** of Source. In that Omnipresent Source-Love, the **Path of Chaos is permitted** for, without this, the **option of choice** would not exist. The **Yanas, Founders** and **Christiac Races** understand that the intrinsic nature of Source is **LOVE**, and that in this Love, Source most desires to **experience the Joy of its manifest expressions**, while simultaneously **honoring their Free Will** in **allowing** them to choose otherwise. In honor of and **as a living reflection of** the true **Loving Nature of Source**, the Founders and Emerald Covenant races lend support to the **ideas, beliefs and actions** through which the **Path of Order**, the **Christiac Free Will Objective** and the **Destiny of Joy** are experientially attained.

They **ALLOW**, but **do not ENDORSE**, ideas, beliefs and actions through which the **Path of Chaos**, the **Anti-Christiac Imposed Will Objective** and the **Density of Sorrow** are experientially attained. **Path of Chaos is allowed** in **respect** for the gift of **Free Will Choice**, without which the **Divine Objective** of the **Destiny of Joy** cannot be attained. But the **Path of Order**, which IS the **Path of Divine Love**, IS the **preference of Source** and so **true representatives of Source** will **encourage, but not force**, the **Divine Right Use of Free Will Choice** in creating Source's intended **Divine Right Destiny of Perpetual Joy**. The CHOICE is always ours, and the Founders always respect our right to choose. As individuated manifest expressions of Source-God, we are imbued with the **Power of Creation**; our **choices are the tools** by which our **experiential reality** is created. Individually and collectively, **we are the creators** of our **experientially manifest worlds**; as we progressively remember and embody our organic **Blessed Identity** as **Faces of God Manifest**, our choices and **our worlds** will progressively become more "Godly", to reflect more of the true **Loving Nature of God**. This is the **Divine Objective** of God-Source, of the Founders and of the infinite numbers of Emerald Covenant races who strive to keep the **Sentient Awareness** and **Embodied Demonstration** of our Unconditionally Loving **ONE-Source** perpetually alive within the Many Mansions of Time. .....

The Founders, Emerald Covenant races and representatives of the Azurite MCEO extend **Unconditional Love, respect** and **shared truth** to ALL, regardless of race or creed affiliation. The Emerald Covenant freedom teachings are once again being made available to the **human collective** without prejudice. Anyone from **any race or religion** is encouraged and welcome to participate in the **Emerald Covenant**, through which Unconditional Divine Love and the freedom of the Inner Christos, the Path of Order and the Destiny of Joy is **equally extended to all**. One **does not** have to **"give up"** a previous spiritual orientation or ethnic identification to embrace the Founders Emerald Covenant. The Founders and their representatives encourage **people of all persuasions** to find the TRUE teachings and ideas that support the **Destiny of Joy** that exist **behind the distortions** within **all** of Earth's spiritual creeds and cultural ethics. Through **"Separating the Shaft from the Grain"** and releasing the **spiritual bondage** of Fallen Angelic distortions, the **world's religions** can be freed from their unintended **Political Service to the Anti-Christos Agenda**. Through Angelic Human LOVE and genuine embodiment of the D-12 Inner Christos awareness, the religions of Earth can be restored to their original, co-operative **Divine Purpose** of **Spiritual Service** to the Law of One and the **Destiny of Joy** Divine Objective. Once **purged** of **Fallen Angelic Anti-Christos distortions**, any religion, creed or belief system can evolve to **Christos Status**, to become a valuable and **beloved asset** in manifesting the **experiential reality** of Loving, Sentient, Co-creative, Godly, Conscious participation within the **Perpetual Dance** of the **Eternal Life Cycle.**

On behalf of, in honor of and **as a manifest reflection** of the Loving ONE-Source-God from which we all emerge, the Founders' **Azurite MCEO endorses** ideas, beliefs and actions that are **supportive** of the **Destiny of Joy and the Christos Free Will Objective.** The Azurite MCEO perspective also respects the Divine **Right and necessity of Free Will Choice**, and thus demonstrates **ALLOWANCE**, employing **no imposed resistance** to the forces of the **Path of Chaos** and the option of choosing the **Destiny of Sorrow** toward which the Path of Chaos **inevitably leads**.

Unlike the promoters of Fallen Angelic religious and scientific control dogmas, the Founders have always employed the **truthful, loving and open sharing of knowledge** as a means of **encouraging** beings to use their inherent power of free choice to create loving, fearless, empowered **experiential fulfillment** of the **Destiny of Joy. Control dogmas** utilize the **Anti-Christos tactics** of **hoarding knowledge** among a few elite and promoting **distortions of knowledge under the guise of truth** in order to seduce, trick and deceive masses of well-meaning beings into **powerlessness, fear and inadvertent blind subservience** to the Path of Chaos. Beings who chose the Path of Chaos, either knowingly or unknowingly, do so in order to **remember the lesson** of the **value** of Love and **Free Will Order**. One **does not need to choose the Destiny of Sorrow** in order to remember the value of its opposite. The power of Free Will choice can simply be used to acknowledge and embrace the divine value, rights and responsibilities of the Destiny of Joy, through which the conscious decision can be made to actively embody these Divine Qualities. The choice is ours.

In support of the Destiny of Joy Divine Objective, the Azurite MCEO will NEVER endorse **covert control dogmas**, be they "**contemporary cults**", "ancient cults" manifesting under the guise of "traditional religions" or **"soulless scientific dogmas"**. "Cult mentality" inspires you to **give your personal power of creation and self-generated "salvation" away to some externalized authority figure**. A few examples of popular externalized "authority figures" to which we have been **culturally programmed** to **unthinkingly** subjugate our **personal worth** and to **surrender** our Divinely Given personal Inner Christos power are as follows: External "God" Personifications, "Saviors", "Ascended Masters", "Saints", Angels, Gurus, Popes, Kings, Priests, Mystics, "Wizards", Psychics, Governments, Politicians, Scientists, Doctors, "Experts", "Critics", "PHDs".

These are just a few examples of the externalized **archetypal "authority figures"** which we have been **brainwashed** (via propaganda) into believing have more **worthiness, power or wisdom** than our own presently "sleeping" **Inner Christos**. As long as we look to only **external "authorities"** for answers, we will never find the **greater truths** regarding ourselves, and our universe, that are **alive and awaiting our discovery** within our personal Inner Christos identity. It is absolutely appropriate to embody **genuine humility** and offer loving, **reverent respect** to beings who provide us with **legitimate service** in our growth to empowerment, spiritual actualization and freedom. If we desire to **embody the reality of the Christos**, then **loving, reverent respect** given genuinely through gentle humility is an attitude with which **every creature in the universe** should be treated; **ALL beings** are, after all, manifest Faces of God expressing at various stages of development. There is a HUGE difference between offering loving, reverent respect to others, and "bowing down" in **"worshipful, self-depreciating subservience"** to "blindly obey" the **control dictates** of **elitist power figures** whose **own empowerment** is derived from **keeping our power under their control.**

Without the **masses who worship and obey them**, elitist authority figures are **utterly powerless**. Without the collective from which they siphon their power, their money, their armies and their adoration, elitist power figures do not even possess enough personal power to adequately help themselves; they have no more and no less potential than anyone else to embrace the Eternal Power of the Inner Christos. Loving, reverent respect is **unconditional**, and includes **respecting ourselves equally** as Blessed Faces of God. Blind worship teaches us to **insult, disrespect** and deny the **part of God** that is manifest as the **SELF**, and encourages us to entertain the **Anti-Christiac elitist notion** that any being is more worthy of love and acceptance than any other in the "eyes of God". Beings express at different stages of development in which corresponding levels of Christos embodiment, or lack there-of are demonstrated; but **regardless** of the developmental level, ALL beings are **"living parts of God"** and therefore their **Eternal Blessed Value is unquestionable. Freedom teachings** lead you to the **Christ Within**; the Inner Christos **tangibly exists** as your higher-dimensional levels of personal awareness, the rest of your **own God-given Blessed Identity**, which is your own personal, inborn, indelible **living connection to the REAL One-Source that is God**.

The Founders, Emerald Covenant Races and members of Azurite MCEO will NEVER promote **control-dogma tactics** such as "don't read THAT, it's evil or bad", or inspire you to **self-deluding arrogance with Anti-Christos sentiments** such as "Don't associate with THEM, they are evil or less worthy or pure than WE". On the contrary, everyone is encouraged to LOVE ALL **RESPONSIBLY** and to recognize the inborn **potential** for PURITY within ALL. Everyone is also encouraged to **read everything, explore people, become informed and seek knowledge.** True **Christiac Teachings** inspire everyone to embrace the personal true **Divine Spirit**, **explore responsibility**, **be fearless**, **BE Christed-LOVE**, to **simultaneously honor** the SELF, others and One-Source-God through **fair and loving action.**

Learn **discernment** so **genuine wisdom** and **spiritual actualization** can be attained and **NEVER SETTLE** for anything less than your own divinely given **Angelic Human heritage**.

The Founders and their representatives will **NEVER** endorse **Anti-Christos Creeds**, such as "Elitist Race Supremacy", racial or religious bigotry, prejudice, "tolerance" as a **disguise** for covert prejudicial value judgment, **gender inequality** or contrived misrepresentation or manipulative concealment of truth, knowledge or identity. The Founders will **NOT endorse abuse, violation or exploitation of other Life fields**, including animals, plants and the planetary environment. They will **NOT** promote **victim-vs.-savior consciousness**, through which beings are **intentionally covertly disempowered** by being **seduced into believing** that they are powerless to change undesirable conditions and thus need a powerful, **external** "authority", "savior" or "god" to protect them from their own "inadvertent creations". The Founders will NOT use fear, disinformation, information suppression or intimidation tactics to keep human races divided against each other and therefore **easy subjects for covert control**. And they will NOT **manipulate people** through **false claims** that God is of male or female gender; God is a **Living Eternal Consciousness Force** that is beyond biology and polarized gender expression.

The Founders also will not promote a **false history** that misleads us into believing that "God's only Son" was **crucified for our sins**, so that we can be **controlled and directed** through **false guilt and useless shame**, into **martyring ourselves** to "prove we are equally worthy". Jesus was NOT crucified; he came to tell us that we were ALL **Children of God**, to return the **Divine Sacred Science** knowledge through which we could set ourselves free. Then he USED that knowledge to **conduct his own painless Ascension**. THIS IS the TRUTH of the "Christ Drama" history, and it is the ONLY "Christ Drama" truth that the Founders will EVER endorse, because they were THERE; they saw IT ALL. They will NOT endorse the **falsehood** of the **"alleged crucifixion"** because they KNOW this story was created by the **Illuminati Human races** on behalf of the **Fallen Annu-Elohim**, in order to intentionally bury the **real truth** and **freedom teachings** for which the REAL Jesus Christ of 12BC-27AD stood.

True Christos Teachings encourage you to fearlessly but responsibly **investigate everything**, in a loving and intelligent manner, and learn to **"Separate the Shaft from the Grain"**. In this way you can hold your **personal empowerment** while expanding into the exciting but often confusing territories of the **Angelic Human spirit**. Genuine Christos Teachings **do not** teach us to "crawl on our bellies like snakes before some glorified snake-charmer". The Christos teaches us to **walk upright**, with Divine Love, Dignity, Grace, Humility, Respect, Reverence and Power, as the **living examples of the Christos Manifest**, that Angelic Humans were intended to be.....

When you encounter traditional and contemporary **"Anti-Christos Counter-movements"** that are routinely and inevitably set against the Founders' Emerald Covenant Inner Christos teachings, you might first want to **"Consider the Source"** and its **Intrinsic Motivation**, before forming a final opinion. **A few valuable questions to ask are these**: "Who does this information source appear to be?", "What are they telling me?", "Do they really know what they are talking about?", "Are they saying what they REALLY mean?", "Where might their information be coming from?", " What motive might they have for telling me this thing?", "What are they hoping I believe?", "Why would they want me to believe this thing?", " What are they trying to motivate me to do with my personal power, discover and embrace it within myself or surrender it elsewhere in worship or obedient subservience?", "If they are trying to help me, what are they trying to help me achieve and how could believing this thing empower me?", "If they are covertly trying to mislead me, how might I be harmed by believing them?", "Are they inspiring me to lead through my own inner spiritual power and wisdom, or are they seducing me to believe that I am personally powerless and so must blindly follow an external power source to save me?, and finally, "If I believe this thing, will it assist me in becoming a more awakened, aware, loving, kind, responsible, strong, spiritually alive, intelligent, wise, compassionate, WHOLE and effective human being?"

The **Art of "Asking the Right Questions"** in all circumstances is an **invaluable tool** for advancing understanding, self and other awareness, and personal empowerment. The Founders' encourage you to ask these questions in relation to their teachings and when presented with the teachings, ideas and opinions of others..... ***End Excerpt***

COLOR, SYMBOL, SOUND AND BIO-REGENESIS TECHNOLOGIES

BIO-REGENESIS TECHNOLOGIES are tools to assist us in accelerating our expansion of consciousness through natural, gentle stimulation of the personal **DNA TEMPLATE, KUNDALINI ENERGIES, CHAKRAS AND MERKABA VEHICLE**. Bio-Regenesis techniques are built upon the foundations of **KEYLONTIC MORPHOGENETIC SCIENCE** and advanced **SCALAR MECHANICS**, as understood by races of higher evolution; these are paradigms of science not yet recognized or validated by contemporary earth science paradigms. Because Bio-Regenesis technologies are based upon what is viewed by modern earth science paradigms as a speculative, rather than verifiable science, I present Bio-Regenesis techniques only as an option to explore in meditation.

Bio-Regenesis technologies were taught as "Common Knowledge" within the Ascension Schools of Pre-Ancient advanced human cultures and were utilized as standard practice in pre-ancient time periods. Bio-Regenesis Technologies are built upon the natural laws of scalar wave mechanics. Bio-Regenesis Techniques are **SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY** that stimulate into activity dormant portions of the personal Manifestation Template, which allows for a natural, progressive and accelerated advancement of the personal **ORGANIC EVOLUTIONARY BLUEPRINT** of the 12th Dimensional Omni-polar Pre-matter Template. Bio-Regenesis Techniques simultaneously create subtle, natural acceleration within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Fields, Kundalini energies, higher dimensional consciousness and "Subtle Energy Body" anatomy.

In the Bio-Regenesis paradigm it is said that such techniques allow an individual to affect the function of the scalar wave template of the body, working co-creatively **under the direction of the individual's own higher dimensional levels of consciousness**. As the higher dimensional levels of personal identity, the spiritual identity of the Soul, govern the process of the personal Manifestation Template, Bio-Regenesis Technologies are completely safe and natural to the organic design of the human being. Using processes of Bio-Regenesis from the earthly conscious perspective expedites the natural processes of energy and consciousness by which the higher identity and earthly identity integrate to become one. In advanced ancient human cultures, Bio-Regenesis Technologies represented a natural attribute of consciousness expansion into the realms of higher evolution and assisted to biologically prepare humans for **STAR GATE** passage or "**ASCENSION**".

If we can understand that the **HUMAN MIND** is an energy force that **CONTINUALLY GENERATES PATTERNS OF SCALAR WAVES** through the process of THOUGHT, it is not difficult to understand how **APPROPRIATELY DIRECTED THOUGHT** can directly influence the function of the personal Manifestation Template scalar blueprint. All thoughts serve this purpose, and directly affect the observable state of the mind-body-spirit system and the manifestation of events within the external life drama. **THOUGHTS ARE THINGS – SCALAR WAVE CONFIGURATIONS** of multi-dimensional vibrating patterns of **BI-POLAR ELECTROMAGNETIC ENERGY RADIATION**, which form **SPECIFIC PATTERNS OF SCALAR FREQUENCY** within the personal Manifestation Template.

Undirected thought creates chaotic patterns within the Manifestation Template, while thought directed through clear intention creates ordered patterns within the Manifestation Template. Thought directed with clear intention, and **KNOWLEDGE OF THE STRUCTURE OF SUBTLE-BODY ANATOMY**, is a very potent form of **SCALAR POWER**. The patterns of scalar energy frequency that thought projects into the personal Manifestation Template serve as **ELECTROMAGNETIC OPERATIONAL INSTRUCTIONS** within the Template, directly affecting the conditions that will be met in manifest experience. To develop skill in the manifestation process, the conscious "intending" mind must become more familiar with the "**LANGUAGE OF SCALAR WAVES**", as this is the "**LANGUAGE OF LIGHT AND SOUND**" upon which the Manifestation Template operates. The "language of scalar waves" is "spoken" through the forms of specific wave spectra, forms that appear to the conscious 3-dimensional mind as frequencies of **SOUND**, spectra of **LIGHT** or **COLOR**, and shapes or **SYMBOLS**.

What we perceive as color is specific spectra of **LIGHT – RADIATION WAVES** that have a specific measurable **WAVELENGTH** and vibrational **ENERGY SIGNATURE**. In using the conscious mind to direct quantities of color, we are **CONSCIOUSLY SELECTING SPECIFIC SCALAR FREQUENCIES** to add to the Manifestation Template. When we use

Copyright A & A Deane, 2001, All Rights Reserved

the conscious mind to create images of **SYMBOLS**, we are further **SPECIFYING THE ARRANGEMENT OF SPECIFIC FREQUENCIES**, as they appear within the Manifestation Template. **SYMBOL FORMS** (even those that compose the alphabets of outer languages) represent **SCALAR-WAVE GUIDES**, and directly affect the contours of the scalar wave blueprint of the Manifestation Template. The Manifestation Template governs the function of the body and consciousness within the manifest experience, and so the "**Language of Scalar Waves**" is the medium through which we gain conscious access to the **CAUSAL LEVEL OF MANIFESTATION**. In using **color and symbol** to direct frequency, we are creating a pattern of energy that has a specific vibrational signature or "**TONAL SOUND SIGNATURE**", which directly interfaces with the energetic vibrational sound signature of the Manifestation Template's scalar grid.

In Bio-Regenesis technology, Color and Symbol are used to direct the **TONAL SCALAR ARRANGEMENTS** of the Manifestation Template, to create natural, desired results within the body-mind-spirit system. There are many complexities within the process of conscious manifestation that one must learn to fully master the contours of space, time and matter. The beginning step is learning to give more finely tuned thought intention "**PROGRAMMING INSTRUCTIONS**" to the personal Manifestation Template. Thoughts and images rendered in external language and 3-dimensionally associated symbols affect the other layers of the Manifestation Template, but they do not provide as finely tuned manifestation instructions as do the "**scalar wave languages**" of Color and Symbol image, which direct the contours of vibrational patterns of SOUND. Mastery within the interdimensional spectrum progressively develops as one masters the core "**PROGRAMMING LANGUAGES**" of **Color**, **Symbol** and **Sound Vibration**.

In **MIND TECHNOLOGIES**, such as **CREATIVE VISUALIZATION** and **VERBAL AFFIRMATION**, beginning skill in **SCALAR TEMPLATE PROGRAMMING** is developed through using emotionally charged images and precise sound patterns in the language to which we are accustomed, as methods to begin gaining conscious control over the processes of personal manifestation. Keylontic Science **BIO-REGENESIS TECHNOLOGIES** take us **ONE STEP DEEPER** into the manifestation process, by directly employing the **LANGUAGE OF SCALAR WAVES** and directing the **ENCODED INSTRUCTIONS** through **PRECISE LOCATIONS** within the body-mind-spirit system and the Manifestation Template upon which this system is built. Bio-Regenesis technologies take us from speaking the language of the 3-dimensional mind into speaking the intrinsic scalar-wave language of the Spirit, which is the **CAUSAL ELEMENT** behind and within all manifestation.

Bio-Regenesis Technologies represent applications of Scalar Mechanics that utilize the inherent power of **SUBTLE WAVE FORMS** to create desired change within the core Manifestation Template of the body. Within the process, **COLOR** and **SYMBOL** become the **TOOLS** through which the 3-dimensionally conscious mind becomes empowered to participate in conscious co-creation with the Soul and higher dimensional spiritual portions of identity. **Color** and **Symbol** possess power as **MATHEMATICALLY ENCODED** directors of scalar frequency; the ultimate effect of this directed power is the ability to affect the scalar arrangements of the Manifestation Template. Intrinsically, scalar waves are specific points of vibrating bi-polar energy signatures. Vibration of energy units creates patterns of internal and external **SOUND**, within and beyond the range of 3-dimensional detection. The Manifestation Template can be conceptualized as an **INTERWOVEN FABRIC OF SOUND FREQUENCY**, the "Silent Symphony" of personal and universal being. The tools of Color and Symbol affect the scalar-wave arrangement of the Manifestation Template, and thus alter the vibrational patterns of **SOUND TONES** within the personal blueprint. **COLOR AND SYMBOL are tools for the direction of SOUND**, and intentional application of **SPECIFIC SOUND TONES** can also be used in conjunction with COLOR and SYMBOL, to further amplify one's power to interact with the Manifestation Template.

Along with the techniques of Color and Symbol direction, **TONING**, or the **intentional generation of specific sounds to affect the Manifestation Template**, is also utilized in Bio-Regenesis technologies and spiritual expansion programs. "Toning Therapies" have emerged in recent years through the New Age and Holistic healing paradigms, and have been applied for thousands of years within the practices of spiritual masters in every religious tradition. SPOKEN LANGUAGE itself is a form of TONING, with its accompanying SYMBOL ALPHABET and, like all Symbols and Sound Tones, our languages directly affect the personal Manifestation Template, and the level of consciousness that can manifest through the body. In ancient cultures, the powers of language were better understood than they presently are in contemporary mainstream society. Particularly within the Priest-castes of ancient religions, language was used more consciously, with an understanding that words, sounds and images would directly affect the consciousness of the

masses. Prayers, rituals and songs, some of which remain in use today, were used as a means of altering consciousness. Some assisted in spiritual development; others were intentionally used to limit and control the consciousness of populations.

The contemporary earth science paradigm is only beginning to explore the power of sound vibration and the connection between sound, symbol and color is not yet recognized or understood. **In advanced pre-ancient cultures, these sciences of Scalar Mechanics were fully understood and utilized in the most powerful of ways**. Color-Symbol-Sound technologies were not only used in Bio-Regenesis applications for personal health and consciousness expansion; they were also used among **GROUPS OF PEOPLE** to directly interface with the scalar-wave Manifestation Template of the **PLANETARY SHIELDS**. Vortices, Time Portals, Star Gates, Ley Lines and free energy systems generated through the planetary core and solar light emanations were all **DIRECTED THROUGH THE FOCUSED MIND**, utilizing knowledge of color-Symbol-Sound Scalar Mechanics. Since the fall of ancient cultures, which came as a result of abusing the powers of these Scalar technologies, the Color-Symbol-Sound sequences once used to direct massive amounts of power became the "**HIDDEN AND FORBIDDEN SACRED KNOWLEDGE**".

The **COLORS**, **SYMBOLS** and **SOUNDS** used in Bio-Regenesis techniques are not simply random choices. The elements of Bio-Regenesis techniques are drawn from **a UNIVERSAL STANDARD LANGUAGE OF "SCALAR SPEAK"**, through which precise scalar frequencies are generated through **specific Color-Symbol-Sound sequences** to create very specific effects within the Manifestation Templates. The Bio-Regenesis Techniques presently offered represent only the beginning of our reawakening to this vast body of Sacred Science knowledge. Many Bio-Regenesis techniques utilizing Color-Symbol sequence scalar mechanics are accompanied by a corresponding exercise in **TONING**. Within the mystical **Ascension Schools** of ancient and pre-ancient times, there existed a very **SACRED SERIES OF TONING SEQUENCES** that were used to **directly interface** with the **DNA TEMPLATE** and the **AXIOM LINES** in the **PLANETARY SHIELD**. On a **personal level**, through this specific series of Toning, dormant strands in the DNA Template could be progressively brought into activation, to expedite the process of Spiritual Actualization, Holistic Healing and building of the **PERSONAL MERKABA VEHICLE** within the bio-energetic field. On the planetary level, these **Sacred Toning Sequences** were used to **ENERGETICALLY OPEN** the **PLANETARY AXIOM LINES** for **CLEARING**, **REPROGRAMMING** AND **ACCELERATING THE ACTIVATION** of the **PLANETARY SHIELDS**. This series of Sacred Toning was collectively called "**THE MUSIC OF THE SPHERES**".

THE SONGS OF THE SPHERES

The **MUSIC OF THE SPHERES** represents the **ORGANIC TONAL SEQUENCES** of **EACH DIMENSIONAL FREQUENCY BAND** within the 15-Dimensional Time Matrix: the **CONSOLIDATED CORE VIBRATIONAL SOUND SIGNATURES** of each Dimensional frequency band. Of the 15 core vibrational signatures of the 15 Dimensions in a Time Matrix, 12 of these core signatures serve as the **PRIMARY 12 TONAL SEQUENCES** upon which each strand of the 12-Strand original human **DNA Template** and each **AXIOM LINE** in the 4-Density **Planetary Shields** are structured. In using the **Tone Sequences of the Music of the Spheres**, the 12-Strand DNA Template can be **PROGRESSIVELY BROUGHT INTO NATURAL ACTIVATION**. Scalar-wave distortions within the Templates for the DNA Strands (which physically manifest as genetic distortions) can be systematically **REALIGNED** with their natural perfect 12th Dimensional **ORGANIC IMPRINT**. In using the **Music of the Spheres** for work with the **Planetary Shields**, each of the **24 AXIOM LINES** can be **OPENED** and **ENCODED WITH THE PERFECT PATTERN OF THE PLANETARY PLASMA BEAM**. Transmitting the 12th – Dimensional **MAHARIC SHIELD** pattern directly into the **Axiom Lines** in the Planetary Shields is the most rapid method to distribute the program of the **PLANETARY ORGANIC IMPRINT** throughout the 4 Density Levels of the **PLANETARY SHIELDS**.

In ancient days, the Music of the Spheres was used extensively for purposes of self-generated healing and to prepare the physical body for literal passage through the planetary Star Gates ("Ascension"). The specific tone sequences for each **SINGULAR DIMENSION** (which corresponded to one DNA Strand Template in the 12-Strand blueprint and the inherent Dimension of consciousness that would embody through activation of the strand) are called the "**SONGS OF THE SPHERES**". Each "**SONG**" contained very specific "**word sounds**" (from the first Universal

Spoken language) for lyrics, and specific multi-layered tones (which generated inaudible Tri-tone Standing Waves) for melody, harmony and overtones. To be effective, the Songs had to be used through the **HUMAN VOICE**, externally or mentally as the "**SINGING OF SONGS**".

The Sacred Songs were sung in combination with directing specific corresponding **COLOR** and **SYMBOL** sequences through the bio-energetic field (or through the Planetary Axiom Lines for Planetary Shield work). **The Songs served to "open" specific areas of the DNA Template, or specific Planetary Axiom Lines, to receive instructions directed by the Color and Symbol sequences**. The tones of the Songs generated specific scalar-wave formations that triggered activation of corresponding configurations within the DNA Template and Planetary Shields. Activation of dormant portions of the DNA Strand Templates for Planetary Axiom Lines "opened" the Strand Template of Planetary Shield to directly receive Color-Symbol scalar wave instructions, through which desired outcomes within the personal or planetary body, and within the external reality experience, could be "**PROGRAMMED**" for manifestation.

The SCIENCE **OF THE MUSIC OF THE SPHERES** was one of the most highly guarded "**SACRED SECRETS**" in pre-ancient cultures, due to the power of interdimensional freedom and conscious manifestation that could be obtained through knowledgeable use of the **SONGS**.

Before the **SONGS OF THE SPHERES** will be fully retuned to human awareness, our culture will have to mature enough to demonstrate spiritually motivated ethical use of power. Certain **SONGS** are now being slowly returned, so that we may assist those of higher evolution to realign Earth's Planetary Shield with its original 12th – Dimensional **MAHARIC SHIELD ORGANIC IMPRINT**. One of the **15 SONGS OF THE SPHERES** was provided to us by the Emerald Order. This SONG is used to activate dormant scalar-waves in the **8th DNA STRAND TEMPLATE**, through which the process of activating the dormant **1st – 8th Strands** of the 12-Strand DNA Template can be **accelerated**, expediting the natural processes of higher dimensional spiritual identity integration.

This **SONG** is also used to open the **8th AXIOM LINE** in **GAIA'S PLANETARY SHIELD**, to facilitate realignment of **Earth's Planetary Shields** from **ETHERIC MATTER DENSITY-3**. This **SONG** was given so that **GROUPS** can begin assisting directly in Planetary Grid work, opening specific Axiom Lines and Vortices in the planetary body to help bring Earth's Planetary Shield Manifestation Template into its organic alignment and balance. The SONG that was given is called the "**Ariea Khum Nar'A**". The English language translation is "**THE SONG OF ORION**". This **SONG OF THE 8TH SPHERE** corresponds to the **8th Dimensional level of the UNIVERSAL KATHARA GRID** and **its 8th PRIMARY STAR GATE**. It also corresponds to the **8th PLANETARY AXIOM LINE** within the Etheric Matter Density-3 **GAIAN PLANETARY SHIELD** and to the **8th DNA STRAND TEMPLATE** in the human body. The 8th-Dimensional **STAR GATE** within the **UNIVERSAL KATHARA GRID** is the Star Gate that opens into the **ORION STAR SYSTEM**; thus the name of the **SONG OF THE 8th SPHERE** is "**THE SONG OF ORION**".

Soon the **SONGS** that correspond to the 11th and 12th – Dimensional frequencies will be provided. Aside from its use in planetary grid work, when used as a "**MANTRA**", repeatedly sung as a focus for the mind in meditation, the ***Ariea Khum Nar'A*** serves to stimulate consciousness expansion into the higher dimensional fields and amplifies and expedites the effects of personal Bio-Regenesis techniques.

Primal Substance

As explained within the CDT-Plate records, the causal element of all manifest experience is called a ***Morphogenetic Field*** (Scalar Grid) or **MANIFESTATION TEMPLATE.** Keylontic Science is the science of Manifestation Templates and is part of a larger advanced paradigm of science that is known as **15-Dimensional UNIVERSAL UNIFIED FIELD PHYSICS**.

- A Manifestation Template is made of **PRIMAL SUBSTANCE**; units of conscious energy called **PARTIKI** that exist as ***Omni-polar points of fixed vibration***. ***Partiki units*** are the smallest building blocks *of* matter, and they form the templates upon which consciousness in all forms enters manifestation.
- Partiki units are **Omni-polar** (containing the potentials for all polarities or none) units of vibrating energy that perpetually cycle back and forth between a state of **BI-POLAR LIGHT RADIATION** (scalar-standing-wave) and **OMNI-POLAR SOUND VIBRATION**.
- In the ***Omni-polar state***, Partiki units exist as invisible, fixed points of ***sound vibration***, forming what is called an **INTERDIMENSIONAL TRI-TONE WAVE.** An Interdimensional ***Tri-tone Wave*** is a singular point of fixed vibration that is composed of ***3 sub-vibrations*** (base tone, overtone and resonant tone). When Partiki units are in their Omni-polar state they exist as ***Ante-matter substance***, the first state of energy organization before Pre-matter manifestation. Through a process of Internal Fission characteristic to their design, Partiki units break apart to form Bi-polar waves, while replicating their original Tri-tone Omni-polar design.
- In the ***Bi-polar state***, two sub-vibrations of the Tri-tonal Standing Waves of Partiki units break down into two sub-units, ***sub-tones***, called **PARTICUM**-*Base Tones* and **PARTIKI**-*Overtones*, interconnected units of **BI-POLAR LIGHT RADIATION** that form ***Electromagnetic Scalar-Standing-Waves***. The third vibration of the Tri-tone wave, the *Resonant* Tone, remains as the core vibration through which the polarized vibrational units of Particum and Partiki will reunite through ***Internal Fusion***.
- **PARTICUM** units form the energetic building blocks for **PARTICLE TEMPLATES** and **PARTIKA** units form the building blocks for simultaneously manifesting **ANTI-PARTICLE TEMPLATES**. Particle and Anti-particle Templates are interconnected, united by the Ante-matter **PARTIKI** units through which they manifest. The effects of **ELECTRICAL AND MAGNETIC FORCE** are set in motion through the **EXPANSION AND CONTRACTION** of energy vibration between Particle and Anti-particle matter units through the Ante-matter Partiki unit that units them.
- **Particum-Particle units** represent the **CONTRACTION PHASE** *of* ante-matter energy, with higher **VIBRATION** (energy contracted into or received by the Ante-matter template) and lower **OSCILLATION** (energy expanded or transmitted from the Ante-matter template) and so are considered **BASE MAGNETIC. Partika-Anti-particle units** represent the **EXPANSION PHASE** of Ante-matter energy, with lower Vibration and higher Oscillation, and are considered **BASE ELECTRICAL.**
- **ELECTROMAGNETIC ENERGY** is created through the continual cycling of energy, as the Omni-polar Ante-matter Tri-tone Wave of ***Sound Vibration*** projects its energy into Bi-polar Particum and Partika Scalar Waves of ***Light Radiation***. Energy thrust expands into the Anti-particle Partika vibration point as **electrical force**. It then contracts into the particle Particum vibration point, creating **magnetic pull**, (in ratio to its original electrical thrust), as the third vibration in the Ante-matter Tri-tone Wave draws the energy back to its source. Through the draw of the Ante-matter Partiki template, Partika-Ante-particles and Particum-particles are brought into a state of **Fusion**. Upon fusion, the energy of the Particum and Partika transmutes, the Bi-polar Standing Scalar Waves of Light Radiation returning to their original Omni-polar Ante-matter state of Partiki units. Once returned to the Partiki state, the process repeats as the Partiki creates Fission and replication. **Partiki, Particum and Partika units represent PHASES that Primal Substance energy passes through as it moves into and out of manifestation.**
- The process by which Partiki units perpetually convert conscious energy into Bi-polar Light Radiation Scalar-Waves (expansion) and back into Omni-polar Sound Vibration Tri-tone Waves (contraction) is called **PARTIKI PHASING.** Through perpetual cycles of Partiki Phasing, matter units "flash on" through fission, into Bi-polar Particle and Anti-particle manifestation built upon Scalar Waves of Light Radiation, then "flash off' through fusion, into Omni-polar Ante-matter Sound Vibration, continually cycling energy between the manifest and non-manifest state. **The perception of external physical matter, space and the passage of time are created through *variance in relationship* between rates of Partiki Phasing.**
- Consciousness in the form of Partiki Units is the **PRIMAL SUBSTANCE** of which the cosmos is structured and Partiki Phasing is the perpetual **PRIMAL ACT** of reciprocal fission and fusion through which Primal Substance is brought into manifestation.

Primal Order

- Morphogenetic Fields, or the **MANIFESTATION TEMPLATES** that serve as the blueprint through which consciousness manifests, are composed of the Primal Substance of **PARTIKI UNITS**. Partiki units draw together or **ACCRETE** to form **PARTIKI STRINGS**. Following a set **mathematical and geometrical design** inherent to their form, Partiki Strings interweave and overlap, forming a "**Fabric of Light and Sound**" called a **PARTIKI GRID**. A Partiki Grid is a fixed pattern of interwoven Bipolar Scalar-Waves of light radiation built upon Omni-polar Tri-tone Waves of sound vibration that forms the foundation for diversified Manifestation Templates. A **Partiki Grid** is a **SCALAR GRID**.

- Following the precise mathematical design set by the will and intention of the manifesting consciousness, Partiki Grids further accrete, drawing in more Partiki Units, forming groups of Partiki units that are arranged following *3 different rhythms of Partiki Phasing*. **Tri-phase groupings of Partiki Units** form patterns of Scalar-wave and Tri-tone wave interrelationships that create ***crystallizations of energy*** called **KEYLONS**. Groups of Keylons continue to accrete, forming complex Keylon arrangements called **KEYLON CODES**, through which the Manifestation Template is progressively built up from Ante-matter through various stages of matter density, beginning with **PRE-MATTER SUBSTANCE**, the density of **Liquid Silica Hydro-plasmic** energy, the first solidity to emerge into externalized form.

- The Morphogenetic Fields upon which universes manifest are built upon a Manifestation Template that has a specific order of mathematical interrelationships that govern the combining of Scalar Grids with different rates of ***Partiki Phasing***. The **Cosmic Manifestation Template** is called the **ENERGY MATRIX**. Within the Energy Matrix there are many smaller manifestation templates upon which Universes are structured. **Universal Manifestation Templates** are called **TIME MATRICES**. There are uncountable Time Matrices within the Energy Matrix, which are collectively referred to as **THE TIME MATRIX**. All Time Matrices within the Cosmic Matrix follow a specific mathematical-geometrical program through which space, time and matter can be experienced by consciousness upon entering the Time Matrix structure. Time Matrices are arranged upon a pattern of 15 different, but interwoven, Partiki Phasing rhythms (rhythms of expansion and contraction of energy). Each of the 15 rhythms of Partiki Phasing creates one **DIMENSION**. A **Dimension** is a set pattern of "**FLASH LINE SEQUENCES**", or a cycle of singular Partiki Phasing rhythms that contains within it 12 smaller rhythms of Partiki Phasing. Each **Dimensional Manifestation Template** creates a set of fixed Scalar-Tri-Tone Wave Points that create a template of stationary SCALAR FREQUENCY. Each Dimension represents one **SCALAR FREQUENCY BAND** containing 12 smaller **SUB-FREQUENCY BANDS**. A **Scalar Frequency Band** is a cyclic pattern of specific Partiki Phasing Rhythms, or **EXPANSION AND CONTRACTION RATIOS OF ENERGY CIRCULATION**, to which consciousness conforms in order to enter the experience of manifestation.

- To create the Universal Manifestation Template upon which external space, time and matter experience can be known, Dimensions are ordered into sets of 15, forming the blueprint for a **15-Dimensional Time Matrix**. Within a Time Matrix the 15 Dimensions are further arranged into sets of **3 Dimensions**, forming **5 3-Dimensional reality fields**. Each 3-Dimensional Reality Field is called a **HARMONIC UNIVERSE**, and each represents a **level of matter densification** specific to its intrinsic rates of Partiki Phasing. One Time Matrix is thus a **15-Dimensional Scalar Grid** with 5 separate yet interwoven reality fields and 5 different densities of matter manifestation. Each of the 5 Harmonic Universes within a Time Matrix represents a **TIME CYCLE**. A Time Cycle is a fixed, repeating pattern of Partiki Flash Line Sequences, or a repeating cycle of specific ratios of energy expansion-oscillation and contraction-vibration. The Time Cycle of a Harmonic Universe is called an **EUIAGO CYCLE**. There are **5 simultaneously manifest Euiago Cycles in every Time Matrix**, through which consciousness passes in order to experience linear evolution through space, time and matter. Each Euiago cycle contains within it 6 smaller Flash Line Sequences that form 6 smaller cycles of time called **TIME CONTINUA**.

- The PRIMAL ORDER of Manifestation Templates represents the core mathematical and geometrical interrelationships of energy that the consciousness of God takes on in order to enter the holographically projected experience of external space, time, matter and individuation. All manifest forms, including the HUMAN BODY and PSYCHE, are built upon a Manifestation Template that begins with the Primal Order of Dimensionalization, through which the consciousness anchors itself into the Time Cycles of the Universal Manifestation Template Time Matrix, to begin the experience of evolution through time. Understanding the PRIMAL ORDER OF DIMENSIONAL STRUCTURE, as it pertains to the human organism, allows for comprehension of the greater causal framework through which personal healing and spiritual actualization must occur. Such comprehension of the core causal structure of manifestation enables one to work cooperatively with, rather than in resistance to, the natural Universal Laws of Manifestation, progressively restoring the NATURAL HARMONIC ORDER of wellbeing and DIVINE RIGHT FORM. Through regeneration of the Primal Creation Blueprint within the biological form and consciousness, the indelible Organic Imprint for Health and ability of Biological Ascension can be progressively restored.

5 Harmonic Universes

The omnipresent, perpetual Primal Order of 5 concentric spherical electro-magnetic domains, their respective 5 *Density* Levels of matter and their inherent reality fields, which form one 15-dimensional Time Matrix. In the Primal Order of Universal structure, the medium for manifest experience is created upon the mathematical and geometrical formula through which 5 Harmonic Universes manifest as 5 spherical, concentric, 3-dimensional electro-magnetic domains, to form a Unified Field of Conscious Energy called a Time Matrix. A 15-dimensional Time Matrix is a unified scalar-standing-wave field of conscious *Primal Energy Units* within which the manifest reality experience of space, time and matter takes place. One Harmonic Universe is a fixed set of 3 *dimensions*. A set of 3 dimensions is a group of 3 interwoven scalar-wave fields, each with interrelated but varying fixed rhythms of vibration and oscillation. Together, the sets of 3 interwoven scalar-fields form a harmonic tri-tonal band of frequency and wave spectra, which creates the spherical electro-magnetic domain that is the reality field of one Harmonic Universe. A Time Matrix is the 15-dimensional composite Unified Field of 5 interwoven Harmonic Universes. Each Harmonic Universe represents a specific Density Level, or phase of matter density progression, and each Harmonic Universe/ Density Level possesses manifest matter forms, life fields and biological expression characteristic to its density level. Earth and its detectable galaxies are presently stationed within Harmonic Universe-1, Density-1.

Inherent to the spherical electro-magnetic domain of each Harmonic Universe, are fixed, repeating cycles of vibrational acceleration and deceleration. Each repeating cycle of vibrational variance forms a "path of rhythm" through which manifest forms "move"; the movement is a repeating series of variance in vibration within the scalar template of a form, from the highest vibration (lowest oscillation, most contracted) to the lowest vibration (highest oscillation, most expanded). As the template of a form or manifest being moves through the "paths of rhythm" set by the repeating cycles of vibrational variance within a Harmonic Universe, the movement becomes translated into the observable experience of linear passage through time. The experiential attribute of manifestation that gives us the external perception of linear passage and growth through time is rather the passage of energy and consciousness through the fixed rhythms of vibrational variance inherent to the primal structure of a Harmonic Universe. The 3-dimensional scalar template of each Harmonic Universe contains one primary cycle of vibrational variance that forms one primary Time Cycle. The passage of a manifest form or being through this primary cycle of vibrational variance constitutes the form's or being's forward passage through the linear time cycle of that 3-dimensional Harmonic Universe system.

The primary Time Cycle of one Harmonic Universe is called an Euiago Time Cycle. Within each Harmonic Universe's Euiago Time Cycle there are 6 smaller, fixed cycles of vibrational variance, which form 6 Time Continua, 2 placed within each of the 3 dimensions of the 3-dimensional Harmonic Universe system. Each of the 6 Time Continua in one Euiago Time Cycle has sets of still smaller cycles of vibrational variance, which form a series of Time Vectors, or linear "event horizons" within the larger linear progression of the Time Continuum and Euiago Time Cycle within which the Time Vectors exist. There are 72 Time Vectors within each of the 6 Time Continua Cycles in one Harmonic Universe Euiago Time Cycle; thus each Harmonic Universe contains 432 Time Vectors, or linear progressions through time. Within the 5 Harmonic Universes of one 15-Dimensional Time Matrix there are 5 Euiago Time Cycles, 30 Time Continua Cycles and 2160 Time Vectors. All of the time increments within a 15-Dimensional Time Matrix occur simultaneously, coexisting as specific sets of smaller scalar-wave templates within the larger scalar-wave template of the Time Matrix. The experience of linear passage through time results from the interaction between the scalar template of a form or being and the scalar template of the singular Time Vector within which it is placed. Earth presently resides within a Time Vector that is part of the 6th Continuum Cycle of the Density-1/ Harmonic Universe-1 Euiago Time Cycle. In terms of contemporary Earth time translation, Earth's Euiago Time Cycle is 26,556 years long and each Time Continuum Cycle is 4,426-years long. Earth's Time Vector cycles vary, some shorter, some longer; for about the last 2000 years, Earth's Time Vector cycles have run approximately 61.5 years. However, Time Vector oscillation rhythms have begun and will continue to increase during the 2000-2017 Stellar Activations Cycle, shortening the average length of a Vector cycle to about 22.5 years for the next 1,476 year period. This shortening length of Time Vector cycles represents an intensified natural time acceleration period within Earth's 4,426 year Continuum cycle, brought on by the dimensional blend characteristic to Stellar Activations Cycles.

The term "Harmonic Universe" is frequently used synonymously with the term "Density" or "Density Level" among guardian races, as in Harmonic Universe-1 refers to Density-1 etc. However, confusion can arise in human understanding, whereas the term "Density Level", a 3-dimensional system, is mistakenly viewed as being synonymous with the term "dimension", a single dimensional band that is one third of a 3-dimensional "Density". For this reason, guardian races prefer to use the terms "Harmonic Universe" and "Density/Density Level" interchangeably, until this difference in word meaning is more fully recognized among human populations.

5 Density Levels

The 5 fixed stages or phases of densification within the *Primal Order* of a *Time Matrix,* within which consciousness expresses in its manifestation and incarnation into externalized space-time-matter experience. The 5 Density Levels are fixed fields of electromagnetic reality that compose the Primal Order and structure of one 15-dimensional Time Matrix. Each Density Level represents one 3-dimensional reality field, or *Harmonic* Universe, which contains the specific, repeating cycles of particle-vibration acceleration and deceleration that form the primary Time Cycle, or Euiago Time Cycle, for that Harmonic Universe. The density of matter manifestation within each Density Level or Harmonic Universe is governed by the ratio between vibration and oscillation within the *Primal Energy Units* of conscious energy that form the scalar-standing-wave templates upon which the spherical electro-magnetic domain of the Harmonic Universe manifests. Within the natural interdimensional physics laws of energy expansion and contraction that govern time and manifestation, as the Primal Energy Unit oscillation (energy expansion/expenditure) increases, its vibration (energy contraction/holding) reciprocally decreases in specific ratio. The higher the oscillation rhythm and lower the vibration rhythm of Primal Energy Units within the scalar template of a Harmonic Universe, the higher frequency its wave spectra is and the less dense its particle manifestation will be.

The 5 Density Levels of the 5 Harmonic Universes in a Time Matrix are formed, and made distinct from each other, due to the mathematically encoded variance in vibration-oscillation ratios intrinsic to the sets of 3 dimensional scalar-wave templates that form each Harmonic Universe. The fixed vibrational variance between sets of 3 scalar-wave templates generates specific ratios of variance in the angular axis upon which particles rotate (angular rotation of particle spin) in each dimension and 3-dimensional set. This fixed variance in Angular Rotation of Particle Spin creates a system of 5 simultaneously existing, separate, yet interwoven spherical electro-magnetic domains, each with its inherent frequency range and Density level, which are the reality fields of the 5 Harmonic Universes and 5 Density Levels in one Time Matrix. The 5 Harmonic Universes, 5 Density Levels, and the time cycle reality fields within them, all exist at the same time, in the same space. The 5 Harmonic Universes and 5 Density Levels exist in the same space as concentric spherical electro-magnetic domains that are separated from and invisible to each other due to inherent variance in Angular Rotation of Particle Spin and varying ratios of energy oscillation/expansion and vibration/ contraction. The highest dimensional spherical electro-magnetic domain of Harmonic Universe-5 is characterized by the most energy expenditure, least particle density, highest oscillation, lowest vibration and highest frequency and represents the most expansive Universal Unified Field of Conscious Energy within which the four lower Harmonic Universe systems reside.

The oscillation rhythm (rate at which energy is expended or expanded from Primal Energy Units) in Harmonic Universe-5/Density 5 is the highest within the 15-dimensional Time Matrix scale. The vibration rhythm (rate at which energy is contracted or drawn in by Primal Energy Units) in Density 5 is the lowest within the dimensional scale. Within the 5 Harmonic Universes of a 15-dimensional Time Matrix, the Harmonic Universe-1, dimensions 1-3 system, represents the Density-1, inner, most contracted, slowest oscillating, highest vibrating, lowest frequency and most dense spherical electro-magnetic domain of the 5 reality fields. The Harmonic Universe-5, dimensions 13-15 Density-5 field represents the most expanded, slowest vibrating, highest oscillating, highest frequency and least dense field. Harmonic Universes and Density Levels 2-4, dimensions 4-12, represent 3 levels of ascending progression in frequency and expansion between the Harmonic Universe-1/Density-1 and the Harmonic Universe5/Density-5 reality systems.

Each Harmonic Universe contains biological life forms and matter-form manifestation characteristic to its matter density level. Harmonic Universe-1, dimensions 1-3 matter, manifests in physical, Gross matter, carbon-based form, which is considered Density1 matter. Harmonic Universe-2, dimensions 4-6 matter, manifests in Semi-Etheric, carbon-silica based form, which is Density-2 matter. Harmonic Universe-3, dimensions 7-9 matter, manifests in Etheric, crystalline-silica based form, which is Density-3 matter. Harmonic Universe-4, dimensions 10-12 matter, manifests in a liquid-crystalline-silica form called Hydroplasmic Radiation, or "liquid light", which is Density-4 Pre-matter; the "Cosmic Soup", or the common conscious energy field of the "Christos" Primal Sea of Liquid-Light, out of which all externally manifest life and form originally emerge. Harmonic Universe-5, dimensions 13-15 matter, manifests as interwoven scalar-standing-wave fields of conscious gaseous light, or Thermoplasmic radiation, which is Density-5 Ante-matter; the first stage of manifestation of consciousness in the form of externalized energy that forms the Universal Unified Field of Conscious Energy that is a Time Matrix.

Earth, and its surrounding fields of "outer space", presently exists within the Harmonic Universe-1, Density-1 reality field. All forms and beings manifest in Density-1 have their indelible, simultaneous counterpart expressions within the Harmonic Universes/ Densities 2-5 reality fields. Within the macrocosmic structure of our 15-dimensional Time Matrix, Earth's counterpart-planet expression in Density-2 is called Tara, in Density-3 Gaia and in Density-4 Aramatena, all of which manifest through Earth's Harmonic Universe-5/Density-5 Thermoplasmic Ante-matter Template. Within the microcosm of *15-Dimensional Human Anatomy,* the 5 Density Levels represent 5 spherical electro-magnetic domains, each with their corresponding *Merkaba Field* levels that form the 15-dimensional bio-energetic *Auric Field* and scalar template blueprint upon which the physical, emotional, mental and spiritual bodies of an incarnate (continued)

FYI - 5 Density Levels Continued

individual manifest. In terms of human anatomy, the 5 Density Levels represent various states of dimensionalized energy within which the fullness of the human consciousness is stationed at different stages of expansion and contraction. The higher dimensional aspects of human identity that compose the "spiritual body" represent the stations of progressively expansive awareness, through which the incarnate self contracted and down-scaled the oscillation of its consciousness to enter *Fetal Integration* and manifest form in Density-1. Each station of consciousness represents a microcosmic, individuated replica of the 5 Harmonic Universe spherical electro-magnetic domains of Universal Structure.

The 5 spherical electro-magnetic domains of the personal anatomy are called the 5 *Ariea-Nova Bodies*. An Ariea Hova Body is a 3-dimensional, tri-tonal, spherical electro-magnetic body of light and sound that forms upon one 3-dimensional scalar-wave template. The 5 Ariea Hova Bodies of 15-Dimensional Human Anatomy hold the various stations of personal consciousness into dimensionalization for the experience of manifest expression in space, time and matter. Each of the 5 Ariea Hova Bodies exists at all times, forming the 5 primary energy Density Levels and 15 dimensions of consciousness that form the human Auric Field. Spiritual Actualization of the human being is the process by which the embodied Density-1 consciousness progressively expands to bring these higher dimensional stations of awareness into focus within the physical body. The process of spiritual actualization is orchestrated through the human DNA Template, which regulates the amount of higher dimensional frequency brought into embodiment. As the expanded stations of consciousness, held in Hova Bodies 2-5, enter the DNA Template, the oscillation rhythm of the body's scalar-standing-wave template increases. Increased oscillation of the body's Density-1 scalar template creates progressive activation of dormant portions of the DNA Template and increased function of the manifest DNA. Through activation of dormant strands in the *DNA Template*, alteration of angular rotation of particle spin within the body's sub-atomic base and biochemical interactions within the manifest body systems occur, progressively raising the frequency of wave-spectra in the body's scalar template into the interdimensional spectrum. These bio-chemical processes of spiritual integration create a progressive series of shifts in Angular Rotation of Particle Spin and a reciprocal, progressive de-densification of matter particles. Through these processes of internal, interdimensional physics, which are the mechanics of *Transmutational Dimensional Ascension*, the embodied identity progressively unifies the dimensionalized stations of its consciousness and expands upward in frequency through the matter Density levels and Harmonic Universe Time Cycles through which it originally passed to enter Density-1 manifestation.

The 5 Density Levels and 5 Harmonic Universes of a Time Matrix are the natural product of Primal Order and the natural laws of Creation Mechanics by which manifest reality perpetually comes into being. The Primal Order of the 5 Density Levels is reflected within the core scalar template blueprint of all manifest forms within the macrocosm and microcosm. Just as within the Density-1 reality system in which Earth is presently stationed, there are galaxies and populated life fields within each of the higher dimensional Density Level systems. Each of the 5 Harmonic Universes/ Density Levels represents a primary *Time Cycle*, contains smaller *Time Continua* and *Time Vectors* and manifest matter forms and biological expression characteristic to the respective Density Level. During *Stellar Activations Cycles*, the natural electro-magnetic barriers between Harmonic Universes/Density Levels temporarily thin, allowing the Density Levels, Harmonic Universes, Time Cycles and their inherent life fields to temporarily blend, overlap and interface with each. During Stellar Activations Cycles, the higher dimensional life fields of Density Levels 2-5 interact directly and more frequently with the life field of Earth in Density-1. This phenomenon is illustrated in our present times through the growing cultural experiences that have spawned the UFO and New Age Movements within contemporary human culture. Contact with Density 2-5 life fields, accelerated DNA Template activation among the human masses and Earth's life field and expansion of human conscious awareness into the interdimensional spectrum are now occurring, due to the natural mechanics inherent to the 2000-2017 Stellar Activations Cycle.

In certain interdimensional circles the term Density, or Density Level, is used as a form of "shorthand" for describing the interdimensional location of a singular dimensional band, rather than using the term in its precise technical meaning as referring to a full 3-dimensional system. Frequently the Zeta races use this shorthand, often describing themselves as "4th Density Beings", referring to their orientation as existing within the 4th dimension of Density-2. This tactic of misrepresentation of terminology is commonly used as a form of disinformation among visitor races, through which they make themselves appear to humans as emerging from more lofty interdimensional locations, in order to inspire respect, admiration or fear within their human contacts. When the term "Density Level" is used correctly, it refers to one of five 3-dimensional systems in a 15-dimensional Time Matrix, each possessing different matter-density orientation and biological life expression characteristic to its specific 3-dimensional scalar-wave template.

Frequency Bands and Sub-Frequency Bands within the 15-Dimensional Scale

Frequency Bands are cyclic, repeated sequences of *"flashing on and off"* of scalar standing-wave points that create the appearance of manifest wave spectra within a dimensional system. ***Sub-frequency Bands*** are shorter cycle segments of the longer *"flashing on and off"* sequence of the *full* Frequency Band. **Frequency and Sub-frequency Bands make up the foundation wave strata of Dimensions.**

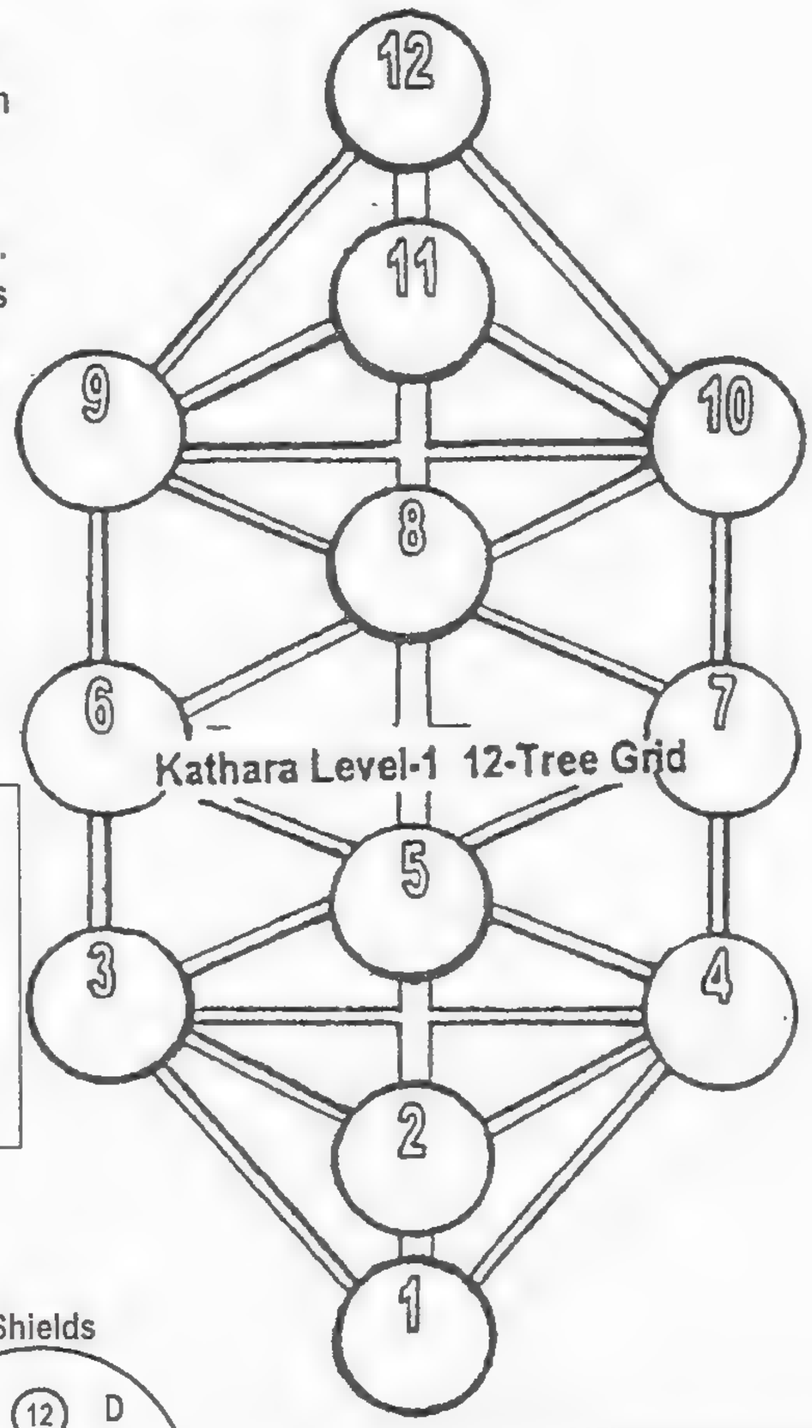
Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation. *Signets* are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.



The Signets and the Shields are the core of Kathara Level-2 Seals Grid

As **Universal Life Force Currents** activate in the Kathara Grid, DNA, Chakras, Auric Levels & body, natural awakening of the dormant **Scalar Shields** occurs.

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

15-Dimensional Levels of *Identity, DNA and Indigo Children*

The DNA represents fixed scalar-wave sequences/ "**Fire Letters**", that correspond to each dimension/frequency of consciousness. Consciousness enters time by fragmenting into the scalar fields of the dimensions. Freedom from space-time-matter is achieved by reassembling the dimensional Fire Letters, progressively expanding the consciousness and DNA & transmuting the body matter out of density. There are **48 Primary Fire Letter Sequences**/DNA Strands in full transmutation, through which the consciousness expands into non-dimensional levels of **Ascended Mastery**.

Progressive activation of dormant **12-48 Strand DNA Template** creates activation of corresponding Universal **Life Force Currents** in body.

A Dimension **is a full Frequency Band or repeated sequence of "flashing on and off" of scalar standing-wave points within a morphogenetic field.**

The *Oraphim* genetic imprint of the Indigo Children allows more rapid re-assembly of the 48 DNA Fire Letters / scalar-wave grids, creating the potential to embody the *Avatar* identity and open the consciousness to *Ascended Master* Identity Levels. Indigo Children are Avatars and Ascended Masters waiting to awaken.

All Angelic Humans possess a minimum of 12-Strand DNA potential through which activation of the Maharata Current and embodiment of the D-12 Christed Avatar Identity can take place.

☆ *What are ETs, Angels and Archangels?*

- Throughout human history there have been legends and myths about visitors from other worlds. In ancient times such visitors were called angels, archangels, gods and demons. In contemporary times the term "extra-terrestrial" is often used to describe the same phenomenon of visitors from other worlds.

- It is important for us to understand that the phenomenon of visitors from elsewhere is not new, but has been part of human culture since the beginning of recorded history.

- Though it is not often understood in contemporary times, the phenomenon of other world visitors has its roots in interdimensional scientific laws of physics, as well as within spiritual experience.

- Through quantum physics and related theories, the contemporary scientific community has just begun to explore the realities of interdimensional physics. Through our contemporary New Age movement we are beginning to understand greater applications of scientific laws as they apply to human spirituality. Much of this new understanding has emerged through the phenomenon of angelic visitor contact itself.

- Angelic visitors are not fictional characters emerging from the human psyche. Angelic visitors are biological beings that emerge into our world from 5 different matter Density Levels that exist as an inherent part of the 15-Dimensional Time Matrix within which Earth resides.

- There is a Primal Order of Universal Structure through which space-time-matter reality experience emerges. Primal Order is built upon scalar-field dynamics. A scalar-field is a field of interwoven scalar-standing-wave points that are composed of Primal Units of energy called Partiki, Partika and Particum. These 3 Primal Units of conscious energy form the base substance from which particle, anti-particle and ante-particle electro-magnetic fields form.

- The Primal Order of Universal Structure forms in sets of 15dimensional scalar-fields called Time Matrices, which are separated into 5 interwoven 3-dimensional reality systems called Harmonic Universes. Each 3-dimensional Harmonic Universe represents a specific matter Density Level. Each of the 5 Density Levels in one Time Matrix represents a life field with biological orientation characteristic to its level of matter density.

- Density-1, composed of dimensions 1, 2 and 3, is a gross matter, carbon-based biological system. Density-2, dimensions 4, 5 and 6, is a semi-etheric matter, carbon-silica-based

biological system. Density-3, dimensions 7, 8 and 9, is an etheric matter, crystalline-silica-based biological system. Density-4, dimensions 10, 11 and 12, is a Pre-matter Hydroplasma system, with Liquid-Silica ("Liquid Light") biological orientation; dimension 12 Pre-matter is the entry point into space-time-matter manifestation. Density-5, dimensions 13, 14 and 15, is an Ante-matter Thermoplasma system, with Gaseous-silica orientation; its life fields exist as gestalts of consciousness in the form of light-radiation.

- All of the planets, stars and galaxies in our cosmos have a reflection manifestation in each of the 5 Density Levels. Planetary systems that appear uninhabited from our Earthly observation most often have complex life fields in some of the other Density Levels.

- ETs, Angels and Archangels represent beings who visit our Density-1 Earth from other planets and star systems in the higher dimensional Density Levels. Some visitors emerge from other time continua in our Density-1 system.

- In our historical use of the terms, an "Angel" is a being with 6th Dimensional consciousness who emerges from a dimension-6 time continuum of Density-2 and possess semi-etheric, carbon silica biology. Archangels are etheric, crystalline-silica beings with 7th-9th dimensional consciousness who can adopt a variety of manifest forms that emerge from the dimension 7-9 time continua of Density-3.

- Beings from the 4th dimension are called Astral Beings, and those from dimension 5 are called Archetypes; both are from Density-2 and have Semi-etheric, carbon-silica biology. Pre matter, hydroplasmic liquid-silica beings, emerging from the dimension 10-12 time continua of Density-4, who can adopt the manifest form they choose, are called Avatars; those from dimension 12 are called Maharas, or "Christed" beings". Beings of pure thermoplasmic consciousness from dimensions 13-15, who appear as massive "suns" or gaseous balls of light, and can manifest in any form they choose, are called Breneau or Solar Rishi.

- In contemporary times, the term "ET" is often misused to describe beings visiting from the higher dimensional Density Levels in our Time Matrix. The term "extra-terrestrial" does not clearly identify the variance in matter density, biological make up, consciousness level and time continua placement of interdimensional beings, nor does this term accurately depict the long history of interrelationship between interdimensional beings and the evolution of humanity on Earth. Though all interdimensional beings are "extra-terrestrial" in that they are not presently of Earth's life field, the terms "Angelic" or "Inter-time Visitors" more accurately describe their relationship to us.

- Beings from the 5 Density Levels in our 15-Dimensional Time Matrix have periodically visited Earth, some to assist humanity in its evolution, others to impede the fulfillment of

humanity's evolutionary objective. Humanity began 560 million years ago as a Density-2 Angelic Human race on Earth's Density-2 counterpart planet Tara. Since humanity was seeded for evolution in the Earth system 250 million years ago, various factions of interdimensional races have guided and manipulated earth human evolution.

- The very foundations of our contemporary scientific, religious, historical and cultural beliefs about the nature of reality, the cosmos, and the human condition have emerged through the direct and intended covert influence of interdimensional visitor races.

- The presiding cultural belief that visitors do not exist has been an idea intentionally honed among human civilizations by manipulative interdimensional visitor races and human power elite since the 9558 BC destruction of the Atlantian Islands.

Breneau Orders

The Breneau Orders are the eternal Rishi Consciousness Collectives that form the Primal Light Fields and Breneau Time Cycles of dimensions 13-15 of Harmonic Universe-5 Ante-matter Density-5. The 3 Breneau Orders of our Time Matrix are the Universal Families of Consciousness through which all beings in our Time Matrix incarnate into the 4 lower-dimensional Harmonic Universes and Density Levels. The 24 Primary Breneau Rishi Collectives in the Energy Matrix that serve as Universal Guardians and feed individuated consciousness into the Time Matrices of universal structure are often referred to as the "Solar Lords". The name "Council of 24 Elders" originally referred to the 24 Primary Breneau Collectives in the cosmic Energy Matrix. Through the personal morphogenetic field and auric field, every being, in every Time Matrix, including each human, is directly energetically connected to and exists as a part of one of the 24 Breneau Rishi Collectives. The 24 Breneau Orders represent the Universal Family of Consciousness through which we originally entered manifestation into the Light Fields of time, from the Yanas Ascended Masters Consciousness Collectives in the Primal Sound Fields of the Energy Matrix. The Breneau Rishi work cooperatively to equally assist all life forms in fulfilling their process of evolution to ascension. Three Breneau Rishi have served, under guidance of the Emerald-Blue Flame Grandeyanas *Yanas* Ascended Masters Collectives from the Energy Matrix, as mediators, guardians and protectors of the 5 Harmonic Universes in our 15-Dimensional system since the creation of our Time Matrix. The *Emerald Order* Breneau Family created the *Elohei-Elohim* Founders Race, and the Gold Order Seraphei and Amethyst Order Bra-ha-Rama Breneau Orders in our Time Matrix. The Elohei-Elohim Founders Race was instrumental in the creation and continued evolution of humans; its members have served as protectors and guides of human evolution since its creation. The three primary Breneau Rishi Collectives involved in Earth evolution and evolution of our Time Matrix are the Elohei-Elohim *Emerald Order* Breneau, the Seraphei-Seraphim *Gold Order* Breneau and the Bra-ha-Rama *Amethyst Order* Breneau. A fourth Breneau Family called the Annu-Elohim *Ruby Order* Breneau, which was once part of Elohei-Elohim Emerald Order Breneau, also seeded life into our Time Matrix, originally in violation of the Emerald Covenant Co-Evolution Agreement. All Breneau Rishi Collectives in out Time Matrix emerge from the Ascended Masters Yanas Melchizedek Consciousness Collectives in the Energy Matrix.

Breneau-*Emerald Order*

The Emerald Order-Elohei-Elohim Breneau families from the *Grandeyanas* Ascended Masters Yanas Collectives are the "Keepers of the Emerald-Blue Flame", sustain the 48 Eckatic Level Ascension Codes, serve as Primary Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Melchizedek Cloister Blue Flame service organizations. They are creators of the original Lyran-Sirian-Anuhazi-Azurite-Oraphim-Turaneusiam-Adami-Kudmon "Christed" Angelic Human prototype, as well as creators of most hominid, feline and land-mammal life forms in our Time Matrix. The Elohei-Elohim Breneau served as arbitrators in the long history of conflict between the Elohei-Elohim-Human and fallen Annu-Elohim-Anunnaki races, seeking to assist all in peaceful co-evolution to ascension following the natural Laws of Universal Unified Field Physics and the Spiritual Law of One. The Emerald Order Breneau and their interdimensional races are also collectively called Blue Flame Melchizedek Cloister.

Breneau-*Gold Order*

The Gold Order Seraphei-Seraphim Breneau families from the *Wachayanas* Ascended Masters Collectives are "Keepers of the Gold Flame", sustain the 42 Polaric Level Ascension Codes, serve with the Emerald Order as Primary Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Gold Flame service organizations. They are primary contributors to human evolution through their avian-hominid Seraphim/Seres races (Reiophetoria; "angel" or "Bird People") and the Aethien Mantis races, as well as creators of most progressive avian,

insect and reptilian life forms in our Time Matrix. Digressive insect and reptilian strains emerged from the "Fallen Seraphim" avatar collectives that created the Drakonian and Zephilium/Zeta race strains in dimension-10 Harmonic Universe-4. Gold Order Breneau and their interdimensional races are also collectively called the Gold Flame Melchizedek Cloister.

Breneau-*Amethyst Order*

The Amethyst Order Bra-ha-Rama Breneau families from the *Ramyanas* Ascended Masters Collectives are "Keepers of the Violet Flame", sustain the 36 Triadic Level Ascension Codes, serve with the Emerald and Gold Order Breneau as Guardians in our Time Matrix and are charter members of the Guardian Alliance and other Violet Flame service organizations. They are primary contributors to human evolution through their Bra-ha-Rama land and water mammal and hominid races. The Bra-ha-Rama Rishi frequently incarnate in human Hindu, Tibetan, Inca and oriental cultures to hold sacred information for evolution of Earth races. They are creators of most progressive horse, cow, deer, ape, whale and some cetacean type life forms in our Time Matrix. The Amethyst Order Breneau serve as a Host Matrix for the Ruby Order Annu-Elohim of the dimension-11 fallen Annu-Elohim Jehovani avatar collective.

Breneau- *Ruby Order*

The Ruby Order Annu-Elohim Breneau family from the fallen Annu-Elohim Jehovani Dimension-11 avatar collective are "Keepers of the Crimson Flame", sustain the 26 Ascension Codes corresponding to Dimension-15 in our Time Matrix, serve with the Emerald and Gold Order Breneau as Guardians in our Time Matrix and are later members of the Guardian Alliance and other Violet Flame service organizations. The Ruby Order Annu-Elohim Breneau families from the fallen Annu-Elohim Jehovani D-11 avatar collective, one of which is often called "The Great White Brotherhood", were originally a Harmonic Universe-4 Avatar Family named Jehovani out of the Elohei-Elohim Emerald Order Breneau Rishi Collective. Certain members of the Jehovani avatar collective suffered distortion of their Ascension Codes and resulting extremes of polarity consciousness through which they chose to sever their connection to the Elohei Breneau and Yanas Ascended Masters Collectives in favor of "creator god" control agendas that abused the intrinsic rights of life forms in our Time Matrix. Severing their morphogenetic field from that of their original Elohei-Elohim Breneau Rishi family at the last sub-harmonic frequency of Dimension-11 caused mutation of the Jehovani avatar collective genetic potential, reducing their Ascension Codes to an 11-strand capacity. The 11 Strand DNA Template mutation of the Jehovani races and their refusal to regenerate their connection to Source through application of the Law of One, has kept the Jehovani collective trapped in time and unable to receive a perpetual energy supply from Source. Separation from their Emerald Order Elohei Breneau Rishi family has reduced the original eternal design of the fallen Jehovani avatar collective to a finite potential that requires continued energy-feeding from other life forms in our Time Matrix.

To solve the need of harnessing energy for maintaining their finite morphogenetic field, the Jehovani D-11 avatars have attempted to take possession of our Time Matrix through force and dominion, long before the creation of the Turaneusiam-human lineage. The portion of the Jehovani avatar collective that digressed into agendas incongruent with the natural Law of One became known as the "fallen" Annu-Elohim and collectively as the creator gods "*Annu*" and "*Jehovah*". The fallen Annu-Elohim created the *Sirian Anunnaki* races as an avenger species with the intention of dominating, energetically "feeding on" and destroying the Sirian Anuhazi, Seres, Bra-ha-Rama and Human race lines that emerged from Elohei-Elohim and Seraphei-Seraphim and Bra-ha-Rama Emerald, Gold and Amethyst Order Breneau Rishi lines. Members of the fallen Annu-Elohim collective are also called Templar Melchizedeks, denoting certain distortions or "seals" in the DNA and Manifestation Template; their Manifestation Templates do not possess the needed dimension-12 and higher Ascension Codes required for full ascension out of the Time Matrix. Portions of the fallen Jehovani avatar collective that later sought re-entry into their original Elohei-Elohim Emerald Order Breneau Rishi family, in order to regenerate their Ascension Codes and re-establish direct connection to the Yanas collectives and Source, accepted Host Matrix from the Amethyst Order; they became known as the *Ruby Order Annu-Elohim* Collectively the Ruby Order Annu-Elohim of the Amethyst Order Host Matrix are frequently referred to as YHWH; the YHWH name has also been used by still fallen members of the Jehovani avatar collective in order to deceive humans into surrendering their life force energies to the fallen Jehovah collective.

The legitimate YHWH Annu-Elohim avatar collective re-established the 26 Ascension Codes of the Dimension-15 in order to receive Host Matrix from the Amethyst Order Breneau, providing consciousness incarnate through the fallen Annu-Elohim lines the opportunity to achieve ascension out of the Time Matrix. The Ruby Order Annu-Elohim now assist the Bra-ha-Rama Amethyst Order "Keepers of the Violet Flame" and *Ramayanas* Ascended Masters Collective in re-evolution of fallen Annu-Elohim race lines. The YHWH Annu-Elohim family that accomplished ascension into the Triadic Energy Matrix and re-entered our Time Matrix from the Ramayanas Collective to assist the Violet Flame Keepers in our Time Matrix is called the Ruby Order Oraphim Breneau. They usually work cooperatively with the Emerald, Gold and Amethyst Order Elohei, Seraphei and Bra-ha-Rama Collectives and have worked extensively within the Earth system to assist Earth-Human-Annu genetic lines that have been historically mutated through forced Anunnaki interbreeding with humans.

The 9 DNA Strand being born in 7BC known as "Jeshewua-9", whose identity became historically interwoven with that of Emerald Order Avatar "Jesheua-12" to form the composite "Jesus Christ" personification, incarnated through the *Ruby Order* Oraphim Annu-Elohim lines of the Templar Melchizedek Essenes. Jeshewua-9 initiated re-genesis of the 9-Strand DNA Template secondary "Holy Grail" line Ruby Order Human-Anunnaki genetic lineage among earth Templar Melchizedek Annu-human Populations. Jesheua-12 initiated re-genesis of the original 12-Strand DNA Template Emerald Order Adami-Kudmon Turaneusiam- Angelic Human genetic lineage among human populations. The Ruby Order Crimson Flame Annu-Elohim Breneau families that remain in observance of the Law of One, such as most of the "Great White Brotherhood", continue work to assist in peaceful co-evolution of Human and Anunnaki races. Races the Ruby Order assists to evolve include Annu-Melchizedeks, Nephilim, Pleiadian Beli-Kudyem-Turaneusiam, Nibiruians and various other Anunnaki-human hybrid strains. Throughout human history, the "Fallen Annu-Elohim" have misrepresented themselves as true Violet Flame Keepers and misused Violet Flame teachings to enslave and imprison earth humans, while intentionally eradicating true Breneau Order Ascension teachings in order to gain control over Earth's Templar.

- The CDT-Plates ("Cloister Dora-Teura"-Plates) are a set of 12 Holographic Recording discs that were given to the Urtite and Cloister Human races of Earth by the Density-5 Breneau Orders, Founders Races of our Time Matrix and Densities 2 and 3 Sirian Azurites 248,000 years ago. The gift of the CDT-Plates and their corresponding 12 Signet Shield star gate access devices was part of the restatement of the Emerald Covenant Co-evolution Agreement.

- The original Emerald Covenant of Aramatena was formed 950 billion years ago when the Density-5 Emerald, Gold and Amethyst Order Breneau Rishi last seeded a life-field into our Time Matrix. The Emerald Covenant of Aramatena held the objective of the 3 Breneau collectives creating a diversified life field of interdimensional races within the Densities of our Time Matrix. The Emerald Covenant decreed the intention of peaceful co-evolution of all races created within the Densities, with the intrinsic evolutionary objective of Ascension from our Time Matrix in return to consciousness At-one-ment with Source.

- There have been many restatements of the Emerald Covenant during the long evolution of interdimensional, stellar races in our Time Matrix. The original Angelic Human lineage was created on Tara as per Emerald Covenant restatement 560 million years ago. The last restatement of the Emerald Covenant on Earth was 248,000 years ago, as the Elohei-Elohim, Seraphei, Angelic Human, Annu-Elohim and Anunnaki stellar races and the human Urtite and Cloister races of Earth accepted reinstatement of the Emerald Covenant Co-evolution Agreement regarding Earth evolution. The CDT-Plates and Signet Shields were provided to the Urtite and Cloister Earth races to give them the knowledge to serve as guardians and keepers of Earth's Templar Complex (star gate and energy grid system).

- The pre-ancient CDT-Plate discs are presently in the protective custody of the Emerald Order Azurite Security Team of Density-2 Sirius B. The Azurite races serve as the primary guardians of the star gates in the Interplanetary Templar Complex of our Time Matrix. The Azurite Races of the Emerald Order will hold the Security Contract on the Interplanetary Templar until Earth human populations evolve sufficiently to reclaim this position, as per humanity's original Creation Contract decreed in the Emerald Covenant of 560 million years ago.

- The Azurites have physically contacted members of the Emerald Order Eieyani Council who are presently incarnate on Earth, designating 3 Speakers Contracts for translation of

the CDT-Plates into our contemporary times. The physical existence of the CDT-Plates has been witnessed and verified by one of the 3 Emerald Order Speakers.

- The CDT-Plate Holographic Discs hold a massive library of records that detail many things pertinent to the evolution of humanity on Earth. The CDT-Plates detail billions of years of the history of our Time Matrix, Human Creation and the reality of the God force and our relationship to this power. The CDT-Plates also include Creation and Ascension mechanics and the sacred-science teachings of Universal Unified Field Physics through which the Planetary and Interplanetary Templar Complexes, star gates and free energy systems are mastered.

- Translations of the CDT-Plates have been the source of all genuine spiritual-religious-science teachings of all faiths and traditions for the last 248,000 years. Translations of the CDT-Plates have been intentionally destroyed, distorted, twisted, and misused by various human and visitor forces throughout recorded human history. The last attempt of allowing CDT-Plate translation on Earth occurred 2000-3000 years ago among Essene, Tibetan, Hindu and Chinese cultures. The original, true "Christ Story" represented the period of CDT-Plate translation among the Essene Hebrew peoples. The CDT-Plates represent humanity's legacy of spiritual actualization and our intended heritage of mastery within our 15-Dimensional Time Matrix.

- The 3 Breneau Orders of the Kee-Ra-ShA Living Light Fields that seed life force and consciousness into our Time Matrix continue the process of internal polarization and "Stepping Down" of oscillation within the Partiki that compose them, to create within themselves the first entry point into matter solidity and densification. Within the spherical domain of the innermost Emerald-Blue Flame Light Field, the 3 Breneau Orders collectively fuse their inherent light spectra to create the 12th dimension. The 12th-dimensional Scalar Field is called the Maharati, or the Maharic Template.

- The identity gestalt of the Maharati, which is projected from the 3 Breneau Collectives as a standing field of identity, is called the Mahara or "Universal Christ". The Mahara identity gestalt that forms Dimension 12 manifests as a field of conscious Pre-matter Hydroplasmic Light Radiation, or a sea of "Liquid Light", that represents the unified field of collective consciousness commonly called the Christos. The Christos Field of Living Liquid Light forms a combined Primary Creation Ray called the Mahari, which exists as a fixed, standing spherical "Flame" field of oscillating Pale Silver Liquid Light. The Mahari is often called the "Platinum Ray" or the Maharic or "Christed" Frequency.

- From the Dimension-12 Christos Liquid Light Field, Pre-matter Liquid Light begins to take on the ability to hold form. Diversification of form and structure is created through combining into different combinations the geometrical Scalar-wave Grids of the 3 Primal

Light/Sound Khundaray/Kee-Ra-ShA Currents through the Dimension 12 Mahari Scalar-field. Within the Dimension-12 Christos Template, dimensions 11 and 10 are created, by altering the vibrational-oscillation ratios between sets of Partiki Scalar Grids to set the mathematical relationships that create the geometrical blueprints for the primary universal solids. The combined Scalar-fields of dimensions 12, 11 and 10 living Pre-matter Liquid Light that form the Density-4 Pre-matter Christos Template are collectively called the Maharata.

- The Density-4, dimensions 12, 11 and 10 Maharata Liquid Light field further steps down to create the 9 dimensionalized Light/Sound Life Force Currents that are collectively called the Universal Kundalini. The smaller, slower oscillating currents of the Universal Kundalini step down the Primal Life Force currents of the Maharata, Kee-Ra-ShA and Khundaray into the smaller electromagnetic domains of the 9-dimensional system. The combined living Life Force Currents of the Universal Kundalini are called the Antahkarana.

- The Antahkarana is a 9-dimensional field of light and sound that forms 9 concentric spherical electromagnetic domains within which the experience of matter-space-time manifestation can take place. Every universe in the macrocosm and individual being in the microcosm receives its consciousness and life force energies through the 9 dimensionalized light-sound currents of the Universal Kundalini or Antahkarana.

- The 9 distinct dimensionalized fields of the Antahkarana are grouped into sets of 3, each of which forms a 3-dimensional, spherical electromagnetic domain that is known as a Harmonic Universe or matter Density Level. Dimensions 7-9 form Etheric crystalline-silica matter Density-3, Dimensions 4-6 form Semi-Etheric carbon-silica matter Density-2 & Dimensions 1-3 form carbon-based Gross matter Density-1.

- All universes, galaxies, reality systems and life forms in space-time manifest as expressions of God's consciousness, through the process of Stair Step Creation. All consciousness enters expression in time following the Primal Order of manifestation, from the Khundaray (Primal Sound Field), the Kee-Ra-ShA (Primal Light Field), the Maharata (Primal Pre-matter Christos Field) and into the three 3-dimensional reality fields of the Antahkarana. These Primal Life Force Currents that perpetually sustain life in manifestation represent the fixed, standing Scalar Fields of consciousness in the form of frequency that make up the Primal Order of 15-Dimensional Time Matrices, the medium through which all things perpetually exist as manifestations within the mind of God.

- When it comes to the question of "Who, what and where is God?" the Divine Creation Physics teachings of the CDT-Plate records can help us to begin formulating an answer. Though no externalized model of reality will ever fully explain the infinite, boundless

magnitude of the consciousness of God, which can only be experienced, not defined, certain models of understanding can assist us in more readily achieving the experience of the reality of God.

- Through the Creation Physics aspects of the Stair Step Creation model, we begin to understand the reality of Primal Substance and Primal Order, the medium of creation that God uses in order to form manifest life systems within itself. Through understanding the Macrocosmic aspects of the Khundaray, Kee-Ra-ShA, Maharata and Antahkarana, the Primal Life Force Currents of Light and Sound upon which cosmic manifestation is built, we begin to comprehend the greater context of reality and divinity within which our personal individuated life expression takes place.

- As we further explore the CDT-Plate teachings of the Stair Step Creation process, we begin to understand the Microcosmic expression of God, Primal Order and Primal Substance as it is indelibly manifest within our consciousness and our bodies. Through understanding the context within which our personal existence takes place, we begin to realize that there is a purpose and process to our evolution and existence. We can see that reality is a highly organized system created with love, purpose and intention by a sublime force of intelligence that we may call "God".

- The key to utilizing the knowledge of Creation Physics in order to advance our personal evolution into enlightened spiritual actualization lies in the secrets of the core templates upon which the Primal Life Force energies converge to create the manifest experience. The core templates of manifestation are called Kathara Grids and the living systems of divine energy expression that come to life through the Kathara Grid structures are called the Templar Complexes.

- The CDT-Plates teach us of the true nature of God, of the Creation Physics by which God seeds life into the Space-time-matter experience, and details the intimate relationships between consciousness, energy and biology through which beings are perpetually connected to the God-force. The CDT-Plates teach a pre-ancient model of Creation Mechanics called Stair Step Creation, which details the Primal Order, Structure and ongoing dynamics by and through which consciousness manifests within the space-time-matter experience.

- In simplified terms, the Stair Step Creation model explains that God exists as a massive field of conscious awareness that expresses its infinite identity and intelligence in the form of intricate arrangements of Primal Units of Aware-ized Energy. The Primal Units of Energy/Consciousness are called Partiki; they represent the units of the consciousness of God. Partiki Units represent the Primal Substance of which all manifest expression is

created and the Unified Field of Energy within which all manifestation exists.

- When the Primal Substance of Partiki Units is organized by will of God into specific geometrical and mathematical arrangements, Partiki units interact with each other in a manner that creates polarization. Following the Divine Blueprint of geometrical mathematical order designated by the intelligence of God, creation, manifestation and externalization of the reality of God occurs as Partiki Units polarize and split to form Particum and Partika Units, which represent fixed, repeating patterns of synchronized expanding and contracting energy vibration. The polarization of Partiki units initiates the perpetual act of Primal Fission, or the breaking apart and replication of Primal Units of energy. For each act of Primal Fission in Partiki units there is a reciprocal act of Primal Fusion, through which polarized Particum and Partika units reassemble and reunite to replicate the original Partiki unit from which they emerged.

- By the directive of the will and intelligence of God, the units of the consciousness of God, Partiki Units, set externalized creation in motion through the perpetual acts of internal Primal Fission and Fusion. The perpetual acts of synchronized Primal Fission and Fusion that take place within the consciousness field of God set the field of externalized expanding and contracting energy vibration that forms the foundation of electromagnetic energy structure through which sound, light and space-time-matter systems are created.

- Following the mathematical instructions of the Divine Blueprint, Partiki Units group to form Partiki Strings, then Partiki Grids, which through their inherent act of internal and perpetual Primal Fission and Fusion, create a constant, fixed grid of standing points of vibrating and oscillating conscious-energy. The Partiki Grids upon which God's Primal Order is structured are composed of specifically arranged grouping of Partiki Units that perpetually cycle in synchronized internal Fission and Fusion in a process called Partiki Phasing.

- When the fixed vibration of a Partiki unit phases into polarization via Fission, it becomes 2 simultaneously formed fixed points of vibrational oscillation that are Particum and Partika units. Particum units form the base-magnetic vibration (holding of energy - contraction) upon which particles form and Partika units form the base-electrical oscillation (energy expenditure-expansion) upon which corresponding antiparticles form. When Particum and Partika units phase back into unity via fusion, they return to the form of the original Partiki, the original Ante-matter Thermoplasmic radiation of the Divine Blueprint.

- The fixed Unified Field of Partiki Grids composed of Primal Substance forms an intricate interweaving of fixed standing-wave or columnar - wave points, called Scalar-waves, that

perpetually "flash off and on" bringing the consciousness of God into and out of externalized manifest expression. Partiki Grids are composed of geometrically arranged interwoven Scalar-wave points. Partiki Grids form the Scalar Grid of the Universal Unified Field of Conscious Energy.

- Partiki Grids represent a Unified Scalar Field of God's Conscious Awareness and Identity expressed in the form of standing points of energy; the Unified Field of Consciousness-Energy within which all manifestation takes place, which itself exists within the Consciousness of God.

- In the Stair Step Creation model from the CDT-Plates, the Primal Substance of creation is known to be the consciousness of God expressed as energetic radiation, and it is understood in terms of the energetic dynamics of Primal Creation Physics. The knowledge of Creation Physics in no way reduces the divinity, intelligence, love or Divine Presence of the identity of God, but rather illustrates the intelligence of God as it is expressed in the form of Primal Order.

- If we are to begin to understand the truth of our relationship to God, it is important that we realize that the Primal Substance of creation is the consciousness of God itself. As manifest beings we are all composed of units of the consciousness of God and exist within the primal consciousness field that IS God. In understanding these basic foundations of Creation Physics, we can realize that we are never separated from God, but rather living manifest expressions of this perpetual and eternal Force and Intelligence.

- If we can realize that God is Within Us, and that we are simultaneously Within God, the objective of spiritual actualization is then no longer attempting to find a God that we have somehow lost and become separated from. Spiritual Actualization instead becomes a joyful process of learning how to open ourselves and our manifest forms to hold and become the fullest, most immediate expression of God in every moment of externalized existence.

- In coming to understand our intimate, personal relationship to the true God-force, it is important to understand the basic structure of Primal Order through which we are directly connected to God, so that we may expand ourselves to embody the greatest amount of the God Presence.

- The units of the consciousness of God, Partiki Units, that form the Primal Substance of the Scalar Field that is the Universal Unified Field of Consciousness-Energy, are organized in very specific geometrical and mathematical arrangements. The precise, fixed arrangement of Partiki Units, set by the intelligence of God, forms the Primal Order

or structure of the Unified Field Scalar Grid within which manifestation takes place.

- At the first three levels of externalized creation, which exists as the point of greatest contraction before the full expansion into the non-manifest consciousness field of God, Partiki Units exist in a constant state of fusion: fixed vibration or energy holding. The standing Scalar Field of fixed vibration exists as a field of eternal conscious awareness, the first expression of God's infinite consciousness into externalization. This Field of First Vibration, called the Energy Matrix, exists energetically as a standing field of Inaudible Sound, composed of One Primary Tonal Field called a Resonant Tone, which then internally replicates and divides to form Two Secondary Tonal Fields.

- The Three Primary Tonal Fields of the Energy Matrix represent the Cosmic or Primal Trinity of Consciousness, expressed as a living field of conscious identity in the form of inaudible sound vibration that perpetually translates the internal consciousness of God into externalized expression. The perpetual Primal Trinity of the "Living Sound Stream of God" takes the form of a set of three, concentric spherical vibrating sound domains within which the perceivable creation of externalized light, density, matter, time and biological life occurs.

- The three eternal Primal Consciousness Collectives that form the Primal Sound Fields of the Primal Trinity are called Yanas, which means "of the Yunasai". The word "Yunasai" means "the point of all union" or "God". In earthly creation stories the phrase "In the beginning was the Word (or Void)", and spiritual Trinity concepts, refer to the Trinity of eternal, conscious Primal Sound Tone Fields that are the Energy Matrix.

- The First Yanas Consciousness Collective, which corresponds to the First Primal Tonal Field of the Energy Matrix, is called the Grandeyanas. The First Primal Tonal Field is called the Eckatic Level of the Energy Matrix, and represents the last passage of ascension into full expansion of consciousness and At-one-ment with the consciousness of God. Within the Primal Fields of Light that emerge within the Sound Fields of the Energy Matrix, the Eckatic Tonal Field becomes the first of 3 Primal Light Fields, the Turquoise-Blue Light Field of Dimension 13.

- The Second Yanas Consciousness Collective, which corresponds to the Secondary Primal Tonal Field of the Energy Matrix, is called the Wachayanas. The Second Primary Tonal Field is called the Polaric Level of the Energy Matrix and represents the second to last passage of ascension into full expansion of consciousness and At-one-ment with the consciousness of God. Within the Primal Fields of Light that emerge within the Sound Fields of the Energy Matrix, the Polaric Tonal Field becomes the second of 3 Primal Light Fields, the Pale-Yellow-Silver-White Light Field of Dimension 14.

- The Third Yanas Consciousness Collective, which corresponds to the Third Primal Tonal Field of the Energy Matrix, is called the Ramyanas. The Third Primal Tonal Field is called the Triadic Level of the Energy Matrix, and represents the third to last passage of ascension into full expansion of consciousness and At-one-ment with the consciousness of God. Within the Primal Fields of Light that emerge within the Sound Fields of the Energy Matrix, the Triadic Tonal Field becomes the third of 3 Primal Light Fields, the Pale-Magenta-Violet Light Field of Dimension 15.

- The 3 Yanas Consciousness Collectives that form the 3 Primal Tonal Fields of the Energy Matrix represent the true meaning of the term "Ascended Master". The Yanas represent the first 3 eternal externalizations of the identity of God, and they serve as the foundation conscious energy field within which all light and externalized manifestation take place.

- Collectively the 3 Yanas Collectives are referred to as the Eieyani (meaning "of the Yanas") Council. The Eieyani Council represents the gestalts of eternal consciousness that perpetually seed life into the dimensionalized Light Fields of the Time Matrix. The Eieyani Council is the common source of externalized conscious identity out of which all beings incarnate into life expression in time. The Eieyani Council represents our Cosmic family of Consciousness, from which each individual being in time incarnates to experience space-time-matter and individuation of identity.

- The 3 Tonal Fields of the Energy Matrix, which are the externalized energy-form expression of the Eieyani Council, represent 3 Primal Standing Currents of Living Sound through which manifest creation occurs by the intention and will of God. Collectively, the 3 Primal Living Currents of Sound are called the Khundaray or the "Rainbow Ray". The Khundaray is the Primary Triadic Life Force current of energy and identity, in the form of fixed standing Sound-vibration waves, through which energy and life are seeded into manifestation. It is the Primal "Pillar" of Standing Sound Waves that connects the consciousness of all manifest beings and universes to the eternal conscious energy of God.

- Within and through the Khundaray and Primal Sound Fields of the Energy Matrix, the eternal Light Fields of 15-Dimensional Time Matrices are formed. Each of the 3 Scalar Grids that form the 3 Tonal Fields of the Energy Matrix begins the creation of Light by the process of Primal Fission. The Fused Partiki Units of the Khundaray undergo internal Fission and polarization, replicate and break apart into sets of two, fixed Particum and Partika sub-units of vibration. Due to the intrinsic ratio of vibrational variance between each set of Particum and Partika, which is set by the mathematical program of God's Divine Blueprint, a standing Field of Conscious Light, or spherical electro-magnetic domain of Thermoplasmic light radiation (ante-matter substance), emerges within the

spherical Sound Fields of the Energy Matrix.

- The Standing Field of Conscious Light that emerges within the Sound Fields of the Energy Matrix represent the fields of oscillating, polarized, electro-magnetic conscious energy that form the Primal Order of Time Matrices. Like the Primal Trinity of Sound Fields within which they emerge, the Primal Light Fields are manifest in a set of 3 spherical electromagnetic domains that form the Primal Trinity of Light Currents from which our dimensionalized light spectra emerges.

- Representing the electromagnetic translation of the First Tonal Field of the Eckatic Energy Matrix, the First Light Field manifests as the Turquoise-Blue Primal Light Field, commonly called the Blue or Emerald "Flame". The electromagnetic translation of the Second Tonal Field of the Polaric Energy Matrix, the Second Light Field surrounding the first, manifests as the Pale-yellow-silver-white Primal Light Field, commonly called the Gold "Flame". The electromagnetic translation of the Third Tonal Field of the Triadic Energy Matrix, the Third Light Field surrounding the second, manifests as the Pale-magenta-violet Primal Light Field, commonly called the Violet or Amethyst "Flame".

- The 3 Primal Flames of the Primal Light Field are collectively referred to as the Kee-Ra-ShA. The Kee-Ra-ShA Primal Light Current represents the polarized translation of the Khundaray Primal Sound Current. From the 3 "Flames" (standing light fields) of the Kee-Ra-ShA, the smaller, electromagnetic light currents of the Universal Kundalini Life Force currents emerge, to form the dimensionalized Scalar Grid of a Time Matrix.

- The Emerald Blue Flame of the Eckatic Matrix is the first state of expansion into the dimensionalization of a Time Matrix and represents Dimension-13 in a 15-Dimensional Time Matrix Scale. The Pale Gold Flame of the Polaric Matrix is the second state of expansion into a Time Matrix and represents Dimension-14. The Amethyst Violet Flame of the Triadic Matrix is the third state of expansion into a Time Matrix and represents Dimension-15.

- Just as the Primal Sound Fields of the Khundaray Energy Matrix are composed of 3 living, aware Consciousness Collectives that represent the first externalization of the identity of God, the Primal Light Fields of the Kee-Ra-ShA are also conscious, sentient and alive. Each Kee-Ra-ShA Living Light Field that forms a Time Matrix system is a group of 3 Consciousness Collectives called Breneau (means "of the Light") Rishi (a station of identity). The 3 Breneau Rishi collectives that form a Time Matrix are the massive gestalts of conscious identity from which all individuated identities in that Time Matrix are made manifest.

- The 3 Breneau Rishi in a Time Matrix represent 3 stations of collective identity that are perpetually positioned within, and form the energetic field of, Dimensions 13, 14 and 15. The Breneau Rishi are the Universal Family of Consciousness or common consciousness pool from which all life forms and manifestations in a Time Matrix emerge into space time-matter-density. The dimensions 13-15 Kee-Ra-ShA Living Light Fields represent Density-5 Ante-matter Thermoplasmic Radiation within the 5 Density Levels of a 15-Dimensional Time Matrix scale.

- Within and from the Density-5 Kee-Ra-ShA Living Light Fields of the 3 Breneau Collectives (called Breneau Orders) in a Time Matrix, the 12dimensional Primal Order Scalar Grid that forms space-time-matter reality fields emerges. In every Time Matrix there are 3 Breneau Orders that seed consciousness and life into a Time Matrix experience, on behalf of the intentions of the Yanas Collectives and God.

- The Emerald Order Breneau bring consciousness-energy directly into the Time Matrix from the Eckatic Energy Matrix, the closest level to full expansion into God. The Emerald-Blue Flame Light Field is the polarized translation of the Eckatic Sound Field, which contains the combined Scalar Grids of the Polaric and Triadic Sound Fields. Because the Eckatic Sound Field and Emerald-Blue Light Field contain the Primal Order of Partiki Units out of which both the Gold/Polaric and Amethyst/Triadic Sound/Light Fields emerge, the Emerald Order Breneau hold the pathway to ascension for all forms in a Time Matrix.

The Stair-Step Creation Model

The Stair-Step-Creation Model from the pre-ancient **CDT-Plates** explains the structural organization and internal mechanics of consciousness and energy by and through which manifestation of creation takes place. The Stair-Step Creation Model is the original **Yanas and Breneau Order** teaching paradigm of **Primal Creation Physics** built upon the natural scientific laws of **Universal Unified Field Physics** and their spiritual expression in consciousness within the **Law of ONE**. The Stair-Step Creation Model illustrates the primal mechanics of energy interrelationship by which consciousness enters manifest form as living energetic substance within a unified Source of energy-identity often called "God", to perpetually become the multitudes of individuated expressions of that singular Source made manifest. Knowledge of the Stair-Step Creation Model is indelibly imbued within the energetic foundation of the **Eckatic Energy Matrix** and is held eternally as living knowledge within the awareness of the Yanas Consciousness Collectives eternally stationed in the Energy Matrix within the Mind of God. The Mind of God can be conceptualized as the primal, conscious, intelligent energy-identity Source through and within which all creation eternally exists. The Stair-Step Creation Model includes the teachings of **Keylontic Morphogenetic Science** (matter template mechanics), Universal Unified Field Physics (natural universal laws of energy), **Merkaba** and **Ascension** mechanics and all Law-of-ONE unity consciousness spiritual teachings. Conscious knowledge of the Stair-Step Creation Model allows beings in manifestation the ability to understand and master the natural energetic conditions that directly affect their experienced reality, and provides the framework through which the interrelationships between all things in existence can be functionally understood. The model of Stair-Step Creation is the operational universal paradigm of fundamental spiritual-science mechanics that has been used within advanced stellar race cultures from the higher dimensional fields since the creation of our Time Matrix. This model of Creation Physics was entered into the CDT - Plate records by the **Emerald Order Azurite Priests of UR** and presented as a gift to Earth humans 248,000 years ago as part of the **Emerald Covenant Breneau Co-evolution Agreement**. The Stair-Step Creation Model has been an intrinsic part of human history and evolution since the creation of the original **Turaneusiam** "**Angelic Human**" on Tara 560 million years ago.

Stair-Step Creation is the organic process by and through which Source-God perpetually manifests itself through dimensionalization into individuated manifest expression, for the purpose of experiencing space-time-matter reality. Every being and thing in any manifest reality field comes into being through the process of Stair Step Creation. This organic process of Primal Creation Physics implies that every being, including humans, is directly, energetically and eternally connected to specific, fixed structures of multidimensional energy anatomy, and their corresponding interdimensional stations of conscious identity. Through these structures of multidimensional energy fields, within which the higher dimensional or "spiritual" portions of the personal identity are focused, every being is indelibly connected to the central, unified Source of creation or God. The process of personal evolution through the experiences of space, time and matter has at its core the evolutionary objective of each being, as an individuated manifestation of Source, eventually expanding back into its wholeness AS Source, in return to its natural organic state of being. The natural mechanics of spiritual actualization for any manifest being, as implied by the dynamics of Stair-Step Creation, are the processes by which dormant portions of the **DNA Template** are progressively activated within the biological form. Through activation of the DNA Template, progressive integration of the energy frequencies that make up the dimensionalized levels of the spiritual body and consciousness; which exist as precise arrangements of scalar-standing-waves, is brought into active embodiment within the biologically based conscious awareness. Embodiment of the higher dimensional scalar-wave forms that compose the spiritual identity creates the systematic

transmutation of physical matter density and expansion of individuated consciousness awareness back into its organic energetic state of At-ONE-ment with Source, in a process called Transmutational Dimensional **Ascension**.

Through the model of Stair-Step Creation the underlying nature and mechanics of creation and evolution are revealed, allowing a manifest being the ability to master its experience as a conscious co-creator with Source, and to know itself and all things as manifestations of the **ONE-SELF** that is God. The dynamics of Stair-Step Creation demonstrate the existence of an implied reality of **Primal Order** and purpose. Within this Primal Order it is implied that every being existing in Density-1, such as the life-field on Earth, exists as a part of a larger collective energetic "spiritual" identity structure, the dynamics of which are inherently governed by the natural scientific laws of 15-DimensionalUniversal Unified Field Physics. The Stair-Step Creation model reveals the innate interrelationships between an incarnate being, its personal **15-Dimensional Anatomy** and the greater context of its existence within planetary, galactic, universal and cosmic structure. This model serves to illustrate the relationships between the Macrocosmic and Microcosmic aspects of creation. The dynamics of Stair-Step Creation as expressed within the Microcosm reveal the following characteristics of reality as applied to the existence of individual incarnate life forms.

All incarnate life forms on Earth, including humans, possess as part of their inherent manifest anatomy and nature the following 3-dimensional energy bodies, or **Hova Bodies**, of consciousness, manifest in the form of scalar-standing wave grids, within which is housed the eternal spiritual identity. A Hova Body is a spherical electro-magnetic domain composed of the scalar-wave forms of one set of 3 dimensions, which surrounds and permeates the physically manifest body forming the **15-Dimensional Auric Field** and which holds the eternal consciousness into specific stations of dimensionalized space-time-matter focus. Within a 15-Dimensional Time Matrix, there are 5 Hova Bodies, called the **5 Ariea Hova Bodies**, each representing a specific Harmonic of Matter Density, through which the morphogenetic field scalar template of an individual is indelibly, energetically connected to its race, planetary, galactic and universal morphogenetic field. Beyond the dimensionalized structure of the Time Matrix there are 3 additional Hova Bodies called the **3 Yuseta Hova Bodies**, through which individuals in time are energetically connected to Source-God through the cosmic morphogenetic field. The 8 Hova Bodies, which represent the Primal Order through which individuated consciousness manifests in time, exist in the same space at the same time, as concentric (one inside of the other) spheres of energy. Each of the 5 Hova Bodies in the Time Matrix simultaneously holds a portion of the eternal conscious identity into specific cycles of space-time characteristic to the dimensional fields within which the Hova Body awareness is stationed. The 3 Hova Bodies beyond dimensionalization hold a portion of the individual's conscious identity within the specific eternal fields of living, conscious tonal-vibration that form the Energy Matrix. The tonal-vibration fields of the Energy Matrix represent the first 3 levels of energy-identity individuation within the eternal, living, energy-identity of Source-God.

Each Hova Body serves to energetically connect the individuated incarnate identity to its simultaneous incarnations and to a specific level of the planetary, galactic, universal and cosmic Unified Field of Conscious Energy within which the incarnate exists. The simultaneously existing identity collectives that are stationed within the 8 Hova Bodies of personal anatomy represent the **spiritual portions of personal conscious awareness** and the Race, Planetary, Universal and Cosmic **Families of Consciousness** by which an identity enters individual incarnation in time. The Hova Bodies are the living, energetic structures of consciousness in the form of **Primal Substance** through which the morphogenetic field, inner psyche and DNA Template of an individual incarnate consciousness is eternally and immediately connected to Source-God at all times. An individual incarnate's ability to embody the expanded spiritual levels of awareness stationed as energetic frequency within the 8 Hova Bodies is governed by the mechanics of interdimensional physics as they operate through the DNA Template of the physically manifest form. The 8 Hova Bodies that make up the multidimensional anatomy of a human consciousness incarnate in Density-1 are as follows:

The 8 Hova Bodies

Each singular Breneau identity is one in a set of 12 Breneau, each representing a different vibrational coordinate in the Density-5 scalar-wave field. A set of 12 Breneau collectively form a Geomantic Entity Matrix eternal consciousness collective, or living Time Matrix life-field, within the eternal tonal-vibration fields of the Triadic Energy Matrix beyond density manifestation. The Raja Hova Body holds the gestalt identity of the **Universal Family of Consciousness** and connects the Breneau Rishi collectives to their *Triadic Cosmic Family of Consciousness.*

Triadic Energy Matrix, pre-manifestation non-density or consciousness expressing as inaudible tri-tone sound vibration. Each singular Ramyanas identity is one in a set of 12 Primal Ramyanas, each existing as living primal collectives of consciousness that represent different fixed, tri-tonal vibrations in the Triadic Energy Matrix. Collectively the 12 Primal Ramyanas form a RishA Matrix primal consciousness collective within the eternal tonal fields of vibration of the Polaric Energy Matrix beyond the Triadic Energy Matrix. The Tanotra Hova Body holds the identity gestalt of the **Triadic Cosmic Family of Consciousness** and connects the 12 Ramyanas to their Polaric Cosmic Family of Consciousness.

7. **Di-omni Hova Body-** the bi-polar (possessing 2 core vibrations) Unified Morphogenetic Field of the *Cosmic Polaric Energy Matrix conscious* inaudible Polaric Khundaray tonal-vibration field; holds the consciousness of 12 **RishA Matrices** "Ascended Master Level-2" consciousness collectives. A RishA Matrix is the composite identity of 12 Triadic Energy Matrix Ramyanas expressed as one eternally manifest inaudible primal bi-tonal vibration (one vibration composed of 2 sub-vibrations) that forms the Polaric Energy Matrix, within which the Triadic Energy Matrix tri-tonal vibration consciousness-field is formed. A singular RishA Matrix identity is called a **Wachayanas**. Corresponds to the **"Gold Flame" Polaric Khundaray** bi-tonal vibrational field of the Polaric Energy Matrix, pre-manifestation non-density or consciousness expressing as inaudible bi-tone Sound vibration. Each singular Wachayanas identity is one in a set *of* 12 Primal Wachayanas, each existing as living primal collectives of consciousness that represent different fixed, bi-tonal vibrations in the Polaric Energy Matrix. Collectively the 12 Primal Wachayanas and 12 Primal Ramyanas form the one Eckah Matrix primal consciousness collective, which manifests as the one omni-tonal vibration that forms the cosmic unified field of the Eckatic Energy Matrix. The Di-omni Hova Body holds the identity gestalt of the **Polaric Cosmic Family of Consciousness** and connects the 12 Wachayanas to the one Eckatic Cosmic Family of Consciousness.

8. **Prima Hova Body-** the omni-polar (possessing one core vibration and the potentialities for all vibration) Unified Morphogenetic Field of the *Cosmic Eckatic Energy Matrix* conscious Eckatic Khundaray tonal-vibration field; holds the unified consciousness of the one **Eckah Matrix** "Ascended Master Level-3" consciousness collective (12 Wachayanas and 12 Ramyanas, or the "24 Cosmic Seeds"), through which the Energy Matrix manifests within the Mind of Source-God. The Eckah Matrix consciousness collective is the composite identity of the 12 Triadic Energy Matrix Ramyanas and 12 Polaric Energy Matrix Wachayanas expressed as one eternally manifest omni-tonal vibration (one primal vibration containing all others), which expresses as the Eckatic Primal Energy Matrix. The singular Eckah Matrix identity is called the Ah-hA-yanas or **Grandeyanas**. Corresponds to the omni-tonal vibrational field of the Eckatic Energy Matrix, pre-manifestation non-density or the consciousness of God-Source expressing as one inaudible sound vibration. The singular Grandeyanas exists as an eternal, living primal collective of consciousness that expresses as the one eternal Sound vibration that forms the Eckatic Energy Matrix. The Eckatic Energy Matrix is the first, eternal expression of inaudible sound vibration and identity individuation that perpetually exists within the eternal Void of non-manifest Primal Creation Urge that is the Mind of Source-God. The Mind of God exists as a perpetual expression of the Heart of God, the living, feeling, intelligent, sentient field of eternal conscious awareness within which all existence takes place and through which all things manifest as living expressions of the Eternal Consciousness of God. The Prima Hova Body holds the identity gestalt of the **Eckatic Cosmic Family of Consciousness** and connects the singular *Grandeyanas* to Source-God Consciousness.

The 8 Hova Bodies of personal multidimensional anatomy represent the Microcosmic expression of Universal Creation Physics as illustrated within the Stair-Step Creation Model. Planets, stars, galaxies and universes also have this inherent 8 Hova Body structure, which represents the multidimensional morphogenetic field or **Manifestation Template** through which stellar bodies and biological life forms manifest in time. Through the 8 Hova Body structure, Microcosmic and Macrocosmic life fields are intimately interconnected and intertwined, forming a Universal Unified Field of Consciousness expressed in the form of aware-ized energy, through which consciousness can perceive itself in objectification. In the manifestation process inherent to Stair-Step Creation, the entire Primal Substance of the universe itself is a conscious, living manifestation of the Omnipresent identity of Source-God, expressed in the form of

energetic thought constructions, and thus all things manifest are living expressions of the identity of God. Scientific understanding of the laws of universal physics inherent to the Stair-Step Creation process allows us to spiritually comprehend that God is not a far-distant, or perhaps "dead", patriarchal authoritarian creator that "once upon a time created us". The living fields of specifically ordered energy, through which a central Source-God expresses ITS consciousness in the form of manifestation, show us that God is a living Omnipresent Spirit that perpetually manifests as and moves through all things at all times, and that creation itself is continually and perpetually occurring. God is both manifest and non-manifest simultaneously; IT expresses as a spiritual reality of consciousness and simultaneously this expression exists as the true natural laws and eternal dynamics of energetic **Creation Physics**.

The scientific dynamics of Stair-Step Creation imply the spiritual condition that God resides within and expresses directly through the human being, and exists within every manifest and non-manifest form in the exterior and interior worlds. It also implies that the worlds of external perception and finite being are not the "real" reality, but rather thought-form constructs that appear to be real to individuated portions of God's eternal consciousness that are ensconced within them. In truth, these objectified worlds of form represent a holographic playground, contained within the creative mind of Source-God, which is the only real reality, through which God-as-living-consciousness expresses its desire to know and explore IT self AS infinite forms of creation. **God IS all things**. Through demonstrating the spiritual and scientific union of all things, the Stair-Step Creation model also implies that everyone and everything belongs, and has a rightful place of honor and due respect, within this ONENESS of creation. **Things and beings that appear and behave in ways which appear most evil and ungodly are the portions of God-expressed that have most fully forgotten the true nature of their identity and heritage within the ONENESS that is God**. Therefore, "evil" is an untruth, a non-reality, for that which appears evil is instead simply ignorant to the truth of being AS a living expression of the identity of God. **That which appears as evil requires healing and a return to its remembrance of its reality AS God, within a universe that IS God. Evil/ignorance must be stilled and turned to face itself and the product of its deeds; only then can it see where it is lacking, and only then will it seek the healing that comes through embracing its own salvation, in return to its primal truth of co-creative ONENESS**. The Stair-Step Creation model illustrates the tangibility of this ONENESS of spirit and reveals the science of multidimensional energy dynamics and the manifestation processes of Primal Order through which this ONENESS can be reawakened within the individual.

The Khundara, Kee-Ra-ShA, Yanas and Breneau

On the macrocosmic level, the manifestation process that takes place through the Primal Order of the 8 Hova Body structure transforms consciousness from a singular, intelligent, living Source-God of creation first into a living field of inaudible tonal sound vibration (3 vibratory levels of the Energy Matrix), God AS Sound (the Yanas' Khundaray Primal Living Sound Field Current). From this eternal field of Sound, a living field of conscious, invisible light radiation in the form of Thermoplasmic Ante-matter scalar-wave spectra emerges (Density-5; dimensions 13-15). God AS Light (the Breneau's Kee-Ra-ShA Primal Light Field Current). From this foundation of God expressing within IT self as living sound and light, portions of God's ONE consciousness individuate and enter a progression into matter density, space and time (dimensions 1-12), to engage the experiential reality of manifest existence. Progression into matter density and the experience of linear passage through time and space are created through the "stepping down" of a portion of God's consciousness into a descending vibrational progression, through which individuation of identity, and the experience of God knowing IT self through objectification, occurs. Through the descending vibrational progression into manifestation, God's consciousness first expresses AS the primal structures of living sound vibration and light radiation, through which the electro-magnetic energy foundation structures for cosmic manifestation are set.

Individuation of God into manifest expression takes place through progressive isolation of portions of God's identity, within the limitless expanse of ITSELF. Portions of God's consciousness, in the form of units of tonal vibration called Partiki, are isolated within the greater Whole. These Partiki Unit primal vibrations are then placed into energetic interrelationship with each other, to form geometrical arrangements of conscious energy that set the vibrational framework within which the perceivable experience of identity individuation and objectified manifestation can be known. The first individuated projection of God's identity, which exists as a singular Partiki unit vibration, an

inaudible **Resonant Tone** fixed sound vibration (The First Cause Sound) within the consciousness of God, is the called the **Eckah** or "**Monadic Wave**". (A Resonant Tone is a middle range standing-wave vibration made up of a slow moving Base Tone and faster-moving Over Tone standing-wave vibrations.) The Eckah, a conscious inaudible, spherical standing sound wave that exists within the consciousness field of God, is the first manifest expression of God's consciousness in individuation. The singular Eckah unit vibration forms the eternal consciousness field of the Prima Hova Body (8e' Hova Body in ascending order) that is the omni-polar (possessing one core vibration and the potentialities for all vibration) Unified Morphogenetic Field of the **Cosmic Eckatic Energy Matrix**. The *Eckatic Energy Matrix* formed by the Eckah is called the **Emerald-Blue Flame Tone. The Emerald-Blue Flame Tone is the standing-spherical-sound-wave field of conscious energy-identity that is the first of 3 Khundaray Primal Sound Creation Currents through which the 3 Kee-Ra-ShA Primal Light Creation Currents** of dimensions 15, 14 and 13 manifest.

The Eckah Emerald-Blue Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density-5, dimension-13 pale blue-silver-green or "Emerald Blue" "**Eckatic Blue Flame**". The Eckatic Blue Flame is the first of 3 spherical scalar-standing-wave fields of living conscious energy-identity expressed in the form of Light radiation, which collectively make up the spherical electro-magnetic light-sound domain of the **Kee-Ra-ShA**. The 3 Kee-Ra-ShA eternal scalar-standing-wave fields of bi-polar conscious light are the *3 Primal Light Creation Currents* of dimensions 13, 14 and 15, through which the dimensionalized **Universal Kundalini** electro-magnetic wave-spectra of 15-dimensional Time Matrices and their life fields emerge. The Eckatic Blue Flame represents the **First Cause Light** that emerges into manifestation as dimension 13 of the Time Matrix from the Eckah Blue Flame Tone of **First Cause Sound** in the Eckatic Energy Matrix. The Eckatic Energy Matrix is a living, inaudible sound-field of conscious identity that refers to itself as the Aha-hA-yanas or *Grandeyanas* (pronounced gran-dA-yon-us). The singular Blue Flame sound-tone of the Eckah Grandeyanas identity is translated into audible sound as "rah" or **Ra**. In some spiritual traditions this inaudible tone has been referred to as "the sound of the in-breath and out-breath of God". **The audible sound translation of the "Ra" Eckatic Blue Flame sound-tone as it is spoken in our Time Matrix is** *Melchizedek* (pronounced mel-kiz'-e-dek) or **Mel-chaz-edak . This tonal energy signature denotes the composite tonal translation of the Ra Blue Flame Tone as it manifests through the scalar-wave configurations unique to the manifestation template for the specific 15-Dimensional Time Matrix within which Earth, Tara and Gaia reside. The true meaning of the word Melchizedek refers specifically to the Eckah Grandeyanas collective of the Eckatic Energy Matrix, the conscious Unified Field of energy-identity through which all things in our Time Matrix are manifested and energetically connected to the Source-God consciousness field.**

The second and third individuated projections of God's identity exist as two Partiki unit tonal-vibration fields, one faster-moving **Over Tone** and one slower-moving **Base Tone** inaudible fixed sound-vibration field, formed within the Eckatic Energy Matrix through polarizing the original singular Eckah Blue Wave Tone spherical vibrational field. The second and third steps of individuation within God occur simultaneously as the singular Partiki Unit tonal-vibration field of the Eckah Grandeyanas identity Blue Flame Tone polarizes within itself. Polarization of the singular Eckah spherical standing sound-vibration creates 2 sets of 12 conscious Partiki Unit tonal-vibration fields called **Yanas** consciousness gestalts or the "**24 Cosmic Seeds**" (sometimes called the "24 God-Seeds"). The Yanas gestalt consciousness-field that forms the faster-vibrating Over Tone portion of the bi-polarized Eckah tone, which most closely matches the original Blue Flame Tone Eckah vibration, forms the eternal consciousness field of the Di-Omni Hova Body (7`i' Hova Body in *ascending* order). The DI-Omni Hova Body is the bi-polar (possessing 2 core vibrations) Unified Morphogenetic Field of the **Cosmic Polaric Energy Matrix**. Each of the 12 "Cosmic Seeds" that form the Polaric Energy Matrix is called a **RishA** or RishA Matrix. The Polaric Energy Matrix, formed by the 12 Over Tone RIshA Matrix gestalts, is called the **Gold Flame Tone. The Gold Flame Tone is the standing-spherical-sound-wave field of conscious energy-identity that is the second of 3 Khundaray Primal Sound Creation Currents through which the 3 Kee-Ra-ShA Primal Light Creation Currents** of dimensions 15, 14 and 13 manifest. The Gold Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density-5, dimension-14 pale yellow-white-silver or "Golden" "**Polaric Gold Flame** ". The Polaric Gold Flame is the second of 3 spherical scalar-standing-wave fields of living, conscious energy-identity expressed in the form of Light radiation, which collectively

make up the spherical electro-magnetic light-sound domain of the 3 Kee-Ra-ShA Primal Light Creation Currents. The Polaric Gold Flame emerges into manifestation as dimension-13 from the Polaric Gold Flame Tone in the Polaric Energy Matrix. The Polaric Energy Matrix is a living inaudible sound-field of conscious identity that refers to itself as the **Wachayanas** (pronounced Wa-sha-yon-us); each of the 12 RishA Matrices that form the Wachayanas Polaric Energy Matrix are called **Wachayana**. The collective Gold Flame sound-tone of the Wachayanas identity is translated into audible sound as "**Da**".

The Yanas gestalt consciousness-field that forms the slower-vibrating **Base Tone** portion of the bi-polarized Eckah tone forms the eternal consciousness field of the Tanotra Hova Body (6th Hova Body in ascending order). The Tanotra Hova Body is the tri-polar (possessing 3 core vibrations) Unified Morphogenetic Field of the **Cosmic Triadic Energy Matrix**. Each of the 12 "Cosmic Seeds" that form the Triadic Energy Matrix is called a **Geomantic Entity** or Entity Matrix. The Triadic Energy Matrix, formed by the 12 Base Tone Entity Matrix gestalts, is called the **Amethyst or Violet Flame Tone. The Violet Flame Tone is the standing-spherical-sound-wave field of conscious energy identity that is the third of 3 Khundaray Primal Sound Creation Currents** through which the 3 Kee-Ra-ShA Primal Light Creation Currents of dimensions 15, 14 and 13 manifest. The Violet Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density-5, dimension-15 pale magenta-violet-white or "Violet" "**Triadic Violet Flame**". The Triadic Violet Flame is the third of 3 spherical scalar-standing-wave fields of living, conscious energy-identity expressed in the form of Light radiation, which collectively make up the spherical electromagnetic light-sound domain of the 3 Kee-Ra-ShA Primal Light Creation Currents. The Triadic Violet Flame emerges into manifestation as dimension-15 from the Triadic Violet Flame Tone in the Triadic Energy Matrix. The Triadic Energy Matrix is a living inaudible sound-field of conscious identity that refers to itself as the **Ramyanas** (pronounced Rom-yon-us); each of the 12 Entity Matrices that form the Ramyanas Triadic Energy Matrix is called **Ramyana**. The collective Violet Flame sound-tone of the Ramyanas identity is translated into audible sound as "**khU**" or **HU**. The Ramyanas collective is sometimes referred to as the **Kahunas** (ka-hoo'-nas) or Kahuna (ka-hoo'-na), denoting the tonal signature of the "***kh U* Yanas**".

Together the Grandeyanas gestalt, the Wachayanas gestalt, and the Ramyanas gestalt form the spherical, inaudible sound-wave fields of conscious, living energy-identity that are the 3 Primal Sound Creation Currents of the Eckatic, Polaric and Triadic Energy Matrices, within and through which all manifestation occurs. **Collectively, the 3 Primal Sound Creation Currents of the Energy Matrix are called the KhU-Da-Ra, denoting, in ascending order, the collective audible sound translation of their primary sound-tone vibration. The Khu-Da-Ra has become known as the "Khundaray" (Kun-da-rA) or "Rainbow Ray", the spherical "standing pillar" or "Ray of First Cause Sound" from which the "rainbow" of First Cause Light, the Blue, Gold and Violet Flames of the Kee-Ra-ShA 3 Primary Light Creation Currents, emerge into manifestation**. The Khundaray is composed of Primal Substance Partiki Unit arrangements that collectively form a fixed, Partiki scalar-standing-wave field of inaudible sound vibration, which manifests as a set of 3 concentric spheres, the 6th-8th Hova Bodies (ascending order) in the Stair-Step Creation Model. Collectively, the 12 Wachayanas Gold Flame Tone Polaric RishA gestalts of the DI-Omni Hova Body and the 12 Ramyanas Violet Flame Tone Triadic Entity gestalts of the Tanotra Hova Body (the 24 "God-Seeds") within the Grandeyanas Blue Flame Tone Eckatic Eckah gestalt of the Prima Hova Body are called the **Yanas Council** or "**The Council of 24 Elders**". The Grandeyanas, Wachayanas and Ramyanas gestalts together are referred to as the Eieyani (pronounced E-yon'-E), the **Eieyani Council** or sometimes as the **KhundarA** (pronounced Kun-dar'-A) or "**Rainbow Makers**" eternal Ascended Masters collectives. Beings manifest in the Time Matrix, who incarnated directly from the Yanas Ascended Master levels of the Energy Matrix (Type 1 "Indigo Children"), and those whose DNA Template can carry the spectrum of the Khundaray sub-harmonics (Types 1 and 2 Indigo Children) are also referred to as the **Eieyani Council**, the "**Rainbow Wearers**" and sometimes the **Khundar'A**. The Eieyani Council of the Energy Matrix exists as the eternal, living, conscious Cosmic Manifestation Template that IS the Energy Matrix. The Energy Matrix represents the **Eternal Field of First Cause Sound**, or God's identity first expressed in the form of an eternal standing-wave field of inaudible sound-vibration.

The 3 Primal Sound Creation Currents of the Khundaray further break down and polarize (separate in vibration) to form the **3 Primal Light Creation Currents**, the Eckatic Blue Flame, Polaric Gold Flame and Triadic Violet Flame,

which are collectively called the **Kee-Ra-ShA**. The Kee-Ra-ShA is the spherical "standing pillar" or "**Ray of First Cause Light**" that forms dimensions 13-15, which represents the first manifestation level of 15-dimensional Time Matrix systems. The Kee-Ra-ShA **Thermoplasmic Light Field** (silica-gas light radiation) is the **first level of matter manifestation**, within which portions of the scalar-standing-sound-waves of the Khundaray begin a process of **internal fission and fusion** within the Partiki Units that compose them. Through a perpetual, repeating cycle of vibrational variance, set in motion by specific primal mathematical/ geometrical interrelationships between Partiki Units, fission and fusion within Partiki Units begins; this process is called **Partiki Phasing**. In internal Partiki fission, the whole Partiki Unit vibration separates into **12 sub-vibrations**; the 12 sub-vibrations manifest as **6 pairs of bi-polar scalar-standing-sound-waves** that **expand and contract** following a specific syncopated rhythm. In each of the 6 pairs of syncopated standing-sound waves, one wave-form expands (polarizes in fission, releasing a burst of thermoplasmic light radiation, then replicates the original Partiki sound vibration), while the other wave-form contracts (returns in fusion to the replicate of the original Partiki sound vibration) at a specific mathematical ratio to the expansion. This dynamic of perpetual energy exchange within fixed groupings of Partiki Units creates a repeating cycle of vibrational variance and energetic exchange between each pair of polarized primal sound waves. As one wave in a polarized pair expands via fission into accelerated movement, creating **oscillation** or **external projection /expansion** of energy radiation, its counterpart wave reciprocally **contracts** via fusion, creating **vibration** or **internal holding** of energy radiation within the replicate of the original whole wave. This dynamic of energetic expansion and contraction that results from internal Partiki fission and fusion creates the base energetic tension between Partiki Units through which **primal electrical and magnetic force** and the Ante-matter **Thermoplasmic Templates** for **Particle and Anti-particle pairs** emerge. In simple terms, the 3 Primal Sound Currents of the Khundaray are perpetually transmuted into the 3 Primal Light Currents of the Kee-Ra-ShA and back to sound again, through the intrinsic dynamics of Partiki Phasing. **Sound becomes light becomes sound becomes light etc., forming the simultaneously co-existent, reciprocally expanding and contracting Primal Sound and Light Fields that serve as the foundation for Perpetual Motion Universes**.

The Kee-Ra-ShA 3 Primal Light Fields are often called the "**Um Shaddai Ur**" ("Pillar of First Cause Light") or the "**Holographic Beam**", from which the 12 dimensionalized scalar-standing-wave fields, or the "**12 Rays**" of the **Universal Kundalini Life Force Currents** (the Density-4 Maharata and Densities 1-3 Antahkarana), which form dimensions 1-12 of our Time Matrix, emerge. Like the Khundaray First Cause Sound Field Currents, the Kee-Ra-ShA First Cause Light Field Currents are composed of **Primal Substance Partiki Unit arrangements** that collectively form a fixed, **Partiki** scalar-standing-wave field. The scalar-standing-wave field, or Partiki Grid, of the Kee-Ra-ShA exists as an eternal scalar-field of invisible, pale silver-emerald-Blue, pale silver-white-Gold and pale silver-white magenta-Violet Thermoplasmic light radiation, which collectively manifest as a spherical standing-wave of conscious, Living Light within the Khundaray spherical scalar-wave sound field. The Kee-Ra-ShA forms the spherical, electromagnetic domain of the Raja Hova Body, the 5th of 8 Hova Bodies (ascending order) in the Stair-Step Creation model.

The sound-light (vibration-radiation) scalar-standing waves grids of the Khundaray Primal Sound Field and Kee-Ra-ShA Primal Light Field are formed upon precise mathematical/ geometrical arrangements of Partiki units that represent the core formation of energy, or **primal tonal-vibration blueprint**, upon which Universal, Galactic, Planetary and species **Manifestation Templates, Kathara Grids and Templar Complexes** are created. In macrocosmic terms, manifestation templates built upon the tonal-wave structure of the Khundaray and Kee-Ra-ShA are the core arrangements of conscious Partiki units that form the multidimensional energy-grid template, or Universal **Kathara Grid and Templar Complex**, upon which universal, galactic and planetary bodies are formed. In microcosmic terms, species manifestation templates, built upon the tonal-wave structure of the Khundaray and Kee--Ra-ShA, are the core arrangements of energy units that form the **DNA Template** through which the consciousness embodies and upon which the physical genetic code and tangible molecular structure emerge. **Though the knowledge of Creation Physics presented in the Stair-Step Creation Model of the CDT-Plates is extensive and complex, the foundations of understanding the nature of Creator, Creation and Created can be found through rudimentary applications of the Stair-Step Creation Model**. Through this model we learn that all beings originally

emerge into the manifest experience of space-time-matter through individuation of a singular Source of Conscious Identity or God. In the Stair-Step Creation model, the term "**Yunasai**" (pronounced Un'-a-sI) or "**Singular Point of ALL Union**", is used to describe the energetic reality and conscious identity of the singular Creative Source that on Earth we call "**God**". Through this model we learn the secrets of the Cosmic, Universal, Galactic, Planetary and Personal **Kathara Grid Manifestation Templates**, and mechanics of the **Primal Life Force Currents** and the **Templar Complexes** (energy systems) built upon them. By unraveling the mysteries of the Stair-Step Creation Model we are progressively empowered to understand and eventually master our personal relationship to ourselves, our universe and to God.

☆ What is our relationship to Universal Order?

- **The core templates of manifestation are called Kathara Grids and the living systems of divine energy expression that come to life through the Kathara Grid structure are called the Templar Complexes.**
- Every being incarnate in time is directly and energetically connected to the infinite conscious-energy field of God at every moment through the Scalar Grid electromagnetic light-sound structures of the 15 Dimensional Time Matrix and the 3 Levels of the Energy Matrix Sound Fields. The core mathematical/ geometrical organization upon which the Scalar Fields of the Energy and Time Matrices form is called the Kathara Grid.
- A Kathara Grid is the Core Template of Scalar Frequency upon which the Scalar Fields of the Energy and Time Matrices manifest. Every form, from the macrocosm to the microcosm, enters manifestation through the core foundation of the Kathara Grid. From the common core mathematical template of the Kathara Grid, upon which everything in manifestation is structured, diversification of form is then built up by variation of the mathematical and geometrical relationships within the Scalar Template of a form.
- The Kathara Grid mathematical program can be clearly illustrated in the diagram of a 12-pointed grid. In ancient Kaballah texts part of the Kathara Grid was represented within the diagram that became known as the "Tree of Life". Unlike the Kaballahistic diagram, a true Kathara Grid has 12, rather than 10 or 11 primary points.
- Each of the 12 points on a Kathara Grid, called Signets or Kathara Centers, exists as a point of consolidated frequency, or a condensed grouping of Scalar waves formed from the Partiki Unit arrangement of each of 12 dimensional fields. Each Signet represents a form's first entry point or "frequency anchor" into each one of the 12 dimensional fields that form the Pre-matter to Gross matter Density Levels 1 through 4.
- Through the Kathara Grid's 12 points of consolidated frequency, consciousness from the Density-5 Breneau Collectives anchors into the Dimension-12 Maharic Template, then proceeds into individuation by progressively anchoring its energy into each of lower 11 dimensional fields via combining with the Primal Life Force Currents of the Maharata and Antahkarana. The type of form the incarnating consciousness will take on is determined by the Density-5 Breneau Orders' intention.

- Using the core mathematical template of the Kathara Grid, the Breneau Orders literally incarnate portions of the quantity of their energy-identity into the lower density fields in a multitude of form combinations, to create galaxies, planetary systems and the life fields that will inhabit these systems.
- The Kathara Grid 12-point diagram serves as a map to understanding the core energetic relationships between the 12-Dimensions of energy that exist between the Density Levels 1 through 4, and also in understanding the relationships of energy between Dimension-13 and the 3 Levels of the Energy Matrix structure.
- The Kathara Grid is expressed on the macrocosmic level as 2 interconnected 12-point Kathara Grids. The first 12-point Kathara Grid, called the Cosmic Kathara Grid, consists of 3 points of consolidated frequency anchored in each of the 3 Levels of the Energy Matrix and 3 other points anchored within Dimensions 13-15. The second 12-point Kathara Grid, called the Universal Kathara Grid, consists of 12 points of consolidated frequency anchored in dimensions 1 through 12.
- The 24 points of the Cosmic and Universal Kathara Grids represent the primary path of transmission for the Khundaray, Kee-Ra-ShA, Maharata and Antahkarana, as these living Primal Life Force Currents enter the fields of manifestation within the Time Matrix. Just as there is a cosmic and universal Kathara Grid, there are also smaller Kathara Grids within them, through which galaxies, planets and individual beings enter manifestation. The Kathara Grid is also the core scalar template upon which the 15-dimensional human anatomy is built.
- Through the innate structure of Kathara Grid, every being is, at all times, directly and energetically connected to its planet, galaxy, universe, the cosmos and God. The word "Kathara" means Light (KA) Sound (THA)-One (RA) in the first auditory language, the Lyran Anuhazi Founders Race language of Density-4.
- The Primal Life Force currents, that breathe life and consciousness to all manifest forms, perpetually enter the Time Matrix and Density Levels through the core 12-point Kathara Grid structure. The 12-point Kathara Grid represents Level-1 of the Kathara Grid. From this core template of fixed frequency points, the outer levels of the Kathara Grid form, adding variation and individuation to the blueprint of form as designated by the mathematical instructions imbued into the form by the Breneau who created it.
- The Primal Life Force Currents follow the path of manifestation set by Level-1 Kathara Grid and the outer levels of the Kathara Grid template, progressively filling out the blueprint of scalar waves upon which particles and anti-particles from the various Density Levels accrete to fill the form out into manifestation.
- The intricate network of synchronistically organized energy structures within the manifestation template of a cosmos, universe, planet or individual is collectively referred to as a Templar Complex or "the Templar" of the form. The word "Templar" refers to "Template-Pillar"; the "template" of the Kathara Grid and the "pillar" of light and sound

emanating through the template from the Primal Life Force Currents. (The word "Templar" existed long before the "Knights Templar" of medieval times; use of this word in relation to the Knights was adopted as it symbolized their quest for gaining control over Earth's Planetary Templar Complex.)

- The key to mechanics of any Templar Complex is the core 12-Point Kathara Grid upon which it is structured. The 12-point Kathara Grid is the key to the Templar, both within the human body and the universe.
- The 12 Signets or Kathara Centers of the Universal Templar Complex, that connects the energy systems in our 15-Dimensional Time Matrix, represent a system of energy points that connect 4 of the 5 Density Levels through 12 of 15 dimensions. Each Signet Point of the Universal Templar represents one of 12 Primary Star Gates that span the galactic systems of 12 dimensions in our Time Matrix. The 12 Universal Templar Star Gates are: 1. Pegasus, 2. Theta-Trapezium "Orion's Sword", 3. Earth, 4. Sun, 5. Alcyone-Pleiades, 6. Sirius B, 7. Arcturus, 8. "Orion's Belt"-Mintaka, 9. Andromeda, 10. Lyra-Vega, 11. Lyra-Aveyon and 12. Lyra-Aramatena.
- Earth's Planetary Templar is also composed of 12 Signet Points. The Signet Points of Earth's Templar connect Earth and its Time Cycle in Density-1 to its counterpart planets in Densities 2-4. The first 3 Signet Point Star Gates of Earth's Templar are located on geographical regions of Earth. They represent the 3 Primary Control Sites of the Planetary Templar Complex, and control the function of all organic energy systems on Earth (Ley Lines, Axiatonal Lines, Vortices, etc.). Signets 4, 5 and 6 of Earth's Templar are located in Density-2, on Earth's Density-2 counterpart planet Tara (region of Pleiades). Signets 7, 8 and 9 of Earth's Templar are located on Earth's Density-3 counterpart planet Gaia (region of Polaris, the "North Star"). Signets 10, 11 and 12 of Earth's Templar are located in an area of outer space where Earth's Density-4 counterpart Pre-matter planet called Aramatena once existed, before it was destroyed (region of Lyra).
- In the Universal Templar Complex, the 12 Signet Star Gates periodically enter an opening cycle, during which time higher frequency energies from the higher dimensional Universal Life Force Currents enter and refuel the Density systems below. During Star Gate opening cycles passage can be made from the lower dimensional Time Cycles to the Time Cycles of the higher dimensional Densities in a process called Dimensional Ascension. The opening cycle of the Star Gates in the Universal Templar Complex is called a Stellar Activations Cycle.
- During Stellar Activation Cycles, Earth's Planetary Templar Complex comes into activation to receive the influx of interdimensional stellar frequencies emanating through the Universal Templar Complex star gates. The star gate system of Earth's Planetary Templar Complex is called the Halls of Amenti. During periods on Earth when Stellar Activations Cycles do not occur, Earth's Templar runs the base Density-1 energies of dimensions 1, 2 and 3 through Earth's grids, creating the base energy distribution that

generates electrical and magnetic forces on the planet. If Earth's Templar is operating correctly, and there are civilizations on planet that are capable of conducting the mechanics of manual Templar activation, Earth's Halls of Amenti star gates can be manually opened and closed to make interdimensional energies available for use in global free energy systems. Earth's Templar has not been functioning properly for the last 210,216 years, but is presently under repair to accommodate the 2000-2017 Stellar Activations Cycle.

- The Planetary Templar Complex has a direct bearing upon the evolution of all life forms on the planet. Every organism, including humans, has an Inner Templar Complex upon which the physical and energetic anatomy is built. Within the Inner Templar Complex, each of the 12 Signet points of the embodied Kathara Grid corresponds to 1 of 12 DNA Strand Templates, the scalar-wave blueprints upon which the manifest DNA emerges. The Life Force currents running through the Planetary Templar run through the Inner Templar Complex of living organisms, feeding life force energy into the individuated body forms to sustain the physical incarnation of the consciousness within the planetary life field. Just as within the macrocosmic Templars, the microcosmic embodied Inner Templar and Kathara Grid regulate the flow of consciousness and Primal Life Force energies through the physical, emotional, mental and spiritual body systems. If the Planetary Templar is not functioning properly, the natural processes of individual evolution and spiritual actualization are impeded via reciprocal distortions of the Inner Templar.

- If we can begin to develop a basic understanding of the interconnected structure of our personal bodies and consciousness in relation to the planet, the galaxies, the universe and God, we will be well on our way to the goal of spiritual actualization. More so, if we begin to understand the we are a living part of a living Unified Field of Conscious Energy, which we can interact with consciously and directly, our self- concepts, abilities, view of reality and cultural systems built on this view will change.

- Understanding our connection to the universe and to the REAL intrinsic God-force intelligence that exists within all things, rather than believing and giving our power to externalized personifications of false control agenda godlets, will allow us to create a world more fully reflective of Divine Right Order. When we understand the truth of our spiritual and physical connection to the universe, we will seek to embody and make manifest the divinity, power, reverence and love that IS the nature of Universal Order and God. The key to understanding the nature of ourselves, the Universe and God is the Templar; it is through the intrinsic structure of the Templar Complexes that God creates Universal Order and individuates portions of ITs identity to become all things manifest, including you and me.

- If we allow ourselves to reclaim our heritage of the knowledge of Templar, which was gifted to us on behalf of God's wishes with the CDT-Plates 248,000 years ago, we can begin to reclaim the legacy for which the human race was originally created. Knowledge

of the Templar is intended to be applied in accordance with the natural spiritual and scientific laws of Unified Field Physics and the respectful and cooperative, rather then competitive, Unity Consciousness that is embodied with the Law of ONE.

- On the personal level, the embodied Internal Templar Complex and its Kathara Grid template control and direct everything. The manifestation and function of the Auric Field, Chakra System, Axiatonal and Meridian Lines, the embodied Kundalini Life Force Currents and the DNA Template of the subtle-energy anatomy and every physical process within the body and consciousness are governed by the Inner Templar.
- The Internal Templar governs the processes of spiritual actualization via the DNA Template and Kundalini Currents, which run from the base of the spine to the Pineal Gland in the brain to form the Central Vertical electromagnetic current that runs the body and fuels the consciousness. Distortions in the templates of the DNA create malfunction of the Kundalini and block the natural integration process of embodying the higher dimensional spiritual consciousness of the Soul and higher identity stations. The Inner Templar directly governs the health of the body, mind and spirit; all manifestations of disease have their origins in the Inner Templar and core Kathara Template distortion.
- On the global level, understanding of Earth's Planetary Templar Complex and its connection to the personal Inner Templar and DNA Template is the key to comprehending what is taking place and what needs to be done on Earth between 2000-2017.
- Because of the connection between the personal and Planetary Templar Complexes, human beings can directly influence the energetic mechanics of Planetary Templar activity. When dormant strands of the human DNA Template are brought into activation through re-genesis of the original Angelic Human 12-Strand DNA Template, when activated properly, the human DNA Template is capable of anchoring and running the Universal Life Force Currents of the Antahkarana, Maharata, Kee-Ra-ShA and Khundaray directly into the Kathara Grid of the Planetary Templar. Between 2000-2017, activating this dormant human potential will make the difference between the survival or extinction of our race.

The Maji Grail Line Angelic Human Heritage

- Our **mystical teachings and religions** of today emerged from the distant past of the **Pre-Atlantian era.** Mystical and religious teachings have covertly directed evolving humanity toward **very specific objectives**: objectives pertaining to a **Hidden Sacred Mission of Planetary Guardianship** that the **Angelic Human race** was seeded on Earth to fulfill. Originally all mystical and religious teachings were intended to guide us toward fulfillment of this Sacred Mission, but due to **intentional distortions** of Sacred Spiritual-Science texts many of the ancient spiritual education systems now mislead humanity into creating the **opposite** of what our original Sacred Mission intended.

- In exploring the realities of our ancient "**Forbidden History**" we rediscover the **true origins and nature** of the **Angelic Human race.** In rediscovering our true origins and nature we reclaim our memory of the original **Sacred Mission of Planetary Guardianship** that our race has come to Earth to fulfill and the **methods of Divine Spiritual-Science Mechanics** by which our Sacred Mission can be successfully accomplished.

- The keys to understanding our **present-time global drama** are hidden within the ancient **Secrets of Lemurian and Atlantian civilization.** To understand the significance of the Lemurian and Atlantian Empires of the more recent past, we need to move **further back in time** to the initial civilizations of **12-Tribes Angelic Human Seeding-3**, the origins of the present Angelic Human race. Through knowledge of our origins we will rediscover what our race came to Earth to accomplish. Identifying the **Original Divine Objective** of the Angelic Human race will enable us to examine spiritual and mystical creeds more clearly, with an eye toward **differentiating between** what leads us **toward** or **away** from our race's **Original Divine Objective**.

The Keys to Effective Action Today are held within the Secrets of our Pre-Lemurian-Atlantian origins, through which our race's Original Divine Objective and the methods of its accomplishment are rediscovered.

The Azurites, IAFW, Oraphim-Angelic Human, MC Priests of UR and Indigo Child Eieyani Grail Line

Throughout the long history of the Founder Race "**Angelic Wars" 250 billion-570 million years ago**, the Emerald Order Elohei-Elohim **Anuhazi** Feline-hominids, Gold Order Seraphei-Seraphim **Cerez** Avian-hominid and **Aethien** Mantis and Amethyst Order Bra-ha-Rama **Inyu** Cetacean and **Pegasai** Winged-horse-deer races worked to restore Universal Star Gates 11 and 12. Following destruction of Lyra-Aramatena and Star Gate-12, the Emerald Order Breneau and their Elohei-Elohim Feline-hominid races were appointed by the **Yanas** Collectives, from beyond the Time Matrix, to serve as the Primary **Universal Templar Security Team** in our Time Matrix. The Elohei Emerald Order Feline-hominids were commissioned to organize and assist guardian nations in securing the Universal Templar Complex from Fallen Angelic Race dominion, and to implement genetic **Bio-Regenesis Programs** to assist fallen races in re-evolving their original potentials of ascension. Upon request of the Yanas Collectives, the Density-5 Breneau Orders and their Emerald Order Anuhazi Feline-hominids, Gold Order Cerez Avian-hominids and Aethien Mantises and Amethyst Order Inyu Cetaceans and Pegasai Winged-horse-deer races created the universal service organization called the **Interdimensional Association of Free Worlds- IAFW**. In order to provide greater protection and healing efforts in our Time Matrix, Emerald Order Elohei-Elohim **Anuhazi** Feline-hominids, Gold Order Seraphei-Seraphim Cerez Avian-hominids and Amethyst Order Bra-ha-Rama Inyu Cetaceans (forefathers of the Whale and aquatic Dolphin) co-created a new guardian-healer race called the **Azurites**. **The Azurites are a blue-skinned land-water mammal feline-avian hominid, some bearing feathered heads and wings, which were created 250 billion years ago with the formation of the IAFW**. The Azurite Race, carrying the full spectrum of the 3 Founders Races' original core genetic templates or "Ascension Codes, represented a new "**Yani**" (meaning "Yanas embodied") race-form through which the Density-5 Breneau and Yanas Ascended Maters Collectives from beyond the Time Matrix could incarnate directly into the density systems. The Azurite Yani race line was simultaneously seeded into every Density Level in our 15 dimensional Time Matrix, placed in galactic and planetary proximity to the **12 Universal Star Gates** of our Universal Templar Complex. The Azurite Yani race was placed under the guidance of the Emerald Order Breneau Elohei-Elohim Feline-hominid Universal Security Team. The Azurites were appointed by the Yanas and Density-5 Breneau Orders as the **Azurite Universal Templar Security Team**, commissioned to protect and repair the structural integrity of our Time Matrix and with assisting all races in their evolution to ascension and freedom from the Time Matrix.

About **570 Million years ago**, the Angelic Wars between the fallen Annu-Elohim Anyu aquatic-apes and Bipedal Dolphin People and fallen Seraphim Insect, Omicron-Dragon-Moth, Dino and Odedicron-Lizard races had escalated to the point of potentially imploding this Time Matrix. The Breneau Orders of Density-5, with assistance from the Azurites and Emerald Covenant races in the Time Matrix, repaired Star Gates 11 and 12. Able to implement direct access to our Time Matrix once again, the Density-5 Breneau Orders intervened, offering the **2nd restatement of the Emerald Covenant**, through which members of any of the races could re-enter co-creative, co-evolution agreements. Many of the fallen Seraphim Insect, Dragon-Moth and Lizard races and some of the Annu-Elohim Dolphin People and Anyu Aquatic Ape races entered this peace treaty. Fallen races entering the Emerald Covenant restatement 570 million years ago agreed to work together under the direction of the Elohei-Elohim Anuhazi Feline-hominid, Seraphei-Seraphim Cerez Avian-hominid and Aethien Mantis and Bra-ha-Rama Inyu Cetacean and Pegasai Winged-horse-deer races. As per the Emerald Covenant restatement 570 million years ago, the Azurites and Emerald Covenant guardian races would assist fallen races to reverse-mutate their faltering genetic templates. In return for this guardian race assistance, regenerated fallen races would assist guardian races to restore the integrity of the Universal and Interplanetary Templar Complexes and bring peace to our Time Matrix. Races entering the Emerald Covenant restatement agreed to allow the Breneau Orders to incarnate into our Time Matrix by entering another new life form that would, like the Azurites, carry the genetic imprint of all stellar Founder Races. **This new life form, which would also harbor the consciousness of the Breneau Orders and Yanas Ascended Masters Collectives in manifest form, would serve as the embodied, commissioned keepers of the Universal Templar Complex, assisting all**

stellar races in fulfilling their potentials of ascension and freedom from the Time Matrix. The new guardian race, intended to evolve to **relieve the Azurite Yani of their long tour in density**, would bring the co-creation agreements of the original **Emerald Covenant of Aramatena** back into play. The new race was intended to become the next generation of the **Universal Templar Security Team** in our Time Matrix. Creation of the new race was intended to be a "**changing of the guard**", through which the Azurite Yani could transfer their commission in time to the new race and ascend out of the Time Matrix to return to At-One-ment with Source. This new race was created with the intention of embodying and restoring to the races of our Time Matrix, peace, love and harmonious, cooperative evolution. Like the Azurite Yani, this new biological race would present a **genetically perfected form** through which the consciousness of any stellar collective could incarnate to reclaim the original integrity of its **Ascension Codes**; the new race was called the **Turaneusiam** or the **Angelic Human** of Density-2 Tara. The seed race for the Angelic Human was the Densities 2-4 **Oraphim**, meaning "**Children of the Light**" in reference to their Breneau Order creators of the Density-5 (dimensions 13-14-15) Kee-Ra-ShA **Primal Light Fields**.

Creation of the Oraphim-Turaneusiam Angelic Human Christiac-Rishic Grail Line

The Oraphim are a hybrid form of **Lyra-Sirius A Anuhazi** (Elohei Emerald Order Feline-Hominid), **Sirius B Azurite Yani** (Elohei Feline-hominid, Seraphei Avian-hominid and Bra-ha-Rama Inyu Cetacean) and **Pleiadian Serres** (Density-2 Seraphei Avian-hominid). The **Oraphim** were seeded **568 million years ago** on Density-3 **Sirius B, Procyon**, Orion-**Mintaka** and **Gaia** and Density-2 **Sirius B**, Pleiadian-**Alcyone**, **Altair** and Tara, to begin creation of the **Angelic Human** lineage. At the time of their creation 568 million years ago, a specialized group of Oraphim was further hybridized with the Azurite Yani race of Sirius B, to create the Azurite-Oraphim "**Blue Human**" **Maharaji** lineage of **Sirius B**, the **progenitors** of the **Christiac-Maji-Indigo Child Grail Line on Earth**. The Sirius B Maharaji Azurite-Oraphim genetic line became further intertwined with the Turaneusiam Angelic Human lineage of Tara **550 million years ago** through **Bio-Regenesis programs** for the faltering Taran Oraphim-Turaneusiam Human race line. One branch of the Maharaji Azurite-Oraphim human race line of Tara became the **Melchizedek Cloister Priests of UR Grail Line**. The Taran MC Priests of Ur Angelic Human Grail Line families became members of the **Azurite Universal Templar Security Team** and founded the egalitarian **Priesthood of Ur** and the original **Azurite Temple of the Melchizedek Cloister** universal service organization on Tara. Another branch of the Taran Maharaji Azurite-Oraphim lineage, the **Ur-Tarranates**, seeded the **12-Tribes Earth Angelic Human** lineage 250-25 million years ago. (For more information on Indigo Children-Maharaji-MC Priest of UR Christiac Grail Lines, see *Voyagers Volume-1, 2nd Printing*). The original **Lyran-Sirian-Pleiadian Oraphim** prototype is a thin, **12-20 feet tall androgynous** feline-avian-human land-water mammal "**Breatharian**" (does not eat; draws nourishment directly from the atmosphere in which it is placed). The **original Oraphim** have **translucent deep tan or powder-white to pale-blue skin, elongated skulls**, petite, childlike facial features, **six fingers and toes**, and no ears or small cat-like ears on the side of the head. Some have small **cat-like lips** and with a split in the upper lip and a **feline nose**, others have **small, thin lips** with a mild downward dip in the upper lip that resembles the shape of a tiny bird beak, with a petite **human-child-like nose**. Some Oraphim have **pure white head hair** resembling long, soft fur, others are **bald** or have soft, **white-feathered skulls**. All have **hairless bodies** and **large, slanted almond-shaped eyes of golden, electric blue** or **violet hue**, with **pure white vertical pupils**, thin eyelids with fine white eyelashes and **no eyebrows**.

Several specialized Oraphim strains are more Feline, Avian or Cetacean in biological structure. Specialized **Emerald Order Elohei-Elohim Oraphim strains** appear as **large upright feline-hominids** with **pure white fur covering the body**, non-clawed paws and tails; Oraphim felines **resemble the white Persian cat species** of Earth and they **often overshadow** this earthly feline of their genetic association to interact with Density-1 Earth. Specialized **Gold Order Seraphei-Seraphim Oraphim** closely resemble the **Eagle and Swan avian species** of Earth, having smaller eyes, wings and avian-hominid bodies covered with **pure white, soft blue-gray or jet black feathers**. Specialized **Amethyst Order Bra-ha-Rama Oraphim** are Cetacean, most closely resembling the **Aquatic Dolphin** and **Whale** species of Earth. Unlike the Bipedal Dolphin People of the fallen Anu-Elohim, the Oraphim Cetaceans **do not have arms or legs**, and though capable of breathing air or water, they are designed for mobility in fluid, not on land. The **Oraphim Cetaceans are pure white or pale-light-blue** in color, and specialize in **transmitting the sound**

tones that hold the scalar-wave temples for universal structure in order. The Oraphim Cetaceans created several Dolphin and Whale species on Earth, to serve as their emissaries in maintaining Earth's biosphere. The fallen Annu-Elohim Bipedal Dolphin People have also seeded several strains of Dolphin, Whale and Shark species into Earth's biosphere, in an attempt to gain sonic control over Earth's Manifestation Template. Though it is nearly impossible to detect the differences between the Oraphim Cetacean and Annu-Elohim Cetacean species, there are a few subtle differences observable between them. **Oraphim Cetacean** strains tend to be **lighter in skin color**, are more **vegetarian** in diet, prefer **warmer waters**, are **more receptive to human contact**, have a more **gentle, feminine maternal nature** and **emit higher-pitched sound frequencies** than their fallen Annu-Elohim Cetacean kin.

In their **organic state**, when they are not intermingling with other race strains for the purpose of assisting in DNA Bio-Regenesis programs, the Oraphim Feline-Avian-Cetacean-Humans have **full conscious power** over physical manifestation and de-manifestation, allowing them adaptability to almost any environment and Density Level in which they are placed. The Oraphim can "shape-shift" at will, and their biological forms are eternal until they fully transmute out of the Time Matrix. After ascending out of the Time Matrix, an Oraphim must rebirth in a new eternal body form to re-enter the Density systems of the Time Matrix. Though they are biologically androgynous and do not have external manifestations of gender difference, the **"male" Oraphim** form carries a **stronger electrical field** and specializes in **electrical transmission of energy**, while the **"female" Oraphim** form carries a **stronger magnetic field** and specializes in **magnetic reception of energy**. Like the Azurites, in combining of male-female bio-energetic fields, the Oraphim have the greatest ability of any race in our Time Matrix to transmit and receive the frequencies of the electromagnetic Primal Life Force Currents in our Time Matrix. This energy reception-transmission ability makes them **biologically able to perform intensive structural repair of the universal manifestation template** in our Time Matrix, allowing them the capacity to fulfill their creation commission as evolving guardians and keepers of the **Universal Templar Complex**. Oraphim can **procreate independently**, but prefer procreation through fusion or coupling of the bio-energetic fields of **gender-twin mates**. During Oraphim procreation an **energetic birth sac** is painlessly expelled from the navel region of either male or female. The energetic sac contains cellular matter formed through the combined genetic imprint of the parents, or a replica of the singular parent's genetic imprint. Once the sac is expelled from the body, the new incarnating Oraphim soul begins fetal integration. Gestation of the Oraphim birth sac varies, depending upon the environment into which they incarnate. The birth sac is placed within a planetary soil "nest", then into a water or fluid environment organic to the planet, allowing the incarnating Oraphim to adopt the natural template structures characteristics to the environmental system into which it is incarnating. After water or fluid gestation, the Oraphim embryo rapidly grows to the size of a human child of 8-12 years, and emerges from the birth sac, fully sentient, mobile, telepathic and with full **regional spoken language capacity**. The Oraphim race is the Seed Race from which the **Angelic Human Turaneusiam** emerged, and represents the state of evolutionary fulfillment in time toward which all human races are re-evolving. Like the Azurite Yani, the Oraphim race has a **24-48 Strand DNA Template**, which embodies the full spectrum Ascension Codes though which transmutative ascension out of the Time Matrix can be achieved.

The **Oraphim Seed Race** of Tara represents the **genetic ancestral heritage** from which the **Turaneusiam Angelic Human 12-Strand DNA Template** emerged **560 million years ago** on Density-2 (dimension4-5-6) Tara. The **Taran Turaneusiam Angelic Human** is the **genetic ancestral lineage** from which the "**Turaneusiam-2**" **12-Tribes Angelic Human** race line was seed on **Earth 250-25 million years ago**. Contemporary humanity is part of **Angelic Human 12-Tribes Seeding-3**; the first 2 Seedings of the Angelic Human 12-Tribes on Earth were destroyed through progressive infiltration and warring with Fallen Angelic ("ET") races. 12-Tribes **Seeding-3** began in **798,000BC**, with introduction of the **5 Palaidia-Urtite Cloister** races, who composed the first **12 simultaneous settlements** of the Seeding-3 12-Tribes. The Palaidia Races are referred to as "**Maji Grail Line Angelic Humans**", possessing **25-48 Strand DNA Templates** characteristic to the **Lyran-Sirian-Oraphim Angelic Human** genome. From the **5 Palaidia Urtite-Cloister Seed Races** of **798,000BC**, **Seeding-3** of the **12-Strand DNA Template Angelic Human** lineage was progressively orchestrated on Earth, as part of a larger trans-time **Sacred Mission of Planetary Guardianship**.

Members of the Palaidia Maji Grail Line Races have **repeatedly incarnated** during various periods of Seeding-3 Angelic Human evolution, to keep the **12-Strand and Maji Grail Line DNA Template potential** alive within the Earth Human gene pool. The Angelic Human and Maji Grail Line gene pool has been kept alive on Earth to enable the Angelic Humans to complete the "**Sacred Mission**" which humanity had been seeded on Earth to fulfill. The Palaidia Maji Grail Line races have been incarnating on **contemporary Earth** for the past 100 years; they are referred to as the "**Indigo Children-Types 1 and 2**". The term "**Indigo Children**" refers to the frequencies of the **6th dimensional wave band**, the **Indigo wavelength** of the **15-Dimensional Spectrum**. Maji Grail Line Indigo Children are born with the **6th Strand Template** of their 24-48 Strand DNA Templates **activated at birth**, whereas Angelic Humans with 12-Strand DNA Templates are born with 3-Strands of 12 activation. Activation of the 6th DNA Strand Template allows the **D-6 Indigo wave spectra** and the **D-6 consciousness** characteristic to this wave-length, to embody within the Indigo Child fetal body. The Palaidia Race Angelic Human Maji Grail Line Indigo Children Types-1 and 2 have been progressively incarnating on Earth in preparation for the **Sacred Mission** of the long awaited **2000-2017 Stellar Activations Cycle**.

Seeding the 12 Urtite-Cloister Palaidia Empires

The secrets to unraveling the riddles of contemporary humanity's origins and heritage lie in the distant past, within the first **12 Palaidia Empires** of **Urtite-Cloister races**, through which the **5 Urtite-Cloister**, **5 Cloister** and **7 Root Races** (*re: Chapter- 1: Root Races-Cloister Races section*) of the Angelic Human lineage emerged to commence **Seeding-3** of the **12-Tribes**. Each of the **12 Palaidia Empires** was constructed simultaneously, underground, beginning in **798,000BC**. The Palaidia Empires were founded by the **5 Seed Races** of the 25-48 Strand DNA Template **Maji Priest-King Holy Grail Line** as its members incarnated through the **Urtite-Cloister** Angelic Human **Host Race** of Seeding-3 (*ref: Chapter-3*). The Seeding-3 Urtite-Cloister Host races were seeded following the organizational pattern set by the **549,998,000BC Taran Covenant of Palaidor** (*ref Chapter-1: Amenti Rescue Mission section*), which was previously utilized in both the **Seeding-2 Dagos-Cloister** and **Seeding-1 Ur-Tarranate Palaidorian-Cloister Host Race** Seedings. In accordance with the traditional race-seeding format, the 12 Palaidia Empires of the Urtite-Cloisters were seeded upon the locations of the **12 Templar Cue Sites**. **The 12 Templar Cue Sites** correspond to the **12 Crystal Pylon Temple Signet Site star gates of Inner Earth** (*ref: Chapter-16*); and serve as the "trigger sites" for remote activation of surface **Earth's 12 Templar Signet Site** star gate opening points. Each of the 12 Palaidia Empires was co-founded by Urtite-Cloister Race strains carrying the **5 Cloister Race** genetic codes of the **12-Tribes Angelic Human** line, seeded by a specialized **Urtite Tri-Cloister Maji Holy Grail Line Seed Race**.

Urtite-Tri-Cloister Maji Holy Grail Line Flame-keepers

The Maji Holy Grail Lines emerging into the Urtite-Cloister lineage of 12-Tribes Seeding-3 all incarnated directly from the Density-5 **Primal Light Fields**, or the **Primal Sound Fields** from beyond the Time Matrix. The initial **Palaidoria Empire Urtite-Cloister Maji Holy Grails** were **Rishi** and Ascended Master "**Yanas**" consciousness

incarnating directly into the earthly drama. The Urtite-Cloister Maji incarnated into specific **Tri-Cloister body forms** carrying the **24-48 Strand DNA Template**, The **Tri-Cloister genetic code** carried the DNA Temples of **3 Cloister race lines combined**, plus that of the **Shambali and Bhrama Mixed Cloister** Angelic Human lines that had evolved in **Inner Earth** after the cataclysm of the **Thousand Years War of 846,000BC** that ended 12-Tribes Seeding-2 (re: Chapter-2). Each Maji emerged into Density through one of the **3 Primary Founder Race Breneau Collectives**, each from one of the 3 Primal Light Fields of Density-5 (re: Chapter-16). The Urtite-Tri-Cloister Maji Holy Grail Lines that founded the 12 Palaidia Empires were incarnate members of the Emerald Order, Gold Order and Amethyst Order Yanas Collectives, the "**Eieyani**" **Ascended Masters**, from the **Primal Sound Fields** beyond the Time Matrix. The High Council **Emerald Order** Elohei-Elohim "**Blue Flame Keepers**" **Grandeyanas** incarnated from the **Eckatic Level** of the Energy Matrix Primal Sound Fields. The Middle Council **Gold Order** Seraphei-Seraphim "**Gold Flame Keepers**" **Wachayanas** incarnated from the **Polaric Level**, and the Base Council **Amethyst Order** Bra-ha-Rama "**Violet Flame Keepers**" **Ramyanas** incarnated from the **Triadic Level** of the Energy Matrix. Each of the first Urtite-Tri-Cloister Priest-King Lines (both male and female were referred to equally by the same title) carried the **Eieyani Priest of Ur Ascended Master genetic code**. Through the Eieyani Priest Maji Urtite-Tri-Cloister DNA Template, the "**Rainbow Ray Current**" could be embodied, for **remote activation** of the **Signet Shields**, **Signet Plates** and **Templar Cue Sites** of Earth's Templar. The "**Rainbow Ray Current**" is composed of the **Khundaray Current** standing-wave frequencies of the Primal Sound Fields from beyond the Time Matrix, the Kee-Ra-ShA Current standing-wave frequencies of the Density-5 Primal Light Fields and the Maharata Current standing-wave frequencies of the Density-4, Dimension-12 Pre-matter Hydroplasmic "Liquid-Light" Christos Fields.

Shambali, Bhrama and Annu-Melchizedek Races of Inner Earth

The **two Mixed Cloister races of Inner Earth**, with which the **Urtite-Tri-Cloister Maji genome** is combined, are races of the Inner Earth regions that received **genetic enhancement** from the **Sirius B Maharaji** blue humans following their exile to Inner Earth during the **Thousand Years War** of **846,800BC** (*ref: Chapter-2*). Previous to this genetic acceleration, Inner Earth **Shambali** and **Bhrama** Mixed Cloister races had emerged into Inner Earth from 12-Tribes Seeding-1 during the **Electric Wars** of **5,498,000BC** (*ref: Chapter-1*); they were originally members of the 12-Strand DNA Template **Christiac Grail Line** Angelic Human Cloister race lines of **Seeding-1**. Exiled **Shambali** and **Bhrama** races of **Seeding-2** integrated into their related Inner Earth cultures exiled from Seeding-1, then received further genetic acceleration from the Maharaji blue human Christiac-Rishic Grail Line race of Sirius B. Following this genetic acceleration, which was obtained through consensual intermarrying of family lines from Shambali and Bhrama races with Maharaji blue human family lines residing in Inner Earth, the Mixed Cloister Shambali and Bhrama race lines evolved into 24-48 Strand **Christiac-Rishic** DNA Templates. This genetic enhancement allowed them to serve as the **two primary guardian races** for the **Crystal Pylon Temples**, **Halls of Amenti** and the activated **star gate system** of Inner **Earth's Templar**, a position they still hold today.

The **Shambali** are a **Melchizedek and Breanoua Mixed Cloister** race, plus **Maharaji** blue human, and the **Bhrama** are a **Melchizedek and Ur-Antrian Mixed Cloister** race, plus **Maharaji**. The Shambali inhabit the cloistered **Shambali-Ionian Islands** and parts of the Inner Earth **Agartha** continent called **Shamballah**. The Bhrama nations are concentrated on the Agartha continent, which supports various strains of occasionally **conflicting races**. Presently the **Annu-Melchizedek**, Anunnaki-Human Bio-Regenesis races, exiled from surface Earth during the Lemurian and Atlantian cataclysms of **50,000BC**, **28,000BC** and **9558BC**, represent one of the largest populations in the Inner Earth territories of **Agartha**. Due to the Pleiadian-Nibiruian Anunnaki Fallen Angelic Legion's recent **refusal** of the **Emerald Covenant**, many Annu-Melchizedeks races of Inner Earth have joined the **United Resistance** campaign of overthrowing Emerald Covenant races for dominion of the **Halls of Amen**ti star gates and the territories of Inner and surface Earth. The Shambali and Bhrama races of Inner Earth and the Palaidorians of Tara are the appointed Azurite Universal Templar Security Team guardians and keepers of the Halls of Amenti star gates and of the natural Universal Star Gates in Density-1(dimensions 1-2-3). The **Palaidorians of Tara** (*re: Chapter-1: Amenti Rescue Mission section*) have held this Azurite Universal Security Contract since the initiation of the **Covenant of Palaidor** just prior to the **549,998,000BC Taran cataclysm** (*ref: Chapter-1: Origins and the Fall section*). The **Shambali** and **Bhrama**

races of Inner Earth were officially entered into the Palaidorian Covenant and Azurite Universal Templar Security Team following their genetic acceleration after the Thousand Years War in **846,800BC**. Since this time the Shambali and Bhrama races of Inner Earth are also referred to as "**Palaidorians**", just as their Taran Palaidorian elders.

The 3 Primary Urtite-Tri-Cloister Maji Flame-keeper Holy Grail Line Seed Races of the Palaidia Empires

The **Emerald Order** Elohei-Elohim Maji DNA Template embodies the full spectrum of the **Eckatic Codes**, the electro-tonal patterns, or DNA "**Fire Letters**", corresponding to the first level of individuation from Source, the **Eckatic Level** of the Energy Matrix. Beings with **Eckatic DNA Temples**, such as the **Emerald Order** Urtite-Tri-Cloister Maji, incarnate from the **Eckatic Level-1** of the **Primal Sound Fields**; they are legitimately considered **Level-1 Ascended Masters. Eckatic DNA Coding** allows an embodied being to run the full **Blue-Gold-Violet "Flame-Tones"** of the **Khundaray Primal Sound Currents** and all **Primal Creation Currents below** through the physical body, when the Eckatic DNA Codes are **activated**. The Emerald Order Elohei-Elohim Maji incarnate through a Tri-Cloister genetic template composed of 12-Tribes **Melchizedek Cloister**-"white"-skinned line, **Breanoua Cloister** "red"-skinned line and **Yunaseti** "black"-skinned line, combined with a dominant **Shambali** and recessive **Bhrama Mixed Cloister** genome from the **Inner Earth Palaidorian races**. The Emerald Order Urtite-Tri-Cloister Maji Holy Grail line races of Seeding 3 are called the **Muarivhia seed race**, sometimes referred to as the **Mu'a**. The **Urtite-Tri-Cloister Emerald Order Maji Christiac-Rishiac Holy Grail Lines** are called the **"Keepers of the Blue Flame-Guardians of the Eckatic Codes"** (in ancient Egypt, this coveted Eckatic Maji genetic code was referred to as the "**Code of the Blue Nile**"). The **Muarivhia, or Mu'a** Urtite-Tri-Cloister Maji Christiac-Rishiac Grail Line has a **43-48 Strand DNA Template**; in their present incarnations on Earth, the Mu'a, along with Maji from the **Yu Seed Race** line are called **Type-1 Indigo Children**; **the Mu'a are Emerald Order MC Indigos**. The Emerald Order **Mu'a**, and their **ascendant race lines**, are the only human races on Earth whose **DNA Templates** are imbued with the full spectrum of **144 Universal Signet Master Key Codes** (12 Master Keys per Gate x 12 Universal Star Gates) corresponding to **Universal Star Gates 1 through 12**. The **48-Strand DNA Template** Mu'a races have all **144** of the 144 **Universal Signet Master Key Codes**, and all 1728 (144 Encryption Keys per Gate x Gates 1-12) of the 1728 Universal Encryption Key Codes, encoded in their DNA. **Individuals of Mu'a genetic coding**, who have a **fully activated 48-Strand DNA Template**, are the **only individuals on Earth** capable of running the full "Rainbow Ray Current" to **single-handedly open** the **4 Density Levels** of Earth's **12 Primary Signet Site** Star Gates. They are the only humans on Earth able to individually initiate **remote activation** of **12th Signet Shield**, **12th Signet Plate** and **12th Templar Cue Site**, the **12th Signet Set** through which **all other Signet Sets** and Earth's **12 Templar Signet Site** star gate opening points are activated and directed.

The **Gold Order** Seraphei-Seraphim Maji DNA Template embodies the full spectrum of the **Polaric Codes**, the Fire Letters corresponding to the **second level** of individuation from Source, the **Polaric Level** of the Energy Matrix. Beings with **Polaric DNA Temples**, such as the **Gold Order** Urtite-Cloister Maji, incarnate from the **Polaric Level-2** of the **Primal Sound Fields**; they are legitimately considered **Level-2 Ascended Masters. Polaric DNA Coding** allows an embodied being to run the two-thirds of the **Khundaray Primal Sound Currents**, the **Gold-Violet Flame Tones**, and all corresponding **Primal Creation Currents below**, through the physical body, when the Polaric DNA Codes are **activated**. The Gold Order Seraphim-Seraphim Maji incarnate through a Tri-Cloister genetic template composed of 12 Tribes **Melchizedek Cloister**-"yellow"-skinned line, **Yunaseti Cloister** "yellow"-skinned line and **Hibiru** "white"-skinned line, combined with equal proportions of the **Shambali** and **Bhrama Mixed Cloister** genome from the Inner **Earth Palaidorian races**. The Gold Order Urtite-Tri-Cloister Maji Holy Grail line races of Seeding-3 are called the **Yu Seed Race**. The **Urtite-Tri-Cloister Gold Order Maji Christiac-Rishiac Holy Grail Lines** are called the **"Keepers of the Gold Flame-Guardians of the Polaric Codes"** (in ancient Hebrew teachings, the coveted Polaric Maji genetic code was referred to as the "**Code of the Golden Dawn**"). The **Yu** Urtite-Tri-Cloister Maji Christiac-Rishiac Grail Line has a **37-42 Strand DNA Template**; like their Palaidia Urtite-Tri-Cloister kin the **Mu'a** (Muarivhia), the Yu Seed Race in their present incarnations on Earth are also called **Type-1 Indigo Children**; the **Yu are Gold Order MC Indigos**. Other than the **Mu'a**, the Gold Order **Yu**, and their **ascendant race lines**, are the only human races on Earth whose **DNA Templates** are imbued with **120** (12 Master Keys per Gate x Gates 2 through 11)

of the **144 Universal Signet Master Key Codes** corresponding to **Universal Star Gates 2 through 11**. The **42 Strand DNA Template** Yu races have **120** of the 144 **Universal Signet Master Key Codes**, and **1584** (144 Encryption Keys per Gate x Gates 1-11) of the 1728 **Universal Encryption Key Codes**, encoded in their DNA. Other than **Mu'a race incarnates**, individuals of **Yu genetic coding** are the **only human individuals on Earth** capable of **single-handedly opening** the **4 Density Levels** of Earth's Primary Signet **Site Star Gates 2 through 11**. Only Mu'a can open Universal Star Gates 1 and 12. Yu incarnates can run **two-thirds** of the Rainbow Ray Current to initiate individual **remote activation** of **11th Signet Shield**, **11th Signet Plate** and **11th Templar Cue Site**; the **11th Signet Set** through which **all other Signet Sets below 11**, and the **2nd through 11th** of Earth's **12 Templar Signet Site** star gate opening points, are activated and directed. Only the Mu'a's **12th Signet Set** has the power to override and redirect the 11th Signet Set to which the Yu are entrusted as guardians.

The **Amethyst Order** Bra-ha-Rama Maji DNA Template embodies the full spectrum of the **Triadic Codes**, the DNA **Fire Letters** corresponding to the third level of individuation from Source, the **Triadic Level** of the Energy Matrix. Beings with **Triadic DNA Temples**, such as the **Amethyst Order** Urtite-Cloister Maji, incarnate from the **Triadic Level-3** of the **Primal Sound Fields**; they are legitimately considered **Level-3 Ascended Masters. Triadic DNA Coding** allows an embodied being to run **one-third** of the **Khundaray Primal Sound Currents**, the **Violet Flame Tones**, and all corresponding **Primal Creation Currents below**, through the physical body, when the Triadic DNA Codes are **activated**. The Amethyst Order Bra-ha-Rama Maji incarnate through a Tri-Cloister genetic template composed of 12-Tribes **Melchizedek Cloister**-"red"-skinned line, **Hibiru Cloister** "white"-skinned line and **Ur-Antrian** "brown"-skinned line, combined with a dominant **Bhrama** and recessive **Shambali Mixed Cloister** genome from the **Inner Earth Palaidorian races**. The Amethyst Order Urtite-Cloister Maji Holy Grail line races of Seeding-3 are called the **Urta seed race**, most often referred to as the **Ur**. The **Urtite-Cloister Amethyst Order Maji Christiac-Rishiac Holy Grail Lines** are called the "**Keepers of the Violet Flame-Guardians of the Triadic Codes**" (in ancient Sumerian culture, the coveted Triadic Maji genetic code was referred to as the "**Code of the Violet Sun**"). The Urta, or **Ur Seed Race** Urtite-Tri-Cloister Mali Christiac-Rishiac Grail Line, has a **31-36 Strand DNA Template**. Like their kin, the **2 Secondary** Palaidia Urtite-Bi-Cloister Maji Flame-keeper Holy Grail Line Seed Races, the **Breanoa and Rama Seed Races**, the **Ur Seed Race** in their present incarnations on Earth are called **Type-2 Indigo Children; the Ur are Amethyst Order MC Indigos**. The Amethyst Order **Ur** and their **ascendant race lines** are the only human races on Earth, other than the **Mu'a and Yu**, whose **DNA Templates** are imbued with **48** (12 Master Keys per Gate x 4 Universal Star Gates) of the **144 Universal Signet Master Key Codes** corresponding to **Universal Star Gates 5 through 8**. The **36-Strand DNA Template** Ur races have **48** of the **144 Universal Signet Master Key Codes**, and **1152** (144 Encryption Keys per Gate x Gates 1-8) of the 1728 **Universal Encryption Key Codes**, encoded in their DNA. **Other than Mu'a and Yu race incarnates**, individuals of **Ur genetic coding** are the **only human individuals on Earth** capable of **single-handedly opening** the **4 Density Levels** of Earth's Primary Signet Site **Star Gates 5 through 8**. Only **Mu'a** can open Universal Star Gates **1 and 12**, and the **full spectrum of Star Gates 1 through 12**. **Yu** can open Universal Star Gates **2 through 11**. **Ur** incarnates can run one-third of the Rainbow Ray Current to initiate individual **remote activation of 8th Signet Shield, 8th Signet Plate and 8th Templar Cue Site**; the **8th Signet Set** through which **Signet Sets below 8**, and the **5th through 8th** of Earths **12 Templar Signet Site** star gate opening points can be activated and directed. The 3 Primary Urtite-Tri-Cloister Maji, with **36-48 Strand** Maji DNA Temples, incarnated as members of the **Azurite Universal Templar Security Team**, collectively carrying the **Universal Master Signet Key Codes** to the 12 Star Gates of the **Universal Templar** in their DNA Temples. The **Universal Signet Master Key Codes** are the **144 Master Key Codes** (12 Master Keys for each of 12 Universal Star Gates) and the **1728 Encryption Key Codes** (144 Encryption Key Codes for each of 12 Universal Star Gates) corresponding to the **Universal Level** of the **12 Universal Templar Star Gates**. The **3 Primary Urtite-Tri-Cloister Palaidia Empire Seed Races** were entrusted with the power to **remote activate the 12 Star Gates of the Universal Templar**. (Muarivhia), **Yu** and **Ur** (Urta) Urtite-Tri-Cloister Flame keepers Maji Grail Line Angelic Human Seed Races set up the **foundation structures** upon which **Earth's Templar Complex** was **intended** to function throughout **12-Tribes Seeding-3**. They, and their Holy Grail Line **ascendants to the present time**, represent the **common seed** from which **all contemporary humans of Earth originally emerged** before Fallen Angelic corruption of the Angelic Human gene code.

The **Mu'a, Yu and Ur Seed Races** are members of **the Azurite Universal Templar Security Team** embodied in Maji Christiac-Rishic Angelic Human form. They carry the **genetic potential** to run the **Rainbow Ray Current**, the Universal Primal Light-Sound Currents, into Earth's Templar for remote activation of Earth's Star Gates, and the 12 Primary Star Gates of the Universal Templar. As representatives of the **Yanas, Breneau and Founders' Emerald Covenant**, the Emerald, Gold and Amethyst Order Maji have returned to contemporary Earth incarnation as **Types-1 and 2 Indigo Children**. The Indigo Children Types 1 and 2 have returned in hope of assisting the **Angelic Human 12-Tribes** of Earth to finally fulfill the **Sacred Mission of Planetary Guardianship** for which they were originally commissioned.

The 2 Secondary Urtite-Bi-Cloister Maji Flame keeper Holy Grail Line Seed Races of the Palaidia Empires

The 3 Primary Urtite-Tri-Cloister Maji Seed Races were combined to create the **2 Secondary Urtite-Bi-Cloister Maji race lines** with **24-36 Strand Maji DNA Temples**, who serve as members of the **Azurite Amenti Galactic-Planetary Templar Security Team**. The 2 Secondary Maji Flame keeper Holy Grail Line Seed Races responsible for co-founding the **Palaidia Empires** of 798,000BC are the **Breanoa** and **Rama** Urtite-Bi-Cloister Seed Races, which emerged simultaneously with the Urtite-Tri-Cloister Maji races within the underground Palaidia Empires of **798,000BC**. The **Breanoa Urtite-Bi-Cloister Maji Race** emerged through **combining the genomes** of the Emerald Order **Mu'a** (Muarivhia) and Gold Order **Yu** Urtite-Tri Cloister Maji race lines, to form a race line that would carry the **portions** of the **1728 Universal Encryption Key Codes** characteristic to the **Mu'a** and **Yu** races. The Breanoa race lines are known as Keepers of the Blue-Gold Flame, as they can embody and run the **Blue and Gold spectrum** of the **Primal Sound-Light Currents** through their DNA Templates. Breanoa races and their ascendancy lines have a **28-30 Strand DNA Template**, categorizing their contemporary incarnations as **Type-2 Indigo Children**. The Breanoa **30 Strand DNA Template** is imbued with **36** (12 Master Keys per Gate x 3 Universal Star Gates) of the 144 **Universal Signet Master Key Codes** for Universal Star Gates **9, 6 and 3**. The Breanoa 30-Strand DNA Template contains **288 Universal Encryption Key Codes** for Universal Star Gates **12 and 11** and the **1296 Universal Encryption Codes** corresponding to Universal Star Gates 1-9; a total of **1584** of 1728 Universal Encryption Key Codes (144 Encryption Keys per Gate X Gates 1-9 and 11-12=144 x11 =1584). The **30-Strand DNA Template** Breanoa races have **36** of the 144 **Universal Signet Master Key Codes**, and **1584** of the 1728 **Universal Encryption Key Codes**, encoded in their DNA.

The **Rama Urtite-Bi-Cloister Maji Race** emerged through **combining the genomes** of the Gold Order **Yu** and Amethyst Order **Ur** (Urta) Urtite-Tri-Cloister Maji race lines, to form a race line that would carry the **portions** of the **1728 Universal Encryption Key Codes** characteristic to the **Yu** and **Ur** races. The Rama race lines are known as **Keepers of the Gold-Violet Flame**, as they can embody and run the **Gold and Violet spectrum** of the **Primal Sound-Light Currents** through their DNA Templates. Rama races and their ascendancy lines have a **25-27 Strand DNA Template**, categorizing their contemporary incarnations as Type-2 Indigo Children. The Rama 27-Strand DNA Template is imbued with **36** (12 Master Keys per Gate x 3 Universal Star Gates) of the 144 **Universal Signet Master Key Codes** for Universal Star Gates **10, 7 and 4**. The Rama 27-Strand DNA Template contains **1440 Universal Encryption Codes** corresponding to Universal Star Gates 1-10 (144 Encryption Keys per Gate X Gates 1-10=144 x10 =1440). The **27-Strand DNA Template** Rama races have **36** of the 144 **Universal Signet Master Key Codes**, and **1440** of the 1728 **Universal Encryption Key Codes**, encoded in their DNA. The **2 Secondary Urtite-Bi-Cloister Maji Seed Races**, the **Rama** and the **Breanoa**, collectively carry, within their **25-30 Strand** DNA Templates, the **Galactic Signet Key Codes**; the Signet Master Key Codes and Signet Encryption Codes of the **Galactic and Planetary Levels** of the 12 Universal Star Gates. The 3 Primary **Urtite-Tri-Cloister Maji Seed Races**, the **Mu'a**

(Muarivhia), **Yu** and **Ur**, collectively carry, within their **31-48 Strand DNA** Templates, the **Universal Signet Key Codes**; the Signet Master Key Codes and Signet Encryption Codes of the **Universal, Galactic and Planetary Levels** of the 12 Universal Star Gates.

The **5 Palaidia Urtite-Cloister Maji Christiac-Rishic Holy Grail Line races**, the **Mu'a**, **Yu**, **Ur**, **Breanoa** and **Rama**, founded the **12 Palaidia Empires** that began **12-Tribes Angelic Human Seeding-3 in 798,000BC**. The **12 Palaidia Empire Maji races** are the **Seed Races** through which the **5 Urtite-Cloister Maji Races** of the **Urtite-Cloister Empires** on surface Earth emerged between **798,000BC** and **500,000BC**. The **5 Urtite-Cloister Empire Maji Races** that emerged on surface Earth through the 5 Palaidia Urtite-Cloister Maji lines carry the same race names as their Palaidia Urtite-Cloister forefathers, the Urtite-Cloister Mu'a (Muarivhia), Yu, Ur, Breanoa and Rama. The Urtite-Cloister Maji races that founded the surface Earth Urtite Empires carry **12 to 24 Strand DNA** Templates containing the 144 **Planetary** Master Key Codes and 1728 **Planetary** Encryption Key Codes; the **Planetary Signet Key Codes** of the **Amenti Templar Planetary Security Team**. The 5 Urtite-Cloister Empires of surface Earth are the **Seed Races** through which the **5 Cloister Races** (7 to 12 +1 Strand DNA Template) and **7 Root Races** (2-6 + 7-12 Strand DNA Template potential) of the contemporary **12-Tribes** Angelic Human Races emerged (*re: Chapter-1:Root Races-Cloistered Races section*); the genetic origins of the contemporary human race. The first 2 Angelic Human Root Races, the **Polarians** and **Hyperborneans**, evolved on Etheric Density-3 Gaia. The remaining **5 Cloister and 5 Root Races** of the **Seeding-3 12-Tribes** Angelic Human "Maji King" Christiac-Rishic Holy Grail Line, progressively emerged on Earth through the 5 Urtite-Cloister Empire Maji Races that emerged on surface Earth from the 798,000BC Palaidia Empires.

The "Cycle of the Rounds"

The 4 Interrelated Evolutionary Cycles of 12-Tribes Seeding-3

Evolutionary Rounds

- The Seeding-3 12-Tribes Angelic Human Races were seeded on Earth in **4** different interconnected **Time Cycles**. Each of the **4 Time Cycles** in which the Angelic Human races were seeded represents an evolutionary **Race Cycle** or an "**Evolutionary Round**" in the "**Cycle of the Rounds**" **Angelic Human Evolutionary Blueprint**.

- Each of the **4 Rounds** in the Angelic Human "Cycle of the Rounds" is commissioned to "Anchor" a **specific set of interdimensional frequencies** into Earth's scalar-standing-wave Manifestation Template, Earth's ***Planetary Shields***, within each of the **specific Time Cycles** in which the Angelic Human Evolutionary "Round Cycles" are placed. Each Evolutionary Round is intended to serve a part in fulfilling humanity's **Divine Commission**, the **Sacred Mission of Planetary Guardianship** for which Angelic Humans were seeded on Earth.

Fire Letter Sequences

- The Angelic Human and Maji Cloister Races of each Evolutionary Round anchor frequency into Earth's Planetary Shields through the scalar-standing-wave structures that are an inherent part of the personal **DNA Template Core**. The DNA Templates of the Angelic Human Races within each Evolutionary Round Cycle are built upon **specific** scalar-standing-wave Light-Sound patterns called **Fire Letter Sequences**.

- The **Manifestation Templates** of all things and systems are built upon specific, **fixed organizations of dimensionalized frequency bands**. Each dimensional band has **12 Fire Letters**, or **fixed points of consolidated frequency**; each dimensional band represents **1 Fire Letter Sequence** or **12 Fire Letters** (12 Fire Letters per Dimension x 1 dimension of manifestation =12 Fire Letters). When Fire Letter Sequences in a Manifestation Template are in **natural order**, the frequencies in different dimensional bands can **merge** with each other.

- The 12 Fire Letter Sequences (144 Fire Letters) inherent to the **12-Strand DNA Template** of each Angelic Human Race in each Evolutionary Round correspond to the **12 Fire Letter Sequences** that compose **Earth's Planetary Shields**. The DNA Templates of each Race in each Evolutionary Round holds a **specific** portion of the Fire Letter Sequences corresponding to Earth's Planetary Shields.

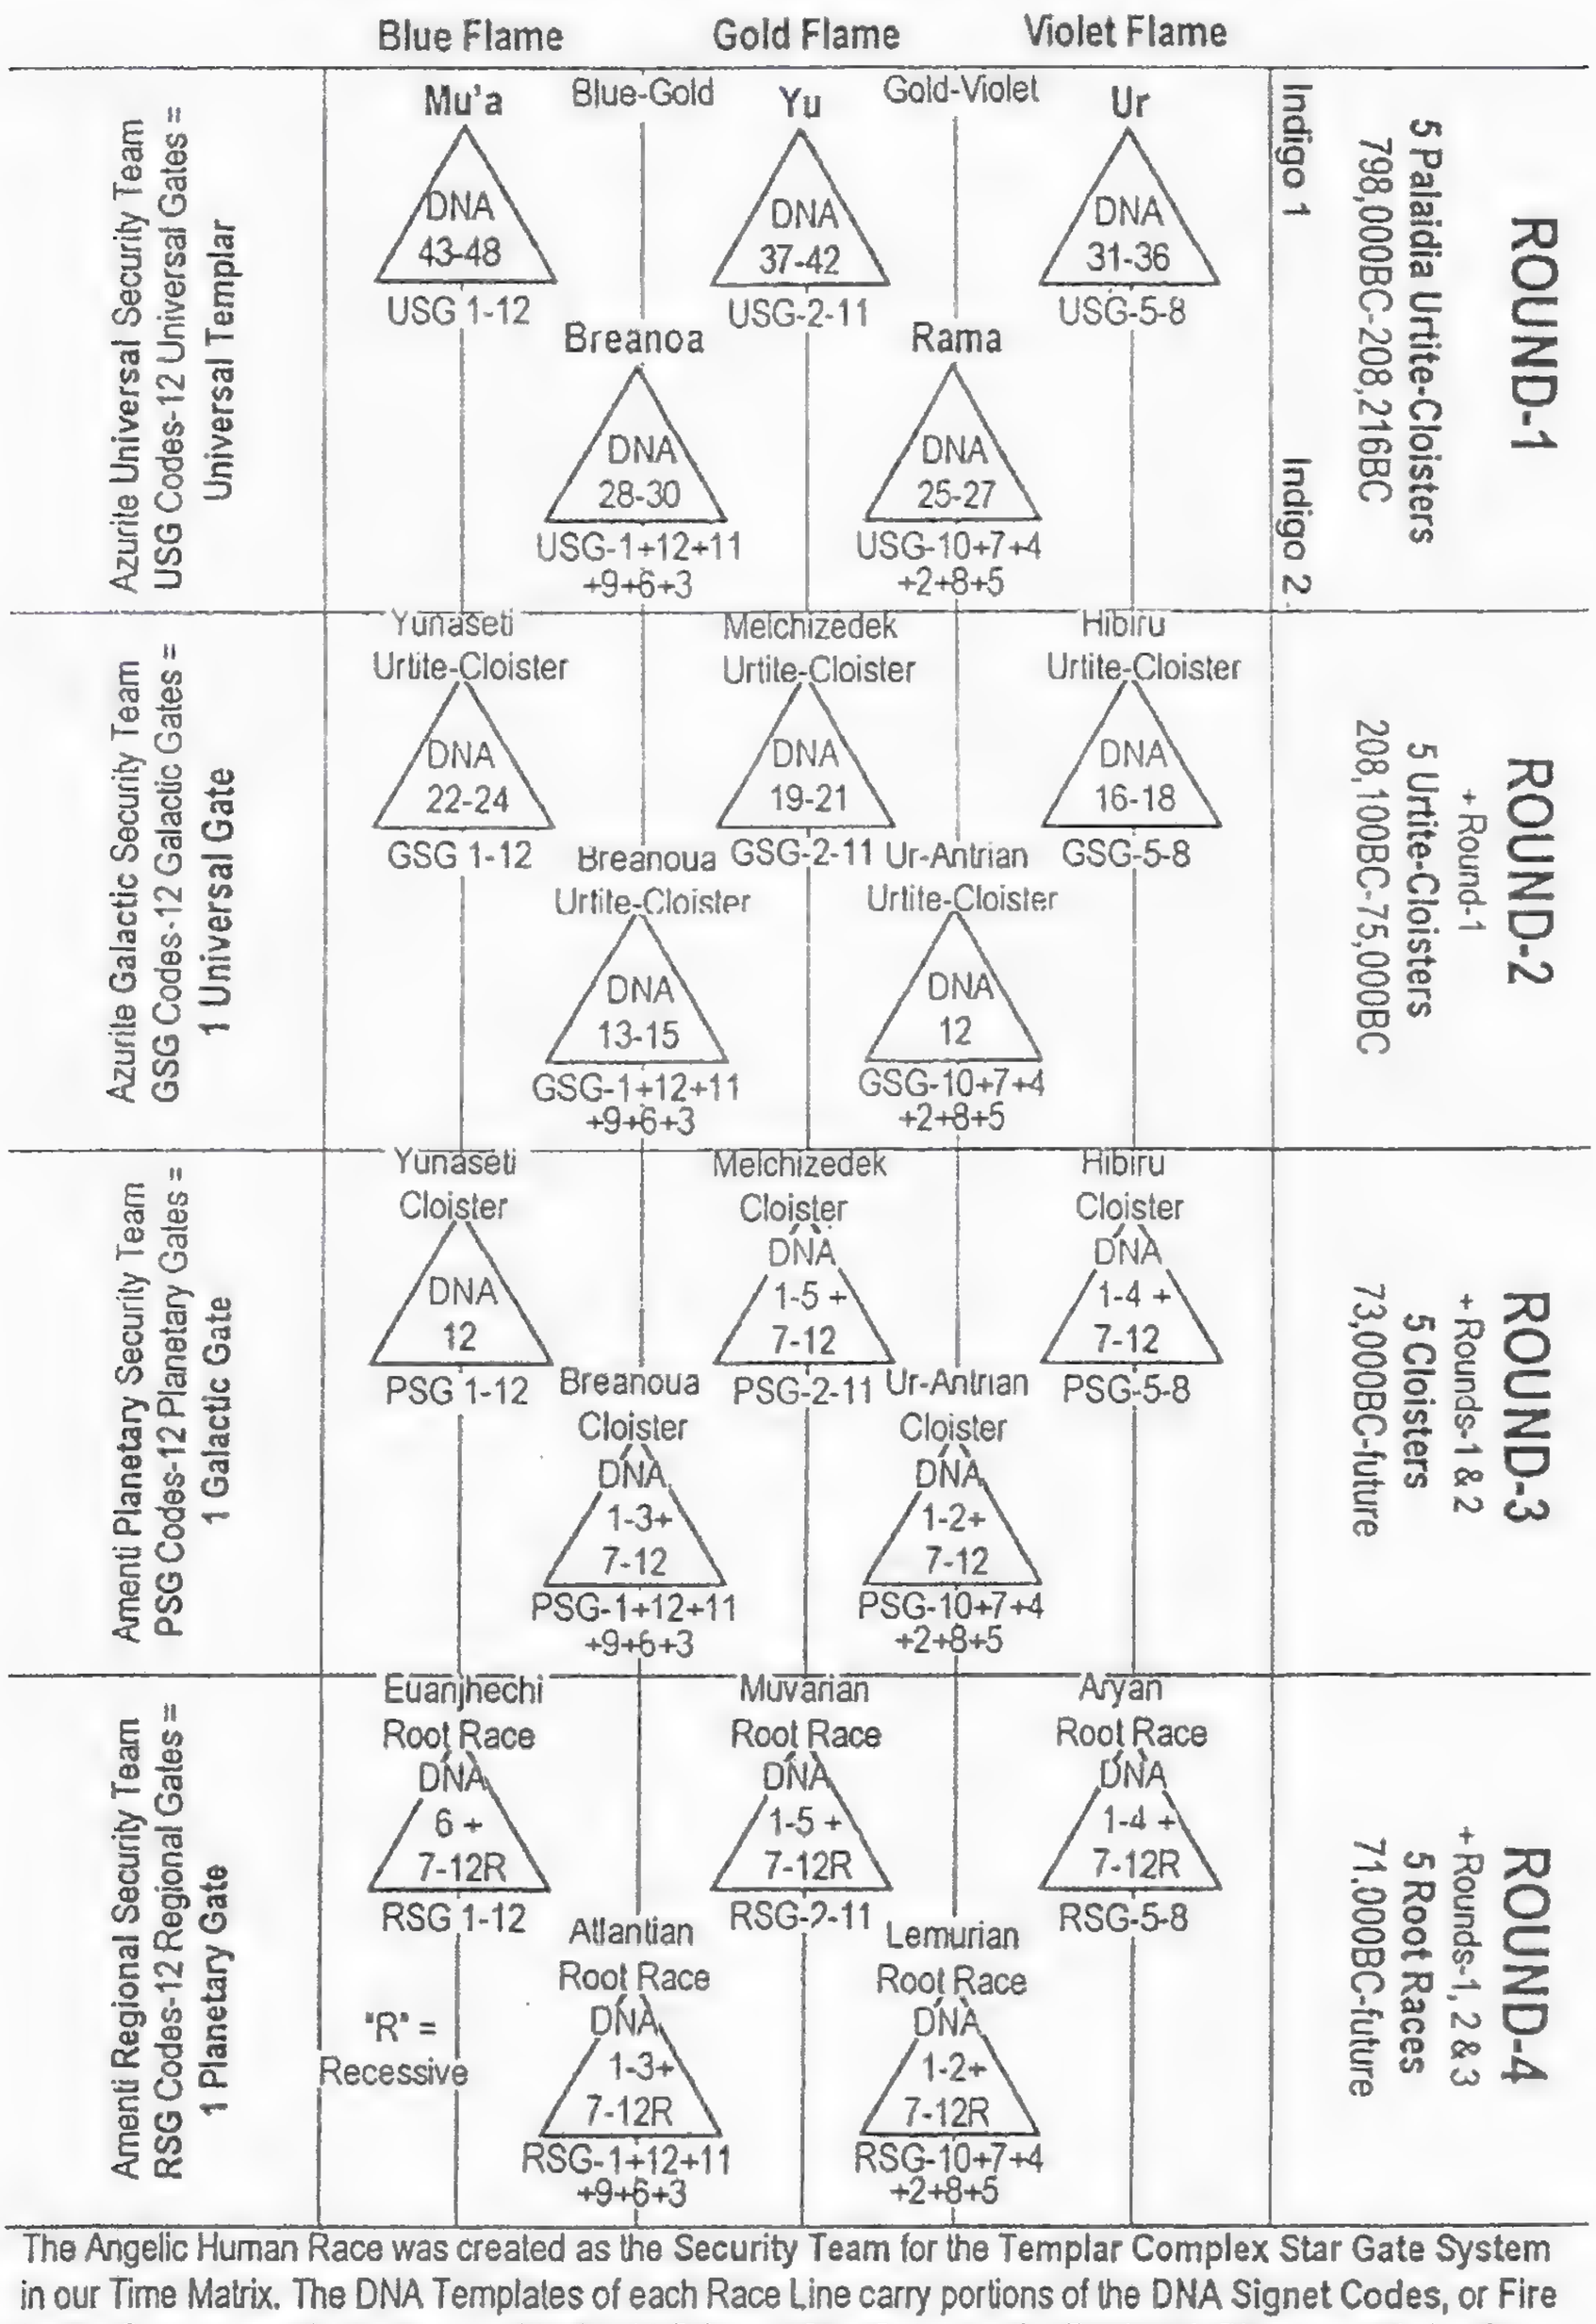
The Cycle of the Rounds *Seeding-3*

The 4 Evolutionary Rounds of the Angelic Human Christos Divine Blueprint



The Angelic Human Race was created as the Security Team for the Templar Complex Star Gate System in our Time Matrix. The DNA Templates of each Race Line carry portions of the DNA Signet Codes, or Fire Letter Sequences, that correspond to the 12 Primary Star Gates on the Regional, Planetary, Galactic and Universal Levels. The DNA Signet Codes are "Flame Codes", denoting the specific primary frequency spectra of the 3 Primal Creation Currents (Blue-Eckatic, Gold-Polaric, Violet-Triadic) carried in the DNA Template.

- As an Angelic Human Race Round evolves on Earth, the correct Fire Letter Sequences of the **Universal Christos Divine Blueprint**, the **D-12 Shield of Aramatena** (Earth's D-12 Pre-matter Liquid-Light Template) transfer from the **Angelic Human DNA Template** into **Earth's Planetary Shields**. This transfer of Fire Letter Sequences, or scalar-standing-wave frequencies, takes place through the Universal ***Kundalini, Maharata, Kee-Ra-ShA*** and ***Khundaray*** Life Force Currents that run through the human body and Planetary Shields. The process of **Fire Letter Sequence transfer** from Angelic Human DNA to Earth's Planetary Shields functions properly only if the DNA Template Core carries the **correct Fire Letter Sequences** corresponding to the **Universal Christos Divine Blueprint natural order** of the 12 Dimensions of manifestation within the Universal 15-Dimensional Scale.

Angelic Humanity's Original Sacred Mission

- The **Divine Commission** of the Angelic Human Race, the **Sacred Mission** for which we were originally seeded on Earth, is to **correct the Fire Letter Sequences within Earth's Planetary Shields**, which were damaged during the "Fall from Tara" 550 million years ago. This Divine Commission is called the **CHRISTOS REALIGNMENT MISSION**.

- The **4 Evolutionary Rounds** of the Angelic Human **Cycle of the Rounds** were **seeded simultaneously**, each within their own Time Cycle that is synchronized with the others. The **Angelic Humans** and **all other life forms on Earth** during each Evolutionary Round all serve a role in anchoring a **specific portion** of the **Fire Letter Sequences** of Earth's **D-12 Shield of Aramatena** Divine Blueprint.

- The Angelic Human race was commissioned as the **Guardians of the Planetary Christos Realignment Mission**. The Angelic Human DNA Template is designed to carry the correct arrangements of Fire Letter Sequences that correspond to the **core program** of Earth's Planetary Shields. If Angelic Humans are not present on planet, and do not **successfully complete** their **intended role** during **Stellar Activations Cycles** ("**SAC**"- a Star Gate Opening Cycle), Earth's damaged Planetary Shields can **not synthesize** the infusion of **interdimensional frequencies** from Earth's opening Star Gates. In this event, **Earth's electromagnetic fields reverse polarity** and the planet enters pole shift during a SAC.

- The Angelic Human Races of Earth were commissioned to serve as the "**Frequency Transducers**" for **Star Gate Frequency** during **SACs**; a "**Collective Buffer Blanket**" to **prevent pole shift** on Earth during SACs, while progressively **re-setting** the **Planetary Christos Divine Blueprint** in Earth's Planetary Shields.

- As the Star Gate frequencies of the Universal Life Force Currents run through the human body and DNA Template, the DNA Template **progressively sends the corrected Fire Letter**

Sequences back into **Earth's Planetary Shields**. With a **critical mass** of Angelic Humans **transmitting the corrected Fire Letter Sequences into Earth's Planetary Shields during a SAC**, Earth's grids will progressively receive the Fire Letter Sequences needed for the Planetary Shields to synthesize the Star Gate frequencies normally. **Infusion** of the **correct Fire Letter Sequences** enables the planet to retain its **natural electromagnetic balances** and **axis alignment** during **SACs**.

- If the Angelic Human races in each of the **4 Evolutionary Rounds** can simultaneously fulfill their part in running the correct Fire Letter Sequences into Earth's Planetary Shields **during a SAC**, the **Planetary Christos Realignment Mission** will be successfully completed. Completion of the Planetary Christos Realignment will create a natural "**D-12 Planetary Maharic Seal**" in Earth's Templar Complex Star Gates, Ley Lines and Vortices. A natural Planetary Maharic Seal will return the potentials of **Eternal Life, Star Gate travel** and **Self-Directed Ascension** to the Angelic Human Races of Earth, while protecting Earth and humanity from any further **Fallen Angelic infiltration**.

- The last SAC occurred on Earth in **208,216BC**, during the **First Evolutionary Round** of the **Palaidia Urtite-Cloister Race** 12-Tribes. In our present Time Continuum, the Palaidia Races were **invaded** by Fallen Angelic Drakonian Races from Orion and were unable to successfully complete their intended Divine Commission. Earth entered **pole shift in 208,216BC**, the Palaidia Empires were destroyed and survivors were resettled to begin the **Second Evolutionary Round** of the Cycle of the Rounds.

- Earth's Planetary Shields have encountered **progressively more misalignment and corruption** since the failed 208,216BC SAC. The pattern of Fallen Angelic Invasion culminating in pole shift that was set during the last consummated SAC has **repeated in each Evolutionary Round** since the pattern was set in **208,216BC** in our Time Continuum. This **Planetary Karma** pattern is presently **set in Earth's grids** as misaligned series of **Fire Letter Sequences**, which will cause the pattern to **repeat again** during the **2000-2017 SAC**.

- **Pole Shift** in our present Time Vector can be **averted** by **realigning the corrected Fire Letter Sequences** in **Earth's Planetary Shields** between **2001-2012**. This will enable Earth to shift into **Trans-Time Alignment** with the Time Continuum in which the other 3 Rounds of the Christos Realignment Mission are **occurring successfully**; the Christos Realignment Mission will finally reach completion.

The Riddle of the "Roundtable"- Location of Race Seedings and Rites of the Rounds

Palaidia Empire Geographical Settlements and DNA Template Star Gate Correlation

The significance of understanding the nature of Palaidia Urtite-Cloister Races, from which contemporary humanity emerged, is not only in that we can regain insight into the **original majesty and "Divine Nature" of the human genome** and the **hidden purpose of humanity's Divine Mission** that the human genome implies. Through understanding the **design and purpose** through which the Palaidia Races were seeded, also reveals the **intrinsic design and hidden purpose** behind and within humanity's **genetic evolution**, and where within this greater evolutionary design our **contemporary human culture** fits. The five Palaidia Races were seeded in **precise locations** on Earth that corresponded directly to the locations of **Earth's 12 Templar Cue Sites** (*re: Chapter-18*). Earth's **12 Templar Cue Sites** mark the surface Earth locations of the **12 Inner Earth Star Gates** and **Crystal Pylon Temples**, through which the **opening** of surface Earth's **12 Primary Templar Signet Site star gates** could be **manually directed**. Not only were the five Palaidia Races distributed among Earth's 12 Templar Cue Sites, they were **distributed with precision**. The **DNA Template** encoding of each Palaidia Urtite-Cloister race **directly correlated** to the **12 Master Key Codes** and **144 Encryption Key Codes** of each **Signet Set** that corresponded to the **Templar Cue Site** to which they were assigned. **The Palaidia Races were settled in geographical areas in which their DNA Template encoding corresponded directly to the Star Gate affiliated with that location**. The **5 races** of the Palaidia Empires **collectively** carried the **12 Universal Master Key Codes and 144 Universal Encryption Key Codes** through which the **12 Planetary, Galactic and Universal star gates of our Time Matrix** could be brought into **remote activation**. The Mu'a (Muarivhia) races carried the **43-48 Strand DNA Temples** corresponding to **Universal Star Gates 1 through 12**, and were thus assigned to **Earth's Templar Cue Site 12** as Guardians of the **12th Gate**. In the **Primal Order** of dimensionalized frequency fields, the **highest frequency fields** have the greatest power, and thus the **dimension-12 Star Gate-12** naturally possesses **overriding directional power** over the **11 Star Gates** below its placement in frequency. The **12th Gate** in the Universal Templar is the frequency passage that opens to **dimension-12** of the **Density-4 Pre-matter 'Liquid Light" field**, the Universal Christos "**Divine Blueprint**"; the "**Shield of Aramatena**" (*re: Chapter: 18*) that corresponds to the coordinates of the Universal Star Gate-12 planet **Lyra, Aramatena**.

In the **Founders** plan of creating the **D-12 Christos Realignment** within the 4 Densities of the Manifestation Templates of Earth, Tara and Gaia and their surrounding galaxies, **Universal Star Gate-12 holds** the **final key** to **planetary and galactic Christos Realignment**. Through Universal Star Gate-12, the **D-12 "Christos Template"** frequencies can be run through the planetary bodies in a galaxy, to **reset** the original natural **Pre-matter Template**, or "**Divine Blueprint**", upon which the galaxy and its planets first manifested. The **Mu'a races** of the Palaidia Empires were designated as **12th Gate Universal Guardians**, and so they were settled in **geographical locations** of Earth that corresponded to Earth's activation and opening sites of the **Universal Star Gate-12** Lyra-Aramatena Gate. The **Mu'a** race lines were incarnate members of the GA's **D-12 Council of Lyra- Aramatena**. The Mu'a races held the **Universal Signet Key and Encryption Key Codes** to **all 12 Universal, Galactic and Planetary Star Gates** within their DNA Templates. The Mu'a races were thus settled in locations corresponding to Earth's **Star Gate-12**, and also in locations corresponding to **other Star Gates** of Earth's Templar that were in most need of **additional security**. The **Yu races** of the Palaidia Empires carried the **Universal Master Key and Encryption Key Codes** to Universal, Galactic and Planetary **Star Gates 2 through 11** in their **37-42 Strand DNA Templates**. **Universal Star Gate-11** is the **Density-4, D-11** Pre-matter gate corresponding to **Aveyon, Lyra**, the **second most powerful Star Gate** in the **Universal Templar**. Members of the **Yu race** are incarnates of the GA's **D-11 Council of Aveyon**, the designated **11th Gate Universal Guardians**, and thus **Yu races** were settled in geographical locations corresponding to Earth's

Star Gate-11 activation and opening points. The Yu races were also settled in **other gate areas** corresponding to **Star Gates 2 through 11**, that were in need of **additional security**. The Ur (Urta) **races** of the Palaidia Empires carried the **Universal Master Key and Encryption Codes** corresponding to **Universal Star Gates 5 through 8** in their **31-36 Strand DNA Templates**, and were thus **8th Gate Universal Guardians**. The **Ur races** are incarnate members of the **GA's D-8 Council of Mintaka-Orion**, and were settled in areas of Earth that corresponded to **Universal Star Gate-8** and in areas corresponding to **Star Gates 5 through 8** that were in need of additional security.

The **most powerful Universal Star Gates** in relation to the operations of Planetary, Galactic and Universal systems in our Time Matrix, and thus those **most vulnerable** to attempts of **Fallen Angelic infiltration**, are the **D-12 Aramatena-Lyra, D-11 Aveyon-Lyra, D-10 Vega-Lyra and D-8 Mintaka-Orion Gates**. In addition to these main Universal Star Gates, Universal Star Gates **1, 2 and 5 are** also points of vulnerability. Star Gates **1, 2, 5, 8, 11 and 12** are "**Control Gates**" in the Universal Templar; they are the "**Gates of the Middle Pillar**", a reality that will be further explained shortly. Races such as the Mu, Yu and Ur, Breanoa and Rama races of the Palaidia Empires, who carry **Universal Templar Security** commissions, are always settled in the geographical locations of Earth that correspond to the **Star Gates** to which their **DNA Temples are encoded**. They are also assigned to **Control Gate** areas that are in need of **additional security**. The seedings of the Angelic Human races of Earth were **never random occurrences**, nor were the hubs of human settlements determined by **general environmental factors**, such as proximity to water and natural food supply. Though environmental factors affiliated with the "hierarchy of needs" for human survival are an **influence** in regard to human settlement on Earth, it is the **location of the Star Gates of Earth's Templar** that have always governed every human seeding and resettlement. The significance of understanding the **DNA Template Star Gate Correlations** between the "ancient" Palaidia Races is not only in that through doing so we can **identify the core geographical regions from which human civilization emerged**. The **greatest importance** in understanding the **DNA Template Star Gate Correlation** lies in that through this realization we can begin to understand the **personal and collective roles** that **contemporary humans** play in relation to the **Founders Christos Realignment** Mission. We can also begin to realize why the true history of our evolution on Earth has been saturated with attempts of **Fallen Angelic** infiltration and intended dominion.

The ancient **Urtite-Tri** and **Bi-Cloister Races** that seeded the **Palaidia Empires of 798,000BC** represent the **genetic heritage** from which **contemporary humanity** emerged. The emergence of contemporary humanity was not an **accidental occurrence** that randomly emerged from this **previously organized** Palaidia Empire plan. The evolution of contemporary humanity has **always been** an intrinsic part of the Palaidia Empire Emerald Covenant agenda; **humans of the present time** are as much a part of the Founders intended **Planetary Christos Realignment Mission** as are the Palaidia races of ancient times. What was **not an intended part of the Palaidia Angelic Human Divine Evolution plan** was the degree to which Fallen Angelic infiltration, and resulting **DNA Template** and consciousness mutation, has progressively occurred within humanity's evolution on Earth. Humanity's **current state of amnesia** regarding its Angelic Heritage, and subsequent neglect of its **intended Divine Commission** as the **force through which Planetary Christos Realignment would occur**, was **not** part of the Founders' plan. This digression of human biology and consciousness was, however, **precisely the intention of Fallen Angelic races**, who understood that the **Angelic Humans of Earth were a primary obstacle to fulfillment of their plan** to take over the **Universal Templar Complex** in this Time Matrix. The human evolutionary design of **12-Tribes Seeding-3 began** with the **five Urtite-Cloister Maji** races that seeded the first **12 Palaidia Empires** in regions corresponding to Earth's 12 Primary Star Gates, **but this plan did not stop with the Palaidia Empire races.**

Cycle of the Rounds, Divine Blueprint of Human Evolution, Christos Realignment Mission

The **Evolutionary Divine Blueprint** of human evolution on Earth was designed to **accomplish the Founders' Planetary Christos Realignment** through a **series of races cycles** called **ROUNDS**. Each **Round** of human race settlement was intended to progressively bring in a **cycle of frequencies** from the **Universal Christos Template**, the Shield of Aramatena. The Manifestation Templates of the Earth-Tara-Gaia body cannot be fully corrected to the Christos Blueprint **all at one time**. Manifestation Templates are **scalar-standing-wave grids** of interdimensional light

and sound frequencies upon which the **planetary molecular base** builds up into manifestation. The **molecular structure** of the planetary body must **progressively expand** to hold the **greater amounts of interdimensional energy** that will infuse into the Planetary Manifestation Template through the Christos Realignment. If too much frequency is fed into the Planetary Template too rapidly, the **physical structure** of atoms, molecules and sub-atomic particles will be unable to alter its **natural vibration rhythm** fast enough to keep up with **Template acceleration**. If an excessive amount of D-12 frequency from the D-12 Shield of Aramatena Universal Christos Blueprint was brought into the Planetary Manifestation Templates of the Earth-Tara-Gala system at one time, the planetary body would **literally explode**. The Founders designed the human evolutionary plan with full understanding of these basic principles of **Unified Field Physics and Primal Order Creation Mechanics**. The Palaidia Urtite-Cloister Maji races, as bearers of the **greatest amount of frequency** through their DNA Templates, were **seeded first**. The Palaidia Urtite-Cloister Maji presence served to **regulate the progressive flow of D-12 frequency into the Planetary Shields** of Earth's Manifestation Template and to **set the Core Template** or "**Kathara Grid**" of the D-12 Shield of Aramatena within the Planetary Shields of Earth-Tara-Gala. **Next, a series of evolutionary Rounds would take place**, by which **Angelic Human races** with **less sophisticated DNA Templates**, and thus **less frequency transmission capacity**, would **sequentially cycle** on Earth, to **slowly and progressively increase** the amount of frequency brought into Earth's Planetary Shields from the D-12 Shield of Aramatena.

The **Cycle of the Rounds** was intended to work in the following manner: The Seed Races with the highest DNA Template frequency transmission capacity were brought in first to **anchor the Kathara Grid Template of the Shield of Aramatena** into Earth's Planetary Shields. The energy naturally transduced through their accelerated DNA Templates was **progressively received, stored and released in increments into Earth's Planetary Shields** through the **12 Selenite Rods** in the **Crystal Pylon Temples of Inner Earth**. When Earth entered a natural Planetary Stellar Activations Star Gate Opening Cycle (**SAC**), the **Maji Races** would **hold the natural configuration** of the **D-12 Shield of Aramatena** on the planet, serving as a **Temporary D-12 Christos Grid** within the Planetary Shields. Through the **Temporary D-12 Christos Grid** formed on Earth by the **presence of the Maji Races**, a quantity of **D-12 frequency** could be re-introduced into Earth's Planetary Shields **during every natural SAC**. Through this progressive re-introduction of D-12 frequency into Earth's Planetary Shields, the portions of Earth's **Axiatonal Line and Ley Line systems** that had been **damaged** in the **549,998,000 BC cataclysm of Tara** (*re: Chapter-1: Origins and the Fall section*), could be **progressively realigned** with the Shield of Aramatena Christos Blueprint. The **physical bodies of the Maji Races** served as **literal conduits of electromagnetic energy**, through which the **D-12 Shield of Aramatena frequencies** could be **held on planet for progressive planetary grid repair**, until Earth's grids were **repaired sufficiently to hold the natural, permanent D-12 Christos Realignment.** Originally, **all species on Earth** were seeded to serve as **conduits of frequency** through which the Founders **D-12 Christos Realignment** could be progressively fulfilled in the Earth-Tara-Gaia system. The damage Earth's grids incurred through the Taran cataclysm made Earth's Templar Complex **unable to naturally withstand participation in a SAC**. The Earth-Tara-Gaia system would have become a **Phantom Planet system** (*re: Chapter-19*), if it had not been for the Founders' implementation of the **Angelic Human mission**. Humanity and other species, were seeded on Earth to **form a sustaining energetic template** through which **progressive D-12 Christos Realignment and repair of Earth's Planetary Shields** could be rendered over **several cycles** of the planet's evolution within the **Density-1 Time Cycle**.

The design of the Cycle of the Rounds began with seeding of the **Palaidia Urtite-Cloister Maji Races** and was then to continue with **progressive emergence of races** that carried **smaller portions** of the Maji's DNA Template. Each race with **less sophisticated DNA Templates** served to **bring in and hold** in Earth's Planetary Shields, **specific cycles of sub-frequency from the Shield of Aramatena**, during points in the planetary **Time Cycle** when those specific sub-frequencies were needed to amplify and "**fill out the frequencies**", in Earth's Manifestation Template. In the **Cycle of the Rounds design**, races with **greater genetic sophistication** serve to hold in Earth's Planetary Shields, the **12 Primary Dimensional Templates** of the Shield of Aramatena Christos Divine Blueprint. Races with **less genetic sophistication** serve to hold additional sub-harmonics of the **144 Secondary Dimensional Sub-frequency Templates** of the Christos Blueprint. Once they were **fully seeded and in position** within various interrelated Time Cycles of Earth, Tara and Gaia, the **Angelic Human races** were intended to hold and direct, within the Earth-Tara-Gala Template, the **greatest portions** of the D-12 Shield of Aramatena Christos Blueprint frequency

spectra. The **animal, plant, insect and mineral kingdoms** of Earth-Tara-Gala were intended to hold the **sub--harmonics of the Christos Blueprint**. Together, the **Angelic Human Races** and the **natural kingdoms** of Earth-Tara-Gala would **bring in and sustain the D-12 Christos Blueprint**, progressively **healing distortions** in the Earth-Tara-Gala Planetary Shields to fulfill the natural Christos Realignment of the Earth-Tara-Gaia systems. As **each cycle of human race evolution entered manifestation** on Earth, **more of the Christos Template** would be **progressively anchored and integrated** into Earth's Manifestation Template. When the **Cycle of the Rounds** was **completed**, and all portions of the 12-Tribes Angelic Human races were in position on planet, a **final Stellar Activations Cycle** would allow the Angelic Human races to **fully anchor** the **D-12 Planetary Christos Blueprint** in Earth's Template. In completion of the Angelic Human Mission, the **D-12 Maharic Shield of Aramatena** Planetary Christos Blueprint would be **simultaneously anchored in various interrelated Time Vectors and Time Cycles** of Earth-Tara-Gaia. At this time, the **Planetary Shields would fully realign to their natural D-12 order**, allowing the planet to **self-sustain a permanent, natural D-12 Christos Alignment**.

When the **full frequency spectrum of the D-12 Shield of Aramatena Template Christos Blueprint** is anchored in Earth's Template "**at one time**" during a **Stellar Activation Cycle** when the natural planetary, galactic and universal Star Gates open, the Earth-Tara-Gaia Planetary Shields can hold the full D-12 **Maharata Creation Current**. Anchoring of the full D-12 spectrum of the **Universal Maharata Current**, or Pre-matter "**Christos Current**" (also sometimes referred to as the "Photon Belt" or "Holographic Beam"), would place the planet within its naturally intended **Planetary Maharic Seal**. **Manual stimulation** of the natural **Planetary Maharic Seal** in **numerous concurrent Time Cycles** will allow the planet to **regenerate** its natural ability to **self-sustain a permanent D-12 Planetary Christos Alignment**. Restoration of the planet's natural Christos Alignment will **re-establish** the "**Divine Right Order**" of the planet's **original galactic position** and **Universal Time Cycle Alignment**. Under a planetary D-12 Maharic Seal, the **4 Densities** of the Earth-Tara-Gaia system can **fully re-connect** to the **Universal Manifestation Template** of our Time Matrix. **Rehabilitation** of the Earth-Tara-Gaia Planetary Shields through the **Christos Realignment** will allow the 4 Densities of the planetary system to **re-connect** to the **Density-5 Kee-Ra-ShA Primal Light Fields** and the **Khundaray Primal Sound Fields** beyond the Time Matrix. Through this "Divine Connection", the Planetary Shields of Earth-Tara-Gaia can receive **perpetual circulation** of the "**Rainbow Ray**" **Primal Creation Currents** from **Source**. Once the natural Density-4, D-12 Planetary Maharic Shield is restored on Earth, Density-3 Gaia, Density-2 Tara and Density-1 Earth will be restored to the status of **Ascension Planets** (*re: Chapter-19*), their inherent **life-fields** capable of attaining full **Ascension** out of the Time Matrix. **Until the Christos Realignment of Earth is completed**, most of Earth's life-field is **trapped in time within the finite experience of Density manifestation**, unable to enjoy the **Divinely Given Gift** of **self-motivated Ascension** and its inherent **perpetual renewal of Eternal Life and co-creative life experience**. The **Angelic Human** lineage of Earth was seeded as an intrinsic part of a **Divinely Intended Mission** of Planetary, Galactic and Universal **Rehabilitation**. This mission was highly organized, beautifully choreographed and intrinsically synchronized through the natural cycles of Time in our Time Matrix. **Time Cycles** are **repeating cycles of vibrational variance** inherent to the **Primal Order** of the **Unified Field** of consciousness and energy that **IS** our **Time Matrix**. **Time Cycles govern the Primal Creation Mechanics**, or the **organic physics of manifestation**, by which consciousness experiences the worlds of space-time-matter. The design of the **Cycle of the Rounds**, by which humanity's evolution on Earth serves the higher purpose of **Universal Rehabilitation**, is built upon the natural contours of Cycles of Universal Time. Each phase of humanity's evolution on Earth, including **contemporary human civilization**, is an **intrinsic and necessary part** of this greater Universal Rehabilitation and Restoration plan.

Four Evolutionary Rounds, Co-Resonant Continuum Alignment, Trans-Time Connection and the Christos Realignment Mission

The **five Urtite-Cloister Maji races** that first seeded the Palaidia Empires of 798,000BC began the current **Cycle of the Rounds** on Earth. The Urtite-Cloister Mu'a, Yu, Ur, Breanoa and Rama races, each with their respective DNA Template Star Gate Correlations, are the seed races from which contemporary humanity emerged. Through this

ancestral genetic affiliation, the **humans of contemporary Earth** also hold the **DNA Template Star Gate Correlations** inherited through the particular **Palaidia Empire race** from which their original genetic ancestry emerged. Though we have presently **lost memory of our greater purpose** within the **Planetary Christos Realignment Mission**, our current human races are as important as the Palaidia Empire races, in fulfillment of the Founders' Planetary, Galactic and Universal Rehabilitation plan. The **Cycle of the Rounds**, through which human evolution was intended to bring about the Christos Realignment on Earth within a specific quadrant of time, is designed to occur in 4 phases, or **4 Rounds**. The **First Round** of **Seeding-3** Human evolution took place with seeding of the **five 25-48 Strand DNA Template Palaidia Urtite-Cloister Maji races** of the subterranean Palaidia Empires in **798,000BC**, and their subsequent emergence onto Earth's surface between **750,000BC and 500,000BC**. The **Second Round** took place as the **five 12-24 Strand DNA Template Urtite-Cloister Races** emerged in **206,000BC** from the five Palaidia Urtite-Cloister Maji races into the 12 Urtite-Cloister Palaidia Empires, and **spread across Earth's surface** into areas to which their DNA Templates corresponded. The races of Human Evolution **Rounds 1 and 2** carried the **12 Universal Master Key Codes** and **144 Universal Encryption Key Codes** of the 12 Universal Star Gates within their **DNA Templates**; they anchored the **12 Primary Dimensional Templates of the D-12 Shield of Aramatena** within Earth's Planetary Shields. The Second Round was delayed from its originally intended schedule due to **warring with Fallen Angelic races** and a resulting planetary cataclysm in **208,216BC**. The **Third Round** of Angelic Human evolution took place in **73,000BC** as the five **7-12 + 1 Strand DNA Template Cloister Races** emerged through the five Urtite-Cloister races, carrying sub-harmonics of the specific DNA Template Star Gate Correlations characteristic to the specific Urtite-Cloister Race from which they emerged. The **Fourth Round** of Angelic Human evolution began shortly thereafter, as the **5 Root Races** with **2-6 Strand + dormant 12-Strand DNA Templates** began their progressive emergence into human incarnation in **71,000BC**, through their corresponding Cloister race of the **5 Cloister Races** (*re: Chapter-1: Root Races-Cloistered Races section*).

Each of the 4 Rounds of the Human Evolutionary Blueprint is designed to bring into Earth's Planetary Shields during specific Time Vectors a designated portion of the D-12 Shield of Aramatena Christos Template. If the Cycle of the Rounds had proceeded without progressive Fallen Angelic interference, the 4 Rounds of the Angelic Human lineage would have fully anchored the D-12 Shield of Aramatena and completed the Christos Realignment Mission on Earth long ago. The **Fourth Round** of Angelic Human evolution is **still in progress** from a **present-day earthly stand-point**, as **2 of the 5 Root Races** and **1 of the 5 Cloister Races** have not yet entered their birthing cycles on contemporary Earth. In truth, these "**not yet manifested**" Fourth Round Angelic Human race strains **already exist and are evolving** within **higher frequency Density-2 Time Vectors** of Earth, that represent a "**future time**" Time Cycle of Density-2 **Tara** in relation to the position of races in contemporary **21st Century** Density-1 Earth. In the same fashion, the evolutionary **Rounds** of the **Palaidia Urtite-Cloister, Urtite-Cloister, Cloister** and "earlier" **Root Races** are also **occurring concurrently** with contemporary human evolution, in both **higher and lower-frequency Density-1 Time Vectors** of Earth. The design of the **Cycle of the Rounds** Angelic Human Evolutionary Blueprint reflects the **reality of physics** upon which space-time-matter manifestation is built; **time is simultaneous**. **Time Cycles** represent **repeating cycles of vibrational variance** ensconced within the energetic platform of the **Unified Field** of consciousness and energy that is the medium within which all manifest creation takes place. The repeating cycles of vibrational variance that form Time Cycles and their inherent smaller **Time Vector cycles**, provide **coherent sequences of linear vibrational rhythms** for **consciousness to follow** in order to engage the manifest experience of linear passage and evolution through time. The **Cycle of the Rounds** Human Evolution- **Christos Realignment Mission** is being fulfilled through the **Four Rounds** of Angelic Human Races, the **collective carriers** of the **D-12 Shield of Aramatena** Christos Divine Blueprint, being **simultaneously seeded** in various **Time Vectors** of the Earth-Tara-Gaia **Universal Time Cycle**. Through this concurrent, simultaneous seeding of the Four Rounds, portions of the **Christos Blueprint** are **simultaneously entered** by their **designated races** into the **4 Densities of the Planetary Shields**, in their appropriate Time Cycle and energetic coordinate of **corresponding vibrational co-resonance**.

The seemingly complex **inter-dimensional, inter-time reality of human evolutionary design** can be simply understood by viewing each of the **4 Rounds** of Angelic Human Seeding-3 as **taking place right now**, in **space-time vectors connected to but different from** our Earth's contemporary Time Vector. In our Time Vector, Earth has begun the **2000-2017 Stellar Activations Cycle** (SAC), through which the Earth's Templar and Star Gates will activate.

Activation of Earth's Templar in the present SAC is progressively creating a **temporary blending of Time Vectors** between the past, present and future Time Vectors in which the **other Rounds** of the Christos Realignment are concurrently taking place. **If contemporary humanity fulfills its intended role as part of the Christos Realignment Mission Team**, by consciously anchoring our portion of the D-12 Shield of Aramatena Christos Field in our Time Vector, the success of the Christos Realignment can be finally achieved. If we do our part, we will create a **link through time**, energetically connecting our **present Time Vector** to the **past and future Time Vectors** in which the other evolutionary Rounds are being **successfully orchestrated**. Through this **Trans-time Connection**, our **present Time Vector** will "phase-lock", or lock into alignment with, the **probable future Time Vector** and its **corresponding past Time Vectors**, in which the Christos Realignment, the Emerald Covenant Lyran-Sirian cultural model and humanity's successful evolution into 12-Strand Angelic Human **freedom** are **already manifest**. Through doing our part **now**, we will choose, **from the present**, the **desired probable future** (from our present standpoint) our race will see manifest. In choosing, from the present, the path of an **enlightened future and "Destiny of Joy"**, we will simultaneously re-align our present Time Vector with a more **desirable set of past Time Vectors**, in which undesirable past events will lose their power and influence within our experientially manifest present and future.

In the realities of the **Mechanics of Manifestation**, the "**point of power is always in the present**". Past and future Time Vectors **extend out from every present moment point** as a series of **electromagnetic "rays"**, or interconnected, cyclic patterns of linear progression with **varying rhythms of vibrational oscillation**. A Time Cycle, and its inherent Time Continua and smaller Time Vectors are **all fixed, repeating cycles of frequency** characterized by **vibrational variance**, that **cross through each other** at fixed points when the frequency rhythms that define each cycle reach a temporary state of **vibrational co-resonance** (hold the same vibration). Our **present moment point** emerges as **one small point** of vibration-oscillation rhythm within the **greater rhythm** of the Time Vector, Continuum and Cycle within which it is placed. When our planet enters a point in its fixed linear Time Vector at which other Time Vectors **cross through our Time Vector, via temporary vibrational co-resonance**, we have the power to literally **shift our present Time Vector** alignment into an **alternate linear Time Vector** with a different future "**event horizon**".

If our present moment point exists as part of a linear Time Vector cycle in which **undesirable "past" events**, serving as the "cause", have their reciprocal "effect" manifestation in an **undesirable "future" event horizon**, we can change our direction **from the present** by changing our **present vibrational rhythm**. The **present moment** is the "**Cause**"; the **past** (lower frequency projection) and **future** (higher frequency projection) are the **"effects"** that **extend backward and forward in time** (simultaneously emerge into lower and higher frequency projection) from the frequency pattern and vibrational rhythm that defines the present moment point. From the present moment we CAN **change the influence of the past**, as well as re-define the future. The past is not changed by **negating memory** of its reality or by invalidating its **apparent manifest existence**. The "past", projected from one present frequency pattern, must be acknowledged and incorporated as part of the present frequency pattern ("past" brought into the present moment of power). Once the remembered and evidential **past** is incorporated into the **present moment**, the entire frequency pattern **in the present** needs to be altered **into vibrational co-resonance** with the frequency pattern of the **desired future** manifestation. There are many complex elements to mastering the skill of projecting desired outcomes into our personal experiential future. Though each **individual** does possess the inherent power to **create desired manifest experience**, this **personal power** is always **tempered and directly influenced** by the larger **frequency-field** of the **Collective Consciousness**. In like fashion, the **manifestation powers** of both the **personal and collective consciousness** are directly regulated and influence by the frequency-field of the **Planetary Time Continuum** within which personal and collective reality take place. The **frequency field** that constitutes the **Planetary Time Continuum** is created by **numerous concurrent Time Vectors** and the **collective consciousness** of all manifest kingdoms, from the **elemental, plant and animal kingdoms**, to the human **evolutionary collectives**, that exist within each Time Vector. It is due to these **greater hidden influences** of the **Planetary Time Continuum**, which operate through the **collective sub-conscious** and **DNA Templates** of incarnate species, that our **individual efforts** to achieve **precise results in direct manifestation** of desired events often **fall short** of our conscious expectations.

Shifting a **present-moment Time Vector** into a **different Time Continuum** that has a more **desirable future outcome** than that of the Time Continuum of which our present Time Vector is a part, CAN be achieved from the present. But such a **Time Continuum shift** can be accomplished ONLY within the **natural mechanics of physics** that

govern the **interdependent dynamics** of race, planetary, galactic and universal **Time Cycles**. One cannot simply choose to shift to a different Time Continuum **at any moment-point in time**; Time Continuum shifts can be made only in present-moment points within which **other Time Continua interface** with the present-moment Time Vector through **vibrational co-resonance**. This principle of "**Co-resonant Continuum Alignment**" applies to the smaller time cycles that govern evolution of an individual through one lifetime, and also to the larger **Planetary Time Cycles** that govern a planet's evolution through the Density Levels of our 15-Dimensional Time Matrix. **Stellar Activations Cycles** (SACS) are points of planetary, galactic and universal "**Co-resonant Continuum Alignment**" during which the divergent frequency rhythms characteristic to various planetary, galactic and universal Time Continua temporarily come into a state of vibrational co-resonance (simultaneously reach the same vibration/oscillation rhythm). Points of temporary vibrational co-resonance that naturally occur between various Time Continua allow the **usually separated Time Continua** of various systems to **cross through and open into each other**. **Star Gates** represent the **geographical and spatial coordinates** at which the vibrational co- resonance of multiple Time Continua regularly occurs in **fixed, repeating cycles** of Co-resonant Continuum Alignment. At points in a Time Continuum where Co-resonant Vibrational Alignments occur, **natural Star Gates open** in the **spatial coordinates** that **mark the points of vibrational co-resonance** or continuum cross-through. Star Gates remain open until the vibrational rhythms of the various interfacing Time Continua at the Star Gate points begin to **cycle out of vibrational co-resonance**, shifting the various Time Continua **out of Co-resonant Continuum Alignment**. **Star Gates close** as the various Time Continua **move past their vibrationally co-resonant "cross-over" points**, and return to their respective fixed, repeating cycles of vibrational variance. SACs are the periods in linear time when planetary, galactic and universal Time Continua enter temporary Co-resonant Continuum Alignment; only during SACs can a planetary body be shifted from its present Time Vector into a Time Continuum that holds a more desirable future outcome.

If contemporary humanity can fulfill its intended **Fourth Round role** within the **Christos Realignment Mission** during the **2000-2017 SAC**, we will be able to establish a literal, inter-dimensional electromagnetic **Trans-Time Connection** from our present period to the **SACs taking place in other periods** of past and future. In fulfilling our Divinely Intended Mission in the present, we will **link Earth's present Time Vector** to those of SACs past and future during which the Angelic Human races of the other **3 Evolutionary Rounds** are also fulfilling their Divine Mission of anchoring the **D-12 Shield of Aramatena Christos Blueprint**. In this way we will put Earth's present Time Vector "**on line**" with the **probable** (to us) **future** in which the Christos Realignment has **successfully occurred**. Through aligning Earth's present Time Vector with future Time Continuum cycles in which the Christos Realignment is successful, we can shift our present planetary Time Vector out of its current probable future of Fallen Angelic- Illuminati Human dominion. We can literally **realign the event horizon** upon which our present is moving into the future with the Time Continuum event horizon in which our **probable future of Freedom and Joy** is manifest. The **concept** of Time Shift is simple, but the **dynamics of interdimensional physics** by which a Planetary Time Continuum Shift can tangibly occur are **extremely complex**, far beyond the sophistication of present earthly science. Though the physics of Planetary Time Shift are complex, the **methods by which humanity can fulfill its intended Fourth Round role** in anchoring the frequencies of the D-12 Shield of Aramatena Christos Divine Blueprint are, thankfully, **relatively simple**. The methods by which humanity can fulfill its intended Sacred Mission can be found within the **Secrets of the Tribal Shield Rainbow Roundtables**.

The Universal Templar Complex

- The systems of interwoven Manifestation Templates within the 5 Matter Density Levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX**. The Manifestation Template of the human body, likewise structured upon this Primal Order, also manifests through a personal **INTERNAL TEMPLAR COMPLEX** of interwoven 15-Dimensional Manifestation Templates.

- Universal, Galactic and Planetary Scalar-wave Templates of the Universal Templar Complex are called **Scalar SHIELDS**. Shields are sets of 3-Dimensional Scalar Grids upon which the 5 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct **3 Primary Flash Line Sequences**, or Partiki Phasing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Templar Complex of the human body is also organized into 5 sets of 3-Dimensional **Personal Scalar Shields**, through which the matter form and 5 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Partiki Phasing, each 3-Dimensional Scalar Shield manifests a **3-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN** that creates the energetic framework within which externalized manifest experience can take place. Within the Universal Templar Complex, these Spherical Domains form 5 separate yet interwoven Reality Fields or Harmonic Universes, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Particle Spin and variance in Time Cycle orientation. Within the Personal Internal Templar Complex, the Spherical Electromagnetic Domains created by synchronistic, dimensionalized Partiki Phasing form within the 15-Dimensional Time Matrix 5 separate yet interwoven **STATIONS OF CONSCIOUSNESS** called **HOVA BODIES**. The **5 Hova Bodies** of human Manifestation Template Anatomy within the Time Matrix represent the **5 Subtle Energy Bodies** of human bio-energetic field construction, through which human identity experiences series of **SIMULTANEOUS INCARNATIONS** within the various Time Cycles and matter density levels of the Time Matrix. **Human Evolution** is the process by which the electromagnetic frequencies and stations of consciousness of the 5 Hova Bodies progressively merge to transmute the physical matter form backward through the various Matter Density stages through a process called **TRANSMUTATIONAL DIMENSIONAL ASCENSION**.

- Each of the 5 Shields within a 15-Dimensional Manifestation Template is structured upon **3 KATHARA CENTERS** within the core Primal Order of the Level-1 Kathara 12-Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a **SIGNET Star Crystal Seal** within the 3-Dimensional scalar Shields. Within the universal, galactic and planetary Templar Complex the Signet Seals operate as **Star Gates** between the Time Cycles of the 5 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Templar Complex, each **Hova Body** is structured upon **3 Kathara Centers** within the embodied Personal Kathara Grid. Each embodied Kathara Center forms a **Signet Star Crystal Seal** within the human anatomy. The embodied **Signet Seals** operate as **Bio-electric Windows** within the **DNA-RNA**, that link the Stations of Consciousness and various **Simultaneous Incarnations** of the identity that exist within the Time Cycles of the Time Matrix to each other, across the illusions of time. Through the embodied Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows, the individuated aspects of **ETERNAL IDENTITY** in time are indelibly linked in consciousness. This intrinsic linking of personal consciousness within the various simultaneous cycles of time appears to the embodied human awareness as **REINCARNATIONAL MEMORY**.

- The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both microcosmic and macrocosmic Manifestation Templates share, and are interwoven through, the same **Primal Structures** of the Kathara 12-Tree Scalar Grid, the 5 3-Dimensional Scalar Shields and Signet, Star and Seed Crystal Seals and the Diodic Point "Black and White Hole Sets" of energy vortices that manifest upon the Kathara Grid. Human consciousness and biology are directly and indelibly connected to the Universal Templar Complex through the **Personal Internal Templar Complex** of the Personal Manifestation Template.

12 PRIMARY KATHARA CENTERS

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary Sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensional-ized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

FYI

Star Gates, Time Cycles and the Halls of Amenti

- Each Time Matrix has a system of **energetic passageways** between each of the 15 Dimensional Frequency Bands and 5 Harmonic Universes-Matter Density levels, that allow energy and consciousness to circulate throughout the Time Cycles of the Time Matrix System. **Energy passageways form at points where the Flash Line Sequences** (Partiki Phasing "flashing on and off' rhythms) of **various fixed Euiago Time Cycles** (Time Cycle of one 3-dimensional Harmonic Universe/Density Level) **and Time Continua regularly cross over and pass through each other**. Points in the 3-Dimensional Flash Line Sequences where **Euiago Time Cycles** repeatedly pass through each other are called **CO-ORDINATE POINTS**. Points where Time Continua regularly pass through each other are called **SUBORDINATE POINTS**.

- Coordinate Points are the regular crossover points between Harmonic Universes and Matter Density levels where Flash Line Sequences repeatedly cross through each other on a **VERTICAL AXIS**, allowing energy to vertically ascend and descend through the 15-Dimensions, 5 Harmonic Universes and 5 Euiago Times cycles in the Time Matrix. **Co-ordinate Points** are called **STAR GATES**. The system of **15 Primary Star Gates** that span a Time Matrix is collectively called the **DIMENSIONAL LOCK SYSTEM**. Star Gates are the fastest and easiest means of passage through time in a Time Matrix. In **spiritual tradition** Star Gates are usually referred to as **ASCENSION PASSAGES**.

- **Subordinate Points** are the regular crossover points between Dimensions and Time Continua in each Harmonic Universe, and between Harmonic Universes, where Flash Line Sequences repeatedly cross through each other on a **HORIZONTAL** or **DIAGONAL AXIS**. Through Subordinate Points energy circulates horizontally and diagonally between the Particle (Particum) and Anti-particle (Partika) Universes and throughout the 5 Harmonic Universes of the 15-Dimensional Scale. **Subordinate Points** are called **TIME PORTALS**. The system of many Time Portals that span a Time Matrix is collectively called the **TIME PORTAL SYSTEM**.

- The interwoven network of the synchronistically organized **Dimensional Lock** and **Time Portal Systems** (and the scalar templates that form them) within a Time Matrix is collectively referred to as the **UNIVERSAL TEMPLAR COMPLEX**. Portions of the Universal Templar Complex containing Star Gates and Time Portals that pass between different galaxies within the 5 Matter Density Levels and Time Cycles of the Time Matrix are called the **INTERGALACTIC TEMPLAR COMPLEX**. Portions of the Universal Templar Complex that link various planets and stellar bodies in the same galaxy to each other and to the Intergalactic and Universal Templar Complex are called the **INTERPLANETARY TEMPLAR COMPLEX**. Portions of the Universal Templar Complex that link various regions on one planetary body to each other and connect the planetary body to the Interplanetary, Intergalactic and Universal Templar Complex are called the **PLANETARY TEMPLAR COMPLEX**.

- Earth's Planetary Templar Complex, which links Earth to the Interplanetary, Intergalactic and Universal Templar Complex, is called **THE HALLS OF AMENTI**. The Halls of Amenti are located in a portion of the Earth's Manifestation Template Scalar Grid that corresponds to Earth's core, and can be accessed from various regions throughout the globe.

- The Halls of Amenti link Earth to various locations within the Time Matrix and to the portions of the Earth's body that are stationed within the Density levels and Time Cycles of the higher dimensional Harmonic Universes. Earth and our perceivable universe are stationed within the Euiago Time Cycle of Density-1, Gross Matter density. Every manifest thing in Density-1 has a **COUNTERPART** within each of the four higher dimensional Harmonic Universes that represents different **PHASES OF SIMULTANEOUS EVOLUTION**. Each Cycle of Evolution represents a Cycle of Time and a level of Matter Density through which **simultaneous manifestation** takes place. Earth's counterpart planets within the higher dimensional Densities are Density-2 **TARA**, Density-3 **GAIA** and Density-4 **ARAMATENA**. The Density-5 Breneau Time Cycles represent the Ante-matter Manifestation Template of non-density, often called the "Central Sun" of our Universe, from which the Densities of the Earth and all galactic systems manifest within the fields of time.

Opening of the Halls of Amenti Star Gates and Time Portals at Earth's core is called **ACTIVATION OF THE PLANETARY COMPLEX**. When Earth's Planetary Templar Complex is activated, passage to the different Time Cycles, Densities and Harmonics of Earth can be achieved, as well as rapid intergalactic, inter-time travel and Transmutative Dimensional Ascension of body and consciousness into the original state of non-density.

Star Gates and **Portals** are **pairs** of interconnected, **counter-rotating electromagnetic field spirals** that naturally exist **within suns and planetary bodies** and which also form at **fixed points of space** within the 5 Densities of the Universe where Time Cycles and **Time Continua** repeatedly pass through each other at fixed intervals. Star Gates and Portals exist as **Black and White Hole Pairs** that are connected at the **center point** by a scalar-frequency **Seal**. When Star Gates or Portals **activate**, the center Seal releases and the pair of counter-rotating electromagnetic spirals merge to form an interdimensional **Merkaba Field**, which allows for passage between various space-time coordinates.

Merkaba Fields, Star Gates & the 7 Primary Vortices of the Planetary Templar

Star Gates and Time Portals are formed through interconnected **BLACK AND WHITE HOLE SETS** that run between Dimensions and Harmonic Universes, which create an energy structure called a **MERKABA**. A Merkaba is a set of **COUNTER-ROTATING INTERDIMENSIONAL ELECTROMAGNETIC FIELDS** that forms through the axes of 3 Dimensional or Harmonic Universe Flash Line Sequences, each at specific rates of speed, crossing through the center of each other at **22-degree angles**. This configuration of energy relationship creates a spinning energy field in the form of a **STAR TETRAHEDRON** (2 interlocking Tetrahedrons, one inverted through the other; a tetrahedron is a triangular pyramid with 4 plane faces). All manifest things have natural sets of Merkaba Fields within and surrounding the body. Merkaba Fields are the **VEHICLES OF MANIFESTATION**. At the center of a Merkaba Field, a spinning, spherical, 3-Dimensional **ELECTROMAGNETIC DOMAIN** is formed, creating the precise mathematical ratios of scalar waves through which 3-Dimensional Manifestation Templates are formed. Merkaba Fields circulate energy from the Dimensional Unified Fields into Manifestation Templates, continually fueling the manifestation of all objectified forms. All manifest forms exist within the Electromagnetic Spherical Domain at the center of Merkaba Fields. The Electromagnetic Domain at the center of a Merkaba Field creates what is called a **FORM CONSTANT**, a sustained 3-Dimensional Matter Form.

If the speed of Partiki Phasing between the 3 Flash Line Sequences that make up a Merkaba Field reaches a specific ratio, the Merkaba Fields expands to include the scalar wave patterns of other dimensional frequency bands (additional Flash Line sequences, or additional energy with different Partiki Phasing Rhythms.). **When a 3-Dimensional Merkaba Field expands to include more dimensions of frequency, the Spherical Domain within the Merkaba Field opens to other Dimensions, Time Cycles and Densities of Matter**. The Merkaba Fields that form Star Gates and Time Portals move through set variances of Partiki Phasing Rhythms within their 3-Dimensional Time Cycle. At certain set points in every Time Continuum, the Merkaba Fields of planets and stellar bodies reach the specific ratios of Flash Line Sequence rhythm that allow the Spherical Electromagnetic Domain, within which the planet is stationed, to receive and integrate frequency from other locations in the Time Matrix. This part of the planetary Time Continuum is called a **STELLAR ACTIVATIONS CYCLE**. During Stellar Activation Cycles the Merkaba Field at the planetary core opens to receive energies from the other Harmonic Universes, and the Star Gates and Time Portals of the Planetary Templar Complex open to the Interplanetary, Intergalactic and sometimes to the Universal Templar Complex system.

When the Star-Tetrahedron Merkaba Field at a planet's core opens during a Stellar Activations Cycle, a series of systematic changes occurs within the planetary Manifestation Template. Natural Merkaba Fields control the set, core vibration and oscillation rhythms of a planet's 3-Dimensional molecular structure; the vibration-oscillation rhythm controls the **ANGULAR ROTATION OF PARTICLE SPIN**, or the angle of the axis upon which particles rotate. The Angular Rotation of Particle Spin governs the **MATTER DENSITY LEVEL** of the planetary molecular structure and that of all things on the planet. As the Merkaba Fields at the planet's core draws in higher dimensional frequency, **VORTICES** (spirals) of electromagnetic energy that naturally feed 3-Dimensional energy through the planetary body begin to transmit higher dimensional frequencies into the Planetary Templar Complex. When a **CRITICAL MASS** of higher dimensional energies (energy with faster Partiki Phasing rhythm) enters the planet's Manifestation Template, the Merkaba Field at the planetary core fully merges with the Merkaba Fields within the cores of the planet's Counterparts in the higher dimensional Densities. The planetary Merkaba Field picks up speed to match the rotation speed of the Merkaba Fields in the higher dimensional Harmonics, progressively shifting the planet's Angular Rotation of Particle Spin to match that of the planet in the next Density level. Through this process, Density Levels of the planetary molecular body merge. Merging of the different Harmonics of Matter Density, within a manifest body, changes the 3-Dimensional matter density level to a less-dense state. It creates a period of **DIMENSIONAL BLENDING, TIME ACCELERATION AND TIME CONTINUUM MERGER** between various manifestation levels of the planetary body, and allows open passage through the Star Gates and Time Portals of the Planetary Templar Complex. A Stellar Activation Cycle begins with opening of the **PLANETARY VORTICES** and culminates in the opening of the Star Gates within the Merkaba Field at the Planetary Core.

There are **7 PRIMARY VORTICES** (and many secondary vortices) within the planetary body that naturally feed energy into the planetary Manifestation Template. Usually, only 3 Primary Vortices are open, feeding 3 dimensions of energy into the planetary Manifestation Template to keep the natural structure of the planet's Form Constant as it evolves through time. During **Stellar Activations Cycles**, the 4 dormant Primary Vortices on the Planet progressively come to life, transmitting the higher dimensional frequencies entering the planetary core throughout the energetic and molecular structure of the planet. The **6 Primary Vortices** on a planet form at the **PRIMARY AXIS POINTS** that are formed by the 3 interwoven Flash Line Sequences of which the Merkaba Field at the planetary core is composed. The **7th Primary Vortex** forms at the point where the vertical axis of the planet's Merkaba Field links with the vertical axis of Merkaba Field from the planet's **Counterpart** in the next Harmonic of Matter Density. **Each of the 7 Primary Vortices is located on a specific geographical area on the physical and energetic body of the planet.**

The Stellar Bridge alignment infuses Earth with progressively higher dimensional wave spectra causing the frequency seals of Earth's 7 Primary Vortices to progressively open. As each Vortex opens the dimensional wave spectra associated with that vortex begins running through Earth's Electro-Magnetic fields, progressively raising the particle pulsation rhythm of the planet, creating a bio-physical Time Acceleration and period of Dimensional Blending that affects everything on the planet. In areas where Earth's Electro-Magnetic fields are out of balance tectonic cracking can result. Vortex openings affect climatic patterns and the DNA of biological life forms.

Focused group energy working using Keylontic Science technique can assist Earth's Electro-Magnetic fields to balance, lessening the potential for tectonic fracturing.

Star Gates, Universal Kathara, Shields and Signets of the Planetary Templar & Merkaba

The **12 PRIMARY STAR GATES** of the **UNIVERSAL TEMPLAR COMPLEX** connect to Earth through the **Halls of Amenti Star Gates** at Earth's core. The Universal Star Gates are positioned within the universes of the Time Matrix following the core mathematical and geometrical arrangements of scalar-waves within the 15-Dimensional **UNIVERSAL MANIFESTATION TEMPLATE**. The core structure of the Universal Manifestation Template, or the **PRIMAL ORDER**, is built upon an organization of scalar grids called the **UNIVERSAL KATHARA GRID**. Within the Kathara Grid blueprint for the **Cosmic and Universal Manifestation Template**, there are 12 primary points of consolidated energy that form Star Gates called **SIGNETS**, which form the first 12 configurations of Flash Line Sequence interrelationship within the Energy Matrix and within 15-Dimensional Time Matrices. In order to enter manifestation within the Time Matrix, the Manifestation Templates of all forms, from the macrocosmic to the microcosmic, are organized upon the core energetic relationship of this **Primal Order**. The manifestation Template for every manifest form and being is built upon one **12-Point Kathara Grid within the Energy Matrix** and another **12-Point Kathara Grid within a 15-Dimensional Time Matrix system**.

The Primary Star Gates of the **Universal Templar Complex** are arranged upon the **Primal Order** of the Kathara Grid, with 3 Primary Star Gates manifesting in each of the 5 Harmonics of Matter Density within the 15-Dimensional Time Matrix. The first **3 Star Gates of Density 5** (dimensions 13-15) represent the Ante-matter scalar wave grids out of which the Star Gates in matter Densities of the lower dimensional fields manifest. **The 3 Density-5 Star Gates are the first 3 Star Gates with the Cosmic Manifestation Template**. The **12 PRIMARY STAR GATES**, or **SIGNETS**, in the Universal Manifestation Template for the Time Matrix, and the Kathara Grids for all creations within the Time Matrix, connect to the Cosmic Energy Matrix through the 3 Star Gates in Density 5. Passage out of Time Matrix into the non-dimensional Energy Matrix requires passage through the 3 Density-5 Star Gates. **Passage through the Density-5 Star Gates is the technical and true meaning within the concepts of *Spiritual Ascension* and *return to At-ONE-ment with Source or God*.** In the Universal Manifestation Template, each of the 3-Dimensional reality fields formed by the 5 Harmonic Universes is built upon a smaller Manifestation Template and Kathara Grid, contained within the larger Universal Manifestation Template. The 3-Dimensional Manifestation Template of a Harmonic Universe is called a **SCALAR SHIELD**. The Universal Kathara Grid circulates energy through the Universal Manifestation Template and the 5 smaller Scalar Shields of the Harmonic Universes. The **3-Dimensional Scalar Shields** of the 5 Harmonic Universes circulate energy through the galactic, planetary and personal Manifestation Templates of all things within them by means of **Merkaba Fields**.

The Manifestation Templates of everything manifest in the Time Matrix are built upon microcosmic reflections of the **12-point Universal Kathara Grid** and the **5 Scalar Shields** of each Harmonic Universe. The Manifestation Template of every planet and stellar body is ordered upon a structure of **5 PLANETARY SCALAR SHIELDS**, each manifesting as a 3-Dimensional Spherical Electromagnetic Domain within which the molecular body manifests. The **5th Planetary Shield** is the Density-5 Ante-matter Template formed by the Cosmic Kathara Grid. The **4 PRIMARY PLANETARY SHIELDS** are the scalar wave Manifestation Templates formed by the Universal Kathara Grid of the Time Matrix. The 4th Planetary Shield is the manifestation Template for a planet's Density-4 Pre-matter body, which holds the originally intended **ORGANIC IMPRINT** for the planet's natural evolution through time in the Densities below, The Organic Imprint of a manifest form represents the original arrangement of scalar waves and Partiki Phasing Rhythms through manifestation is entered, which is the pattern needed for evolution out of manifest densities. The **PLANETARY ORGANIC IMPRINT**, which constitutes the planet's natural, organic alignment to the Signet Star Gates of the Universal Kathara Grid, is held with the **12th Dimensional level** of the **Density-4 Planetary Shield**. The Density-4 Scalar Shield of a Manifestation Template is called the **MAHARIC SHIELD**. The 4 Primary Planetary Shields of Densities 1-4 (dimensions 1-12) each connect to 3 of the **12 SIGNET STAR GATES** within the Universal Kathara Grid. Each Planetary Shield is built upon 3 **PLANETARY SIGNET STAR GATES**, which regulate the flow of interdimensional energy from the Universal Star Gates through the Internal Merkaba Field at the Planetary Core. The Planetary Body in each Harmonic Universe manifests upon 1 Planetary Shield. On each planetary body, the **3 PLANETARY SIGNET STAR GATES are the CONTROL CENTERS FOR THE PLANETARY TEMPLAR COMPLEX**.

The 3 Planetary Signets of Earth's Planetary Scalar Shield are located in **3 physically separate geographical locations** on Earth called **SIGNET SITES** of the Planetary Templar Complex. The Signet Sites control the manifestation and function of all

planetary Vortices, Ley Lines and Merkaba Fields within the interwoven energetic system upon which the molecular structure of the planet manifests. The 3 Signet Star Gates within a Planetary Shield remain dormant during portions of the planetary Time Continuum when Stellar Activation Cycles are not occurring. Of the **3 Signet Star Gates** within the Planetary Shield, the **Central Signet** connects directly to the **vertical axis of the Merkaba Field** at the planetary core and controls the operations of the core Merkaba Field, the Planetary Shield and the other two Signet Star Gates. The central Signet is called the **GRU-AL POINT**. The geographical location on the planet that corresponds to the GRU-AL Point Signet in the Planetary Shield is **THE CENTRAL CONTROL SITE** for the entire **Planetary Templar Complex**. In advanced, Pre-ancient civilizations that developed on Earth during times when the Planetary Star Gates were opened, the GRU-AL Site was always the location of the **MAIN POWER GENERATOR TEMPLES**, through which global free energy systems and Star Gate passage were regulated. The main province of the ancient Atlantian civilization, as well as all of the main cultural centers of Pre-ancient times, were built upon the **GRU-AL Point Signet Site**.

Dormant Signet Star Gates serve as **SCALAR FREQUENCY SEALS** within the Planetary Shield, blocking out higher dimensional frequency, to keep the planet **PHASE LOCKED**, or energetically "locked into", its Harmonic Euiago Time Cycle. During Stellar Activation Cycles, the **GRU-AL Signet Seal** within the Planetary Shield releases and opens, due to influx of a critical mass of higher dimensional frequencies that occurs when the planet enters the a period of time, called the **DOREADESHI**, nearing the completion of its set Euiago Time Cycle. As a planet approaches its **Doreadeshi**, a Stellar Activation cycle will commence if the Merkaba Field at the planetary core is spinning fast enough to vertically link with the Merkaba Field within the core of the **Central Sun** in the planet's local galaxy. The vertical linking of the planetary and Solar Merkaba Field axes is called **GROUNDING THE STELLAR BRIDGE**. Through this process, the Merkaba Fields of the higher dimensional Harmonic Universes can link to the planet through the Solar Merkaba Field, creating a literal **bridge of interdimensional stellar scalar frequency** running through the Solar light spectra, between the Matter Density levels and Time Cycles of the Time Matrix. Once the Stellar Bridge grounds into the Planetary Shields and the Merkaba Field at the core of the planet enters vertical axis electro-magnetic phase lock with the Solar Merkaba Field, a **Stellar Activation Cycle** commences. When the Stellar Bridge anchors, the GRU-AL Signet Seal in the Planetary Shield releases, opening the Planetary Shields and core Merkaba Field to the progressive influx of frequency from the higher dimensional Harmonics of Matter Density. A Stellar Activation Cycle cannot be stopped once it has commenced, whether or not the Planetary Shield is prepared to hold and synthesize the new, higher dimensional frequencies properly. If the 3 Planetary Shields of the 3 planetary Counterparts from Density-1 through Density-3 carry distortions, and their scalar wave arrangements differ from those of the **Organic Imprint** Density-4 Pre-matter 12th-Dimensional **Maharic Shield**, major environmental, climatic and tectonic problems can arise on the planet during Stellar Activation Cycles. Such problems of Planetary Shield Distortion, which cause electro-magnetic imbalance in the entire planetary energetic system, can be solved through utilizing the **Planetary Templar Complex** to realign the scalar wave patterns of the Planetary Shields with their 12th-Dimensional Maharic Shield Organic Imprint, as the Planetary Templar progressively comes into activation.

In Stellar Activation Cycles, the GRU-AL Point Signet first receives the interdimensional frequencies from the Solar Merkaba Field, and collects them within the Planetary Shield until the full **12 Sub-frequency bands** from the next dimension up have been transmitted through the Solar Merkaba. The energy Sub-harmonics of the 12th Dimension exist in the form of **Omni-polar Tri-tone Standing Waves of sound vibration**, 12th Dimensional frequency is referred to as the **PRE-MATTER PLASMA BEAM**. When the **12th Sub-frequency Band** Plasma Beam of the next Dimensional Flash Line Sequence enters the Planetary Shield, the GRU-AL Signet Seal opens and draws the **Plasma Beam** into the planet's core **Merkaba Field**. Reception of the Plasma Beam creates a progressive acceleration of the Merkaba Field spin rate, until it matches that of the Merkaba Field spin in the planet's Counterpart in the next Matter Density level. The Plasma Beam entering the planetary core Merkaba Field begins an accelerated cycle of fusion between Bi-polar Particum-Particles and Partika-Anti-particles in the Planetary Manifestation Template, by which portions of the Planetary Manifestation Template return to their original Density-5 Omni-polar Ante-matter Tri-tonal Wave form. This process of accelerated fusion within the Planetary Manifestation Template progressively and literally de-manifests the portions of the planet's molecular body that are built upon the transmuting parts of the Manifestation Template. **The matter density level of the planet and everything on it is transmuted to a less-dense state of matter, and the planet shifts from its lower dimensional Density Euiago Time Cycle into the Euiago Time Cycle of the next Harmonic Universe up on the 15-Dimensional Scale**. Once the GRU-AL Signet Star Gate has opened and the Plasma Beam has entered the planetary core Merkaba Field, the smaller **FREQUENCY SEALS** within the Planetary Shields that control the **Planetary Vortices** also begin their release cycle. The 4 dormant Vortices of the **7 Primary Planetary Vortices** progressively open, in an event known as "**The Opening of the Seven Seals**". Opening of the 7 Primary Vortices progressively causes the **5 Scalar Shields** and **5 Spherical Electromagnetic Domains** of each Density level of the planet and its Counterparts to merge. The **12 Primary Star Gates** of the Universal Kathara Grid progressively open into the planet's core Merkaba Field and the entire **Planetary Templar Complex** is brought into interdimensional activation, creating a condition that is known as the **PLANET ENTERING MERKABA**.

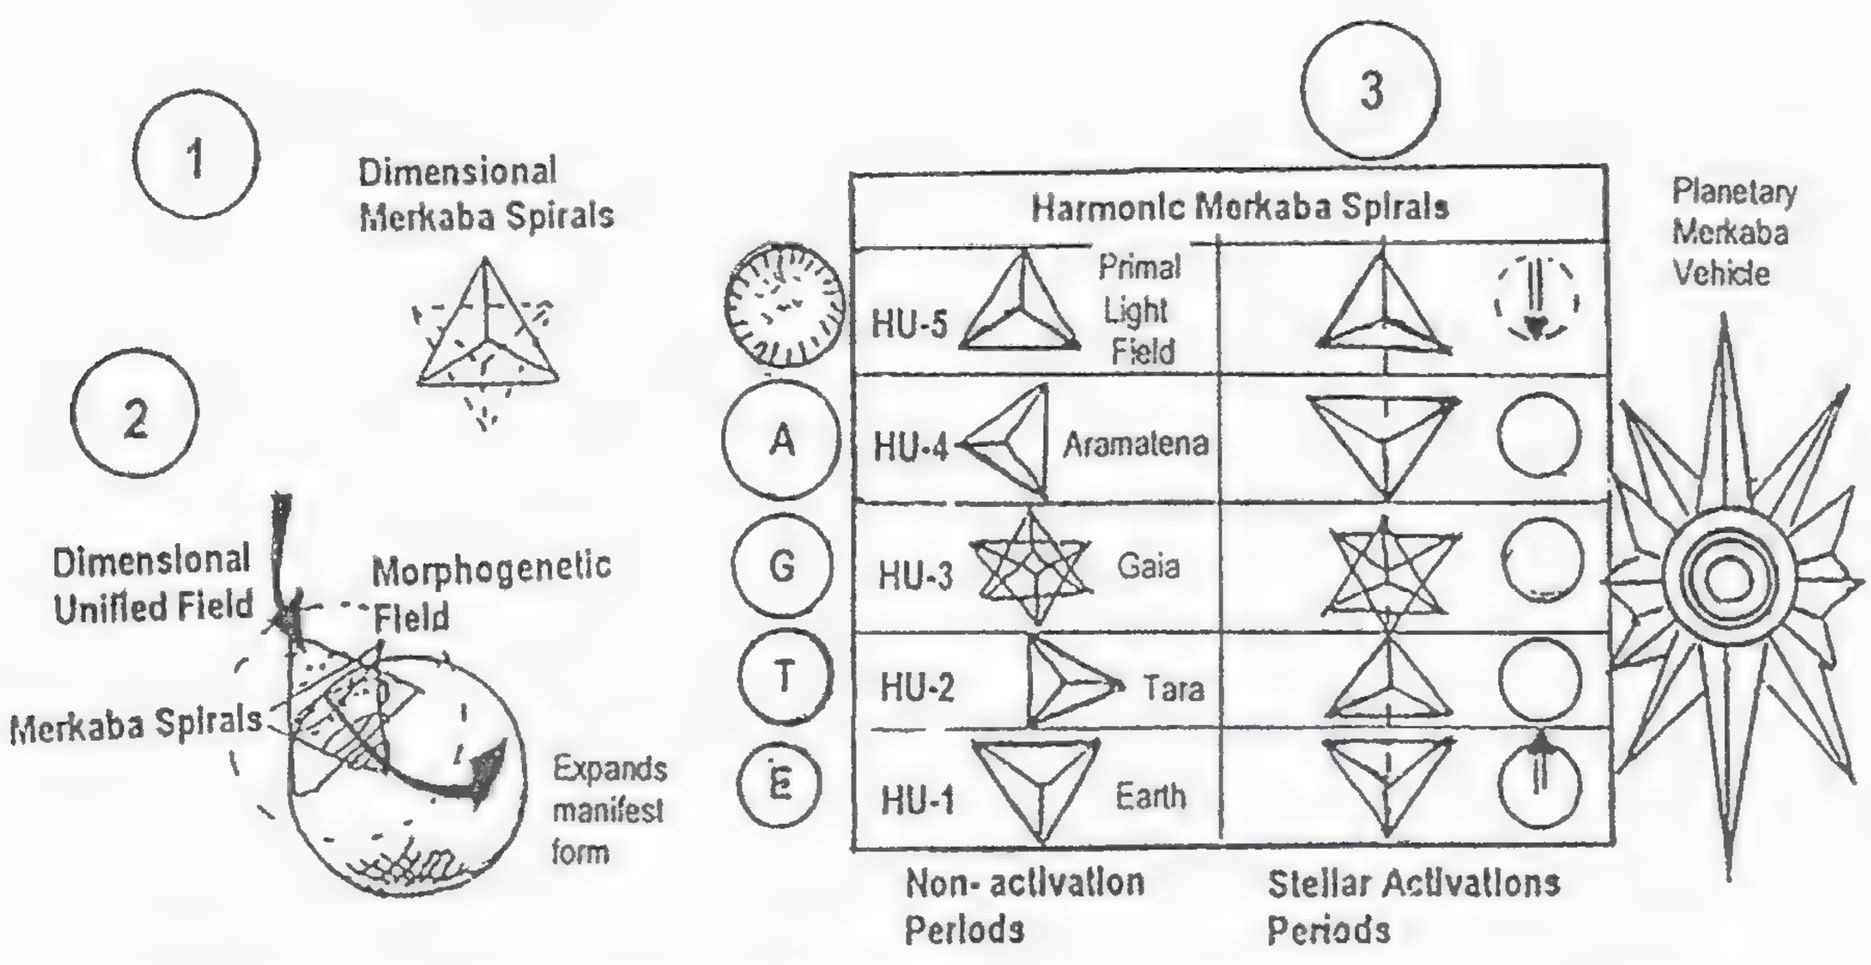
Merkaba Spirals

1. ***Merkaba Spirals*** **are sets of counter-rotating electro-magnetic spirals which surround all matter-forms within the dimensionalized systems. They form in the shape of a *Star-tetrahedron*.**

2. **Merkaba Spirals serve to draw energy (in the form of frequency) from the dimensional Unified Fields, into the** morphogenetic field of a form, progressively expanding the form via *frequency accretion*. Merkaba Spirals draw Particum and Partika micro-particles into the morphogenetic field, building up the particle base of the form, following the blueprint set by the morphogenetic field. As the morphogenetic field expands, the form evolves upward/ expands outward through the dimensional scale.

3. There are *Dimensional Merkaba Spirals* and *Harmonic Universe Merkaba Spirals*. The Harmonic Merkaba Spirals are structured in such a way that during periods of Stellar Activation the Spirals align along a vertical axis, allowing Harmonic Universes to come together.

4. The progressive release of the Star Crystal & Seed Crystal Seals, opening of the planetary Vortices and merging of the Planetary Shields, releases the phase-lock on the dimensional and planetary Merkaba Spirals. This allows the Dimensional and Harmonic Merkaba Spirals to merge and the Harmonic Merkaba Spirals to come together to form the *Merkaba Vehicle*.



Merging of the Planetary Shields and Harmonic Merkaba Spirals takes place in phases.

Anatomy of the Halls of Amenti and the Planetary Templar Complex

The **HALLS OF AMENTI** are a set of **Star Gates** within Earth's core Merkaba Field. Earth, like all manifest bodies, exists WITHIN the Spherical Electromagnetic Domain of a set of **OUTER MERKABA FIELDS**, which extend into Earth's atmosphere and into outer space. Like all manifest bodies, Earth also contains at its core the **INTERNAL MERKABA FIELD**, which regulates the functions of the **Manifestation Template** and the **Outer Merkaba Fields**. Within the **Spherical Electromagnetic Domain** of Earth's **Internal Merkaba Field**, there is a reality field that **manifests into physical matter** as Earth enters the **Density-2 Euiago Time Cycle** during **Stellar Activation Cycles**. As the **Seven Primary Vortices** of Earth's Planetary Templar Complex progressively open during Stellar Activation Cycles, previously dormant **Time Portals** and **Star Gate access points**, in various geographical regions across the globe, come into activation. The Time Portals and Star Gate access points of the Planetary Templar Complex serve as **FREQUENCY MODULATION ZONES**, creating a **Bridge of 3-Dimensional Frequency** through which **physical travel to the Halls of Amenti** can be experienced. The **Halls of Amenti** represent a **3-Dimensional reality field** that links Earth's Time Matrix to the Time Matrix of Earth's Anti-particle Double **PARALLEL EARTH**, through a middle reality field called **INNER EARTH**. The Star Gates at Earth's core are accessed from the middle-zone 15-Dimensional Time Matrix of **Inner Earth**. When the Star Gates open in Earth's core, Time Portals connecting Surface Earth to Inner Earth physically manifest as a series of **interconnected, crystal-lined Subterranean Tunnels** that lead into the Halls of Amenti subterranean chambers beneath the surface of Inner Earth. The **Subterranean Chambers** of Inner Earth are massive underground **TEMPLE COMPLEXES** that are built over and around the **GRU-AL SIGNET POINT** in the Planetary Shield of **Inner Earth**. Inner Earth has, for long, been inhabited by Elder Race humans from the advanced Pre-ancient human cultures that once thrived on Surface Earth. In anticipation of Earth's next natural Stellar Activation Cycle, the races of Inner Earth have protected the Halls of Amenti Star Gates and maintained the **Amenti Temple Chambers** for many thousands of years. During Stellar Activations Cycles, the **Surface Earth Time Portals** that lead to the Subterranean Amenti Access Tunnels open and **physical travel** to the Halls of Amenti can be experienced by humans with specific action levels in the **DNA Template**. The advanced races of Inner Earth use **FREQUENCY CLOAKING TECHNOLOGY** to regulate the Surface Earth access portals, to protect their world from warring human invasion. Occasionally the Inner Earth races will contact Surface Humans who show spiritual maturity and a peaceful nature, and at times allow humans with DNA that can withstand frequency modulation, to pass through the Subterranean Amenti assess tunnels to visit Inner Earth and the Amenti Temple Chambers.

During **Stellar Activation Cycles,** Earth's Planetary Templar Complex and the Amenti Temple Complex of Inner Earth open to the interdimensional spectrum. The **Halls of Amenti Star Gates** have **6 Primary Star Gates** running on a vertical axis. Earth has **3 Primary Star Gates**, located on Earth at the geographical locations of the **3 Signet Sites**. The 3 Signet Sites connect directly to 3 Star Gates on Earth's Density-2 Counterpart **Tara**, to various space-time locations and Star Systems in the Density-1 Universe and to other Primary Star Gates, Time Cycles and Stellar Systems within the higher dimensional Densities of the Universal Kathara Grid. Across the globe there are many other **STAR GATE ACCESS POINTS**, Vortices and Time Portals that link into Earth's 3 Primary Star Gates and the Amenti Temple Complexes of Inner Earth. This global network of **SACRED SITES** is energetically interconnected through the Planetary Shields. In Stellar Activation Cycles, the Amenti Access Points open, allowing passage to life forms whose DNA Template can tolerate the accelerated influx of frequency that occurs in Star Gate travel. The Halls of Amenti Star Gates become available for passage during Stellar Activation Cycles only if Earth's **Planetary Shield** can achieve and retain the electromagnetic balances of its Density-4 Maharic Shield Pre-matter Template. The Pre-matter Template is often referred to as the **CHRISTOS TEMPLATE**. If Earth's Planetary Grids are not properly balanced during the years of a Stellar Activation Cycle, climatic and tectonic problems and even cataclysmic physical pole shift can result. As the Planetary Templar Complex activates during a Stellar Activation Cycle, certain **SACRED SITE** locations on the planet can be used to **CLEAR AND REPROGRAM THE PLANETARY SHIELD** using **INTERNAL SCALAR MECHANICS TECHNOLIGIES**. Not all Sacred Sites can be used to access the Planetary Shields for reprogramming and grid clearing.

The **GRU-AL SIGNET POINT** is the main Star Gate on Earth and it is the **PRIMARY PLANETARY SHIELD PROGRAMMING CENTER.** The GRU-AL SITE is the first area of the Planetary Manifestation Template to receive interdimensional frequencies from the Stellar Bridge that transmits via the Solar Merkaba Field during Stellar Activation Cycles. The other two **SECONDARY SIGNET SITES** each receive the incoming frequency directly from the GRU-AL Site, and can also be used for Planetary Shield realignment. Earth's **GRU-AL Site** is directly aligned with the GRU-AL Signet Sites in the Planetary Shields of Earth's Counterpart Planets, **Tara** and **Gaia**, within the Density-2 and Density-3 Time Cycles of the higher dimensional Harmonic Universes. Only two of Earth's **7 Primary Vortices, Vortices 5 and 7**, can be used to access the GRU-AL Sites on Earth, Tara and Gaia. The GRU-AL Site is the **MOST POWERFUL PLACE ON EARTH** in terms of interdimensional energetic inflow. It is the place where the electromagnetic barriers between Harmonic Universes are the thinnest, and it is the **only place on Earth** that can hold the full 12th-Dimensional Ante-matter Tri-tone Standing Wave of the **PLASMA BEAM**. The GRU-AL Site becomes a powerful **HEALING CENTER** when the Planetary Templar Complex is activated, as

the Plasma Beam Standing Wave of Tri-tone sound vibration is the most powerful natural healing current in the Time Matrix. The GRU-AL Site is also the **CENTER POINT FOR GLOBAL FREE ENERGY GENERATION** when used properly with knowledge of Interdimensional Scalar Mechanics.

Across the globe there are many smaller Sacred Sites called **TEMPLAR SITES**, where horizontal and diagonal axis **Time Portals** exist, which can be used to interface with the 2 Secondary Signet Sites and the Primary GRU-AL Site. **Templar Sites** can be used for remote Planetary Shield programming, free energy distribution, scalar wave healing technologies and for passage to the Halls of Amenti Star Gates. Templar Sites differ from other planetary Vortex Sites in that they operate directly as Time Portal Amenti Access Points, and the Planetary Shields, GRU-AL and Signet Sites can be accessed directly through them. Unlike the energetically spiraling Vortex Sites, the **Templar Sites** are **STILL POINTS** within the Planetary Shields that can hold portions of the **Ante-matter Plasma Beam.** Templar Sites receive energy from the Signet Sites, transmit portions of the energy out to the planetary Vortex Sites, and store the portions of high frequency energy that Vortex Sites cannot hold. High Frequency interdimensional energies (energy with rapid Partiki Phasing rhythms) are collected and stored at Templar Sites in the form of Sub-frequencies (partial Flash Line Sequences) of the 12th Dimensional **Plasma Beam** (Hydro-plasmic energy). The Sub-frequencies of the Plasma Beam form a still, singular **ANTE-MATTER TRI-TONAL STANDING WAVE** of sound vibration, or an invisible **HYDROPLASMIC FLAME** of Omni-polar, Tri-tone Ante-matter. The Hydro-plasmic Flame held within the Planetary Shield on Templar Sites is a smaller portion of the main Plasma Beam that perpetually feeds energy into the GRU-AL and Signet Sites when the Planetary Templar Complex is activated.

The GRU-AL Site of the Planetary Templar Complex is the Prime energy receiving, transmitting and amplification station on the globe. The Plasma Beam anchors at the GRU-Al Site, and the GRU-AL Site transmutes the Omni-polar sound vibration of the Ante-matter Plasma Beam into **two concurrently running currents of BI-POLAR ELECTROMAGNETIC SCALAR WAVES** of particle and anti-particle light radiation. The GRU-AL breaks the Plasma Beam frequencies down into 12 Primary energy distribution lines called **Axi-A-Tonal Lines**. The **12 PRIMARY AXI-A-TONAL LINES** are grids of **Partika units** within the Planetary Shield that draw energy in from the Anti-particle Parallel Earth Planetary Shield, and **EXPAND** it out into the Planetary Shield, creating the influx of **electrical anti-particle force**. Simultaneously, the GRU-AL creates **12 Secondary AXI-B-TONAL LINES**, which are grids of **Particum units** within the Planetary Shield, that draw or **CONTRACT** energy from Earth's Planetary Shield, after it has circulated from the Axi-A-Tonal Line networks. Energy from the Axi-B-Tonal Lines contracts back to the GRU-AL Site, where it recycles into Density-5 Omni-polar Ante-matter Partiki Units. The 12 Primary Axi-A-Tonal Lines and 12 Secondary Axi-B-Tonal Lines are collectively referred to as the **24 AXIOM LINES**. The interplay of simultaneous expansion and contraction of bi-polar energy units through the Axiom Lines within the Planetary Shield creates the effects of **planetary electrical and magnetic force**. The same process of energy circulating through the Universal Manifestation Template creates electromagnetism throughout 11.5 Dimensions of the 15-Dimensional Time Matrix. **TEMPLAR SITES** receive the bi-polar energy currents from the Signet Sites through the Axiom Lines, store excess energy in the form of a reassembled Omni-polar Tri-tonal Standing Wave Hydro-plasmic Flame, and transmit a continual supply of re-polarized energy from the Flame, through the Planetary Shield, creating **PRIMARY LEY LINES**. Ley Lines are electromagnetic distribution lines, less powerful than the Axiom Lines, which process modulated frequency into the Planetary Shield. The areas of the Planetary Shields where the Flash Line Sequences of **AXIOM LINES** cross through each other are **COORDINATE POINT** vertical axis **STAR GATE SIGNET SITES**. The areas where **PRIMARY LEY LINES** cross through an **AXIOM LINE** are **SUBORDINATE POINT** horizontal or diagonal axis **TIME PORTAL TEMPLAR SITES**. The areas where **PRIMARY LEY LINES** cross through each other are **PRIMARY VORTEX SITES**. The areas where **SECONDARY LEY LINES**, which are formed through the Primary Vortex Sites, cross through each other are **SECONDARY VORTEX SITES.**

The MOST "SACRED SITES" of the Planetary Templar Complex:

1. The **ENTIRE PLANET** is a Sacred Site within the Universal Kathara Grid
2. The **GRU-AL Center SIGNET SITE** (Earth's main Star Gate of the Halls of Amenti)
3. The two **SECONDARY SIGNET SITES** (Earth's 2 secondary Star Gates of the Halls of Amenti)
4. The numerous smaller **TEMPLAR SITES** (Earth's main Time Portal Amenti Access Points)
5. **AXIOM LINE SITES** (Circulate and amplify energy from Signet Sites)
6. **7 PRIMARY VORTEX SITES** (Circulate and amplify energy from Primary Ley Lines)
7. **PRIMARY LEY LINE SITES** (Circulate energy from smaller Templar Sites)
8. **SECONDARY VORTEX SITES** (Circulate and amplify energy from Primary Vortex Sites)
9. **SECONDARY LEY LINE SITES** (Circulate energy from Secondary Vortex Sites)

The 12 Tribes and the Roundtables

- The 12-Tribes of the 4 Rounds of the Angelic Human Cycle of the Rounds Evolutionary Divine Blueprint were seeded on earth specifically for the purpose of serving the **Sacred Commission** of fulfilling the **Planetary Christos Realignment Mission**.
- Each of the 12-Tribes in any one Evolutionary Round was composed of **various combinations** of the **5 Primary Races** manifest within that Evolutionary Round.
- The DNA Templates of each of the 12 Tribes were encoded with the **DNA Signet Codes** encrypted into the DNA Template and each Tribe was seeded on the **2 primary locations** affiliated with the **Star Gate number** to which the DNA Signet Codes corresponded.
- Though numerous periods of Earth changes have occurred since the Round-1 **Palaidia Urtite-Cloister Empires** were seeded in **798,000BC**, the 12 Tribes of each Evolutionary Round were **repeatedly resettled in the same geographical regions** of Earth that corresponded to the 12 Star Gates of Earth to which the DNA Templates of the Tribes were "frequency- keyed".
- The significance in understanding the Angelic Human Cycle of the Rounds Evolutionary Blueprint is in that through this understanding we can learn much about **ourselves** and our **contemporary drama** today. Contemporary humanity is part of the **4th Round** of the Cycle of the Rounds. Our contribution during the **2000-2017 SAC** is just as important for the success of the Planetary Christos Realignment Mission as is that of the Angelic Human nations in the other Evolutionary Rounds.
- The other Evolutionary Rounds are not a bygone reality of the ancient past; **they are reality NOW. Time is simultaneous**; the other Planetary Time Cycles within which the other Evolutionary Rounds are taking place exist **concurrently** with our contemporary Planetary Time Cycle, within their respective **space-time vectors**.
- The Time Cycles of the past and future Evolutionary Rounds are **intimately interconnected** with our present Time Cycle; each Round directly affects the other.

12-Cycles, Simultaneous Incarnation and DNA

- The reality of the Cycle of the Rounds holds great **personal significance** as well as unprecedented **collective importance. The individuals incarnated within the other Evolutionary Rounds are simultaneous incarnations of ourselves**.
- The fact that we exist here today **implies** that we also have a **personal expression of self** within **each** of the other Evolutionary Rounds.
- In the Cycle of the Round Blueprint there are **4 Rounds**, each containing **3 Planetary Time Cycles**, for a total of **12 Planetary Time Cycles** in the **Particle Universe**. This interwoven set of 12 Planetary Time Cycles is called a "**Planetary 12-Cycle**". There is a corresponding evolutionary 12-Cycle concurrently taking place within the **Anti-Particle Universe** of **Parallel Earth**. The Cycle of the Rounds Divine Blueprint includes **both the Particle and Anti-Particle cycles** for a total of "two **Planetary 12-Cycles**" within the Cycle of the Rounds.
- The pattern of "two Planetary 12-Cycles" is the **Core Manifestation Template** of the Angelic Human Evolutionary Blueprint. To incarnate in human form a consciousness **must adopt** this Primal Order of the Angelic Human Evolutionary Divine Blueprint.
- Every human incarnate is part of a larger "**family**" of incarnated selves called the **Personal Christos**. The Personal Christos is the **Eternal Personal Identity** that includes **1728** simultaneous incarnations, each placed within various space-time locations, or **Time Vectors**, within the **4 Rounds** of the Cycle of the Rounds.
- In **each of the 4 Evolutionary Rounds** there are **216** simultaneously incarnate selves, **and** their **anti-particle counterparts** within the Parallel earth system, for a total of **1728 incarnates** (**216** selves x **4** Rounds = **864** selves + **864** anti-particle counterpart selves within the Parallel earth system = **1728 selves**)
- The 1728 simultaneous incarnations of the Eternal Personal Identity are incarnated into the Angelic Human race forms **characteristic to the respective Evolutionary Rounds:** Round4: **Palaidia Urtite-Cloister** race. Round-3: **Urtite-Cloister Race.** Round -2: **Cloister race.** Round-1: **Root Races.** Each of us has **216 selves** incarnate within the Angelic Human race lines characteristic to each of the 4 Evolutionary Rounds.
- Each of the 3 Planetary Time Cycles in each of the 4 Evolutionary Rounds contains **72 Time Vectors.** In **one Planetary 12-Cycle** there are **864 Time Vectors (72** Time Vectors per Planetary Time Cycle x 3 Planetary Time Cycles = 216 x 4 Rounds = 864 Time Vectors) We each have **one incarnate self** in each of the 864 Time Vectors of one Planetary 12-Cycle **and 864 corresponding selves** in the Parallel Earth Planetary 12-Cycle. An Angelic Human with a **12-Strand DNA Template** has **1728** simultaneous selves manifest within **1728 Time Vectors** of Two **Planetary 12-Cycles.**
- **Indigo Children Maji Grail Line** Angelic Humans with **24-Strand DNA Templates** have 1728 simultaneous selves incarnate in 1728 Time Vectors in **ONE Planetary 12-Cycle** and **3456 simultaneous selves** in the Two **Planetary 12-Cycles** of the Cycle of the Rounds. Maji with **36-Strand DNA Templates** have **2595** selves in 2595 Time Vectors in one Planetary 12-Cycle and **5184 selves** in the Two Planetary 12-Cycles. **48-Strand DNA** Template Maji have **3456** selves in one 12-Cycle and **6192 selves** in the two 12-Cycles.
- Each of our **1728** Angelic Human selves in their respective Time Vectors is **interconnected with each other across time** through **a shared DNA Template.** When **activated,** the **12-Strands** of the 12-Strand DNA Template serve as **"electromagnetic windows"** or **"Internal Star Gates" through time.** Through the activated 12-Strand DNA Template, the **frequencies of energy** and **consciousness** of each of the 1728 selves **merge** into an **embodied, unified conscious awareness.** Each individual incarnate self comes to know itself as an **Eternal Christos Avatar Identity** that is **simultaneously manifesting** in

1728 different **Time Vectors**, wearing the "**costume**" of **1728 different bodies** and **personality characterizations.**

- The 1728 simultaneous incarnations of the **Personal Christos Eternal Identity** represent the **"reincarnational" heritage** of every **12-Strand Angelic Human** being; every human being possesses the **dormant imprint** of a **minimum** of the **12-Strand** Angelic Human design. The **tangible reality** of the **Personal Christos** is held into manifestation within the Personal Christos **Divine Blueprint**; the **D-12** Pre-matter "Liquid-Light" (Hydroplasm) **Maharic Shield**.
- The Personal D-12 Christos Divine Blueprint Maharic Shield connects each Individual Christos self to the **larger** D-12 Christos Divine Blueprint of the **Species**. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.
- To understand the realities of **personal Spiritual Integration and Actualization**, in order to **fulfill our personal life purpose**, it is important to comprehend the basic **Primal Order** structures of energy, the **personal D-12 Maharic Shield** and the **D-12 Species Tribal Shields**, through which our consciousness manifests in time.
- The secrets to **reclaiming the Divine Birthrights and Responsibilities** of Angelic Human heritage are hidden within the realities of the **Tribal Shield** and the specific "**Fire Letter Sequences**" of the Tribal Shield that manifest within and **govern the function** of the Angelic Human **DNA Template**.

The Reality of Spiritual Integration

- **Spiritual Actualization** is as much a function of **Divine Physics** as it is a product of **Divine Consciousness**. The natural Primal Order of **Universal Structure** sets the **Templates of Manifestation** to which consciousness **must conform** to enter the experience of manifest expression within a space-time-matter system.
- The personal Christos **Maharic Shield** Manifestation Template and the Christos **Tribal Shield** Species Manifestation Template are **microcosmic replicas** of the macrocosmic Primal Order upon which Universal and Cosmic structure are built.
- The **tangible realities** of human **Spiritual Actualization** take place through the Primal Order of the Angelic Human **12-Strand DNA Template**. Each DNA Strand Template holds a specific set of "**Internal Star Gates**" that allow for the progressive merging of the consciousness and energy frequencies of the **1728 selves** incarnate within the **Two Planetary 12-Cycles** of the Cycle of the Rounds.
- Spiritual Actualization as a REALITY, rather than as a theoretical concept, takes place through **progressive activation** of the dormant **12-Strand DNA Template**. Each DNA Strand Template corresponds to one dimensional frequency band, to corresponding levels or **dimensions of conscious awareness and to a specific set of incarnations** within the Cycle of the Rounds. Spiritual Actualization is accomplished when the 12-Strand DNA Template "**Internal Star Gates**" have **fully opened**, allowing the **12 dimensions** of conscious awareness of the Eternal Personal Christos Identity to merge and unify within a singular embodiment, across the fields of time.
- The **key to Spiritual Actualization** is activation of the dormant personal 12-Strand DNA Template. The **most rapid means** of activating the dormant Angelic Human 12-Strand DNA Template is through **activation of the Tribal Shield**, the Species D-12 Christos Divine Blueprint, which represents the **CORE PROGRAMMING** of the personal D-12 Maharic Shield.

Activating the Tribal Shield

- The 12-dimensional **Tribal Shield** is the dormant **Species Divine Blueprint** within the **DNA Template core** of the Angelic Human races of the 4 Evolutionary Rounds. The frequencies of energy and dimensions of consciousness of the **1728 simultaneous selves** of the Personal Eternal Christos Identity can be **activated in one incarnation** through **sequential activation** of **the Fire Letter Sequences** or "**Flame Codes**" of the **Tribal Shield**.
- The "Flame Code Fire Letters" within the DNA Template are the **DNA Signet Codes** that correspond to Earth's **12 Primary Star Gates** and the **Planetary Shields** through which the planetary body manifests. The Flame Codes serve as the core foundation of the personal 12-Strand DNA Template.
- The DNA Template Flame Codes of the Tribal Shield allow for the **Primal Life Force Currents** of the Density-5 (dimensions 13-14-15) **Kee-Ra-ShA Primal Light Fields** and the **Khundaray Primal Sound Fields** from the Energy Matrix, beyond the 15-Dimensional Time Matrix, to embody more fully within the Angelic Human form.
- A **Fire Letter** is a **fixed point of consolidated frequency** that holds specific frequencies consciousness into manifest form. The **Manifestation Templates** or Divine Blueprints of **all things** manifest are built upon intricate patterns of interwoven Fire Letters called **Fire Letter Sequences**. The Flame Codes of the Angelic Human personal DNA Template and Species Tribal Shield are composed of the **same Fire Letter Sequences** that make up the Divine Blueprint of **Earth's Planetary Shields**.
- Activation of the Tribal Shield sets in motion simultaneous "firing" or activation of the **144 Fire Letters** (**12** Fire Letter **Sequences**) of the 12-Strand DNA Template, expediting the natural evolutionary process of Soul, Over-Soul and Christos Avatar Identity Integration, through progressively opening the "Trans-time DNA Template Star Gates".
- Activating the 12-Strand DNA Template allows the D-12 frequency of the **Universal "Christos" Maharata Current** to activate within and run through the Angelic Human DNA Template and into the Earth's **Planetary Shields**. Activation of the **Maharata Current** within **groups of Angelic Humans** on Earth allows for **collective anchoring** of the **D-12 Planetary Christos Divine Blueprint**, the **Shield of Aramatena**, to achieve fulfillment of Angelic Humanity's **Sacred Commission** of the **Planetary Christos Realignment Mission**.

The fastest means of naturally activating the Personal 12-Strand DNA Template is

1. **Tribal Shield Activation:** Activating the 144 Fire Letters of the Tribal Shield.

2. **Emerald and Amethyst Awakening 2 Masters Kundalini Activations:** Releasing key **Fire Codes** between the DNA Strand Templates to allow for **expedited DNA Strand Braiding**.

3. **DNA Template Bio-Regenesis:** Progressive use of internally directed DNA Template Bio-Regenesis technologies for progressive purging of Strand Template mutations, restoration of the natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes.

4. **Master Key Codes:** Use of the personal scalar-wave-guide Symbol Code Programs that correspond directly to the core programming of the personal D-12 Maharic Shield for further sequential expedition of Strand Template Activation.

5. **Melchizedek Cloister Level-3 Regent Ordination:** Transmission of the Kee-Ra-ShA Primal Light and Khundaray Primal Sound Field "**Rainbow Ray Current**" directly into the personal **DNA Template** via direct **Chakra Induction**. Sufficient Rainbow Ray frequencies to provide a level-3 Regent Ordination can be transmitted by a Melchizedek Cloister **level-5 Elder Consummate** or **Level-6 Eckar** Indigo Child-Type-1 Maji Grail Line Angelic Humans, who have the frequencies of the Primal Creation Currents integrated into their DNA Template from birth. **Expedites all of the above** while provided additional **bio-energetic field support** for more **stable cycles** of DNA Template activation.

Christos Identity Integration

Through progressive activation of the **12-Strand DNA Template**, the DNA "**Internal Star Gates**" between the **1728 simultaneously incarnate selves of the Personal Eternal Christos Identity** progressively **open**. Opening of the Internal Star Gates of the DNA Template allows the **12-dimensional frequency spectra** of the **Soul, Over-Soul** and **Christos Avatar Identity** levels to sequentially and consciously embody within the Angelic Human form.

Soul Integration: Activation of **DNA Strand Templates 4-6** opens DNA Star Gates between incarnates in Planetary Times Cycles 1-2-3 and 4-5-6. The 6th Stand Activated Being possesses **6-dimensional consciousness**, is a fully embodied **SOUL**, can pass through **Universal Star Gates 1-6** of Densities 1 and 2 via formation of the 6-dimensional **Hallah Phase Merkaba Vehicle** and building of dimensions **1-6** of the **Antahkarana** Primal Life Force Current.

Over-Soul Integration: Activation of **DNA Strand Templates 7-9 opens** DNA Star Gates between incarnates in Planetary Times Cycles **1-2-3, 4-5-6** and **7-8-9**. The 9th Stand Activated Being possesses **9-dimensional consciousness**, is a fully embodied **OVER-SOUL**, can pass through **Universal Star Gates 1-9** of Densities 1, 2 and 3 via formation of the 9-dimensional **Quatra Phase Merkaba Vehicle** and building of dimensions **1-9** of the complete **Antahkarana** Primal Life Force Current.

Christos Avatar Integration: Activation of **DNA Strand Templates 10-12** opens DNA Star Gates between incarnates in Planetary Times Cycles **1-2-3, 4-5-6, 7-8-9** and **10-11-12**. The 12th Stand Activated Being possesses **12-dimensional consciousness**, is a fully embodied **CHRISTOS AVATAR**, can pass through **Universal Star Gates 1-12** of Densities 1, 2, 3 and 4 via formation of the 12-dimensional **Mahunta Phase Merkaba Vehicle** and building of dimensions **10-12** of the Christos **Maharata Primal** Life Force Current. Reality of the Roundtables

- The **Planetary Christos Realignment Mission** was designed to take place as the members of the Angelic Human races in each of the **4 Evolutionary Rounds** joined together during **Stellar Activations Cycles (SACs)** in their respective Time Cycles, to run their DNA Template Signet Code **Fire Letters** from their **Tribal Shield** into Earth's **Planetary Shields**.

- The groups of Angelic Humans who gather during SACs to run the **Rainbow Ray** Primal Life Force Currents and **Star Gate Signet Code Fire Letters** into Earth's Planetary Shields **to prevent pole shift** are called **Signet Councils**. The Angelic Human Signet Councils are incarnate members of the **Azurite Universal Templar Security Team**.

- The D-12 Shield of Aramatena Planetary Christos Divine Blueprint is referred to as the "**Rainbow Roundtable**". Members of the Angelic Human **Signet Councils** are called "**Rainbow Wearers**" and "**Regents of the Rainbow Roundtable**". These titles indicate the capacity to hold at least temporary **12-Strand DNA Template activation**, which permits the Regents to run sufficient amounts of the Rainbow Ray Primal Currents to reset the Planetary Christos Divine Blueprint within Earth's Planetary Shields.

- **Running of the Planetary Signet Rainbow Roundtables to prevent pole shift during SACs is done in the following manner:**
  1. Activation of the Personal **D-12 Maharata Current** and **Tribal Shield** to run the **Rainbow Ray Primal Currents** via temporary activation of the **12-Strand DNA Template**.
  2. Assembling of **Signet Council Regents** at various geographical locations to conduct "**Roundtables**", using specific "**Signet Stands**" to **collectively** run the **Tribal Shield Fire Letters** into Earth's Planetary Shields at Earth's **12 Star Gate opening points** and **12 Gate Activation Sites**.

- If an individual Regent **can determine** which of the 12 Angelic Human Tribes represents their **genetic lineage**, they can direct their Rainbow Ray Current and Tribal Shield Fire Letters directly to the **Star Gate and Activation Site** to which their DNA Template corresponds.

- If the specific 12 Tribe lineage **cannot be determined**, individuals can use the **Sound-Symbol Program of "Tribe-13"** the **Universal Tribe** containing **all 12-Tribes**, running their Rainbow Ray Current and Tribal Fire Letters into the **Gru-Al Point** central control point for Earth's Planetary Shields.

- The **Tribal Shields** is brought into activation through **sounding of the compound tonal programs** that represent the **audible sound translation** of the **specific frequencies** carried in the **Tribal Shield** DNA Template **Fire Letter Sequences**.

12 Tribe Names and Sacred Psonns

- The **original names** of the Angelic Human 12-Tribes were spoken in the **first** of 5 **Christos Languages**, the **Mu'a/Anuhazi language** of the **Palaidia Urtite Cloister Mu'a race**. Anuhazi ("Mu'a") is the original **first externally spoken language** in our Time matrix, the native tongue of the **Emerald Order Breneau** and **Lyran-Sirian Elohei-Elohim Christos Founders** races from Density-5 (dimensions 13-14-15).

- The **12-Tribes names** were the **audible-tone translations** of the **specific Fire Letter Sequences** contained within the **Tribal Shield DNA Templates** of each Tribe. The tones of the Tribal names were used to activate the **144 Fire Letters** of the Tribal Shield in the **personal DNA Template**, providing the Angelic Humans races with the ability to **consciously regulate** the **activation level** of their **DNA Templates** and **Primal Life Force Currents**.

- The **Sound-Tone Programs** that are used to activate the DNA Template and Primal Life Force Currents are called "**The Sacred Psonns**". The **Tribal name** was the **Master Psonn**. In running the Rainbow Roundtables, the Signet Council Regents brought their Tribal Shield "Flame Codes" into activation by **singing rounds** of the **Sacred Master Psonns**.

The Three Key Elements of the Cycle of the Rounds

Key Element-1: "The 12 Signet Tribes and Races List"

The methods by which we can fulfill our intended part of the **Planetary Christos Realignment** become apparent through understanding **Three Key Elements of the Cycle of the Rounds** Angelic Human evolutionary design.
Element-1. the 12 Signet Tribes and Races List: The list of **Signet Ancestral Ascendancy**, which reveals the **12 Signet Tribes** appointed as Guardians and "*Keepers of the Keys*" for each of the 12 Universal Star Gates and their earthly correspondences. The *12 Signet Tribes and Races List* **traces the genetic lineage** of the 5 Palaidia Urtite-Cloister Angelic Human Seed Races that founded the **12 Signet Tribes of Seeding-3** up to their **contemporary race lines**. Through revelation of Signet Ancestral Ascendancy, we can identify the original **Signet Tribe** from which our **current genetic code** originally emerged, and thus we can reclaim the knowledge of the "**Signet Council**" to which we presently belong. This information, recorded on **CDT Signet-Plate-12**, allows us to identify the **Core Signet Key Codes** upon which our **personal DNA Templates** are built, so we know to which of the 12 Star Gates our **DNA Template is "Keyed"**. Identifying which of the 12 Tribes represents our **predominant genetic lineage** enables us to discover the **core "Master Symbol-Color-Tone"** Keys we need to rapidly **initiate accelerated "Fire Letter" activation sequences** in our dormant **12-DNA Templates**, to expedite embodiment of our personal **D-12 Inner Christos "Maharic Shield" Template.**

Progressive embodiment of our **Personal Divine Blueprint**, the **D-12 Pre-matter Maharic Shield,** allows us to progressively attain **REAL 12th dimensional "Christ Consciousness"**, rather than **false "Christ consciousness"**. **False Christ consciousness** teaches us to give **spiritual "lip service" and "wishful thinking"** to the **concept** of becoming "Christed" through worship of a **false externalized god**, but teaches **nothing of the realities of Sacred Science 15-Dimensional Human Anatomy and Ascension Physics**. The Founders' **Sacred Science** knowledge represents the "**Keys to the Kingdoms of Heaven**", without which one **cannot attain genuine Christ Consciousness, Spiritual Mastery** or **Ascension**. Though full translation of the **12 Signet Tribes and Races List** for Seeding-3 would literally fill **thousands of books**, a **basic analysis** of the Ancestral Ascendancy contained in the list will provide sufficient data for many of us to trace our **Primary DNA Template Signet Coding**. Through the **rudimentary but accurate listings** provided in this book, many of us will be able to identify our original **Tribe** and **Primary DNA Template Signet Coding**, and thus the **Star Gate**, **Signet Set** and **Master Symbol-Color-Tones** to which our DNA Templates are "frequency keyed". In **Global Healing Efforts**, **Planetary Templar Grid Work** and actualizing Earth's **Christos Realignment**, it is essential for us to understand the **Three Key Elements of the Cycle of the Rounds** Angelic Human Evolutionary Design. Understanding the basic realities of the Cycle of the Rounds will determine whether we will be **lovingly and tangibly effective** or well meaning but unable to fulfill our good intentions in our planetary healing endeavors. The **First Key Element of the Cycle of the Rounds** is the **12 Signet Tribes and Races List**, through which we can discern **what Star Gate is waiting to receive our personal "piece of the Christos"** to **"fill in the frequencies"** of its own Divine Christos Blueprint.

Key Element-2: "The Signet Maps and Keys"

The Cycle of the Rounds Key Element-1, **The 12 Signet Tribes and Races List**, provides us with the first **necessary tool** to discovering the Master Symbol-Color-Tone sequences and Star Gate Signet Council to which our personal DNA Templates AND Soul Contracts are keyed; our original **Tribe**. Once we have a **basic idea** of what Palaidia Empire Seed Tribe our genetic lineage (and our **reincarnational lineage** as well!) emerged from, we can then utilize the information contained in **Key Element-2** of the Cycle of the Rounds. **Key Element-2** is the **Signet Maps and Keys Chart**, which reveals the **Tonal Encoding** of each **12 Tribe name**, the **Star Gate-Signet Set assignment** of each Tribe, the **specific geographical locations** of the **12 Templar Signet Site** star gate opening points and their corresponding **Templar Cue Site** activation points. The *Signet Maps and Keys Chart* also reveals the **Master Symbol** (frequency director), initiating **Master Tone Suffix** (frequency activator), the ***Psonns*** (primary tonal activation sequence), **Flame Code** (frequency

selector: Signet Master Key Code) and **Master Color** (frequency selector; Signet Encryption Key Code) for **each of the 12 Tribes**. This data represents the "**Fire Letter**" **Frequency Programs** to **expedite activation** of the personal **DNA Template** and the **Frequency Keys** by which each of the **12 Star Gates and Signet Sets are activated**. Like Key Element-1: *The 12 Signet Tribes and Races List,* full translation of Key Element-2: *The Signet Maps and Keys Chart* would fill many volumes; the **Signet Maps** and **Keys Chart** is drawn from the "**Book of Maps and Keys**", stored on **CDT Signet-Plate-11**. Advanced study of **Masters Sacred Physics Mechanics** is required before the **full body of knowledge** contained within the *Book of Maps and Keys* can be sufficiently understood and functionally utilized.

Due to the progressive difficulties emerging in Earth's 2000-2017 Stellar Activations Cycle (SAC), there is **presently no time available to methodically initiate advanced study** of *Masters Sacred Physics Mechanics;* such study **will be made available** to the public IF Earth's 2000-2017 Planetary Christos Alignment is successful. If the 2000-2017 "**Bridge Zone Project**" (*re: Chapter-8*) and its inherent **Planetary Christos Realignment Mission** (*re: Chapter-18*) are not successful, **pole shift before 2017** will be unavoidable; in this event, the Founders' first priority will be **evacuation**, followed by education. The **Signet Maps and Keys Chart** is a translation of **entry level study** of the **Book of Maps and Keys**; it provides sufficient information by which individuals can reclaim the basic tools through which the **Planetary Christos Realignment** can be achieved during the **2000-2017 SAC**. Once the personal **Tribe** is identified through the **12 Signet Tribes and Races List**, and the **Signet Maps and Keys** corresponding to the Tribe are revealed, the **final element** of the Cycle of the Rounds will allow this knowledge to be used directly for **personal and planetary empowerment**. The knowledge offered through the **Three Key Elements of the Cycle of the Rounds** represents the **Divine Right Empowered Wisdom** through which the **Bridge Zone Project** Time Continuum Shift, the **Planetary Christos Realignment** and the **Founders' Emerald Covenant Vision of Angelic Human freedom** can be actualized. **Key Element-3** is called the "**Rites of the Rainbow Roundtable**".

Key Element-3: "Rite of the Rainbow Roundtable"

Key Element-3 in the Cycle of the Rounds is called the Rite of the Rainbow Roundtable, or the "RRT", which is composed of two primary components. One component of the RRT is referred to as Tribal Shield Activation; the second component is called the Signet Stands. Component one of the Rite of the RRT, Tribal Shield Activation, is the ancient process of internal energy direction by which the Palaidia Urtite-Cloister Races consciously brought the core coding of their DNA Templates into activation. Through activation of the Tribal Shield in the DNA Template, the Angelic Human body can run the "Rainbow Ray" Primal Kee-Ra-ShA Light and Khundaray Sound Currents and the D-12 Maharata "Christos Current" Pre-matter hydroplasmic "carrier wave" that is necessary for embodiment of the 15-dimensions-plus Rainbow Ray Ante-matter Currents.
Through activation of the Tribal Shield one learns to direct the personal Kundalini Life Force energies into their originally designated co-ordinates within the 4 Density Levels of Earth's Planetary Shields, to effectively create a Trans-Geographical and Trans-Time Connection with the other members of the "Rainbow Wearers Signet Council" soul group to which the frequencies carried in your DNA Template are inherently keyed. Activation of the Tribal Shield begins rapid restoration of the natural 12-Strand or higher Angelic Human DNA Template, reordering genetic mutations and blockages that have historically plagued our race due to Fallen Angelic manipulation.
Once the Tribal Shield is activated the DNA Template "goes on automatic pilot", progressively running the appropriate sequences of Strand Activation in synchronization with the progressive activation of Earth's Planetary Shields as they come out of dormancy during the Stellar Activations Cycle. In activation of the personal Tribal Shield, one becomes a "walking Rainbow Wearer", a biological electromagnetic "anchoring rod" for the D-12 Maharata Christos and Rainbow Ray Kee-Ra-ShA and Khundaray Currents. You will draw in and transmit only the amount of frequencies your DNA Template is "keyed" to carry, and your natural Spiritual Integration and Actualization process will naturally unfold under the guidance of your own D-12 Inner Christos

"Avatar" level of consciousness. As a Signet Council Rainbow Wearer, your biological presence progressively becomes an **agent of natural healing**, not only for yourself, but also within **any environment** into which you may travel. Rite of the RRT **component two**, **Signet Stands**, reveals the **3 Primary Positions**, or "**Stands**", for arranging members of a **group** when orchestrating intensive **Site Work** RRTs in a **Planetary Shields Clinic** setting. Utilizing the **geometrical relationships** between the electromagnetic fields generated by DNA Template activated bodies enables groups of Rainbow Wearers to **amplify and direct the Rainbow Ray Current** in the most effective manner. Key Element-3: "*The Rites* of the *RRT" is* drawn from one of the "**Books of Process**", stored on **CDT Signet- Plate12**.

Tribal Shield Dynamics

Tribal Shield Activation, "Fire Letters" and the DNA Template

The **Tribal Shield** refers to the core programming of **Fire Letters** held within the personal DNA Template. The personal 12-Strand DNA Template is composed of specific groupings of **scalar-standing-waves**, fixed points of light and sound wave frequencies that represent the **blueprint** upon which the personal DNA, the body's molecular structure and the embodied consciousness manifest. All humans have a **common Base-12** 12-Strand DNA Template; Maji races, such as the contemporary **Indigo Children**, have the Base-12 Template and can have up to **48** full DNA Strand Templates, which activate in synchronization with the Base-12 Template. **Each strand** of the DNA Template is composed of **12 Fire Letters**. A "**Fire Letter**" is a fixed point of consolidated scalar-frequency that is composed of **12 smaller units of frequency** called **Vector Codes**. Each DNA Strand Template, with its inherent "**Base Codes**", "**Acceleration Codes**" and "**Activation Fire Codes**" (re: *Appendix: DNA 101* section) represents one "**Fire Letter Sequence**". A **12 Strand DNA Template** thus carries: **12 Fire Letter Sequences** (Strands), **144 Fire Letters** (12 Fire Letters per Strand x 12 Strands), and **1728 Vector Codes** (12 Vector Codes per Fire Letter x 144 Fire Letters). The Maji 48 Strand DNA Template carries: **48 Fire Letter Sequences** (Strands), **576 Fire Letters** (12 Fire Letters per Strand x 48 Strands), and **6912 Vector Codes** (12 Vector Codes per Fire Letter x 576 Fire Letters). The 48 Strand Maji DNA Template is sophisticated enough to carry the **144 Universal Signet Master Key Codes** and **1728 Universal Signet Encryption Key Codes** corresponding to the **12 Universal Star Gates** of the Universal Templar Complex in our Time Matrix.

Each of the 12 Angelic Human Tribes carries the same core 12-Strand DNA Template, plus whatever additional strand coding characteristic to the Race Cycle or "Round" within which it is manifest. The **Base-12 DNA** Template, with its 12 Fire Letter Sequences, 144 Fire Letters and 1728 Vector Codes, is the **personal "Divine Christiac Blueprint"**; the **D-12 Maharic Shield** Pre-matter Template through which the full **12-dimensions** of genuine "**Christ Consciousness**" can embody when the 12-Strand Template is **fully activated**. (Contemporary humanity carries an average of 2.5 to 3.5 DNA Strand Template activation level.). All Angelic Human Tribes emerge from the **same D-12 Christos Blueprint**, but **each Tribe** has the **Fire Letters** in each Strand Template **arranged in a different order or sequence**. The DNA Template is the electromagnetic blueprint through which **specific frequencies** and **corresponding dimensions of consciousness** are drawn into **manifest embodiment** from the Universal Unified Field of energy consciousness in our Time Matrix. **Variation of DNA Template Fire Letter Sequencing** between the 12 Tribes seed races allows **each Tribe** to draw and transmit a **specific arrangement** of frequencies and specific dimensions of consciousness into Earth's Planetary Shields. Each of the 12 Angelic Human Tribes is designed to enter a **specific part** of the D-12 Shield of Aramatena **Universal Christos Divine Blueprint** into Earth's Manifestation Template, in fulfillment of the **Planetary Christos Realignment Mission** (*re: Chapter-18*). The specific **DNA Template Fire Letter Sequence program** unique to each of the 12 Tribes seed races is referred to as the "**Tribal Shield**".

The DNA Templates of all contemporary humans originally emerged from **one of the 12 Tribes**, which were composed of **various combinations** of the **5 Palaidia Urtite-Cloister seed races**. When we activate the Tribal Shield, via our innate Inner Christos Divine Blueprint, through using the **Master Symbol-Color Tones** that correspond to our Tribal Shield imprint, we progressively realign the Fire Letter Sequences in our DNA

Templates to their original, organic Christiac order. Realignment of the DNA Template with the innate personal D-12 Christos Blueprint allows the 12-Strand DNA Template to realign distortions, so the Strand Templates can **activate in the specific sequence** for which they were designed. Activating our Tribal Shield allows the "**Internal Star Gates**" within our DNA Templates to open, creating a **direct energetic conduit of frequency**, and **bridge of conscious awareness**, between our **present incarnation** and our other **simultaneous incarnations** that exist **now** in other space-time vectors of the **Cycle of the Rounds**. To create the **Trans-Time Connection** through which the **Planetary Christos Realignment** can be fulfilled, our **personal DNA Templates** must progressively open to allow the **frequencies** from the **other related Time Vectors** to enter Earth's **present Time Vector**. The human DNA Template was designed to allow for this Trans-Time Connection frequency bridge. Through activating the **proper sequences** within our DNA Template Tribal Shield, we progressively allow the proper sequences of the Universal D-12 Maharata and Rainbow Ray Current to enter our bodies. From our sequentially activated DNA Templates, we then pass the **proper sequences of frequencies** from the Universal Christos Blueprint into Earth's Planetary Shields, resetting the part of the D-12 Shield of Aramatena to which our **race cycle** is assigned, within Earth's Manifestation Template. The Angelic Human race was designed to fulfill to this **Divine Commission**. As we assist the planet to become "**Christed**" (embody its full D-12 Christos Blueprint), we in turn progressively return to our originally Christed state, as our **personal Christos Blueprint** embodies. Through embodiment of our personal Inner Christos Divine Blueprint, we achieve **genuine spiritual actualization** and reclaim our dormant ability to pass through the **12 Universal Star Gate "Ascension Passages"** at will, in fulfillment of our intended Angelic Human mastery of the space time-matter experience.

When we use the knowledge gained from Element-1: **The 12 Tribes and Races List**, Element-2: The **Signet Maps and Keys**, with Element-3: **Rite of the RRT Tribal Shield Activation**, we become **empowered Angelic Humans** capable of fulfilling the **Planetary Christos Realignment Mission**. As empowered Angelic Humans, we reclaim our heritage, our innate divinity, our ability to love unconditionally and wisely, and we reclaim our personal and collective **freedom** to have a direct, immediate and personal co-creative relationship with Source-God. The Tribal Shields Activation teachings show HOW to activate the appropriate frequencies in our DNA Templates, and WHERE to direct those frequencies into the Planetary Shields, to anchor the part of the Universal Christos Blueprint that we were personally commissioned to deliver when we entered the Angelic Human incarnational cycle. Activation of the Tribal Shield allows us to **work alone or in groups** to achieve **accelerated personal spiritual development** and to **orchestrate effective, remote planetary restoration** without having to physically visit the locations of Earth's Star Gates and Templar Cue Sites. Through Tribal Shield Activation we reclaim the ability to **remote activate** the **12 Signet Shields** and **Signet Plates**, Earth's **Star Gates** and the **Planetary Christos Blueprint**.

Transmutation, the Transduction Sequence, Consciousness and the Merkaba Vehicle

So **what HAPPENS** once a body undergoes **atomic transmutation** through **natural activation** of the **Turn-Stile and Interface DNA Sequences** and formation of **Celestaline Wave** that carries the atomic blueprint into the D-12 Pre-matter **Hydro-plasmic Liquid Light state**? When the process of atomic transmutation is set in motion by the activation of the Turn-Stile and Interface DNA sequences and resulting formation of Celestaline and DNA Strand Braiding, it **happens so quickly throughout the entire organism** that the physical body appears to "**instantly disappear**". What happens to the **personal identity and consciousness** once the "body disappears" through the organic chemical DNA processes previously described? As the DNA Template "Fire Letters" (the 12 Keylons per Strand Template) awaken or "fire", and the chemical DNA assembles its Turn-stile and Interface Sequences, distinct changes also occur throughout **the Chakra, Axia-tonal Line, Meridian Line, Kundalini** and "**Auric Field" systems** of the personal "subtle-energy-body" anatomy. The **"subtle-energy-body systems"** (which are detailed in the Kathara Bio-Spiritual Healing System Certificate Program Level 1"), are the **"energy relay systems"** that circulate interdimensional frequency between the physical body and the Kathara 12-Tree Grid Core Template, DNA Template, chemical DNA and atomic structure. The changes that **set** in motion the physical **atomic transmutation** processes, which begin with stimulation of the **Vector Codes** in the **DNA Template** and resulting activation of the chemical **Turn-Stile DNA**, begin with changes that **first occur** in the **subtle-energy-body systems**. The process of frequency stimulation by which the Vector Codes in the DNA Template activate, and by which the DNA Template electromagnetically transfers its active blueprint into the chemical DNA blueprint is called the **Transduction Sequence**.

In the **Transduction Sequence**, incoming frequency passes from the "external" **Dimensional Unified Fields** of energy (Universal Life Force Currents) into the embodied **Kathara Grid Template**, then into a portion of subtle-body anatomy called the personal "**Shields**" (the personal equivalent to Earth's Planetary Shields). The personal Shields are the **set of four, 3-dimensional fixed scalar-wave templates** (like the DNA Template, the Shields are composed of Keylons, Partika and Particum units) that **transfer frequency** from the **Kathara Grid** Core Template into the **DNA Template** and related systems. When specific frequency enters the Shields, the Shields progressively activate (their dormant scalar-wave groups "turn on"). When **activated**, each of the **4 Shields** forms a **horizontal, rotating disc of energy** that runs **through and extends out around the body**, each disc in a different location. One Shield activates on **top of the head** (Density-3 **Teuric Shield**), one at **chest** (Density-2 **Doradic Shield**), one **just below the navel** (Density-1 **Telluric Shield**), and one **12" below the feet** (Density-4 **Maharic Shield**). Each Shield corresponds to a set of **3 DNA Strand Templates**; as the Shield activates from frequency sent by the Core Kathara Grid, the **corresponding portions** of each DNA Strand Template also activate, carrying the frequency on its way into chemical and atomic translation. As each Shield and corresponding DNA Strand Template activates, a series of electromagnetic energy-circulation structures within and surrounding the body also comes into activation; these structures are called **Merkaba Fields**. As previously described in this chapter, the **12 Vector Codes** in each **DNA Keylon/Fire Letter** in each **DNA Strand Template** activate to form "**Micro-Merkaba Fields**" in the **DNA Template**. As this occurs on the **Micro level**, **larger Merkaba Fields** are also coming into activation within the subtle-energy-body systems. A **set of small Merkaba Fields**, called **Dimensional Merkaba Fields** (bigger than the "Micro-Merkabas" in the DNA Template), activates within and around the body and if at least **3 DNA Strand Templates** (**one Shield**) come **into full activation a larger 3-dimensional Harmonic Merkaba Spiral activates around the body**.

The internal and natural external **Merkaba Field** structures pass frequency **from the DNA Template** into the **Auric Field levels** surrounding and permeating the body, then into the vortex structures of the **Primary Chakras** (there are 15 Primary Chakras). From the corresponding Primary Chakras and related structures, frequency passes into the nucleus of cells and into the **chemical DNA**. This Transduction Sequence **takes place at all times to some degree**; it is the method by which Universal Life Force Currents circulate between the body and the environment. However, in order for the physical body to achieve **DNA Strand Braiding**, production of **Celestaline** and **atomic transmutation**, the **DNA**

Template, **chemical DNA**, **Shields** and **smaller Dimensional Merkaba Fields** must **fully activate** to form the **larger** 3-dimensional **Harmonic Merkaba Spirals**. When **fully and properly activated**, each of the **4 Shields** and corresponding **set of 3 DNA Strand Templates** (and chemical DNA translations) form **one** large 3-dimensional **Harmonic Merkaba Spiral** around the physical body. For atomic transmutation to occur, the **4 Harmonic Merkaba Spirals** progressively **merge** to form the "**inter-dimensional electromagnetic transport field**" known as the **Merkaba Vehicle**. The **Merkaba Vehicle** is the form that the **identity and consciousness** adopt or "**turn into**" during the process of atomic transmutation. If it were not for the **electromagnetic-wave-form** of the **Merkaba Vehicle** (and the scalar-wave **Shield** "blueprints" for the Merkaba Vehicle), the units of dimensionalized frequency of which the **personal consciousness** is composed would **fragment** into the **Dimensional Unified Fields**. Upon fragmentation of the consciousness, the **identity** would lose all **focus of individuation, self-sentience and memory**, returning to **undifferentiated units of conscious energy** within the Unified Field, in need of **re-starting evolution**; this is what occurs in **spontaneous combustion** and related phenomena.

During natural atomic transmutation, the conscious identity takes on the form of the Merkaba Vehicle, which **holds its individual integrity and conscious awareness intact** through the atomic transmutation process. **AS the Merkaba Vehicle**, the conscious identity still "**thinks, feels and perceives**" through instantaneous **Direct Cognition**, and utilizes **Directed Intention** and **Projection of Consciousness** to **direct the function** of the Merkaba Vehicle. Through **Directed Intention**, the conscious identity AS the Merkaba Vehicle **holds in conscious awareness** the **destination** to which it desires to **transport**. The **scalar-wave mathematical instructions** generated by this **thought-intention** instantaneously direct the Merkaba Vehicle to the desired destination via the natural interdimensional passages of the Planetary, Galactic and Universal **Star Gate System**. Once arriving at the desired location, the conscious identity AS the Merkaba Vehicle will **adopt** the natural **space-time-dimensional frequency co-ordinates** of the **new location**. The **atomic structure** of the body form, which has been held within the **Celestaline Wave** as a D-12 **Hydro-plasmic columnar-wave** blueprint, **down-scales in frequency** to "**re-manifest**" in the new location. As the **atomic structure** "down-scales" it adopts the natural **Angular Rotation of Particle Spin** and **matter Density Level** inherent to the **matter base** of the environment in the new location. The very real experiences of **biological space-time travel, Star Gate passage** and **full bodily spiritual "Ascension" use exactly the same** Universal Physics Dynamics of **atomic transmutation** via utilizing the **Merkaba Vehicle**. The atomic structure enters **Celestaline Wave suspension** and the **consciousness**, as a field of **aware energy units**, takes on the form of the **Merkaba Vehicle**, through which **thought-intention** is used to direct transport to the desired destination.

With full mastery of the personal **12-Dimensional Merkaba Vehicle** (called the "Christiac" or Mahunta Phase Merkaba Vehicle), the identity has the ability to enter or leave its biological form **at will**. A (D-12) ***Mahunta Phase* Merkaba Master** can **physically manifest** for as **long as desired** within **any one**, or **numerous simultaneous, space-time co-ordinates**, in **any one or all** of the **4 Density Levels of matter** (12-Dimensions) or can de-manifest to "become Merkaba" within the D-12 Hydro-plasmic Liquid Light. A (D15) ***Rahunta Phase Merkaba*** Master can **completely de-manifest** the biology and the D-12 Hydro-plasmic Liquid Light body and "turn into Merkaba" to become a **Breneau-Rishi**, for exploration of the **Primal Light Fields** of **Density-5**. Mastery of the Merkaba Vehicle is complete, internally focused, conscious mastery over the **biological genetic code** and the **multiple dimensions** of **personal spiritual consciousness**, neither of which can be achieved without **sequential and natural** activation of the personal **DNA Template**. As we progress in our exploration of the **Merkaba Vehicle**, we will begin to comprehend the true **Horror of Human History** and the real **root of historical and contemporary Human Suffering**. As we discover how the Angelic Human and Annunaki-hybrid **DNA and biology** were **intended to function**, and the majestic abilities, freedoms and potentials **both species were intended to enjoy**, we can begin to fathom **precisely the extent of the travesty** that has been visited upon us through the **Checkerboard DNA Mutation**. We will also begin to a **glimpse the potential joys, freedoms and victory** that await both Angelic Human and Anunnaki-hybrid races when the **Homo-Sapiens-2 mutation is healed**. Through our genetic healing via internal **DNA Template Bio-regenesis**, our **spiritual healing** will also occur as Angelic Humans and Anunnaki-hybrids **reclaim** their respective **Divine Right Destinies** and **blessed personal relationships to the ONE-Source-God**, from the clutches of **covert Fallen Angelic manipulation** and **externalized pseudo-god personifications**. (Note. The **Anunnaki-hybrid** form houses both **Anunnaki** and **Drakonian-Reptilian-Insectoid** souls; therefore it is the **earthly biological structure** through which members of both **Fallen Annu-Elohim**

and **Fallen Seraphim** souls can **re-evolve** the **12-Strand DNA Template** to achieve "Christhood" and restore their **original connection to the Universal Divine**.). Since **DNA is the key to the Merkaba Vehicle** and the **Merkaba Vehicle is the key to achieving biological and spiritual mastery** within the space-time-matter systems, it will be helpful to ask the question "**Just WHAT IS a Merkaba Vehicle?**" The answer to this question can be found through a bit more exploration of the "**Mysteries of Merkaba**".

De-mystifying the Merkaba Vehicle: Merkaba Phases, DNA and Kundalini

As described in Chapter-7, **Merkaba Fields** are **pairs of interwoven**, counter-rotating, **interdimensional electromagnetic energy fields** composed of an anti-particle ***clockwise-rotating*** **Electrical Spiral** ("male") and a particle ***counter-clock-wise rotating*** **Magnetic Spiral** ("Female"). Chapter 7 reviews Merkaba Fields within their **larger planetary context**, but the same structure of Merkaba Fields applies to the smaller structures of **biological bodies** and to the microcosmic structure of **DNA Templates** and **chemical DNA** upon which biological bodies form. Merkaba Fields are an intrinsic part of the **Primal Order** upon which the **15-Dimensional Time Matrix** is structured; they form as an **effect** of the natural core **Kathara 12-Tree Grid** (*ref: earlier this Chapter*) structure of the Universal Manifestation Template (scalar-grid Divine Blueprint). Merkaba Fields are the **natural energy circulation system** between the **Particle and Anti-particle Universes** in our Time Matrix, and between our Time Matrix, other Time Matrices and the cosmic order of the **Primal Kee-Ra-ShA Light Fields** (Dimensions-13-14-15) and the **Primal Khundaray Sound Fields** that connect Time Matrices to Source-God. **Merkaba Fields** are the **specifically structured, dimensionalized, electromagnetic vehicles** through which the **Kundalini** (D-1 through D-9 "Antahkarana"), **Maharata** (D-10-11-12), **Kee-Ra-ShA** (D-13-14-15) and **Khundaray** (Eckatic, Polaric and Triadic Primal Sound Fields) **Universal Life Force**-Energy Currents **circulate** into and out of manifestation. Contrary to popular **distorted "ascension" teachings**, "Merkaba Fields" and "**Merkaba Vehicles**" are not just the "**Divine Vehicles of Light**" reserved exclusively for "**Ascended Masters**" when they grace us with their presence in the "lower" worlds of matter. **EVERYONE and every thing possesses a natural Merkaba Vehicle** composed of **specifically ordered sets** of smaller **Merkaba Fields**. The personal Merkaba Fields of biological forms are **every bit as essential** to the creation and sustenance of the body and embodied consciousness as are the **physical cardio-vascular, respiratory and neurological systems**.

The only difference between a **"mortal" being** and an **embodied "Ascended Master"** is that the "mortal" has **not yet fully integrated** the **12-dimensions** of frequency from the **Time Matrix** and the **frequency spectrum** from the **Primal Light and Primal Sound Fields** into the **organic DNA Template**. It is through activation of **each full dimensional frequency band** within the **DNA Template** that the **Single-Dimension Merkaba Fields** awaken in the body to progressively form, from the **Universal Life-force Currents**, the full **Interdimensional Merkaba Vehicle** by which higher dimensional **"spiritual" consciousness** embodies and through which **atomic transmutation** takes place. It is through progressive activation of the personal **Interdimensional Harmonic-Merkaba Vehicle** that the biological form becomes capable of **interdimensional, inter-time transit**, or entering the "**State of Merkaba**". In simple terms entering the "State of Merkaba" means **transmuting the density** of the matter-body into a **less dense state** of light-sound waves by **shifting the angle of the axis** upon which matter particles rotate. It is the **level of Merkaba Field and DNA Template/chemical DNA activation** that determines whether one will possess "Ascended Master" **multi-dimensional awareness** and an "Eternal-Hyper-dimensional Merkaba Body" or whether one will be limited to **3-dimensional consciousness** and a **finite "mortal" body**. **Less complex life forms** have DNA Templates composed of **fewer dimensional frequency bands**, which **limits the number** of Single-Dimension Merkaba Fields that can activate within the body, thus limiting the amount of Universal Life Force Current that can be synthesized into the biological form. If a being cannot activate a **minimum of 4 full dimensions of frequency** within the DNA Template and body (**4-Strand DNA Template**), the biological form will be "**phase-locked**" into the **3-dimensional Space-time vector** into which it was **born**. The "phase-locked" body will be **finite: incapable** of generating the DNA Keylon/Fire Letter activation sequences and corresponding **chemical DNA sequences** that allow for **shifting of the angle of particle rotation axis (angular rotation of particle spin)**. Biology with a **fixed angular rotation of particle spin** cannot **replenish** the reservoir of **Life Force Currents** beyond that with which it was **born** and cannot generate the **natural shifts in particle-spin axis angle** that allow **particles and anti-particles to fuse** for **atomic transmutation** into light-

sound waves. The **"fixed" body is finite** or "mortal", **incapable of perpetual self-regeneration** and interdimensional, inter-time transit or "ascension", and the consciousness will need to move into another biological form via **death** to continue evolution toward mastery and ascension.

Complex life forms, such as the **12-Strand DNA Angelic Human** species, have DNA Templates built upon **full sets of multiple dimensional frequency bands** (12 dimensions of frequency in the 12-Strand Matrix), which allows **multiple Single-Dimension Merkaba Fields** to activate in the body. As multiple Single-Dimension Merkaba Fields activate the body is **progressively fed a renewed supply** of Universal Life Force Current energy, making the body's **birth energy supply** replenishing and self-renewing. A biology built upon a **12-Strand DNA Template** has the capacity to internally form **12 Single-Dimension Merkaba Fields** that when activated can **fuse together** to form the **Interdimensional Harmonic Merkaba Vehicle**, composed of **four large, interwoven 3-Dimensional Harmonic Merkaba Spirals**. The 12-Strand DNA Template has the capacity to form a **12-Dimensional Merkaba Vehicle**, the "**Mahunta Phase**" Merkaba Vehicle. The 12-Strand DNA Template, with its **12 "Fire Codes"** between the 12 individual DNA Strand Templates (*ref: earlier this Chapter*), carries the frequency blueprints by which the **chemical DNA** chains that form the **genes and chromosomes** can produce the **Turn-Stile and Interface DNA Sequences**. Only through activation of the Turn-Stile and Interface DNA Sequences can **DNA Strand Braiding, Celestaline production and atomic transmutation** take place for progressive activation of the **Interdimensional Harmonic Merkaba Vehicle**.

As the chemical processes of atomic transmutation take place within the physical body structure through progressive activation of the DNA Strand Template and corresponding Single Dimension Merkaba Fields and 3-Dimensional Harmonic Merkaba Spirals, the **electromagnetic fields surrounding the body** also undergo **transformation**. With full 12-Strand DNA Template activation, the polarized (separated) electromagnetic fields around the body (the "Auric Field levels") progressively **release their polarization and electromagnetic barriers**, progressively expanding into a large, **12-dimensional**, counter-rotating **Mahunta Phase Merkaba Vehicle** that forms a "**sphere of light**" (spherical scalar-wave construct) around the body. In **12-dimensional transmutation** (used for interdimensional/ inter-time transit and ascension into **Pre-matter**), the **atomic structure** of the body is **chemically and electromagnetically transmuted** into a Density-4 (D-13-14-15) Pre-matter "Liquid Light" state via **particle anti-particle fusion** that takes place through activation of the "**Mini-Merkaba Fields**" inherent to the **DNA Template**. In this process of **atomic transformation**, the **units of conscious energy** of which the physical body, subtle-energy-body systems and the **embodied levels of consciousness** were composed, **increase in oscillation** (electrical energy expansion) and **lower in vibration** (magnetic energy contraction), **transmuting** into an **Pale-Silver Elliptical Sphere** of Density-4 Pre-matter Liquid Light. This 12-dimensional, Density-4 **Pale-Silver Elliptical Sphere** forms at the center of the spinning electromagnetic Mahunta Merkaba Field; this center-point within a Merkaba Field, within which the Elliptical Sphere of the "Liquid Light Body" forms, is called the **Form Constant**. In 12-Strand DNA activation, the Pale-Silver Elliptical Sphere of Liquid Light that forms within the Mahunta Merkaba Form Constant is called the "**Hydro-plasmic Christos Body**". Before a 12-Strand being can fully activate the **12-Dimensional Mahunta Phase Merkaba Vehicle** for transmutation into Pre-matter, the **3-Dimensional Nethra Phase**, **6-Dimensional Hallah Phase** and **9-Dimensional Quatra Phase Merkaba Vehicles** must first be **sequentially activated** through **sequential activation** of corresponding **Shields** and **DNA Strand Templates**.

Nethra Phase Merkaba and the Telluric Capsule

Activation of the **Telluric Shield** (below navel), **Dimensional Merkaba Fields** 1-2-3, Keylons/**Fire Letters 1-36** in DNA Strand Templates **1-2-3** and **braiding** of the corresponding **Strand-1-2-3 chemical DNA gene chromosome sequences creates the Density-1** (dimension 1-2-3), 3-dimensional **Nethra Phase Merkaba Vehicle**. When **fully naturally activated the Nethra Merkaba Vehicle** forms **around the body** as a **singular, inverted, counter-clockwise rotating** ("female") **Harmonic Merkaba Spiral** or spiraling "pyramidal cone". The "pyramidal cone tip" is in Earth's core and the base **widens upward to surround the body**, up to the **navel region**, where the counter-clock-wise rotating spiraling "pyramidal cone" connects to the **Telluric Shield just below the navel**. Activation of the Nethra Phase Merkaba Vehicle fully activates and merges **Primary Chakras 1-2-3**, through release of the **first pair of 3 electro-**

magnetic Cranial-Sacral Kundalini Seals in the **tailbone** and **Pineal Gland**. (**Cranial-Sacral Kundalini Seals are 3** pairs of Pineal Gland/Tailbone **frequency seals** that **regulate the flow of Universal Kundalini Life Force Currents** from the Dimensional Unified Fields, as they **run vertically through the center of the body** via the **Central Vertical Current)**. (*Ref: Chapter-19*). The Nethra Merkaba Vehicle **normally** mimics the **natural spin** of **Earth's Density-1** Planetary Magnetic Harmonic Merkaba Spiral. In its **natural form**, Earth's Density-1 **Planetary Harmonic Merkaba Spiral** is a **magnetic particle counter-clockwise rotating inverted "female" Merkaba Spiral** that runs at the **natural Density-1 speed ratio of 11 and two thirds** revolutions per approximately **one-trillionth of a "nano-second"** (billionth of a second). This natural "**Base-Magnetic**" configuration of Earth's Density-1 Planetary Harmonic Merkaba Spiral allows Earth's **Templar and Star Gates** to naturally connect with the "**Base-Electrical**" Harmonic Merkaba Spiral of the **Density-2** (Dimensions-4-5-6) system. (**Note: magnetic-electrical** Merkaba Spiral interface allows spirals to **merge in an open frequency conduit; magnetic-magnetic or electrical-electrical** Merkaba Spiral interface causes spirals to **repel and "close the frequency circuit"**). When Earth's Planetary Shields and the Angelic Human DNA Template are **functioning properly**, the **personal** Nethra Spiral **mimics and merges** with the **counter-clock-wise 11-and-two-thirds** natural Density-1 Planetary Harmonic Merkaba spin. Through the Nethra Spiral's Earth core connection, the physical Human body receives a **constant supply of Density-1 Kundalini Life Force Currents** directly from **Earth's Planetary Shields**, for **continued sustenance** of the **D-1 Physical, D-2 Emotional/Elemental and D-3 Mental** body structure. (As we will soon discover, the **Checkerboard Mutation has completely distorted this natural electromagnetic relationship** between person and planet, and within **Earth's natural orbital and axis alignment** with the Universal Star Gates.) Under natural conditions, a fully activated **Nethra Merkaba** allows a human the ability of **healthful biological longevity and Local Teleportation** (3-dimensional atomic transmutation) via natural planetary **portals**, within the confines of the 3-dimensional **Density-1** planetary system. A **properly functioning Nethra Merkaba** is also **essential** for embodiment of higher-dimensional spiritual consciousness and interdimensional perception, for Immortal biological longevity, and for **later formation** of the **Interdimensional Harmonic Merkaba Vehicle through which interdimensional atomic transmutation for off-planet Star Gate passage and bodily Dimensional Ascension** can be achieved. The 3-Dimensional **Nethra Phase Merkaba Vehicle** circulates Density-1 energy through the body via **Primary Chakras 1-2-3**. When activated for Density-1 portal travel, the Nethra Merkaba transmutes a portion of the atomic body into the Hydro-plasmic state of the 12th-sub-frequency bands in dimensions 1-2-3, to form a 3-dimensional, **D-12 Sub-Harmonic Elliptical Sphere barrier**, called the **Telluric Capsule**, around the remaining portions of the Density-1 atomic body. The Telluric Capsule enables the remaining manifest portions of the Density-1 physical body to pass unscathed through **Local Planetary Portals**.

Hallah Phase Merkaba, the Doradic Capsule and the "Soul Body"

Activation of the **Doradic Shield** (at chest), **Dimensional Merkaba Fields** 1-2-3-4-5-6, Keylons/**Fire Letters 37-72** in DNA Strand Templates **4-5-6** and **braiding** of the corresponding **Strand-4-5-6 chemical DNA gene-chromosome sequences** creates the **Density-2** (dimension 4-5-6), 6-dimensional **Hallah Phase Merkaba Vehicle**. (Activation of the Doradic Shield was represented in the depiction of "**Wings**", characteristic to "angels" in ancient art.) When **fully naturally activated the Hallah Merkaba Vehicle** forms an upright, clockwise-rotating electrical anti-particle "male" **Density-2 Harmonic Merkaba Spiral** emerging downward from the **Pineal Gland** in the brain center to the Doradic Shield at the **upper chest**. The point of the "pyramidal cone" is in the **Pineal Gland** and the pyramidal-cone widens as it moves down to the Doradic Shield at the **Thalamus Gland** above the Heart Chakra-4 at the center of the chest. The **base** of the clock-wise rotating Density-2 electrical Harmonic Merkaba Spiral continues to widen as it **extends downward** from the Thalamus Gland and Heart Chakra to the **calves**, **crossing through** the counter-clock-wise rotating **Density-1 magnetic Nethra Spiral** to form an electromagnetic "**Form Constant**" Elliptical Sphere **around the body**. Activation of the Hallah Phase Merkaba Vehicle fully activates and merges **Primary Chakras 1-2-3-4-5-6** through release of the **second pair** of 3 electro-magnetic **Cranial-Sacral Kundalini Seal pairs** in the **tailbone** and **Pineal Gland**. The Hallah Merkaba Vehicle **normally** mimics the **natural spin** of the **Density-2 Electrical Solar Galactic Harmonic Merkaba Spiral**, to which Earth's Density-1 Magnetic Harmonic Merkaba Spiral normally connects. natural form, the Sun's Density-2 **Galactic Harmonic Merkaba Spiral** is an **electrical anti- particle clock-wise rotating upright "male" Merkaba Spiral** that runs at the **natural Density-2 speed ratio of 33-and-one-third** revolutions per approximately **one-trillionth of a nano-second** (billionth of a second). The natural "**Base-Electrical**" configuration of the **Sun's** Density-2 **Galactic** Harmonic Merkaba Spiral is part of the greater **Density-2** Base-Electrical **Solar- Pleiadian-Sirius B** Intergalactic Harmonic Merkaba Spiral. When the Harmonic Merkaba Spirals of Earth and the Sun are naturally aligned, Earth's **Templar and Star Gates** connect with the **"Base-Electromagnetic" Intergalactic Harmonic Merkaba Field of the Density-3** (Dimensions-7-8-9) system via the Density-2 Base-Electrical Galactic Merkaba Spiral of the Sun and the Density-2 Pleiadian-Sirius B Intergalactic Harmonic Merkaba Spirals. When Earth's Planetary Shields and the Angelic Human DNA Template are **functioning properly**, the **personal** Hallah Spiral **mimics and merges** with the **clock-wise 33-and-one-third** natural Density-2 **Solar-Pleiadian-Sirius B** Galactic Harmonic Merkaba spin. Through the Hallah Spiral's **Solar core** connection the Human body receives a **constant supply of Density-2 Kundalini Life Force Currents** (the dimensions-4-5-6 **Doradic Currents**) directly from the Galactic **Solar Shields** for **continued sustenance** of the **D-4 Astral, D-5 Archetypal and D-6 Celestial** levels of the Density-2 Semi-etheric matter "Soul Body". The Density-2 Soul Body awareness, with its 6-dimensional perception, embodies into the Density-1 physical body via activation of **DNA Strands 1-6** and formation of the 6-dimensional **Hallah Merkaba**.

The **Checkerboard Matrix technology** has created distortions in both the **Hallah and Nethra Phase Merkaba Fields** of both the planet Earth itself, and thus within the interconnected Hallah and Nethra Merkaba Fields and DNA Templates of **all species** who live upon this planet. The planetary Checkerboard Matrix distortion and resulting Checkerboard DNA Mutation was rendered, and continues to be rendered, on a personal and planetary level, through technologically orchestrated electromagnetic blockage and polarity reverse of portions of Earth's Planetary Shields that correspond to **DNA Strand Templates 1-6**. The mechanics of the Planetary Checkerboard Matrix distortion will be later explored. Due to the Checkerboard Matrix distortion and resulting Checkerboard DNA Mutation, the **natural electromagnetic relationships** between **person and soul**, and **Earth's natural alignment** with the Density-2/Dimension-4 **Universal Solar Star Gate-4** has been **fully compromised** since **25,500BC**. Under **natural conditions**, a fully activated **Hallah Merkaba** allows a human the ability of **many thousands of years** of healthful **biological longevity** and **Regional-Intergalactic Teleportation** (6-dimensional atomic transmutation) within **Densities-1 and 2**, via **Universal Star Gates 1 through 6**. A **properly functioning Hallah Merkaba** is also **essential** for embodiment of higher-dimensional spiritual consciousness and interdimensional perception of the Over-Soul and higher-dimensional identity levels, for Immortal biological longevity, and for **formation** of the **Intergalactic Harmonic Merkaba Vehicle** through which **atomic transmutation** for **bodily Ascension to Density-2** can be achieved. The 6-Dimensional **Hallah Phase Merkaba Vehicle** circulates Density-2 energy through the body via **Primary Chakras 4-5-6**. When activated for Density-2 Star Gate travel, the Hallah Merkaba **transmutes a portion of the atomic body** into the Hydro-plasmic state of the **D-12-subfrequency bands in dimensions 1-2-3-4-5-6**, to form a 6-dimensional, **D-12 Sub-Harmonic Elliptical Sphere barrier** called the **Doradic Capsule**. The **bottom** portion of the Doradic Capsule is **magnetic/ particle** and spins **counter-clock-wise** at **11-and-two-thirds RTN** (revolutions per estimated trillionth of a nano-second). The **top** portion of the Doradic Capsule is **electrical/ anti-particle** and **spins clock-wise** at **33-and-one-third RTN**. Within the Doradic Capsule "Form Constant" of the Hallah Merkaba, the density of the Density-1 **carbon-based**, physical atomic body is transmuted into **Density-2 silica-carbon-based Semi-etheric matter**. The Doradic Capsule enables the remaining manifest portions of the **Density-2 Semi-etheric body** to pass unscathed through **Regional Intergalactic Star Gates** and **Universal Star Gates** 1-6. The 6-dimensional Elliptical Sphere of the **Doradic Capsule** and its inherent carbon-silica based **Semi-etheric atomic body** is frequently referred to as the "**Soul Body**".

Quatra Phase Merkaba, the Teuric Capsule and the Over-Soul Body

Activation of the **Teuric Shield** (top of head), **Dimensional Merkaba Fields** 1-2-3-4-5-6-7-8-9, Keylons/**Fire Letters 73-108** in DNA Strand Templates **7-8-9** and braiding of the corresponding **Strand-7-8-9 chemical DNA gene-chromosome sequences** creates the Density-3 (dimension 7-8-9), 9-dimensional **Quatra Phase Merkaba Vehicle**. When fully, naturally activated, the **Electromagnetic Quatra Merkaba Vehicle** forms an upright, clockwise-rotating **electrical** anti-particle "male" **Density-3** Harmonic Merkaba Spiral **AND** an inverted, counter-clockwise rotating

magnetic particle "female" Density-3 Harmonic Merkaba Spiral. When activated, the **upright electrical** portion of the Quatra Merkaba emerges from the Teuric Shield **atop the head**, expands down through the Pineal Gland and continues extending downward to the **feet**, absorbing and merging with the activated electrical **Hallah Merkaba** that extends down from the Pineal Gland to the calves. The **inverted magnetic** portion of the Quatra Merkaba emerges from a point about **3 inches below the feet** and expands upward, extending its base up to Chakra-10 **six inches above the head**, absorbing and merging with the activated magnetic **Nethra Merkaba** that extends up from the Earth's core to just below the navel. The upright electrical and inverted magnetic spirals of the Density-3 Electromagnetic Quatra Merkaba cross through each other to form a **set of two** electro-magnetic "**Form Constant**" Elliptical Spheres **around the body**; one sphere spins **counter-clock-wise magnetic** (**101-and-two-thirds RTN**), the other spins **clock-wise electrical** (**303-and-one third RTN**). Activation of the Quatra Phase Merkaba Vehicle fully activates and merges **Primary Chakras 1-2-3-4-5-6-7-8-9** through release of the **third pair** of 3 electro-magnetic **Cranial-Sacral Kundalini Seal pairs** in the **tailbone** and **Pineal Gland**. When activated, the Quatra Merkaba Vehicle mimics the **natural spin** of the **Density-3** Electromagnetic **Arcturus-Orion-Andromeda** Intergalactic Harmonic Merkaba Field, to which the Solar-Pleiadian-Sirius 6 Density-2 Electrical Harmonic Merkaba Spiral connects. The Density-3 Arcturus-Orion-Andromeda Harmonic Merkaba Field is an **electromagnetic "androgynous" set** of two Merkaba Spirals, composed of **counter-clock-wise spinning particles** and **clock-wise-spinning antiparticles** that run at the natural **Density-3 speed ratios** of **101-and-two-thirds magnetic RTN** and **303-and-one-third electrical RTN**. When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the **personal** Quatra Spiral **mimics and merges** with the 101-and-two-thirds magnetic/303-and-one-third electrical natural Density-3 Arcturus-Orion-Andromeda Intergalactic Harmonic Merkaba spin.

Through the Quatra Spiral's connection to Density-3, the physical Human body receives a **constant supply of Density-3 Kundalini Life Force Currents** (the dimensions-7-8-9 "**Teuric Currents**"), for **continued sustenance** of the **D-7 Ketheric, D-8 Monadic and D-9 Keriatric** levels of the Density-3 Etheric matter "Over-Soul Body". The Density-3 Over-Soul Body awareness, within its 9-dimensional perception, embodies into the Density-1 physical body via activation of DNA Strands 1-9 and formation of the 9-dimensional Quatra Merkaba. Under natural conditions, a fully activated **Quatra Merkaba** allows a human the ability of **many hundreds of thousands of years** of healthful **biological longevity** and **Intergalactic Teleportation** (9-dimensional atomic transmutation) within **Densities-1, 2 and 3**, via **Universal Star Gates 1 through 9**. A **properly functioning Quatra Merkaba** is **essential** for embodiment of the **Density-4 Avatar** and **D-12 "Christos Avatar"** higher-dimensional identity levels, for Immortal biological longevity, and for **formation** of the **Universal Harmonic Merkaba Vehicle** through which **atomic transmutation** for **bodily Ascension** to **Density-3** can be achieved. The 9-Dimensional **Quatra Phase Merkaba Vehicle** circulates Density-3 energy through the body via **Primary Chakras 7-8-9**. When activated for Density-3 Star Gate travel, the Quatra Merkaba **transmutes the majority of the atomic body** into the Hydra-plasmic state of the **12th sub-frequency bands** in **dimensions 1-2-3-4-5-6-7-8-9**, to form the 9-dimensional, **D-12 Sub-Harmonic Elliptical Double-Sphere barrier** that is called the **Teuric Capsule**. Within the Teuric Capsule "Form Constant" of the Quatra Merkaba, the density of the Density-1 carbon-based, physical atomic body and the Density-2 carbon-silica-based Semi-etheric atomic body is transmuted into **Density-3 silica--based Etheric matter**. The Teuric Capsule enables the remaining manifest portions of the **Density-3 Etheric body** to pass unscathed through **Universal Star Gates 1-9**.

Mahunta Phase Merkaba, the Maharic Capsule, the "Christ Body" and Spiritual Integration

Following activation of the lower-dimensional **Densities-1-3,** aspects of the DNA Template, chemical DNA and Merkaba Vehicles, which activates the full spectrum of the **9-Dimensional Universal Kundalini** Currents in the body (the "**Antakharana**"), the final 3 DNA Templates of **Strands 10-11-12** can be activated. **Full activation** of DNA Strand Templates and chemical DNA sequences **10-11-12** activates the full spectrum of the 12-Dimensional **Universal Maharata "Christos" Current** within the body, forming- the **12-Dimensional Mahunta Phase Merkaba Vehicle** through which the atomic structure fully transmutes into the Pre-matter Hydro-plasmic Christos Body of Density-4. chemical DNA gene chromosome sequences creates the **Density-4** (dimension 10-11-12), 12-dimensional **Mahunta Phase Merkaba Vehicle**. When **fully, naturally activated**, the **Electromagnetic Mahunta Merkaba Vehicle** forms an upright, clockwise-rotating **electrical** anti-particle "male" **Density-4** Harmonic Merkaba Spiral **AND** an inverted, counter-clockwise rotating **magnetic** particle "female" **Density-4** Harmonic Merkaba Spiral. When activated, the **upright electrical** portion of the Mahunta Merkaba emerges **Chakras 10 and 11** (18-36 inches) **above the head**, expands down **through and around** the body to the **Maharic Shield** 12 inches below the feet, absorbing and merging with the electrical portion of the activated **Quatra Merkaba**. The inverted magnetic portion of the Mahunta Merkaba emerges from a point in the Maharic Shield 12 inches below the feet and expands upward, extending its base up to Chakra-11 above the head, absorbing and merging with the magnetic portion of the activated **Quatra Merkaba**. The upright electrical and **inverted magnetic** spirals of the Density-4 Electromagnetic Mahunta Merkaba cross through each other to form a **set of two** electro-magnetic "**Form Constant**" Elliptical Spheres around the body; one sphere spins **counter-clock-wise magnetic** (**911-and-two-thirds RTN**), the other spins **clock-wise electrical** (**2733-and-one-third RTN**). Activation of the Mahunta Phase Merkaba Vehicle fully activates and merges **Primary Chakras 1-2-3-4-5-6-7-8-9-10-11-12**, through release of the **D-12 Maharata Seal**. The **3 Parts** of the Maharata Seal are located in the **Pineal Gland**, in the **first** of the **first 8 cells** in the **tailbone** and 12 inches below the feet in the **Maharic Shield**. When activated, the Mahunta Merkaba Vehicle mimics the **natural spin** of the **Density-4** Electromagnetic **Lyran Inter-universal Harmonic Merkaba Field**, to which the Arcturus-Orion-Andromeda Density-3 Electromagnetic Universal Harmonic Merkaba Spiral connects. The Density-4 Lyra-Vega-Aveyon-Aramatena Inter-universal Harmonic Merkaba Field is an **electromagnetic "androgynous" set** of two Merkaba Spirals, composed of **counter-clock-wise spinning particles** and **clock-wise-spinning anti-particles** that run at the natural **Density-4 speed ratios** of **911-and-two-thirds magnetic RTN** and **2733-and-one-third electrical RTN**. When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the **personal** Mahunta Spiral **mimics and merges** with the **911-and-two-thirds magnetic/ 2733-and-one-third electrical** natural Density-4 Lyra-Vega-Aveyon-Aramatena Inter-universal Harmonic Merkaba spin.

Through the Mahunta Spiral's connection to Density-4, the physical Human body receives a **constant supply of Density-4 Maharata Life Force Currents** (the dimensions-10-11-12 **Maharic Currents**), for **continued sustenance** of the **D-10 Christiac, D-11 Buddhaic and D-12 Nirvanic** levels of the Density-4 Pre-matter "Christed Avatar Body". The Density-4 Christed Avatar Body awareness, within its 12-dimensional perception, embodies into the Density-1 physical body via activation of DNA Strands 1-12 and formation of the 12-dimensional Mahunta Merkaba. Under **natural conditions**, a fully activated **Mahunta Merkaba** allows a human the ability of healthful **Eternal biological longevity** and **Inter-universal Teleportation** (12-dimensional atomic transmutation) within **Densities-1, 2, 3 and 4**, via **Universal Star Gates 1 through 12**. A **properly functioning Mahunta Merkaba** is **essential** for embodiment of the **Density-5 Breneau Rishi** higher-dimensional identity levels, and for **formation** of the **Inter-universal Harmonic Merkaba Vehicle** through which **atomic transmutation** for **bodily Ascension to Density-4** can be achieved. The 12-Dimensional **Mahunta Phase Merkaba Vehicle** circulates Density-4 energy through the body via **Primary Chakras 10-11-12**. When activated for Density-4 Star Gate travel, the Mahunta Merkaba **transmutes the entire atomic body** into the Hydro-plasmic state of the **12th Dimensional Frequency band** in Density-5, to form the 12-dimensional, **D-12 Elliptical Double-Sphere barrier** that is called the **Maharic Capsule**. Within the Maharic Capsule "Form Constant" of the Mahunta Merkaba, the density of the Density-1 carbon-based, physical atomic body, the Density-2 carbon-silica-based Semi-etheric atomic body and the Density-3 silica-based Etheric atomic body are transmuted into **Density-4** liquid-silica-based **Pre-matter Hydro-plasmic "Liquid Light"**. The Dimension-12 Pale-Silver Elliptical Sphere of Hydro-plasmic Liquid Light is frequently called the "Christ Body', and sometimes the Buddhaic Body or Nirvanic Body. The Maharic Capsule "Christ Body" enables the Christed Avatar to pass through, unscathed, Universal Star Gates 1 through 12.

Each **dimension of frequency** activated within the body also represents a **dimension of personal consciousness awareness**. "**Spiritual Integration**" is the process of activating the **DNA Template, chemical DNA** and **Merkaba Vehicle Phases**, through which the Density-2 "**Soul**", Density-3 "**Over-Soul**" and Density-4 "**Christos Avatar**" levels of **personal identity and consciousness** can be **fully embodied** to create the condition known as "**Christ Consciousness**". "**Spiritual Actualization**" is the process of **achieving the highest degree of Spiritual Integration** that you are **biologically capable of achieving** in **one lifetime**, as designated by the **number of DNA Strand blueprints** contained in the **DNA Template** through which you **chose** to incarnate. Full "**Spiritual Mastery**" or

"**Ascended Mastery**" is the process of full **transmutation** back through the D-12 **Christos**, the **Primal Light Fields** and the **Primal Sound Fields** into merger with **Source-God consciousness**. This can be achieved directly from the **present life embodiment only** if you incarnated in this lifetime **directly from the Eckatic Level** of the **Primal Sound Fields**, as a "**Yanas**" with a **Universal Templar Service Contract**, through which you would receive the **48-Strand DNA Template** of a **Maji "Eckar"**. You can count **on one hand the number of true Maji-Eckars presently incarnate on Earth**. There are **many more Maji** with 24-47 Strand DNA Templates that are capable of ascension to the **Primal Light or Primal Sound Fields** incarnate now as the "**Indigo Children Types-1 and 2**" Mali Angelic Human Grail Line. **All beings**, whether or not they are born **in this lifetime** with a Maji DNA Template will have **opportunity for further evolution to Ascended Spiritual Mastery** following **transition** (via ascension to higher dimensional fields or bodily death) from this incarnation. The **Maji** Angelic Human **24-48-Strand DNA Templates** (and those of several other **intergalactic species** used by **embodied Ascended Masters** who **incarnate** from the Primal Sound Fields beyond the Time Matrix) have the capacity for **full transmutation** of the **Pre-matter** "Liquid Light Christ Body".

Rahunta Phase Merkaba and the Rishi Body

Complete return to energetic "**At-One-merit**" **with Source-God** is the process of **further transmuting** the Density-4 Pre-matter Pale-Silver Elliptical Sphere of the "Hydro-plasmic Christ Body", first into an **Elliptical Sphere** of Density-5 (D-13-14-15) **Gaseous Primal Light** called the Ante-matter "**Thermo-plasmic Rishic Body**" ("**Rishi Body**"); the 15-Dimensional **Rahunta Phase Merkaba Vehicle.** Transformation to the "Thermo-plasmic Rishi Body" is accomplished by further increasing particle/antiparticle oscillation of the "Hydro-plasmic Christ Body" via activation of the Dimension-13-14-15 **Primal Light Codes** of the Maji DNA Template. The **final transmutation** of identity out of the Time Matrix occurs as the Density-5 Ante-matter Gaseous Primal Light Elliptical Sphere of the Thermo-plasmic Rishi Body is **lowered in oscillation and raised in vibration** via activation of the **Primal Sound Codes** in the **Maji** DNA Template. **Lowering of oscillation** (electrical energy expansion) and **raising of vibration** (magnetic energy contraction) transmutes the **electrical Primal Light Thermo-plasmic Body** back into the **magnetic contraction of Primal Sound**, to become the invisible, inaudible, non-manifest, Elliptical-Standing-Columnar-Vibration-Wave of the **Primal Sound Yuseta Body**; the organic form of a **Yanas** "Ascended Master". Energetic At-one-ment with Source-God, or "**Spiritual Mastery**" is the **Common Evolutionary Objective** and **Eventual Experiential Destiny**, for **ALL LIFE** in the manifest worlds. "**Ascension**" is the Christiac process of "returning home" as a **sentient, conscious, fully aware being. Extinction** is the anti-christiac process of **remaining trapped** within the Time Matrix as **fragmented, undifferentiated units of conscious awareness**, with no memory or cognition of personal identity or of the significance and blessedness of the journey. Either way, all consciousness will **always**, eventually **return** to the **Singular Source** from which **ALL things are born**, for in truth **no-one has ever left this Source-God**; we exist within IT and IT exists within US. This is the **Divine Nature** of the Perpetual and Eternal Flow of Life. The **path of Ascension** and attainment **of At-One-ment with Source-God** through embodiment of **Christ Consciousness and Spiritual Mastery** is fully governed by the **Sacred Science of Creation Physics**. This includes the **Natural Laws of Merkaba Mechanics** and the **DNA Template/chemical DNA dynamics** which are at the heart of the biological **Merkaba Mystery**. The **chemical DNA** is connected to the **DNA Template** (Sub-Strand DNA Matrix) and both DNA Template and its chemical DNA translation are directly and inseparably connected to the formation of the **Interdimensional Merkaba Vehicle**. The DNA Template and internal Merkaba Fields are the elements of human anatomy that **most directly govern the chemical DNA processes** that allow for true **Spiritual Integration** of consciousness and for the potential of **biological atomic transmutation** (ascension and/or star gate/space-time travel).

The Natural Christos Merkaba Vehicle & Personal Shields

The Density-4 Christos Merkaba Spiral (Top-Electrical-Male-CW) begins above the head at Chakra-10, expands up to Chakra-11, then folds down expanding over the body to chakra-12 and the Maharic Shield below the feet, encasing the body in a Pre-matter Liquid-Light Density-4 Base-Electrical Anti-Particle Field that rotates CW on the Electro-magnetic Maharic Shield Horizontal Axis and circulates D-12 Maharata-Christos energy into Chakra-13 and the Rishiac Shield for distribution into the Central Vertical Current of the body (once Cranial-Sacral Kundalini Seals are Released via activation of the 12-Strand DNA Template).

The Merkaba Star Gate Transit (Ascension) Vehicle is created via progressive merging of the 5 Harmonic Merkaba Spirals from each of the 5 Density Levels. Each Harmonic Merkaba Spiral merger creates a "Phase" of Merkaba Vehicle, building a concurrent activation of the Antahkarana, Maharata and Kee-Ra-ShA "Pillar of Light" ("Ascension Tube") as each level of the Universal Life Force Currents and consciousness embodies via activation of the 12-Strand + DNA Template. The "Nethra Phase" Merkaba is the natural level-1, Density-1, 3-Dimensional Merkaba; progressive building stages are the Hallah (6-dimensional), Quatra (9-Dimensional, Mahunta (12-Dimensional), and Rahunta (15-Dimensional) Merkaba Phases.

The Density-5 Rishiac Merkaba Spiral (Bottom-Magnetic-Female-CCW) begins below the feet in Chakra-13 at Earth's Core, expands up above the head to Chakra-14, then folds over the head and down to Chakra-15 many miles beneath the feet, through Earth's center and back out into deep space to the Vertical Axis Magnetic Rishiac Shield. The Rishiac Merkaba Spiral envelopes the body in a Magnetic Field that manifests as a Horizontal Axis CCW rotating Magnetic Particle Field at the Dentisty-1 Telluric Shield and as a Vertical Axis Ante-particle Thermo-plasmic Primal Light Field that circulates D-12 Maharata-Christos and Kee-Ra-ShA Currents up the Central Vertical Current and front of the body, over the head and down the Central Vertical Current and back of the body via the Rishiac Shield Vertical Axis.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-magnetic-CCW-Particle) Density-5 Rishiac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW / 11 2/3 CCW Spin Ratio creates the NATURAL ratio of 33 2/3 – Parts-Electrical Anti-Particles to 11 2/3 – Parts-Magnetic Particles, (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal Merkaba Vehicle spin Ratio creates a self-sustaining, Eternal Matter base that is MORE ELECTRICAL than Magnetic, which perpetually re-fuels itself via natural circulation of the Maharata, Kee-Ra-ShA and Khundaray Universal Life Force Currents.

The Solar Salutation
Electrical Merkaba Activation

- The ancient **Mu'a** and **Lemurian** Guardian Races ran the **Maharata** and activated the **Tribal Shield** each day to conduct the **Sacred Solar and Lunar Salutation Rites** each morning and evening. The **Sacred Salutations** are **Toning Dances** that activate the personal **Merkaba Field** for sustained activation of the DNA Template and amplification of the Maharata and Universal Life Force Currents in the body.

- **Solar Salutations** accelerate the spin of the **Electrical Harmonic Merkaba Spiral** (Top, CW spin), drawing increased amounts of Electrical Anti-particle frequency from the Solar **Electrical Merkaba Spiral** light spectrum into the **Electrical Acceleration Codes** in the **DNA Template** to **"charge" the body** with **Electrical Anti-particle frequency**.

- Accelerated **Electrical Merkaba Spiral Spin** of **Solar Salutations** increases the amount of **Anti-particle Base-Electrical** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the Dimensional Unified Fields and increases the amount of **Anti-particle** frequency sent out from the body into Earth's Planetary Shields. Frequency passes between the Human Body and Earth's Planetary Shields via the embodied **Kathara Grid** core templates that make up the **Planetary Bio-Feed Interface System** ("PBIS")

- **Electrical Anti-particle** energy enters the body via the **"Top" Electrical** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Electrical Acceleration Codes** in the DNA Template, the **Electrical Kathara Centers 2-5-8-11** of the Kathara Grid **Central Pillar**, the **Electrical aspect** of **Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar' in Kathara diagram), **Electrical Chakras 2-5-8-11** and the Electrical aspect of **Electro-magnetic Chakras 1-3-6-9-12**.

- **Solar Salutations** (CW spin Top Electrical Merkaba Field Activation) **raise** the body's **Oscillation** (energy transmission/expansion), **lower** the body's **Vibration** (energy holding/contraction), making the body **Higher Frequency** and **More Electrical** (transmits more energy than it is drawing in).

- A **Higher Frequency Electrical Body** has:
  - **Lower Vibration**, Higher Oscillation/Frequency, **Less Matter Density**
  - More activated DNA Strands, more chromosomes, embodiment of more levels of consciousness.
  - **Slower** heart, breathing and metabolic rhythms (energy expansion and contraction rates),thus requires less food (bums fuel slower).
  - Greater **longevity** and **less sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for longer periods without taxing.)
  - Greater **Silica quantity** in **Silica-to-Carbon Ratio** of elemental composition and **larger size** (more space between cells; more expanded matter).
  - Perception of **expanded Space** and **slower Time** movement.
  - Greater **heat release**, thus **cooler** internal temperature. Natural attribute of **transmitting** greater amounts of energy thrust into the Planetary Shields than it is drawing in/receiving from them. **Energy "giving"**.

The **Solar Salutations** "charge" the **Top Electrical CW Merkaba Spiral** to maintain its natural cycle of **33(1/3) rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Electrical** systems of the body are naturally maintained.

The Lunar Salutation
Magnetic Merkaba Activation

- **Lunar Salutations** accelerate the spin of the **Magnetic Harmonic Merkaba Spiral** (Bottom, CCW spin), drawing increased amounts of **Magnetic Particle** frequency from the **Lunar Magnetic Merkaba Spiral** reflected light spectrum and Earth's Planetary Shields into the **Magnetic Base Codes** in the **DNA Template** to "**charge**" **the body** with **Magnetic Particle frequency**.

- Accelerated **Magnetic Merkaba Spiral Spin** of **Lunar Salutations** increases the amount of **Particle Base-Magnetic** frequency **brought into** the body's **DNA Template** and **Kathara Grid** from the **Earth's Planetary Shields** and increases the amount of **Particle** frequency **sent out** from the body into Dimensional Unified Fields.

- **Particle Base-magnetic** energy enters the body via the "**Bottom**" **Magnetic** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Magnetic Base Codes** in the DNA Template, the **Magnetic Kathara Centers 4-7-10** of the Kathara Grid on the **Left Side** of the body ("Right Side Pillar" on Kathara Diagram), the **Magnetic aspect of Electro-magnetic Kathara Centers 1-3-6-9-12** on the **Right Side** of body ("Left Side Pillar" in Kathara diagram), **Magnetic Chakras 4-7-10** and the **Magnetic aspect** of **Electromagnetic Chakras 1-3-6-9-12**.

- **Lunar Salutations** (CCW spin Bottom Magnetic Merkaba Field Activation) **lower** the body's Oscillation (energy transmission/expansion), **raise** the body's **Vibration** (energy holding/contraction), making the body **Lower Frequency** and **More Magnetic** (draws in more energy than it is transmitting out).

- A **Lower Frequency Magnetic Body** has:
  - **Higher Vibration**, Lower Oscillation/Frequency, Greater **Matter Density.**
  - **Fewer activated** DNA Strands, fewer chromosomes, embodiment of fewer levels of consciousness.
  - **Faster** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires **more food** (burns fuel **faster**).
  - Lesser **longevity** and needs more **sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for **shorter periods**; taxes more easily)
  - Greater **Carbon quantity** in **Silica-to-Carbon Ratio** of elemental composition and **smaller size** (less space between cells; more contracted matter).
  - Perception of **contracted or more confined Space** and **faster Time** movement.
  - Less **heat release**, thus **warmer** internal temperature.
  - Natural characteristic of **drawing** greater amounts of energy thrust from the Planetary Shields than it is transmitting into them. **Energy "taking".**

The **Lunar Salutations** "charge" the **Bottom Magnetic CCW Merkaba Spiral** to maintain its natural cycle of **11 2/3 rotations per 1 "trillionth" of a nano-second"**, through which the **Base-Magnetic** systems of the body are naturally maintained.

The **natural ratio** between the **Top-CW-Electrical"Male" Harmonic Merkaba Field** and the **Bottom-CCW-Magnetic-"Female" Harmonic Merkaba Field** is **Electrical-Top 33-CW** rotations per 1 "trillionth" of a nano-second and **Magnetic-Bottom 11-CCW** rotations per 1 "trillionth" of a nano-second.

The Atlantian Conspiracy and Roundtables

Long Term Problems and Immediate Solutions

Rainbow Roundtables

- The **Sacred Science Mechanics** by which the Planetary Christos Realignment can be fulfilled have long been hidden within the **Legends of King Arthur** and the "**Knights of the Roundtable**".

- The "**Roundtable**" of Arthurian Legend referred to **Signet Councils**. The word "Signet" refers to "**Star Gates**". In the ancient knowledge of the Palaidia Urtite Cloister races, the Signet Councils were the **specific groups of Angelic Humans** that assembled to **run the corrected Fire Letter Sequences into Earth's Planetary Shields** during **SACs**, to **prevent pole shift** and **progressively restore** Earth's D-12 Christos Divine Blueprint (the Shield of Aramatena).

- The "Roundtable" of Arthurian Legend referred to the "**Rainbow Roundtable**". The Rainbow Roundtables are groups of Angelic Humans assembled in the **4 Evolutionary Rounds** who are commissioned to **run the "Rainbow Ray" or "Khundaray" Primal Sound Current** from beyond the 15-DimensionalTime Matrix, into Earth's Planetary Shields during SACs. Running of the Rainbow Ray **during SACs** enables the planet to retain its natural electromagnetic balances to avert pole shift and restores the organic **D-12 Planetary Christos Alignment**.

- Since the **9558BC Atlantian Flood**, knowledge of the Rainbow Roundtables (**RRTs**) has been **intentionally hidden** from the Angelic Human races of contemporary Earth, by **Human Illuminati** and **Fallen Angelic** races that **desire to create pole shift** during the **long-anticipated 2000-2017 SAC**. They hope to use the 2000-2017 SAC to finally fulfill their plan of "**clearing Earth's real estate**" of Angelic Human races to later resettle their hybrid races on Earth, "after the dust settles", under a **"One World Order" Anti-Christiac Agenda** of **totalitarian exploitation and dominion**.

The Atlantian Conspiracy

- The Fallen Angelic/ Illuminati Human Anti-Christiac Agenda gained a stronghold on Earth in **25,500BC** when **Nibiruian Marduke-Anunnaki** (Anunnaki+Omicron Drakonian) seized control of **Nibiru** and **Earth's D-4 Universal Solar Star Gate-4**, in an event known as the "**Lucifer Rebellion**".

- The **name "Lucifer"** comes from a **hybrid Pleiadian-Nibiruian Anunnaki Race** that emerged through combining the Density-2 Nibiruian **Lulitan** family of the Thoth-Enki-Zephelium (Zeta) Anunnaki lineage with the **Satain** family of the Marduke-Anunnaki line and the D-11 **Necromiton** ("Beetle-reptile") Fallen Seraphim race of Andromeda (most contemporary **"Andromi" channels are these**). From this hybridization the **Pleiadian Samjase-Luciferian Anunnaki** and **Marduke-Necromiton-Luciferian Anunnaki** Races of **Sirius B, Nibiru** and **Alpha and Omega Centauri** emerged. This collective of Anunnaki Races promoting an Anti-Christiac dominion agenda became known historically as the "**Luciferians**", and were occasionally joined by other

Anunnaki and Illuminati Human race lines in their "**Quest for the Holy Grail**".

- The "**Holy Grail**" is a term used in reference to the **12 Universal Signet Star Gates** of the **Universal Templar Complex**, of which the **Angelic Human Race** holds the Sacred Commission of "**Guardian**". The "Grail Quest" began long before Angelic Humans were seeded on Earth and it has been THE **primary theme of motivation** behind all of the Forbidden and recorded-distorted human history.

- The Grail Quest for Earth's Planetary Templar Star Gates continued into Angelic Human 12-Tribes **Seeding-3**, following destruction of Seedings-1 and 2 via **Grail Quest Wars** with **Anunnaki** and **Drakonian** Fallen Angelic Legions. During the **25,500BC Lucifer Rebellion**, Anunnaki Luciferians gained **partial control** over Earth's Templar through a device called the **Nibiruian Diodic Crystal Grid**, which is **still in operation today** and serves a **key role** in the potential outcome of the **2000-2017SAC**.

- In **22,326BC** the Luciferian Anunnaki races decimated guardian races attempting to intervene in an event known as the **Eieyani Massacre**, which took place on the remnants of the **Lemurian Continent** now know as **Kauai, Hawaii**. In **21,900BC** they collapsed the **Firmament Hydro-suspension Fields of Lohas**, **northeast Atlantis** in the **Lohas-Celtec-Drueidec Freeze Out**, in an attempt to destroy the Maji Angelic Human Grail Kings in exile there; this event gave us our last **major glacial period** of **21,900BC-14,000BC**. In **20,000BC** they staged the **Vicherus-Sacheon Invasion of Russia**. In **10,500BC** the next phase of the Luciferian dominion plan unfolded in an event called the **Luciferian Conquest**, at which time the Atlantian Islands of **Nohasa** and **Bruah** fell to **Annu-Melchizedek** Anunnaki-Human hybrid and Fallen Jehovian and Luciferian Anunnaki control.

- The Anti-Christiac Agenda of the Luciferian Anunnaki Races (not ALL Anunnaki are in the "Luciferian" category; some run competing dominion agendas) was **formerly mandated** in **Bruah Atlantis** in **9560BC** under an Agreement called the **Luciferian Covenant**. The Luciferian Covenant is part of **3 competing One World Order dominion agendas** collectively referred to as the **Atlantian Conspiracy**. The Anunnaki Races of the Luciferian Covenant **orchestrated the "Atlantian Flood"** in **9558BC** and the **intentional "re-writing" of human history** since this time. Forbidden History reveals a **long-term plot** within which the Anti-Christiac Agendas of the **Atlantian Conspiracy** emerged **after the flood** into the **present day**.

- The Luciferian Covenant continued after the 9558BC flood in the **8,900BC "Larsa King" Sumerian Invasion**, the **8,400BC "Scarab King" Egyptian invasion**, and the **7,500BC Knights Templar Invasion**. The infiltration continued to the **5,900BC Centaurian War**, when the **Sirius B Maharaji** (Blue Human Guardians) intervened directly with **air raids** to prevent Drakonian and Luciferian Forces from claiming world dominion. This event is **partially documented** in the ancient Hindu text of the **Mahabharata**.

- In **3,650BC** the Nibiruian Luciferians orchestrated the **Mayan Raids**, and in **3470BC** the **"Babble-On" Massacre** was waged, in which **Pleiadian-Nibiruian** legions, Galactic Federation and the Annu-Melchizedek Human Illuminati gained **temporary control** over the Maji Grail Kings' "**Arc of the Covenant GOLD BOX**", which contain the "**Rod and the Staff**" star gate tools. In conjunction with the Nibiruian-Diodic-Crystal-Grid at **Stonehenge, England**, the Arc Tools were used in **Babylon** to cause **temporary collapse of Earth's magnetic grids** and to set portions of the **Fire Letter Sequences** in Earth's **Planetary Shields** into **reverse sequence**.

- Planetary Shield distortions of the 3470BC **"Babble-On" Massacre** caused **mutation in the human DNA Template** that shortened human **life span**, blocked **Higher Sensory Perception**, caused loss of **Race Memory** and **"scrambling" of our original language patterns**, which are built upon **DNA Template Fire Letter Sequencing**. Our race has been **amnesiac, dying young** and **"babbling on"** in rhetorical conflict ever since.

This historical event was **recorded** as the Biblical "**Tower of Babel**" story.

- Following the Babble-On Massacre of 3470BC, Fallen Angelics selected "**Chosen Ones**", Annu-Melchizedek hybrid descendents, for **minimal DNA Template repair** and **implantation**, through which the Luciferians and competing Jehovian-Anunnaki and Drakonian legions could begin their **progressive infiltration** of human **spiritual and political systems**. Through the technology of **remote "channeling"** conducted through **unnatural DNA Template implantation**, the "Chosen Ones" have been progressively **fed Anunnaki History and distorted patriarchal "War God" spiritual teachings**, in a strategic and intentional replacement of the Angelic Human heritage. They are once again **"channeling" to us and visiting today** as the **dominant force** in the **New Age** and **UFO Movements**.

- **"D-12 Maharic Sealed Channels"** can create **protection** from interdimensional manipulation of their natural bio-neurological communication lines.

- Following their **2668BC Djoser Invasion** of Egypt, **Galactic Federation** continued their previous alliance with the Anunnaki of the Luciferian Covenant, temporarily stealing the Arc of the Covenant Gold Box and Tools in **2024BC**. At this time they launched an attempted **world dominion assault** called the **Dead Sea Conquest**, beginning with **Babylonia** and **Sumerian Cities** in the areas of the **Dead Sea**; the Biblical stories of the destruction of **"Sodom and Gomorrah"** referred to this event. **"God"** did NOT destroy these ancient cities any more than "God" orchestrated the scrambling of the languages in the 3470BC Babble-On Massacre; God is NOT a **Fallen Angelic-ET**. If Maji Grail King Angelic Human Races had not retrieved the Arc of the Covenant Gold Box and Tools in 2024BC, the **Jehovian** and **Luciferian Anunnaki Races** of the **Galactic Federation** would dominate the world by now.

- Since the time of the staged **9558BC** Atlantian flood, human history has been a **progressive advancement** of the **Atlantian Conspiracy** and **Luciferian Covenant** Anti-Christos Agendas. The stories of **Noah, Abraham, Moses**, the Hyksos Kings and the **"3 Christs"** are key pieces to the Atlantian Conspiracy drama. At the center of this drama are the **Arc of the Covenant Gold Box**, its **star gate tools** and the **CORE OBJECTIVE** of the ancient Fallen Angelic/ Illuminati Human **Grail Quest**.

- Competing **Jehovian-Anunnaki, Luciferian Anunnaki and Omicron, Odedicron** and **Zephelium** (Zeta) **Drakonian/Reptilian** Fallen Angelics and their Annu-Melchizedek Illuminati Human hybrid race descendants (known as the **Leviathan Anti-Christiac King** lines) share **one objective- dominion of Earth** in order to claim **Earth's Halls of Amenti Star Gates**.

- If the Fallen Angelic races can gain dominion of Earth's Halls of Amenti Star Gates, they intend to use the Amenti Star Gates to **destroy Universal Star Gate-12** in **Density-4**. Destruction of Universal Star Gate-12 would effectively **seal off from Density-5 Founders Race protection, 11-dimensions** of our 15Dimensional Time Matrix. The manifest life field would become "imprisoned in time" for Fallen Angelic exploitation and dominion, unable to fulfill the natural evolutionary process of ascension. THIS is the core motivation behind the Fallen Angelics' continuing **Grail Quest**. **Prevention** of this **Anti-Christos Agenda** is the purpose for which the **Angelic Human Race** was created 560 million years ago.

- To accomplish their objective of claiming Earth and the Amenti Star Gates, Fallen Angelics need to **possess the Arc of the Covenant Gold Box** and **star gate tools**, and to achieve **critical mass population** of their **hybrid-human** races, whose **DNA Templates** carry **reverse sequenced Fire Letters**. During a **Stellar Activations Cycle**, the Arc Tools, the still-functioning **Nibiruian-DiodicCrystal-Grid** (from 25,500BC), Nibiruian controlled **Solar Star Gate-4** and the false-planet **Battle-Star Nibiru** can be used to create **intentional pole shift** on Earth

to "clear the real estate".

- If they can successfully exterminate Angelic Human Races from Earth, the Luciferian and Jehovian Anunnaki Races intend to return their "Chosen Ones" Annu-Melchizedek descendant humans to Earth during the SAC. The "**Chosen Ones**" will be **used** to run **critical mass reversed Fire Letter Sequences** into Earth's **Planetary Shields** and the **Amenti Star Gates** in fulfillment of the Anunnaki Anti-Christos Grail Quest Agenda. This plan was **formalized in the 9560BC Luciferian Covenant** and has been **progressively unfolding**. Since 9560BC the **anticipated date** for the **Final Conflict** and intended, **orchestrated pole shift** has been the **2000-2017AD SAC**. NOW.

- Many times throughout the advancement of the Atlantian Conspiracy, Guardian Races of the Emerald Covenant have repeatedly intervened. Guardians races have kept the **Angelic Human** and **Maji Grail Line** DNA Templates alive within the **human gene pool**, so Angelic Humans could **rise together** during the **2000-2017BC Final Conflict drama**, to **fulfill the Christos Realignment Mission** and prevent further advancement of the Atlantian Conspiracy.

- During the **Christ Drama** of **12BC-27AD** the Founders' Emerald Covenant **CDT-Plate teachings** were translated by the 3 Maji Grail Line ***Speakers***, **Jesheua Melchizedek** (AKA Jesus Christ), **John the Baptist** and **Miriam**, to **prepare humanity** for the **2000-2017 Final Conflict**.

- The heart of the **12BC-27AD** Christ Drama was not only CDT-Plate teachings; Jesheua, John, Miriam and a group of Maji Grail Line Angelic Humans were on an **Emerald Covenant Grail Quest Mission** to **secure Earth's Star Gate-11** from Anunnaki and Drakonian Race infiltration. Both Luciferian and Jehovian Anunnaki Races, and their Annu-Melchizedek Illuminati descendants seek to claim the Arc of the Covenant Gold Box and star gate tools to **take control of Earth's Star Gate-11**, for use in **imploding Universal Star Gate-12** during the **2000-2017BC Stellar Activations Cycle**. This plan was known since the success of the 25,500BC Lucifer Rebellion.

- Jesheua and his Universal Templar Security Team intended to use the **Arc of the Covenant Gold Box star gate tools** ("Rod and Staff") to release Anunnaki **Nibiruian Diodic Crystal Grid Crystal** control over Earth's Templar and Solar Star Gate-4. The mission of Jesheua, John, Miriam and the Maji was intended to prepare the Angelic Humans of Earth to **fulfill the Christos Realignment Mission** during the anticipated **2000-2017SAC**. In **23 AD** Jesheua and his Maji were attacked by the Annu-Melchizedek **Hyksos and Hassa Leviathan King** races, in an event called the **Essene Divide**, which rendered them **unable to fully complete** their intended journey to the lands previously known as **northern Lohas Atlantis**, the location of **Earth's Star Gate-11**.

- To protect the Arc of the Covenant Gold Box and star gate tools, **John and Miriam** completed **part of the journey** to Lohas, burying the Arc of the Covenant Gold Box and tools in the area now known as the **Vale of Pewsey, England**. Jesheua and his group of Maji served as a **Signet Council**, a group of Angelic Human Maji commissioned to "**Run the Rainbow Roundtables**", preparing Earth's Planetary Shields for the 2000-2017AD SAC.

- The **CDT-Plate teachings** of these 3 Essene Emerald Covenant Speakers contained the **Planetary Templar Mechanics** by which the Planetary Christos Realignment could be achieved in the 2000-2017AD SAC. These teachings were later stolen, edited and falsified into a **Religious Control Dogma** in **325AD**, by the **Council of Nicaea** and the Drakonian Infiltrated **Church of Rome**; the **falsified** CDT-Plate teachings of Jesheua, John and Miriam were interwoven with **Annu-Melchizedek Leviathan King Anunnaki history** to create the **Canonized**

Bible.

- The Mission of Jesheua, John and Miriam later resumed between **559AD-608AD**, when the "**Quest for the Holy Grail**", the **Atlantian Conspiracy** and the hunt for the **Arc of the Covenant Gold Box** and star gate tools continued in the drama of **King Arthur and the Knights of the Roundtable**.

King Arthur and the Knights of the Roundtable

- **King Arthurus** or "Arthus" was born from a **Drueidec Maji Grail King lineage** originally from Nohasa and later exiled to **Lohas Atlantis**. Arthur and his selected **Signet Council "Knights"** were commissioned to fulfill the 10AD-27AD Emerald Covenant Mission that Jesheua, John the Baptist, Miriam and the Essene Maji were unable to complete due to the Hyksos-Hassa King raids in the 23BC Essene Divide. Arthur's legendary **sword "Excalibur"** was a battle sword fashioned to hold the **Staff star gate tool** from the **Arc of the Covenant Gold Box**, which **Arthur and Victorous** (son of Meridan) retrieved from the **Vale of Pewsey** in England, where John and Miriam had buried it in 23AD.

- **Victorous**, son of **Meridan** came to be known as "**Merlin**", Arthur's Vizier and court mystic in the Arthur Legends. Victorous' father **Meridan** was a **Knights Templar Annu-Melchizedek** Black Arts Occultist; his mother was of a **Celtec Maji Grail King** line originally from Lohas Atlantis. Victorous' life and service to King Arthur were overshadowed by the struggle of "good vs. evil" that existed within his genetic programming.

- Arthur's wife **Guinevere** was of a **Celtec Maji Grail King** line originally from Lohas Atlantis. Guinevere's sister **Saleane**, not Guinevere, was the lover of Arthur's imposter Knight "**Sir Lancelot**", a Luciferian Knights Templar sent in to sabotage the Emerald Covenant Mission. Knights Templar Annu-Melchizedek races **intentionally distorted** true Arthurian period history. Teachings of the **Rainbow Roundtables** and **Star Gate Signet Councils** were hidden in occult secret societies of the Knights Templar. The **historical realities** of the **Maji Grail King lineage** and **Arthur's Emerald Covenant Mission** were intentionally "**re-written Nibiruian Anunnaki style**", romanticizing Victorous ("Merlin") and other characters that assisted the Knights Templar in **undermining** Arthur's Emerald Covenant Mission.

- Throughout the Arthurian drama (559AD-608AD) the **Luciferian Knights Templar Annu-Melchizedek Illuminati Human** races, under the direction of the **Galactic Federation** and the **Pleiadian-Nibiruian Anunnaki** races, quested to **steal the Arc of the Covenant Gold Box** and "**Excalibur Sword**" ***Staff*** star gate tool from Arthur's guardianship. Arthur and the Signet Council Knights quested to retrieve the **Rod star gate tool** and the **Star Gate-11 control device** called "**Signet Shield-11**", which had been stolen from the Essenes by the Hyksos Kings and Knights Templar in the 23AD Essene Divide. The ancient "**Quest for the Holy Grail**", or quest for control over the Star Gates of Earth's Planetary Templar, and the Atlantian Conspiracy agendas continued on.

- Despite Victorous' ("Merlin") frequent betrayals of his Emerald Covenant agreements, **Arthur, Guinevere** and the **Knights of the "Rainbow Roundtable"** completed **one phase** of their Emerald Covenant Mission. They were **successful** in **retrieving the Rod** star gate tool and **Signet Shield-11** from the Luciferian Knights Templar Annu-Melchizedek Illuminati Human. Arthur **relocated the Arc of the Covenant Gold Box** with **Rod, Staff** and **Signet Shield-11** to their intended destination at the **control center for Star Gate-11**, in the lands once called **Lohas Atlantis**. The **authentic** Arc of the Covenant Gold Box with its star gate tool contents, still remains, under Maji Grail King protection, where Arthur buried it in **608AD**.

- Arthur and his Knights were **unable** to fulfill the entire Emerald Covenant Mission of **disengaging** the 25,500BC **Nibiruian Diodic Crystal Grid network** at **Stonehenge, England**, to free **Solar Star Gate-4** from remote Nibiruian Anunnaki control, in **preparation for** the anticipated **2000-2017AD SAC** and intended **fulfillment** of the **Planetary Christos Realignment Mission**.

- Since King Arthur buried the Arc of the Covenant Gold Box in 608AD, the Luciferian Knights Templar, Jehovian and Drakonian Annu-Melchizedek Illuminati Human lines have **quested** to claim the Arc of the Covenant Gold Box from its resting-place in **Lohas Atlantis**. To conceal knowledge of the unidentified Lohas- Atlantis location of the Arc Box until it could be located and confiscated, the **Luciferian Knights Templar**, under direction of **Galactic Federation**, began a **crusade** to **destroy or distort** any remaining **records of Atlantis**. Further **distortion of historical records** and **intentional "planting" of falsified Atlantian Maps** were tactics used to **deter competing Illuminati Human forces** from retrieving the Arc Box, and thus control of Earth's Templar, before the Luciferian Knights Templar could stake their wrongful claim.

- After the 608AD Arthurian Grail Quest, competing Illuminati Human Annu-Melchizedeks races progressively rose to **positions of political power** within the global arena, launching continuing campaigns of **dis-information, historical distortion, Genocide Crusades** against **each other** and against **Angelic Human** and **Maji Grail King 12-Tribes** races. In **1244AD** the **Cathars Maji Grail King** families of southern France were destroyed by the Omicron-Drakonian held Church of Rome in the **Albigensian Crusade**. Many murderous crusades followed, including the decimation of the **Bruah-Atlantis** and **Mu'a-Lemuria Maji Grail King Amerind** lines of **North America**, in the European quest for the "**New World**".

- It was long known among the competing **Knights Templar**, **Jehovian** and **Nephedem** (Omicron-Drakonian) Annu-Melchizedek Illuminati Human **inner circles** that the "New World" of **America** was the **Old World** of which **Bruah-Atlantis**, the location of the **central control site "Gru-AL Point"** for Earth's Planetary Shields, was once part. The competing quests for control of Lohas-Atlantis-**Star Gate-11**, the Bruah-Atlantis **Gru-AL Point** and the other **Star Gate locations** in Earth's Templar Complex have been at the heart of the continual conflict and race hatred and dominion campaigns throughout our recorded human history.

- The 3 competing factions of Annu-Melchizedek races, representing the **Luciferian, Jehovian** and **Drakonian Dominion Agendas**, emerged from our **ancient pre-Atlantian past**, through Lemuria, Atlantis and our early recorded history into the **powerful global infrastructure** of the contemporary Interior World Government Illuminati One World Order Agenda. As part of the planned, pre-meditated Atlantian Conspiracy strategy, in **1750AD** the **Galactic Federation** and **Pleiadian-Nibiruian Luciferian Anunnaki** races began making **remote contact** with "Chosen Ones" descendants of their respective Annu-Melchizedeks Illuminati races, who carried the **DNA Template implantation** allowing for telepathic rapport from their genetic ancestral line. After rising to covert power in Europe and various other regions, Galactic Federation and the Pleiadian-Nibiruians motivated the **American Revolution** and the **founding** of the **United States of America** via **Secret Society Occult School** "inspiration" of their **Luciferian Knights Templar Annu-Melchizedek Illuminati races**. This contact progressed from infiltration of ancient **traditional religious control dogmas** with their "Inner Circle Elite" Occultists, into what has become the "**New Age Channeling Movement**". The New Age Movement is primarily dominated by **Jehovian**-*Sirius A*, **Luciferian**-*Pleiadian-Nibiruian*, **Marduke-Necromiton-Luciferian**-*Alpha Centauri and Sirius B*, **Luciferian Centaur**-*Omega Centauri* and some **Necromiton**-"*Andromi*" channel contacts.

- Following **covert surveillance** that began in **1916**, the **Zeta** ("Little Grey") races began physical interaction with Earth on behalf of the **Zephelium** (reptile-insect) **Drakonian Agenda** races of Orion. In the **1930s & 1940s** Illuminati Human Annu-Melchizedek descendants of the Zephelium-Zeta, Omicron-Drakonian ("Dragon-moths")

and Odedicron (Reptile-Avian) Drakonian Agenda races of Orion entered **One World Order Dominion Treaties** with the **Orion Zeta Rigelian** races. The **Zeta Treaties** initiated the formation of "**Majestic-12**", which began the "**contact phenomena**" of what has become the contemporary "**UFO Movement**". In **1983** the Orion **Omicron** and **Odedicron** Drakonian Agenda Legions assumed the leadership role in the Zeta Treaty agreements.

- In the **1930s** the **Necromiton** (Beetle-reptile-insect-hominid) races of **Andromeda** became involved with certain factions of the Drakonian Illuminati Human Interior Government, initiating the "**Men in Black**" phenomenon, some assisting the Luciferian Pleiadian-Nibiruian races of the **Luciferian Covenant**, others supporting the Drakonian Agenda races.

- In **November 1992**, the Emerald Covenant **Maharaji Blue Human** and **Azurite** races of Sirius B, the **Serres-Pleiadian** (avian-hominid) races of Alcyone and the **Lyran-Sirian Anuhazi** (feline-hominid) Founders races negotiated the **Pleiadian-Sirian Agreements**. In these agreements the **Luciferian Pleiadian-Nibiruian Anunnaki** races, **Galactic Federation** and a few **Jehovian-Anunnaki** races **agreed to enter the Emerald Covenant** peace treaty for co-evolution with the Angelic Humans of Earth in a **united stand** against the Drakonian Legions' Anti-Christiac Dominion Agenda. The **Anunnaki races** vowed to **assist in the 2000-2017 SAC** Emerald Covenant **Planetary Christos Realignment Mission**. They promised to **disengage Nibiruian Diodic Crystal Grid** control of Earth's Templar and to return **Solar Star Gate-4** control over to the Founders' Emerald Covenant races by 2000, to prevent the scheduled pole shift that Galactic Federation had intended to orchestrate as per the Atlantian Conspiracy Luciferian Covenant.

- In **January 2000**, when the SAC commenced, most of the Anunnaki Legions **defected** from the 1992 Pleiadian-Sirian agreements, reverting to their Luciferian Covenant Dominion Agenda. On **July 5th, 2000** further negotiations with the Anunnaki legions culminated in their return to the Emerald Covenant via an agreement called the **Treaty of Altair**; they were required to release the Nibiruian Diodic Crystal Grid and-Solar Star Gate-4 by **August 2000**.

- On **September 12th, 2000** the **Necromiton Andromi** "**Men in Black**" offered co-conspiratorial deals to Luciferian and Jehovian Anunnaki and Drakonian races. **Galactic Federation** and most members of the **Anunnaki legions defected from the Treaty of Altair** to join the **United Resistance** (resistance to Emerald Covenant and Planetary Christos Realignment Mission). The United Resistance is a **co-conspiratorial plot** through which Resistance Legions intended to **covertly evacuate small numbers** of their respective "Chosen Ones" and "clear Earth's real estate" via pole shift between **2003-2008**, to achieve **fulfillment** of the **Luciferian Covenant** Atlantian Conspiracy Agenda between **2008-2012**.

- On **September 12th, 2000** the **United Resistance Legions** issued an **edict of war** against Emerald Covenant Guardian races if they did not **withdraw support** for the **Angelic Human 12-Tribes** of Earth. Guardian Nations **refused to abandon humans** and Earth to Fallen Angelic dominion and exploitation. We are **NOW** facing the **Final Conflict drama** of the **ancient Atlantian Conspiracy**.

- As the Atlantian Conspiracy advanced from the **9558BC Atlantian Flood**, **Emerald Covenant races** knew that the **2000-2017AD Stellar Activations Cycle** would be the time for **fulfillment** of the **Planetary Christos Realignment**, and that if negotiations with Fallen Angelic legions were not successful the **Final Conflict drama** would ensue. In preparation for these **anticipated events**, the Maji Grail King lineage **Indigo Children Types-1 and 2** have been incarnating on Earth for the past 100 years. The Maji races are here to assist the **Angelic Human 12-Tribes** of **contemporary Earth** in completing the **Emerald Covenant Mission** that **King Arthur**, and **Essene Jesheua** before him, were unable to fully complete.

- To **prevent pole shift** in the **2003-2008 period**, the **Nibiruian Diodic Crystal Grid** of Stonehenge, England and Earth's **Star Gate-11** must be **re-calibrated** using **early activation** of **D-6 Sirius B Star Gate-6** to override the D-4 Nibiruian Alignment before **2003**. This will release the **D-4 Solar Spiral** from Nibiruian control, preventing the **massive** pole shift the United Resistance intends. This is the **Sacred Mission** that **Essene Jesheua** (Jesus Christ), **King Arthur** and many Maji Grail Kings before them were attempting to accomplish.

- Once the Nibiruian hold on Earth is released, the **Planetary Christos Realignment Mission** can be completed **IF the Angelic Human 12-Tribes of Earth** can successfully "**Run the Rainbow Roundtable**". Running Earth's Rainbow Roundtable can be done **only** by the **Angelic Human and Maji Grail Line 12-Tribes of Earth**, whose **DNA Templates** carry the **DNA Signet Codes** that correspond to the **correct Fire Letter Sequences** in Earth's **Planetary Shields**. Through completing the Christos Realignment Mission by "Running the Rainbow Roundtable" Star Gate Signet Councils today, the ancient Anti-Christiac **Atlantian Conspiracy** One World Order Dominion Agenda of the contemporary **United Resistance** can be **overcome** in our **present time** period.

The Atlantian Conspiracy

- **50,000BC- Lemurian Holocaust**: **Jehovian Anunnaki** and their **Annu-Melchizedeks Urantia** Illuminati Humans infiltrate Lemurian Muarivhi, allow **Dracos** (Omicron-Drakonian+Human) infiltration. Culminates in destruction of Muarivhi Pacific Continent.

- **28,000BC- Atlantian Holocaust**: Sirius A **Jehovian** and Pleiadian-Nibiruian **Luciferian Anunnaki** and their Annu-Melchizedek Illuminati Humans attempt to seize Inner Earth and Atlantis, culminating in cataclysm that reduces Atlantic Continent to **3 Island Nations: Bruah, Nohasa** and **Lohas**.

- **25,500BC-Lucifer Rebellion**: Nibiruian **Marduke-Anunnaki** (Anunnaki+Omicron Drakonian) race line seize control of **Nibiru** and **D-4 Solar Star Gate-4**, begin Anunnaki Race Unity dominion campaign and plant **Nibiruian Diodic Crystal Grid Planetary Templar Control Network** in at **Stonehenge, England** (before "Standing Stones"). - **21,900BC-Lohas-Celtec-Drueidec Freeze Out**: Pleiadian-Nibiruian Luciferian Anunnaki and Galactic Federation intentionally collapse Firmament Hydrosuspension Field over Lohas, Atlantis to force Maji Grail King Lines away from Lohas StarGate-11; culminates in 21,900BC-14,000BC Glacial Period.

- **20,000BC-Vicherus-Sacheon Invasion**: Alpha-Centauri **Marduke-Necromiton-Anunnaki** and their **Vicherus Annu-Melchizedek** race and Pleiadian-Nibiruian **Samjase-Luciferian-Anunnaki** and their **Sacheon Annu-Melchizedek** race invade Angelic Human **Tribe-6** and exiled **Celtec**-Lohas and **Drueidec**-Nohasa **Atlantian Maji Grail King lines** in **Caucasus Mountains, Russia**, in attempt to **destroy Grail Lines**. Begin **intentional concealment** of **Celtec** and **Drueidec Atlantian Maji Grail King** and **Angelic Human Tribe-6** racial identity. The Vicherus races became known as the "**Vikings**", the **Sacheons** as the "**Saxons**", both groups often "**painting themselves blue**" in honor of the Luciferian Alpha-Omega Centauri **Centaur race**. order to hide knowledge of the Atlantian Maji King Grail Lines, the "blue raiders" were later falsely identified in historical record as the "**Celtics**" of Ireland, the Drueidecs as the "**Druids**".

- **10,500BC Luciferian Conquest**: Atlantian Islands of **Bruah and Nohasa** fall to Pleiadian-Nibiruian Luciferian and Sirius A Jehovian Anunnaki and Annu-Melchizedek control; the **Atlantian Conspiracy** develops **high level organization**.

- **9,560BC Luciferian Covenant**: Pleiadian-Nibiruian **Samjase-Luciferian-Anunnaki** ("Blonds"), Sirius B **Marduke-Anunnaki** (Anunnaki+Omicron "Dragon-Moth"), **Enlil-Odedicron** (Anunnaki+Reptile-Avian), **Thoth-Enki-Zephelium** (Anunnaki+Zeta) and **Marduke-Necromiton-Luciferian** (Anunnaki+Alpha-Omega Centauri Blue Centaurs), **Galactic Federation** and Nohasa Atlantis **Jehovian-Urantia** and their respective Annu - Melchizedek races **enter full alliance** under the **One World Order Anti-Christos Agenda** formally mandated through the **Luciferian Covenant**. Omicron-Drakonian and Odedicron-Reptilian races of Orion form second competing **Orion-Drakonian One World Order Agenda**. Main Sirius A Jehovian-Anunnaki ("Bipedal Dolphin People") race form third competing **Jehovian One World Order Agenda**.

- **9558BC Atlantian Flood**: **Luciferian-Anunnaki** and portions of **Galactic Federation** orchestrate Atlantian Flood in an attempt to take over **Giza, Egypt** Great Pyramid Teleport Station and its true Arc of the Covenant Andromeda Portal Passage. **Thoth-Enki** Annu-Melchizedek Illuminati Humans that took over **Bruah Atlantis** follow initiatives of the Samjase-Luciferian-Anunnaki "**Larsa Kings**" that took over **Lohas Atlantis**, sending EM Pulse from Bruah Generator Crystals to Giza, causing major flooding via final collapse of Firmament Hydro-suspension Field over Nohasa and Bruah Atlantis. Only portions of the Atlantian Islands sink; major parts of **Bruah, Nohasa and Lohas** Atlantis still remain above water. In **9540BC** the Sirius B Maharaji Blue Human Emerald Covenant Races give **Rod and Staff** Star Gate Tools in "**Arc of the Covenant Gold Box**" to Maji Grail King Lines of Earth to keep open contact with Inner Earth races via Earth's portal system. Luciferian, Jehovian and Drakonian **quest for possession of the Arc Tools** begins, as does **intentional falsification and eradication** of Angelic Human **historical record** to conceal the knowledge and location of **Lohas Star Gate-11**, the lands of which survived the Atlantian Flood.

- **8,900BC Sumerian Invasion**: **Luciferian** and **Jehovian Anunnaki** and **Drakonian** Races and their Annu-Melchizedek legions all **raid Angelic Human Tribe-10 resettlements** of **Sumerian UR** and surrounding territories (Iraq-Iran) in quest for **Star Gate-10** control and **Arc of the Covenant Gold Box Tools**. Samjase-Luciferian-Anunnaki lines as "Sumerian **Larsa Kings**". Jehovian Anunnaki lines as "**Hassa Kings** and **Midianite-Hyksos Kings**", Marduke-Anunnaki and Drakonians as **Babylonian** and **Akkadian Dragon Kings**, Thoth Enki-Anunnaki as "**Snake Brotherhood Kings**". Evidence found in Sumerian "Larsa Kings List" tablets.

- **8,400BC Egyptian Invasion**: Thoth-Enki-Zephelium-Anunnaki and their **Bruah-Atlantis** Annu-Melchizedeks **raid Egypt from Sumeria**, overthrowing **Serres-Egyptian Predynastic Grail King Lines** as the **Osiris King** line. **Enlil-Odedicron-Anunnaki** combine, creating the **Osiris-Isis-Horus King** Line, **Samjase-Luciferian-Anunnaki** Sumerian **Larsa Kings** combine creating the Egyptian "**Scarab King**" line that dominated Dynastic Egyptian History in competition with the **Marduke-Anunnaki** Drakonian Agenda "**Set Kings**" line. With **Galactic Federation** assistance, Jehovian-Anunnaki Annu-Melchizedek **Midianite-Hyksos King** lines later invade in **1670BC**, leading to the "**Exodus**" in **1476BC** under **Tuthmosis III**.

- **7,500BC Knights Templar Invasion**: **Luciferian Covenant Anunnaki** races **raid Celtec and Drueidec Maji Grail King Races** that returned to **Lohas Atlantis territories** in **13,000BC** from Caucasus Mountains, Russia exile. **Force interbreeding** between Nibiruian **Thoth-Enki**, Pleiadian-Nibiruian **Samjase-Luciferian** and Alpha-Omega Centauri **Marduke-Necromiton-Luciferian** Anunnaki **Annu-Melchizedek Illuminati Human**

Create temporary **planetary magnetic grid collapse**; use Arc tools at **Babylon** and Nibiruian-Diodic-Crystal-Grid at **Stonehenge, England** to create **reverse-Fire-Letter-Sequence distortions in Earth's Planetary Shields**, which cause **major mutations** in the function of the **Angelic Human DNA Template. Erases Race Memory**, blocks natural Kundalini flow in body causing **Pineal, Thalamus, Hypothalamus** and **Thyroid Gland malfunctions** that **shorten human life span** and **block interdimensional perception** in all but **implanted** Annu-Melchizedek "**Chosen Ones**" and **scrambles natural language patterns**. Recorded as "**Tower of Babel**" story in Bible. Grail King Races retrieve Arc of the Covenant Box and Tools, preventing advancement of world dominion through intended pole shift.

- **2668BC Djoser Invasion**: Galactic Federation, Luciferian and Jehovian Anunnaki infiltrate **Sakkara, Egypt** with **Pharaoh Djoser** and their **Luciferian Knights Templar "Super-race"** and **Midianite** races of Israel and Sumeria. Depose Serres-Egyptian-Lohas Atlantian **Grail King Pharaoh Imhotep** in **peaceful surrender**. Imhotep remains with Djoser regime as "lesser of the apparent evils" compared to the **Marduke-Anunnaki Drakonian Agenda** invasions progressively advancing from **Babylonia**.

- **2024BC Dead Sea Conquest**: **Galactic Federation** and **Luciferian Anunnaki** races steal Arc of Covenant Box and Tools again, launch world dominion campaign again in **Babylonia**, extending into **Dead Sea** area between Israel and Jordan. Destroy Sumerian cities once located in Dead Sea region. Recorded as "**Destruction of Sodom and Gomorrah**" in the Bible. Maji Grail King Races retrieve Arc of the Covenant Gold Box and tools, preventing spread of Anunnaki world dominion.

- **1670-1550 Hyksos Invasion**: **Medianite-Hyksos King** Jehovian Annu-Melchizedeks cross with **Luciferian Knights Templar** Anu-Melchizedeks from Sakkara, Egypt **Djoser** lineage. Infiltrate Egypt from 2668BC and finally take over Egyptian Dynasty as **Hyksos Kings** in **1670BC.1550BC** Drakonian Agenda **Pharaoh Ahmose** deposes last Hyksos King Pharaoh Kamose, leading to **1476BC Hyksos Exodus** under Drakonian Agenda **Pharaoh Tuthmosis III**. Under Galactic Federation direction, Hyksos intend to invade and destroy Angelic Human Hebrew Tribe-2 in Israel.

- **1459BC Israel Crusade**: **Hyksos** from Exodus instructed by **Galactic Federation** and **Luciferian Anunnaki** to use stolen Arc of the Covenant Gold Box Star Gate "**Rod and Staff" tools** to destroy **Hebrew Angelic Human Tribe-2**. dominion pole shift Luciferian Covenant agenda. **Serres-Egyptian Maji Grail Kings** exiled in desert **retrieve Arc of the Covenant Gold Box and tools** preventing the Hyksos' destruction of Hebrew Tribe-2. Hyksos do not get their "Promised Land"; the story of the Hyksos Exodus intentionally integrated into Hebrew and Christian historical teachings to **conceal Hyksos -Annu-Melchizedek presence**.

- **1458BC Hatshepsut Invasion**: Serres-Egyptian Maji Grail King **Pharaoh Queen Hatshepsut** of Egypt receives **Arc of the Covenant Gold Box** and tools from desert Maji Grail Kings after they stop Hyksos Israel Invasion. Her part-Drakonian half-brother **Tuthmosis III** invades Hatshepsut's Temple and steals Arc Box.

- **1353BC Fall of Akhenaton**: Attempt to enter **Hyksos-Egyptian King line** into **Serres-Egyptian Maji Grail King** line for **Galactic Federation-Hyksos Emerald Covenant** entry and Hyksos genetic Bio-Regenesis Program. **Pharaoh Akhenaton** fails in his intended Emerald Covenant Mission in favor of Anunnaki **Luciferian Agenda** and is killed by competing Drakonian Agenda Uncle. **Galactic Federation** defects from Emerald Covenant.

- **906BC Fall of Solomon's Temple**: **King Solomon**, (Hyksos Annu-Melchizedek+Serres-Egyptian Maji Grail Line), son of **Hyksos King David**, is guided by **Galactic Federation** to use **stolen Arc of Covenant Gold Box tools** to destroy Hebrew Angelic Human Tribe-2 races of Israel to claim "Promised Land" and advance global dominion. **Pleiadian-Serres Emerald Covenant race** of **Alcyone** intervenes directly with **beam ship**, intending to **teleport Arc Box and tools** out of **Solomon's Temple** and return it to Maji Grail King protection, preventing Solomon's assault on Hebrews and advancement of the pole shift agenda. **Galactic Federation** attempts to teleport Arc Box to their Pleiadian Ship but **miscalculate**, destroying **Solomon's Temple** completely with a **Photo-Radionic Wave beam**. Pleiadian-Serres retrieve Arc Box and prevent pole shift agenda.

- **26BC Roman Invasion**: **Omicron-Drakonian** legions of **Orion** move their **Nephedem Annu-Melchizedek Illuminati** races into political power within the **Ionian Empire** of Italy, deposing **Angelic Human Tribe-5** of Italy and **Ionian exiled Celtec, Drueidec and Seminol** Atlantian Maji Grail Kings to create stronghold of **Roman Empire** dominion. Progressively infiltrate and **transpose their race identity** over the Angelic Human **Tribe-5** and Maji Grail Line **Ionians of Italy** and begin corruption of **Ionian Grail Kings' Sacred CDT-Plate Spiritual Teachings** to create the foundations for the "**Church of Rome**" Catholic Religious Control Dogma **political machine**.

- **23AD Essene Divide**: **Galactic Federation** unites groups of **Luciferian Hyksos King and Jehovian Hassa King Annu-Melchizedeks** to **raid** Emerald Covenant Mission of **Maji Grail King Essenes, Jesheua** (Jesus Christ), **John the Baptist and Miriam** in **Tel el Amarna Egypt**. Due to Essene Divide raids Jesheua's Grail King Essenes are unable to fulfill **intended mission** of **disengaging** the **Nibiruian Diodic Crystal Grid** to free **Solar Star Gate-4** and Earth's **Star Gate-11** to prepare for the 2000-2017AD SAC and scheduled Planetary Christos Realignment Mission. The Maji Essenes had fulfilled part of the mission by **reclaiming** the **Rod** Star Gate tool and its **Arc of the Covenant Gold Box** from **Galactic Federation's Noah-Abraham-Moses Hyksos Annu-Melchizedek** Illuminati line, but could not recover the **Staff** tool. Following failure of the intended Planetary Security Mission, Jesheua, John, Miriam and several Maji Grail King Essenes hid the **Arc of the Covenant Gold Box** and its **Rod** tool in **Vale of Pewsey, England** via Tel el Amarna **Inner Earth portal** passage.

- **325AD Council of Nicaea**: Omicron-Drakonian legions motivated their Nephedem Annu-Melchizedek Illuminati races governing the **Roman Empire** to temporarily **join forces** with **Galactic Federation** and the **Pleiadian-Nibiruian Anunnaki**. In this **unholy alliance**, the Nephedem, Luciferian Knights Templar, Hyksos King and Jehovian Anunnaki Hassa King Annu-Melchizedeks assembled to "**come up with a cover story**" to

hide from public record the realities of **Jesheua's Emerald Covenant Mission**. Groups of **Hassa King Rabbis, Hyksos Kings** and **Knights Templar Priests**, and Roman Nephedem **Knights of Malta** launched a **Crusade** to **confiscate all records** of the Emerald Covenant Essene CDT-Plate translations. They combined various elements of true history and spiritual teachings with **numerous falsifications** and massive omissions of Templar and Ascension teachings, to create the **patriarchal, false-God control dogma creed** that became the "**Canonized Bible**". Their intentions were to forcefully **hide all knowledge** of the Emerald Covenant Christos Realignment Mission while they searched for the **Arc of the Covenant** Gold Box. They intended to claim the Arc Box and prevent the "common people" having the Maji Grail King knowledge of the **Roundtables**, to insure victory of their **Anti-Christiac One World Order** dominion agenda during the **2000-2017AD SAC**.

- **608AD Arthurian Grail Quest**: Maji Grail **King Arthur** (born 559AD) and the "**Knights of the Round Table**" were the Maji Grail King **Melchizedek Cloister Regents** who protected the "**Holy Grail**" Knowledge of Earth's Planetary Templar Complex. Arthur, Guinevere and the Roundtable Knights held the Planetary Security Commission of reclaiming the Staff tool from the Hyksos Illuminati and were intended to run the "**Rainbow Roundtables**" to disengage the **Nibiruian Diodic Crystal Grid**, in fulfillment of the Jesheua-John-Miriam Emerald Covenant Mission. Though **Merlin** assisted in the return of the **Staff** Star Gate tool (the "**Sword Excalibur**") to Maji Arthur's protection, "Merlin" (Victorous") later betrayed the Emerald Covenant Mission in favor of the Hyksos-Knights Templar **Galactic Federation** World Dominion agenda. Arthur successfully returned the Staff tool to the Arc of the Covenant Gold Box and **relocated the Arc Box** containing the Rod and Staff from the Vale of Pewsey, England to where it **remains hidden today**. Arthur and his Knights were unsuccessful in disengaging the Nibiruian Diodic Crystal Grid. But at least they managed to **hide the Arc of the Covenant Gold Box** and **Rod and Staff** tools from **Galactic Federation**, their **Hyksos-Knights Templar** and the eventually competing Nephedem-Drakonian Knights Malta, preventing them from fulfilling their **planetary genocide** and **takeover agenda**. The "**Quest for the Holy Grail**" and "**Search for Arc of the Covenant Gold Box**" has continued ever since.

- **1244AD Albigensian Crusade**: Church of Rome **Nephedem Annu-Melchizedek** Illuminati, on behalf of the Omicron-Drakonian OWO (One World Order) agenda, launch a **genocide campaign** against the Maji Grail Line **Catheri**, the **Tribe-12** Star Gate-12 Guardians in Southern France. The campaign was initiated to stop the Catheri from using their **Roundtable knowledge** to disengage the Nibiruian Diodic Crystal Grid, knowledge gained from **CDT-Plate-12**, which was in possession of the Catheri at this time. The Catheris' "last stand" was at Monsegur, Southern France, an event historically recorded as the "Albigensian Crusade", in which the Catheri were cornered and **burned alive** at the order of the **Church of Rome** and accomplices in the government of France. A small group of Catheri **escaped** with **CDT-Plate 12**, and **numerous volumes** of pure **Jesheua-Essene records**, which were **hidden in France** and remain to this day to eventually provide **witness** to the realities of the Atlantian Conspiracy.

- **1500AD Ameka Crusade**: The quest for the "**Holy Grail**" continued as **Hyksos-Knights Templar** Annu-Melchizedek Illuminati races and Omicron-Drakonian **Nephedem Annu-Melchizedek** Illuminati races advanced their OWO agenda in pursuit of the "**Holy GRU-AL**".....**The GRU-AL POINT is** the **central control point for Earth's Templar** and both competing groups intended to **hold dominion** over the lands of the Gru-AL Point when the **2000-2017AD SAC** arrived. The "**Protestant & Catholic Invasion**" of "**Native American**" **Tribes** began. The **name "America"** came from the name of one of the Emerald Covenant **Maji Grail lines** known as the **Ameka**, who were **protectors of the Gru-AL Point**. The Gru-AL Point was known to exist in the lands of the **North American continent**, a territory **once held by Atlantis**. Guided through "**Mystical Secrets Societies**" set up by their respective Fallen Angelic kin, competing groups of Annu-Melchizedek Illuminati races launched a progressive infiltration and take over of the North American continent. Each **intended to destroy** the exiled Lemurian and native Seminol and Ameka "**Native American**" Maji Grail Line Tribes who had knowledge of

Running the Roundtables, in a systematic take-over of the North American Templar. "**America**" was founded by the **Luciferian Hyksos-Knights Templar Annu-Melchizedek Illuminati**, who now go by the name of "**Free Masons**", on behalf of **Galactic Federation** and the **Pleiadian-Nibiruian Anunnaki** races of the **9560BC Luciferian Covenant**. Competing Illuminati groups and their Stellar co-conspirators intended to use the North American **Gru-AL Point**, and their holdings of **Star Gate11 Europe, Star Gate-4 Egypt** and **Star Gate-10 Middle East**, to gain full control of Earth's Templar on behalf of their Stellar contacts during the **2000-2017AD SAC**. It was anticipated by all that the "**Final Conflict Drama**" and the "**Battle of Armageddon**" would take place as the competing **Drakonian and Anunnaki descendant** Annu-Melchizedek Human Illuminati legions "battled it out" for control of Earth's Templar during the long-awaited 2000-2017AD SAC. Neither side anticipated that there would be enough surviving Angelic Human 12-Tribes and Maji races left with knowledge to run the Roundtables to prevent the Illuminati, known as the "**Leviathan Force**", from succeeding in their OWO agenda. Included in this OWO agenda was the **re-initiation of CONTACT** with the **Fallen Angelic/ET Legions** as the SAC drew closer. The Fallen Angelics intended to slowly make their presence known, then come in to "**stake their claim**" as the 2000-2017AD SAC approached **2012AD**. The **Drakonian-Reptilian-Centaurian** descent Annu-Melchizedek Illuminati races attempted, but failed, to claim world dominion over their Anunnaki adversaries via their representative **Hitler** in **WW2**. Both Illuminati forces have been **competing** for **political world dominion**. They have been the predominant, **hidden source of war, race hatreds and territorial, financial and religious competition** behind and within world governments, until the **September 12th, 2000 United Resistance Alliance**. On September 12, 2000, most competing Illuminati races, and their respective Fallen Angelic "ring leaders" agreed to take a **united stand** against **Emerald Covenant races** to ensure success of the OWO dominion agenda and destruction of the Angelic Human races during the 2000-2017AD SAC.

- **1750AD Nibiruian Re-acquaintance: Pleiadian-Nibiruian Anunnaki** races and **Galactic Federation** began initiating remote "**Channel Contact**" with their "**Chosen Ones**", providing **contrived spiritual teachings** intended to develop into the later "**New Age Movement**", through which direct Fallen Angelic/ET contact could be made with **little human resistance**.

- **1916 Zeta Surveillance**: Zeta races begin participating in the Earth drama on behalf of the Zephelium-Zeta Rigelian and Odedicron-Reptilian (Orion) agenda. The Zeta negotiate **covert treaties** with Nephedem Annu-Melchizedek Illuminati human governments in the **1930s-1940s**, through which "**Majestic-12**" and the contemporary "**UFO Movement**" emerged on behalf of the Drakonian **OWO agenda**, which initiated as a result of the pending Anunnaki takeover agenda. Anunnaki Fallen Angelics advance their remote "Channel" contact with selected humans.

- **1983 Orion Intrusion**: Omicron-Drakonian races of Orion get directly involved in the drama, forming alliances with the Odedicron-Reptilian and Dracos races; Zetas lose footing in Illuminati affairs as Drakonians take over Zeta Treaties, some Zetas leave, Rigelian Zetas join to strengthen Drakonian forces in Earth affairs.

- **1992 Pleiadian-Sirian Agreements**: **Pleiadian-Nibiruian Anunnaki** and **Galactic Federation** races enter **Emerald Covenant** peace treaty when they realize that they may succumb to Drakonian Force in the anticipated 2000-2017 Final Conflict Drama. Agree to turn **Solar Star Gate-4** control back over to Emerald Covenant races, to **end the Atlantian Luciferian Covenant** for co-evolution programs, to assist Emerald Covenant and Human races in running proper **Roundtables** to block further Drakonian infiltration and promise to **disengage** Nibiruian Diodic Crystal Grid by **January 1, 2000**. The "New Age Movement" takes a turn toward the Light.

- **1999 Centaurian-Necromiton Intrusion**: Drakonian agenda Necromiton-Andromi and Alpha-Omega Centauri races get involved to reinforce the Drakonian agenda in reaction to Anunnaki joining the Emerald Covenant.

- **January 2000 SAC Rebellion**: When Stellar Activations Cycle commenced on January 1, 2000, Galactic Federation and Pleiadian-Nibiruian Anunnaki groups **defect from Emerald Covenant** once Stellar Activations Cycle was confirmed, as Fallen Angelic Annu-Elohim offer full support to the Anunnaki OWO agenda.

- **July 5, 2000 Treaty of Altair**: Galactic Federation and most Anunnaki groups grudgingly accept re-entry into the Emerald Covenant to secure greater protection when **Annu-Elohim** of **Sirius A** and Arcturus suffer heavy losses to the Fallen Seraphim **Drakonian** force in Density-3 Orion.

- **September 12th, 2000**: **Necromiton-Andromi** and **Alpha-Omega-Centauri** races convince many Drakonian and Anunnaki legions to form a "**United Resistance Alliance**" against the Emerald Covenant to ensure fulfillment of their common interest in the OWO dominion agenda. **Galactic Federation, Ashtar Command** and most **Anunnaki** Legions **break the Treaty of Altair** to join the United Resistance. United Resistance adopted the **Anunnaki Luciferian Covenant agenda**, which includes "termination" of the Angelic Human races of Earth and **forced pole shift**, induced via **Battle Star Nibiru** ("Wormwood") and the Nibiruian Diodic Crystal Grid. September 12, 2000 United Resistance offered Emerald Covenant races an **ultimatum**. United Resistance would allow the Lyran-Sirian Guardian races to evacuate out **50,000** of their "**Indigo Children Maji Grail Lines**" then the rest of Earth's populations would fall to fulfillment of the Luciferian Covenant agenda. Emerald Covenant Races refused on behalf of all Angelic Human and Hybrid populations of Earth that desire to live in freedom and to prevent Earth's Halls of Amenti star gates from falling under United Resistance dominion. United Resistance issued a formal **Edict of War** on September 12, 2000, against Emerald Covenant races and the Angelic Humans of Earth. **Galactic Federation** and **Ashtar Command** are beginning to mobilize their "**Human Ground Crews**", teaching their followers to expect a "**landing**" in which "complete human compliance" is promoted. The political arena is now being set for the United Resistance's intended 2003 Mass Mind Control experiment and most humans are completely unaware of what is taking place. Emerald Covenant races are intending to awaken the Indigo Children as quickly as possible. The Indigo Children are being prepared NOW to run **Roundtables** in order to disengage the **Nibiruian Diodic Crystal Grid** through which pole shift can be forced and to seal Earth's portal system from planned Fallen Angelic **2003-2004** invasion. By **2002 end** Emerald Covenant races will know if the **Roundtables** are successful and if fulfillment of the Atlantian Conspiracy can be prevented. If not, preparations are already underway to assist Humans in DNA Template Activation so some may become biologically capable of portal evacuation.

Our Nibiruian Legacy-Planetary Merkaba Reversal

The *33-CW/11-CCW VS 34-CCW/21-CW* Dilemma

- The **natural 33E-CW-11 M-CCW Ratio** of **Planetary** and **Biological** Harmonic Merkaba Field rotation maintains the organic **3-parts Base-Electrical Anti-particle to 1-Part Base-Magnetic Particle** relationship that is the organic D-12 Christos **Divine Blueprint** upon which the **Density-1 System** (dimensions 1-2-3) is structured.

- In **25,500BC**, the Earth's Planetary **Electrical** (Top) Harmonic Merkaba Field began functioning on a **reverse-rotation Top-34-CCW-Magnetic** pole reversal. **In 3470BC Earth's Magnetic** (Bottom) Planetary Harmonic Merkaba Field began functioning on a **reverse-rotation Bottom-21-CW-Electrical** pole reversal. Earth's 34-CCW/21-CW Merkaba Field pole reversal occurred as a result of **2 historical events** during which the **Anunnaki** Fallen Angelic races of **Nibiru** gained control of **D-4 Solar Star Gate-4**. Solar Star Gate-4 has been used since **3470BC** to **override** Earth's **natural 33-CW/11-CCW** Planetary Shields Harmonic Merkaba Field alignments, placing Earth and the Planetary Templar Complex under remote **Nibiruian** control.

- Since the 25,500BC "**Lucifer Rebellion**" and 3470BC "**Babble-On Massacre**" the unnatural Spin Ratios of Earth's Density-1 and part of Density-2 Harmonic Merkaba Fields has been following a mutated Top-34-CCW/Bottom-21-CW **Anti-Christos Reversed Rotation**, rather than the natural Top-33-CW/Bottom-11-CCW Spin Ratio of Earth's **organic D-12 Christos Divine Blueprint**.

- The unnatural 34-CCW/21-CW Planetary Merkaba Spin Ratio reversed the natural 33-CW/11-CCW Spin Ratio on dimensional sub-harmonics 1-2-3-4-7-10-11 of the Human Merkaba Fields. The unnatural polar-reversed 34-CCW/21-CW **Merkaba Mutation** caused the natural **Fire Letter Sequences** of the **Magnetic Base Codes** in **DNA Strand Templates 1-2-3-4-7-10-11** of the Angelic Human 12-Strand DNA Template to **run in reverse**. Reversal of **Base Code Fire Letter Sequences** in DNA Strand Templates **1-2-3-4-7-10-11** has prevented the natural Angelic Human evolutionary processes of **higher strand activation, strand braiding, embodying the Universal Life Force Currents** and higher-dimensional **Spiritual Identity Integration** since 3470BC.

The Anti-Christiac External Merkaba and Nibiru

- The **full** natural **Christos Merkaba Spin Ratio** of Density-1 is **33 1/3 -CW/ 11 2/3 CCW**. This natural Merkaba Spin Ratio creates an Electro-magnetic Anti-particle/Particle balance of **33 1/3 - Parts Base-Electrical Anti-particles** (expanding energy) to **11 2/3Parts Base-Magnetic Particles** (contracting energy), or **33 1/3 Electrical-Oscillations** to **11 2/3 Magnetic-Vibrations** per 1 Merkaba rotation, within the natural Density-1 Matter Base. **More Electrical Thrust** than Magnetic Draw; a **Higher Frequency, Less Dense, Self-perpetuating, Eternal, *Christos*** Matter-base that functions in perpetual motion upon a **natural structure** of **Internal Merkaba Fields** that perpetually circulate Universal Life Force Currents between the non-manifest consciousness of Source and the expressions of manifestation.

- The **unnatural** 34-CCW/21-CW **Anti-Christos Merkaba Spin Ratio** creates an Electro-magnetic Anti-particle/Particle balance of **34-Parts Base-Magnetic Particles** (contracting energy) to **21-Parts Base-Electrical Anti-particles** (expanding energy), or **34 Magnetic-Vibrations** to **21 Electrical-Oscillations** per 1 Merkaba rotation, within the Densiy-1 Matter-base of Earth and its inhabitants. **More Magnetic Draw** than Electrical Thrust; a **Lower Frequency, More Dense, Self-consuming, Finite, Anti-Christos** Matter-base that functions for a **limited time** upon **inorganic structures** of **Externalized Merkaba Fields** that "vampire" and **consume** Life Force Energy from other organic systems in order to self-sustain.

- The **planet Nibiru functions** on a 34-CCW/21-CW **reverse-orbit** and **reverse Merkaba Field** alignment. The **Nibiruian Anunnaki biology** also follows the 34-CCW/21-CW reverse Merkaba rotation; both the planet and its peoples are **finite** and unable to perpetuate life through **self-generated ascension** and embodiment of the Eternal Maharata, Kee-Ra-ShA and Khundaray **Universal Life Force Currents**. The Nibiruians keep their Planetary Templar and Star Gates functional by **draining energy** from other "**Living**" **planetary bodies** via unnatural "**External Merkaba Field**" linking (Merkaba structures that are "**external to**" or not naturally a part of the **intrinsic D-12 Christos Divine Blueprint** for our Time Matrix.)

The Nibiruian "8-Pointed Star"
The NDC-Grid Checkerboard Matrix Frequency Fence

The **Nibiruian Diodic Crystal Grid** (NDC-Grid) Photo-sonic-Standing-Wave Crystalline Technology was installed in Earth's Templar in **25,500BC Atlantis** by the Marduke-Necromiton **Anunnaki-Andromi Hybrid** race from **Sirius A & Alpha-Centauri** during an event called the **Lucifer Rebellion**, in which they seized control of planet Nibiru. Through the NDC-Grid, Earth was forced into pole shift and its **orbit artificially mis-aligned** with the reverse orbit of planet Nibiru via Nibiruian controlled **Solar SG-4**, causing **Reversal of Earth's Planetary Harmonic Merkaba Spiral**. The NDC-Grid program was amplified by **Galactic Federation and the Pleiadian-Nibiruian Council** in **3470BC** in an event known as "**Babble-On Massacre**" (Tower of Babel Bible story). The Nibiruians have been waiting for the next SAC to **complete their take over** of Earth by activating SG-11 on the Checkerboard reverse matrix. Emerald Covenant races have been awaiting the SAC so they could **restore Earth's natural alignment and Merkaba Spin** to its original **D-12 Christos Blueprint**, in order to release the Earth races from their **Nibiruian imposed imprisonment**. The NDC-Grid Photo-sonic program blocks and reversed the polarity in a number of Earth's Axiatonal Lines and Ley Line grids, creating a "Checkerboard" of some-frequencies- active some- dormant in Earth's Planetary Shields, thus the name of "**Checkerboard Matrix**". The NDC-Grid carries its frequency program via **24 Primary** and many secondary **Nibiruian Crystal Temple complexes** that exist beneath Earth's crust; the **24 Primary Illuminati Underground Control Bases** are located at these sites. The Checkerboard Matrix has blocked natural activation of the **Human DNA Template** (and that of all Earth species), creating a horrific genetic distortion called the **Checkerboard Mutation**.

The 8 Main Transmission Lines that keep the Nibiruian Checkerboard Matrix NDC-Grid program operational in Earth's Planetary Shields.

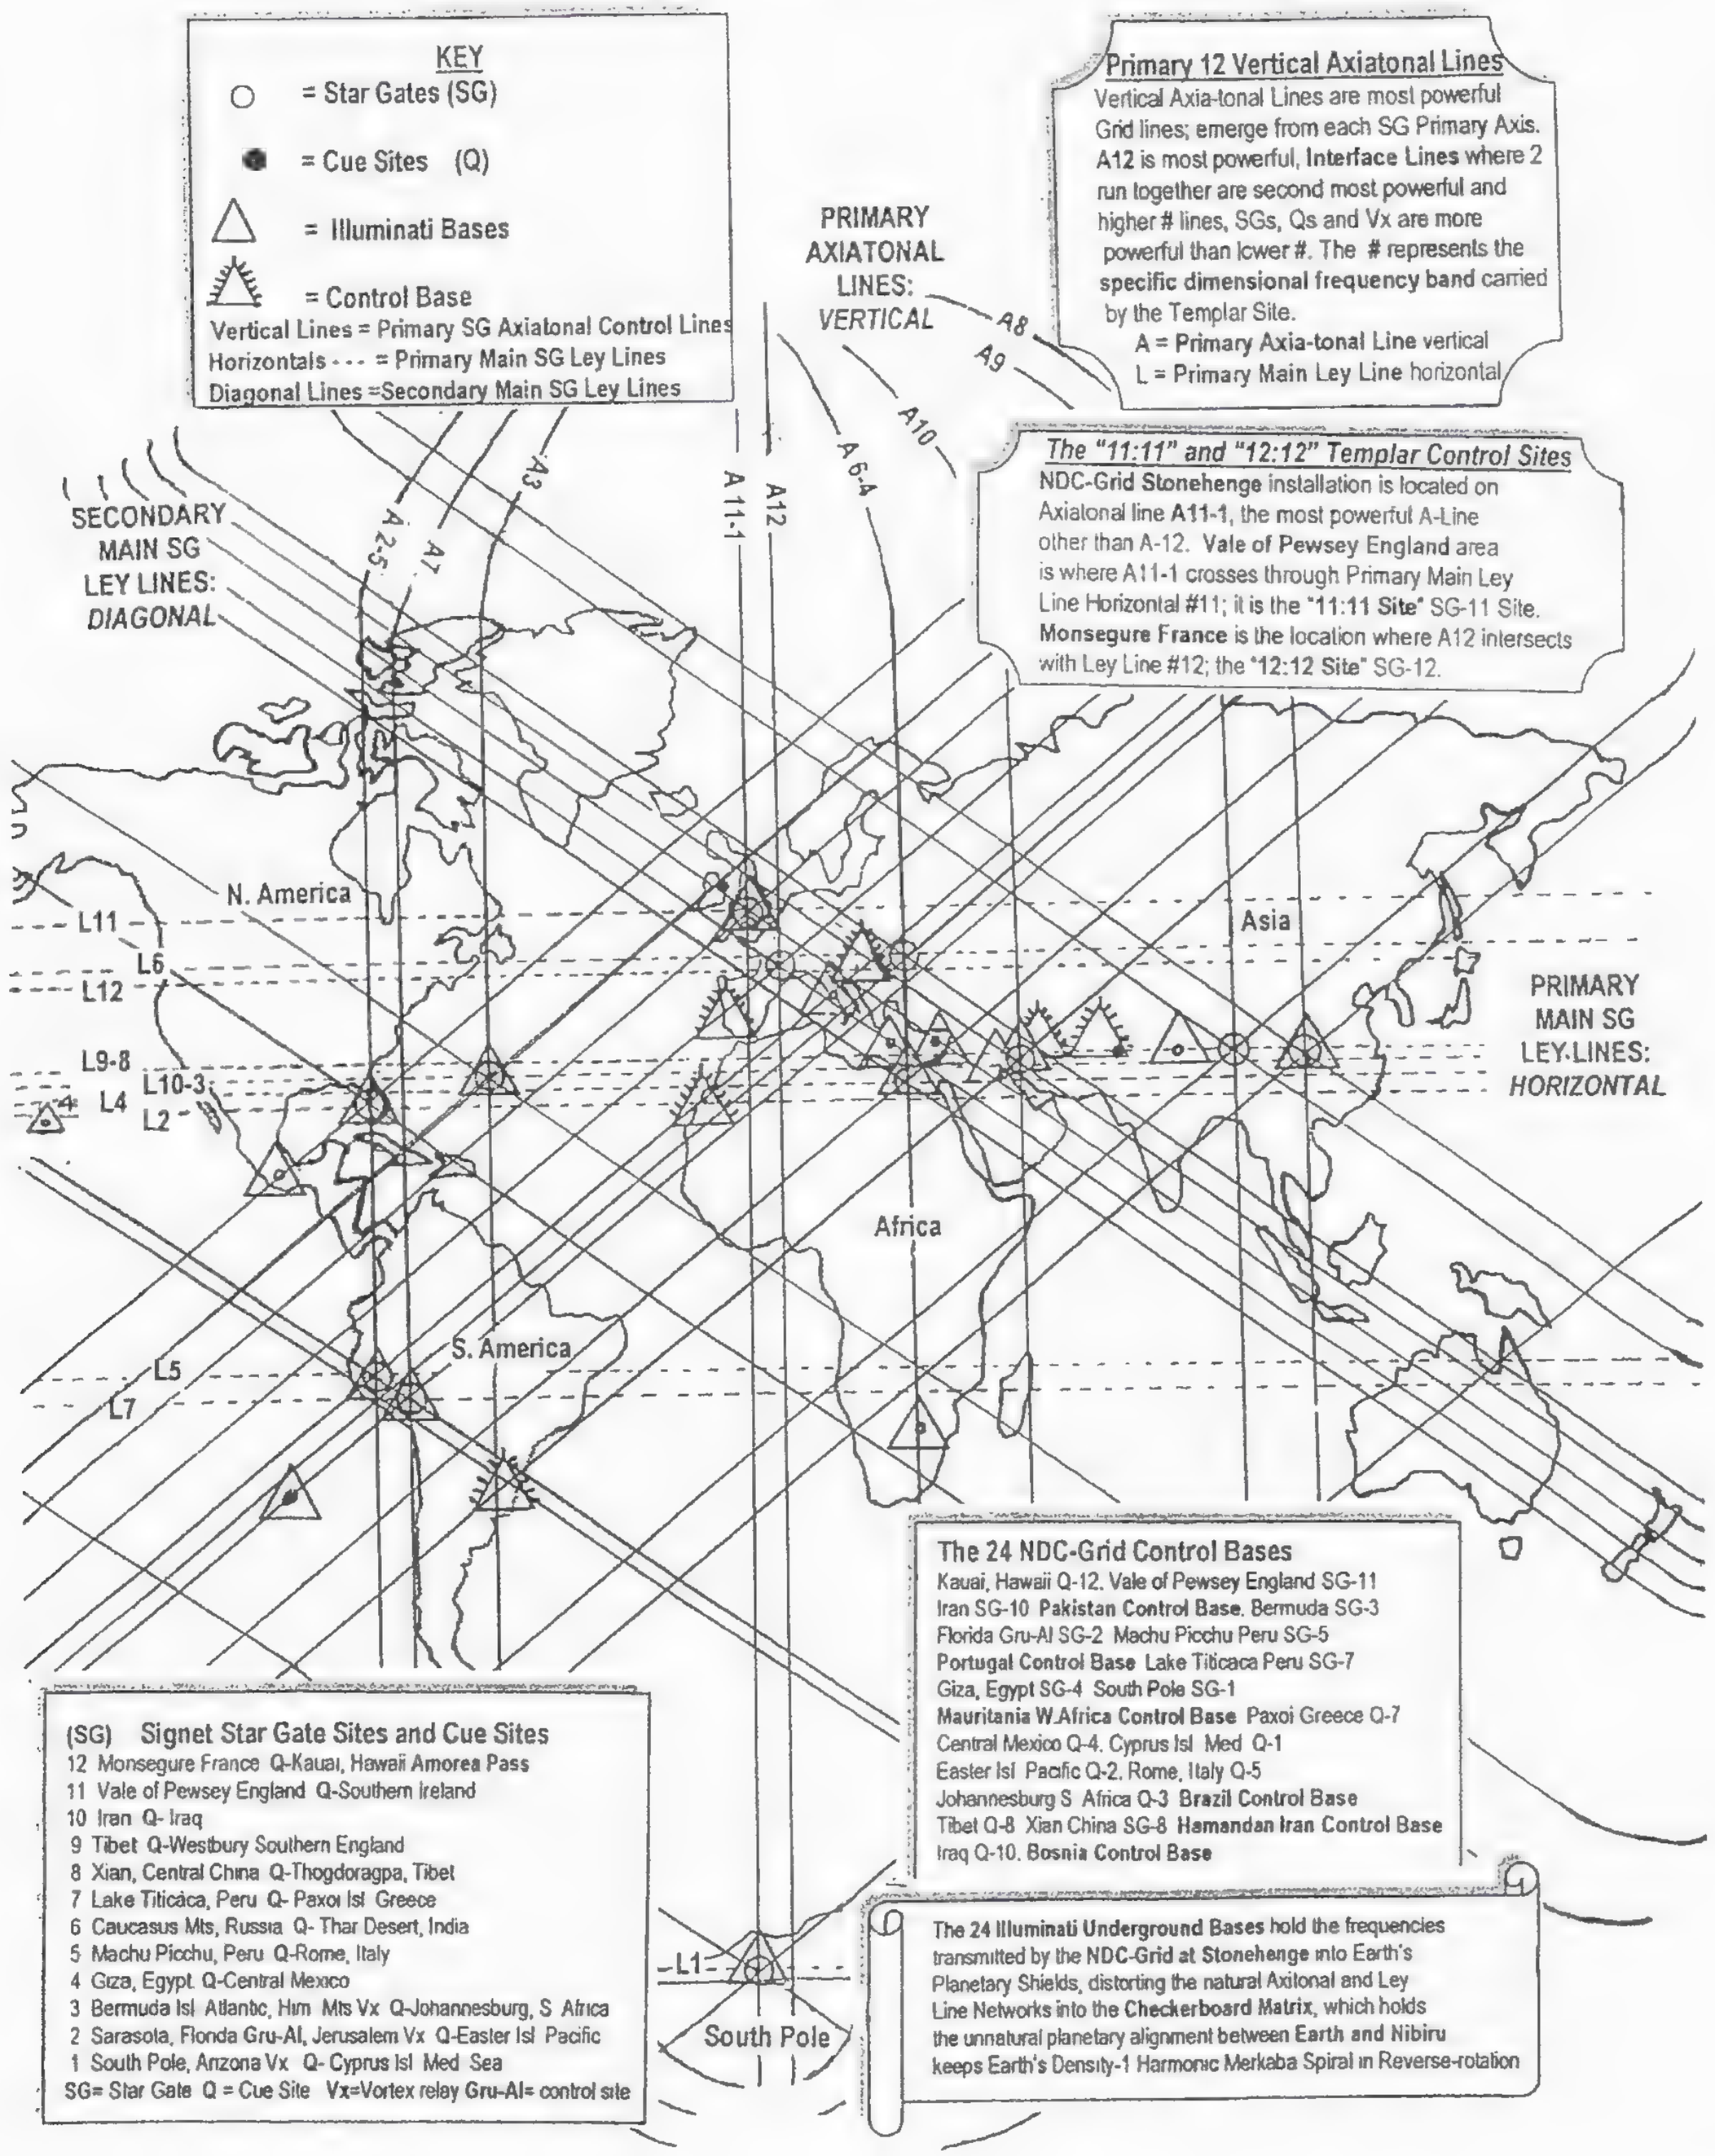
Earth's Grid Lines, Templar Site and Checkerboard Matrix Map



Primary 12 Vertical Axiatonal Lines

Vertical Axia-tonal Lines are most powerful Grid lines; emerge from each SG Primary Axis. **A12** is most powerful, **Interface Lines** where 2 run together are second most powerful and higher # lines, SGs, Qs and Vx are more powerful than lower #. The # represents the **specific dimensional frequency band** carried by the Templar Site.

Genetic Mutations and Kathara Grid Distortions

- Earth and **Human evolution** became trapped under remote, covert **Nibiruian control** and "energy vampiring" in 25,500BC, control which advanced in 3470BC. Earth humans have been **biologically and spiritually stunted** in their natural evolution, **genetically mutated** and trapped within repeated cycles of reincarnation in the Density-1 Earth system since Nibiru gained control of the Dimensions-1-2-3-4-7-10-11 levels of Earth's Magnetic Merkaba Field.

- The reversed dimensions-1-2-3-4-7-10-11 Base-Magnetic Fire Letter Sequences in the **Angelic Human Merkaba Field** created reciprocal **reversal distortions** in the Fire Letter Sequences of embodied **Kathara Centers 1-2-3-4-7-10-11**. The embodied **12 Kathara Centers** hold the electro-magnetic scalar-wave programs upon which the **12 DNA Strand Templates** are structured. Presently, embodied **Base-Magnetic** Kathara Centers **4-7-10** of the "**Left Body Pillar**" (Right in diagram) and the **Magnetic aspects** of **Electro-magnetic** Kathara Center **-1** and **Base-Electrical** Kathara Centers **2 and 11** on the "**Central Body Pillar**" are running **reversed** Fire Letter Sequences. Resultantly, the **Magnetic Base Codes** of Human DNA Strand **Templates 1-2-3-4-7-10-11** presently run in reverse, making **Strand-Braiding**, and thus Star Gate Passage via **Transmutative Dimensional Ascension** and **Eternal Life**, impossible.

- The event of the **2000-2017 Stellar Activations Cycle** (Star Gate Opening Cycle, discussed in Workshop-2) now permits **restoration** of the Angelic Human natural **33-CW/11-CCW Harmonic Merkaba Field Spin Ratio** through which **Bio-Regenesis** of the embodied Kathara Grid and natural 12-Strand DNA Template can be expedited. Regeneration of the 12-Strand DNA Template via the now-available **D-12 Maharata Current** will allow humanity to free itself from Nibiruian-imposed evolutionary captivity on Earth.

Chemical DNA, the Sub-Strand Template, Merkaba, and the Celestaline Wave

As previously mentioned, the Angelic Human **DNA Template**, the **Sub-Strand DNA Matrix**, contains the scalar-grid blueprints for **12 DOUBLE-HELIX DNA Strands** (**not *12 single strands*** as **Anunnaki teachings** will intentionally **mis-lead** us to believe. Anunnaki teachings, such as those of **Galactic Federation**, attempt to portray the "12-Strand DNA" as **6 sets of 2 strands**, which in truth is a **6-Strand DNA Matrix** configuration; **12 sets of 2 Strands** or **12-Double-Helix Strands** is a **genuine** 12-Strand DNA Matrix). Each Strand Template contains **12 Keylons/Fire Letters** that are intended to **chemically translate** into **12 LARGE Chromosomes per Strand Template**, for a total of **144 full Chromosomes** (12 Keylons = 12 Chromosomes per Strand x Strands). Each of the **12 natural Chromosomes** characteristic to **each Strand** of 12-Strand Angelic Human **chemical DNA** is built upon a "**genetic alphabet**" of **12**, not **4**, **Nucleotide Base chemicals**. Each of the **12 natural Chromosomes per Strand** is formed by **one** primary **DNA Template Keylon/Fire Letter**. The **chemical translation** of the **natural chromosome** is formed through the energetic interrelationships between the **one** magnetic particle **Base Code**, the **one** electrical antiparticle **Acceleration Code** and the **12 minute Vector Codes** that form the structure of **one Keylon/Fire Letter** in the DNA Template.

Each of the 12 DNA Strand Templates holds **a set of 12 Keylons/Fire Letters**, a set of **12 Base-Acceleration Code Pairs** (one pair per Keylon) and a set of **144 Vector Codes** (12 Vector Codes per Keylon). The **12 magnetic Base Codes** in each Strand emerge from the "**Mother-line**" (mother's genetic imprint) and the **12 electrical Acceleration Codes** per Strand emerge from the "**Father-line**" (father's genetic imprint). The **Base Code-Acceleration Code Pair** that forms **one Keylon** in the DNA Template, through which **one natural chemical chromosome** will emerge, forms the **2 Sugar (deoxyribose) Phosphate molecule groups** that translate into the **2 "handrails"** or **heli** of the chemical "DNA Ladder". In its **natural state**, **one heli** would carry the **Sugar-Phosphate blueprint** inherited from the **Mother-line** genetic code and the **other heli** would carry the **Sugar-Phosphate blueprint** inherited from the **Father-line** genetic code, creating literally a "**magnetic particle MOTHER-HELI**" and an "**electrical anti-article FATHER-HELI**", as the "**handrails**" of the chemical DNA "ladder". In the **present state of mutation**, many of the Base Codes and Acceleration Codes that form the Keylons have been **electromagnetically reversed**, which **scrambles the natural Mother-Father-line chemical interrelationships** within the Sugar-Phosphate "handrails". In the mutated Homo-Sapiens-2 chemical DNA, **gene sequences** inherited from **both mother and father** will appear in **both heli**, as a result of **reversed Base Codes** and **Acceleration Codes** within the **DNA Template**. This portion of the **Checkerboard Mutation** creates the **first viable difficulty** in the **natural function** of the Angelic Human 12-Strand DNA. Scrambling of the Base Code and Acceleration Code Pairs in select Keylons of the DNA Template **interrupts the natural function and intended electromagnetic interrelationships** between the Mother-Hell (magnetic-particle) Base Codes and the Father-Hell (electrical-anti-particle) Acceleration Codes, and their chemical Sugar-Phosphate chains, within **every gene and chromosome** in the DNA ladder.

When the Angelic Human 12-Strand DNA Template is functioning normally, each **Base Code-Acceleration Code Pair** forms a **minute set** of **counter-rotating electromagnetic energy spirals** known as a "**Merkaba Field**" (later discussed). The **electrical Acceleration Code** portion of one Keylon/Fire Letter/chromosome forms a minute **clock-wise rotating spiral** of **electrical anti-particle energy** and the **corresponding magnetic Base Code** forms a minute **counter-clock-wise rotating spiral** of magnetic **particle energy** within the DNA Template. The **Base Code** magnetic spirals normally carried in the Mother-line "Magnetic" Helix draw **particle scalar-frequency** from Earth's **Planetary Shields** into the **DNA Template**. The **Acceleration Code** electrical spirals normally carried in the Father-line "Electrical" Heli draw **anti-particle scalar-frequency** into the **DNA Template** from the corresponding DNA Template of the **body's Anti-particle Double** (in the Parallel Earth anti-particle universe). **Between the Base Code-Acceleration Code Pair** in each Keylon/Fire Letter of each Strand of the DNA Template, there is a set of **12 smaller Vector Codes**. The 12 Vector Codes between each Base Code-Acceleration Code Pair serve as the "**receivers, mixers and transmitters**" of the **particle and anti-particle scalar-frequency** that enters the Strand Template via the Base Code-Acceleration-Code Pair. When functioning properly, the Vector Codes hold, mix and "build up" or **accrete** the particle/anti-particle scalar-frequency, until a critical mass of scalar-frequency is reached. When critical mass of particle/anti-particle scalar-frequency is reached within the Vector Codes, the 12 Vector Codes translate the scalar-frequency blueprints of the Base

Code-Acceleration Code Pair into the "chemical clothing" of the Sugar-Phosphate molecules that form the "handrails" of the chemical DNA "ladder". At **Critical Mass Accretion**, each **Vector Code** blueprint translates into **one chemical** that becomes **one** chemical **Nucleotide Base** upon which the "**genetic alphabet**" is built.

Upon **Critical Mass Saturation** of scalar-frequency, the **Vector Code DNA Template blueprints chemically translate** into the **Nucleotide Bases** and **Nucleotide Base Pairs** that form the chemical DNA "**ladder rungs**" of which the **gene and chromosome sequences** of the Human genome are composed. If the 12-Strand DNA Template was **functioning properly**, the **repeating set** of **12 Vector Codes** inherent to **each Keylon/Fire Letter** in **each Strand Template** would create the **12 Nucleotide Base chemicals** of the **natural "Base-12"** Angelic Human **genetic alphabet**. When **operating properly**, the **12 Vector Codes** are **active**, "turned on" or "open", allowing the **full spectrum** of **12 sub-frequency bands** from **each dimensional band** to flow **between** the **Base Code** and **Acceleration Code** in each Keylon/Fire Letter. In **chemical terms**, when the DNA Template Vector Code "**doors are open**", there is a **natural conduit of electromagnetic dimensionalized scalar-frequency** running within the **properly sequenced chemical conduits** of the **Nucleotide Base Pairs** that make up the genes and chromosomes. Through this intended natural order, **one full, natural chromosome** would be composed of **12 Primary Gene/Exon Sequences** ("Coding DNA" sequences; chemical blueprints for protein/amino acid manufacture), each composed of **millions of Nucleotide Base Pairs**, and one **equal and corresponding set** of **12 Primary Intron Sequences** ("Non-Coding DNA"). **Between each Nucleotide Base Pair** that formed each "gene", in the region now identified as the "**Hydrogen Bond**" (hydrogen molecules that form a weak link between the Nucleotide Bases of each Heli, that join the 2 Heli together in the "ladder" configuration), there would be a **set of chemical Nucleotide Base Pairs** called "**Turn-Stile DNA Sequences**" (presently not active), that could be **"turned off and on"**.

Turn-Stile and Interface DNA Sequences and Celestaline

In the **DNA Template**, the **Turn-Stile DNA blueprint** is **dormant**, its **potential** held within the **Vector Code blueprints** until the DNA Template **encounters specific types of interdimensional frequency spectra**, such as that contained in **Star Gates. Interface** with **higher dimensional frequency** causes the electromagnetic **polarity** in certain **Vector Codes** to **naturally reverse**, causing the **Vector Code blueprints** to **merge**, at which time the **Turn-Stile DNA Sequence** is "**turned on**" in chemical validity. The "**Turn-Stile DNA Sequences**" in each Nucleotide Base Pair of each gene within every chromosome allows for the **particles and anti-particles** within the **12 Vector Codes** in each Keylon/Fire Letter to **fuse**. When the Turn-Stile DNA sequence "turns on" in one group of **12 corresponding Nucleotide Base Pairs** (12 "ladder rungs"), the **Base Code** and **Acceleration Code** within the corresponding Keylon/Fire Letter **merge** to form a **minute "Micro-Merkaba Field"**. As this "Micro-Merkaba Field" (set of interwoven, counter-rotating electromagnetic fields) activates in the DNA Template Keylon/Fire Letter, through activation of the Turn-Stile DNA Sequence, the Turn-Stile DNA Sequence **draws together** in **fusion** into the **Hydrogen Bonds** the **12 Nucleotide Base Pairs** to which it corresponds. Through the Hydrogen Bonds, the 12 Nucleotide Base Pairs **merge** to form a **new, transient, composite silica-based chemical-elemental compound**, known among Emerald Covenant races as the **bio-chemical CELESTALINE** (sel-est'-a-LEEn'). The transient, silica-based bio-chemical **Celestaline** forms first within the areas of the **Hydrogen Bonds** that link the Nucleotide Bases of each heli to form the Nucleotide Base Pair "ladder rungs" that hold the 2 Sugar-Phosphate heli into the Double Helix configuration. **Celestaline** is the "**chemical of atomic transmutation**". It is the natural chemical product that forms in the chemical DNA through **activation of the Turn-Stile DNA Sequences** within the Hydrogen Bonds, when the particles and anti-particles in the **DNA Template Vector Codes** fuse to transform the **Base-Acceleration Code Pair** of each Keylon/Fire Letter into an electromagnetic **Micro-Merkaba Field.**

Celestaline "turns on" the Intron DNA Sequences (non-coding "**Junk DNA**" sequences **between** active Exon sequences in individual genes) in **individual genes**, allowing the **Intron sequences** in the **smallest gene** to duplicate the **Exon sequences** in **next largest gene**, **transmuting the smaller gene** into **a copy** of the larger gene. This process allows the 12 Primary Gene/Exon Sequences and 12 corresponding Intron Sequences in a **single natural chromosome** to fuse into **one long gene/Exon-Intron sequence** that is the **replica** of the **gene-Exon/Intron sequences** of the **next largest** chromosome. ("Gene/Exon and Intron Sequences 1-12 of Chromosome-1 **merge** into

one sequence that is the replica of the Gene/Exon and Intron Sequence of Chromosome-2, etc.). If the DNA Template is **working properly**, once the **first segment** of Turn-Stile DNA is activated and the **first set of 12 corresponding Nucleotide Base Pairs fuse** to form **Celestaline** within the Nucleotide Base Pair Hydrogen Bonds, an **incredibly rapid chain reaction** occurs in the **DNA Template** and **chemical DNA.** The gene/Exon-Intron sequences in Chromosome-1 transmute to replicate those in Chromosome-2, triggering Chromosome-2 to initiate the **same process** with Chromosome-3, etc. Once the set of **12 natural chromosomes** corresponding to **1 DNA Strand Template** (and one dimensional frequency band) "**fires**", a sufficient amount of **Celestaline** is **built up** in the chemical DNA, to trigger the **same process** within the next **DNA Strand Template**. As each portion of the Turn-Stile DNA activates in **each chromosome**, in **each DNA Strand Template** and chemical DNA "ladder", triggered by the production of Celestaline from the chromosomes of the Strand before, yet **another type** of **as-yet-unidentified chemical DNA sequences**, called **Interface DNA Sequences**, emerge. When a sufficient amount of Celestaline is produced by activation of the Turn-Stile DNA Sequences in each gene and chromosome of the **first 3 DNA Strand Templates**, new sequences of chemical **Interface DNA Sequences** appear first **between each chromosome**. Celestaline production **continues and accelerates** in the DNA and **cell nucleus** as the Interface DNA Sequences progressively **link together and merge** the **12 natural chromosomes** from **each** of the first **3 DNA Strand Templates**. This forms what is called a "**Bonded Chromosome**", a group of 12 specific full chromosomes "bonded together" via the activated interface DNA Sequence, to form one "super-chromosome", the "Bonded Chromosome".

As the 12 previously separate chromosomes from each of 3 DNA Strand Templates merge to form 3 Bonded Chromosomes (one for each DNA Strand Template 1-2-3), the **second series** of **Interface DNA Sequences** forms **between each of the 3 Bonded Chromosomes**; this begins the process called **DNA Strand Braiding**. In DNA Strand Braiding, the **2 Heli** of the chemical DNA sequences corresponding to Double Helix **DNA Strand Template-1** de-polarize and merge into a transient, **singular electrical antiparticle Helix** called a "**Conjugate Phantom**". (**Note**: The term "**Conjugate**" refers to the passing of a chemical DNA sequence that emerges from one Strand Template into **braiding or bonding** with a corresponding DNA sequence emerging from the Strand Template that is next in sequence within the dimensional scale. The term "**Phantom**" refers to the fact that in this process of DNA Strand Braiding, or "Strand Conjugation", the DNA sequence being transferred appears to "unravel" in structure as it depolarizes to form a single anti-particle helix. As the DNA sequence de-polarizes and seemingly "de-manifests" from its original position in the DNA chain, it leaves behind a **transient**, or temporary "partial imprint" or "**phantom**" of its former structure within the chemical DNA sequence from which it transferred.) Once formed, the Conjugate Phantom (single de-polarized, electrical heli) then **electromagnetically bonds** to the **Hydrogen Bonds** (Hydrogen molecules that link Nucleotide Bases into Base Pairs on the "rungs" of the DNA "ladder") of the **magnetic particle heli** of the chemical DNA sequence corresponding to the Strand-2 Template. As the chemical DNA sequences corresponding to DNA Strand Templates 1 and 2 bond, the **same process is set in motion** between DNA Strand Templates **2 and 3**, etc. As the levels of Celestaline continue to increase, a **critical mass of Celestaline** is manufactured within the Hydrogen Bonds to sufficiently transfer the Celestaline chemical blueprint from **the cell nuclei into the cells** (via messenger RNA) as **chemical instructions** for production of new, **highly complex amino-acid chains** and proteins. The new protein "chemical building blocks" produce a variety of different **chemical-hormonal "Celestaline carriers"**. Through the chemical-hormonal Celestaline carriers, **Celestaline blueprint** is **transferred into the bloodstream and all chemical-hormonal systems** of the brain and body.

As the Celestaline blueprint enters the **blood and hormonal systems**, **a rapid succession of biochemical changes** occur within the **glands, organs, nervous system, brain and blood**. Briefly, the Celestaline blueprint causes **chemical-elemental interactions** to occur within the **nucleus of red blood cells** and within certain **fluid and hormonal secretions**. The chemical-elemental interactions between specific body fluids and the Celestaline blueprint in the body cells cause the **temporary formation** of minute **"Blood Crystals"**, **"Hormone Crystals"** and transmutation and crystallization of **portions of the body's water molecules** into a **silica-like, radioactive, crystalline element** called **CELESMA** (sel-ez'ma'-meaning "of D-12 Celestaline conversion"). Celesma, or **Celesmaic** (sel-ez'-mA'-ik) **Crystal**, as it is often called, is a transient **Super-luminal Trans-harmonic ELEMENT**. The spin rate of Celesma atoms is faster than the speed of light, making the substance "**Super-luminal**" and it **cannot be chemically split** into simpler substances, which qualifies it as an **element**. Celesma forms only through the process of **internal, nuclear fusion between specific particle and anti-particle pairs** from **two separate 3-dimensional systems**, matter Density Levels or "**Harmonics**" of matter density, thus the element Celesma is "**Trans-harmonic**". The element Celesma itself is **transient** in that it breaks down into unstable sub-atomic units shortly after its formation during the cellular transmutation process; but it leaves behind a "**Phantom Residue**" after a biological form has completed its physical transmutation out of Density-1 (later discussed). The formation of the minute **"Blood, Hormone and Celesmaic Crystals"** within the body indicates that the **quantity** of Celestaline blueprint transported by the chemical-hormonal "Celestaline carriers" has reached a **critical mass** within the body cells, through which the processes of **internal atomic fusion** and **molecular transmutation** will begin. As the Celestaline blueprint reaches critical mass within the blood, fluids and hormonal systems, and a critical mass of Blood, Hormone and Celesmaic Crystals form, the **atomic structure of the body** enters a phase of "**metamorphosis**".
